*Nuxulbari*—This is a class IIIA dispensary. The dispensary is situated in the Terai, about 16 miles from Silligoree. It is placed near a large bazar chiefly occupied by Kayah traders To this bazar large numbers of people come once a week in hât days. Many of the people frequenting this hât are Nepalese, as the Nepal frontier is not more than half a mile from Nuxulbari. The dispensary is a mat building with a grass roof. The dispensary is entirely supported from the "One Anna Cess Fund," a local fund raised in the Terai, to be expended in sanitary and other improvements by the Deputy Commissioner of the district. The Assistant Commissioner of Kurseong visited it in November. It was also visited by the Civil Surgeon on the 27th November last A civil hospital assistant was in charge, who received his grade pay Rs. 25 from local funds. There were treated 18 out-patients, with a daily average of one. The Civil Surgeon says that "I should imagine that this sick-rate bears but a small proportion to the amount of sickness among the people living in the neighbourhood of the dispensary." No major or minor operations were performed. The total expenditure was Rs. 65, whereof Rs. 55 represent the cost of establishment. The expenditure on miscellaneous items was Rs. 10. The total income of the dispensary was Rs. 65 from the local funds.

**Julpigoree district.** The general health of the district during the year under review was not so favourable as in the previous year. The total number of deaths recorded was 11,391 against 10,818 in 1883 and 8,924 in 1882. Though the epidemic of cholera was not so virulent as in the previous year, still it prevailed in the district in a milder form, and caused 205 deaths against 2,430 in 1883. The heaviest mortality in the year was attributable to fever, which was epidemic in this malarious district. It prevailed all round the year in every part of the district, and the total number of deaths was 10,614 against 7,796 in 1883. There were at the end of the year four dispensaries in the district, the same as in the previous year: two belonged to class IIIA and two to class IIIB. All the institutions were under the charge of civil hospital assistants. The dispensaries at Julpigoree, Titalyah, and Alipore treated both in-door and out-door patients; the one at Boda out-door patients only. The total number of patients treated was 345 in and 11,325 out against 339 and 8,777 in the previous year, the daily averages being 12 and 81 against 13 and 65 respectively. These figures, says the Civil Surgeon, may be accepted as correct. The Civil Surgeon reports that at Julpigoree the Deputy Commissioner and a few members of the managing committee take lively interest in the management of the dispensary, but no apparent interest is shown by the managing bodies of other dispensaries. The large number of attendance to the

dispensaries from all classes of people shows, however, that the institutions are much appreciated by the public.

*Julpigoree.*—A class IIIB dispensary, governed by the Julpigoree union, headed by the Deputy Commissioner. Six meetings were held. Visited once by the Commissioner, and occasionally by the Deputy Commissioner, District Superintendent of Police, and Deputy Magistrates. The Civil Surgeon visited it daily. A civil hospital assistant was in charge, who was paid Rs. 55 monthly by the union and Rs. 10 by Government for attendance on the Normal School. There were treated 282 in and 5,889 out-patients against 288 and 4.268 in 1883. The daily averages were 9 and 33 against 11 and 23 respectively. There was a considerable increase in the number of out-door patients. This was owing to the severe outbreak of fever in the town. There were 51 deaths among in-patients, or a rate of 18·08 per cent. against 70 and 24·3 in 1883. The heavy mortality is said to be due to the admission of moribund cases that are brought in by the police from the road or riversides, where they are generally left by their friends when the cases become hopeless. Sixteen major and 182 minor operations were performed. The total expenditure was Rs. 1,620, of which Rs. 1,032 represent the cost of establishment and Rs. 94 of Europe medicines which were obtained from Government stores and by private purchase on indents checked by the Civil Surgeon. The cost of bazar medicines was Rs. 51, and of diet Rs. 232. The expenditure on buildings was Rs. 38, and on miscellaneous items Rs. 172. The income consisted of Rs. 424 paid by the municipality, and Rs. 271 and Rs. 856 realized as subscriptions from Europeans and natives respectively. Government gave Rs. 38, namely Rs 7 for forms and registers and Rs. 31 for diet of police cases.

*Boda.*—A class IIIA dispensary under the management of a committee, which held four meetings, visited three times by the District Superintendent of Police, and once by the Deputy Commissioner. The Civil Surgeon paid two visits. A civil hospital assistant was in charge. There were treated 1,864 out-patients with a daily average of 18 against 1,515 and 16 in 1883. No in-patients. Eighty-three minor operations were performed. No major operation. The total expenditure was Rs. 699, of which Rs. 504 were expended on establishment, Rs. 97 on Europe medicines, and Rs 9 on bazar medicines. The expenditure on building was Rs. 68, and on miscellaneous items Rs 21. The income from local or other funds was Rs. 68 and from subscriptions Rs. 617. Government contributed Rs. 3 in forms and registers. There was a cash balance of Rs. 48 at the end of the year.

*Titalyah.*—A class IIIA dispensary, entirely supported by the Chaklajat estate of Cooch Behar, and governed by a committee, which met only once during the year. It was visited once by the Superintendent of Vaccination, Darjeeling Circle, and twice by the District Superintendent of Police. The Civil Surgeon paid two visits. A civil hospital assistant was in charge, who received Rs. 25 per mensom from the Cooch Behar State. There were treated 47 in and 3,006 out-patients against 36 and 2,350 in 1883, the daily averages were 1·8 and 22 against 1·9 and 18 respectively. There was an increase of both in and out-door patients owing to the prevalence of fever in the district during the year. There were 7 deaths, or a rate of 14·89 per cent. against 8 and 22 in the previous year. Eighty-two minor operations were performed. No major operation. The total expenditure was Rs. 734, of which Rs. 502 represent the cost of establishment and Rs. 78 that of diet. The amount expended on bazar medicines was Rs 44, and on miscellaneous items Rs. 43. The cost of Europe medicines obtained from Government stores was Rs. 67. Government contributed Rs. 3 for forms and registers. The amount of local subscriptions was Rs. 732.

*Alipore Buxa.*—The report was submitted by Surgeon-Major Wright, the Military Surgeon of Buxa, Bhootan, who was Superintendent of the dispensary, and conducted the civil duties of the station. The dispensary is a class IIIB institution. A civil hospital assistant was in charge. There were treated 16 in and 566 out-patients against 15 and 644 in 1883. The daily averages were 0·60 and 5 against ·6 and 7 respectively. Seven minor operations were performed. No major operation. The institution was inspected twice by the Civil Surgeon. The total expenditure was Rs. 419, of which Rs. 192 were expended on establishment, Rs. 16 on Europe medicines, and Rs. 5 on bazar medicines. The cost of diet was Rs. 12. The expenditure on buildings was Rs. 22, and on miscellaneous items Rs. 9. Government contributed Rs. 120 as pay of the civil hospital assistant and as forms, the cost of which was nominal. At the end of the year there was a cash balance of Rs. 41. The dispensary had an invested capital of Rs. 476 on the 31st December 1884.

## ORISSA DIVISION.

**Cuttack district.**

The Civil Surgeon says that the general health of the district has not been satisfactory owing to the unusual prevalence of cholera in most parts of it. Insanitary surroundings in villages and impure drinking water were the chief predisposing causes. The influx of pilgrims, and communication with them by travellers and residents of the district, are the causes of the propagation of the disease. There were eight dispensaries in the district and in Tributary Estates. Of these two were in class I, two in class II, one in class IIIA, and three in class IIIB. Two Assistant Surgeons and six civil hospital assistants were in charge. There were treated 1,034 in and 40,430 out-patients against 892 and 39,468 in 1883, the daily averages being 66 and 324 against 54 and 320 respectively.

*Cuttack General Hospital.*—A class IIIB institution supported by the Unnochutter Fund, and managed by a committee which met three times during the year. A first grade Assistant Surgeon was in charge, whose entire salary was paid by Government. The hospital was visited daily by the Civil Surgeon, and oftener when necessary, and by the district officials on three occasions. There were treated 666 in and 5,261 out-patients against 551 and 5,378 in 1883, the daily averages being 50 and 29 against 40 and 28 respectively. The number of deaths in the hospital was 106 against 83 in 1883. Many of the deaths were among pilgrims who were admitted into the hospital in the last stage of the disease. Sixty-eight major and 289 minor operations were performed. Six deaths resulted after operation. The total expenditure was Rs. 8,592, of which Rs. 3,448 were the cost of establishment, Rs. 352 of English, and Rs. 182 of country medicines. The expenditure on diet was Rs. 1,352, and on miscellaneous items Rs. 2,757. Government contributed Rs. 2,412, namely Rs. 2,400 as salaries and Rs. 12 as cost of forms and registers. Rupees 5,216 were obtained from Unnochutter fund. Municipality paid nothing. The interest on investments was Rs. 73. Rupees 5 were obtained as minor receipts. There was a cash balance of Rs. 246 at the end of the year.

*Cuttack Branch Dispensary.*—A class IIIB out-door institution, visited by the Civil Surgeon daily. The Commissioner of the division and the Chairman and Vice-Chairman of the municipality are said to have visited it several times during the year. A civil hospital assistant was in charge. There were treated 10,809 out-patients against 11,111 in 1883, the daily averages being 143 and 140 respectively. Thirty-eight major and 483 minor operations were performed. The total expenditure was Rs. 1,163, whereof Rs. 635 were the cost of establishment, Rs. 313 of Europe medicines, and Rs. 88 of country medicines. The expenditure on buildings was Rs. 26, and on miscellaneous items Rs. 99. Government paid annas 5 as cost of forms and registers. Municipality paid Rs. 428.

*Jajpore.*—A municipal dispensary in class II in charge of the hospital assistant of the sub-division. The Civil Surgeon inspected it three times during the year. The district officer paid two visits, and the sub-divisional officer several. There were ten meetings of the committee during 1884. There were treated 46 in and 2,685 out-patients against 43 and 1,782 in 1883, the daily averages being 1 and 32 against one and 21 respectively. The number of deaths was 10. The death-rate in the hospital, the Civil Surgeon says, affords no index of the mortality outside, as most of the in-door patients are pilgrims; residents of the neighbourhood do not remain as in-door patients, except for severe surgical affections. Seven major and 153 minor operations were performed. The total expenditure was Rs. 742, whereof Rs. 539 were the cost of establishment, Rs. 65 of Europe medicines, and Rs. 17 of country medicines. The cost of diet was Rs. 38. The expenditure on buildings was Rs. 24 and on miscellaneous items Rs. 57. Government paid Rs 6 as cost of forms and registers. Municipality paid Rs. 665. Subscriptions from natives and local funds were Rs. 65, viz. Rs. 5 and Rs. 60 respectively.

*Kendraparah.*—A municipal dispensary in class II, managed by the local municipality. The district officer paid one and the Civil Surgeon three visits during the year. Fourteen meetings were held by the Municipal Commissioners. The civil hospital assistant of the sub-division was in charge. There were treated 18 in and 2,642 out-patients against 25 and 2,239 in 1883, the daily averages being ·4 and 28 against 62 and 27 respectively. Four deaths occurred among in-patients. Fifteen major and 115 minor operations were performed. No deaths followed any operation. The total expenditure was Rs. 975, of which Rs. 659 represent the cost of establishment, Rs. 86 of Europe medicines, and Rs. 24 of bazar medicines. Diet cost Rs. 14. The expenditure on buildings and repairs was Rs. 107, and on miscellaneous items Rs. 84. Government paid Rs. 17, viz. Rs. 6 as cost of forms and registers, and Rs. 11 for diet of police cases. Municipality paid Rs. 402. Subscriptions from natives were Rs. 227 Rupee 1 was obtained as interest on investments.

*Dhurmsala.*—A class IIIB dispensary under the management of a committee consisting of the same members as the Cuttack General Hospital Committee, with the addition of the founder of the institution and his manager. A civil hospital assistant was in charge. There were three meetings of the committee during the year. No district officer visited the institution. Visited three times by the Civil Surgeon. There were treated 144 in and 4,052 out-patients against 131 and 4,340 in 1883, the daily averages being 5 and 37 against 4 and 36 respectively. Among in-patients 20 deaths occurred against 15 in 1883. Three hundred and twenty-seven minor operations were performed. No major operation The total expenditure was Rs. 1,283, whereof Rs. 812 represent the cost of establishment, Rs. 71 of Europe medicines, and Rs. 65 of country medicines. The cost of diet was Rs. 173. The expenditure on buildings and repairs was Rs. 100, and on miscellaneous items Rs. 61. Government paid Rs. 306, namely Rs. 300 as salaries and Rs 6 in forms and registers. Subscriptions from natives were Rs. 1,000. There was a cash balance of Rs. 22 at the end of the year.

*Dhenkanal.*—A class IIIA institution, entirely maintained by the Tributary Estate of Dhenkanal. The manager of the estate is said to look into all matters of importance affecting the dispensary, under the orders of the Superintendent of the Tributary Mehals. Steps were taken to form a dispensary committee, but a sufficient number of educated residents could not be obtained. The Superintendent of the Tributary Mehals once visited the institution, and the Civil Surgeon twice. An Assistant Surgeon was in charge. There were treated 141 in and 7,359 out-patients against 125 and 8,249 in 1883, the daily averages being 7 and 30 against 7 and 38 respectively. There was one death among the

in-patients. Three major and 160 minor operations were performed. The total expenditure was Rs. 3,055, of which Rs. 2,386 represent the cost of establishment, Rs. 231 of Europe medicines, and Rs. 25 of bazar medicines. The cost of diet was Rs. 306. The expenditure on miscellaneous items was Rs. 106. Government paid Rs. 7 as cost of forms and registers. Rupees 3,048 were obtained from Dhenkanal Estate.

*Ungul.*—A dispensary in class I, entirely supported by Government. It is situated in the Government estate of Ungul. It is under the direct management of the tehsildar, subject to the Superintendent of Tributary Mehals. No committee can be formed, as resident members for the purpose are not available. It is situated about 60 miles west of Cuttack on the Sumbulpore road, and is not easily accessible, hence the Civil Surgeon could not inspect it. The Assistant Superintendent of Tributary Mehals visited it once during the year. A civil hospital assistant was in charge. There were treated 19 in and 5,371 out-patients against 17 and 4,470 in 1883, the daily averages being 1 and 16 against 1·1 and 22 respectively. No deaths among in-patients. Six major and 31 minor operations were performed. The total expenditure was Rs. 654, of which Rs. 503 was the cost of establishment Rs. 32 of Europe medicines, and Rs. 32 of country medicines. The expenditure on diet was Rs. 33, on building Rs. 10, and on miscellaneous items Rs. 43.

*Bisipara.*—A dispensary in class I, entirely supported by Government. It is situated in the Government Khond Mehal estate. It is about 125 miles from Cuttack on the confines of the Madras Presidency on the south and the Central Provinces on the west. Owing to its remoteness and inaccessibility by ordinary means, the Civil Surgeon has not been able to visit the place. A civil hospital assistant was in charge. The place is said to be malarious. There were treated 2,251 out-patients against 1,899 in 1883, the daily averages being 6 and 5 respectively. Three major and 15 minor operations were performed. The total expenditure was Rs. 569, of which Rs. 496 were the cost of establishment, Rs. 31 of Europe medicines, and Rs. 18 of bazar medicines. The expenditure on buildings was Rs. 11 and on miscellaneous items Rs. 12.

**Balasore district.**

The Civil Surgeon says the public health of the town and the district has not been as good as in the previous year. There was an epidemic of cholera The total mortality was considerably higher than that of the previous year. There were three charitable dispensaries in the district, all in class IIIB. In two, both in-door and out-door, patients were treated, and in one only out-door. There were treated 384 in and 7,068 out-patients against 334 and 6,949 in 1883, the daily averages being 11 and 45 against 9 and 47 respectively. Three hospital assistants were in charge.

*Balasore Pilgrim Hospital.*—A class IIIB dispensary. Visited by the Civil Surgeon daily and twice by the Commissioner. There were treated 246 in and 2,019 out-patients against 206 and 1,965 in 1883, the daily averages being 7 and 10 against 6 and 9 respectively. The death-rate among in-patients was 17·88 per cent. against 23·7 in 1883. Three major and 74 minor operations were performed. No deaths resulted. The total expenditure was Rs. 1,756, whereof Rs. 481 represent the cost of establishment, Rs. 62 of Europe medicines, and Rs. 29 of country medicines. The cost of diet was Rs. 303. The expenditure on buildings was Rs. 154, and on miscellaneous items Rs. 131. Government paid Rs. 31, namely Rs. 24 as special allowance, Rs. 3 as cost of forms and registers, and Rs. 4 for diet of police cases. Municipality contributed Rs. 309. Rupees 922 were obtained from local funds and Rs. 3 as interest on investments. Subscriptions from Europeans and natives were Rs. 174 and Rs. 91 respectively. Rupees 104 were withdrawn from savings bank. There was a cash balance of Rs. 2,706 and an invested capital of Rs. 2,539 at the end of the year.

*Bhuddruck.*—A class IIIB dispensary under the management of a committee, which met nine times during the year. Visited four times by the Civil Surgeon. There were treated 138 in and 2,543 out-patients against 128 and 2,275 in 1883, the daily averages were 4 and 15 against 3 and 15 respectively. There were 26 deaths among in-patients. 13 major and 87 minor operations were performed. The total expenditure was Rs. 1,527, whereof Rs. 730 represent the cost of establishment, and Rs. 14 of country medicines. Europe medicines to the value of Rs. 152 were purchased during the year, but not paid for. The cost of diet was Rs. 147. The expenditure on buildings was Rs. 98, and on miscellaneous items Rs. 29. Government paid Rs. 603, of which Rs. 500 were for salaries, and Rs. 3 for forms and registers, and Rs. 100 as special allowance for Europe medicines. There was a cash balance of Rs. 770, and an invested capital of Rs. 5,349 at the end of the year.

*Shamanund Dey's Dispensary.*—A class IIIB dispensary, managed by a committee which held no meetings during the year. The Secretary, who is the son of the founder of the institution, attends to its wants. Visited frequently by the Civil Surgeon. There were treated 2,506 out-patients against 2,709 in 1883, the daily averages being 20 and 23 respectively. No in-patients are treated. Minor operations numbered 132. No major operation. The total expenditure was Rs. 581, of which Rs. 429 represent the cost of establishment, Rs. 104 of Europe medicines, and Rs. 16 of bazar medicines. The expenditure on miscellaneous items was Rs. 31. Government supplied forms and registers, the value of which was Rs. 6. Rupees 30 were obtained as interest on investments. There was a cash balance of Rs. 63 at the end of the year. The hospital has a capital of Rs. 6,500 invested in landed property and in Government securities.

Pooree district.

The Civil Surgeon says that the public health of the district was not so good as in 1883. Cholera and bowel-complaints were more prevalent and fatal. There were three dispensaries in the district—one in class I, one in class II, and the third in class IIIB—all of which received both in-door and out-door patients. There were treated 692 in and 12,433 out-patients against 559 and 12,326 in 1883, the daily averages being 21 and 69 against 18 and 72 respectively. The Civil Surgeon says that the means taken to verify the attendance was by personal inspection of the figures of the registers and returns, which are regarded as correct. All the dispensaries were in charge of civil hospital assistants. The managing bodies are said to take an interest in the well-being of the institutions, and as a rule it is the poorer classes who appreciate the relief afforded by these charities; but among the pilgrim sufferers the Civil Surgeon has occasionally noticed that patients of a class superior to the ordinary class of the local patients have applied for relief. With few exceptions, the well-to-do classes do not for themselves seem to appreciate these institutions, and, along with others, social considerations no doubt operate in this direction.

*Pooree.*—A class II dispensary, managed by the local municipality, which held 12 meetings during the year. Visited daily by the Civil Surgeon and once by the Magistrate. There were treated 465 in and 4,035 out-patients against 369 and 4,190 in 1883, the daily averages being 15 and 28 against 12 and 32 respectively. There were 152 deaths among in-patients against 109 in 1883. Twelve major and 259 minor operations were performed. No deaths resulted from operation. The total expenditure was Rs. 2,142, of which Rs. 1,202 were the cost of establishment, Rs. 186 of Europe medicines, and Rs. 60 of bazar medicines. The cost of diet was Rs. 538. Rupees 105 were spent on miscellaneous items. Government paid Rs. 8 in forms and registers. Municipality paid Rs. 1,734. Government also paid Rs. 49 as special allowance for repairs to the buildings which were undertaken by the Public Works Department. Rupees 13 were obtained as interest on investments. There was an invested capital of Rs. 27 at the end of the year.

*Piplee.*—A class IIIB dispensary under the management of the Pooree lodging-house committee which met 12 times during the year. Once visited by the District Magistrate and three times by the Civil Surgeon. There were treated 138 in and 1,749 out-patients against 113 and 1,688 in 1883, the daily averages being 3 and 18 against 2 and 15 respectively. There were 37 deaths among in-patients against 20 in 1883 Two major and 122 minor operations were performed. There were no deaths after operation. The total expenditure was Rs. 1,342, of which Rs. 813 was the cost of establishment, Rs. 91 of Europe medicines, and Rs. 32 of bazar medicines. The cost of diet was Rs. 108. The expenditure on buildings was Rs. 245, and on miscellaneous items Rs. 51. Government paid Rs. 302, namely Rs. 300 as salaries and Rs. 2 as cost of forms and registers. From local funds were obtained Rs. 1,039. There was no cash balance at the end of the year.

*Khorda.*—A class I dispensary, entirely supported by Government. It is under the management of a local committee, which met five times during the year. Once visited by the Commissioner of the division, twice by the District Magistrate, five times by the sub-divisional officer, and three times by the Civil Surgeon. A civil hospital assistant was in charge. There were treated 89 in and 6,649 out-patients against 77 and 6,448 in 1883, the daily averages being 2 and 22 against 3 and 23 respectively. There were eight deaths among in-patients, or a rate of 8·98 per cent. Four major and 240 minor operations were performed. No deaths after operation. The total expenditure was Rs. 616, of which Rs. 324 represent the cost of establishment, Rs. 29 of Europe medicines and Rs 95 of bazar medicines. The expenditure on diet was Rs. 88 and on miscellaneous items Rs. 79.

## Dacca Division.

Dacca district.

With regard to the public health of the district, the Civil Surgeon says that the year 1884 must be regarded on the whole a healthier one generally than the preceding year. There were nine dispensaries at the end of the year, of which two belonged to class II, five to class IIIA, and two to class IIIB. Excepting the Mitford Hospital at Dacca, which was under the charge of an apothecary, and the dispensary at Maluchi, which was under that of an Assistant Surgeon, all the dispensaries were in charge of civil hospital assistants. The Mitford Hospital and the dispensaries at Joydebpore, Moonshigunge, Naraingunge and Maluchi received both in-door and out-door patients; the rest out-door patients only. There were treated 2,266 in and 41,387 out-patients against 1,987 and 39,697 in 1883, the daily averages were 106 and 262 against 99 and 261 respectively. The Civil Surgeon believes the statistics of the Mitford Hospital to be nearly perfectly accurate, but does not vouch for the accuracy of the others. Two of these dispensaries are managed by municipalities and the rest (seven) by private committees. Regarding the interest taken in these institutions by the governing bodies, the Civil Surgeon says:—"As in previous years, the control of the committees was in most cases purely nominal. The exceptions were at Moonshigunge and Maluchi. At these the committees met frequently during the year. Joydebpore and Baliati are really private dispensaries, more or less carefully controlled by the gentlemen who supply the funds. Bhagyakul is of the same nature, but the donors of the fund take no real interest in it, and it is consequently much mismanaged."

*Mitford Hospital.*—A municipal hospital in class II. The complete transfer of the funds of the hospital to the municipality was made on the 16th of January 1884. The committee has ceased to exist, and its affairs were considered at meetings of the Municipal Commissioners. Individual members of the municipality have officially visited the hospital once or twice during the year. The Civil Surgeon, who is responsible for its general management, and checks all bills and supplies, visited the hospital daily. First grade apothecary G. H. Campbell continued in charge. He was assisted in his work by the teachers of the Medical School, two civil hospital assistants, permanently attached to the hospital, and by the supernumerary Assistant Surgeons and civil hospital assistants, who were attached to it. There were treated 1,971 in and 17,787 out-patients against 1,719 and 16,155 in 1883, the daily averages were 95 and 115 against 86 and 101 respectively. The new female ward with 20 beds, which was opened in April 1883, has made more space available for male patients, and it has been eagerly taken up, showing that the hospital lost nothing of its popularity. Since the commencement of the Dacca and Mymensingh Railway the necessity of providing accommodation for European patients in accordance with the provisions of the Pogose and Bargin legacies has begun to force itself forward, and Government in the Railway Department has consented to give Rs. 5,000 to aid this purpose. The number of deaths among in-patients was 279, or a rate of 14·15 per cent of the total treated, against 218 and 12·6 in the previous year. The increased mortality was, it is stated, due to the large number and fatal character of the cases of cholera treated in 1884. The number of major operations performed was 161 against 148 in 1883. Of these 40 were performed by the Superintendent and 121 by the medical subordinates. Only 11 deaths resulted from these operations, or 7·0 per cent. against 7·4 in the previous year. Minor operations numbered 2,284. The total income of the hospital during the year, including Government contribution for registers and forms, was Rs. 17,302, of which the municipality paid Rs. 6,448. The total expenditure was Rs. 17,302, whereof Rs. 8,852 represent the cost of establishment. The cost of Europe medicines was Rs. 1,763 against Rs. 1,091 in 1883. The causes of this increased expenditure were that in addition to the bill for the previous year, amounting to Rs. 1,027, Rs. 476 were paid for medicines purchased locally and from Calcutta, pending the arrival of the new supply from England, which was delayed by a fire on board the steamer in which it was shipped, and Rs. 138 were paid as landing charges on these when they did arrive. The expenditure on bazar medicines was Rs. 73, on diet Rs. 4,890, and on miscellaneous items Rs. 1,724. At the end of the year there was a capital of Rs. 1,69,800 wholly invested in Government papers. All this money, with the exception of Rs. 100, which the purveyor holds as a permanent advance, was paid to the Chairman of the municipality on the 18th January 1884, and in his hands the whole funds of the hospital are now vested.

*Naraingunge.*—This is a class II dispensary, entirely supported by the municipality. Its affairs are considered at the ordinary monthly meetings of the Municipal Commissioners. Visited six times by the Civil Surgeon, but by no civil officers. A civil hospital assistant was in charge. There were treated 90 in and 4,386 out-patients against 74 and 3,639 in 1883, the daily averages were 2·83 and 22 against 3 and 18 respectively. The number of deaths among in-patients was 29, or a rate of 32·22 per cent. Thirteen major and 236 minor operations were performed. The total expenditure was Rs. 1,064, of which Rs. 780 represent the cost of establishment. The cost of Europe medicines was Rs. 95, and of bazar medicines Rs. 59. The expenditure on diet was Rs. 66, on buildings Rs. 2, and on miscellaneous items Rs. 61. Government contributed Rs. 14, namely Rs. 7 in forms and registers and Rs. 7 for diet of police cases. The Naraingunge Municipality paid Rs. 1,030. There was a floating balance of Rs. 20 on the 1st January 1884.

*Moonsheegunge.*—This is a class IIIA sub-divisional dispensary under the management of a committee which met eight times during the year. It was visited three times by the Civil Surgeon, but by no civil officers. The civil hospital assistant in charge of the sub-division was in charge, and received Rs. 20 monthly from the dispensary funds in addition to Rs. 25 for sub-division and Rs. 10 for lock-up from Government. There were treated 3 in and 2,812 out-patients against 13 and 2,819 in 1883, the daily averages were ·16 and 13 against ·3 and 14 respectively. There was no regular arrangement for in-patients, a few every year, chiefly police cases, were so treated. There were no deaths among in-patients. The total expenditure was Rs. 506, of which Rs. 288 represent the cost of establishment, Rs. 50 of Europe medicines, and Rs. 26 of bazar medicines. The amount expended on buildings was Rs. 7, and on miscellaneous items Rs. 19. The cost of forms obtained from Government was Re. 1-5-8. Rupees 275 were obtained from local funds, Rs. 2 as interest on investments, and Rs 258 as subscriptions from natives. The dispensary had an invested capital of Rs. 340 at the end of the year.

*Manickgunge.*—A class IIIA sub-divisional dispensary under the management of a committee which met three times during the year. Visited twice by the Civil Surgeon, but by no civil officers. A civil hospital assistant was in charge, who was paid Rs. 10 per mensem from the dispensary fund. 2,254 out-patients were treated against 2,096 in 1883. The daily average was 21 against 19. No in-patients. Malarious fevers were the prevailing diseases. One major and 184 minor operations were performed. The total expenditure was Rs. 358, of which Rs. 170 were the cost of establishment, Rs. 138 of Europe medicines, and Rs. 17 of bazar medicines. The expenditure on buildings was Rs. 5, and on miscellaneous items Rs. 16. Rupees 11 were invested during the year. Government contributed forms and registers, the cost of which was Rs. 3.

*Maluchi.*—A class IIIA dispensary supported by an estate, and managed by a committee which met 15 times during the year. Visited once by the District Magistrate and once by the sub-divisional officer. It was inspected once by the Civil Surgeon. An Assistant Surgeon was in charge, who received Rs. 100 per mensem from the dispensary funds. There were treated 164 in and 2,917 out-patients against 141 and 3,673 in 1883, the daily averages were 6 and 14 against 8 and 29 respectively. The decrease in the number of out-patients the Assistant Surgeon attributed to an improvement in the public health, and the Civil Surgeon believed it to be the true explanation. There was a severe spring epidemic of cholera in the neighbourhood of the dispensary, and both the Assistant Surgeon and a civil hospital assistant were deputed on special duty to afford medical aid to the sufferers for some weeks. Sixteen major and 64 minor operations were performed. The total expenditure was Rs. 2,251, whereof Rs. 1,390 was the cost of establishment, Rs. 276 of Europe medicines, and Rs. 31 of bazar medicines. Diet cost Rs. 323. The expenditure on miscellaneous items was Rs. 206. The cost of forms received from Government was Rs. 4. Rupees 24 were invested during the year

*Joydebpore.*—This is a class IIIA dispensary entirely supported by Kumar Rajendra Narain Roy Chowdhuri of Bhawal There was a nominal dispensary committee which met from time to time informally, but its affairs were really in the hands of Baboo Kali Prosana Ghosh, the Kumar's manager. Visited once by the Civil Surgeon. A civil hospital assistant was in charge, who received Rs. 60 per mensem from the dispensary funds. There were treated 38 in and 2,806 out-patients against 40 and 2,703 in 1883, the daily averages were 1·19 and 15 against ·94 and 15 respectively. There was accommodation for four in-patients in this dispensary. Since the commencement of the Dacca and Mymensingh State Railway, which passes through Joydebpore, the number of in-door patients has risen from 20 or 22 to 38 and 40 annually, chiefly railway employés. Five deaths occurred among in-patients. Malarious fevers, skin diseases and lungs affections were the prevailing diseases. Four major and 214 minor operations were performed. The total expenditure was Rs. 1,132. of which Rs. 938 were the cost of establishment, Rs. 72 of Europe medicines, and Rs. 16 of bazar medicines The expenditure on diet was Rs. 57, and on miscellaneous items Rs. 48. Government paid Re. 1 as cost of forms and registers. There was a cash balance of Rs. 98 at the end of the year.

*Bhagyakul.*—A class IIIA dispensary. A nominal committee existed, which did not meet for several years. The affairs of the dispensary were left in the hands of the civil hospital assistant in charge. It was visited once by the Civil Surgeon. 2,959 out-patients were treated, with a daily average of 14 against 2,905 and 15 in 1883. No in-patients. Six major and 191 minor operations were performed. Besides the hospital assistant, who was paid Rs. 30 monthly, the subordinate establishment consisted of a compounder on Rs 8 and a servant on Rs. 4. The total expenditure was Rs. 1,018, of which, however, Rs. 141 ought to have been debited to 1883, being arrears in the pay of the establishment, &c., for that year. The cost of establishment was Rs. 630, Rs. 206 of Europe medicines, and Rs. 26 of bazar medicines The expenditure on buildings and repairs was Rs. 86, and on miscellaneous charges Rs. 70. Government contributed forms and registers at a cost of Rs. 2. The income of the institution was Rs. 916 from private sources.

*Joinshar.*—It is a class IIIB institution, managed by a committee, which never met during 1884. It was visited twice by the Civil Surgeon. A civil hospital assistant was in charge, who received Rs. 30 per mensem, half from Government and half from the dispensary funds. There were no in-patients. 2,137 out-patients were treated with a daily average of 19· against 2,374 and 21· in 1883. Three major and 508 minor operations were performed. The total expenditure was Rs. 558, whereof Rs. 387 represent the cost of establishment, Rs. 40 of Europe medicines, and Rs. 43 of bazar medicines. The expenditure on miscellaneous items, inclusive of a house rent of Rs. 60, was Rs. 89. Government contributed Rs. 179, namely Rs. 178 as half pay of the medical subordinate and Re. 1 as cost of forms and registers. The dispensary had an income of Rs. 380 from native subscriptions.

*Bo[illegible]ti.*—This is also a class IIIB institution under the management of a committee which never meets. It is actually managed by the Secretary, who pays all the expenses, except the half pay of the medical subordinate, which is paid by Government. It was inspected twice by the Civil Surgeon. Besides the civil hospital assistant, who gets Rs. 27-8 monthly, there is a compounder on Rs. 8, a dresser on Rs. 3, and a cooly on Rs. 5. No in-patients. There were treated 3,329 out-patients with a daily average of 24 against 3,333 and 24 in 1883. Goitre, malarious fever, and skin diseases were the most common ailments. Ninety-eight minor operations were performed. No major operations. The total expenditure was Rs. 617, of which Rs. 522 represent the cost of establishment. The cost of Europe medicines was Rs. 49, and of bazar medicines Rs. 14. The expenditure on miscellaneous items was Rs. 32. Government contributed Rs. 153, namely Rs. 150 as half pay of the hospital assistant and Rs. 3 as cost of forms and registers. The income from native subscriptions was Rs. 480. There was a cash balance of Rs. 172 at the end of the year.

Furreedpore district.

The general health of the district during the year under report, says the Civil Surgeon, was most unsatisfactory, so much so, that it could not be compared with the previous years. The total number of registered deaths was 31,145, or a rate of 19·0 per 1,000 of population against 20,826 and 12·7 in 1883. Cholera was the most prevalent disease in the district during the year. There were three dispensaries working at the end of the year,

viz. one at Furreedpore, one at Madaripore, and the third at Goalundo. This latter was under the superintendence of a civil medical officer of its own, who submitted a separate report. The dispensaries at Furreedpore and Madaripore were in class II. The one at Goalundo in class IIIB. The dispensaries at Furreedpore and Goalundo were in charge of civil hospital assistants, and that at Madaripore under a third grade Assistant Surgeon. All the dispensaries received both in-door and out-door patients. There were treated in all 619 in and 9,956 out-patients against 545 and 12,413 in 1883. The daily averages were 22 and 48 against 22 and 52 respectively. The Civil Surgeon says that the figures given in the returns are reliable. The managing body of the Furreedpore dispensary did take some interest in their institution, though not quite to the desired extent. Four Municipal Commissioners visited the dispensary during the year. But the same cannot be said of the managing body of the Madaripore dispensary, as none of the Municipal Commissioners visited the institution. All the dispensaries are appreciated by the people for whom they are intended.

*Furreedpore.*—This is a municipal dispensary, and is in class II. It was visited three times by the District Magistrate, once each by the four Municipal Commissioners, and daily by the Civil Surgeon. A civil hospital assistant was in charge, who was paid Rs. 30 per month by the municipality. There were treated 231 in and 5,124 out patients against 221 and 6,094 in 1883. The daily averages were 10 and 20 against 10 and 22 respectively. There were 18 deaths among in-patients, or 7·7 per cent., against 8 and 3·6 in the previous year. The cause of decrease in the number of out-door patients was, it is said, due to less sickness in the locality. Eighteen major operations, of which seven were performed by the Civil Surgeon, were recorded with two deaths. Minor operations numbered 122. The total expenditure was Rs. 1,386, of which Rs. 635 represent the cost of establishment. Europe medicines were not purchased during the year. The supply received in December 1883 lasted throughout the year. The expenditure on bazar medicines was Rs. 120, on diet Rs. 380, and on buildings Rs. 150. Rupees 101 were spent on miscellaneous charges. Government contributed Rs. 180, namely Rs. 177 for diet of police cases and Rs. 3 in forms and registers. Municipality paid Rs. 1,058 against Rs. 902 in 1883. Subscriptions from Europeans were Rs. 52, and from natives Rs. 97.

*Madaripore.*—It is a municipal dispensary in class II. Visited once by the Commissioner of the division, and several times by the sub-divisional officer, who, however, did not make any remarks in the visitor's book. The Civil Surgeon paid two visits during the year. The civil hospital assistant of the sub-division was in charge up to 21st May 1884, after which he was relieved by a third grade Assistant Surgeon, who joined on the 22nd May. The Assistant Surgeon received his grade pay Rs. 100 from Government, and Rs 20 from the municipality for the dispensary. There was no epidemic cholera in the station, but the surrounding villages were visited by cholera, and two civil hospital assistants were deputed for the purpose. There were treated 111 in and 3,197 out-patients against 139 and 4,446 in 1883. The daily averages were 2 and 8 against 4 and 11 respectively. There were five deaths among in-patients, or a rate of 4·5 per cent., against 2 and 1·4 in the previous year. One major and 110 minor operations were performed. The total expenditure was Rs. 464, whereof Rs. 300 represent the cost of establishment. The expenditure on Europe medicines was Rs. 8, and on bazar medicines Rs. 67. The cost of diet was Rs 33 and of miscellaneous items Rs. 56. Government contributed Rs 36, namely Rs. 33 for diet of police cases and Rs. 3 in forms and registers. Municipality paid Rs. 332 against Rs. 669 in 1883. Subscriptions from natives were Rs. 96.

*Goalundo.*—A class IIIB dispensary under the management of a committee which met three times during the year. It was visited frequently by the civil medical officer, who was also the Superintendent of the dispensary, and only once by one of the members of the Committee. A civil hospital assistant was in charge, who received his grade pay Rs. 25 from the dispensary funds, Rs. 30 from the labour transport funds, and Rs. 10 from Government for the lock-up. There were treated 277 in and 1,635 out-patients, against 185 and 1,873 in 1883, the daily averages being 9 and 19 against 8 and 18 respectively. Cholera was most prevalent in the sub-division during the year. It will be seen that, although there was a falling off in the total number of patients treated during the year under report, the number of in-patients was nearly doubled. This may be taken as a pretty good indication of unhealthiness amongst emigrants. The out-patients' attendance depended very much upon the railway traffic, which was unusually slack in 1884. The civil medical officer believes in the accuracy of these figures. The death-rate was 51· against 29·7 in 1883. Owing to the great increase in the number of admissions from cholera, and the greatly increased number of moribund cases admitted, the mortality was terribly high during the year. There were 9 major operations, which were performed by the civil medical officer. Minor operations numbered 96. No deaths resulted from operation. The total expenditure was Rs. 1,286, whereof Rs. 692 was the cost of establishment. The cost of Europe medicines was Rs. 56 and of bazar medicines Rs. 49. Dieting articles ost Rs. 220. The expenditure on buildings was Rs. 68 and on miscellaneous items Rs. 201. Government paid Rs. 6 as cost of forms and registers. Municipality paid Rs. 260 against Rs. 205 in 1883. The income from other sources was Rs. 1,043, and Rs. 50 were obtained by withdrawal of deposits.

**Backergunge district.** The public health of the district during the year under report was not so good as it was in 1883. The total death-rate for the district being 27·78 per 1,000 against 23·79. No epidemic appeared in any part of the district; endemic cholera prevailed, but never assumed an epidemic form. The total number of dispensaries working in the Backergunge district at the end of the year was four, namely Burrisal, Perozepore, Bhola and Patuakhally. One was in class II, one in class IIIA, and two in class IIIB; three received both in-door and out-door patients. Patuakhally dispensary, which was opened on the 16th July 1884 (Bengal Government letter No. 944T—M, dated 26th June 1884), received out-door patients only. Three were managed by private committees, and one by the municipality. There were treated 358 in and 15,673 out-patients against 312 and 11,019 in 1883, the daily averages being 15 and 74 against 12 and 50 respectively. The dispensary at Burrisal was in charge of an Assistant Surgeon, the other three under that of civil hospital assistants. The interest taken by the managing bodies, the Civil Surgeon says, is of the slightest kind. The whole question of the success or non-success of any dispensary in the opinion of the Civil Surgeon depends principally on the officer in charge. If he is fairly attentive, kindly and considerate, there will be no lack of patients. The dispensaries are said to be appreciated by the mass of the people.

*Burrisal.*—It is a municipal dispensary in class II. Visited once by the District Magistrate and daily by the Civil Surgeon. A third grade Assistant Surgeon was in charge, whose salary of Rs. 100 per mensem was paid by the municipality. There were treated 302 in and 6,659 out-patients against 266 and 6,157 in 1883. The daily averages were 13 and 26 against 10 and 24 respectively. There were 24 deaths, or a rate of 7·9 per cent. against 16 and 6 in the preceding year. Thirteen of these deaths occurred in persons admitted in a moribund condition. Thirty-three major and 237 minor operations were performed. The total expenditure was Rs. 3,379, of which Rs. 1,530 was the cost of establishment, Rs. 729 of English medicines purchased in Calcutta and England, namely Rs. 383 paid for medicines for 1884 and Rs. 346 for 1883. The cost of bazar medicines was Rs. 132 and of dieting articles Rs. 402. The expenditure on buildings was 397 and on miscellaneous items Rs. 189. Government contributed Rs. 6 in forms and registers. The municipality paid Rs. 932. The income from local or other sources was Rs. 129, from interest Rs. 354 and from subscriptions Rs. 1,650. At the end of the year the dispensary had an invested capital of Rs. 4,307.

*Perozepore.*—This is a class IIIB institution managed by a committee which met once during the year. Visited once by the Commissioner of the division, twice by the District Magistrate, twice by the Deputy Magistrate, and four times by the Civil Surgeon. A civil hospital assistant was in charge. There were treated 22 in and 2,823 out-patients against 13 and 2,115 in 1883. The daily averages were 1 and 15 against ·5 and 11 in the previous year. Ninety-five minor operations were performed. No major operation. The total expenditure was Rs. 397, whereof Rs. 240 was the cost of establishment. Bazar medicines were obtained at a cost of Rs. 39. The cost of Europe medicines paid for during the year was Rs. 15. Diet cost nothing for in-patients. The expenditure on buildings was Rs. 92 and on miscellaneous items Rs. 12. Government paid Rs. 5 for forms and registers. Municipality paid Rs. 135. Native subscriptions amounted to Rs. 168.

*Bhola.*—It is also a class IIIB dispensary governed by a committee presided over by the sub-divisional officer. There were four meetings during the year. It was visited by the Commissioner, the District Magistrate, and frequently by the sub-divisional officer. The Civil Surgeon made three inspections. The civil hospital assistant of the sub-division was in charge, who received Rs. 45 in all from Government. There were treated 34 in and 5,435 out-patients against 33 and 2,747 in 1883, the daily averages being 1 and 23 against 1 and 14 respectively. There were no deaths among in-patients. Two major and 163 minor operations were performed. The total expenditure was Rs. 515, whereof Rs. 292 represent the cost of establishment, Rs. 81 of Europe medicines, and Rs 22 of bazar medicines. Diet cost nothing. Rs. 34 represent the expenditure on miscellaneous items. Rs. 86 were invested during the year. Government paid Rs. 105, viz., Rs. 100 as salaries and Rs. 5 as cost of forms and registers.

*Patuakhally.*—This is a dispensary in class IIIA. It was sanctioned in Bengal Government No. 944, dated 26th June 1884, and opened on the 16th July 1884. It is under the management of a committee, presided over by the sub-divisional officer. Six meetings were held during the year It was visited once each by the Commissioner of the division and by the Magistrate of the district, and three times by the Civil Surgeon. The civil hospital assistant of the sub-division was in charge, who received Rs. 10 per mensem from the dispensary fund. There were treated 756 out-patients with a daily average of nine. Sixteen minor operations were performed. No major operation. The total expenditure was Rs. 323, whereof Rs. 68 represent the cost of establishment. English medicines were obtained from England at a cost of Rs. 200. The indent was checked and countersigned by the Civil Surgeon. Bazar medicines cost Rs. 12. The expenditure on buildings was Rs. 32, and on miscellaneous items Rs. 11. The total income of the dispensary was Rs. 503, namely, Rs. 388 were obtained from local sources, and Rs. 115 from native subscriptions. There was a cash balance of Rs. 180 at the end of the year.

**Mymensingh district.** The public health of the district in 1884 was decidedly worse than in the previous year Cholera was unusually prevalent and fatal during the second and fourth quarters of the year especially, and caused 6,201 deaths during the year according to the mortuary returns. The

disease was prevalent throughout the whole district, and in two parts of it assumed an epidemic form. In addition to cholera, malarious fevers were also unusually prevalent and severe during the year; 25,587 deaths were registered from this cause against 24,757 in 1883, or a rate of 8·38 against 8·11. The Civil Surgeon says that this represents a real increase, and is not due to any improvement in registration. There were 13 dispensaries working at the end of the year. No new dispensary was opened during the year. Two dispensaries (Kukurmari and Gopalgunge, *Pinguah or Paguldighee*) were closed. Of the 13 dispensaries, five were in class II, and eight in class IIIA. Five were managed by municipalities two by private persons, and the rest (six) by private committees. The supervision exercised by managing bodies generally, the Civil Surgeon thinks is but very superficial, and by the majority of committees only nominal. Municipal bodies take a greater interest than under the old regimé. The Civil Surgeon says—"I am glad to say that, with the exception of two dispensaries, their value is much appreciated by the sick poor of the district, and that the institutions confer a great boon on them." The dispensaries at Mymensingh, Tangail and Kisoregunge (Hybutnuggur) treat in-door and out-door patients, the Sherepore dispensary received sanction to treat in-door patients in November last, but the necessary arrangements have not yet been made, Netrokona and Jamalpore treat in-door patients occasionally, the rest are out-door institutions. Three dispensaries, viz., Mymensingh, Tangail, and Kisoregunge, were in charge of Assistant Surgeons. Jamurki was in charge of a private native doctor, and all the others were in charge of civil hospital assistants. The total number of patients treated was 485 in and 33,059 out against 353 and 32,418 in 1883, the daily averages being 20·9 and 281·6 against 15·9 and 239·7 respectively, including the two dispensaries closed during the year. The Civil Surgeon believes, with one or two exceptions, the figures shown in the annual returns are to be depended on. The Civil Surgeon visited all the 13 dispensaries: Mymensingh frequently, Ramgopalpore three times, Tangail and Mucktagacha twice, the rest only once during the year.

*Mymensingh.*—It is a municipal dispensary in class II. It was vested in the Municipality on 21st June 1884, and was nominally under the control of that body, until that date. Dispensary questions were discussed at municipal meetings, which usually were held once a month. Visited almost daily by the Civil Surgeon. Two of the Municipal Commissioners visit the dispensary once or more monthly. A third grade Assistant Surgeon was in charge. There were treated 227 in and 4,390 out patients against 152 and 4,000 in 1883, the daily averages being 9 and 37 against 5 and 34 respectively. Thirty-five deaths among in-patients, or a rate of 15·4 per cent., against 21 and 13·8 in the previous year. The death-rate is high on account of the railway coolies often coming into the dispensary in a dying condition, and also to the fact that several bad cases of prisoners suffering from severe diarrhœa were brought to the dispensary on release, and died there. The prevailing diseases were malarial fevers, rheumatic affections, syphilis, bowel-complaints and skin diseases. All show an increase over last year, as would be expected from the *worse health* of the district generally as compared with last year. There were twenty-five major operations, 17 of which were performed by the Civil Surgeon. Minor operations numbered 197. The total expenditure was Rs. 2,332, of which Rs 1,735 were the cost of establishment. The expenditure on Europe medicines was Rs. 181, on bazar medicines Rs. 27, on diet Rs. 246, and on buildings Rs. 24. The amount spent on miscellaneous items was Rs. 119. Government contributed Rs. 64, viz. Rs. 15 as cost of forms and registers, and Rs. 49 for diet of police cases. Municipality paid Rs. 496, and the amounts received from Europeans and natives were Rs. 10 and Rs. 626 respectively, and Rs. 663 were received as interest on investments. The total invested capital of the dispensary at the end of the year was Rs. 15,014.

*Sherepore.*—It is a class II municipal dispensary under the management of Municipal Commissioners, who held 23 meetings during the year. Visited twice by the Joint-Magistrate of Jamalpore and once by the Civil Surgeon. A civil hospital assistant was in charge. It was an out-door institution. Two thousand seven hundred and forty-seven out-patients were treated against 1,633 in 1883, with a daily average of 35 against 13. The increase is attributed to the unhealthiness of the year. Goitre and malarious fevers were the most prevailing diseases. Five major and 40 minor operations were performed. The total expenditure was Rs. 661, of which Rs. 369 was the cost of establishment. Europe medicines cost Rs. 135 and country medicines Rs. 38. The expenditure on buildings was Rs. 40, and on miscellaneous items Rs. 78. Government paid Rs. 5 as cost of forms and registers. Municipality paid Rs. 455. The dispensary had an invested capital of Rs. 528 at the end of the year. Sherepore continues to be the worse in its sanitary condition.

*Ramgopalpore.*—A class IIIA dispensary under the management of a nominal committee consisting of the Magistrate, the Civil Surgeon, and Baboo Kashikishor Roy, the supporter. Visited three times by the Civil Surgeon, and not by any of the civil officers. The dispensary was in a temporary hut near the founder's house, but all the materials for a new building had been got together, and the founder promised to commence it at once. A civil hospital assistant was in charge, who was paid Rs. 25 per mensem. There was a minor establishment consisting of a compounder on Rs. 10, and a sweeper on Rs. 5 a month. There were treated 2,640 out-patients, with a daily average of 20 against 3,085 and 14 in 1883. The civil hospital assistant accounted for the diminution in number by the better state of health of his part of the district, during the last

quarter of the year. The prevailing diseases were malarious fever, goitre, respiratory affections and dysentery. Four major, all dislocations, and 137 minor operations were performed. The total expenditure was Rs. 1,530, whereof Rs. 270 represent the cost of establishment and Rs. 13 of bazar medicines. The expenditure on miscellaneous items was Rs. 24. English medicines to the value of Rs. 24-11-10 were obtained from private druggists, through the Civil Surgeon, but have not been paid for. Government paid Rs. 5 for forms and registers. The income from native subscriptions was Rs. 1,225, Rs. 238 were obtained by withdrawal of deposits, and Rs. 23 were derived as interest on investments. Rs. 1,223 were invested during the year.

*Tangail.*—A class IIIA dispensary under the management of a local committee which met ten times during the year. An Assistant Surgeon was in charge, who received Rs. 120 per mensem. It was visited once by the Magistrate of the district, twice by the Civil Surgeon, and three times by the sub-divisional officer. There were treated 164 in and 3,192 out-patients against 156 and 2,934 in 1883, the daily averages being 6 and 22 against 7 and 20 respectively. There were 17 deaths among in-patients against 9 in the previous year, of which one died after opening of a liver abscess. The prevailing diseases were malarious fever, goitre, and skin diseases. Six major and 108 minor operations were performed. One death resulted after operation. The total expenditure was Rs. 2,522, of which Rs. 1,920 represent the cost of establishment, Rs. 220 of Europe, and Rs. 25 of bazar medicines. The cost of diet was Rs. 210. The expenditure on buildings was Rs. 66, and on miscellaneous items Rs. 80. Government paid Rs. 49, viz. Rs. 12 for forms and registers and Rs. 37 for diet of police cases. Rupees 13 were obtained from local sources. The expenses of the institution were met from subscriptions from natives, which amounted to Rs. 2,518. There was a cash balance of Rs. 156 at the end of the year.

*Jamurki.*—A class IIIA dispensary managed by the agent of the supporter, Nawab Ashanullah of Dacca. Visited once by the sub-divisional officer and once by the Civil Surgeon. A private native doctor was in charge. Two thousand nine hundred and eighty-five out-door patients were treated against 2,773 in 1883, with a daily average of 14 against 14 in the previous year. Goitre was the prevailing disease. Five major and 212 minor operations were performed. The total expenditure was Rs. 1,342, whereof Rs. 912 represent the cost of establishment, Rs. 200 of Europe medicines, and Rs 13 of bazar medicines. The expenditure on buildings was Rs. 50, and on miscellaneous items Rs. 167. Government paid Rs. 5 as cost of forms and registers.

*Jhawail.*—This is also a class IIIA dispensary under the management of the representative of Raja Jotendra Narain Rai of Putia, Rajshahye. Visited once by the Civil Surgeon. The dispensary building was in bad repairs, but an estimate was submitted and sanctioned by the Civil Surgeon for the necessary work to be done on it. A civil hospital assistant was in charge, who received Rs. 30 a month. There was no outbreak of any epidemic, diseases during the year. There were treated 1,642 out-patients against 2,328 in 1883, with a daily average of 21 against 26. No in-patients. One hundred and two minor operations were performed. No major operations. The total expenditure was Rs. 747, of which Rs. 544 were spent on establishment, Rs. 108 on Europe medicines, and Rs. 23 on bazar medicines. The expenditure of miscellaneous items was Rs. 41. Government contributed Rs. 9 as cost of forms and registers.

*Kerotia.*— It is a class IIIA dispensary supported by Mahomed Alikhan, and managed by a committee which met 12 times during the year. Visited once by the Civil Surgeon. No visits from civil officers. A civil hospital assistant was in charge, who received Rs. 50 a month. Besides the hospital assistant, there were a compounder on Rs. 12, a dresser on Rs. 8, and a chuprassee on Rs. 5. The minor establishment was too large and too extravagant, but the founder wishes to retain the servants. Four thousand three hundred and forty-two out-door patients were treated, with a daily average of 23 against 4,199, and 17 in 1883. Five major and 144 minor operations were performed. The total expenditure was Rs. 1,119, of which Rs. 801 were spent on establishment, Rs. 241 on Europe medicines, Rs. 38 on bazar medicines, and Rs. 39 on miscellaneous items. Government paid Rs. 5-8-3 as cost of forms and registers.

*Hybutnugger or Kishoregunge.*—This is a municipal dispensary in class II. It was visited once by the Civil Surgeon. The civil hospital assistant of the sub-division was in charge up to September, when a third grade Assistant Surgeon was put in charge, who received Rs. 75 a month for the dispensary. There were treated 66 and 1,658 out-patients against 26 and 1,611 in 1883, the daily averages being 3· and 15·3 against 2·7 and 16 respectively. Eight major and 97 minor operations were recorded. The total expenditure was Rs. 604, of which Rs. 464 represent the cost of establishment, and Rs. 27 of bazar medicines. The expenditure on diet was Rs. 74, on buildings Rs. 4, and on miscellaneous items Rs. 34. Government paid Rs. 5 as cost of forms and registers. Municipality paid nothing. Rs. 473 were obtained from native subscriptions, Rs. 116 by sale of securities, and Rs. 16 as interest on investment.

*Netrokona.*—A class IIIA dispensary supported by Shreemutty Bissessuri Debya Chowdhurani of Gouripore, and managed by a committee which met 12 times during the year. It was visited only once by the Civil Surgeon, owing to the pressure of work in the sudder station. A civil hospital assistant was in charge, who received Rs. 35 a month. There were treated 18 in and 2,131 out patients against 10 and 2,004 in 1883, the daily averages being 1 and 16 against ·5 and 13 respectively. There were two deaths among

inpatients. Seven major and 156 minor operations were performed. The total expenditure was Rs. 719, whereof Rs. 541 represent the cost of establishment, Rs. 123 of Europe medicines, and Rs. 11 of bazar medicines. In-patients dieted at their own expenses. The expenditure on building was Rs. 12 and on miscellaneous items Rs. 29. Government contributed forms and registers, the cost of which was Rs. 5.

*Jamalpore.*—A class II institution under the local municipality. It was visited three times by the Civil Surgeon. The civil hospital assistant of the sub-division was in charge, who received his grade pay from Government, and Rs. 10 for the dispensary from the municipality. It is the most poorly attended dispensary in the district. The present situation of the building seems to be too far from the town. There were 10 in and 750 out patients against 9 and 615 in 1883, the daily averages being ·28 and 7 against ·3 and .2 respectively. There was only one death against two in the previous year. One major and 13 minor operations were recorded. The total expenditure was Rs. 399, whereof Rs. 300 were spent on establishment, Rs. 50 of Europe medicines, and Rs 5 of bazar medicines. The expenditure on buildings was Rs. 6, and on miscellaneous items Rs. 38. Government paid Rs. 5 as cost of forms and registers. Municipality paid Rs. 75. Rs. 168 were obtained by withdrawal of deposits. Subscriptions from natives were Rs. 147.

*Mucktagacha.*—A class IIIA dispensary supported by an endowment of Rs. 12,000 from Raja Surja Kant Acharjee, and managed by a committee which met twice during the year. It was visited once by the Magistrate and twice by the Civil Surgeon. A civil hospital assistant was in charge, who received Rs. 30 a month. One thousand nine hundred and ninety-one out-patients were treated, with a daily average of 19 against 1,680 and 17 in 1883. Three major, reduction of dislocations, and 117 minor operations were performed. The total expenditure was Rs. 560, of which Rs. 393 represent the cost of establishment, and Rs. 30 of bazar medicines, and Rs. 41 on miscellaneous items. Government paid Rs. 5 as cost of forms and registers. Rs. 95 were invested during the year.

*Bazitpore.*—A municipal dispensary in class II, visited once by the Civil Surgeon. A civil hospital assistant was in charge who received Rs. 25 a month. There were treated 1,695 out-patients against 1,417 in 1883, with a daily average of 7·34 against 7·1. The hospital assistant stated that there are very many kobirages in the places in whom the people have more faith than in him. Minor operations numbered 82. No major operation. The total expenditure was Rs. 629, whereof Rs. 372 were spent on establishment, Rs. 137 on Europe medicines, and Rs. 21 on bazar medicines. The expenditure on buildings was Rs. 74, and on miscellaneous items Rs. 24. Government contributed forms and registers, the cost of which was Rs. 5. Municipality paid Rs. 289. The income from local subscriptions amounted to Rs. 320.

*Ambaria.*—It is a class IIIA dispensary supported by Baboo Hem Chunder Chowdhuri of Ambaria, and managed by a nominal committee which met once during the year. It was visited once by the sub-divisional officer and twice by the Civil Surgeon. A civil hospital assistant was in charge, who received Rs 40 a month. No in-patients. One thousand two hundred and seventy-six out-patients were treated with a daily average of 9 against 1,410 and 13 in 1883. Seventeen minor operations were performed. No major operation. The total expenditure was Rs. 777, of which Rs. 672 represent the cost of establishment, Rs. 42 of Europe medicines, and Rs. 14 of bazar medicines, and Rs. 49 of miscellaneous items. Government paid Rs. 5 as cost of forms and registers. The income from local subscriptions was Rs. 840.

*Kukurmari.*—A class IIIA dispensary supported by the late Raja Promotho Nath Roy of Dighapati in Rajshahye, and managed by a committee. A native doctor was in charge. There were treated 127 out-patients with a daily average of seven, up to the date of its being closed, viz. 9th August 1884, *vide* Bengal Government No. 941, dated 24th June 1884, and totals of which were added to the totals of out-door patients.

*Gopalgunge.*—(Pingna or, Pagul-dighee). This was a class IIIB dispensary. It was under the management of a committee. A civil hospital assistant was in charge. There were treated 1,493 out-patients with a daily average of 22, up to the date of it being closed, viz. 31st July 1884, *vide* Bengal Government No. 930T—M, dated 25th June 1884, the totals of which were added to the totals of out-door patients treated in all institutions in the district.

## Chittagong Division.

Chittagong district.

The Civil Surgeon says that the public health of the district as compared with former years was good. The deaths registered for the year being 17,084, with a ratio of 15 per 1,000. The average for a term of years being 19,123 and 17. There is one dispensary in the sudder station; a small attempt at one in the Cox's Bazar sub-division is still being made. There is a small separate hospital in the town for contagious diseases.

Chittagong Dispensary.

*Chittagong Dispensary.*—A municipal dispensary in class II. The Municipal Commissioners, represented by the Civil Surgeon, managed the institution. There was no dispensary committee, hospital matters having been brought up at the general meetings of the Commissioners, when there was anything of importance to be discussed, which was very seldom. During the year His Honor the Lieutenant-Governor of Bengal visited the hospital, and a good many visits were paid to it by the civil officers of the district. The Civil Surgeon attended daily, and all work was done through him. Second grade Assistant Surgeon Mutty Lall Mookerjee was in charge. He received Rs. 170 a month from the municipal fund.

There were treated 395 in and 6,789 out-door patients against 347 and 6,415 in 1883, the daily averages being 15 and 34 against 14 and 33 respectively. There were 46 deaths, or a rate of 11·6 per cent., among in patients against 34 and 9·8 in the previous year. The increase being due to the number of cholera cases received from the shipping. The Civil Surgeon says that "the prevailing diseases during the year were fevers, dysentery, diarrhœa, cholera and injuries." 89 major and 363 minor operations were performed. There were two deaths, one after amputation at the shoulder joint, and one after tracheotomy.

The Civil Surgeon reports that the European wards have been extremely useful during the year for the treatment of sick sailors and others, 72 sailors having been admitted, and Rs. 1,609 realised as fees from the shipping for them. This is steadily increasing, as the figures for the last few years will show:—

| | | | | | | | | |
|---|---|---|---|---|---|---|---|---|
| In | 1884 | admitted | 72, | realized | Rs. | 1,609 | for diet and | treatment. |
| „ | 1883 | „ | 57 | „ | „ | 1,214 | ditto | ditto. |
| „ | 1882 | „ | 37 | „ | „ | 724-8 | ditto | ditto. |
| „ | 1881 | „ | 45 | „ | „ | 584-8 | ditto | ditto. |

The hospital is not large enough for the requirements of the town and port, but there is no money available in the municipal fund to increase the accommodation, and it must serve as it best can till money is raised for the purpose. The mortality amongst the European in-door patients has been very heavy. Of the 72, 14 were admitted suffering from cholera, of these nine died, and one death was due to phithisis. Since the hospital was made over to the municipality; the monthly subscriptions have fallen off greatly. The total expenditure was Rs. 5,774, of which Rs 3,099 represent the cost of establishment, Rs. 300 of European medicines, and Rs 97 of country medicines. European medicines were obtained from private druggists on indents checked by the Civil Surgeon. The expenditure on diet was Rs. 1,043, on buildings Rs. 440, and on miscellaneous items Rs. 794. The total income of the dispensary was Rs 5,774, which consisted of Rs. 125 received from Government, viz. Rs. 6 for forms and registers and Rs. 119 for diet of police cases, of Rs 3,311 paid by municipality, of Rs. 1,705 received from local or other funds, and of Rs. 633 received as subscriptions from Europeans and natives.

The Civil Surgeon appended an extract from the report of the officer in charge of the Cox's Bazar sub-division relative to the dispensary there.

"There is a dispensary under the management of an Assistant Surgeon. During the year under review there have been three Assistant Surgeons. This continual shifting of medical officers, I should say, is not conducive to the general prosperity of the dispensary. For a medical officer to be popular, he must first earn the confidence of the public, more so in this backward sub-division, where English medicines were hardly ever known. Comparatively speaking, the dispensary is getting more popular, and it requires time, patience, and money to be a successful institution. Municipality subscribes Rs. 30 for its maintenance, and balance is met from private subscriptions and donations. This institution cannot afford to keep in-door patients, as in the first place there is no accommodation, nor is there any fund available for maintaining them. But I should say about a dozen patients have been accommodated from time to time during the year."

**Noakholly district.** The Assistant Surgeon in civil medical charge of the district says that the general health of the district was comparatively unhealthy. The total number of deaths and mortality from individual diseases were greater in 1884 than in 1883. There were four dispensaries working at the end of the year. Of the four dispensaries, one was in class II, one in class IIIA, and two in class IIIB. One of the dispensaries gave relief both to in and out-door patients; the other three to out patients only. All were in charge of civil hospital assistants. There were treated 125 in and 5,800 out patients against 130 and 5,180 in 1883, the daily averages being 4 9 and 43· against 4 and 34 respectively. The Assistant Surgeon says that the figures shown in the returns are reliable, and that the managing bodies, with one exception, have taken interest in all matters connected with the welfare of the different institutions. The exception alluded to applies to the managing committee of the Hurrishpore dispensary in the Island of Sundeep. The funds of the dispensary were very poor; the managing committee did not appear to take the trouble of endeavouring to give stability to the institution by improving its finances, so as to enable it to meet its necessary expenses. As regards the popularity of the dispensaries, if it be measured in proportion to the number of attendance thereto, the Assistant Surgeon thinks none of them occupies a high place.

*Noakholly.*—A municipal dispensary in class II. Visited daily by the Assistant Surgeon, and oftner when necessary. Municipal Commissioners inspected it frequently. Once visited by the Commissioner, twice by the Judge, and fourteen times by the Magistrate. A first class civil hospital assistant was in charge. There were treated 125 in and 2,578 out patients against 130 and 2,618 in 1883, and the daily averages being the same as in the previous year, viz. 4 and 14. There were seven deaths among in-patients against four in the preceding year. Eight major and 140 minor operations were performed. One death resulted after operation. The total expenditure was Rs. 1,416, whereof Rs. 971 represent the cost of establishment, Rs. 115 of Europe medicines which were obtained from private dealers, and Rs. 32 of bazar medicines. The cost of diet was Rs. 158. The expenditure on buildings was Rs. 65, and on miscellaneous items Rs. 74. Government paid Rs. 18, viz. Rs. 3 as forms and registers, and Rs. 15 for diet of police cases. Municipality contributed Rs. 371. Subscriptions from

Europeans and natives were Rs. 124 and Rs. 686 respectively, and Rs. 160 were received as interest on investments.

*Dulal Bazar.*—A class IIIA dispensary managed by the supporter. The dispensary had its meetings held eleven times during the year. Thrice visited by the Magistrate, and twice by the Assistant Surgeon. A third grade civil hospital assistant was in charge. There were treated 1,280 out-patients against 938 in 1883, the daily averages being seven and five respectively. One hundred minor operations were performed. No major operation. The total expenditure was Rs. 562, of which Rs. 396 was the cost of establishment, Rs. 49 of Europe medicines which were obtained from private dealers. The cost of bazar medicines was nominal, viz. Rs. 2. The expenditure on buildings was Rs. 92, and on miscellaneous items was Rs. 22. Government paid Rs. 3 as cost of forms and registers. Subscriptions from natives were Rs. 515.

*Fenny.*—A class IIIB dispensary governed by a local committee, which met 11 times during the year. The Magistrate and the Assistant Surgeon each visited the institution twice. The third class civil hospital assistant of the sub-division was in charge. There were treated 1,140 out-patients against 1,624 in 1883, the daily averages being 12 and 14 respectively. One major and 20 minor operations were performed. No death resulted after operation. The total expenditure was Rs. 792, whereof Rs. 306 was the cost of establishment, Rs. 76 of Europe medicines, which were obtained from private dealers. The cost of bazar medicines was Rs. 17. The expenditure on miscellaneous items was Rs. 65, and on buildings Rs. 13. Government paid Rs. 123, Rs. 120 as salaries, and Rs. 3 as cost of forms and registers. Subscriptions from Europeans and natives were Rs. 242 and Rs. 120 respectively. Rs. 19 were obtained as interest on investment. Municipality at Noakholly paid Rs. 255. Rs. 35 were withdrawn from savings bank deposit. Rs. 314 were invested during the year.

*Hurrishpore.*—A class IIIB dispensary. It was opened on the 4th April 1884, managed by a committee which held six meetings during the year. Once visited by the Magistrate, and once inspected by the Assistant Surgeon. A third class civil hospital assistant was in charge. There were treated 802 out-patients with a daily average attendance of 8. In relation to public health of the places the attendance was low. But the institution was a new one, and has not yet been generally known among the people. The Assistant Surgeon says that at present it is more used by the resident officials and non-officials and persons connected with them, than by the outside people. If the committee would show more interest and attention in fostering the institution and promoting its usefulness by providing adequate funds for its maintenance, the charity will not fail to be attractive and draw outside men to its door. The funds of the dispensary are so poor as to make its future existence a question of doubt. Permanency of the institution solely depends on the success of the committee in raising its financial status. Sixteen minor operations were performed. No major operations. The total expenditure was Rs. 369, whereof Rs. 224 represent the cost of establishment, Rs. 7-8 of Europe medicines, and annas 10 of bazar medicines. The expenditure on miscellaneous items was Rs. 26, and on buildings Rs. 110. Government paid Rs. 181, Rs. 178 as salaries, and Rs. 3 as cost of forms and registers. Rs. 98 were obtained from local funds Subscriptions from natives were Rs. 180. There was a cash balance of Rs. 90 at the end of the year. The Assistant Surgeon reports that when the dispensary was opened, Europe medicines and instruments to the value of Rs. 280-9 were purchased from Government store Of this sum the dispensary has paid Rs. 7-8, it has still a liability of Rs. 273-1 to clear, but on account of the funds not being sufficient, the committee has not been able to pay up the demand. The indent passed through the Assistant Surgeon.

Tipperah district.

The Civil Surgeon says that the public health of the district compares favourably with that of former years, the mortality from cholera, fever, and bowel-complaints was higher than in the previous years, but the deaths from small-pox showed a great decrease. The total mortality of the district from all causes did not exceed that of the previous years. The civil station of Comilla was comparatively healthy throughout the year, the mortality under the different heads being less than in the two preceding years. There were four dispensaries at work at the end of the year Of these, two were municipal institutions and were in class II; the other two in class IIIA. Two of these received both in and out-patients. There were treated 174 in and 8,576 out patients against 194 and 7,438 in 1883, the daily averages being 8 and 77 against 9 and 66 respectively. The figures, says, the Civil Surgeon, appear to be correct Three dispensaries are in charge of civil hospital assistants, and one (Ramchunderpore) is in charge of a native doctor. Dr. Mullen says that the managing bodies of all the four dispensaries seem to take a fair amount of interest in the welfare of these institutions, and in his opinion all the dispensaries are doing well, and are gradually getting popular.

*Comilla.*—A class II municipal dispensary in charge of a civil hospital assistant, under the management of the municipal committee, which held eight meetings during the year. Visited four times by the District Magistrate. The Civil Surgeon visited the institution daily. There were treated 107 in and 2,720 out patients against 156 and 2,453 in 1883, the daily averages being 5 and 21 against 7 and 18 respectively. The death-rate among in-patients was 6·54 per cent. against 7·05 in the previous year. Eleven major and 221 minor operations were performed. The total expenditure was Rs. 3,960, whereof Rs. 618 represent the cost of establishment. The cost of Europe medicines was Rs. 170.

The expenditure on bazar medicines was Rs. 32, on diet Rs. 299, on miscellaneous charges Rs. 74, and on buildings Rs. 2,765. Government paid Rs. 116, viz. Rs. 5 as cost of forms and registers, and Rs. 111 for diet of police cases. Securities were sold for Rs. 996, and Rs. 220 were obtained as interest on investments. Subscriptions from Europeans and natives were Rs. 28 and Rs. 312 respectively.

*Bramenberia.*—A municipal dispensary in class II. The civil hospital assistant of the sub-division was in charge. Twice visited by the District Magistrate, and twice by the Civil Surgeon. There were treated 67 in and 1,150 out-patients against 38 and 1,074 in 1883, the daily averages being 3 and 9 against 2 and 10 respectively. Two deaths occurred among in-patients. Thirty-four major and 91 minor operations were performed. No death resulted after operation. The total expenditure was Rs. 580, of which Rs. 322 was the cost of establishment, Rs. 130 of Europe medicines obtained from private dealers, and Rs. 14 of country medicines. The cost of diet was Rs. 50. The expenditure on buildings was Rs. 43, and on miscellaneous items Rs. 20. Government paid Rs. 7-8-9, viz. Rs 3-10-6 as cost of forms and registers, and Rs. 3-14-3 for diet of police cases. Subscriptions from natives were Rs. 160. Municipality paid Rs. 297.

*Ramchunderpore.*—A class IIIA dispensary under the management of Nawab Ashanoollah Khan's Superintendent at Ramchunderpore. Visisted once by the District Magistrate, and once by the Civil Surgeon. A native doctor was in charge. There were treated 2,952 out-patients, against 2,929 in 1883, the daily averages being 32 against 30 respectively. Ten major and 218 minor operations were performed. The total expenditure was Rs. 824, of which Rs. 604 was the cost of establishment, Rs. 177 of Europe, and Rs. 24 of bazar medicines. The expenditure on miscellaneous charges was Rs. 18.

*Jaffergunge.*—A class IIIA dispensary under the management of the agents of the supporter, Rajah Harendra Krishna Bahadoor. Visited once by the Civil Surgeon. A civil hospital assistant was in charge. There were treated 1,754 out-patients against 982 in 1883, the daily averages being 13 and 6 respectively. Sixty-eight minor operations were performed. No major operations. The total expenditure was Rs. 561, of which Rs. 396 was the cost of establishment, and Rs. 10 of bazar medicines. Nothing was paid for Europe medicines, as they were not purchased during the year. Government paid Rs. 2-6-9 as cost of forms and registers.

## PATNA DIVISION.

Patna district.

The general health of the district during the year 1884 was not at all good as compared with that in the previous year. The Civil Surgeon remarks that fevers were most prevalent in June, August, November and December, and least so in February, January, May and March 1884. Cholera prevailed most in August, July, June, and May; the mortality was very great. Small-pox was very bad during the year 1884 as compared with any one of the years since 1879. Bowel and all other diseases show a decline. Five dispensaries worked in the district throughout the year, all of which were under the management of municipalities, excepting the one at Dinapore, which was managed by a private committee. Three were in class II, and two in class IIIB. All the dispensaries treated both in-door and out-door patients, and were, with the exception of one, in charge of Assistant Surgeons. There were treated 2,395 in and 48,561 out-patients in all, against 2,288 in and 47,205 out-patients in 1883. The daily averages were 140 and 460, against 128 and 444 respectively. All the dispensaries are said to be appreciated by the people for whom they are intended. The municipalities are generally wanting in interest towards the institutions belonging to them.

*Bankipore Dispensary or Temple Medical School Hospital*—Is a class IIIB dispensary under the management of the Patna Municipality, and all hospital business was discussed and transacted at the monthly meetings. It was frequently visited by the Civil Surgeon, and not by any official or Municipal Commissioner during the year. Second grade Assistant Surgeon Ram Kali Gupta was in medical charge throughout the year. He was assisted by the other Assistant Surgeons and civil hospital assistants attached to the Temple Medical School in hospital work. The minor establishment cost Rs. 107 per mensem. There were treated 980 in and 15,956 out patients against 902 and 15,494 in 1883; the daily averages were 69 and 115 against 65 and 109 respectively. The increase in the number of patients is attributed to the unhealthiness of the year. There were 98 deaths, or a ratio per cent. of 10·0, against 92 or a ratio per cent. of 10·19 in 1883. One hundred major operations were performed with five deaths. The number of minor operations was 1,218. The total expenditure was Rs. 7,892, whereof Rs. 3,522 was the cost of establishment, Rs. 226 of bazar medicines, and Rs. 723 of Europe medicines. The outlay on diet was Rs. 2,031, on buildings Rs. 947, and on miscellaneous items Rs. 442. The total income was Rs 7,892, whereof Government contributed Rs. 136, namely Rs. 26 for registers and forms and Rs. 110 for diet of police cases. Municipality paid Rs. 7,676 against Rs. 6,932 in 1883. Rupees 80 were received as interest during the year. There was no cash balance at the end of the year. The establishment of a new female hospital with lying-in-wards in connection with the Bankipore hospital will be ready for occupation at the end of January 1885. The Maharani of Tikari has given the site and raw materials. The probable cost (including old materials) will be about Rs. 9,000, all of which has been subscribed.

*Patna City Dispensary.*—A class II dispensary under the local municipality. It was visited by the Civil Surgeon on several occasions, but twice formally and reported upon. It was not visited by any official during the year. Second grade Assistant Surgeon Ashotosh Law was in charge throughout the year. The cost of minor establishment was Rs. 266 per month as in the previous year. There were treated 529 in and 14,603 out-door patients against 563 and 14,426 in 1883. The daily averages being 33 and 144 against 30 and 154 respectively. There were 97 deaths or 18·34 per cent. against 127 or 22·5 in 1883. The death-rate, though much less than that of 1883, is high, owing to the large number of moribund and incurables brought to the dispensary by the police. There were 65 major operations performed with 3 deaths. Minor operations numbered 1,880. The total expenditure was Rs. 3,694, whereof Rs. 2,371 represent the cost of establishment. The cost of bazar medicines was Rs. 135, and of Europe medicines Rs. 218. The outlay on diet was Rs. 720 and on miscellaneous items Rs 247. The total income was Rs. 3,694. Government contributed Rs. 11 for forms and registers, and the municipality Rs. 1,375. No subscriptions from Europeans and natives. The interest of the invested capital was Rs. 820. There was a cash balance of Rs. 1,487 at the beginning of the year.

*Barrh.*—This is also a class II dispensary under the local municipality. All business connected with the dispensary is transacted at the monthly meetings. The Civil Surgeon reports that it was not inspected by him owing to illness during the year, but it was closely inspected by the Magistrate, who found it in good order. Third grade Assistant Surgeon Asder Ali Khan was in charge from 3rd August to the close of the year. He was appointed to this dispensary on theapp lication of the wealthy Mahomedans of that place, as the inhabitants objected to appoint a Hindu. The cost of minor establishment was Rs. 31 per mensem. There were treated 302 in and 5,312 out patients against 260 and 5,394 in 1883. The daily averages were 9 and 57 against 8 and 52 respectively. The number of deaths was 20, or a ratio per cent. of 6·62 in 1884 against 15, or a ratio per cent. of 5·7 in 1883. Twenty-one major and 537 minor operations were performed. The total expenditure was Rs. 2,062, whereof Rs. 1,520 was the cost of establishment, Rs. 186 of Europe medicines, and Rs. 25 of bazar medicines. Dieting of patients cost Rs. 232, and the expenditure on miscellaneous items was Rs. 97. Government contributed Rs. 12-14-6, namely, Rs. 10-10-5 for forms and registers, and Rs. 2-4-1 for dieting of police cases. The income from subscriptions was Rs. 677, and the municipality paid Rs. 1,372 against Rs. 1,699 in 1883.

*Behar.*—This is a class II dispensary under the Behar Municipality. The Civil Surgeon reports that this dispensary was not inspected by him during the year owing to his illness. Third grade Assistant Surgeon Gopal Chunder Mookerjee, M.B., was in charge from 1st January to 4th September. Third grade Assistant Surgeon Amulya Chundra Champati held charge from 4th September to the end of the year. The minor establishment cost Rs. 39 per mensem. There were treated 170 in and 6,309 out patients against 152 and 5,187 in 1883. The daily averages were 13 and 65 against 9 and 47 respectively. There were 24 deaths or a percentage of 14·12 against 20, or a percentage of 13·1 in 1883. There were performed 25 major operations with 2 deaths and 317 minor operations. The total expenditure was Rs. 2,727, whereof Rs. 1,638 was the cost of establishment, Rs. 238 of Europe medicines, and Rs. 57 of bazar medicines. Rs. 372 were spent for diet of patients, and Rs. 105 on building and repairs. The expenditure on miscellaneous items was Rs. 316. Government contributed Rs. 84, namely, Rs. 7 for forms and registers and Rs. 77 for diet of police cases. Municipality paid Rs. 2,084. The income from subscriptions was Rs. 559. No cash balance at the end of the year. No investments.

*Dinapore.*—A class IIIB dispensary managed by a committee which held three meetings. It was under the superintendence of the Staff Surgeon. The Civil Surgeon of Patna visited it twice. A first class civil hospital assistant was in medical charge, who received Rs. 55 from Nizamut Fund, Rs. 25 from dispensary fund, and Rs. 10 from Government; in all Rs. 90 a month. The cost of minor establishment was Rs. 31 per mensem. There were treated 414 in and 6,381 out patients against 411 in and 6,704 out patients in 1883. The daily averages were 14 and 77 against 14 and 80 respectively. There were 25 deaths, or a percentage of 6·04 against 33, or a percentage of 8·03 in 1883. There were 44 major with one death, and 483 minor operations performed. The total expenditure was Rs. 2,165, of which Rs. 1,332 was the cost of establishment, Rs. 49 of bazar medicines, and Rs. 534 of Europe medicines. The expenditure on diet was Rs 128. The amount expended on miscellaneous items was Rs. 120. The total income of the dispensary was Rs. 2,289, of which Government paid Rs. 11 as cost of forms and registers. Rs. 810 were obtained from local funds, Rs. 80 from interest, Rs. 480 from the municipality, and Rs. 571 from European and native subscriptions. The dispensary had a cash balance of Rs. 124 at the end of the year, and a capital of Rs. 2,000 invested in four per cent. Government paper.

Gya district.

The general health of the district compares unfavourably with that of the previous year. The number of registered deaths being 56,926 against 44,928 in 1883. There were five dispensaries working in the district at the end of the year, of which four were under the control of local municipalities, and one under the management of the agent of the Maharani of Tikaree. One of these was in class II, three in class IIIB, and the fifth in class IIIA. Two of the dispensaries were under the charge of Assistant Surgeons, and three under civil hospital assistants. All the dispensaries received in and out patients

There were treated 601 in and 14,338 out patients against 506 and 13,566 in 1883. The daily averages were 25·8 and 178·7 against 20 and 171 respectively. The managing bodies hardly took any interest in the working of the dispensaries during the year. The people are gradually learning to appreciate the European system of treatment. The demand for this system is steadily increasing.

*Gya Pilgrim Hospital.*—A class II dispensary under the local municipality. It was inspected by the Commissioner of the division, by the District Magistrate, and by the Vice-Chairman of the Gya Municipality several times during the year; some of the Municipal Commissioners also visited the dispensary. The Civil Surgeon paid his daily visit regularly. A second grade Assistant Surgeon was in charge, who drew Rs. 150 from the municipality. The cost of minor establishment was Rs. 72-8 per mensem. The Civil Surgeon reports that "although the midwife is attached to this hospital for more than a year, not a single woman came to be confined. She is of very little use to female patients who come into the hospital for relief." There were treated 358 in and 6,642 out patients against 314 and 5,494 in 1883, the daily averages were 15 and 91 against 13 and 74 respectively. The death-rate was 25·13 per cent. against 23·88 in 1883. A majority of the deaths were among patients admitted in a moribund condition. Fifty-nine major and 696 minor operations were performed during the year. One case of death only occurred in a debilitated, worn-out pilgrim, who was operated on for a big abscess on the leg. The total expenditure was Rs. 4,604, of which Rs. 3,021 was expended on establishment, Rs. 103 on bazar medicines, Rs. 390 on Europe medicines and instruments, Rs. 289 on diet, Rs. 185 on miscellaneous charges, and Rs. 614 on buildings and repairs. The total income was Rs. 11,631, of which Rs. 10 were received from Government on account of forms and registers, Rs. 10 from local or other funds, Rs. 387 as interest, and Rs. 75 and Rs. 282 as subscriptions from Europeans and natives respectively. At the end of the year there was a cash balance of Rs. 7,026 and a capital of Rs. 9,500 invested in Government paper.

*Tikaree.*—This is a class IIIA dispensary, entirely supported by the Maharani of Tikaree. There is no committee. The dispensary is managed by the Maharani's agent. Visited four times by the Civil Surgeon. A third grade Assistant Surgeon was in charge, who is paid Rs. 100 monthly The subordinate establishment cost Rs. 52-8 monthly. There were treated 72 in and 3,386 out patients against 57 and 3,808 in 1883, the daily averages being 3 and 44 against 2 and 50 respectively. There were four deaths, or 5·55 per cent. against 3·5 in the previous year. Three major and 114 minor operations were performed. The total expenditure was Rs. 3,260, of which Rs. 1,726 represent the cost of establishment, Rs. 141 of Europe medicines, and Rs. 45 of bazar medicines. The cost of diet was Rs. 117 and Rs. 70 were spent on miscellaneous items. Government paid Rs. 6 as cost of forms and registers. The dispensary had an invested capital of Rs. 27,300 at the end of the year.

*Nowada.*—It is a class IIIB dispensary, managed and aided by the local union. There were no meetings held during the year. The Civil Surgeon visited the dispensary four times. A civil hospital assistant was in charge, who was paid Rs. 10 monthly from the dispensary funds. The minor establishment cost Rs. 16 per mensem. There were treated 80 in and 1,115 out patients against 53 and 978 in 1883, the daily averages were 3·51 and 11·10 against 1·7 and 11·34 respectively. The death-rate among in-patients was 12·5 against 7·5 per cent. in the previous year. Sixty minor operations were performed. No major operation. The total expenditure was Rs. 519, of which Rs. 312 were expended on establishment, and Rs. 10 on bazar medicines; English medicines were obtained from private druggists on indent checked by the Civil Surgeon at a cost of Rs. 43. The cost of diet was Rs. 62, and Rs. 72 were spent on miscellaneous items. The outlay towards buildings and repairs was Rs. 20. The total income was Rs. 1,023, of which Government contributed Rs. 5 for forms and registers. Municipality paid Rs. 120. Subscriptions from Europeans and natives amounted to Rs. 8 and Rs. 365 respectively, and Rs. 40 were obtained as interest on investment. At the end of the year there was a cash balance of Rs. 504 and a deposit of Rs. 172 in the Savings Bank, and a capital of Rs. 1,000 invested in Government securities.

*Aurungabad.*—A class IIIB dispensary aided by the local union, and managed by a committee which met three times during the year. Visited once by the District Magistrate, once by the District Judge, and four times by the Civil Surgeon. A civil hospital assistant was in charge, who received Rs. 25 monthly from Government for the sub-division, and Rs. 10 from the municipality for the dispensary charge. The monthly cost of the subordinate establishment was Rs. 16. The number of patients treated was 39 in and 958 out against 37 and 1.135 in 1883, the daily averages were 2·03 and 13·22 against 1 and 13. The death-rate for the year was 20·51 per cent. against 29·6 in the previous year. No major operation. Minor operations numbered 37. The total expenditure was Rs. 701, of which Rs. 308 was the cost of establishment, and Rs. 17 of bazar medicines. English medicines were purchased from private druggists at a cost of Rs. 58. The cost of diet was Rs. 50. The expenditure on buildings and repairs was Rs. 215, and on miscellaneous items Rs. 53. The total income was Rs. 964, which was derived from the following sources, viz. Rs. 3 from Government as cost of forms and registers and Rs. 3 for diet of police cases, Rs. 245 from the municipal fund, and Rs. 230 as subscription. At the end of the year there was a cash balance of Rs. 262. There is no invested capital.

*Jehanabad.*—This is also a class IIIB institution under the local union and the management of a committee which met three times during the year. The Civil Surgeon visited it three times. A civil hospital assistant was in charge, who received Rs. 35 monthly from Government for the sub-division, and Rs. 10 from the municipal funds for the dispensary charge. The subordinate establishment cost Rs 24 monthly. There were treated 52 in and 2,232 out patients against 45 and 2,151 in 1883. The daily averages were 1 and 18 against 1 and 21 respectively. The death-rate for the year under review was 1·92 against 6·6 per cent. in the previous year. No major operation. Ninety-nine minor operations were performed. The total expenditure was Rs. 1,191, of which Rs. 619 was the cost of establishment, Rs. 24 of bazar medicines, and Rs. 74 of Europe medicines which were obtained from private druggists on indents checked by the Civil Surgeon. The cost of diet was Rs. 21. The outlay on buildings and repairs was Rs. 114, and the expenditure on miscellaneous items Rs 242. The total income of the dispensary was Rs. 1,569. Government contributed Rs. 3 in forms and registers. Municipality paid Rs. 219. Rupees 67 were received as interest on invested capital, and Rs. 60 and Rs. 832 were obtained as subscriptions from Europeans and natives respectively. At the end of the year there was a cash balance of Rs. 378 and a deposit of Rs. 848 in the Savings Bank.

**Shahabad district.**

The Civil Surgeon has submitted a full and complete report. The district during the year 1884 was, in the opinion of the public, remarkably healthy, excepting a large increase in the number of deaths from small-pox as compared with the previous year. This popular opinion was held out by the statistics of the district and dispensaries. The number of total deaths being 32,837 against 36,930 in the previous year. There were seven dispensaries working at the end of the year, of which one was a State hospital, and therefore in class I; one in class II, being a municipal institution, one in class IIIA, being a private institution; and the rest in class IIIB, aided and managed by local municipalities. Four were in charge of Assistant Surgeons and three under that of civil hospital assistants. All the dispensaries treated both in and out-door patients There were treated 713 in and 36,911 out-patients against 690 and 37,169 in 1883, the daily averages were 33 and 357 against 34 and 361 respectively. The Civil Surgeon says that these figures are trustworthy, and afford a fair criterion of public health. The municipal bodies take but little active interest in the welfare of the dispensaries, though they all wish well to the institutions. The dispensaries are largely appreciated by the people, but it must be admitted that they are not so popular as in other parts of India. The Beharees as a rule are very conservative people, and resort to English treatment when the native methods by the hakeems fail.

*Arrah.*—This is a class IIIB dispensary. It is aided and managed by the local municipality. Monthly meetings were held to supervise its affairs. It was visited once by the Sanitary Commissioner, four times by the Municipal Commissioners, and daily by the Civil Surgeon. An Assistant Surgeon was in charge, who received Rs. 150 per mensem from the municipality. There were treated 214 in and 7,772 out patients against 212 and 7,996 in 1883, the daily averages were 11 and 60 against 11 and 63 respectively. The falling off in the number of out patients is attributed to the greater healthiness of the year. There were 24 deaths, or a rate of 11·21 per cent. against 25, or a rate of 11·7 in the previous year. Fifty-nine major with one death, and 750 minor operations were performed. The total expenditure was Rs. 3,091, of which Rs. 1,884 was the cost of establishment. English medicines were obtained from private druggists on indents checked by the Civil Surgeon at a cost of Rs. 302. Bazar medicines cost of Rs. 113. The expenditure on diet was Rs. 420, Rs. 174 were spent on buildings and repairs, and Rs. 197 on miscellaneous items. Government contributed Rs. 122, viz. Rs. 8 in forms and registers, and Rs. 114 for diet of police cases. The total income was Rs. 3,091, which consisted of Rs 2,302 received from municipality, Rs. 300 as interest on investments, and Rs. 364 as subscriptions from Europeans and natives. There was an invested capital of Rs 7,505 at the end of the year.

*Sasseram.*—A municipal dispensary in class II, maintained by municipality and Sasseram Endowment Fund, which contributed Rs. 1,100 towards the expenditure during the year under report. The affairs of the dispensary were controlled by municipal committee which met nine times during the year. It was visited three times by the Magistrate, 20 times by the sub-divisional officer, andsix times by the Municipal Commissioners. The Civil Surgeon paid two visits. A second grade Assistant Surgeon was in charge, who received Rs. 170 per month from the dispensary fund, and Rs. 20 per month from Government for the lock-up. There were treated 128 in and 6,866 out-patients against 136 and 7,075 in 1883, the daily averages were 7 and 98 against 7 and 114 respectively. The dimunition in the number of patients is attributed to the comparative healthiness of the year. There were 15 deaths, or a rate of 11·71 per cent. against 19, or 13·9 in the previous year. There were 24 major with one death and 505 minor operations. The total expenditure was Rs. 4,068, of which Rs. 2,122 was the cost of establishment, Rs. 229 of Europe medicines which were obtained from private druggists on indents checked by the Civil Surgeon, and Rs. 23 of bazar medicines. The expenditure on diet was Rs. 299 and on miscellaneous items Rs. 317. The outlay on the new buildings and repairs was Rs. 1,137. Government contributed Rs. 22, viz. Rs. 13 for forms and registers, Rs. 9 for diet of police cases. The income from local sources was Rs. 1,100 and from subscriptions Rs 13. Municipality paid Rs. 2,934.

*Doomraon.*—A class IIIA dispensary entirely supported and managed by the Maharajah of Doomraon. Visited once by the Magistrate of the district, once by the sub-divisional officer,

and twice by the Civil Surgeon. A third grade Assistant Surgeon was in charge. There were treated 118 in and 6,662 out patients against 111 and 6,031 in 1883, the daily averages were 4 and 82 against 7 and 67 respectively. The increase in the number of attendance of patients is due to the popularity of the dispensary. There were 9 deaths, or a rate of 7·6 per cent., against 21, or 18·4 per cent. in 1883. This large decrease in the mortality is probably due to fewer moribund cases being received during the year. Fifty-seven major and 858 minor operations were performed. There was one death after operation. The total expenditure was Rs. 2,007, of which Rs. 1,630 was the cost of establishment, Rs. 148 of Europe medicines, which were purchased from private druggists, and Rs. 37 of bazar medicines The cost of diet was Rs. 120. The expenditure on miscellaneous items was Rs. 71. Government contributed Rs. 10 as cost of forms and registers.

*Jugdispore.*—A class IIIB dispensary. This institution is maintained by the Municipality and local zemindars, Messrs. Burrows, Thomson and Mylne, and managed by the municipality. It was visited once by the District Magistrate, five times by the Vice-Chairman and members of the municipality, and twice by the Civil Surgeon during the year. A civil hospital assistant was in charge throughout the year. He received Rs. 70 per month, part of which was contributed by the municipality and part by Messrs. Burrows, Thomson and Mylne. There were treated 58 in and 4,749 out patients against 52 and 5,603 in 1883, the daily averages were 1 and 25 against 1 and 24 respectively. This reduction in the number of persons treated is said to be due, as in other dispensaries, to the improved state of public health. There were four deaths among the in-patients or a rate of 6·9 per cent. against 1 and of 1·9 in the previous year. There were four major and 186 minor operations. No deaths occurred. The total expenditure was Rs. 1,271, of which Rs. 1,017 was the cost of establishment. Europe medicines were obtained from private druggists on indents checked by the Civil Surgeon at a cost of Rs. 138. The cost of country medicines was Rs. 24, and of diet was Rs. 31. The expenditure on buildings and repairs was Rs. 13, and on miscellaneous items Rs. 47. Government contributed forms and registers, the value of which was Rs. 4. The income from European subscription was Rs. 645. Municipality paid Rs. 622.

*Bhubooa.*—This is a municipal dispensary in class IIIB. It is mainly supported and managed by the municipal committee which met eight times during the year. It was visited once by the Magistrate of the district, four times by the sub-divisional officer, and once by a Municipal Commissioner. The Civil Surgeon could not pay more than one visit, as the journey to it from the head-quarters is difficult and expensive, and takes three or four days. The civil hospital assistant of the sub-division was in charge and received Rs. 10 as an extra allowance for the dispensary work from the dispensary fund. The minor establishment consists of a compounder on Rs 10, a cook on Rs. 3, a bhistie on Rs. 3, and a sweeper on Rs 3 per month. There were treated 80 in and 3,146 out patients against 59 and 3,065 in 1883, the daily averages were 3 and 28 against 2 and 30 respectively. There were 3 deaths, or a rate of 3·75, and against 4 or a rate of 6·7 of the previous year. One major and 161 minor operations were performed. The total expenditure was Rs. 614, of which Rs. 343 represent the cost of establishment. Europe medicines were obtained from private druggists on indents checked by the Civil Surgeon at a cost of Rs. 147. The cost of bazar medicines was Rs. 24 and of diet Rs. 32. The expenditure on buildings was Rs. 29 and on miscellaneous items Rs. 39. Government supplied forms and registers, the cost of which was Rs. 9. Municipality paid Rs. 294, and the income from native subscriptions was Rs. 312.

*Buxar.*—This is a class IIIB, dispensary managed by the local municipality. It was visited once by the Magistrate, once by the Joint-Magistrate, and nine times by the Vice-Chairman and members of the municipality The Civil Surgeon inspected it twice. A civil hospital assistant was in charge, who received Rs. 30 per month from the dispensary fund and Rs. 10 from Government for the lock-up. The minor establishment consisted of a compounder on Rs. 8 per month, and a cook, bhistie and sweeper on Rs. 4 each, and a washerman on Re. 1 per month. There were treated 90 in and 4,206 out patients against 99 and 4,221 in 1883. The daily averages were 3 and 41 against 3 and 43 in the previous year. Here was also a falling off in the number of patients due to the improvement in the public health of the district during the year. There were 8 deaths, or a rate of 8·8 per cent. against 13, or a rate of 13·1 per cent. in the previous year. Four major with one death and 365 minor operations were performed. The total expenditure was Rs. 994, whereof Rs. 662 was the cost of establishment. Europe medicines were obtained from a private druggist at a cost of Rs. 124 The cost of bazar medicines was Rs. 29 and of diet Rs. 32. The expenditure on buildings and repairs was Rs. 44 and on miscellaneous items Rs. 102. Government supplied forms and registers at a cost of Rs. 10, and 14 for diet of police cases. Municipality paid Rs. 969.

*Dehree.*—This is a State hospital entirely supported by Government, chiefly for the employés of the Irrigation Department at Dehree, and is therefore in class I. The affairs of the dispensary are managed by the officers of the Public Works Department at Dehree and by the Assistant Surgeon in charge, who receives his entire pay Rs. 150 per month from Government. Visited twice by the Civil Surgeon, and occasionally by the Superintending and Executive Engineers. There is a compounder on Rs. 8, a cook on Rs. 5, and a sweeper on Rs. 4-8 a month. There were treated 25 in and 3,510 out patients against 21 and 3,178 in 1883, the daily averages being ·8 and 20 against ·9 and 18 respectively. There were 3 deaths,

or a rate of 12 per cent. as compared with 14·2 per cent. of the previous year. There were 3 major and 173 minor operations during the year. The total expenditure was Rs. 2,609, of which Rs. 2,320 was the cost of establishment. The cost of English medicines was Rs. 186 and of bazar medicines Rs. 13. The expenditure on diet was Rs. 42 and on miscellaneous items Rs. 48.

**Mozufferpore district.**

The Civil Surgeon has submitted a full and complete report. The district during the year 1884 was healthy, with the exception of fever. There was no outbreak of epidemic disease. Cholera was very little heard of in the district, only 317 deaths being reported from this disease throughout the year. Fever was as usual prevalent during the months of September, October, and November; the number of deaths reported from fever was 22,698 against 21,535 in 1883. There were four dispensaries at the end of the year, two were in Class II, one in Class IIIB under the control and management of local municipality, and one in class IIIA managed by a private committee Two were under Assistant Surgeons and two under that of civil hospital assistants. In three of them, both in-door and out-door patients were treated, and in one, namely Soorsund, only out-patients The total number of patients treated was 668 in and 38,326 against 483 and 27,739 in 1883, the daily averages were 28 and 205 against 21 and 181 respectively. This satisfactory increase is attributable mainly to the increased popularity of the dispensaries at Soorsund and Seetamarhi.

*Mozufferpore Dispensary.*—A Class II dispensary under the local municipality. The dispensary matters are discussed at the ordinary meetings of that body. It was visited five times by the District Magistrate, once by the Joint-Magistrate, and daily by the Civil Surgeon. An Assistant Surgeon was in charge, who received Rs. 120 per month. There were treated 274 in and 14,072 out patients against 240 and 11,735 in 1883, the daily averages being 15 and 80 against 11 and 71 respectively. The attendance of goitre cases exceeded by 1,117 that of the year 1883. The death rate among in-patients was 14·23 per cent. against 10 83 during the year. It must, however, be remembered that a large proportion of the patients amongst whom deaths occurred were brought to the hospital in the last stages of poverty and disease, and they were generally picked up by the police on the way-side, and sent to the hospital to die. There were 79 major and 582 minor operations performed with two deaths. The total expenditure was Rs. 4,028, of which Rs. 2,010 represent the cost of establishment. Europe medicines were obtained from private druggists at a cost of Rs. 199. The cost of bazar medicines was Rs. 106. Dieting articles cost Rs. 668, and Rs. 428 were spent on buildings or repairs. The expenditure on miscellaneous charges was Rs. 587. Government contributed Rs. 69, namely, Rs. 20 as cost of forms and registers, and Rs 49 for diet of police cases. Municipality paid Rs. 3,958.

*Hajeepore Dispensary.*—It is a Class II dispensary under the local municipality. It was visited once by the District Magistrate, three times by the sub-divisional officer, four times by the Sub-Deputy Magistrate, and three times by the Civil Surgeon. A civil hospital assistant was in charge. There were treated 127 in and 6,886 out-patients against 118 and 6,261 in 1883, the daily averages being 5·54 and 40·87 against 4·57 and 39 40 respectively. One thousand eight hundred and fourteen cases of goitre were treated during the year. The rate of mortality was 7·08 per cent. against 5·93 in the previous year. Sixteen major with one death and 299 minor operations were performed. The total expenditure was Rs. 1,350, of which Rs. 883 was the cost of establishment. Europe medicines were purchased from private druggists at a cost of Rs. 161. Bazar medicines cost Rs. 31. The expenditure on diet was Rs. 138, on buildings Rs. 78 and on miscellaneous items Rs. 58. Government contributed only Rs. 5 as cost of forms and registers. Municipality paid Rs. 707.

*Soorsund Dispensary.*—It is a class IIIA dispensary managed by a local committee which held no meetings. It was visited once by the Magistrate of the district and once by the Civil Surgeon. The dispensary is situated at a distance over 40 miles from the civil station, and during the rainy season it cannot be reached without the aid of elephants. A civil hospital assistant was in charge, who received his pay of Rs. 35 a month from the dispensary funds. There were no in-patients. Five thousand nine hundred and forty-two out-patients were treated, with a daily average of 51 27 against 4,955 and 49·60 in 1883. No major operation. Therewere 194 minor operations performed during the year. The total expenditure was Rs. 742, whereof Rs. 504 was the cost of establishment, Rs. 111 were spent on Europe medicines obtained from private druggists, Rs. 53 on bazar medicines, and Rs. 57 on buildings. The expenditure on miscellaneous items was Rs. 17. Government supplied forms and registers, the cost of which was Rs 3. The income from interest on investments was Rs. 483 and from native subscriptions Rs. 48.

*Sitamurhee Dispensary.*—A dispensary in class IIIB under the local municipality. It was visited once by the Magistrate, seven times by the sub-divisional officer, twice by the Sub-Deputy Magistrate, and twice by the Civil Surgeon. A second class civil hospital assistant is in charge, who draws Rs. 45 per mensem. Government pays Rs. 25, and the local municipality Rs. 20. The minor establishment cost Rs. 28 a month. There were treated 267 in and 11,426 out patients against 125 and 4,788 in 1883, the daily averages being 7·29 and 32·62 against 5·24 and 20·92 respectively. This satisfactory increase in the attendance is attributable to the fact that the present hospital assistant speaks the language of the province, and is attentive to his duties and considerate in his manner to the people attending the hospital. The death-rate among in-patients was 2·24 against 8 in the previous year. There were 3,418 cases of goitre treated during the year. Two major and 163 minor operations

were performed. The total expenditure was Rs. 1,659, of which Rs. 1,142 represent the cost of establishment. Europe medicines were purchased from private druggists at the cost of Rs. 230. Bazar medicines cost Rs. 27, diet Rs 206, and miscellaneous charges Rs. 54. Government paid Rs. 365, of which Rs. 360 was on account of salary of the medical subordinate, and Rs. 5 on account of forms and registers. Municipality paid nothing. The income consisted of Rs. 90 as interest on investments, and Rs. 60 and Rs. 1,081 as subscriptions from Europeans and natives.

Durbhunga district.

The general health of the district was better than in any previous year since 1880. The number of deaths being 28,796 against 35,575 in 1883, 44,722 in 1882, and 31,158 in 1881. Fever prevailed widely in the district. Cholera broke out in various parts of the district, all the outbursts were very mild sporadic visitations. The total number of dispensaries working at the end of the year was five, as in 1883. Of these, two were in class II, and three in class IIIA. Two under private management, one under that of a committee, and two under the local municipalities. The dispensaries at Durbhunga and Madhubani were under Assistant Surgeons; the rest were in charge of civil hospital assistants. All the dispensaries received both in-door and out-door patients. There were treated 811 in and 48,264 out patients against 763 and 42,398 in 1883, the daily averages being 45 and 265 against 38 and 250 in 1883. Besides the dispensaries mentioned above, there is a hospital at Somastipore for the employés of the Tirhoot State Railway. The only change that took place during the year, that the Tirhoot State Railway hospital at Somastipore was withdrawn from the superintendence of the Civil Surgeon of Durbhunga, by the appointment of a medical officer to the charge of the Railway. Formerly the medical charge of the whole line was held by the Civil Surgeon of Dhurbhunga without extra remuneration. All the public offices of Durbhunga were removed in October to the civil station at *Loheria Serai*. This place is nearly five miles to the south of the old station, and is on the other side of the town. The municipality of Durbhunga will establish and maintain a dispensary here under the charge of an Assistant Surgeon, when the sanction of Government applied for is received. Maharaj Kumar Rameshur Singh, C. S., has signified his intention of establishing a dispensary near his place at Buchour this year.

*Durbhanga.*—This is a class IIIA dispensary entirely supported by the Maharajah of Durbhunga. There is no committee. It was visited daily by the Civil Surgeon, occasionally by Colonel Money, Bengal Staff Corps, Manager, Raj Durbhunga, and once by the Commissioner of the Division. A third grade Assistant Surgeon was in charge throughout the year on a salary of Rs. 120 per mensem. There were treated 439 in and 17,471 out patients against 375 and 13,631 in 1883, the daily averages being 31 and 104 against 23 and 82 respectively. There were 51 deaths against 45 in the previous year. Majority of deaths occurred among the patients brought in in a moribund state. Sixty-seven major, of which three ended fatally, and 512 minor operations were performed during the year. The total expenditure was Rs. 7,393, of which Rs. 4,228 were expended on establishment, Rs. 1,644 on Europe medicines, which were brought from England, Rs. 158 on bazar medicines, and Rs. 1,086 on diet. Rs. 277 were spent on miscellaneous items. Government contributed Rs. 46, namely, Rs. 19 as cost of forms and registers, and Rs. 27 for diet of police cases.

*Naraya.*—A class IIIA dispensary, supported by Raj Durbhunga. Visited once by the Civil Surgeon. A civil hospital assistant was in charge, who was paid Rs 50 per mensem. There were treated 31 in and 4,606 out patients against 11 and 4,325 in 1883, the daily averages being 1·18 and 21·07 against 1·5 and 27 respectively. There were no deaths among the in-patients. Twenty major and 169 minor operations were performed. The total expenditure was Rs 1,106, of which Rs. 963 were expended on establishment, Rs. 46 on country medicines, Rs. 56 on diet, and Rs. 41 on miscellaneous items. Government contributed forms and registers, the cost of which was Rs. 9. Europe medicines were supplied from the main Raj dispensary.

*Tajpore.*—This is a class IIIA dispensary managed by a committee, of which the Joint-Magistrate is the Vice-Chairman. The committee met six times during the year. It was inspected once by the Civil Surgeon. The civil hospital assistant of the sub-division was in charge. There were treated 120 in and 9,764 out patients against 105 and 8,711 in 1883, the daily averages being 2·97 and 64·94 against 2·73 and 56·27 respectively. There were two deaths against four in the previous year. No major operation. One hundred and sixty-three minor operations were performed. The total expenditure was Rs. 764, of which Rs. 469 were expended on establishment, Rs. 56 on Europe medicines, Rs. 60 on bazar medicines, and Rs. 51 on diet. The amount expended on buildings was Rs. 31, and on miscellaneous charges Rs. 70. Government contributed Rs. 14, of which Rs. 9 was the value of forms and registers, and Rs. 5 for diet of police cases. The income from local and other funds was Rs. 11, interest on investments Rs. 27, and subscriptions from Europeans and natives were Rs. 137 and Rs. 586 respectively.

*Roserah.*—A municipal dispensary in class II. All expenses are borne by the municipality, which is presided over by the officer in charge of the duties of the Joint-Magistrate of the Sudder station. It was visited twice by the Civil Surgeon. The dispensary in its present state does a minimum amount of good, and compares unfavourably with the other dispensaries in the district. A civil hospital assistant was in charge. There were treated 16 in and 5,998 out patients against 64 and 4,935 in 1883, the daily averages being ·48 and 38·76 against 1 and 43 respectively. There were three deaths among the in-patients. One major and 79 minor operations were performed. The total expenditure was Rs. 994,

whereof Rs. 626 represent the cost of establishment. The cost of Europe medicines was Rs. 229, of bazar medicines Rs. 28. The expenditure on buildings was Rs. 60, and on miscellaneous charges Rs. 51. Government contributed Rs. 9 as cost of forms and registers. The income from native subscriptions was Rs. 390. Municipality paid Rs. 595.

*Madhuban.*—This is a class II municipal dispensary. It was visited twice by the Civil Surgeon. An Assistant Surgeon was in chargo, who drew Rs. 120 per mensem (including Rs 20 for the charge of the sub-division, paid by Government). There were treated 205 in and 10,425 out patients against 208 and 10,796 in 1883, the daily averages being 9·23 and 36·6 against 8 and 40 respectively. There were 9 deaths against 10 in the previous year Twenty major and 329 minor operations were performed. The total expenditure was Rs. 2,138, of which Rs. 1,624 was expended on establishment, Rs. 176 on Europe medicines and Rs. 34 on bazar medicines. Diet cost Rs. 245, and Rs 59 were spent on miscellaneous charges. Nothing was spent towards buildings and repairs. Government contributed Rs. 82, of which Rs. 9 were for forms and registers, and Rs. 72 for salaries, and annas 12-8 for diet of police cases. The income from European and Native subscriptions was Rs. 229 and Rs. 1,101-8 respectively; from investments as interest Rs. 92, and from miscellaneous sources Rs. 75. Balance in hand was Rs. 26, but there was no municipal contribution.

Sarun district.

The public health of the district was not good, as sickness was more prevalent than in the previous year There were six dispensaries in the district as in the previous year three of which were in class II, and were under the municipal control and management; three others in class IIIA and under private management; two were in charge of Assistant Surgeons and four under civil hospital assistants. The dispensaries at Chupra, Sewan, and Hutwa treated both in-door and out-door patients; the other three out-door patients only. The total number of in-door patients was 495 against 497 in the previous year, and of out-patients 65,481 against 59,746. The daily averages of all in-patients was 33 against 36, and that of out-patients 458 against 440. A fair amount of interest was evinced by managing bodies in the dispensaries generally, and the institutions are said to be much appreciated by the people.

*Chupra.*—This is a class II dispensary. All matters connected with the dispensary are settled at the municipal meetings. It was visited once by the Magistrate of the district, and daily, and some times twice a day by the Civil Surgeon. There were several changes in the Assistant Surgeons in charge. The pay of Assistant Surgeon, Rs. 120 per month, was met entirely from the municipal funds. There were treated 234 in and 16,255 out patients against 227 and 15,005 in 1883, the daily averages being 17 and 162 against 17 and 155 respectively. The percentage of deaths among in-door patients was 11 against 13 in 1883. The high rate of mortality, though less than that of the previous year, is due in a great measure to moribund cases and cases of injury brought in by the police. Eighty-two major with five deaths, and 472 minor operations were performed during the year under review. The total expenditure was Rs. 4,580, of which Rs. 2,311 was the cost of establishment, and Rs. 117 of bazar medicines. The cost of Europe medicines purchased from private firms was Rs. 748. The cost of diet was Rs. 493, and the expenditure on buildings was Rs. 333, and on miscellaneous items Rs. 578. Government contributed forms and registers, the cost of which was Rs. 28. Municipality paid Rs. 1,729. The income from European and native subscriptions amounted to Rs. 266, from local funds, Rs. 1,750 and Rs. 708 were received as interest on investments. At the end of the year there was an invested capital of Rs. 17,700.

*Sewan.*—A municipal dispensary in class II. Visited frequently by the sub-divisional officer, twice by the Vice-Chairman of the Sewan Municipality, and twice by the Civil Surgeon. There were several changes among the civil hospital assistants in charge. Minor establishment cost Rs. 27 monthly. There were treated 126 in and 9,560 out patients against 118 and 7,985 in 1883, the daily averages being 4 and 80 against 4 and 60 respectively. The deaths amongst in patients were 11 against 13 in the previous year, and the death-rate was 8·73 against 11·02. No major, but 381 minor operations were performed. The total expenditure was Rs. 1,013, of which Rs. 748 was the cost of establishment, and Rs. 32 of bazar medicines. English medicines were purchased from private firms at a cost of Rs 48 on indents checked by the Civil Surgeon. The cost of diet was Rs. 47. The expenditure on buildings was Rs. 98, and on miscellaneous items Rs. 40. Government contributed Rs. 12 as cost of forms and registers. Municipality paid Rs. 182. The income from subscriptions was Rs. 130 from Europeans and Rs. 689 from natives.

*Hutwa.*—A class IIIA dispensary entirely supported by the Maharajah of Hutwa. No dispensary committee. It was visited once by the sub-divisional officer of Gopalgunge, and once by the District Magistrate and twice by the Civil Surgeon. There were several changes among the Assistant Surgeons in charge. The cost of subordinate establishment was Rs. 28-8 per month. There were treated 135 in and 12,353 out patients against 152 and 11,979 in 1883, the daily averages were 11 and 72 against 15 and 76 respectively. The death-rate among in-patients was 16 against 9 in the previous year, and due to the admission of moribund cases. Sixteen major and 317 minor operations were performed. The total expenditure was Rs. 5,867, of which Rs. 3,022 was the cost of establishment, and Rs. 191 of bazar medicines. English medicines were obtained on indents checked by the manager from England at a cost of Rs. 1,739. The cost of diet

was Rs. 390, and Rs. 377 were spent on repairs to the dispensary buildings. The expenditure on miscellaneous items was Rs. 147. Government contributed forms and registers, the cost of which was Rs. 11.

*Gopalgunge.*—A branch dispensary of Hutwa in class IIIA. It is entirely supported by the Maharajah of Hutwa and managed by his manager. No dispensary committee. Visited once by the District Magistrate, once by the sub-divisional officer, and twice by the Civil Surgeon. A civil hospital assistant was in charge, who received Rs. 25 for sub-division from Government and Rs. 30 from the Raj for the dispensary. No in-patients. The number of out-patients was 14,384 against 14,309 in 1883, and the daily average 56 against 62. No major operations, but 98 minor operations were performed. The total expenditure was Rs. 1,055, of which Rs. 522 represent the cost of establishment. Europe medicines were supplied from the Hutwa dispensary at a cost of Rs. 325, Rs. 66 were expended on bazar medicines, Rs. 97 on miscellaneous items, and Rs. 45 on buildings. Government paid Rs. 8 as cost of forms and registers.

*Bhori.*—This is also a class IIIA dispensary entirely supported by the Maharajah of Hutwa. There is no dispensary committee. Visited once by the sub-divisional officer of Gopalgunge and twice by the Civil Surgeon. A civil hospital assistant was in charge, and received Rs. 30 a month from the Raj. No in-patients. There were 7,746 out-patients treated, with a daily average of 37·96 against 5,882 and 38·45 in 1883. No major operations, but 63 minor operations were performed. The total expenditure was Rs. 993, of which Rs. 516 was the cost of establishment. Europe medicines were supplied from the Hutwa dispensary, the cost of which was Rs 275. The expenditure on bazar medicines was Rs 83, on buildings Rs. 87, and on miscellaneous charges Rs. 32 Government contributed forms and registers, the value of which was Rs. 6.

*Revelgunge.*—A class II dispensary under the management and control of the municipality. No dispensary committee. It was visited once by the Magistrate of the district, frequently by the Vice-Chairman of the Municipality, and twice by the Civil Surgeon. A civil hospital assistant was in charge. The subordinate establishment consists of a compounder on Rs. 10, and a chuprasee on Rs. 6. No in-patients. The total number of out-patients treated was 5,183 against 4,586 in 1883, and the daily average was 48·99 against 47·32 No major operations, but 320 minor operations were performed. The total expenditure was Rs. 1,095, of which Rs. 789 was the cost of establishment, Rs. 4 were paid for Europe medicines during the year. The cost of bazar medicines was Rs. 52. The expenditure on buildings was Rs. 42, and on miscellaneous items was Rs. 207. Government contributed forms and registers, the cost of which was Rs. 10. Municipality paid Rs. 869-8. Subscriptions from natives amounted to Rs. 215-8.

**Chumparun district.** The public health of the district as shown by the mortuary returns was not good. There was a considerable increase in mortality, not only over that of last year, but over the preceding seven years, the number of registered deaths being 31,643 against 25,638 in 1883. The Civil Surgeon is of opinion that this year has not been particularly unhealthy, except that there was an increased amount of fever at the end of the year and that the increased mortality is again due to improved registration. There were four dispensaries in the district as in the previous year. One was in class II and three in class IIIB. Two were managed by local municipalities, and two by private committees. The dispensaries at Motihari, Bettiah, and Bagaha treated both in-door and out-door patients The one at Burhurwa is an out-door institution. Two were in charge of Assistant Surgeons, and two under civil hospital assistants. The total number of patients treated was 458 in and 36,803 out-patients against 380 and 36,226 in 1883, the daily averages were 20 and 213 against 18 and 196 respectively. The managing bodies of the Motihari and Bettiah dispensaries did not as a body show any particular interest in the management of these institutions. In the smaller dispensaries, Bagaha and Barhurwa, more interest was taken by the members of the committees.

*Motihari.*—A municipal dispensary under class II. No special meetings were held during the year, the dispensary business was transacted at ordinary municipal meetings. It was visited by the Magistrate, Joint-Magistrate, Inspector-General of Jails, and Sanitary Commissioner, who recorded no remark. The Civil Surgeon visited the dispensary daily. A second grade Assistant Surgeon was in charge, who drew Rs. 170 a month from the municipality. There were treated 144 in and 13,690 out patients against 149 and 12,063 in 1883, the daily averages being 7 and 60 against 7 and 55 respectively. There were 24 deaths among in-patients against 20 in 1883. Goitre is the prevailing disease. Twenty-seven major operations with 2 deaths and 389 minor operations were performed. The total expenditure was Rs. 2,318, whereof Rs. 1,740 was the cost of establishment; Rs. 94 of Europe medicines obtained from Government store. The outlay on bazar medicines was Rs. 61, on buildings Rs. 65; on diet of patients Rs. 223, and on miscellaneous items Rs. 135. Government contributed Rs. 8 as cost of forms and registers. The income of the dispensary from subscriptions was Rs. 730, and from interest Rs. 45. Municipality paid Rs. 1,435 against Rs. 577 in 1883. The dispensary had a capital of Rs. 1,000 invested in Government paper at 4½ per cent. at the end of the year.

*Bettiah.* A class IIIB dispensary, situated within the limits of a municipality which contributes towards its support and manages its affairs. It has not been formally vested in that body. It was visited once each by the Magistrate and the Sanitary Commissioner. The Civil Surgeon inspected it three times during the year. A second grade Assistant

Surgeon was in charge. There were treated 204 in and 9,655 out patients against 138 and 9,557 in 1883, the daily averages being 9 and 82 against 6 and 70 respectively. There were 14 deaths, or a rate of 6·8 per cent. against 20 and 14·4 in the previous year. Goitre is the most common disease. Thirty-nine major with two deaths, and 427 minor operations were performed. The total expenditure was Rs. 3,018, of which Rs. 2,012 was the cost of establishment, Rs. 283 of Europe medicines which were obtained partly from Government stores and partly from private druggists on indents checked by the Civil Surgeon, and Rs. 70 of bazar medicines. Dieting articles cost Rs 326. The expenditure on buildings was Rs. 20, and on miscellaneous items Rs. 307. Government contributed Rs. 8 as cost of forms and registers. The total income of the dispensary was Rs. 3,018, of which Rs. 1,459 were paid by the municipality, and Rs. 1,551 were obtained from local subscriptions.

*Burhurwa.*—A dispensary in class IIIB under the management of a committee which held no meetings during the year. Visited twice by the District Magistrate and twice by the Civil Surgeon. A civil hospital assistant was in charge, who received Rs. 20 monthly, half from Government and half from the dispensary fund. There were no in-patients. Six thousand two hundred and eighty-nine out-patients were treated with a daily average of 30 against 6,608 and 31 in 1883. The Civil Surgeon reports that "the new dispensary buildings is finished, and it is proposed to admit some in-patients. If this proposal be carried out, the establishment will have to be increased. The income of the dispensary is at present small, and unless extra subscriptions can be obtained, the expenses of treating and feeding in-patients and of extra establishment cannot be met from the income." Two hundred and nineteen minor operations were performed. No major operations. The total expenditure was Rs. 1,652, of which Rs. 342 was the cost of establishment, and Rs. 72 of bazar medicines. Europe medicines were obtained partly from the Government stores and partly from private druggists at a cost of Rs. 174. The outlay on buildings was Rs. 933, and on miscellaneous items Rs. 55. Government contributed Rs. 123, namely, Rs. 120 as half pay of the hospital assistant, and Rs. 3 as cost of forms and registers. The income of the dispensary from local subscriptions was Rs. 330 and from interest Rs. 93. Rs. 300 were obtained by withdrawal of deposits. At the end of the year the cash balance was Rs. 84. Rs 75 were invested during the year. At the end of the year there was an invested capital of Rs. 1,915.

*Bagaha.* This is also a class IIIB dispensary managed by a committee. No meetings were held during the year, but two members of the committee, who live near, frequently visited the dispensary. Visited once by the Magistrate of Champarun, and twice by the Civil Surgeon. A civil hospital assistant was in charge, who received Rs. 30 per mensem, viz. Rs. 15 from Government and Rs. 15 from the dispensary fund. There were treated 110 in and 7,169 out-patients against 93 and 7,998 in 1883. The daily averages were 3 and 40 against 4 and 39 in the previous year. There were 15 deaths among in-patients against the same number in 1883. Goitre was the most common disease. Sixteen major operations were performed without a single death. Minor operations numbered 189. The total expenditure was Rs. 1,283, whereof Rs. 601 was the cost of establishment, Rs. 183 of Europe medicines obtained from Government stores and private druggists, of which Rs. 109 were paid to Government for medicines supplied in 1883. Rs. 58 were spent on bazar medicines. Dieting articles cost Rs. 119. The expenditure on buildings was Rs. 152 and on miscellaneous items Rs. 170. Government contributed Rs. 183, namely, Rs. 180 as half pay of the hospital assistant, and Rs. 3 as cost of forms and registers. Subscriptions from Europeans and natives were Rs. 288 and Rs. 480 respectively. Rs 84 were obtained from local funds. There was a cash balance of Rs. 166 at the end of the year.

## Bhagulpore Division.

Monghyr district.

The general health of the district during the year 1884 was really much the same as ever, no unusual sickness having taken place, except perhaps in a few isolated localities. Cholera occurred in all parts of the district, though no serious outbreak took place anywhere. It was most prevalent in the months of June, July, and August, and it did not appear to have been at all affected by the rainfall of the year. The Civil Surgeon says that as usual the deaths from fevers formed a great majority of the casualties of the year. Twenty-six thousand four hundred and twenty deaths were reported to have occurred from this cause in 1884. Fevers prevailed most extensively in the latter half of the year. There were no changes in the number of dispensaries. Three dispensaries worked in the district as in 1883. One of these was in class II and managed by the local municipality, the other two were in class IIIA and under private management. The dispensary at Monghyr was in charge of an Assistant Surgeon; those at Khurruckpore and Jamui under civil hospital assistants. Two of the dispensaries, namely, Monghyr and Khuruckpore, treated both in-door and out-door patients, the one at Jamui only out-door patients. There were treated 923 in and 20,814 out patients against 715 and 23,667 in 1883, the daily averages being 56 and 162 against 44 and 166 respectively. The Civil Surgeon found no reason to doubt the correctness of these figures. The managing bodies of Monghyr and Khuruckpore dispensaries are said to take much interest in them.

*Monghyr.*—A municipal dispensary in class II under the management of the local municipality. The Civil Surgeon visited the dispensary daily. A second grade Assistant Surgeon was in charge. There were treated 805 in and 13,739 out patients against 598 and 16,804 in 1883, the daily averages being 49 and 104 against 39 and 121 respectively. There were 71

deaths, or a rate of 8·8 per cent. against 52 and 8·7 in 1883. The mortality, it is stated, was largely increased by the numerous patients brought in by the police in moribund condition. There were 118 major and 1,267 minor operations performed. Four deaths occurred after operation. The total expenditure was Rs. 9,155, whereof Rs. 2,649 was the cost of establishment. Europe medicines were obtained from private druggists on indents checked by the Civil Surgeon at a cost of Rs. 521. The cost of bazar medicines was Rs. 340. Dieting of in-patients cost Rs. 1,985, and Rs. 660 was expended on miscellaneous items. The outlay on buildings was Rs. 3 000. Government contributed Rs. 47, namely, Rs. 20 for forms and registers and Rs 27 for diet of police cases. Municipality paid Rs. 5,090. Subscriptions from Europeans were Rs. 669, and from natives Rs. 146. Rs. 202 were obtained as interest on investments. Securities were sold for Rs. 3,000. At the end of the year there was a capital of Rs. 3,500 invested in Government securities.

*Khurruckpore*—A class IIIA dispensary entirely supported by the Maharajah of Durbhanga, and is under the management of the Assistant Manager of the Raj, who visits it frequently. Visited thrice by the Civil Surgeon. A civil hospital assistant was in charge. There were treated 118 in and 5,098 out patients against 117 and 4,790 in 1883, the daily averages being 7 and 45 against 5 and 28 respectively. There were 9 deaths among in-patients against 4 in 1883. Fifty-one minor operations were performed. No major operation The total expenditure was Rs. 1,184, of which Rs. 921 was the cost of establishment. The cost of bazar medicines was Rs. 61, and of diet Rs. 153. The cost of Europe medicines which were supplied by the Manager, Raj Durbhanga, was not known. The expenditure on miscellaneous items was Rs. 49. Government contributed Rs. 5 for forms and registers.

*Jamui.*—A class IIIA dispensary managed by a committee presided over by the sub-divisional officer, Jamui. The committee met seven times during the year. Visited twice by the Civil Surgeon. A civil hospital assistant was in charge No in-patients. One thousand nine hundred and seventy-seven out-patients were treated with a daily average of 13 against 2,075 and 16 in the previous year. Two major and 131 minor operations were performed. The total expenditure was Rs. 1,877, of which Rs. 468 was the cost of establishment. English medicines were obtained from Government at a cost of Rs. 46. Bazar medicines cost Rs. 30. The expenditure on buildings was Rs. 96, and on miscellaneous items Rs. 37. Government contributed Rs. 2 as cost of forms and registers. Rupees 404 were obtained as interest on invested capital. Subscriptions from natives were Rs. 148. Rupees 1,200 were invested during the year. At the end of the year there was an invested capital of Rs. 11,100.

**Bhagulpore district.**

The general health of the district is said to have been fairly good, though less so than that of the preceding year, the number of registered deaths being 42,598 against 34.880 in 1883. There were no epidemics in the district. There were six dispensaries working at the end of the year. Of the six dispensaries, two were in class II, three in class IIIA, and one in class IIIB. Two were managed by municipalities, three by local committees. and one was under private management. On the whole the Civil Surgeon says that he is inclined to believe that the interest taken by the managing bodies is greater than it has hitherto been, though in many instances there is still room for improvement. The people no doubt appreciate the dispensaries more and more, especially where there are Assistant Surgeons. The dispensaries at Bhagulpore and Muddehpoora were in charge of Assistant Surgeons. Since September last, however, Muddehpoorah has been in charge of a civil hospital assistant, and the rest are all under civil hospital assistants Excepting Protabgungo and Soopoole dispensaries, all the institutions treated both in-door and out-door patients. There were treated 460 in and 14.788 out patients against 437 and 14,724 in 1883, the daily averages were 24 and 123 against 26 and 120 respectively. The Civil Surgeon says the figures of the annual returns of dispensaries have been verified from the monthly returns, and at the time of inspection of the dispensaries from the enquiries made from the local Magistrates and secretaries of dispensary committees, and he has no reason to believe that the returns are in any instance cooked.

*Bhagulpore*.—It is a municipal dispensary in class II, and is under the management of the municipality. Visited four times by the Commissioner of the Division, thrice by the Magistrate of the district, once by the Joint-Magistrate, and 10 times by the Municipal Commissioners. The Civil Surgeon visited it daily. An Assistant Surgeon was in charge. There were treated 328 in and 4,743 out patients against 247 and 4,561 in 1883, the daily averages were 18 and 45 against 15 and 37 in the previous year. There were 71 deaths, or a rate of 21·64 per cent. against 37 and 14·9 in 1883. Seventy-two major and 552 minor operations were performed. The total expenditure was Rs. 3,726, of which Rs. 1,576 was the cost of establishment. Europe medicines were obtained from private druggists at a cost of Rs. 481 and Rs. 128 was paid for country medicines. The cost of diet was Rs. 926. The expenditure on buildings was Rs. 144, and on miscellaneous items Rs. 471. Government supplied forms and registers, the value of which was Rs. 7, and paid Rs. 7 for dieting police cases. Municipality paid Rs. 1,989. Subscriptions from Europeans and natives were Rs. 355 and Rs. 176 respectively. Rs. 1,103 were received from local funds and Rs. 87 as interest.

*Banka.*—A class IIIB sub-divisional dispensary, managed by a committee which met four times during the year. Visited once by the District Magistrate, twice by the Civil Surgeon, and three times by the sub-divisional officer. There were several changes amongst the civil

hospital assistants in charge. There were treated 37 in and 1,349 out patients against 69 and 1,532 in 1883, the daily averages being 1 and 12 against 4 and ·16 respectively. There were eight deaths, or a rate of 21·6 as compared with 9 and 13·04 in the previous year. Forty-eight minor operations were performed. No major operation. The total expenditure was Rs. 637, of which Rs. 324 represent the cost of establishment. The cost of Europe medicines obtained from private druggists was Rs. 151, of bazar medicines Rs. 19, and of diet Rs. 45. The expenditure towards buildings and repairs was Rs. 27, and on miscellaneous items Rs. 44. Government contributed Rs. 125, namely, Rs. 4 in forms and registers, Rs. 120 as salaries, and Re. 1 for diet of police cases. The income from other sources was Rs. 596. Rs. 26 were obtained as interest on investments. Rs. 26 were invested during the year. Cash balance at the end of the year was Rs. 175.

*Colgong.*—A class II dispensary under the management of the municipality. Visited once by the Magistrate, twice by the Civil Surgeon and 33 times by the Municipal Commissioners. A civil hospital assistant was in charge. There were treated 7 in and 2,750 out patients against 5 and 1,997 in 1883, the daily averages being ·24 and 21 against ·08 and 21 respectively. There were three deaths among in patients. No major operation. Eighty-two minor operations were performed. The total expenditure was Rs. 535, whereof Rs. 375 represent the cost of establishment and Rs. 59 of Europe medicines, and Rs. 20 of country medicines. The expenditure on buildings and repairs was Rs. 52, on miscellaneous items Rs. 21, and on diet Rs 7. Government supplied forms and registers, the cost of which was Re. 1. Municipality paid Rs. 380, and the income from subscriptions amounted to Rs. 140, and from interest Rs. 13.

*Muddehpoorah.*—A class IIIA dispensary managed by a local committee which met six times. Visited once by the Commissioner of the Division, once by the Magistrate, once by the sub-divisional officer, once by the Civil Surgeon, and thrice by the members. An Assistant Surgeon was in charge from 1st January to 2nd September, and a civil hospital assistant from 3rd September to 31st December 1884. The minor establishment cost Rs. 25 a month. There were treated 88 in and 1,896 out patients against 116 and 2,682 in 1883, the daily averages being 3 and 15 against 6 and 18 respectively. Seven deaths occurred among in-patients against nine in the previous year. Sixteen major and 131 minor operations were performed. The total expenditure was Rs. 1,657, of which Rs. 1,002 represent the cost of establishment and Rs. 101 of Europe medicines obtained from private druggists, and Rs. 24 of bazar medicines. Diet cost Rs. 95. The expenditure on buildings was Rs. 388, and on miscellaneous items Rs. 47. Government contributed Rs. 4 for forms and registers. The income of the dispensary Rs. 2,087 consisted of Rs. 215 from Europeans, Rs. 856 from natives, Rs. 68 from local funds, and Rs. 120 as interest on investments. There was a cash balance of Rs. 430 and Rs. 3,000 as invested capital at the end of the year.

*Protabgunge.*—A class IIIA dispensary, managed and supported entirely by Rai Dhunput Sing Bhadoor. There is no committee. Visited once by the Commissioner of the division, once by the District Magistrate, and once by the sub-divisional officer. The Civil Surgeon inspected it once only. A civil hospital assistant was in charge of the institution. There were treated 2,325 out-patients with a daily average of 18 against 2,117 and 15 in 1883. No in-patients. Seven minor operations were performed. No major operation. The total expenditure was Rs. 596, of which Rs. 432 was the cost of establishment, Rs. 100 of Europe medicines, and Rs. 52 of bazar medicines. The expenditure on miscellaneous items was Rs. 12. Government contributed annas 7 for forms and registers. Rs. 596 were obtained as subscriptions.

*Soopoole.*—A class IIIA dispensary. It is managed by a local committee which held seven meetings during the year. Visited once by the Commissioner, twice by the sub-divisional officer, and once by a member of the committee The Civil Surgeon inspected it once. The sub-divisional civil hospital assistant was in charge and received Rs. 10 as an extra allowance from the dispensary funds. One thousand seven hundred and twenty-five out-patients were treated with a daily average of 9 against 1,835 and 12 in 1883. Forty-five minor operations were performed. No major operation. The total expenditure was Rs 830, of which Rs 292 was the cost of establishment, Rs. 95 of Europe medicines, and Rs. 5 of country medicines. The expenditure on buildings and miscellaneous items was Rs. 233 and Rs. 23 respectively. Government supplied forms and registers, the value of which was Rs. 3. Rs. 265 were obtained as donations, Rs. 25 as interest on investments. Subscriptions from Europeans and natives were Rs. 61 and Rs. 626 respectively. Rs. 181 were invested during the year. There was a cash balance of Rs. 970 and an invested capital of Rs. 916 at the end of the year.

**Purneah district.**

With regard to the public health of the district, the Civil Medical Officer says that the year 1884 was one of comparative health. There was no epidemic of cholera or small-pox, and much less fever. Bowel-complaints, rheumatic and pulmonary disorders were also less. Three dispensaries worked in the district throughout the year, two of which were in class II and managed by municipalities, and one in class IIIA under a local committee. All the dispensaries were in charge of civil hospital assistants. The dispensary at Purneah treated both in-door and out-door patients. Kissengunge and Bussantpore dispensaries treated only out-door patients. There were treated 152 in and 8,046 out patients against 179 and 9,217 in 1883. The daily averages being 5 and 41 against 6 and 45 respectively. The Civil Medical Officer says the decrease was due to there being less sickness,

especially under the head of two prevailing complaints—fever and spleen. The figures were tested by the civil medical officer, who says that they are reliable, excepting those of the dispensary at Kishengunge, in which the attendance was exaggerated, which was detected at the half-yearly inspections. The interest of managing committees and municipal bodies in their institutions is not very great. Meetings are attended and visits paid in rotation. The poor and helpless appreciate the institutions, especially when surgical relief is sought for, but both for surgery and medicine they are as a rule slow to apply for medical relief.

*Purneah.*—It is a municipal dispensary in class II. All matters connected with the institution are discussed and disposed of at the ordinary meetings of the Municipal Commissioners. A special sub-committee was appointed during the year to report upon the state of the building, which is now some years old, and stands urgently in need of thorough repair. Visited once by the Commissioner of the division and six times by the Municipal Commissioners. The Civil Medical Officer visited it almost daily. There were several changes among the medical subordinates in charge owing to the absence on sick leave of the permanent incumbent. There were treated 152 in and 4,537 out patients against 166 and 4,655 in 1883, the daily averages being 5 and 28 against 6 and 30 respectively. There were thirty-three deaths among in-patients. Nineteen major and 52 minor operations were performed. The total expenditure was Rs. 1,505, of which Rs. 1,116 represent the cost of establishment. Europe medicines were obtained from Government stores at a cost of Rs. 110. The cost of bazar medicines was Rs. 19, dieting of in-patients cost Rs. 117. The expenditure on buildings and miscellaneous charges was Rs. 101 and Rs. 41 respectively. Government paid Rs. 42, namely, Rs. 36, sick leave allowance of the civil hospital assistant, Rs. 4 for registers and forms, and Rs. 2 for diet of police cases. Municipality paid Rs. 562. Subscriptions from Europeans were Rs. 321, and from natives Rs. 239, Rs. 340 were received as interest on investments. There was an invested capital of Rs. 8,500 at the end of the year.

*Kissengunge.*—It is a class II dispensary under the management of the municipality who held no meetings during the year. Visited once by the Commissioner. The Magistrate and the Civil Medical Officer visited it twice each. A civil hospital assistant was in charge, who received his grade pay Rs. 25 for the sub-division, and Rs. 10 for executive charge of the subsidiary jail from Government, and an additional allowance of Rs. 10 from the dispensary fund. There were treated 1,521 out-patients against 13 in and 2,704 out in 1883, the daily averages being 5 against ·47 and 6 respectively. Nine major and 34 minor operations were performed. The total expenditure was Rs 917, whereof Rs. 226 were expended on establishment. The cost of Europe medicines was Rs. 9 and of bazar medicines Rs. 10. The expenditure on buildings was Rs. 651 and on miscellaneous items Rs. 21. Government supplied forms and registers, the value of which was Rs. 3. Municipality paid nothing. Subscriptions from natives were Rs. 287. Interest on investments amounted to Rs. 132. Sale of securities or withdrawal of deposits was Rs. 1,890. Rs. 62 were obtained from sale of bricks.

*Bassantpore.*—This is a class IIIA dispensary, managed by a committee which met five times during the year. The civil medical officer inspected it twice. A civil hospital assistant was in charge, who was a second grade man, whose grade pay was Rs. 35 per mensem, of which Government paid Rs. 25 for the sub-division, the remainder Rs. 10 and Rs. 10 as dispensary allowance were paid from dispensary funds. There were treated 1,988 out-patients with a daily average of 8 against 1,858 and 8 in 1883. No in-patients. Twenty-one minor operations were performed. No major operation. The total expenditure was Rs. 469, of which Rs. 232 were expended on establishment. The cost of Europe medicines was Rs. 12 and of bazar medicines Rs. 4. The expenditure on buildings was Rs. 51, and on miscellaneous items Rs. 50. Government paid Rs. 3 for forms and registers. Rs. 9 were obtained from local funds, and Rs. 20 were received as interest on investments. Subscriptions from Europeans and natives were Rs. 30 and Rs. 418 respectively. There was a cash balance of Rs. 57 at the end of the year. Rs. 120 were invested during the year.

**Maldah district.** The report was submitted by Assistant Surgeon Nogendra Kumar Mullick, who joined the district on the 15th January 1885. The public health of the district, the Assistant Surgeon says, has been unfortunately a little worse than what it was in the preceding year, because the total mortality of the district from all causes, as deduced from the several mortuary returns submitted by police, amounted to 13,044 against 12,841 in the preceding year. The ratio of deaths per 1,000 of population was 18·3 against 18·0 in 1883. Cholera prevailed more or less everywhere in the district. There were two dispensaries working at the end of the year, both of which were in class II under municipal management, and in charge of civil hospital assistants. In the dispensary at English Bazar both in and out-door patients were treated; in the other only out-patients. There were treated 144 in and 9,134 out patients against 127 and 9,705 in 1883, the daily averages being 4 and 60 against 4 and 70 respectively. The Assistant Surgeon says that he can give no definite opinion on the verification of the figures, as he has very recently taken over medical charge of the district. Interest seems to have been taken by the municipalities in the working of these institutions. The people show a fair appreciation of their value. Another dispensary in class IIIA at Chanchal, sanctioned by Government in their letter No. 1111, dated 18th November 1884, has not been brought into operation.

*Maldah.*—English Bazar Dispensary. This is a municipal dispensary in class II. The Municipal Commissioners held seven meetings during the year. Visited once by the

Commissioner, and four times by the District Magistrate. The civil medical officer visited the dispensary daily. A civil hospital assistant is in charge. There were treated 144 in and 6,469 out patients against 127 and 6,906 in 1883, the daily averages were 4 and 42 against 4 and 49 respectively. There were 24 deaths, or a rate of 16·6 per cent. against 17, or a rate 13·3 in 1883. Twenty-three major and 354 minor operations were performed. The total expenditure was Rs. 1,094, whereof Rs. 616 was the cost of establishment. Of Rs. 218, cost of Europe medicines, Rs. 94 were paid for medicines and for a few surgical instruments purchased in bazar, and the rest Rs. 124 were paid for those received from Government medical store on annual indent for 1883. The expenditure on bazar medicines was Rs. 51, on diet Rs. 141, and on miscellaneous items Rs. 67. Government paid Rs. 20, namely Rs. 15 for forms and registers, and Rs. 5 for diet of police cases. Municipality paid Rs. 484. Rs. 60 were obtained from local or other funds, and Rs. 62 as interest on investments. Subscriptions from Europeans and natives amounted to Rs. 355.

*Maldah Town.*—A municipal dispensary in class II under the management of the Municipal Commissioners, who held four meetings during the year. The Magistrate of the district visited it six times and the Civil Surgeon eight times. A civil hospital assistant was in charge. Two thousand six hundred and sixty-five out-door patients were treated with a daily average of 18 against 2,799 and 20 in 1883. No in-patients. Three major and 138 minor operations were performed. The minor establishment consisted of a compounder on Rs. 5 and a servant on Rs. 4 a month. The total expenditure was Rs. 669, of which Rs. 448 was the cost of establishment. The cost of Europe medicines, chiefly obtained from Government stores, was Rs 112 and of country medicines Rs. 22. The outlay on buildings was Rs. 54 and on miscellaneous items Rs. 33. Government contributed Rs. 11 in forms and registers. Municipality paid Rs. 342. Subscriptions from natives were Rs. 149. There was an invested capital of Rs. 1,267.

Sonthal Pergunnahs district.

The general health of the district was worse than that of 1883. Fever and cholera prevailed in the various towns and sub-divisions of this district during the year under review. The number of registered deaths was 24,543 against 19,648 in 1883. Five dispensaries worked in the district throughout the year, of which one was in class II and under municipal control, two in class IIIB, and two in class IIIA, and are managed by local committees. All the dispensaries were in charge of civil hospital assistants. With the exception of the dispensary at Jamtara, all the others treated both in-door and out door patients. There were treated in all 226 in and 7,411 out patients against 281 and 7,288 in 1883, the daily averages were 8 and 56 against 10 and 63 respectively. "These figures," says the Civil Surgeon, "may be accepted as fairly correct." The managing bodies are said to take interest in the affairs of the dispensaries, with the exception of Jamtara and Godda, at which places the sub-divisional officers see that the business is not neglected. The institutions are fairly appreciated by those for whom they are intended.

*Doomka.*—A class IIIB dispensary. There is no municipality in Doomka. The dispensary is under the management of a committee which held six meetings. It was not visited by the Commissioner of the Division, or by the Deputy Commissioner, but almost daily by the Civil Surgeon. A civil hospital assistant of the second class was in charge during the year, who received his entire pay Rs. 35 from the dispensary fund. The cost of the minor establishment is Rs. 25 a month. There were treated 96 in and 2,781 out-patients against 85 and 2,721 in 1883, the daily averages being 3 and 20 against 4 and 25 respectively. Those figures shew a slight increase of sickness in the neighbourhood of the dispensary as compared with the previous year. This fairly corresponds with the local public health, which was worse in 1884 than in 1883. There were 19 deaths against 9 in the previous year. Thirty-six major and 181 minor operations were performed. No death resulted after operation. The total expenditure was Rs. 1,617, of which Rs. 720 were the cost of establishment, Rs. 103 of Europe medicines obtained from private druggists on indents checked by the Civil Surgeon, and Rs. 23 of country medicines. The cost of diet was Rs. 74. The outlay on buildings, and on miscellaneous items was Rs 53 and Rs. 56 respectively. The total income was Rs. 1,641, of which Government paid Rs. 153, namely, Rs. 4 as cost of forms and registers, Rs. 120 as a special allowance, being the aid of Rs. 10 per month formerly paid out of the "Estate Improvement Fund" now abolished, and Rs. 28 for dieting of police cases. Rs. 588 were invested during the year. The dispensary had a closing balance of Rs 23 in hand and an invested capital of Rs. 1,925 at the end of the year.

*Deoghur.*—It is a municipal dispensary in class II. Visited twice by the Commissioner of the Division, once by the Deputy Commissioner, and three times by the Civil Surgeon. The civil hospital assistant of the sub-division was in charge and received Rs. 45 from the dispensary and Rs. 25 from Government. The minor establishment cost Rs. 24 per month. There were treated 91 in and 1,955 out-patients against 90 and 1,821 in 1883, the daily averages were 3 and 12 against 2 and 13 respectively. There were 25 deaths among in-patients against 37 in the previous year. Seventeen major and 125 minor operations were performed. The total expenditure was Rs. 1,203, of which Rs. 977 represent the cost of establishment, Rs. 56 of Europe medicines which were obtained from a private druggist in Calcutta, including the price of cinchona febrifuge, which was obtained from the Botanical Gardens, and Rs. 18 of bazar medicines. The cost of diet was Rs. 86. The expenditure on buildings was Rs. 5 and on miscellaneous items Rs. 60. The total income was Rs. 1,258, of which Government paid Rs. 5 for forms and registers. Municipality paid nothing. Re. 1 was obtained from local or other funds. Subscriptions from Europeans and natives amounted to Rs. 159 and Rs. 966

respectively. Interest on investments was Rs. 107. The invested capital of Rs. 3,000 was not touched.

*Godda.*—It is a class IIIB dispensary, managed by a committee which met only once in the course of the year. It was visited neither by the Commissioner nor by the Deputy Commissioner during the year. Visited three times by the sub-divisional officer and twice by the Civil Surgeon. The civil hospital assistant of the sub-division was in charge, and received Rs. 10 monthly from the dispensary funds. The minor establishment consisted of a compounder on Rs. 9, one cook on Rs. 4, and one sweeper on Rs. 4 per mensem, and the school peon receives Rs. 2 per cent. for collecting subscriptions. There were treated 34 in and 887 out-patients against 19 and 829 in 1883, the daily averages were 1 and 9 against 0·8 and 9 respectively. There were two deaths among in-patients against three in the previous year Forty-one minor operations were performed. No major operation. The total expenditure was Rs. 557, of which Rs. 323 was the cost of establishment. Europe medicines were obtained from private druggists at a cost of Rs. 43. The cost of bazar medicines was Rs. 9 and diet of in-patients Rs. 49. The outlay on buildings was Rs. 21 and on miscellaneous items Rs. 28. Government paid Rs. 126, namely, Rs. 3 for forms and registers; Rs. 15 for diet of police cases, and Rs. 108 as special allowance. Subscriptions from Europeans and natives amounted to Rs 37 and Rs. 361 respectively. Interest on investment was Rs. 83. There was an invested capital of Rs. 2,320 (including undrawn amount of interest in the Savings Bank at Godda) at the end of the year.

*Jamtara.*—A class IIIA dispensary under the management of a local committee, which held two meetings during the year. Visited twice by the Commissioner, once by the Deputy Commissioner, and three times by the Civil Surgeon. The civil hospital assistant of the sub-division was in charge, and received Rs. 10 monthly from the dispensary fund. No in-patients. One thousand and fifty-seven out-patients were treated against 1,122 in 1883; the daily averages were 6·22 and 6·9 respectively. Two major and 73 minor operations were performed. The total expenditure was Rs. 383, of which Rs. 192 was the cost of establishment Europe medicines were obtained from a private druggist at a cost of Rs. 59, and country medicines cost Rs. 3. The amount expended on buildings was Rs. 99 and on miscellaneous items Rs. 11. Government supplied forms and registers, the cost of which was Rs. 2. The chief income of the dispensary was derived from subscriptions, which was Rs. 282 against 354 in 1883. Rs. 19 were obtained as interest in investment, Rs. 4 from local funds, and from withdrawal of deposits Rs. 40. The dispensary had a closing balance of Rs. 56 and an invested capital of Rs. 527 at the end of the year.

*Rajmehal.*—It is a sub-divisional dispensary in class IIIA, managed by a committee which held eight meetings. Visited once by the Deputy Commissioner and eight times by the sub-divisional officer. The Civil Surgeon inspected the dispensary three times. The civil hospital assistant of the sub division was in charge, and received Rs. 10 per mensem as an extra allowance from the dispensary fund. Owing to a decrease in the income from subscriptions of the dispensary, its in-door department was abolished, and the establishment reduced from the 15th January 1884. The minor establishment consisted of a collecting peon on Rs. 3 and a sweeper on Rs. 2 per month. There were treated 5 in and 731 out-patients as compared with 87 and 795 in 1883, the daily averages being ·04 and 6·96 against 3 and 7 respectively. There were no deaths. Sixty minor operations were performed. No major operation. The total expenditure was Rs. 352, of which Rs. 2.5 was the cost of establishment and Rs. 10 of diet. Europe medicines were obtained from private druggists at a cost of Rs. 59. Bazar medicines cost Rs. 8, and Rs. 33 were spent on miscellaneous items. The total income was Rs. 359, of which Government paid Rs. 16, namely, Rs. 3 for forms and registers and Rs. 13 for dieting of police cases. Subscriptions from Europeans and natives were Rs. 68 and Rs. 40 respectively. Interest on investment was Rs. 15, and withdrawal of deposits Rs. 202. There was an invested capital of Rs. 342 (including undrawn interest Rs. 11) at the end of the year. The Civil Surgeon says: "The existence of this dispensary still continues to be precarious owing to the uncertainty of its income, which wholly depends upon voluntary subscriptions. The amount promised is Rs. 28 per month. At the end of the year just closed, the amount of subscription in arrear was Rs. 415 against Rs 268 at the end of 1883. As the matter now stands, the expenditure exceeds the actual income, and unless the committee can adopt some measure to increase the income, the dispensary," I fear, "will have to be closed."

## CHOTA NAGPORE DIVISION.

Manbhoom district.

The Civil Surgeon says that the year has not been a healthy one, owing to the greater prevalence of cholera, fever, and bowel-complaints than in the preceding year. There were three dispensaries in the district, one of which was in class II, and two in class IIIA. There were treated 636 in and 9,508 out-patients against 536 and 7,848 in 1883, the daily averages being 24 and 83 against 20 and 69 respectively. The Civil Surgeon believes that the figures compiled by the civil hospital assistants can be relied on.

*Purulia.*—A class II municipal dispensary. A sub-committee consisting of six members of the municipality exists. The Deputy Commissioner and members are said to take great interest in all matters concerning the institution. A meeting was convened regularly every month, when the accounts were examined and passed. The Civil Surgeon visited the dispensary daily. A second grade civil hospital assistant was in charge. There were

treated 369 in and 5,938 out-patients against 298 and 4,806 in 1883, the daily averages being 16 and 50 against 13 and 41 respectively. The diseases prevailing most among out-patients were ophthalmia, fever, and skin affections. There were 32 deaths among in-patients against the same number in 1883. Thirty-seven major and 264 minor operations were performed. Of the former the Civil Surgeon performed 22. There were three deaths after operation. The total expenditure was Rs. 2,114, whereof Rs. 1,239 represent the cost of establishment, Rs. 186 of Europe medicines, Rs 43 of bazar medicines, and Rs. 214 of diet. The expenditure on buildings was Rs. 279, and Rs. 152 on miscellaneous items. Government contributed Rs. 63, namely, Rs. 10 for forms and registers, and Rs. 53 for diet of police and orphan cases. Municipal funds contributed Rs. 666. Europeans subscribed Rs. 208 and natives Rs. 1,025. Rs. 6 were obtained as interest on investment, and Rs. 50 from local or other funds. There was no cash balance at the end of the year

*Pandra.*—A class IIIA dispensary. The Pandra Estate, which defrays the expenses of the institution, is in chancery. Litigation continues, and it is uncertain, says the Civil Surgeon, what the future of the dispensary will be. It is under the management of a committee which met nine times during the year. Inspected by the Civil Surgeon twice. The native doctor who was in charge was not in the Government service. There were treated 111 in and 2,023 out-patients against 128 and 1876 in 1883, the daily averages being 3 and 19 against 3 and 17 respectively. There were 11 deaths against 7 in 1883. Two major and 82 minor operations were performed. No deaths resulted after operation. The total expenditure was Rs. 1,085, including the amount invested during the year. Government contributed Rs. 7 for forms and registers. Establishment cost Rs. 726, bazar medicines Rs. 9, Europe medicines Rs. 207, diet Rs. 68, buildings and repairs Rs. 13, and miscellaneous charges Rs. 51. At the end of the year there was an invested capital of Rs. 315.

*Gobindpore.*—A class IIIA sub-divisional dispensary in charge of the hospital assistant of the sub-division. It is under the management of a committee which met nine times during the year. The Civil Surgeon inspected it on two occasions. There were treated 156 in and 1,547 out-patients against 110 and 1,166 in 1883, the daily averages being 4 and 12 against 3 and 9 respectively. There were 28 deaths against 25 in the previous year. The dispensary is said to be resorted to by numbers of pilgrims who are admitted exhausted, and in the last stage of disease. Forty-eight minor operations were performed. No major operation. The total expenditure was Rs. 860, inclusive of the amount invested during the year. Government contributed Rs 21, namely, Rs. 8 for forms and registers, and Rs. 13 for diet of police cases. Subscriptions from Europeans were Rs. 102. and from natives Rs. 419. Rs. 8 were obtained from local or other funds, and Rs. 15 as interest on investment. Establishment cost Rs. 376, bazar medicines Rs. 16, Europe medicines Rs. 141, diet Rs. 104, miscellaneous items Rs. 43, and repairs to buildings Rs. 79. At the end of the year there was an invested capital of Rs 260. Deposits withdrawn Rs. 290.

**Hazaribagh district.**

The Civil Surgeon says that the year under review was not an unhealthy one, although the deaths recorded were in excess of most years. He attributes the increase in the number of deaths to improvement in registration. There were three dispensaries in the district, two of these were in class II, and one in class IIIB. There were treated 238 in and 5,839 out patients against 176 and 7,425 in 1883, the daily averages being 15 and 60 against 11 and 90 respectively. The Civil Surgeon believes the figures of the dispensaries to be correct. All the dispensaries were in charge of civil hospital assistants, two of them were managed by the municipality, and one by a local committee. The people of the district, the Civil Surgeon says, have never shewn much appreciation of the institutions, but he thinks there were some improvement in this respect during the past few years.

*Hazaribagh.*—A municipal dispensary in class II. No visit was paid to it by any Government officer. The Civil Surgeon is said to have visited it frequently. There were treated 230 in and 3,066 out patients against 168 and 4,585 in 1883, the daily averages being 15 and 36 against 9 and 61 respectively. Twenty-nine deaths occurred among in-patients. Forty-four major and 104 minor operations were performed. Three deaths occurred after operation. The total expenditure amounted to Rs. 1,846, of which Government contributed Rs. 16 as cost of forms and registers. The cost of establishment was Rs. 684, of Europe medicines Rs. 312, of bazar medicines Rs. 64, and of diet Rs. 513. The expenditure on buildings was Rs. 30, and on miscellaneous items Rs. 24[illegible]. Municipality paid Rs. 1,268. Subscriptions from Europeans and natives were Rs. 337 and Rs. 224 respectively.

*Chatra.*—A municipal dispensary in class II under the management of the Municipal Commissioners, who held eight meetings during the year. Once visited by the Deputy Commissioner, twice by the Civil Surgeon, and frequently by the munsif. There were treated 8 in and 1,836 out patients against 8 and 1,639 in 1883, the daily averages being ·47 and 12 against 1 and 14 respectively. One hundred and eleven minor operations were performed. No major operation. The total cost amounted to Rs. 862, of which Government contributed Rs. 17, namely, Rs. 4 as cost of forms and registers, and Rs. 13 for diet of police cases. The expenditure on establishment was Rs. 491, on Europe medicines Rs. 220, on bazar medicines Rs. 13, on buildings Rs. 5, and on miscellaneous items Rs. 119. Subscriptions from natives were Rs. 324. There was a cash balance of Rs. 77 at the end of the year.

*Burhi.*—A class IIIB dispensary, governed by a local committee which met twice during the year. Two visits were paid by the Deputy Commissioner and one by the

Civil Surgeon. Nine hundred and thirty-seven out-patients were treated against 1,201 in 1883, the daily averages being 10 and 14 respectively. Seventy-nine minor operations were performed. No major operation. The total cost was Rs. 730, of which Government contributed Rs. 185, namely, Rs. 180 for salaries, and Rs. 5 for forms. The expenditure on establishment was Rs. 456, on Europe medicines Rs. 57, on bazar medicines Rs. 3, and on miscellaneous items Rs. 13. Subscriptions from Europeans and natives were Rs. 480, and Rs. 22 were obtained as interest on investments. There was a cash balance of Rs. 68 at the end of the year, and Rs. 200 were invested during the year. At the end of the year the total invested capital was Rs. 800.

Lohardugga district.

The Civil Surgeon says that the year 1884 has been more healthy than the previous years, judging from the mortuary returns furnished by the police; but as registration is defective, it is impossible to place much reliance on the figures. The comparison in any case is not one that gives much information, owing to the fact that the dispensaries are used by a particular class of patients—habitual paupers, hangers-on of the various local shopkeepers, minor Government servants, petty travelling traders, and others of this kind. The rural population do not make much use of the institutions, and a good deal of the Christian population get medicines, &c., from the missions. There were three dispensaries in the district, one in class II, and other two in class IIIB, two receive in and out patients and one out-door only. There were treated 267 in and 6,036 out-patients against 239 and 5,678 in 1883, the daily averages being 13 and 59 against 11 and 53 respectively. The figures of the Ranchee dispensary, the Civil Surgeon says, may be taken as correct, and he has no reason to doubt the accuracy of the figures of the other dispensaries. One of the dispensaries is under the municipal control, and the other two are governed by local committees. The Civil Surgeon says that no interest whatever is taken in any of them by the governing bodies, with the exception of the Government officers who are connected with them as *ex-officio* members.

*Ranchi.*—A municipal dispensary in class II. Visited daily by the Civil Surgeon and occasionally by the European civil officers. A civil hospital assistant was in charge. There were treated 134 in and 3,508 out patients against 100 and 3,332 in 1883, the daily averages being 7 and 35 against 5 and 31 respectively. The total number of deaths among in-patients was 33 as compared with 35 in 1883. The chief causes of deaths are said to be fever and dysentery among pilgrims admitted in a hopeless condition who are too weak to proceed to their homes. Nineteen major and 106 minor operation were performed. The total expenditure was Rs. 1,502, whereof Rs. 732 represent the cost of establishment, Rs. 269 of Europe medicines which were obtained from private druggists, and Rs. 95 of bazar medicines. The cost of diet was Rs. 183 The expenditure on buildings was Rs. 6, and on miscellaneous items Rs 215. Government paid Rs. 53, namely, Rs. 15 for forms and registers, and Rs. 38 for diet of police cases. Subscriptions from Europeans were Rs. 124, and from natives Rs. 283. Municipality paid Rs. 1,042.

*Palamow (Daltongunge).*—A dispensary in class IIIB in charge of the Assistant Surgeon of the sub-division, who received his dispensary allowance from Government. Managed by a local committee which met twice during the year. Visited frequently by the Assistant Commissioner of the sub-division, and by the Deputy Commissioner when on tour. Inspected twice by the Civil Surgeon. There were treated 133 in and 1,453 out patients against 139 and 1,389 in 1883, the daily averages being 6 and 12 respectively for both years. There were nine deaths among the in-patients against six in 1883. One major and 86 minor operations were performed. The total expenditure was Rs. 2,191, of which Rs. 1,723 was the cost of establishment, Rs. 147 of Europe medicines which were obtained from private druggists, and Rs. 28 of bazar medicines. The cost of diet was Rs. 120. The expenditure on buildings was Rs. 81, and on miscellaneous items Rs. 92. Government paid Rs. 291, namely, Rs. 8 as cost of forms, and Rs 283 as dispensary allowance to the medical subordinate. Municipality paid Rs. 25 only. Subscriptions from Europeans were Rs. 100, and from natives Rs. 540. There was a cash balance of Rs. 312 at the end of the year.

*Lohardugga.*—A class IIIB dispensary. This is under the management of a local committee which met four times during the year. Visited by the Deputy Commissioner once, and twice by the Civil Surgeon. A civil hospital assistant was in charge. There were treated 1,075 out-patients against 957 in 1883, the daily averages being eleven and nine respectively. Forty-four minor operations were performed. No major operation. The total expenditure was Rs. 507, of which Rs. 408 was the cost of establishment, Rs. 55 of Europe medicines which were obtained from private druggists and Rs. 5 of bazar medicines. The expenditure on buildings was Rs. 25, and on miscellaneous items Rs. 13. Government paid annas seven as cost of forms and registers. Municipality paid Rs. 168, and Rs. 338 were received as subscriptions.

Singbhoom district.

The Civil Surgeon says that the health of the district was bad as compared with that of the previous year. The district was free from the small-pox epidemic which prevailed during the two preceding years, but cholera, fever, and bowel-complaints were more prevalent. Cholera existed sporadically throughout the year, causing 112 deaths against 34 in 1883. Fever as usual caused the greatest number of deaths. The health of the town and the Municipality of Chyebassa was also not better than that of the preceding year. There was only one dispensary in the district at the sudder station.

*Chyebassa.*—A municipal dispensary in class II under the management of the municipal committee, which held a meeting on the 8th March 1884. The dispensary committee, which had existed up to that date, was dissolved. Since that date, all business in connection with the dispensary was transacted at the ordinary meeting of the municipal Commissioners. With the exception of the Deputy Commissioner and the District Superintendent of Police, who are Municipal Commissioners, the Civil Surgeon says that he is not aware that any other Municipal Commissioner has visited the institution during the year. The Civil Surgeon visited it daily. The Jail Hospital assistant was in charge. There were treated 1,958 out-patients against 1,873 in 1883 the daily averages being 19 and 21 respectively. Ophthalmia was again said to be the principal disease for which patients frequent the dispensary and represented 39 per cent. of the cases, although it prevailed less than in the previous year. It is a most common disease during the hot and rainy seasons. One major and 30 minor operations were performed. The total expenditure was Rs. 398, of which, Rs. 203 was the cost of establishment, Rs. 76 of Europe, and Rs. 28 of bazar medicines. The cost of diet was Rs. 28. The expenditure on buildings was nominal, viz., Rs. 5, and on miscellaneous items Rs. 58. Government paid Rs. 15, namely, Rs. 3 as cost of forms and registers, and Rs. 12 for diet of police cases. Subscriptions from Europeans were Rs. 101 and from natives Rs 254. Municipality paid nothing.

I have the honour to be,

SIR,

Your most obedient servant,

A. J. COWIE,

*Inspector-General of Civil Hospitals, Bengal.*

# STATISTICAL TABLES.

## Statement No. I.

*Showing the number of Dispensaries in Bengal during the year* 1884.

| 1 | 2 | 3 | 4 | 5 | 6 | 7 |
|---|---|---|---|---|---|---|
| Population of the Province. | Dispensaries. | Number open on 31st December 1883. | Number opened during the year. | Number closed during the year. | Number open on the last day of the year. | Remarks. |

Report on the Charitable Dispensaries in Bengal for the year 1884.

Read also—

The Report for 1883, and the Resolution recorded upon it.

In the Resolution of the Government of India, Home Department, No. 3—163-74, dated the 7th May 1883, instructions were given that in preparing Statement I, appended to the Annual Dispensary Report, dispensaries should be divided into three classes with reference to their financial constitution and relations; class I comprising all hospitals and dispensaries chiefly supported by the State, class II all institutions supported by local funds, and class III all private institutions. Class III was further sub-divided into—

(A)—Institutions entirely maintained at the cost of private individuals or associations, and

(B)—Institutions supported by private subscriptions or guarantee, but receiving aid from Government or local funds.

Local Governments were left free to adopt any other form of classification which might be considered most convenient for administrative purposes. In view of the advantages of a uniform and complete system of classification, the Lieutenant-Governor has adopted and prescribed for general use the form suggested by the Government of India.

On the 31st December 1883 there were 230 dispensaries. During 1884 four dispensaries were established and four were abolished. Under the new classification five of the institutions were in class I, 86 in class II, 81 in class III (A), and 58 in class III (B).

2. The system under which Government had undertaken to provide employment to all candidates passing the Licentiate's examination came to an end in 1883, and during that year no Assistant Surgeons were admitted to the service. In 1884, it is reported 21 Assistant Surgeons were received by transfer from the Imperial list. Twenty-nine civil hospital assistants were appointed, of whom 20 came from the Campbell Medical School, five from Dacca, two from Patna, and two from Cuttack. The report for 1883 contained some unfavourable comments on the qualifications of the civil hospital assistants recruited from the Patna Medical School. The Inspector-General has devoted special attention to the question during the year, and now reports that, as far as professional ability is concerned, the Patna men are up to the standard. He adds, however, that "their general want of knowledge of English, and inability to converse in Bengali, are drawbacks to their employment in the southern and eastern districts of the Province;" and he quotes certain extracts from the report of the Civil Surgeon, the late Dr. Shaw, which prove that the standard of general education among the Patna students is very low. Dr. Shaw contemplated raising the standard of entrance examination, and encouraging the study of English by the offer of scholarships, and if the matter is to be taken up, it will be necessary to refer it to Government through the Educational Department.

There was not much change in the disposition of officers in 1884; but in several cases local bodies declined to pay the higher salaries earned by their medical officers on passing the departmental examination, and applied for the services of men of lower grades. The question of the precise limits of the liability of local bodies in such cases is now under the consideration of Government. During the year the Secretary of State granted an important concession to supernumerary Assistant Surgeons by ruling that supernumerary service would count towards leave and pension.

3. Returns have been received from 229 out of the 230 dispensaries of the Province, and the following table compares the amount of work done in them during 1884 and 1883 :—

| | In-door. | | | | | | | | | | Out-door. | | | | | | | | | |
|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|
| | Under 25. | 25 to 50. | 50 to 75. | 75 to 100. | 100 to 250. | 250 to 500. | 500 to 750. | 750 to 1,000. | Upwards of 1,000. | Total. | Under 250. | 250 to 500. | 500 to 750. | 750 to 1,000. | 1,000 to 2,500. | 2,500 to 5,000. | 5,000 to 7,500. | 7,500 to 10,000. | Upwards of 10,000. | Total. |
| 1884 ... ... | 16 | 14 | 11 | 16 | 43 | 23 | 5 | 3 | 1 | 132 | 2 | ... | 3 | 11 | 68 | 79 | 36 | 11 | 19 | 229 |
| Percentage ... | 12·12 | 10·61 | 8·33 | 12·12 | 32·58 | 17·42 | 3·79 | 2·27 | ·76 | ... | ·87 | ... | 1·31 | 4·80 | 29·69 | 34·5 | 15·72 | 4·80 | 8·30 | ... |
| 1883 ... ... | 18 | 14 | 11 | 11 | 50 | 18 | 6 | 1 | 1 | 130 | .. | 1 | 3 | 11 | 75 | 75 | 32 | 10 | 16 | 223 |
| Percentage ... | 13·85 | 10·77 | 8·46 | 8·46 | 38·46 | 13·85 | 4·61 | ·77 | ·77 | ... | ... | ·45 | 1·35 | 4·93 | 33·63 | 33·63 | 14·35 | 4·48 | 7·17 | ... |

The total number of dispensaries which received in-door patients was 132 against 130 in the previous year.

4. Of the 229 dispensaries, 50 were visited by the Civil Surgeons daily or frequently, four more than four times during the year, eleven four times, thirty-two three times, seventy-two twice, forty-one once only, seventeen were not inspected at all, and no information was furnished of the remaining two dispensaries. Of the seventeen not inspected at all, the Lieutenant-Governor regrets to notice that eleven were in the district of the 24-Pergunnahs, and the omission requires the attention of the Head of the Department. The Inspector-General observes :—" The inspection reports have been carefully drawn up, and are closely searching in their interrogations. They show, on the whole, a fairly satisfactory state of things. I observe a considerable interest evoked in sanitary matters, which is a healthy sign, and one which it is to be hoped Civil Surgeons will continue to encourage."

5. The following table shows the number of patients treated in 1884 and the previous seven years, and the ratio of mortality among in-patients :—

| | In-patients treated. | Out-patients treated. | Total. | Mortality among in-patients per cent. |
|---|---|---|---|---|
| 1877 ... ... ... ... ... ... ... ... ... | 23,954 | 875,631 | 899,585 | 17·34 |
| 1878 ... ... ... ... ... ... ... ... ... | 28,473 | 927,783 | 956,256 | 20·01 |
| 1879 ... ... ... ... ... ... ... ... ... | 24,847 | 865,995 | 890,842 | 17·78 |
| 1880 ... ... ... ... ... ... ... ... ... | 23,567 | 888,095 | 911,662 | 15·17 |
| 1881 ... ... ... ... ... ... ... ... ... | 23.444 | 947,534 | 970,078 | 15·8 |
| 1882 ... ... ... ... ... ... ... ... ... | 23,468 | 934,155 | 957,623 | 15·75 |
| 1883 ... ... ... ... ... ... ... ... ... | 22,468 | 915,753 | 938,221 | 14·13 |
| 1884 ... ... ... ... ... ... ... ... ... | 25,077 | 965,555 | 990,632 | 14·75 |

The total number of sick attending the dispensaries, as recorded during the year, was larger than that of any previous year in the list. There was an increase of 52,411 patients, as compared with the number treated in 1883. The Inspector-General attributes this mainly to greater care in recording entries, in consequence of more attentive inspections, and does not think it probable that the attendance of patients was actually larger, owing to the increasing competition of private practitioners. The Lieutenant-Governor is glad to learn that duly qualified medical men are establishing themselves in private practice throughout the country, and that " the majority may be said to be gaining a fair and honourable livelihood by the exercise of their profession." This is no doubt, as the Inspector-General calls it, " a healthful outcome of our medical educational system." The object of that system was not merely to secure a constant supply of subordinate medical officers for the Government service, but also to raise the standard of medical knowledge and encourage the practice of medicine and surgery on established scientific principles. That private practitioners, possessing the necessary qualifications, should be able to compete successfully with public medical charities, is a satisfactory result; and the Lieutenant-Governor will gladly welcome any diminution in the number of patients treated at these charities, which can be unmistakeably proved to be caused by such competition.

6. **The total income and expenditure of the dispensaries during the year are shown in the following table :—**

*Income.*

| | Rs. | A. | P. |
|---|---|---|---|
| **Cash balance on 1st January 1884** ... ... | 71,421 | 12 | 4 |
| **From Government—** | | | |
| **As salaries** ... ... ... ... | 13,855 | 14 | 11 |
| **„ registers and forms** ... ... ... | 1,468 | 14 | 0 |
| **„ European medicines** ... ... ... | 278 | 15 | 6 |
| **For diet of police cases** ... ... ... | 1,887 | 14 | 11 |
| **Special allowances** ... ... ... | 1,159 | 15 | 10 |
| **Total** ... | 18,651 | 11 | 2 |
| **From local or other funds** ... ... ... | 35,905 | 15 | 4 |
| **„ municipal funds** ... ... ... | 1,16,766 | 7 | 1 |
| **Interest on investments** ... ... ... | 27,914 | 4 | 10 |
| **Sale of securities or withdrawal of deposits** ... | 15,769 | 5 | 4 |
| **European subscriptions** ... ... ... | 16,483 | 8 | 10 |
| **Native subscriptions** ... ... ... | 1,11,086 | 10 | 10 |
| **Total** ... | 3,23,926 | 4 | 3 |
| **Grand Total** ... | 4,13,999 | 11 | 9 |

*Expenditure.*

| | Rs. | A. | P. |
|---|---|---|---|
| **Establishment** ... ... ... ... | 2,04,270 | 2 | 5 |
| **Bazar medicines** ... ... ... ... | 9,581 | 11 | 11 |
| **European medicines, from Government store or purchased otherwise** ... ... ... ... | 41,389 | 6 | 6 |
| **Diet** ... ... ... ... | 38,893 | 10 | 5 |
| **Miscellaneous charges** ... ... ... | 28,272 | 9 | 0 |
| **Buildings or repairs** ... ... ... | 27,305 | 0 | 11 |
| **Invested during the year** ... ... ... | 12,650 | 3 | 3 |
| **Total** ... | 3,62,362 | 12 | 5 |
| **Cash balance on 31st December 1884** ... ... | 51,636 | 15 | 4 |

**The opening balance on 1st January 1884, as shown above, is less by Rs. 2,514 than the closing balance of the previous year, as given in that year's report. The difference is explained to be due to the closure of four dispensaries, to deficits found in the funds of three dispensaries, and to the readjustment of the accounts of one dispensary.**

**7. The total receipts from Government amounted to Rs. 18,651 in 1884, against Rs. 39,511 in 1883, Rs. 41,269 in 1882, and Rs. 1,06,384 in 1881. Out of the Rs. 18,651, the sum of Rs. 5,761 was contributed to municipal dispensaries. After deduction, however, of the cost of registers and forms, and of diet in police cases, the contribution towards municipal dispensaries amounted to Rs. 3,106 against Rs. 22,834 in 1883. Of this, Rs. 3,032 represents salaries of medical officers, and Rs. 74 two small grants for repairs. The Government contribution towards dispensaries that are not municipal institutions amounted to Rs. 12,890, against Rs. 14,494 in 1883, thus showing a decrease of Rs. 1,604.**

**8. The receipts from local sources other than municipalities amounted to Rs. 35,906 against Rs. 44,672 in the previous year. Of this, municipal dispensaries received Rs. 9,340. The amount of subscriptions collected from Europeans was Rs. 16,483 and from natives Rs. 1,11,086. Of these subscriptions, Rs. 47,436 were paid in aid of municipal dispensaries, and Rs. 80,133 in aid of other institutions The corresponding figures for 1883 were Rs. 55,742 and Rs. 80,480. As compared with the preceding year, there was thus a falling off in the amount of subscriptions given to municipal dispensaries**

to the extent of Rs. 8,306. This decrease is probably attributable partly to subscriptions being withdrawn by individuals under the impression that the dispensaries should be supported by municipal funds, and partly to the crediting of subscriptions to the general municipal revenues instead of keeping them separate in the accounts. The amount received by the sale of securities and withdrawal of deposits was Rs. 15,769, against Rs. 15,623 in 1883. Government securities belonging to dispensaries, vested in municipalities, were sold to the extent of Rs. 4,800. The question whether such sales can be effected by municipalities without the sanction of Government was under consideration during the year; and it was decided that the sanction of Government is necessary in each case. The interest on investments amounted to Rs. 27,914 against Rs. 27,911 in 1883. The amount contributed by municipalities was Rs 1,16,766 against Rs. 1,23,057 in 1883, showing a decrease of Rs. 6,291 attributable to a better adjustment of accounts.

The gross expenditure on dispensaries, exclusive of the amounts invested, was Rs. 3,49,712 against Rs. 3,60,347 in 1883, thus showing a decrease of Rs. 10,635. Medical stores were obtained from the Government Store Department and from private druggists. Of the 227 dispensaries whose accounts were received, 170 obtained their supplies from private sources. The cost of diet was Rs. 38,893 against Rs. 33,608 in the previous year, and this increase is attributable to the increase in the daily average number of in-patients. The average cost of each diet varied from two annas nine pies to seven pies.

# Report on the Charitable Dispensaries

UNDER THE

# GOVERNMENT OF BENGAL

## FOR THE YEAR 1885.

No. 5946.

FROM THE INSPECTOR-GENERAL OF CIVIL HOSPITALS, BENGAL,

TO THE SECRETARY TO THE GOVERNMENT OF BENGAL,
MEDICAL AND MUNICIPAL DEPARTMENT.

*Dated Calcutta, the 13th September 1886.*

SIR,

I HAVE the honour, in submitting for the information of the Hon'ble the Lieutenant-Governor my Administration Report on the Charitable Dispensaries of Bengal for the year 1885, to express my regret at the delay in its presentation beyond the date fixed by Government, which has been unavoidable.

TABLE No. 1.

| | |
|---|---|
| Remained open on 31st December 1884 ... ... ... | 230 |
| Established during the year* ... ... ... | 7 |
| Total ... | 237 |
| Abolished or closed or removed from Government supervision during the year† ... ... ... ... | 4 |
| Remaining on 31st December 1885 ... ... ... | 233 |

* Laheria Serai. Shollaghur. Chanduria. Bhuddessur. Lonesingh. Begooserai. Kotechandpore.

† Jaffergunge. Dimla. Lalgola. Nuksulbari.

2. This table exhibits the number of dispensaries in existence at the beginning and end of the year 1885, the difference being three institutions. Sanction was given to the opening of seven new and the closure or removal from the Government list of four old dispensaries.

On the 31st December 1884 there were 230 dispensaries in actual operation. Seven new ones were established during the year, viz.—

One at Laheria Serai, in the Durbhunga district,
One at Shollaghur, in the Dacca do.,
One at Chanduria, in the Khoolna do.,
One at Bhuddessur, in the Serampore do.,
One at Lonesingh, in the Furreedpore do.,
One at Begooserai, in the Monghyr do., and
One at Kotechandpore, in the Jessore do.;

while the following four institutions were closed or removed from the Government list during the year, viz.—

One at Jaffergunge, in the Tipperah district,
One at Dimla, in the Rungpore do.,
One at Lalgola, in the Moorshedabad do., and
One at Nuksulbari, in the Darjeeling do.

The total number of dispensaries open therefore at the close of the year, or on the 31st December 1885, was 233.

3. The returns from the following dispensaries were not received, viz.—

Shollaghur ... } Districts given above.
Chanduria ...
Begooserai ...
Beraria, in the Bhagulpore district.

4. The following transfers and recruitments of medical subordinates were made in 1885:—

| | | |
|---|---|---|
| Assistant Surgeons received by transfer from the imperial list ... ... ... ... ... | | 24 |
| Civil hospital assistants admitted into the service ... | | 18, viz.— |
| From the Campbell School ... ... | 7 | |
| " " Patna do. ... ... | 5 | |
| " " Dacca do. ... ... | 4 | |
| " " Cuttack do. ... ... | 2 | |
| Total | 18 | |

5. It was pointed out to the Government of India that the limit of age for the entrance of Assistant Surgeons into the service of Government should be raised from 25 to 28 years. So long as the limit remained at 25 years, it pressed hard on many of the best students at the Medical College, who do not pass out of the College until after that limit has been passed. It was also brought to notice that the best students, namely, those who obtain the degree of Bachelor of Arts before commencing the study of medicine, were debarred from entering the public service altogether.

6. During the year civil hospital assistants were recruited from the four medical schools in the province, according to the strength of each school and the special requirements of the sections of the country in which the schools are situated. The Superintendents of the Cuttack, Campbell, and Dacca Schools report favourably of the class of students who seek Government employ. At the Patna School the best students invariably desire to enter the public service. Dr. Stewart of Cuttack writes, in reply to a question put to him in this direction, that "the best men available were always chosen" for Government employ; "that of the total number that have passed from this school 29 per cent. of the best men were entertained, while 21 per cent. preferred serving with Rajahs . . . . or setting up as private practitioners. . . . . the remaining 50 per cent. . . . . were not considered among the best."

Dr. Mackenzie, writing on the same subject, favours me with the following opinions:—"I have always selected the best men from among the Licentiates of this school applying for Government service, and I have always been most careful in the selection of men who have studied hard and industriously and whose conduct has been good. The best students of this school as a rule do not seek Government employment, as they are able to obtain better pay and emoluments elsewhere. During 1884-85 and 1885-86 the first or the best students of these years sought Government employment and were admitted into the service. . . . . As a rule the best or most useful men are those who have a good knowledge of English, and are generally those who seek admission into the Vernacular schools with either of the first two entrance qualifications," viz. the Calcutta University Entrance examination certificate and certificate of the Registrar of the Calcutta University of appearance at that examination and failure in one or two subjects only.

Dr. Crombie, in recording that "the best men have almost invariably been selected . . . . from the passed students of the Dacca Medical School for Government service," says that it is quite exceptional for the best men to prefer private practice or other employment when offered Government employment, and that as a rule they enter the public service.

7. The Dacca Medical School is a most rising one. The students have attained a high standard in their studies. The physique also of the students here struck me as somewhat above the average met with elsewhere. Moreover, the civil hospital assistants recruited from this school are more willing to serve in any part of Bengal—a very great advantage

to Government—while some of their brethren recruited from the lower and western portions of the province are loth to serve in any other than their own districts or near their own homes. Regarding the last annual examination held at Dacca on the 1st April 1886, it gives me great pleasure to record here that the examiners, who were Dr. Meadows, Dr. ffrench-Mullen, and Dr. Crawford, expressed themselves surprised to find the students so well grounded. They thought them equal to the average student at Home. The questions in surgery were taken from a recent examination paper of the Royal College of Surgeons of London, and from those put to Dr. Meadows himself on entering the Indian Medical Service. Every student answered them most satisfactorily, and some did so extremely well. Dr. Crawford was unable to reject a single student in medicine. Of 40 candidates 37 passed. This speaks very highly of the admirable conduct of the Dacca Medical School under the able teaching and superintendence of Dr. Crombie.

8. I look to the civil hospital assistant's service being advanced in general acquirements and physique by a more free recruitment from the Dacca School. The Medical Schools now chiefly supply native doctors for the general population. Of the total number qualified yearly, but a small proportion is enlisted in the Government service. The medical profession has always been a popular one among the young men of this province, and I think the time has arrived when those who desire to study medicine might be required to contribute more largely towards their education than is the rule at present.

9. The meetings of committees in 1885 are shown in the following statement:—

| | | | |
|---|---|---|---|
| Monthly or more frequently ... | 9 | Three times ... ... | 9 |
| Eleven times ... ... | 4 | Twice ... ... | 5 |
| Ten ,, ... ... | 3 | Once ... ... | 11 |
| Nine ,, ... ... | 3 | None held ... ... | 24 |
| Eight ,, ... ... | 3 | No committee ... | 23 |
| Seven ,, ... ... | 9 | Under municipalities ... | 107 |
| Six ,, ... ... | 5 | | |
| Five ,, ... ... | 6 | Total ... | 229 |
| Four ,, ... ... | 8 | | |

There has been a falling off in the total number of meetings as compared with that of 1884. There were 107 dispensaries under municipalities. The committees of these institutions are supposed to meet monthly. If they did so meet, I have no knowledge of the fact. The committees of 9 dispensaries acted up to the full sense of their responsibilities, while those of 24 held no meetings throughout the year. Twenty-three dispensaries had no committees.

TABLE No. 2.

*Showing the work of Dispensaries, grouped in the order of number treated.*

| | IN-DOOR. | | | | | | | | | | OUT-DOOR. | | | | | | | | | |
|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|
| | Under 25. | 25 to 50. | 50 to 75. | 75 to 100. | 100 to 250. | 250 to 500. | 500 to 750. | 750 to 1,000. | Upwards of 1,000. | Total. | Under 250. | 250 to 500. | 500 to 750. | 750 to 1,000. | 1,000 to 2,500. | 2,500 to 5,000. | 5,000 to 7,500. | 7,500 to 10,000. | Upwards of 10,000. | Total. |
| 1885 ... ... | 17 | 14 | 20 | 11 | 44 | 19 | 6 | 3 | 2 | 136 | ... | ... | 3 | 6 | 78 | 77 | 33 | 16 | 16 | 229 |
| Percentage ... | 12·5 | 10·29 | 14·71 | 8·09 | 32·35 | 13·97 | 4·41 | 2·21 | 1·47 | ... | ... | ... | 1·31 | 2·62 | 34·06 | 33·62 | 14·41 | 6·99 | 6·99 | ... |
| 1884 ... ... | 16 | 14 | 11 | 16 | 43 | 23 | 5 | 3 | 1 | 132 | 2 | ... | 3 | 11 | 68 | 79 | 36 | 11 | 19 | 229 |
| Percentage ... | 12·12 | 10·61 | 8·33 | 12·12 | 32·58 | 17·42 | 3·79 | 2·27 | ·76 | ... | ·87 | ... | 1·31 | 4·80 | 29·69 | 34·5 | 15·72 | 4·80 | 8·30 | ... |

10. The significance of house practice in the mofussil dispensaries has been frequently commented upon. It must be remembered, however, that charitable dispensaries are not supposed to take the place of general hospitals. They are established, as a rule, for the relief of outdoor patients, a small number of beds being kept up, but not in all of them, for the accommodation of a few serious cases. The total number of dispensaries which received house

patients was 136, or an increase of 4 over that of 1884. It has been shown in previous reports that the rise and fall in the number of dispensaries open, and the entire number of patients treated in them being so small, save in Dacca, Durbhunga, Patna, and Cuttack, are no criterion of the general health of the neighbourhoods in which they are situated: moreover, in many of these institutions a large proportion of the cases admitted consists of police cases and disabled paupers, &c.

### TABLE No. 3.

*Showing Grade of Officers in charge of Dispensaries during* 1885.

| | 1885. | | 1884. | |
|---|---|---|---|---|
| Apothecary, first grade ... ... | | 1 | | 1 |
| Assistant Surgeon, " " ... ... | 1 | | 1 | |
| Ditto, second " ... ... | 34 | | 20 | |
| Ditto, third " ... ... | 19 | | 31 | |
| | — | 54 | — | 52 |
| Medical graduate of East Indian Railway service ... ... ... ... | | 1 | | 1 |
| Civil hospital assistants ... ... | | 168 | | 168 |
| Native doctors (private practitioners) in charge of class IIIA institutions ... ... | | 5 | | 7 |
| Total ... | | 229 | | 229 |

11. No changes of any importance took place during the year in the distribution of officers. Some further instances occurred in which local bodies desired to change their medical subordinates, who had earned a higher salary on promotion, for men of lower grades, drawing less pay.

### TABLE No. 4.

*Inspections by Civil Surgeons.*

| | Daily or frequently. | More than four times. | Four times. | Three times. | Twice. | Once. | Not inspected. | No information received. | Total. |
|---|---|---|---|---|---|---|---|---|---|
| Inspected by Civil Surgeons, 1885 ... ... | 50 | 7 | 11 | 21 | 73 | 53 | 14 | ...... | 229 |
| Ditto ditto, 1884 ... ... | 50 | 4 | 11 | 32 | 72 | 41 | 17 | 2 | 229 |

12. The total inspection of dispensaries by Civil Surgeons was nearly the same as in 1884. Last year I had to report that 11 dispensaries were not visited in the 24-Pergunnahs. Dr. Joubert, the Civil Surgeon, had been able during the short time he was in charge in 1885, "to inspect before the close of the year every dispensary in the district." This is very commendable. Fourteen institutions were not inspected during the year, 50 were visited daily or frequently, 7 more than 4 times, 11 four times, 21 three times, 73 twice, and 5 once. The inspection reports are now carefully drawn up, and are sufficiently searching in their interrogations. I have seldom had to return a report. Sanitary matters continue to engage earnest attention. I have been struck with the real interest in sanitation evinced by the medical officers in charge of the institutions I have been able to personally inspect during the year, and I have no reason to question that the same healthful progress obtains generally elsewhere. Some of the institutions were models of cleanliness. Hygienic arrangements were conducted systematically and intelligently. Civil Surgeons encourage their subordinates in this direction as in all other professional matters; and, judging from practical results, I must say their endeavours have met with no mean success. The books, as a rule, have been fairly well kept, and on the whole the working of the dispensaries has been reasonably well done.

13. *Surgical instruments and hospital necessaries.*—During the year several recoveries were made for losses and breakages. The dispensary inspection reports furnished the information necessary to this end. The surgical instruments

and hospital appliances in hand are carefully examined by Civil Surgeons when inspecting hospitals in their respective charges, and all losses and breakages are at once brought to my notice. Judging from their reports, the instruments, &c., are, as a rule, kept in excellent order. I have made several inspections myself during the year under report, and I have satisfied myself that, in those institutions I have been able to visit, the surgical equipment, &c., were well kept.

TABLE No. 5.

*Number of Patients treated in 1885 and seven previous years, and ratio per cent. of mortality among in-patients.*

| | In-patients treated. | Out-patients treated. | Total. | Mortality among in-patients, per cent. |
|---|---|---|---|---|
| 1878 ... ... ... ... ... | 28,473 | 927,783 | 956,256 | 20·01 |
| 1879 ... ... ... ... ... | 24,847 | 865,995 | 890,842 | 17·78 |
| 1880 ... ... ... ... ... | 23,567 | 888,095 | 911,662 | 15·17 |
| 1881 ... ... ... ... ... | 23,444 | 947,534 | 970,978 | 15·8 |
| 1882 ... ... ... ... ... | 23,468 | 934,155 | 957,623 | 15·75 |
| 1883 ... ... ... ... ... | 22,468 | 915,753 | 938,221 | 14·13 |
| 1884 ... ... ... ... ... | 25,077 | 965,555 | 990,632 | 14·75 |
| 1885 ... ... ... ... ... | 25,766 | 960,218 | 985,984 | 15·59 |

14. The total number of patients treated at all the institutions in 1885 shows a decrease on the aggregate work done in 1884. The indoor patients, however, increased by 689 over the number recorded in the previous year. Nothing has come to my notice in the twelve months which would justify my caviling at the figures presented for 1885. On the contrary, I have good grounds for believing that they fairly represent the truth. I do not mean to say that no instance of irregularity has been brought to notice, or that no case requiring investigation has arisen during the year. Delinquencies in these respects have occurred, but with very much less frequency than in years gone by, and in every instance, when brought to my notice, very prompt action has been taken and stringent remedy applied. In regard to the decrease in the total of 1885, of the nine divisions it is exhibited in six of them, viz. Burdwan, Presidency, Rajshahye, Orissa, Chittagong, and Chota Nagpore. The influence at work may, therefore, be said to have been general, and tending to substantiate the accuracy of the returns than otherwise. Scrutinising the figures carefully, I think it must be admitted that what I have said in my report for 1884 (*vide* paragraph 18, page 7) concerning the improved character of the records kept in our minor institutions is fully borne out in this return. That the figures are positively accurate, I do not maintain; but that they exhibit a vast improvement on former years, and do approximate to the truth, I take it, may be accepted.

TABLE No. 6.

*Total Medical Aid afforded by Government in Bengal.*

| | 1884. | | 1885. | |
|---|---|---|---|---|
| | Number of charitable institutions | Number of patients treated. | Number of charitable institutions. | Number of patients treated. |
| Calcutta hospitals and dispensaries ... ... | 7* | 258,832* | 7* | 263,627* |
| Provincial ditto ditto ... ... | 229 | 990,632 | 229 | 985,984 |
| Total ... | 236 | 1,249,464 | 236 | 1,249,611 |

* Inclusive of voluntary lock-hospitals.

15. This table includes for the first time the number of patients treated from venereal disease in the Calcutta voluntary lock-hospitals. The total number of indoor and outdoor patients treated in all our public charities in Bengal during 1885 was 1,249,611, as against 1,249,464 in 1884, or an increase in the former over the latter of 147 patients only.

## TABLE No. 7.

*Showing Proportion of Numbers treated to District Populations.*

| DIVISION. | DISTRICT. | Area in square miles. | Population. | Number of dispensaries. 1884. | Number of dispensaries. 1885. | Number of patients treated per cent. of population. 1884. | Number of patients treated per cent. of population. 1885. |
|---|---|---|---|---|---|---|---|

| | Total and average ... | 26,966 | 4,225,989 | 10 | 10 | ·58 | ·55 |

16. The above table illustrates nothing of any importance. It simply shows the small proportion of the population which resort to the dispensaries.

## TABLE No. 8.

*Showing Proportion of Male and Female Adults and of Children treated in* 1885.

| | 1883. | 1884. | 1885. |
|---|---|---|---|
| Males ... ... ... ... ... | 59·75 | 59·56 | 58·92 |
| Females ... ... ... ... ... | 17·02 | 16·99 | 16·95 |
| Children ... ... ... ... ... | 23·22 | 23·45 | 24·13 |

## TABLE No. 9.

*Showing Nationality of Patients.*

| YEARS. | Europeans. | Eurasians. | Mahomedans. | Hindus. | Others. |
|---|---|---|---|---|---|
| 1885 ... ... ... | ·05 | ·24 | 31·84 | 65·85 | 2 02 |
| 1884 ... ... ... | ·06 | ·26 | 31·35 | 66·17 | 2·16 |
| 1883 ... ... ... | ·06 | ·28 | 31·37 | 66·24 | 2·04 |

17. The total number of sick treated in 1885 equalled 1·42 per cent. of the total population: ·83 were adult males, ·24 were adult females, and ·34 were children of both sexes; while the percentages, according to nationality were ·0007 Europeans, ·003 Eurasians, ·45 Mahomedans, ·93 Hindoos, and ·02 "others."

## TABLE No. 10.

*Showing the death-rates in Dispensaries of the several Civil Divisions.*

| DIVISION. | Names of Dispensaries. | Death-rates per cent. |

| | Purulia | 12·38 |
| | Palamow | 7·44 |
| | Pandra | 5·31 |

18. Looking to table 5, we see the total death-rate in the dispensaries is set down at 15·59 per cent.—a rate which cannot be viewed as a high one. Now on turning to the above record—table 10—we notice that in some instances, taking the institutions separately, the rates are excessive. The particulars of some of these death-rates will be found in the extracts of the several dispensaries' reports

further on. The mortality among in-patients was greatest in the Meherpore dispensary in the Presidency Division, being 100, while the lowest occurred at Tajpore, in the Patna Division. The mortality in our dispensaries is influenced so largely by the quantity of moribund and desperate cases which they are forced to receive that, whatever the varying death-rates may be, they are no measure of the prevailing sickness in particular places, nor do they help us in any way to elucidate any one point which death-rates are known to illustrate.

19. Statements Nos. IIIA and B in the Appendix give the results of the major operations performed in the dispensaries in Bengal Proper by the Superintendents and medical subordinates during the year. The total operations performed by the former during the year was 659, and by the latter 2,770, or a grand total of 3,429, as against 693, 2,673, and 3,366 performed in 1884.

20. Operations connected with the eye increased from a total of 367 performed in 1884 to 507 in 1885. Extraction of the "lens" was performed by Superintendents 203 times. Add to this number 8 cases remaining from 1884, and we have a total of 211 cases treated with 163 cures, or at the rate of 77·25 per cent. of total extractions with 3 cases remaining at the end of the year under treatment; while the measure of complete success, which attended 161 cases of extractions performed by medical subordinates, viz. 146 fresh operations during 1885 plus 15 remaining from 1884 only amounted to 97, or 60·24 per cent. of total extractions with 8 cases remaining on 31st December 1885 undecided. The most successful results were attained by Dr. Beatson, Officiating Civil Surgeon of Monghyr, who had no failure. Dr. Peck, Officiating Civil Surgeon of Midnapore, was also very successful. At the Temple Medical School Hospital at Bankipore, Assistant Surgeon Ram Kali Gupta performed extraction of the "lens" 38 times, and Assistant Surgeon Ram Chundra Gupta of the same institution twice, or a total of 40 cases treated with 27 cures only between them, or at the rate of 67·5 per cent. of total extractions with 4 cases remaining at the expiration of the year still under treatment. Assistant Surgeon Upendra Nath Sen, attached to the Monghyr Dispensary, performed extraction of the "lens" three times, with two cures. At Bankoorah dispensary the operation of extraction was performed 56 times. Add to this number 8 cases remaining over from 1884, and we have a total of 64 cases with 39 cures, or at the rate of 60·93 per cent. cured to total extractions, with none remaining under treatment at the end of 1885. The return shows that 10 of these operations were performed by the Civil Surgeon, and the remainder (54) by the Assistant Surgeon, Rajmohun Banerjee. At Mozufferpore dispensary Assistant Surgeon Shoshi Bhushan Singh performed the operation of extraction of the "lens" twice, but without success. The Civil Surgeon performed no operations at this dispensary throughout the year.

21. The whole of the above results by native subordinates, as they stand, I consider most unsatisfactory. Either the cases selected by the Assistant Surgeons for operation were injudiciously made, or the operations were not as skilfully performed as they should have been. Judging from these figures alone, it is sufficiently apparent that Civil Surgeons should not permit their subordinates to perform extraction of the "lens" until they have examined the patient<sup></sup> personally, and fully satisfied themselves in each case that it is a suitable one for operation, and that the subordinate is in every respect an efficient operator.

TABLE No. 11.

*Sale of Cinchona Febrifuge in Bengal Districts by Civil Surgeons.*

| Year. | Cinchona Alkaloid. | | Crystalline Cinchona Febrifuge. | | Total. | |
|---|---|---|---|---|---|---|
| | Quantity sold. | Value. | Quantity sold. | Value. | Quantity sold. | Value. |
| | lb oz. dr. | Rs. A. P. | lb oz. dr. | Rs. A. P. | lb oz. dr. | Rs. A. P. |
| 1885 ... ... ... | 202 4 11 | 3,331 0 8 | 2 8 0 | 60 0 0 | 204 12 11 | 3,39' 0 8 |
| 1884 ... ... ... | 256 4 9 | 4,369 12 2 | 0 8 8 | 12 15 6 | 256 13 1 | 4,382 11 8 |
| 1883 ... ... ... | 346 9 5 | 5,844 3 6 | ...... | ..... | 346 9 5 | 5,844 3 6 |

22. The sale of cinchona febrifuge still continues to fall off. The amount sold in 1885 was 204lb 12oz., valued at Rs. 3,391-0-8, against 256lb 13oz.,

valued at Rs. 4,382-11-8 in 1884, or showing a decrease in the receipts under this head of Rs. 991-11.

*Sale of Cinchona Febrifuge to Provincial Charitable Dispensaries which indent through the Office of the Inspector-General of Civil Hospitals, Bengal.*

| | Quantity sold. | Value. | Quantity sold. | Value. | Quantity sold. | Value. |
| | ℔ oz. | Rs. A. | ℔ oz. | Rs. A. | ℔ oz. | Rs. A. |
| 1885 ... ... ... ... ... | 57 12 | 957 0 | 1 0 | 25 8 | 58 12 | 982 8 |
| 1884 ... ... ... ... ... | 94 12 | 1,566 0 | 9 4 | 222 8 | 104 0 | 1,788 8 |
| 1883 ... ... ... ... ... | 70 0 | 1,157 8 | ...... | ...... | 70 0 | 1,157 8 |

The dispensaries' purchases which hitherto showed a decided annual increase, exhibit a falling off during the year 1885 of 46℔. The amount sold is valued at Rs. 982-8, as against 104℔, valued at Rs. 1,788-8, in 1884, or a decrease of Rs. 806.

23. *Finance.*—The following table exhibits the income and expenditure of the dispensaries during the year 1885 :—

TABLE NO. 12.—PART I.

| *Income.* | Rs. | A. | P. |
|---|---|---|---|
| Cash balance on 1st January 1885 ... ... | 48,429 | 0 | 3 |
| From Government— | | | |
| As salaries ... ... | 13,789 | 0 | 5 |

| For diet of police cases ... ... ... | 1,745 | 10 | 0 |
| Sale of medicines ... ... ... | ...... | | |
| Special allowances ... ... ... | 1,235 | 2 | 8 |
| Total ... | 18,659 | 1 | 0 |
| From local and other funds ... ... ... | 1,18,685 | 2 | 5 |
| „ municipal funds ... ... ... | 1,43,574 | 3 | 2 |
| Interest on investments ... ... ... | 30,889 | 14 | 2 |
| Sale of securities or withdrawal of deposits ... | 25,389 | 4 | 11 |
| European subscriptions ... ... ... | 16,872 | 6 | 1 |
| Native ditto ... ... ... | 1,06,184 | 11 | 10 |
| Total income ... | 5.08,683 | 11 | 10 |
| *Expenditure.* | | | |
| On establishment ... ... ... | 2,12,902 | 10 | 1 |
| „ bazar medicines ... ... .. | 9,501 | 3 | 4 |
| „ European medicines, whether from Government store or purchased otherwise ... ... | 43,239 | 4 | 1 |
| „ diet ... ... ... ... | 39,409 | 7 | 6 |
| „ miscellaneous charges ... ... ... | 29,016 | 15 | 5 |
| „ buildings and repairs ... ... ... | 52,505 | 2 | 3 |
| Invested during the year ... ... ... | 85,368 | 4 | 6 |
| Total expenditure ... | 4,71,942 | 15 | 2 |
| Cash balance on 31st December 1885 ... | 36,740 | 12 | 8 |

24. *Opening balance.*—On 1st January 1885 there remained a cash balance of Rs. 48,429 from the preceding year. This amount is less than the closing balance of 1884 by Rs. 3,207. The closure of a dispensary and the removal of one from Government supervision account for Rs. 1,079, and two dispensaries showed a total deficit of Rs. 2,142; but Rs. 14 of the total, viz. Rs. 3,221, have been balanced by an increase of equivalent amount which appears in the return of a dispensary.

25. *Receipts from Government.*—The total receipts from Government amounted to Rs. 18,659 in 1885, against Rs. 18,651 in the previous year, or of the total expenditure 4·8 per cent. and 5·3 per cent. respectively. These amounts are composed as follows:—

| | 1884. | 1885. |
|---|---|---|
| | Rs. | Rs. |
| Municipal institutions ... ... | 5,761 | 5,043 |
| Other ditto ... ... | 12,890 | 13,616 |
| Total ... | 18,651 | 18,659 |

If we deduct from the first line of figures the cost of registers and forms and diet of police cases, as it constitutes contribution which Government will continue to give under any circumstances, we find that Government contributed to institutions that are now considered to be municipal Rs. 3,106 in 1884, and Rs. 2,570 in 1885. These figures are composed of the following items:—

| | 1884. | 1885. |
|---|---|---|
| | Rs. | Rs. |
| As salaries ... ... ... | 3,032 | 2,449 |
| „ special allowances ... ... | 74 | 121 |
| „ medicines ... ... ... | ...... | ...... |

Of the Rs. 2,449 contributed by Government in the interest of municipal institutions towards salaries, Rs. 2,049 were given to the dispensary at Utterparah and the North Suburban Hospital, under special orders of Government, which authorise the payment under this head to be continued, and Rs. 400 were given to Jessore Dispensary, the municipality of that place having represented their inability to pay the increased salary due to the Assistant Surgeon. The Rs. 121 given as special allowances were spent on repairs to the dispensary at Pooree by the Public Works Department. The Government contribution towards dispensaries that are not considered municipal institutions consisted of the following items:—

| | 1884. | 1885. |
|---|---|---|
| | Rs. | Rs. |
| As salaries ... ... | 10,823 | 11,340 |
| „ registers and forms ... ... | 549 | 532 |
| „ Europe medicines ... ... | 279 | 536 |
| For diet of police cases ... ... | 153 | 94 |
| As special allowances ... ... | 1,086 | 1,114 |
| Total ... | 12,890 | 13,616 |

There was reduction in two items and increase in three. The total increase in 1885 was Rs. 726.

26. *Income from local sources.—Local or other funds.*—The income from local or other funds was Rs. 1,18,685, against Rs. 35,906 in 1884. Of these, municipal institutions received Rs. 91,265 in 1885 and Rs. 9,340 in 1884. There was, therefore, an increase under this head in municipal institutions to the amount of Rs. 81,925 in 1885 as compared with 1884. The increase was mainly due to the fact that Rs. 68,000 were received in the Monghyr Dispensary as sale proceeds of house property belonging to the institution. In other institutions there was an increase of Rs. 854.

27. *Subscriptions.*—Subscriptions from Europeans and Natives amounted to Rs. 16,872 and Rs. 1,06,185 respectively. Comparison with the previous year is shown below:—

| | 1884. | | 1885. | |
|---|---|---|---|---|
| | Europeans. | Natives. | Europeans. | Natives. |
| | Rs. | Rs. | Rs. | Rs. |
| Municipal institutions ... ... ... | 13,650 | 33,786 | 13,527 | 26,736 |
| Other ditto ... ... ... | 2,833 | 77,300 | 3,345 | 79,449 |
| Total ... | 16,483 | 1,11,086 | 16,872 | 1,06,185 |

We have therefore as total public subscriptions to dispensaries that are not considered municipal institutions Rs. 80,133 in 1884, and Rs. 82,794 in

1885. This shows an increase of Rs. 2,661 in 1885 as compared with 1884. In municipal institutions the entire subscriptions amounted to Rs. 47,436 in 1884, and Rs. 40,263 in 1885. There was a fall of Rs. 7,173 as compared with 1884. The fall is a large one, and the decline is expected to occur yearly for reasons given before.

28. *Sale of Securities, &c.*—The amount received by sale of securities and withdrawal of deposits was Rs. 25,389, against Rs. 15,769 in 1884. Of these amounts, municipal institutions received Rs. 18,775, and Rs. 8,995 respectively :—

| | Municipal Dispensaries. | | Other Dispensaries. | |
|---|---|---|---|---|
| | 1884. | 1885. | 1884. | 1885. |
| | Rs. | Rs. | Rs. | Rs. |
| Amount received from sale of securities ... | 4,813 | 13,294 | 1,980 | ...... |
| Deposits withdrawn ... ... ... | 4,182 | 5,481 | 4,794 | 6,614 |
| Total ... | 8,995 | 18,775 | 6,774 | 6,614 |

It appears that Government paper to the value of Rs. 11,500 was sold in the interests of municipal institutions in 1885, and of Rs. 4,800 in 1884. The amount realized from the sale was Rs. 11,294, of which nothing was re-invested. The question as to whether these sales should or should not be made by municipal bodies received the consideration of Government, and in the resolution on the report of charitable dispensaries for 1884 "it was decided that the sanction of Government is necessary in each case." No reference was made to my office regarding the sales in 1885, and it is not known whether they received the sanction of Government direct. Rs. 2,000 were received from the sale of municipal debentures, but the entire amount was reinvested in Government securities.

29. *Interest on Investments.*—The interest received on investments was Rs. 30,890, against Rs. 27,914 in 1884, of which municipal institutions received, respectively, Rs. 21,533, and Rs. 18,300.

30. *Municipal Contributions.*—Municipalities contributed Rs. 1,43,574, against Rs. 1,16,766 in 1884. There was an increase of Rs. 26,808 under this head as compared with 1884.

31. *Expenditure.*—The gross expenditure of the dispensaries in 1885 amounted to Rs. 3,86,574, against Rs. 3,49,712 in 1884 exclusive of the amounts invested. Thus there was an increase of Rs. 36,862 in 1885 as compared with 1884. The increase is to be observed in all items of expenditure except bazar medicines. The cost of establishment was Rs. 2,12,903, against Rs. 2,04,270 in 1884, or an increase of Rs. 8,633. Bazar medicines cost Rs. 9,501, against Rs. 9,582. Europe medicines showed an increase of Rs. 1,850, being Rs. 43,239 against Rs. 41,389. Medical stores were obtained from Government Store Department and from private druggists. Of the 229 dispensaries whose accounts are given in the statement, 180 elected to obtain medical stores from private sources. The value of medical stores supplied to dispensaries entirely supported by Government was Rs. 536. The total amount advised by this office in 1885 for recovery of the value of Government medical stores by the Accountant-General through the Collectors of the districts was Rs. 4,817, inclusive of Rs. 760, the value of cinchona febrifuge supplied from the Botanical Gardens. Deducting this amount, plus Rs. 536 mentioned above, the balance Rs. 37,886 represents the estimated value of medical stores locally purchased by 180 dispensaries. Against this is contrasted Rs. 4,817, the value of medical stores purchased from Government depôt by 35 dispensaries. The cost of diet was Rs. 39,409, against Rs. 38,894, or an increase of Rs. 515. The total daily average number of in-patients was 1,165·504 against 1,165·77. The average cost of each diet varied from 2 annas 7 pie to 6 pie. Miscellaneous charges showed an increase of Rs. 745, and buildings and repairs Rs 25,200, being Rs. 52,505 against Rs. 27,305 in 1884.

32. *Investments made during the year.*—The amount shown as invested during the year was Rs. 85,368, against Rs. 12,650 in 1884. The amount of investments made in 1885 shows an increase of Rs. 72,718 as compared with 1884, which was mainly due to the fact that Rs. 66,364 were invested in 1885 in favour of Monghyr Dispensary. The amount spent by municipal institutions

in the purchase of Government securities was Rs. 77,564. Nothing was spent in this direction in the previous year by municipalities. The following table shows details:—

| | Municipal Dispensaries. | | Other Dispensaries. | |
|---|---|---|---|---|
| | 1884. | 1885. | 1884. | 1885. |
| | Rs. | Rs. | Rs. | Rs. |
| Amount expended for purchase of securities ... | ...... | 77,564 | 2,687 | ...... |
| Amount deposited in Savings Bank ... | 1,052 | 1,074 | 8,911 | 6,730 |
| Total ... | 1,052 | 78,638 | 11,598 | 6,730 |

33. *Closing Cash Balance.*—The closing cash balance amounted to Rs. 36,740, viz. of municipal institutions Rs. 7,864, and of other dispensaries Rs. 28,876.

34. *Total Investments.*—The following statement shows this in detail:—

TABLE No. 12.—PART II.

| Nature of Investments. | Investments on 1st January 1885. | | | Investments obtained during 1885. | | | Investments sold or withdrawn during 1885. | | | Balance on 31st December 1885. | | | Amended Balance on 31st December 1884. | | |

| Total ... | 5,47,914 | 2,46,815 | 7,94,729 | 80,274 | 6,730 | 87,004 | 18,981 | 6,614 | 25,595 | 6,09,207 | 2,46,931 | 8,56,138 | 5,47,914 | 2,46,815 | 7,94,729 |

35. The balance on 31st December 1884 was Rs. 7,93,990. This should be the balance at the beginning of 1885 on 1st January, but the figure shown in the statement on this date is Rs. 7,94,729. This shows an increase of Rs. 739, which is accounted for as follows:—

| | Municipal Dispensaries. | Other Dispensaries. | Total. |
|---|---|---|---|
| | Rs. | Rs. | Rs. |
| Increase shown on 1st January 1885 in Government securities of ... | 800 | 3,000 | 3,800 |
| Ditto ditto in Savings' Banks of ... | 1,297 | 2,161 | 3,458 |
| Total ... | ... | ... | +7,258 |
| Decrease shown on 1st January 1885 in Government securities of ... | 3,000 | ... | 3,000 |
| Ditto ditto in Savings' Banks of ... | 2,895 | 624 | 3,519 |
| Total ... | ... | ... | —6,519 |
| | | | Difference + 739. |

36. Though Rs. 87,004 were invested during the year, Rs. 25,595 were withdrawn. The actual addition to the total investments was, therefore, Rs. 61,409. The total capital at the end of the year of all existing dispensaries was Rs. 8,56,138, against Rs. 7,94,729 in 1884. Of these, Rs. 2,46,931 belonged to non-municipal institutions in 1885, and Rs. 2,46,815 in 1884. The value of Government securities was Rs. 2,15,100, the same as that at the end of 1884. The amount laid out on loans remained also the same. The deposits in the Savings Banks, however, showed an increase of Rs. 116 in 1885. The total capital at the end of the year of municipal dispensaries amounted to Rs. 6,09,207, against Rs. 5,47,914 in 1884. The value of landed property and of investments on loans remained the same in the two years. The value of municipal debentures showed a decrease of Rs. 2,000 in 1885 and deposits in the Savings Banks of Rs. 4,407. There was an increase in the value of Government securities of Rs. 67,700 in 1885.

37. The following extracts from the Civil Surgeon's annual reports exhibit the working of each dispensary separately:—

# EXTRACTS FROM REPORTS OF CIVIL SURGEONS, &c.

## BURDWAN DIVISION.

Burdwan district.

THE Civil Surgeon says that the year 1885 is considered to have been a fairly healthy one in this district, and this is confirmed by the public opinion and by the returns received from the different dispensaries of the district. The mortality for the past four years was 49,297, or a rate of 35·41 per 1,000, in 1882, 39.092, or 28·08, in 1883; 33,198, or 23·85, in 1884; and 35,526, or 25·53, in 1885. There has been, the Civil Surgeon says, steady and progressive improvement in the health of the community from 1882, which was a remarkably fatal year. There has been, however, an increase in the death-rate in 1885, which was mainly due, it is said, to the epidemic of cholera, which swept over some parts of the district in the months of March, April, May, and June. There were six dispensaries at work during the year—the same as in 1884. Three in class II were in charge of municipalities, viz. Burdwan, Cutwa, and Raneegunge; one in class IIIB, viz. Mancoor, was managed by a local committee; and two in class IIIA, viz. Chuckdhigee and Mahata, were under private management—the same as in the previous year. The dispensaries under municipalities are reported to have a good deal of attention paid to them by the committee members, and as a rule are liberally dealt with. With the exception of those who are interested in supporting certain private dispensaries, the general public seem to give very little attention to such institutions. Four dispensaries received both out and indoor patients, viz. Burdwan, Cutwa, Raneegunge, and Chuckdighee. Two afforded outdoor relief only—Mahata and Mancoor. The total number of patients treated at all the six dispensaries was 25,911 in 1885, against 28,301 in 1884; the daily average being 228, against 264 in 1884. Three dispensaries were in charge of Assistant Surgeons, viz. Burdwan, Raneegunge, and Chuckdighee, and the rest in charge of civil hospital assistants. The Maharajah of Burdwan supports two large dispensaries for out and indoor patients—one in the centre of the Burdwan bazar, and the other at Culna, from which no returns are received.

*Burdwan.*—This is a municipal dispensary in class II. The dispensary business is conducted at the ordinary municipal meetings, which are held monthly. The Magistrate paid one visit, and several of the municipal commissioners visited it frequently. The Civil Surgeon paid daily visits. There were treated 789 in and 8,688 out-patients, against 825 and 10,170 in 1884. The daily averages were 26 and 70, against 29 and 80. There were 134 deaths, or 16·98 per cent., against 147 and 17·81 in 1884. A large number of the fatal cases were, as in former years, in a moribund state when admitted, and the mortality was further swelled by the admission of 49 cholera cases, 29 of whom died. There were performed 50 major and 678 minor operations, resulting in four deaths. The total expenditure was Rs. 4,928, of which Rs. 118 were paid by Government, viz Rs. 13 as cost of registers and forms and Rs 105 for diet of police cases. Establishment cost Rs. 2,685; European medicines, including cinchona febrifuge, Rs. 688; dieting articles Rs. 1,166; bazar medicines, Rs. 103; and miscellaneous items, Rs. 286. Rs. 725 were obtained as interest, Rs. 120 as subscriptions from Europeans, and Rs. 3,965 from municipal funds. At the end of the year the invested capital was Rs. 18.000.

*Cutwa.*—This is a municipal dispensary in class II. Visited twice by the Magistrate, once by the Commissioner of the Division, and thrice by the subdivisional officer. The Civil Surgeon paid only one visit. A third-class civil hospital assistant was in charge during the whole year. He receives Rs. 10 on account of the dispensary and Rs. 25 for the subdivision as his salary. There were treated 82 in and 2,836 out-patients, with daily averages of 3 and 16. The numbers in 1884 were 94 and 2,802, and 3 and 27 respectively. The death-rate was 13·4 per cent., against 13·8 in 1884. Two hundred and twenty-four minor operations were performed; no major operations. The total expenditure was Rs. 756. Establishment cost Rs. 342; Europe medicines, which were purchased from private druggists, Rs. 203; bazar medicines, Rs. 28; diet, Rs. 86; building and repairs, Rs. 26; and miscellaneous items, Rs. 71. Government contributed Rs. 9 as cost of registers and forms; municipality paid Rs. 727; and Rs. 20 were obtained as interest. At the end of the year the invested capital was Rs. 500.

*Chuckdighee.*—A class IIIA dispensary entirely supported from the legacy, amounting to Rs. 10,000, bequeathed by the late Baboo Sharoda Prosad Rai. Visited twice by the Civil Surgeon. There were treated 149 in and 4,591 out-patients, against 189 and 4,746 in 1884; the daily averages being 6 and 30, against 6 and 31. The death-rate was 12·75 per cent., against 13·2 in 1884. The principal diseases were malarial fever, rheumatic affections, skin diseases, and bowel-complaints. Fifteen major and 410 minor operations were performed. The total expenditure was Rs. 2,363. Government gave no aid except forms, which cost Rs. 11. Rs. 2,352 were received from local or other funds. Establishment cost Rs. 1,686; European medicines, Rs. 90; bazar medicines, Rs. 76; diet, Rs. 296; miscellaneous items, Rs. 200; and building or repairs, Rs. 15.

*Mancoor.*—This is a class IIIB dispensary. Government contributed half the salary of the civil hospital assistant. It is managed by a committee, which met three times during the year. Visited several itmes by the Magistrate during the famine relief works, and twice by the Civil Surgeon. There were treated 3,647 out-patients with a daily average of 29, against 4,075 and 35 in 1884. Thirteen major and 216 minor operations were performed. The total expenditure was Rs. 568, of which Government

contributed Rs. 156, viz. Rs. 150 as salaries and Rs. 6 as registers and forms. Establishment cost Rs. 325, and European medicines, which were purchased from private druggists, Rs. 83. Cinchona febrifuge to the value of Rs. 83 was obtained from Government. The expenditure on bazar medicines was Rs. 21, and on miscellaneous items Rs. 27 ; on building or repairs Rs. 9; and Rs. 20 were invested during the year. The total income was Rs. 614, of which Rs. 20 were obtained as interest, Rs. 190 from native subscribers, and Rs. 225 from withdrawal of deposits. There was an invested capital of Rs. 454 and a cash balance of Rs. 46 at the end of the year.

*Raneegunge.*—A municipal dispensary in class II. It was visited once by the Commissioner of the division and the Magistrate, and frequently by the subdivisional officer. The Civil Surgeon visited it twice. There were 235 in and 3,449 out-patients treated, against 293 and 3,507 in 1884. The daily average attendance was 7 and 28, against 8 and 27. The death-rate was 37·02 per cent., against 35·5 in 1884. The mortality at this dispensary is due, it is said, to the number of admissions of pilgrims in a moribund state. Thirty major and 342 minor operations were recorded. The total expenditure was Rs. 1,634, whereof establishment cost Rs. 1,079 and European medicines, which were purchased from private druggists, Rs. 159. Cinchona febrifuge to the value of Rs. 33 was obtained from the Superintendent, Royal Botanical Gardens, Howrah. The cost of bazar medicines was Rs. 41, and of diet Rs. 145. The expenditure on buildings and repairs was Rs. 85, and on miscellaneous items Rs. 92. Government only paid Rs. 11 as cost of registers and forms, and for diet of police Rs. 4. Municipal funds contributed Rs. 1,190. Rs. 183 were received from Europeans as subscriptions, and Rs. 245 from natives.

*Mahata.*—A class IIIA dispensary under private management. There were no dispensary meetings. Visited once by the Civil Surgeon. A civil hospital assistant was in charge, who was paid Rs. 30 per mensem. There were treated 1,445 out-patients, against 1,600 in 1884; the daily average being 9·39, against 14·76. No in-patients. Minor operations numbered 58. The total expenditure was Rs. 545, of which Rs. 428 represent the cost of establishment; European medicines, which were purchased from private druggists, Rs. 69; bazar medicines, Rs. 18; and miscellaneous items, Rs. 30. Government contributed Rs. 6 as cost of registers and forms.

Bankoora district.

The Civil Surgeon reports that the general health of the district in 1885 appears to have been tolerably good; the total number of recorded deaths being 18,943, or a rate of 18·18 per 1,000 of total population, against 19,032, or 18·27, in 1884, and 21,121, or 20·27, in 1883. There were four dispensaries at work in the district during the year. Two of these, viz. one at Bankoora and another at Bishenpore, were in class II, being under the municipalities of those towns. The institutions at Maliarah and Ajodhya were in class IIIB, and under the management of local committees, Government paying the half pay of the medical subordinates. All the dispensaries were in charge of civil hospital assistants. Two of these institutions, namely Bankoora and Bishenpore, treated both in and outdoor patients; the other two, viz. Maliarah and Ajodhya, only outdoor. The number of patients treated was 349 in and 13,755 out-patients, against 425 and 15,307 in 1884; the daily averages being 14 and 103, against 17 and 122 respectively. The Civil Surgeon states that these figures may be accepted as correct. The Municipal Commissioners of Bankoora take unusual interest in the welfare of the dispensary, and are always ready to carry out the suggestions of the Civil Surgeon. The managing bodies of the other three institutions take very little interest.

*Bankoora.*—This is a municipal dispensary in class II, managed by the local municipality. It was visited once by the Commissioner of the Division and the Sanitary Commissioner of Bengal, and monthly by the municipal commissioners. The Magistrate of the district visited the dispensary several times, but not in a single visit noted his remarks. The Civil Surgeon visited it daily. A civil hospital assistant was in charge. The number of patients treated was 294 in and 4,394 out, against 372 and 4,682 in 1884. The daily averages were 11 and 45, against 15 and 52 respectively. There were 41 deaths, or 13·94 per cent. of cases treated. The decrease in the number of patients treated was due to the general healthiness of the place, especially, the Civil Surgeon says, as there was in this year a diminution of fever cases, which generally swell the attendance. One hundred and fifty-three major and 798 minor operations were performed, with two deaths. The total expenditure was Rs. 1,744, of which Rs. 970 represent the cost of establishment, Rs. 285 of Europe medicines, and Rs. 99 of country medicines; dieting of in-patients cost Rs. 331; the expenditure on miscellaneous charges was Rs. 59. Government contributed Rs. 13 as cost of forms and registers. Municipality paid Rs. 1,731.

*Bishenpore.*—It is a municipal dispensary, and is in class II. Visited twice each by the District Magistrate and the Civil Surgeon, and once by the subdivisional officer. The Civil Surgeon says that it is strange to note that none of the municipal commissioners visited the dispensary during the year under report. A civil hospital assistant was in charge. The number of patients treated was 55 in and 4,420 out, against 53 and 4,801 in 1884. The daily averages were 3 and 30, against 1·83 and 32·86 respectively. There were two deaths, against 8 in 1884. Three major and 312 minor operations were performed. The total expenditure was Rs. 790, of which Rs. 456 were expended on establishment, Rs. 187 on Europe medicines, Rs. 27 on bazar medicines, Rs. 100 on diet, and Rs. 4 on buildings or repairs. The expenditure on miscellaneous items was Rs. 16. Government paid Rs. 30 for diet of police cases. Municipality paid Rs. 760.

*Maliarah.*—It is a class IIIB dispensary under the management of a local committee, which met only once during the year. It was visited once by the District Magistrate and the Civil Surgeon. A civil hospital assistant was in charge. The number of out-patients treated was 1,983, with a daily average of 5, against 2,806 and 16 in 1884 respectively. No in-patients. The decrease in the number of patients was due to the improved healthiness of the place. Eleven major and 86 minor operations were performed. The total expenditure was Rs. 932, whereof Rs. 276 represent the cost of establishment, Rs. 77 of Europe medicines, and Rs. 21 of bazar medicines. Rs. 533 were invested during the year. The expenditure on buildings and repairs was Rs. 2, and on miscellaneous items Rs. 23. Government contributed Rs. 127, viz. Rs. 120 as salaries and Rs. 7 as cost of forms and registers. Subscriptions from natives amounted to Rs. 480. A sum of Rs. 33 was received as interest on investments. The dispensary had a cash balance of Rs. 314 and an invested capital of Rs. 1,396 at the end of the year.

*Ajodhya.*—It is a class IIIB dispensary managed by a committee. The Civil Surgeon inspected it twice during the year. A civil hospital assistant was in charge. Two thousand nine hundred and fifty-eight out-patients were treated, with a daily average of 21·16, against 3,018 and 21·60 in 1884. No in-patients. Six major and 216 minor operations were performed. The total expenditure was Rs. 492. Government contributed Rs. 157, viz. Rs. 150 as half pay of the medical subordinate and Rs. 7 as cost of forms and registers. The expenditure on establishment was Rs 383. The cost of bazar medicines was Rs. 11. The outlay on buildings and repairs was Rs. 52, and on miscellaneous items Rs. 19. The income from native subscriptions was Rs. 480, and Rs. 27 were received as interest on investments. The dispensary had a cash balance of Rs. 172 and an invested capital of Rs. 801 at the end of the year. During the year Rs. 27 were invested

Beerbhoom district.

Judging from the general condition of the people the public health of the district during the year under report is stated to have a decided change for the better in their health. The total number of recorded deaths was 22,488, against 20,668 in 1884, 20,634 in 1883, 27,285 in 1882. The Civil Surgeon says "this would seem an inconsistency were it not for the fact that cholera contributed an unprecedented high figure to the general mortuary statistics of the year. Thus out of a total of 22,488 deaths no less than 5,464 were from cholera alone, whilst in 1884 it was 1,166." There were two dispensaries at work in the district during the year. One of these (Soory) belonged to class II, being under the local municipality, and the other, at Rampore Hât, to class IIIB, the half pay of the medical officer of which is paid by Government. Both these dispensaries received in and outdoor patients. There were treated 168 in and 10,285 out-patients, against 154 and 12,385 in 1884. The daily averages were 5 and 81, against 4 and 102 respectively. The dispensary at Rampore Hât was in charge of an Assistant Surgeon, and at Soory under a civil hospital assistant. The municipal members at the sudder station are said to take very fair interest in the institution. The interest of the Rampore Hât committee, says Dr. Roy, is rapidly declining, though both the dispensaries continue to supply the wants of the people, by whom they are very fairly appreciated.

*Soory.*—It is a class II municipal dispensary under the management of the local municipality, who held eight meetings during the year. It was visited seven times by the municipal commissioners and daily by the Civil Surgeon. A first-class civil hospital assistant was in charge, who received his grade pay, Rs. 55 per mensem, from the municipal fund. There were treated 64 in and 6,800 out-patients, against 55 and 8,964 in 1884; the daily averages being 2 and 62, against 2 and 81 respectively. There were 11 deaths, or 17·18 per cent., against 10, or 18·18, in the previous year. Four of these were from cholera. The fact was, the Civil Surgeon says, all these cholera cases were picked up from the roadside, who were servants of private gentlemen and ejected from the house in a dying condition, or moribund beggars picked up by the police and past all medical relief. Thirty-six major with three deaths, and 350 minor operations, were performed. The total expenditure amounted to Rs. 1,548. Government contributed Rs. 26, viz. Rs. 13 as cost of forms and registers and Rs. 13 for diet of police cases. Rs. 926 represent the cost of establishment, Rs. 397 of Europe medicines, and Rs. 54 of bazar medicines; Rs. 44 were spent for dieting of patients, Rs. 66 on buildings or repairs, and Rs. 61 on miscellaneous items. The total income of the dispensary was Rs. 1,548. European and native subscriptions were Rs. 214; Rs. 18 were received from local or other funds. The municipality paid Rs. 1,290. There was an invested capital of Rs. 783 in the beginning of the year, which was left untouched.

*Rampore Hât.*—It is a class IIIB dispensary governed by a committee presided over by the subdivisional officer. The interest taken by him in the welfare of the institution is said to be very lukewarm, and the members take their cue from him. Only three meetings were held. It was not visited by any officer of the district. The Civil Surgeon inspected it twice during the year. He visited it a third time, but did not enter any remark in the Visitors' Book, as he had gone there on special requisition of the court. The Railway Assistant Surgeon continued in charge. He received Rs. 25 per mensem from Government and Rs. 25 from the dispensary fund. The number of patients treated was 104 in and 3,485 outdoor, against 99 and 3,421 in 1884. The daily average attendance was 3 and 18, against 2 and 21 in the previous year. Dr. Roy says that "the variation is within such small limit that it does not show one way or the other whether it was due to any change in the general health of the people; but this much we know, that the brunt

of famine was chiefly felt in this subdivision, and Rampore Hât was just on the borderland, where, although no Government relief was opened, private charities were in active operation." There were 17 deaths, or 16·34 per cent. Six major and 283 minor operations were performed; one death resulted after operation. The total expenditure was Rs. 1,101, of which Rs. 838 represent the cost of establishment, Rs. 63 of Europe medicines, and Rs. 56 of bazar medicines. The expenditure on diet was Rs. 29, on buildings Rs. 38, and on miscellaneous items Rs. 77. Government paid Rs. 305, viz. Rs. 300 as salaries and Rs. 5 as cost of registers and forms. Rs. 344 were obtained as subscriptions from Europeans and natives, and Rs. 360 from the local funds. The expenses have been more than the income, and the dispensary contracted debts to the amount of Rs. 92.

**Midnapore district.**

The public health of the district during the year 1885 is said to have been undoubtedly healthier than in the previous year, although the death returns are slightly higher, chiefly because of the measures taken by the District Superintendent of Police to increase the efficiency of registration. The total number of recorded deaths was 51,324, against 50,773 in 1884. The Civil Surgeon says that the increase in the death-rate may be accounted for by the inordinate rainfall, by which large tracts of country were flooded during the year. There were at the end of the year 10 dispensaries working in the district. Of these, six were in class II, being municipal institutions, and four in class III B. Of the 10 dispensaries, three afforded indoor as well as outdoor relief. The dispensary at Contai, Dr. Peck says, which is not really an indoor dispensary, treated two cases during the year. Midnapore, Contai, Tumlook, and Ghattal dispensaries were in charge of Assistant Surgeons; the rest were under civil hospital assistants. The total number of patients treated was 593 in and 39,361 out, against 608 and 40,447 in 1884. The daily averages were 36 and 282, against 34 and 306 respectively. The figures, the Civil Surgeon says, may be accepted as correct. The decrease in the number of patients was due chiefly to the fact that the district has been undoubtedly healthier than in former years. The affairs of the dispensaries under municipalities were, as usual, transacted by the municipal committees. The local committees of the other institutions met regularly during the year. With regard to the interest taken by managing bodies, the Civil Surgeon reports that "on the whole the municipalities have shown a keen interest in their dispensaries—in fact, much more so than the committees of the non-municipal dispensaries."

*Midnapore.*—A municipal dispensary in class II. Visited once by the District Judge, three times by the Magistrate, four times by the Joint-Magistrate, and daily by the Civil Surgeon. A second-grade Assistant Surgeon was in charge, who received his grade pay from the municipality. There were 470 in and 10,429 out-patients treated, against 502 and 10,998 in 1884. The daily averages were 29 and 65, against 29 and 67 respectively. Besides the patients noted above, 12 paupers were daily lodged, clothed, and fed as in 1884, and 25 paupers received alms as provided for by the Pierce endowment. The death-rate among in-patients was 22 per cent., against 29 in 1884. There were 104 deaths altogether, of which 30 were from dysentery, 18 of cholera; the others were, as usual, from dropsy, fevers, debility, leprosy, &c. The death-rate must always be high where so many incurable pilgrims and moribund cases are admitted. There were 112 major operations; 67 of them were performed by the Civil Surgeon, and the remainder by the Assistant Surgeon. The death-rate was 8·49 per cent., against 8·7 in 1884 and 8·8 in 1883. Four hundred and four minor operations were recorded. The total expenditure was Rs. 5,802, whereof Rs. 2,836 represent the cost of establishment, Rs. 660 of Europe medicines, and Rs. 127 of bazar medicines. Rs. 1,481 was the cost of diet, Rs. 3 of buildings or repairs. Rs. 695 were spent on miscellaneous charges. Government contributed Rs. 57, viz. Rs. 14 as cost of forms and registers and Rs. 43 for diet of police cases. The total income of the dispensary was Rs. 5,802 including Government contribution. Rs. 10 were obtained from local sources. Rs. 4,440 from municipality, Rs. 820 as subscriptions, and Rs 475 as interest on investments. The dispensary had an invested capital of Rs. 19,379 at the end of the year.

*Contai.*—A class IIIB dispensary. There is no municipality in the subdivision. The institution is managed by a local committee, which held 10 meetings. Visited twice by the District Magistrate, six times by the subdivisional officer, and once by a member of the committee. The Civil Surgeon inspected it twice during the year. An Assistant Surgeon was in charge. There were treated 2 in and 1,861 out-patients, against 1,757 out-door only in 1884. The daily averages were ·2 and 13, against 10 (out-door) respectively. There were no deaths among in-patients. Two in-patients were admitted during the year, one being an amputation of the forearm and another a cataract case. Four major and 67 minor operations were performed. The total expenditure was Rs. 922, of which Rs. 434 represent the cost of establishment, Rs. 60 of Europe medicines which were obtained from a private vendor, and Rs 10 of bazar medicines. The expenditure on miscellaneous items was Rs. 35, and on buildings and repairs Rs. 114. Government supplied forms and registers, the cost of which was Rs. 6, and a special allowance of Rs. 226 on account of the large area of khas mehal lands in the subdivision. Subscriptions from Europeans and natives amounted to Rs. 332. Rs. 63 were obtained as interest on investment, and Rs. 334 by withdrawal of deposits. Rs. 269 were invested during the year. The financial condition of this dispensary was good.

*Ghatal.*—A subdivisional dispensary in class II under the management of the local municipality, which held eleven meetings during the year. Visited once by the Commissioner of the Division and twice by the District Magistrate. The Civil Surgeon inspected

the dispensary twice. An Assistant Surgeon in medical charge of the subdivision was in charge. There were treated 57 in and 2,407 out-patients, against 68 and 3,392 in 1884; the daily averages being 3 and 26, against 3 and 34 respectively. The decrease in the number of patients the Civil Surgeon says, was due to the improvement in the health of the subdivision, and to a greater extent by the interruption of communications, which occurred for nearly three months during the flood. There were seven deaths among in-patients, or 12·28 per cent., against 14, or 20·58, in the previous year. Forty-eight major and 82 minor operations were performed. One death resulted after operation. The total expenditure was Rs. 1,033, whereof Rs. 473 were expended on establishment, Rs. 236 on Europe medicines, which were obtained from a private firm, and Rs. 21 on country medicines. The expenditure on diet was Rs. 69, on buildings and repairs Rs 160, and on miscellaneous items Rs. 74. The entire cost of the dispensary was borne by the municipality, who paid Rs. 1,023. Government contributed Rs. 10, viz. Rs. 7 as cost of forms and registers and Rs. 3 for diet of police cases No subscriptions. Dr. Peck reports that "the hospital, which was totally destroyed by flood in August, is now in course of reconstruction on a plan approved of by the Civil Surgeon. It will be, as before, a *kutcha* building on a *pukka* platform, and is estimated at Rs. 300. It will probably be finished in March next. The dispensary itself, being *pukka*, was not damaged by the flood, and is in a good state of repair."

*Tumlook*.—A subdivisional dispensary in class II under the management of the local municipality, which held five meetings during the year. Visited once by the Magistrate, twice by the Civil Surgeon, and 18 times by the municipal commissioners. A second-grade Assistant Surgeon was in charge. There were treated 64 in and 5,882 out-patients, against 38 and 4,852 in 1884. The daily averages were 3 and 25, against 1 and 32 respectively. There were four deaths among the in-patients, or 6·25 per cent., against 11, or 28·9, in the previous year. There were no epidemics in the year excepting cholera, which prevailed in a mild form in the villages in the interior of the district as well as in the Tumlook town itself. Sixteen major and 392 minor operations were performed. No deaths resulted after operation. The total expenditure was Rs. 1,294, whereof Rs. 540 represent the cost of establishment, Rs. 170 of Europe and Rs. 20 of country medicines. The expenditure on diet was Rs. 92, on buildings and repairs Rs. 285, and on miscellaneous items Rs. 187. Government supplied forms and registers, the value of which was Rs. 7. Municipality paid Rs. 1.096, and subscriptions from natives amounted to Rs. 171. Rs. 20 were obtained from local funds.

*Chunderkona*.—A class II dispensary under the management of the local municipality, which held fourteen meetings during the year Visited twice by the Magistrate and often by the municipal commissioners. The Civil Surgeon inspected it three times. A second-grade civil hospital assistant was in charge. There were 5,152 out-patients treated, against 5,784 in 1884; the daily average being 25, against 26 respectively. Twenty-five major (including five reduction of dislocations) and 86 minor operations are said to have been performed during the year. The Civil Surgeon during his inspections performed 20 eye operations, and the rest have been performed by the civil hospital assistant. The total expenditure was Rs. 745. Government paid Rs. 7, the cost of forms and registers. The expenditure on establishment was Rs. 458, on Europe medicines Rs. 172, and on bazar medicines Rs. 28. Rs. 45 were spent on buildings, and Rs. 42 on miscellaneous items. Municipality paid Rs. 738.

*Narajole*.—A class IIIB dispensary managed by a local committee, who held four meetings, against five in 1884. Once visited by the Magistrate and twice by the Civil Surgeon. A second-grade civil hospital assistant was in charge, who received Rs. 35 a month—half from the dispensary fund and the other half from Government. Out-patients numbered 3,176, against 3,020 in 1884; the daily average being 31, against 30. Eleven major and 138 minor operations were performed. The total expenditure was Rs. 848, of which Rs. 460 represent the cost of establishment. Government contributed Rs. 214, viz. Rs. 207 as salaries and Rs. 7 as value of forms and registers. The expenditure on Europe medicines was Rs. 118, on bazar medicines Rs. 32, on buildings Rs. 20, and on miscellaneous items Rs. 98. Subscriptions from natives amounted to Rs. 480; Rs. 150 were obtained by withdrawal of deposits, and Rs. 23 as interest on investments. During the year Rs. 120 were invested.

*Gurbetta*.—A class IIIB outdoor dispensary managed by a committee, which met eleven times. No visits were paid by any of the district officers during the year. The Civil Surgeon inspected the institution three times. A civil hospital assistant was in charge, who received Rs 25 a month—half from Government and half from the dispensary fund. There were treated 1,252 out-patients, against 1,430 in 1884; the daily averages being 11, and 13 respectively. Eighteen major and 120 minor operations were performed. No deaths resulted after operation. The total expenditure was Rs. 526, of which Rs. 366 represent the cost of establishment. Government contributed Rs. 156, viz. Rs. 150 as salaries and Rs. 6 as cost of forms and registers. The cost of Europe medicines was Rs. 17, and of bazar medicines Rs. 8, and Rs. 34 were spent on miscellaneous charges. Subscriptions from Europeans were Rs. 240, and from natives Rs. 101. Rs. 6 were obtained as interest on investments, and Rs. 7 from local or other funds. Rs. 101 were invested during the year. At the end of the year there was a cash balance of Rs. 87.

*Dantoon.*—A class IIIB outdoor dispensary managed by a local committee with the Munsiff as Vice-Chairman, who held three meetings only during the year. Once visited by the Joint-Magistrate and six times by the members of the committee. The Civil Surgeon inspected it twice. A civil hospital assistant was in charge. Out-patients numbered 3,064, against 2,867 in 1884; the daily average being 18, against 20. Fifteen major and 112 minor operations are said to have been performed during the year. The Civil Surgeon during his inspections performed six eye operations, and the rest have been performed by the civil hospital assistant. The total expenditure was Rs. 573, whereof Rs. 312 represent the cost of establishment, Rs. 143 of Europe medicines, and Rs. 35 of country medicines. The expenditure on buildings was Rs. 5, and on miscellaneous items Rs. 75. Government contributed Rs. 127, namely Rs. 120 as salaries and Rs. 7 as cost of form and registers. Rs. 365 were realised as subscriptions, Rs. 50 were obtained by withdrawal of deposits, and Rs. 3 were obtained as interest on investments. Rs. 3 were invested during the year. There was a cash balance of Rs. 11 at the end of the year. The dispensary is still held in its old tumbled-down mud hut off the main thoroughfare, to which the necessary repairs have been made from time to time. A *pukka* building is, however, under construction upon the pilgrim road. It is hoped that the new building will be completed before the next rainy season.

*Ramjibunpore.*—A class II dispensary under the management of the local municipality, which held seven meetings during the year. It was visited once by the Magistrate and the subdivisional officer, and six times by the municipal commissioners. The Civil Surgeon inspected it twice. A civil hospital assistant was in charge, who received Rs. 25 per mensem from the municipality. There were treated 2,346 out-patients, with a daily average of 24, against 2,709 and 29 in 1884. The decrease in the number of patients was due to the healthiness of the locality. No in-patients. Twenty-one major and 170 minor operations were performed. The total expenditure was Rs. 1,227, whereof Rs. 360 represent the cost of establishment, Rs. 177 of Europe medicines, Rs. 34 of bazar medicines. The expenditure on buildings was Rs. 624 and on miscellaneous items Rs. 32. Government supplied forms and registers, the value of which was Rs. 7. Municipality paid Rs. 1,220.

*Khirpye.*—This is a class II outdoor dispensary under the management of the local municipality, which met eighteen times during the year. Visited once each by the Magistrate and the subdivisional officer, and often by the municipal commissioners. Twice inspected by the Civil Surgeon. A civil hospital assistant was in charge. His entire pay was paid by the municipality. There were 3,792 out-patients treated, with a daily average of the same as was in the previous year, viz. 41. Twenty major (eye) operations were performed by the Civil Surgeon at his inspections, and 274 minor operations were performed by the civil hospital assistant. The total expenditure was Rs. 935, whereof Rs. 384 represent the cost of establishment, Rs. 211 of Europe medicines, and Rs. 15 of country medicines. The expenditure on buildings was Rs. 300, and on miscellaneous charges Rs. 25. Government supplied forms and registers, the value of which was Rs. 7. Municipality paid Rs. 907. Rs. 21 were derived from local funds.

Hooghly district.

The Civil Surgeon has submitted a complete report. The public health of the district during the year 1885 was not quite so good as it was in the preceding year. The slight increase in the unhealthiness of the district is said to have been due probably to the excessive floods, which inundated some portions of the district during the rains. The total number of dispensaries in the district was four. Two of these were in class IIIA and two in class IIIB. Considerable interest is taken by the managing bodies generally in their dispensaries. The Hooghly Emambarah hospital is very popular The Boinchee and Dwarbasiny dispensaries are also appreciated by the people. The Jehanabad dispensary, the civil hospital assistant reports, "was fairly attended by the poor."

*Emambarah hospital.*—This is a class IIIA institution under the management of a committee consisting of the mutwallee, the local agents, and the Civil Surgeon. No regular committee meetings are held, but the accounts are checked monthly in the local agent's office. Visited occasionally by the Magistrate and his subordinates to take the depositions and dying declarations of wounded patients, &c., sent to the hospital by the police. The Civil Surgeon visited it daily. There were treated 770 in and 11,035 outdoor patients, against 731 and 11,524 in 1884. The daily average numbers were 24 and 48, against 25 and 51 respectively. There were 187 deaths, against 166 in the previous year. The large number of deaths was, it is stated, owing to moribund cases sent to the hospital by the police, municipal, and private individuals. Fifty-five major and 545 minor operations were performed. One death resulted after operation. The total expenditure was Rs. 6,833, whereof Rs. 3,642 represent the cost of establishment. Government paid Rs. 12-8-6 in registers and forms. The cost of Europe and bazar medicines was Rs. 784 and Rs. 111 respectively, of diet Rs. 847, and of miscellaneous items Rs. 1,449. Europe medicines were purchased from private dealers.

*Jehanabad.*—This dispensary is in class IIIB, and is managed by a local committee (appointed by Government), which held four meetings during the year. Visited once by the Commissioner of the Division, once by the District Magistrate, and four times by the subdivisional officer. The Civil Surgeon inspected it once, the place being difficult of access. The total number of patients treated was 5 in and 2,074 out, against 11 and 2,833 in 1884. The daily averages were ·10 and 12·96, against ·21 and 18·75 in the

previous year. There were two deaths among in-patients. These were the moribund cases sent to the dispensary by the police. Malarious fevers were the most prevalent diseases in the subdivision. Nine major and 82 minor operations were performed. The total expenditure was Rs. 750, whereof Government paid Rs. 5, viz. Rs. 4 as cost of forms and registers and Re. 1 for diet of police cases. Rs. 97 were obtained from municipal funds, Rs. 10 from local or other funds, and Rs. 287 as subscriptions from natives. Rs. 350 were derived by withdrawal of deposits. Establishment cost Rs. 601 ; Europe medicines, which were purchased from private druggists, cost Rs. 39 ; and bazar medicines, Rs. 30. The expenditure on diet was Rs. 7, on miscellaneous items Rs. 50, and on buildings and repairs Rs. 23. There was a closing balance of Rs. 18.

*Behary Lall Charitable Dispensary, Boinchee.*—It is a class IIIA dispensary managed by a committee consisting of the District Collector, the Deputy Inspector of Schools, and the Civil Surgeon. Visited once by the District Collector and twice by the Civil Surgeon. An Assistant Surgeon was in charge. There were treated 51 in and 2,743 outdoor patients, against 53 and 3,535 in 1884, with a daily average of 1·56 and 23·44, against 1·74 and 26·66 respectively. Out of 51 indoor patients seven died. One hundred and seventy-seven minor operations were performed. No major operations. The total expenditure was Rs. 2,270, of which Rs. 1,711 was the cost of establishment. Government contributed Rs. 3-13-3 as cost of registers and forms. Europe medicines, which were purchased from Calcutta, cost Rs. 351; bazar medicines, Rs. 27; miscellaneous items, Rs. 123; and diet, Rs. 58. The cash balance at the end of the year was Rs. 1,162.

*Dwarbasiny.*—A class IIIB dispensary. It is managed by a committee, which held 12 meetings during the year The Civil Surgeon inspected it twice. There were treated 2,839 out-patients, against 4,152 in 1884; the daily average number of sick was 19·40, against 21·4 in the previous year. The civil hospital assistant reports that the villagers of this locality were generally healthy. Minor operations numbered 99 ; no major operations The total expenditure was Rs. 765, whereof establishment cost Rs. 487 ; Europe medicines, which were purchased from Government stores, cost Rs. 99 ; bazar medicines, Rs. 21 ; buildings and repairs, Rs. 25 ; and miscellaneous items, Rs. 25. Government contributed Rs. 145, viz. Rs. 143 for half the salary of the civil hospital assistant, and Rs. 2 as cost of registers and forms. Rs. 14 were obtained as interest on investments. Rs. 124 were withdrawn from invested capital. Rs 480 were received as subscriptions from natives. Rs. 108 were invested during the year.

Serampore subdivision

The public health of the subdivision was not so good as it was in the preceding year, neither was it so good as the average standard of health. Cholera and small-pox were less, but fevers and bowel-complaints more prevalent than they were in 1884. There were five dispensaries working at the end of the year, against four in 1884. The Bhuddressur dispensary was opened on the 1st May 1885 (*vide* Bengal Government No. 226, of the 20th January 1885). Of these four were in class II, managed by municipalities, and one in class IIIB, aided by Government. All these were in charge of civil hospital assistants. Serampore hospital treated both in and outdoor patients; the rest outdoor patients only. The number of patients treated was 502 in and 18,656 out, against 526 and 14,049 respectively in 1884. The daily average numbers were 13·62 and 141·20, against 17·27 and 103·19 respectively. All these are useful institutions, and receive a fair share of attention from the governing bodies, and are appreciated by the people.

*Serampore.*—It is a municipal dispensary, and is in class II. Visited twice by the subdivisional officer, three times by the municipal commissioners, once by the Commissioner of the Division, and daily by the Civil Medical Officer. A civil hospital assistant was in charge, who received Rs. 25 per mensem from the dispensary. The number of patients treated was 502 in and 4,757 out, against 526 and 4,860 in the preceding year. The daily average numbers were 13 and 41, against 17·27 and 38·84 respectively. The number of deaths was 123, or 24·50, per cent. against 128, or 24·33, in 1884. The patients admitted into this hospital are mostly travellers, emaciated pilgrims, coolies, or beggars often in the last stage of disease, sometimes in a moribund state, and soon succumb. There were 25 major and 360 minor operations performed. The total expenditure was Rs. 2,613, whereof Government contributed Rs. 70, viz. Rs. 20 as cost of forms and registers and Rs. 50 for diet of police cases. The cost of establishment was Rs. 1,072, of Europe medicines Rs. 419, and of bazar medicines Rs. 53. Diet cost Rs. 513. The expenditure on buildings and repairs was Rs. 291, and on miscellaneous items Rs. 265. Municipality paid Rs. 1,341. Interest on investments was Rs. 24, and subscriptions from Europeans were Rs. 884, and from natives Rs. 294. There was an invested capital of Rs. 599 at the end of the year.

***Rishra.***—A class II institution under the management of Serampore Municipality, who held monthly meetings. There were 23 meetings in 1885. It was visited by the municipal commissioners three times, and the Civil Surgeon visited it six times. A civil hospital assistant was in charge. Out-patients numbered 3,217, against 2,491 in 1884, and the daily average was 16, against 13. Two hundred and ninety-one minor operations were performed. No major operations. The total expenditure was Rs. 632, of which Government contributed Rs. 2 only as cost of forms and registers. Rs. 484 were spent on establishment, Rs. 107 on English medicines, and Rs. 18 on bazar medicines. The expenditure on miscellaneous items was Rs. 16, and on building or repairs Rs. 7. Municipality paid Rs. 392, and subscriptions from Europeans and natives were Rs. 210 and Rs. 28 respectively.

*Boidyabati.*—A municipal dispensary in class II. The municipal commissioners held 18 meetings during the year. Visited once by the subdivisional officer, once by the Deputy Sanitary Commissioner, once by the Chairman of the Municipality, and eight times by the Civil Surgeon. It was in charge of a civil hospital assistant. The number of out-door patients treated was 5,111, against 4,470 in 1884; the daily average being 39·06, against 31·95. There were no major operations; minor operations numbered 294. The total expenditure was Rs. 760, of which Government paid Rs 2 as cost of forms. The cost of establishment was Rs. 477. European medicines cost Rs. 214, and bazar medicines Rs 26. Rs. 29 were spent on miscellaneous items, and Rs. 14 on buildings or repairs. Subscriptions from Europeans and natives were Rs. 82 and Re. 1 respectively.

*Bundipore.*—It is a class IIIB dispensary supported by a single individual, aided by Government and managed by a local committee nominated by the founder of the institution, who held 10 meetings during the year. It was visited twice by the Civil Surgeon and 12 times by the members of the committee. A civil hospital assistant was in charge. There were 2,815 out-patients treated, with a daily average of 23, against 2,228 and 19 in 1884. No in-patients. Minor operations numbered 103; no major operations. The total expenditure amounted to Rs. 702, whereof Government contributed Rs. 121, viz. Rs. 120 as salary of the medical subordinate and Re. 1 as cost of forms. The cost of establishment was Rs. 301. Europe medicines cost Rs. 114, bazar medicines Rs. 28, Rs. 22 were paid for miscellaneous items, and Rs. 237 were invested during the year. Subscriptions from natives amounted to Rs. 440, and Rs. 111 were obtained by withdrawal of deposits, and Rs. 30 as interest on investments.

*Bhaddreswar.*—This dispensary is in class II, and was established by the Bhaddreswar Municipality on the 1st May 1885, and is governed by the municipal commissioners, who held six meetings since the dispensary was opened. It was visited once by the subdivisional officer, once by the Deputy Sanitary Commissioner, and twice by the Civil Surgeon. A civil hospital assistant was in charge. There were treated 2,766 out-patients, with a daily average of 21·08. No in-patients. Fourteen major and 125 minor operations were performed. The total expenditure amounted to Rs. 914, whereof Rs. 363 represent the cost of establishment. Europe medicines cost Rs. 282, and bazar medicines Rs. 33. The expenditure on miscellaneous items was Rs. 186, and on buildings or repairs Rs. 50.

Howrah district.

*Ooterparah.*—It is a municipal dispensary, and is in class II. Government contributes the entire salary of a third-grade Assistant Surgeon. It is under the management of the Ooterparah Municipality. The number of patients treated was 249 in and 2,987 out, against 254 and 3,618 in 1884. The daily averages were 12 and 19, against 12 and 23 respectively. Twenty-five major and 314 minor operations were performed. The total expenditure was Rs. 2,853, of which Rs. 1,801 represent the cost of establishment. The cost of Europe medicines was Rs. 140, of bazar medicines Rs. 64, and of diet Rs. 517. The outlay on buildings was Rs. 221, and on miscellaneous items Rs. 110. Government paid Rs. 1,200—the entire pay of the medical officer. The amount of European and native subscriptions was Rs. 110 and Rs. 1,650 respectively. There was a cash balance of Rs. 753 at the end of the year.

*Ooloobariah.*—It is a class II dispensary managed by a committee which held five meetings during the year. Visited twice each by the District Magistrate and Civil Surgeon. The Assistant Surgeon of the subdivision was in charge. There were treated 78 in and 2,205 out-patients, the daily averages being 2 and 33 respectively. There were ten deaths among in-patients, or a rate of 12 per cent. Nineteen major and 175 minor operations were performed. No deaths resulted after operation. The total expenditure was Rs 658, whereof Rs. 437 represent the cost of establishment, Rs. 104 of Europe medicines, and Rs. 25 of bazar medicines. The expenditure on diet was Rs. 29, on buildings Rs. 4, and on miscellaneons items Rs. 59. Rs. 52 were obtained from local funds. Subscriptions from Europeans and natives were Rs. 99 and Rs. 561 respectively. There was a cash balance of Rs. 212 at the end of the year.

*Pally.*—It is a class II dispensary under the management of the local municipality. No dispensary committee. It was sanctioned under the orders of Government,—*vide* their letter No. 412T—M, dated 30th April 1884. Visited frequently by one of the municipal commissioners. No visits were paid by any of the civil officers in the district, nor by the Civil Surgeon during the year It was visited twice by the Deputy Sanitary Commissioner for Bengal. A native doctor was in charge, who received Rs. 20 a month from the municipal fund. There were treated 1,720 out-patients, with a daily average of 4. No in-patients. Minor operations numbered 110. No major. The total expenditure was Rs. 373, of which Rs. 312 represent the cost of establishment, Rs. 28 of Europe medicines, and Rs. 3 of bazar medicines. The expenditure on miscellaneous items was Rs. 30. All the expenses were met by the municipality.

## PRESIDENCY DIVISION.

District of 24-Pergunnahs.

Dr. Joubert has submitted a full and complete report on all matters of importance on the working of the dispensaries in the district. The public health of the district during the year 1885 is stated to have been a fairly healthy one as compared with the previous years.

There were in all 16 dispensaries working in the district at the end of the year under report No dispensary was opened, nor any closed, during the year. Six were in class II; four in class IIIA, being entirely under private management; and six in class IIIB, being under private management, but receiving aid from Government or local funds. Four were in charge of Assistant Surgeons, and twelve under that of civil hospital assistants. The North Suburban Hospital and the dispensaries at Barisha, Diamond Harbour, Russapagla, Barasot, and Gobardanga treated both indoor and outdoor patients; the rest are only outdoor institutions. There were treated 897 in and 61,018 out-patients, against 834 and 57,714 in 1884. The daily averages were 39 and 489, against 42 and 476 respectively. The Civil Surgeon says that "no attempt has been made to verify the figures, as it is not possible to do so." The best-managed dispensaries are North Suburban, South Suburban, Bhowanipore, South Barrackpore, Naihatty, Russapagla, Harinavi, Gobardanga, Barripore, and Baduriah. The others have suffered as regards funds, &c. The Civil Surgeon has been able to inspect before the close of the year every dispensary in the district.

*North Suburban Hospital.*—This institution belongs to class IIIB, and is managed by a committee composed of Europeans and natives, of which Dr. Waldie, the Honorary Secretary, is said to take great interest in the working of the hospital. There were three meetings. The Civil Surgeon inspected it twice. Assistant Surgeon Jadub Kristo Sircar was in charge throughout the year. As regards his fitness, the Civil Surgeon says that "he is a good surgeon, and is interested in his work." His grade pay is Rs. 150 per mensem, of which half is paid by Government and half out of the hospital funds. There were treated 509 in and 4,642 out-patients, against 464 and 4,305 in 1884. The daily averages were 21 and 36, against 26 and 38 respectively. The year was a healthier one. There was no epidemic of any disease. Twenty-nine deaths occurred during the year, or a rate of 5·69 per cent. of the patients treated, against 34 and 7·3 in the previous year. One hundred and five cases of major operations were performed, with three deaths. Minor operations numbered 527, against 509 in 1884. The total expenditure was Rs. 5,696, of which Government contributed Rs 857, viz. Rs. 849 as salaries of the medical subordinate and Rs. 8 as cost of registers and forms. The cost of establishment was Rs. 2,752, of Europe medicines Rs. 87, and of bazar medicines Rs. 142. Dieting articles cost Rs 1,070, and Rs. 306 were expended on miscellaneous items. The expenditure on buildings and repairs was Rs. 1,339. Besides the Government contribution, the income from local sources amounted to Rs. 134. Rs. 700 were obtained as interest on investments. Subscriptions amounted to Rs. 2,095, viz. Rs. 1,765 from Europeans and Rs. 330 from natives Municipality paid Rs. 1,800. There is an invested capital of Rs. 17,500. The dispensary had Rs. 3,283 in cash at the end of the year.

*Barisha.*—This is a class IIIB institution supported entirely by the South Suburban Municipality. It has not yet been formally vested in it. There is no dispensary committee, but its business is taken up at the general municipal meetings. No visit by any civil officer is recorded. The Civil Surgeon inspected it once. A civil hospital assistant was in charge throughout the year, who was paid Rs 55 per month by the municipality. There were treated 110 in and 5,769 out-patients, against 92 and 4,918 in 1884. The daily averages were 2·17 and 44·32, against 1·82 and 37·13 in the previous year. In 1885 there were seven deaths, or a rate of 6·36, against 7·60 in 1884. There was a greater prevalence of malarious fever. There were no epidemics of disease in the limits of the local municipality. There were a few scattered cases of cholera, 15 being treated at the dispensary; but no cases of small-pox came under observation. Thirty major and 462 minor operations were performed. No deaths resulted after operation. The total expenditure was Rs. 1,452, whereof Rs. 996 represent the cost of establishment. The cost of Europe medicines was Rs. 253, and of bazar medicines Rs. 41. Rs. 76 were spent for diet of patients. The expenditure on buildings was Rs. 45, and on miscellaneous items Rs. 61. Government contributed Rs. 8 for forms and registers Municipality paid Rs. 1,444.

*Bhowanipore.*—A municipal dispensary in class II managed by the Suburban Municipality. The Civil Surgeon inspected the dispensary eight times, of which two were formal inspections. Third-grade Assistant Surgeon Rammay Roy was in charge up to 21st January, from which date third-grade Assistant Surgeon Nidhu Lall Halder was in charge up to the end of the year. The Assistant Surgeon gets his grade pay, Rs. 100 per mensem, from the dispensary fund. The Assistant Surgeon is reported to be a very well qualified man, who has done his work in a satisfactory manner. There were treated 11,906 out-patients, with a daily average of 96·98, against 12,221 and 89 in 1884. No in-patients. On the whole the year was an average one as to the general public health. The Assistant Surgeon is of opinion that it was healthier than usual. Only ten cases of cholera were treated at the dispensary. Cholera, small-pox, and fevers prevailed in a milder form. Sixty major and 1,041 minor operations were performed. The total expenditure was Rs. 1,836, whereof Government contributed Rs. 47 as cost of forms and registers. The cost of establishment was Rs. 1,540. Rs 122 were spent on Europe medicines, namely Rs. 66 as cost of cinchona febrifuge purchased from Government, and Rs. 56 of medicines obtained from private dealers, Rs. 67 on bazar medicines, and Rs. 106 on miscellaneous items. Municipality paid Rs. 1,544. Interest on investments amounted to Rs. 245. The dispensary had an invested capital of Rs. 5,800 in Government promissory notes at the end of the year.

*Agurparah or Khurdah.*—A (class II) municipal institution managed by the South Barrackpore Municipality. The commissioners take up dispensary business at their monthly

meetings, of which eleven were held during the year 1885. There is no special dispensary committee. Visited four times by the Cantonment Magistrate of Barrackpore. No other officers paid any visits during the year. The Civil Surgeon inspected it once. A civil hospital assistant was in charge throughout the year, who received Rs. 30 per mensem from the municipality. It is an outdoor institution. The number of patients treated was 1 895, with a daily average of 20, against 1,760 and 19 in 1884. One major and 152 minor operations were performed. The total expenditure was Rs. 539, of which Rs. 432 represent the cost of establishment, Rs. 64 of Europe medicines, and Rs. 6 of bazar medicines. The expenditure on miscellaneous items was Rs. 37. Government contributed Rs. 4 as cost of registers and forms. Municipality paid Rs. 535.

*Nawabgunge.*—This is a class IIIB outdoor institution managed by the North Barrackpore Municipality. but not yet formally vested in it. There is no special dispensary committee. The dispensary business is transacted at the general monthly municipal meetings. The Civil Surgeon says that the civil hospital assistant reports that the commissioners take a fair interest in the welfare of the dispensary. No visits were paid by Government officers The Civil Surgeon inspected it once. A civil hospital assistant was in charge, who was paid Rs. 35 per mensem by the municipality. There were treated 1,176 out-patients, against 1,813 in 1884; the daily average being 11 and 16 respectively. One major and 66 minor operations were performed. The total expenditure was Rs. 824, whereof Rs. 492 represent the cost of establishment. The cost of Europe medicines was Rs. 272, and of bazar medicines Rs. 16. The amount expended on miscellaneous items was Rs. 44. The cost of forms and registers obtained from Government was Rs. 4. Municipality paid Rs. 820.

*Diamond Harbour.*—It is a class IIIA subdivisional dispensary managed by a committee, which held three meetings during the year. Little or no interest is shown by the committee in the affairs of the dispensary. No visits were paid by the civil officers. The Civil Surgeon inspected the dispensary once during the year. Third-grade Assistant Surgeon Purna Chunder Purkait was in charge from 1st to 14th January 1885, and Mohendro Nath Dass from that date to the end of the year, who receives Rs. 20 per mensem from the dispensary funds. There were treated 23 in and 1,614 out-patients, against 18 and 1,256 in 1884. The daily averages were ·71 and 8, against ·52 and 7 respectively. Most of the indoor patients were sent up by the police. There were five deaths, or a rate of 21·7 per cent. of total treated, against 3, or 16·6, in the previous year. One hundred minor operations were performed. No major operation. The total expenditure was Rs. 584, whereof Rs. 370 represent the cost of establishment. The cost of Europe medicines was Rs. 67, and of bazar medicines Rs. 11. The expenditure on miscellaneous items was Rs. 24, and on buildings Rs. 68 Rs. 332 were obtained by withdrawal of deposits, Rs. 61 were received as interest on invested capital, and Rs. 176 as subscription from natives. Rs. 44 were invested during the year.

*Canning Town.*—A class IIIA dispensary managed by a private committee, which met eleven times during the year. Visited once by the District Magistrate and the Civil Surgeon. A civil hospital assistant was in charge, whose entire pay was paid from the dispensary fund. There were treated 952 out-patients, with a daily average of 9, against 923 and 9 in 1884. Seventy-one minor operations were performed; no major operation The total expenditure was Rs. 518, of which Rs. 392 was the cost of establishment, Rs. 79 of Europe medicines, and Rs. 14 of country medicines. Rs. 17 were spent on miscellaneous items. Government contributed Rs. 2 as cost of forms and registers. Subscriptions from Europeans were Rs. 360, Rs. 75 were withdrawn from the savings bank, and interest on investments was Rs. 16. The dispensary had a deposit of Rs. 430 in the savings bank and a cash balance of Rs. 92 at the end of the year.

*Naihati.*—It is a class IIIB institution supported and managed by the local municipality, but it has not yet been formally vested in it. No civil officers visited the dispensary during the year. The Civil Surgeon paid one visit. A civil hospital assistant was in charge, who received Rs. 50 per mensem from the municipality. There were treated 4,821 out-patients, with a daily average of 33, against 4,742 and 36 in 1884. No in-patients. Four major and 172 minor operations were performed. No deaths resulted after operation. The total expenditure was Rs, 1,452, of which Rs. 897 was the cost of establishment, Rs. 429 of Europe medicines, and Rs 22 of bazar medicines. The expenditure on buildings was Rs. 80, and on miscellaneous items Rs. 24. Government contributed forms and registers, the cost of which was Rs. 6. Besides Government contribution, the total income was Rs. 1,446, which consisted of Rs. 101 realised as subscriptions from natives, Rs. 32 obtained from other sources, and Rs. 1,313 paid by the municipality.

*Russapagla.*—It is a class IIIA dispensary supported by private endowments and managed by a committee. Only one meeting was held in 1885. Visited once by the District Magistrate, the Secretary, the District Engineer, and Prince Farok Shah. The Civil Surgeon paid four visits, of which two were formal inspections. An Assistant Surgeon was in charge, who received Rs. 100 per month from Prince Gholam Mahomed's Trust Fund on account of the dispensary, and Rs. 50 from Political Pensions Department on account of the Mysore family dispensary. He passed his septennial examination, and was promoted to the second grade from November 1885. There were treated 167 in and 5,683 out-patients, against 156 and 6,253 in 1884. The daily averages were 9 and 50·92, against 8 and 60. There were 21 deaths, or 12·57 per cent. of treated, against 21 and 13·46 in the previous year. The

local public health is reported to have been better than the average. Seventy-one major and 326 minor operations were performed. No deaths resulted after operation. The total expenditure was Rs. 3,430, whereof Rs. 2,159 represent the cost of establishment. The cost of Europe medicines obtained from the Government store was Rs. 200, of bazar medicines Rs. 70, and of diet Rs. 583. The expenditure on miscellaneous items was Rs. 418. Government contributed forms and registers, the cost of which was Rs. 8. The dispensary is entirely supported from interest of endowments of the late Prince Gholam Mahomed. The trust fund is under the management of Government. In addition to the endowment fund of Rs. 1,32,000 in Government paper, the building and the compound are the property of the institution. The year closed with a cash balance in hand of Rs. 10,573, of which Rs. 8,000 have been held in deposit for purchase of Government securities.

*Harinavi.*—A municipal institution in class II managed by the Rajpore municipality. No visits were paid by the civil officers of the division or district. Visited once by the Civil Surgeon. A civil hospital assistant was in charge, who received his entire pay from the municipality. There were treated 7,850 out-patients, with a daily average of 50, against 6,047 and 39 in 1884. No in-patients. Four major and 381 minor operations were performed. The total expenditure was Rs. 830, of which Rs. 528 represent the cost of establishment. Rs. 260 were paid for Europe medicines purchased from private druggists during the year, bazar medicines cost Rs. 22, and Rs 20 were spent on miscellaneous items. Government contributed Rs. 8 for forms and registers. Subscriptions from natives were Rs. 53. Municipality paid Rs. 769.

*Baraset.*—A dispensary in class II managed by the local municipality. There were three meetings of the committee in the first part of the year, but no special ones since July 1885. Visited once by the District Magistrate and twice by the Joint-Magistrate. The Civil Surgeon inspected it once. A civil hospital assistant was in charge, who received Rs. 10 per month from the dispensary fund on account of the dispensary, Rs. 25 from Government on account of the subdivision, and Rs. 10 from Government for executive charge of the subsidiary jail. There were treated 73 in and 2,865 out-patients, against 99 and 3,856 in 1884. The daily averages were 3 and 19, against 4 and 29 respectively. There were 10 deaths, or a rate of 13·7 per cent., against 17 and 17·17 in the previous year. Twenty-six major and 351 minor operations were performed. The total expenditure was Rs. 828, of which Rs 412 was the cost of establishment and Rs. 119 of Europe medicines. Bazar medicines cost Rs. 53. The expenditure on diet was Rs. 137, and on miscellaneous items Rs. 72. Government contributed Rs. 10 for forms and registers. The income of the dispensary was Rs. 828, namely Rs. 262 as subscriptions from natives and Rs. 45 as interest on investments. Municipality paid Rs. 511. The dispensary had an invested capital of Rs. 1,145 at the end of the year.

*Tara Sankar Rai Chowdhuri's Dispensary at Taki.*—A class IIIB dispensary maintained by the local zemindar and aided by the municipality. It is managed by a committee, which held 12 meetings during the year. Visited once by the Commissioner of the Division and four times by the District Magistrate. Civil Surgeon inspected it once. A civil hospital assistant was in charge, who received Rs. 40 per month—half from municipal and half from dispensary funds. The number of out-patients treated was 1,010, against 911 in 1884; the daily averages being 15 and 12 respectively. Four major and 136 minor operations were performed. The total expenditure was Rs. 796, of which Rs. 605 represent the cost of establishment, Rs. 39 of Europe medicines, and Rs. 6 of bazar medicines. The amount expended on miscellaneous items was Rs. 38, and on buildings Rs. 87. Rs. 21 were invested during the year. Government contributed forms and registers, the cost of which was Rs. 3. The total income was Rs. 952. On the 31st December 1885 the dispensary had a cash balance of Rs. 156 and an invested capital of Rs. 1,091.

*Busirhat.*—A class IIIB dispensary aided by the local municipality, in which it has not yet been formally vested. Visited once by the Commissioner of the Division, twice by the District Magistrate, and several times by the subdivisional officer, but the latter recorded it only once. The Civil Surgeon paid one visit during the year. The subdivisional civil hospital assistant was in charge, and received Rs. 10 from the dispensary fund, Rs. 25 from Government for the subdivision, and Rs. 10 for executive charge of the subsidiary jail. There were treated 1,257 out-patients, with a daily average of 11, against 1,313 and 11 in 1884. No in-patients. Three major and 85 minor operations were performed. The total expenditure was Rs. 282, of which Rs. 150 was the cost of establishment and Rs. 98 of Europe medicines purchased from private dealers. Rs. 13 were expended on bazar medicines and Rs. 21 on miscellaneous items, which includes the cost (Rs. 3) of forms and registers supplied by Government. Municipality paid Rs. 279.

*Goberdanga.*—This is a class IIIA dispensary managed by its proprietor, Baboo Girija Prosonno Mookerjee, the local zemindar. There is no committee. Visited once by the Civil Surgeon. No visits were paid by the civil officers. A civil hospital assistant was in charge, whose entire pay was paid from the estate of the proprietor. There were treated 15 in and 3,620 out-patients, against 5 and 3,886 in 1884. The daily averages were 1 and 25, against ·28 and 30 respectively. There were three deaths, or a rate of 20 per cent. of the total treated. Twenty-two major and 370 minor operations were performed. The total expenditure was Rs 1,198, of which Rs. 1,012 represent the cost of establishment, Rs. 91 of Europe medicines obtained from the Government Medical Stores. The cost

of bazar medicines was Rs. 17; the expenditure on diet was Rs. 30, and on miscellaneous items Rs. 48. Government supplied forms and registers, the cost of which was Rs. 6.

*Baripore.*—It is a municipal dispensary in class II managed by the local municipality. Visited once by the Civil Surgeon. A civil hospital assistant was in charge, who received Rs. 25 monthly from the municipality. Four thousand six hundred and sixty-seven out-patients were treated, with a daily average of 40, against 2,495 and 27 in the previous year. Seven major and 207 minor operations were performed. No deaths resulted after operation. The total expenditure was Rs. 682, of which Rs. 468 represent the cost of establishment, Rs. 145 of Europe medicines obtained from private dealers, and Rs. 14 of bazar medicines. The expenditure on buildings was Rs. 5, and on miscellaneous items Rs. 50. Government contributed Rs. 3 in forms and registers. Municipality paid Rs. 516. Subscriptions from natives were Rs. 163.

*Baduria.*—This is a municipal dispensary in class II managed by the local municipality, which held four special dispensary meetings during the year. Visited three times by the District Magistrate and once by the Civil Surgeon. A civil hospital assistant was in charge, who received Rs. 25 per month from the municipality. There were treated 1,291 out-patients, with a daily average of 14, against 1,015 and 9 in 1884. Two major and seventy minor operations were performed The total expenditure was Rs. 775, whereof Rs. 430 represent the cost of establishment, Rs 222 of Europe medicines purchased from private druggists, and Rs. 3 of bazar medicines. The expenditure on buildings was Rs. 90, and on miscellaneous items Rs. 30 Government contributed forms and registers at a nominal cost, viz. six pie. Municipality paid all the expenses.

Khoolna district.

The report has been submitted by Dr. K. D. Ghose, Civil Medical Officer. It has been forwarded by the Commissioner of the Division with useful remarks on the working of the institutions. The year under report was healthier than the year preceding. This improvement in the public health was due chiefly to the fact that deaths from cholera during the year were fewer than in 1884; the total number of recorded deaths being 22,132, against 26,689 in 1884, or 23·27 against 24·71 per 1,000 of population. The total number of dispensaries working in the district at the end of the year was five. Of these, one was in class II, two in class IIIA, and two in class IIIB. The dispensaries at Khulna, Satkhira, and Bagirhat received both indoor and outdoor patients; the other two only outdoor patients. All the institutions were in charge of civil hospital assistants. The total number of patients treated was 138 in and 6,923 out, against 139 and 7,773 in 1884; the daily averages being 4 and 61, against 5 and 71 respectively. With regard to these, the Civil Medical Officer says that the figures, as far as he can judge from his inspections and from the result of his inquiries, may be assumed to be fairly correct. The managing bodies took a fair amount of interest in the institutions; but the attendance shows that English medicine is not so well appreciated by the people. The Civil Medical Officer says that people go to quacks first and come to the institutions at a later stage of illness, and then, when a couple of days' attendance does no good, they as a rule cease to attend. Sometimes they come from great distances and expect to get well by means of the three or four days' medicine which it is possible to give them at a time. Naturally they do not get well and find fault with the treatment. Quacks and kobirajes abound in this district, and it is their interest to run down the dispensaries. Such are some of the causes of the want of full appreciation of the institutions by the people.

*Khoolna.*—This a class II dispensary managed by the local municipality. Visited once by the Commissioner of the Division, and constantly by the Magistrate. The Civil Medical Officer visited the dispensary daily except when out of the head-quarters station. A civil hospital assistant was in charge, who received Rs. 10 only from the dispensary fund and his grade pay from Government. There were treated 30 in and 2,048 out-patients, against 29 and 2,709 in 1884. The daily averages were 1 and 11, against 1 and 18 in the preceding year. There were three deaths among in-patients. Six major and 91 minor operations were performed. No deaths resulted after operation. The total expenditure was Rs. 612, whereof Government contributed Rs. 27, viz. Rs. 9 for forms and registers and Rs. 18 for diet of police cases. The cost of establishment was Rs. 286, of Europe medicines obtained from private druggists Rs. 136, and of bazar medicines Rs. 22. The amount expended on diet was Rs. 19, on buildings Rs. 119, and on miscellaneous items Rs. 30. Subscriptions amounted to Rs. 315. Rs. 144 were obtained from local funds. Municipality paid Rs. 47, one rupee was obtained as interest on investments, and Rs. 55 were obtained by withdrawal of deposits.

*Satkhira.*—This is a class IIIB dispensary aided and managed by the local municipality, in which it has not yet been formally vested. It was visited once by the District Magistrate and twice by the Civil Surgeon. The subdivisional civil hospital assistant was in charge. There were treated 64 in and 1,707 out-patients, against 75 and 1,987 in 1884. The daily averages were 2 and 12, against 2 and 15 respectively. There were 13 deaths, or a rate of 20 per cent. of the total treated, against 13 and 17·3 in the previous year. Five major and 98 minor operations were performed. No deaths resulted after operation. The total expenditure was Rs. 1,137, whereof Government contributed Rs. 9, namely Rs. 7 as cost of forms and registers and Rs. 2 for diet of police cases. Rs. 702 represent the cost of establishment, Rs. 137 of Europe medicines obtained from Government stores. Out of this amount Rs. 112 were paid for medicines purchased in 1883, and Rs. 25 paid for cinchona febrifuge purchased during the year under report. Rs. 34

was expended on bazar medicines. The expenditure on diet was Rs. 27, on buildings Rs. 130, and on miscellaneous items Rs. 107. Municipality paid Rs. 1,088. Rs. 40 were received as interest on investments.

*Bagirhat.*—This is a class IIIA dispensary managed by a local committee, which met six times during the year under report. Visited once by the Commissioner of the Division and twice by the Civil Medical Officer. No visits were paid by the District Magistrate during the year. A second-class civil hospital assistant attached to the subdivision is in charge, who gets Rs. 20 from the dispensary fund under a special order of Government, as the subdivisional scheme provides only a third-grade hospital assistant for the subdivision. There were treated 44 in and 1,043 out-patients, against 35 and 1,153 in 1884; the daily averages being 1 and 7, against ·82 and 7 respectively. There were three deaths during the year. Fifty-nine minor operations were performed. No major operations. The total expenditure was Rs. 531, whereof Government paid Rs. 7 for forms and registers. Rs. 62 represent the cost of Europe medicines, which were obtained from private druggists; the cost of establishment was Rs. 407, and of bazar medicines Rs. 16. The outlay on buildings was Rs. 14, and on miscellaneous items Rs. 25.

*Dowlutpore.*—It is a class IIIB dispensary managed by a committee, which met five times during the year. Visited twice by the Civil Medical Officer. No visits were paid by the civil officer. A civil hospital assistant was in charge, whose entire pay, Rs. 35, was paid by Government. The number of out-patients treated was 1,431, with a daily average of 16, against 1,325 and 15 in 1884. One hundred and seventy-one minor operations were performed. No major operation. The total expenditure was Rs. 1,358, whereof Rs. 492 represent the cost of establishment. Government contribution amounted to Rs. 424, viz. Rs. 420 as salaries of the medical subordinate and Rs. 4 as cost of forms and registers. The cost of Europe medicines was Rs. 88, and of bazar medicines Rs. 8. The expenditure on buildings was Rs. 470, and on miscellaneous items Rs. 30. Rs. 270 were invested during the year. The income of the dispensary from local or other funds was Rs. 408. Subscriptions from natives were Rs. 54, and interest on investments was Rs. 20. The dispensary had an invested capital of Rs. 1,492 and a cash balance of Rs. 39 at the end of the year.

*Shamnuggur.*—This is a class IIIA dispensary supported entirely by Sreemutty Nistariny Dabya, and managed by a private committee, which held 12 meetings during the year. Visited once each by the District Magistrate and the Civil Medical Officer. A civil hospital assistant was in charge, who received Rs. 25 a month from the dispensary fund. The number of patients treated was 694 outdoor, against 599 in 1884; the daily average being 13·92, against 14·94. There were no in-patients. Forty-three minor operations were performed. No major operation. The total expenditure was Rs. 564, whereof Rs. 418 represent the cost of establishment. Government paid Rs. 7 as cost of forms and registers. The cost of Europe medicines obtained from the Government Medical Stores was Rs. 106, and of bazar medicines Rs. 22. The expenditure on miscellaneous items was Rs. 18. Subscriptions amounted to Rs. 440. There was a cash balance of Rs. 429 at the end of the year.

Nuddea district.

The report of the Civil Surgeon has been forwarded by the Commissioner of the Division with his usual remarks on the working of the dispensaries. The public health of the district, says the Civil Surgeon, shows a considerable improvement on that of any of the preceding four years The death-rate among the general population was 35, against 39 in 1884 and 36 in 1883. The inundation, which lasted through August and September, subsiding during the succeeding months, had up to the end of the year exerted no prejudicial effect on the general health. There was no press of indigent or sick persons into dispensaries during or after the inundation months. There were six dispensaries in the district at the end of the year. Of these, the dispensary at Kooshtea was under the supervision of the Civil Medical Officer of Goalundo, who has submitted a separate report. All the dispensaries in this district are under municipalities and in class II. The dispensary at Kishnaghur was under the charge of an Assistant Surgeon; the rest were under that of civil hospital assistants. Those at Kishnaghur and Ranaghat received both indoor and outdoor patients; the rest outdoor patients only. Meherpore dispensary has ceased to maintain accommodation for house-patients, the municipality being unable to make provision of the necessary funds. From time to time, however, cases are as a matter of urgent necessity taken in. The Civil Surgeon says that this is a very defective arrangement. The total number of patients treated at these dispensaries, including the one at Kooshtea, was 308 in and 12,950 out, against 239 and 12,481 in the previous year. The daily averages were 14 and 122, against 11 and 127 respectively. These figures, says the Civil Surgeon, are reliable. The local municipalities at Kishnaghur, Ranaghat, and Ula are said to take a considerable amount of interest in their institutions. The Civil Surgeon remarks "practically no interest has been shown at Santipore by any of the municipal commissioners except the official Chairman, the subdivisional officer."

*Kishnaghur.*—This is a municipal dispensary in class II. There is a sub-committee to administer the affairs of the institution. This committee held 12 meetings. Visited once by the Commissioner of the Division, four times by the Magistrate and Collector of the district, and five times by the Judge of the district. The Civil Surgeon inspected it daily during the year. An Assistant Surgeon was in charge, who received Rs. 100 a month from the municipality and an allowance of Rs. 50 from Government for attendance on the Kishnaghur College. There were treated 256 in and 4,680 out-patients, against 205 and 5,261

in 1884; the daily averages being 12 and 45, against 9 and 51 respectively. There were 36 deaths, or a rate of 14 per cent., against 28 and 13 in 1884. Fifty-four major and 452 minor operations were performed. Two deaths resulted after operation. The total expenditure was Rs. 3,105, whereof Rs. 1,656 represent the cost of establishment. Europe medicines, which were obtained from private druggists, cost Rs 480; bazar medicines, Rs. 25. Government contributed Rs. 5 for registers and forms. Rs. 388 were spent for dieting of patients, Rs. 369 on buildings, and Rs. 187 on miscellaneous items. The municipality paid Rs. 2,935, and subscriptions from Europeans and natives amounted to Rs. 39 and Rs. 126 respectively.

*Ranaghat.*—It is a municipal dispensary in class II under the management of the local municipality. Visited once by the District Magistrate, four times by the subdivisional officer, seven times by the Chairman of the local municipality, twice by the Vice-Chairman, and once by the Deputy Sanitary Commissioner. The Civil Surgeon inspected it four times during the year. A civil hospital assistant is in charge. He gets his grade pay from Government for subdivision and Rs. 10 from the municipality for dispensary. There were treated 51 in and 2,008 out-patients, against 31 and 1,871 in 1884. The daily averages were 2 and 20, against 1 and 22 respectively. There were eight deaths among the in-patients, against 7 in 1884. One hundred and seventy-four minor operations were performed. No major operation. The total expenditure was Rs. 541, of which Government paid Rs. 2 in forms and registers. Rs. 353 represent the cost of establishment; Rs. 136 of Europe medicines, which were obtained from private dealers. Bazar medicines cost Rs. 9, and Rs. 19 were expended on miscellaneous items. The expense of dieting of patients was Rs. 24. Municipality contributed Rs. 105, against Rs. 561 in 1884. Rs. 28 were obtained as interest on investments; Rs. 406 were obtained by withdrawal of deposits.

*Santipore.*—This is a municipal dispensary, and is in class II. The dispensary affairs are transacted at ordinary municipal meetings. Visited once each by the Magistrate of the district, subdivisional officer, and the Deputy Sanitary Commissioner. The Civil Surgeon inspected it three times during the year. A civil hospital assistant was in charge, who received Rs. 30 per mensem from the municipality. There were treated 1,580 out-patients, with a daily average of 20, against 1,400 and 18 in 1884. No in-patients. One hundred and twenty-nine minor operations were performed. No major operation. The total expenditure was Rs. 919, of which Government paid Rs. 2 in forms and registers; Rs. 552 represent the cost of establishment; Rs 221 were spent on Europe medicines, which were obtained partly from the Government Medical Store Department, and partly from private druggists; Rs. 20 on bazar medicines; Rs. 84 on buildings; and Rs. 42 on miscellaneous items. Municipality paid Rs. 917. The dispensary had an invested capital of Rs 3,378 at the end of the year deposited in the savings bank.

*Ula*—Is under the local municipality, and therefore in class II. Its business is transacted at ordinary municipal meetings. Visited once by the Magistrate of the district, and twice by the subdivisional officer. The Civil Surgeon paid three visits during the year. A civil hospital assistant is in charge, who gets Rs. 30 per mensem from the municipality. The number of out-patients treated was 1,911, with a daily average of 12, against 1,297 and 11 in 1884. No in-patients. Fifteen major and one hundred and eight minor operations were performed. No death resulted after operation. The total expenditure was Rs. 858, of which Rs. 431 represent the cost of establishment. Government contributed Re. 1 as cost of forms and registers. The price of Europe medicines obtained from private druggists was Rs. 341, the cost of bazar medicines was 4, Rs. 66 on buildings, and Rs 16 on miscellaneous items. Municipal contribution amounted to Rs. 857; Re. 1 was obtained from the local fund. The invested capital at the end of the year was Rs. 1,652.

*Meherpore.*—It is under the local municipality, and is therefore in class II. Its business is transacted at ordinary municipal meetings. No visits were paid by the civil officers. Visited twice by the Civil Surgeon. The civil hospital assistant in charge of the subdivision is in charge of the institution, for which he gets Rs. 10 from the municipality. The number of patients treated was one in and 1,871 out, against three and 1,824 in 1884. The daily averages were ·01 and 14, against ·13 and 15 respectively. There was one death. One major and one hundred and eighteen minor operations were performed. The total expenditure was Rs. 549. Government contributed Re. 1 as cost of forms and registers. Europe medicines cost Rs. 213, and bazar medicines Rs. 8. Rs. 282 represent the cost of establishment. The expenditure on buildings was Rs. 32, and on miscellaneous items Rs. 14. Municipality paid Rs. 548.

*Kooshtea.*—This is a municipal dispensary in class II. The affairs of the dispensary were brought under the discussion of the municipal meetings on nine occasions during the year. No visits were paid by any of the civil officers. The civil medical officer says that when he visited Kooshtea for other purposes and intended to inspect it, he found the place shut up. Dr. Richards says that the dispensary is supposed to be under the management of the municipal commissioners, but they do not seem to take any very special interest in it. The civil hospital assistant of the subdivision is in charge, and receives Rs. 20 per mensem from the dispensary funds. There were treated 900 out-patients, with a daily average of 9, against 828 and 6 in 1884. Twenty-six minor operations were performed. No major operation. The total expenditure was Rs. 389, of which Rs. 317 represent the cost of establishment, Rs. 6 of bazar medicines, and Rs. 3 of Europe medicines The expenditure on miscellaneous items was Rs. 13. Government contributed Re. 1 as cost of

forms and registers. Municipality contributed Rs. 338. The dispensary had an invested capital of Rs. 243 at the end of the year

Jessore district.

The report of the Civil Surgeon is full and complete. It has been forwarded with useful remarks of the Magistrate. The year 1885 is reported to have been on the whole a favourable one. The total number of recorded deaths was 49,955, against 53,165, showing a decrease of 3,210. There were six dispensaries open at the beginning of the year and seven at its close, the dispensary at Kotechandpore having been added to the list by Bengal Government letter No. 92, dated 10th January 1885. Of these, two were under the local municipality, and therefore in class II, and five in class IIIA. Two received both in and outdoor patients; the rest only outdoor patients. One was in charge of an Assistant-Surgeon, and the others were in charge of civil hospital assistants. The total number of patients treated was 367 in and 19,229 out, against 417 and 18,013 in 1884; the daily averages being 12 and 132, against 15 and 119 respectively. The Civil Surgeon says that at Sridhurpore very great interest is shown by the Secretary of the institution in its working. This is the only mofussil dispensary he has as yet been able to visit, so he cannot speak as to the others.

*Jessore.*—This is a class II dispensary under the local municipality. Its affairs are considered at the municipal meetings. Visited once by the Commissioner of the Division, five times each by the District Magistrate and members of the municipal committee, twice by the Deputy Magistrates, and daily by the Civil Surgeon. An Assistant Surgeon was in charge, who received Rs. 100 per mensem from the municipality and Rs. 50 from Government agreeably to the orders contained in Bengal Government letter No. 2621, dated 3rd December 1885. There were treated 353 in and 6,248 out-patients, against 399 and 6,878 in the previous year. The daily averages were 12 and 33, against 14 and 34 respectively. There were 21 deaths, against 24 in 1884. Thirty-five major and 476 minor operations were performed. No deaths resulted after operation. The total expenditure was Rs. 3,198, whereof Rs. 1,948 was the cost of establishment. Government contributed Rs. 531, viz. Rs. 400 as salaries, Rs. 120 for diet of police cases, and Rs. 11 as cost of forms and registers. The cost of Europe medicines was Rs. 233, and of bazar medicines Rs. 214. The expenditure on diet was Rs 426, on buildings Rs. 248, and on miscellaneous items Rs. 129. Municipality paid Rs. 1,928. Subscriptions from Europeans were Rs. 67 and from natives Rs. 423, and interest on investments was Rs. 45. Rs. 204 were obtained from local funds. There was an invested capital of Rs. 1,806 at the end of the year.

*Jhenidah.*—It is a subdivisional dispensary in class IIIA under the management of a local committee, which met eight times during the year. Visited twice by the District Magistrate, twice by the Deputy Magistrate. The Civil Surgeon inspected it twice during the year. The subdivisional hospital assistant, who receives his grade pay from Government, was in charge of the institution, and received Rs. 10 from the dispensary funds. There were treated 1,888 out-patients, with a daily average of 12, against 2,102 and 15 in 1884. No in-patients. Two major and 64 minor operations were performed during the year. The total expenditure was Rs. 341, whereof Government contributed Rs. 3 as cost of forms and registers. Rs. 231 represent the cost of establishment, Rs. 23 of bazar medicines. The expenditure on buildings was Rs. 11, and on miscellaneous items Rs. 69. Rs. 7 were invested during the year. The dispensary was maintained by subscriptions from Europeans and natives, which amounted to Rs. 166 and Rs. 144 respectively. Rs. 36 were obtained by withdrawal of deposits, and Rs. 7 as interest on investments. The dispensary had an invested capital of Rs. 271 and a cash balance of Rs. 14 at the end of the year.

*Magura.*—A subdivisional dispensary in class IIIA under the management of a committee, which met eight times during the year. Visited twice by the District Magistrate and once by the Civil Surgeon. A civil hospital assistant is in charge, who receives his grade pay from Government for the subdivision and Rs. 10 from the dispensary fund as an extra allowance. There were treated 14 in and 2,253 out-patients, against 18 and 2,187 in 1884. The daily averages were ·28 and 10, against ·64 and 11 respectively. There was one death, against three in the previous year. Fifty-one minor operations were performed. No major operation. The total expenditure was Rs. 531, whereof Rs 340 represent the cost of establishment, Rs. 78 of Europe and Rs. 16 of bazar medicines. The cost of diet was Re. 1. The expenditure on buildings was Rs. 50, and on miscellaneous items Rs. 25. Government contributed Rs. 4-9-5 as cost of forms and registers. Rs. 21 were invested during the year. The income from European and native subscriptions was Rs. 38 and Rs. 230 respectively. Rs. 21 were obtained as interest on investments, and Rs. 245 from local or other funds. The dispensary had a cash balance of Rs. 124 in hand and an invested capital of Rs. 591 in the district savings bank at the end of the year.

*Narail.*—A subdivisional dispensary in class IIIA managed by a committee, which met ten times during the year. Visited once each by the Commissioner of the Division and the Magistrate of the district, and twice by the Civil Surgeon. A civil hospital assistant was in charge, who received Rs. 25 for charge of the subdivision, Rs. 10 for executive charge of the subsidiary jail, and Rs. 10 from the dispensary fund. The number of out-patients treated was 2,512, with a daily average of 21, against 2,133 and 18 in the previous year. No in-patients. One hundred and ten minor operations were performed. No major operations. The total expenditure was Rs. 444, whereof Rs. 258 represent the cost of establishment, Rs. 146 of Europe medicines, and Rs. 13 of bazar medicines. The expenditure on buildings

was Rs. 3, and on miscellaneous items Rs. 24. Government contributed forms, the cost of which was Rs. 2-11-9. Subscriptions from natives were Rs. 252, and Rs. 382 were obtained from local funds. The dispensary had a cash balance of Rs. 209 at the end of the year.

*Sreedhurpore.*—It is a class IIIA dispensary under the management of a committee, which met 12 times during the year. Visited once by the Deputy Magistrate of Narail. The Civil Surgeon inspected it twice. A civil hospital assistant is in charge, whose entire pay is paid from the dispensary fund. The number of out-patients treated was 1,740, with a daily average of 18, against 2,131 and 23 in 1884. No in-patients. Seventy minor operations were performed. No major operation. The total expenditure was Rs. 933, whereof Rs. 756 represent the cost of establishment, Rs. 112 of Europe medicines, and Rs. 11 of bazar medicines. The expenditure on buildings was Re. 1, and on miscellaneous items Rs 25. Government contributed forms and registers, the cost of which was Rs. 2-11-9. Rs. 52 were obtained as interest on investments. Subscriptions from natives were Rs. 480. The dispensary had a cash balance of Rs. 247 and an invested capital of Rs. 1,394 at the end of the year.

*Chandra.*—A class IIIA dispensary managed by a committee, which held no meetings during the year. No visits were paid by any of the civil officers. It was inspected once by the Civil Surgeon. A civil hospital assistant was in charge. The total number of out-patients treated was 2,537, with a daily average of 15, against 2,582 and 16 in 1884. No in-patients. One hundred and twenty-four minor operations were performed. No major operations. The total expenditure was Rs. 745, whereof Government paid Rs. 2-7-4 as cost of forms and registers. Establishment cost Rs. 456, Europe medicines Rs. 161, and bazar medicines Rs. 25. Rs. 19 were expended on miscellaneous items. Rs. 83 were obtained as interest on investments. Subscriptions from natives were Rs. 480. The dispensary had a cash balance of Rs. 915 and an invested capital of Rs. 2,306 at the end of the year.

*Kotechandpore.*—This is a municipal dispensary in class II. It was sanctioned in Bengal Government letter No. 92, dated 10th January 1885, and opened on the 2nd February 1885. It is under the management of the local municipality. Visited once by the District Magistrate and by the subdivisional officer of Jhenidah, and twice by the Civil Surgeon. A civil hospital assistant is in charge, who receives Rs. 25 per mensem from the municipality. There were treated 2,051 out-patients, with a daily average of 20. One major and 81 minor operations were performed. No death resulted after operation. The total expenditure was Rs. 689, whereof Rs. 333 represent the cost of establishment. Europe medicines were obtained from a private druggist at a cost of Rs. 290. The indent was checked and countersigned by the Civil Surgeon. Bazar medicines cost Rs. 33 The expenditure on buildings was Rs. 7, and on miscellaneous items Rs. 23 Diet cost Rs. 3; this diet being for weakly outdoor patients who have been operated on. Government contributed forms and registers at a cost of Rs. 4. Municipality paid Rs. 685

Moorshedabad district.

The report of the Civil Surgeon is full and complete. It has been forwarded by the Commissioner of the Division with interesting remarks on the working of the institutions. The Civil Surgeon says that the public health of the district during the year under report was on the whole better than the previous year, the number of recorded deaths being 29,695, against 33,100 in 1884. The prevalence of fever was less than it has been in the previous year, and the mortality caused by it was proportionately less also Cholera was present throughout the year, and all over the district. It was nowhere severe, and does not appear to have been epidemic at any time. The total number of dispensaries at the beginning of the year was six, and only five at the close of 1885, the dispensary at Lalgola having been removed from the list of dispensaries under Government supervision (*vide* Bengal Government letter No. 322T—M, dated 11th May 1885). All the dispensaries in this district are under municipalities, and in class II. They were all in charge of assistant surgeons. All the dispensaries received both indoor and outdoor patients. There were treated in all the dispensaries 1,432 in and 34,663 out-patients, against 1,250 and 39,067 in 1884; the daily averages being 66 and 237, against 67 and 293 respectively.

*Berhampore.*—This is a class II dispensary under the management of the municipality. There is a sub-committee consisting of the Chairman, Vice-Chairman, and the Secretary of the Municipal Committee, which met once during the year, but individual members visited it frequently. Visited once by the Commissioner of the Division and the Magistrate of the district. The Civil Surgeon visited it almost daily. An Assistant Surgeon was in charge, who received his grade pay, Rs. 150 per month, from the municipality The total number of patients treated during the year was 537 in and 7,764 out, against 412 and 7,661 in 1884; the daily averages being 25 and 48, against 28 and 48 in the previous year There were 96 deaths, or a rate of 17·8 per cent., against 47 and 11·4 in the previous year. The increase in the mortality is attributed to the large number of low and moribund cases of remittent fever, diarrhœa, and dysentery which were admitted. Twenty-eight major and 497 minor operations were performed. Two deaths resulted after operation. The total expenditure was Rs. 4,828, whereof Government contributed Rs. 35, viz. Rs. 6 as cost of forms and registers and Rs. 29 for diet of police cases Rs. 2,232 represent the cost of establishment, Rs. 60 of bazar medicines, and Rs. 277 of Europe medicines, which were obtained from private druggists. The expenditure on diet was Rs. 779, on buildings Rs. 1,258, and on miscellaneous items Rs. 104. Municipality paid Rs. 2,084, against Rs. 656 in 1884. Subscriptions from Europeans and natives were Rs. 177

and Rs. 497 respectively. Interest on investments was Rs. 955 Rs. 1,042 were withdrawn from savings bank. Rs. 38 were received from local and other funds. The dispensary had Rs. 45,000 invested in Government securities and Rs. 256 in deposit in savings bank at the end of the year.

*City Moorshedabad.*—This is also a municipal dispensary in class II under the management of Lalbagh Municipality It is managed by a committee, which met eight times during the year at the dispensary. Visited by the District Magistrate, subdivisional officer, and the Civil Surgeon. A second-grade Assistant Surgeon was in charge. The cost of minor establishment was Rs 49 per month. The total number of patients treated was 373 in and 11,006 out, against 334 and 10,738 in 1884; the daily averages being 18 and 64, against 18 and 60 respectively. There were 41 deaths, or a rate of 10·99 per cent., against 43 and 12·87 in 1884. Twelve midwifery cases were treated, against 13 in the previous year. Forty-three major and 403 minor operations were performed. No deaths resulted after operation. The total expenditure was Rs. 4,312, whereof Rs. 1,868 were expended on establishment, Rs. 386 on Europe medicines and surgical instruments, which were obtained from private druggists, and Rs. 99 on bazar medicines. Dieting articles cost Rs. 588; Rs. 1,162 were spent on buildings, and Rs. 209 on miscellaneous items. Government contributed Rs 25, viz. Rs. 10 in registers and forms and Rs. 15 for diet of police cases. Municipality contributed Rs. 3,438. Rs. 58 were received as interest, and Rs. 705 as subscriptions from natives. Rs. 87 were obtained by withdrawal of deposits. The invested capital at the end of the year was Rs. 3,700.

*Jungipore.*—This is a class II dispensary under the management of the municipality. Visited twice by the District Magistrate and by the Civil Surgeon. A second-grade Assistant Surgeon was in charge, who received Rs. 105 per mensem from the municipality and Rs. 35 from Government on account of the subdivision, and an extra allowance of Rs. 20 for executive charge of the subsidiary jail. The total number of patients treated was 207 in and 4,926 out, against 91 and 5,350 in 1884; the daily averages being 11 and 29, against 6 and 38 in the previous year. The number of deaths was 28, or a rate of 13·52 per cent. against 12 and 13·18 in 1884. Six major and 285 minor operations were performed. No deaths resulted after operation. The total expenditure was Rs 2,356, whereof Rs. 1,659 were expended on establishment, Rs. 228 on Europe medicines obtained from private druggists, and Rs. 50 on bazar medicines. Dieting articles cost Rs. 232; Rs. 85 were spent on buildings. The expenditure on miscellaneous items was Rs. 89. Government paid Rs. 4 as cost of forms and registers. Municipality contributed Rs. 1,656, against Rs. 2,066 in 1884. Rs. 13 were received as interest on investments. Subscriptions from Europeans and natives were Rs. 70 and Rs. 333 respectively. Rs. 51 were received from local funds, and Rs. 229 were also obtained by withdrawal of deposits. At the end of the year the dispensary had an invested capital of Rs. 965.

*Kandi.*—This is a class II municipal dispensary. No visits were paid by the civil officers. Visited twice by the Civil Surgeon. A second-grade Assistant Surgeon is in charge. There were treated 175 in and 7,448 out-patients, against 214 and 7,203 in 1884. The daily averages were 5 and 61, against 7 and 63 respectively. There were 27 deaths, or a rate of 15·42 per cent., against 13 and 6·07 in the previous year. Twenty-eight major and 307 minor operations were performed. The total expenditure was Rs 2,674, whereof Government contributed Rs. 8 as cost of forms and registers. Rs. 2,045 represent the cost of establishment, Rs. 378 of Europe medicines which were obtained from private druggists, and Rs. 53 of bazar medicines. The expenditure on buildings was Rs. 6, and on miscellaneous items Rs. 39. Dieting articles cost Rs 153. Municipality paid Rs. 1,117, against Rs. 1,650 in 1884. Subscriptions from natives were Rs. 710, and Rs. 93 were received as interest on investments. Rs. 746 were obtained by withdrawal of deposits. The dispensary had an invested capital of Rs. 1,643 in the post-office savings bank at the end of the year.

*Jeagunge.*—This is a class II municipal dispensary. Its affairs are brought up before the municipal commissioners at their general meetings. There is also a dispensary committee, which met three times during the year in the dispensary premises. Visited twice by the District Magistrate and once by the Vice-Chairman of the City Moorshedabad Municipality. The Civil Surgeon inspected it twice during the year. An Assistant Surgeon was in charge, who received his grade pay, Rs. 100 per mensem, from the municipality. The minor establishment cost Rs. 31. There were treated 140 in and 3,519 out-patients, against 57 and 4,003 in 1884. The daily averages were 4 and 34, against 2 and 53 respectively. There were 20 deaths, or a rate of 14·28 per cent., against 4 and 7·01 in the previous year. Eight major and 250 minor operations were performed. No deaths resulted after operation. The total expenditure was Rs. 2,271, whereof Rs. 1,572 represent the cost of establishment, Rs. 296 of Europe medicines obtained from private druggists, and Rs. 32 of bazar medicines. The expenditure on diet was Rs. 178, on buildings Rs. 130, and on miscellaneous items Rs. 63. Government contributed Rs. 12, namely Rs. 7 as cost of forms and registers and Rs. 5 for diet of police cases. Municipality paid Rs. 1,980. Subscriptions from natives were Rs. 279.

## RAJSHAHYE DIVISION.

Dinagepore district.

The public health of the district during the year under report was worse as compared with 1884, the number of recorded deaths being 32,234 against 26,697. Fever, cholera, and bowel-complaints prevailed with greater fatality. Unlike the prvious years, the town was, however, tolerably free from fever during the beginning of the rainy season. All these complaints, the Civil Surgeon says, were present in every registering circle with more or less severity throughout the year, but most markedly towards the end of dry season. There were five dispensaries in the district, as in the previous year. One was in class II, under the management of the local municipality, and four in class IIIA, under private committees. The sudder dispensary received both indoor and outdoor patients; the rest outdoor patients only. All the dispensaries were in charge of civil hospital assistants. The total number of patients treated, including in and outdoor, was 9,751, against 10,247 in 1884. The daily average was 87, againt 95 in the previous year. The decrease in the total number of out patients is chiefly due to the less number treated at the Raigunge dispensary. The means adopted during the y ear under report to verify the figures returned by the civil hospital assistants, says the Civil Medical Officer, were the same as in the previous years. The managing bodies of the dispensaries are reported to take great interest in promoting the welfare their institutions.

*Dinagepore.*—A municipal dispensary in a class II. There is a sub-committee of the municipal commissioners to check its accounts. Visited once by the Commissioner of the Division and the Sanitary Commissioner of Bengal, several times by the District Magistrate, and monthly by the visitors appointed by the municipal commissioners. The Civil Medical Officer visited it almost daily. A civil hospital assistant was in charge, whose entire pay was paid by the municipality The total number of patients treated was 381 in and 3,814 outdoor, against 295 and 3,904 in 1884. The daily averages were 11 and 30, against 8 and 31 respectively. The increase in the number of indoor patients shows increasing popularity of the institution, but the decrease in the number of the outdoor patients, as compared with the previous year, was chiefly due to the decrease in the number of fever cases that attended the institution for relief, though there were increased admissions from dropsy, syphilis, and other complaints under the head of general diseases. The fact that this institution is situated within the town, which was almost free from fever during the beginning of the rainy season, may account for this decrease in the number of the outdoor patients treated. There were 76 deaths, against 49 in the previous year. This increase is principally due to the increased fatal cases of fever, cholera, and bowel-complaints admitted in a moribund state. Seven major and 53 minor operations were performed. No death resulted after operation. The total expenditure was Rs. 5,499, of which Government contributed Rs. 66, namely Rs. 15 as cost of forms and registers and Rs. 51 for diet of police cases. The cost of establishment was Rs. 1,187, of bazar medicines Rs. 43, of Europe medicines which were purchased from private druggists Rs. 189. Dieting articles cost Rs. 356. Rs. 114 were spent on miscellaneous items, and Rs. 3,610 on buildings. Municipality paid Rs. 4,674. Rs. 80 were obtained as interest on investments, and Rs. 3 from local funds. Subscriptions from Europeans and natives were Rs. 195 and Rs. 481 respectively. The dispensary has a capital of Rs. 2,000 invested in Government securities.

*Raigunge.*—It is a class IIIA institution managed by a committee, which held 12 meetings during the year. No visits were paid by civil officers. Visited once by the Civil Medical Officer. A second-grade civil hospital assistant is in charge, who gets his entire pay from the dispensary fund. There were 1,497 out-patients treated, against 1,873 in 1884; the daily average being 17, against 23. The decreased number, as compared with the previous year, was chiefly due to the decrease in the number of fever cases and other complaints under the head of general diseases. Seventy-six minor operations were performed; no major operation. The total expenditure was Rs. 549, whereof Rs. 427 represent the cost of establishment, Rs. 56 were expended on Europe medicines, and Rs. 3 on bazar medicines. Government contributed Rs. 2 as cost of forms and registers. The expenditure on miscellaneous items was Rs. 49. Rs. 14 were obtained as interest on investments, and Rs. 53 were received by withdrawal of deposits. Subscriptions from natives were Rs. 450 The dispensary had an invested capital of Rs. 341 in savings bank at the end of the year.

*Mohadebpore.*—This is a class IIIA dispensary under the management of a committee, which held six meetings. Visited once by the District Magistrate and the Civil Medical Officer. A civil hospital assistant was in charge, who received his whole pay from the dispensary fund. There were treated 979 out-patients, with a daily average of 5, against 1,075 and 6 in 1884. Twenty-two minor operations were performed; no major operation. The total expenditure was Rs. 644, whereof Rs. 452 represent the cost of establishment, Rs. 113 of Europe medicines which were obtained from private dealers, and Rs. 6 of bazar medicines. The cost of miscellaneous items was Rs. 19. Government contributed Rs. 2-7-6 in forms and registers; Rs. 9 were received as interest on investments, and Rs. 79 were obtained by withdrawal of deposits. Subscriptions from natives amounted to Rs 552. The dispensary had a deposit of Rs. 227 in savings bank, and a cash balance of Rs. 28 at the end of the year.

*Chooraman.*—It is a class IIIA dispensary supported by an estate under the Court of Wards and managed by a committee, which held 12 meetings during the year. Visited once each by the Magistrate and the Civil Medical Officer. A civil hospital assistant is in charge, who gets his entire pay from the dispensary fund. There were 2,033 outdoor patients treated, with, a daily average of 13, against 2,112 and 14 in the previous year. Two hundred and seventy-two minor operations were performed. The total expenditure was Rs. 500. Government contributed Rs. 2-7-6 in forms and registers. Rs. 456 represent the cost of establishment. The cost of Europe medicines was Rs. 69, and of bazar medicines Rs. 9. Rs. 39 were spent on miscellaneous items. Native subscriptions amounted to Rs. 500. Rs. 11 were received as interest on investments. The dispensary had a cash balance of Rs. 180 at the end of the year.

*Baloorghat.*—It is a class IIIA institution under the management of a private committee, which held 9 meetings during the year. No visits were paid by civil officers. Visited once by the Civil Medical Officer. A civil hospital assistant was in charge, who received his entire pay from the dispensary fund. There were treated 1,047 out-patients, with a daily average of 8, against 988 and 10 in 1884. Forty-six minor operations were performed; no major operation The total expenditure was Rs. 837, of which Government contributed Rs. 2-7-6 in forms and registers. The cost of establishment was Rs. 540. Europe medicines obtained from private druggists cost Rs. 89 The expenditure on bazar medicines was Rs. 14, on buildings Rs. 7, and on miscellaneous items Rs. 27. Subscriptions from natives amounted to Rs. 630. Rs. 87 were obtained from local funds, and Rs. 11 were received as interest on investments The dispensary had a deposit of Rs. 419 in the Government savings bank and a cash balance of Rs. 74 at the end of the year.

Rajshahye District.

The year 1885 is said to have been better than in 1884. The mortuary statistics gave a mortality of 31·17 per 1,000, against 36·41 in the previous year. There was much less mortality from fever. This was due to the inundation of the year. It was unusually high and prolonged. Owing to this the incidence of fever and cholera was much less after the month of August than it was in the same period last year. At the close of the year there were seven dispensaries in the district. Of these, one was in class II and the other six in class IIIA. One was under an Assistant Surgeon, five under civil hospital assistants in Government service, and the seventh under the charge of a private medical subordinate, who is a Licentiate of the Campbell Medical School. The dispensaries at Beauleah, Nattore, and Bollihar received both in and outdoor patients; the rest outdoor patients only Bollihar dispensary commenced to take indoor cases during the year. The total number of patients treated was 414 in and 19,720 out, against 397 and 22,517 in 1884. The daily averages were 17 and 175, against 14 and 193 respectively. As stated before, the district was healthier. Private practitioners are also increasing in reputation. These two causes account for the decline in outdoor cases. The Civil Surgeon has no doubt as to the correctness of the figures. Three dispensaries in all are managed by local committees; the remaining four are managed by their supporters. The Prossono Nath Rai Fund Committee takes great interest in the welfare of the Beauleah and Nattore dispensaries. Rajah Kristendar Rai, of Bollihar, takes great personal interest in the dispensary maintained by him. Baboo Raj Kumar Sircar also gives much attention to the affairs of the Kuruchmaria dispensary. The committee of subscribers which administers Kasimpore dispensary held frequent meetings and displayed considerable zeal in favour of the institution. As regards the others, no interest whatever is taken beyond that those who maintain them are always willing to give attention to any remarks made on the institutions by the Civil Surgeon or by visitors.

*Beauleah.*—This is a class II municipal dispensary. It is supported by the Prossono Nath Fund, with a contribution of Rs. 175 per mensem from the local municipality, and managed by a committee, which met four times during the year. The dispensary was visited once by the Commissioner of the Division and the Sanitary Commissioner of Bengal, and twice by the District Magistrate, and also once by the Joint-Magistrate. The Civil Surgeon inspected it almost daily. A second-grade Assistant Surgeon was in charge, who received Rs. 150 per mensem from the Prossono Nath Rai Fund for the dispensary and an additional allowance of Rs. 50 for the College from Government. There were treated 236 in and 5 838 outdoor patients, against 297 and 6,789 in 1884; the daily averages being 11 and 39, against 10 and 43. The decrease is due, the Civil Surgeon says, to greater healthiness of the year and to competition of private practitioners. The deaths were 48, or 20·33 per cent., against 61 and 20·5 in 1884. Cases of fever have much declined, and of goitre increased. The inundation lasted from the last week in July up to the beginning of October. This had a marked effect in lessening fever. The increase in goitre is due to appreciation of the remedy employed against it. Eighty-seven major and 355 minor operations were performed. No deaths resulted after operation. The total expenditure was Rs. 3,081, whereof Rs. 2,124 represent the cost of establishment, Rs. 292 of Europe medicines which were obtained from private druggists, and Rs. 63 of bazar medicines. The cost of diet was Rs. 273. The amount expended on buildings was Rs. 180, and on miscellaneous items Rs. 149. Government paid Rs. 8-8 as cost of forms and registers.

*Nattore.*—It is a class IIIA dispensary supported by the Prossono Nath Fund, and managed by a committee, which held four meetings during the year. Visited once by

the District Magistrate. The Civil Surgeon inspected it four times. A third-class civil hospital assistant officiated for a first-class hospital assistant, who was absent on sick leave up to 12th October 1885, and since invalided. He was then succeeded by a third-class civil hospital assistant. The latter received Rs. 10 per mensem from Prossono Nath Rai Fund, Government paying him Rs. 25 monthly for charge of the subdivision and Rs. 10 for executive charge of the subsidiary jail. There were treated 157 in and 2,972 out-patients, against 100 and 3,697 in 1884. The daily averages were 4 and 23, against 3 and 25 respectively. There were 33 deaths, or 21 per cent. of treated, against 23 or 23 per cent. in the previous year. Twelve major and 300 minor operations were performed. No deaths resulted after operation. The total expenditure was Rs. 1,127, whereof Rs. 688 represent the cost of establishment, Rs. 207 of Europe medicines, and Rs. 35 of bazar medicines. The cost of diet was Rs. 110. The amount expended on miscellaneous items was Rs. 87. Government contributed Rs. 7 as cost of forms and registers. The Civil Surgeon says that "the municipality promised to pay Rs. 20 per month towards the maintenance of the dispensary, but nothing was paid during the year."

*Pooteah.*—A dispensary in class IIIA entirely supported by Ranee Monmohiney Debya. There is no committee. Any remarks made by visitors or by the Civil Surgeon are attended to. Visited once each by the Magistrate and the Joint-Magistrate of the district. The Civil Surgeon paid three visits. A civil hospital assistant was in charge, who received Rs. 60 per mensem from the proprietress of the dispensary. The number of out-patients treated was 3,864, with a daily average of 32, against 4,187 and 30 in 1884. The decrease is mostly due to a less number of fever cases having been treated. Eight major and 210 minor operations were performed. The total expenditure was Rs. 1,077, of which Rs. 900 were the cost of establishment, Rs. 142 of Europe medicines, and Rs. 14 of bazar medicines. The amount expended on miscellaneous items was Rs. 21. The cost of forms and registers obtained from Government was Rs. 7.

*Lallpore.*—It is a class IIIA dispensary entirely supported by Maharani Shurut Soondary. No committee, but any suggestions made by the Civil Surgeon or by visitors are attended to. Visited once by the Magistrate and the subdivisional officer. The Civil Surgeon inspected the dispensary twice during the year. A civil hospital assistant is in charge, who gets Rs. 60 from the dispensary fund. No in-patients. The number of outdoor patients treated was 2,642, with a daily average of 20, against 3,106 and 25 in 1884. Three major and 102 minor operations were performed. The total expenditure was Rs. 1,201, of which Rs. 885 were the cost of establishment, Rs. 161 of Europe medicines, and Rs. 40 of bazar medicines. Rs. 55 were spent on buildings, and Rs. 60 on miscellaneous items Government contributed Rs. 6 as cost of forms and registers.

*Kurruchmaria.*—A dispensary in class IIIA entirely supported by Baboo Raj Kumar Sarkar, the local zemindar, who took a lively interest in it. There is no committee. The Magistrate paid one visit. The Civil Surgeon inspected it once. A civil hospital assistant was in charge, who was paid Rs. 25 per mensem. There were treated 1,100 out-patients, with a daily average of 15, against 1,457 and 22 in 1884. No in-patients. Minor operations numbered 32; no major operations The total expenditure was Rs. 455, of which Rs. 318 represent the cost of establishment. Europe medicines cost Rs. 87, and Rs. 23 were spent on bazar medicines. The amount expended on miscellaneous items was Rs. 27. Government contributed Rs. 6 as cost of forms and registers.

*Kassimpore.*—A dispensary in class IIIA supported and managed by a private committee, which met five times during the year, and took a lively interest in the institution. Visited once by the subdivisional officer. The Civil Surgeon inspected it once during the year. A civil hospital assistant was in charge, who received Rs. 40 per mensem. There were treated 1,036 out-patients, with a daily average of 21, against 1,597 and 24 in 1884. No in-patients. Thirty-four minor operations were performed. The total expenditure was Rs. 751 whereof Rs. 609 were the cost of establishment. Europe medicines cost Rs. 94, and bazar medicines Rs. 14. Rs. 34 were spent on miscellaneous items. Government contributed Rs. 6 as cost of forms.

*Bollihar.*—A class IIIA dispensary entirely supported by Raja Kristendar Rai, of Bollihar, who is reported to take a lively and active interest in the working of the institution, paying frequent visits. There is no committee. It was visited once by the Commissioner of the Division and the Magistrate of the district, and twice by the subdivisional officer. The Civil Surgeon inspected it once during the year. A native doctor is in charge, who is paid Rs. 60 per mensem. There were treated 21 in and 2,268 out-patients, against 1,737 (out-patients) in 1884. The daily averages were one and 21, against 21 (out) in the previous year. No major operation. Minor operations numbered 111. The total expenditure was Rs. 1,827, of which Rs 1,038 represent the cost of establishment. Europe medicines were obtained at a cost of Rs. 468; bazar medicines cost Rs. 38. The expenditure on buildings was Rs. 238, and Rs. 42 were spent on miscellaneous items. Cost of diet was Rs. 3. Government contributed Rs. 6 as cost of forms and registers.

**Rungpore district.**

The health of the district during 1885 was not better than that of the previous year. The total number of registered deaths was 53,654, against 39,568. The bulk of the deaths were caused by malarious fever. There were 12 dispensaries at the close of the year, against 13 of the preceding year. The dispensary at Dimla was removed from Government supervision on the 7th of August 1885 (Bengal Government letter No. 1373T—M., of the 26th August

1885). Of these 12 dispensaries, 3 belonged to class IIIB and 9 to class IIIA. Two were under the management of Rungpore Municipality, two under local committees, and the rest under private management. The managing bodies, says the Civil Surgeon, with the exception of Ulipore and Saptana, take no interest in the institutions under them. Two of these treated both in and out-patients; the others outdoor patients only. All the dispensaries were in charge of civil hospital assistants. The total number of patients treated was 355 in and 59,097 out-patients, against 280 and 65,648 in 1884. The daily averages were 12 and 234, against 10 and 259 respectively.

*Rungpore.*—This is a class IIIB dispensary. The local municipality considers its affairs at the general meeting. Visited once by the Commissioner of the Division, several times by the Magistrate, and daily by the Civil Surgeon. A civil hospital assistant was in charge, who received Rs. 55 per memsom from the municipality. There were treated 314 in and 7,931 out-patients, against 227 and 8,462 in 1885. The daily averages were 9 and 24, against 6 and 22 respectively. The death-rate was 15·9 per cent. as compared with 13·65 in 1884. Seventeen major and 143 minor operations were performed. One death resulted after operation. The total expenditure was Rs. 2,379, whereof Rs. 1,198 represent the cost of establishment. The expenditure on Europe medicines was Rs. 286, and on bazar medicines Rs. 114. Diet cost Rs. 375. Rs. 200 were spent on buildings and Rs. 206 on miscellaneous items. Government contributed Rs 5 for forms and registers and Rs. 19 for diet of police cases. Municipality paid Rs. 1,170. Interest or investments amounted to Rs. 667. European and native subscrip ions were Rs. 125 and Rs. 393 respectively. The dispensary had an invested capital of Rs. 16,300.

*Mahigunge.*—This is a class IIIB dispensary aided and managed by the Rungpore Municipality. It was visited once or twice every month by the Civil Surgeon. A civil hospital assistant was in charge. There were treated 8,084 out-patients, with a daily average of 31, against 7,420 and 27 in 1884 The principal diseases were malarious fever, goitre, spleen, rheumatism, and abscesses. Three hundred and forty-four minor operations were performed; no major operation. The total expenditure was Rs. 698, whereof Rs. 415 represent the cost of establishment, Rs. 46 of Europe medicines, and Rs. 107 of bazar medicines. The expenditure on miscellaneous items was Rs. 47, and on buildings or repairs Rs. 83. Government contributed forms and registers, the cost of which was Rs. 4. Municipality paid Rs 405, and Rs. 289 were obtained as subscriptions from natives.

*Ulipore.*—A class IIIA dispensary under the management of the agent of Maharanee Surnomoyee, who supports it entirely. There was no dispensary committee. It was visited by the Magistrate once, and once by the Civil Surgeon. A civil hospital assistant was in charge, who received Rs 70 per mensem from the dispensary fund. There were treated 41 in and 5,429 out-patients, against 53 and 5,732 in the previous year. The daily averages were 2 and 16, against 3 and 50 respectively. This slight decrease is to be expected, there being a temporary stoppage of work after the earthquake of the 15th July last, which damaged the dispensary building severely. The death-rate was 4·87 per cent., against 15·09 in 1884. One hundred and thirty-five minor operations were performed; no major operation. The total expenditure was Rs. 2,156, wher of Rs. 1,200 were expended on establishment, Rs. 571 on Europe medicines, and Rs. 77 on bazar medicines. Dieting articles cost Rs. 182. Rs. 122 were spent on miscellanous items, and Rs. 4 on building or repairs. Government paid Rs. 5 on account of registers and forms. Native subscriptions amounted to Rs. 2,151.

*Kakina*—It is a class IIIA outdoor dispensary, supported and managed by the local zemindar, Baboo Mohima Runjun Roy. No committee. It was visited once by the Civil Surgeon. A civil hospital assistant was in charge, who received Rs. 40 per mensem from the dispensary fund. There were treated 7,080 out-patients, with a daily average of 10, against 8,075 and 13 in 1884. This decrease is due to slovenly management. One major and 124 minor operations were performed. The total expenditure was Rs. 905, of which Rs. 659 represent the cost of establishment. Europe medicines cost Rs. 152, and bazar medicines Rs. 58. The expenditure on miscellaneous items was Rs. 36. The cost of forms supplied by Government was Rs. 4. The dispensary is supported by native subscriptions, which amounted to Rs. 901.

*Tushbunder.*—This is a class IIIA outdoor dispensary managed and supported by Rai Romoni Mohun Chowdhery Bahadoor, the local zemindar. No dispensary committee. Visited once by the Civil Surgeon. A civil hospital assistant was in charge, who is not in Government service. There were treated 6,589 out-patients, with a daily average of 19, against 6,877 and 21 in 1884. Sixty-seven minor operations were performed; no major operation. The total expenditure was Rs. 1,018, of which Rs. 636 represent the cost of establishment. The cost of English medicines was Rs. 171, and of bazar medicines Rs. 97. The expenditure on buildings was Rs. 85, and on miscellaneous charges Rs. 29. Government contributed Rs. 4 for forms and registers and Rs. 1,014 were obtained by subscriptions from natives.

*Battashim.*—It is a class IIIA outdoor institution entirely supported by Baboo Luchmiput Sing Bahadoor. Visited once by the District Magistrate and the Civil Surgeon. A civil hospital assistant was in charge, who was paid Rs 35 per mensem by the supporter. There were treated 1,775 out-patients, with a daily average of 11, against 2,410 and 15 in 1884. Sixty-three minor operations were performed; no major operation.

The total expenditure was Rs. 599, of which Rs. 444 represent the cost of establishment, Rs. 137 of Europe medicines, and Rs. 10 of bazar medicines. Miscellaneous expenses amounted to Rs. 8. Government contributed Rs. 4 for forms and registers, and subscriptions from natives were Rs. 595. There was a cash balance of Rs. 912 at the end of the year.

*Kurigram.*—It is a class IIIA outdoor institution situated at the head-quarters of the Kurigram subdivision and managed by a local committee. Three meetings were held. It was visited once by the District Magistrate and the Civil Surgeon. A civil hospital assistant was in charge, who received his grade pay, Rs. 35 per mensem, from Government for the subdivision and jail and Rs. 20 from the dispensary funds. There were treated 7,603 out-patients, with a daily average of 20, against 7,787 and 21 in 1884. Four major and 24 minor operations were performed. The total expenditure was Rs. 380, of which Rs 219 represent the cost of establishment. Europe medicines cost Rs. 40, and bazar medicines cost Rs 20. The expenditure on buildings was Rs. 14, and on miscellaneous items Rs. 35. Rs. 52 were invested during the year. Government contributed Rs. 4 for forms and registers. Rs. 12 were obtained from interest on investments, and Rs. 327 subscriptions from natives. There was a cash balance of Rs. 18 and an invested capital of Rs. 1,079 at the end of the year.

*Saptana.*—It is a class IIIA dispensary supported out of the estate of late Rai Annada Prosad Chowdhery, of Kassim Bazar, and managed by his agent. It was visited once by the Civil Surgeon during the year. A civil hospital assistant was in charge, who was paid Rs. 30 monthly. The total number of out-patients treated was 2,669, with a daily average of 12, against 2,986 and 12 in 1884. Thirteen minor operations were performed; no major operation. The total expenditure was Rs. 595, of which Rs. 419 represent the cost of establishment, Rs. 131 of English medicines, and Rs. 16 of bazar medicines. Miscellaneous items cost Rs. 29. Government paid Rs. 4 for forms and registers. The income from native subscriptions was Rs. 591.

*Dinhatta.*—It is a class IIIB dispensary supported from the estate of late Baboo Jogendro Narain Rai Chowdhery, and managed by a committee. No meetings were held. It was visited once by the Civil Surgeon. A civil hospital assistant was in charge, half of whose pay was paid by Government. There were treated 3,174 out-patients, with a daily average of 20, against 3,735 and 19 in 1884. Minor operations numbered 73; no major operation. The total expenditure was Rs. 628, of which Rs. 512 represent the cost of establishment. Government paid Rs. 214, viz. Rs. 210 as pay of the civil hospital assistant and Rs. 4 on account of forms and registers. Europe medicines cost Rs. 61, and Rs. 23 were spent on bazar medicines. The expenditure on miscellaneous items was Rs. 17. Besides a cash balance of Rs. 210, Rs. 15 were invested during the year. Subscriptions from natives amounted to Rs. 480, and interest on investments Rs. 15. There was an invested capital of Rs. 429 at the end of the year.

*Gayabanda.*—It is a class IIIA subdivisional dispensary managed by a committee, which met nine times during the year. The Magistrate and the Civil Surgeon visited it once during the year. A civil hospital assistant was in charge, who receives Rs. 10 from the dispensary funds. There were treated 2,587 out-patients, with a daily average of 12, against 3,367 and 15 in 1884. Forty-five minor operations were performed. The total expenditure was Rs. 2,010, whereof Rs. 318 represent the cost of establishment. Europe medicines cost Rs. 53, and bazar medicines Rs. 9. Rs. 1,131 were spent on buildings, Rs. 49 on miscellaneous items, and Rs. 450 were invested during the year. Government paid Rs. 4 for forms and registers. Rs. 44 were obtained from the sale of miscellaneous things, Rs. 16 from interest on investments, Rs. 452 from deposits withdrawn, Rs. 5 as subscriptions from Europeans, and Rs. 329 from natives. There was a cash balance of Rs. 16 and an invested capital of Rs. 193 at the end of the year.

*Nelphamaree.*—This is a class IIIA dispensary managed by a local committee. Visited once by the Civil Surgeon and the Assistant Surgeon in charge of the district. A civil hospital assistant was in charge, who gets Rs. 10 from the dispensary funds. The number of patients treated was 3,754 outdoor, with a daily average of 13, against 3,090 and 12 in 1884. Fifty-three minor operations were performed; no major operation. The total expenditure was Rs. 590, whereof Rs. 335 represent the cost of establishment, Rs. 130 of Europe medicines, and Rs. 13 of bazar medicines. The expenditure on miscellaneous items was Rs. 76, and on buildings Rs. 17, and Rs. 19 were invested during the year. Government contributed Rs. 6, viz. Rs. 4 for forms and registers and Rs. 2 for diet of police cases. Rs. 10 were obtained from local or other funds, Rs. 83 as interest on investments, and Rs. 111 from withdrawal of deposits. Subscriptions from Europeans were Rs. 9, and from natives Rs. 312. There was a cash balance of Rs. 41 and an invested capital of Rs. 2,167 at the end of the year.

*Kishoregunge.*—This is a class IIIA dispensary. It is supported and managed by Kumaree Bibi, a wealthy merchant of Kishoregunge, in the Nelphamaree subdivision. No committee. Visited once by the District Magistrate and the Civil Surgeon. A civil hospital assistant was in charge, who received Rs. 30 per mensem from the supporter of the institution. The number of patients treated was 2,422, and the daily average was 10 against 2483, and 12, respectively in 1884. Fifty-two minor operations were performed. The total expenditure was Rs. 709, whereof Rs 431 represent the cost of establishment, Rs. 97 of Europe medicines, and Rs. 13 of bazar medicines. The expenditure on

miscellaneous items was Rs. 7, on buildings or repairs Rs. 150, and Rs. 11 were invested during the year. Government paid Rs. 4 for forms and registers. There was a cash balance of Rs. 177 and an invested capital of Rs. 188 at the end of the year.

*Bogra district.*

The general health of the district during the year under report suffered considerably above that of the four preceding years. The number of the registered deaths was 20,361, against 18,341 in 1884, 15,887 in 1883, 17,662 in 1882, and 15,349 in 1881. This gradual increase is partly due to the prevalence of fever and cholera in the district, and partly to the improved registration, as had been reported in the last year's annual report. There were three dispensaries in the district at the end of the year. Two of these were in class II, and the third in class IIIA. The dispensary at Bogra treated both indoor and outdoor patients, and those at Nowkhilla and Sherepore only outdoor patients. All the dispensaries were in charge of civil hospital assistants The total number of patients treated was 107 in and 9,945 out, against 115 and 9,271 in 1884; the daily averages being 3 and 83, against 3 and 76 respectively. The increase in the number of out-patients was due to the general unhealthiness of the year under review. As regards the actual attendance of the sudder dispensary, the Civil Surgeon says that he can affirm from his daily inspection of it that there is nothing to disbelieve the figures, and he has also no reason to disbelieve the figures of the two others, which were tested during his inspection of those institutions. The managing bodies of the dispensaries at Bogra and Nowkhilla are reported to take sufficient interest in them, but that of the Sherepore dispensary shows comparatively very little or no interest in it. However, all the dispensaries are greatly appreciated by the people.

*Bogra.*—It is a municipal dispensary in class II governed by the municipal committee, which held 12 meetings during the year. Visited once by the Commissioner of the Division in company with the District Magistrate, who visited it twice, and the Civil Surgeon daily. A civil hospital assistant was in charge, who received Rs. 60 per mensem from municipal funds. There were treated 107 in and 6,571 out-patients, against 115 and 6,121 in 1884; the daily averages being 3 and 44, against 3 and 40 respectively. The increase in the number of out-patients is attributed to the prevalence of ophthalmia, bowel-complaints, mumps, and also to the popularity of the institution. There were 28 deaths, or a rate of 26·16 per cent., against 39 and 33·91 in 1884. As usual, fever was the most prevalent disease. Twenty major and 126 minor operations were performed. No deaths resulted after operation. The total expenditure was Rs. 1,520, of which Rs. 995 were the cost of establishment. English medicines were obtained from Government stores at a cost of Rs. 113, and Rs. 37 were spent on bazar medicines. Dieting articles cost Rs. 69. The expenditure on buildings was Rs. 239, and on miscellaneous items Rs. 67. Government contributed Rs. 32, viz. Rs. 7 for forms and registers and Rs. 25 for diet of police cases Of the total income of Rs. 1,520, municipality paid Rs. 785, Rs. 135 were derived as interest on investments; subscriptions from Europeans and natives were Rs. 125 and Rs. 413 respectively, Rs. 30 were obtained from local funds. The dispensary had an invested capital of Rs. 3,000 at the end of the year.

*Nowkhilla.*—A class IIIA dispensary wholly supported by late Raja Promatha Nath Roy, Rai Bahadoor, of Dighapatia, and managed by a local committee, which met seven times during the year. Visited twice by the District Magistrate and thrice by the Civil Surgeon. A civil hospital assistant was in charge, who was paid Rs. 50 from the dispensary fund. There were treated 2,113 out-patients, with a daily average of 30, against 1,926 and 26 in 1884. This increase in the number of attendance is ascribed to the general unhealthiness of the place, and also to the faith of the people in Europe medicines. Four major and 125 minor operations were performed. The total expenditure was Rs. 935, whereof Rs. 774 represent the cost of establishment. The cost of English medicines obtained from Government Medical Stores was Rs. 107, and Rs. 18 were spent on bazar medicines. The amount expended on miscellaneous items was Rs. 36. Government supplied forms and registers, the cost of which was Rs. 2.

*Sherepore.*—A class II municipal institution managed by the municipal committee, which held 22 meetings during the year. No visits were paid by civil officers. The Civil Surgeon inspected it four times. A civil hospital assistant was in charge, who received Rs. 35 per mensem from the municipality There were treated 1,261 out-patients, with a daily average of 8, against 1,224 and 9 in 1884. Twenty minor operations were performed; no major operation. The total expenditure was Rs. 879, of which Rs. 414 represent the cost of establishment, Rs. 4 of Europe medicines obtained from Government stores, and Rs 5 of bazar medicines. Rs. 105 were spent on buildings, and Rs. 208 on miscellaneous items. Government supplied forms and registers, the cost of which was Rs. 2. Of the total income of Rs. 879, municipality paid Rs. 402. Interest on investments was Rs. 53; European and native subscriptions amounted to Rs. 137. Rs. 18 were obtained from local funds, and Rs. 267 by withdrawal of deposits. The dispensary had an invested capital of Rs. 1,373 at the end of the year.

*Pubna district.*

The general health of the district during the year under review was on the whole much better than in the previous year, the number of recorded deaths being 38,237, against 42,546 in 1884. Serajgunge, including its municipality, and Ulapara station, suffered more this year on account of the prevalence of malarious fever during the months of August and September than in the previous year. The cold weather fever was not so

prevalent as it was last year, the inundation which took place in the month of August having done good in this respect. There were two dispensaries in 1885. Both of these were in class II, and received indoor and outdoor patients. The dispensary at Serajgunge was under the charge of an Assistant Surgeon, and the other, at Pubna, under that of a civil hospital assistant. The total number of patients treated was 504 in and 11,993 outdoor, against 496 and 11,188 in 1884. The daily averages were 17 and 106, against 16 and 101 respectively. These figures, says the Civil Surgeon, were tested in his inspections and are reliable. The municipal committee of both Pubna and Serajgunge, and the European residents, both official and non-official, take lively interest in the welfare of their institutions.

*Pubna.*—It is a municipal dispensary in class II under the management of the municipal committee, who discussed dispensary matters along with other business in their monthly meetings. Visited once by the Commissioner of the Division, four times by the District Magistrate, and monthly by the municipal commissioners. The Civil Medical Officer, visited it daily. A civil hospital assistant was in charge, who was paid Rs. 55 per mensem by the municipality. There were treated 186 in and 3,154 out-patients, against 186 and 3,232 in 1884. The daily averages were 6 and 28, against 6 and 30 respectively. The death-rate was 12·49 per cent., against 14·51 in 1884. Sixteen major and 212 minor operations were performed. The total expenditure was Rs. 1,475, of which Government contributed Rs. 21, namely Rs. 9 for forms and registers and Rs. 12 for diet of police cases. Rs. 943 represent the cost of establishment, Rs. 118 of English medicines, and Rs. 72 of bazar medicines. Dieting articles cost Rs. 139. The expenditure on buildings was Rs. 129, and miscellaneous items Rs. 74. Municipality paid Rs. 1,431, and Rs. 23 were received from local or other funds.

*Serajgunge.*—A municipal dispensary in class II. Visited three times by the District Magistrate, once by the Civil Surgeon, and frequently by the subdivisional officer. The present Civil Medical Officer could not visit the dispensary more than once, as he has been transferred. A second-grade Assistant Surgeon was in charge, who received Rs. 100 from Government for the subdivision, and Rs. 70 including dispensary allowance of Rs. 20 from the municipality. There were treated 318 in and 8,839 outdoor patients, against 310 and 7,956 in 1884. The daily averages were 11 and 78, against 9 and 71 respectively. The increase in the number of patients is ascribed to the prevalence of the malarious fever during the months of August and September 1885. The death-rate among in-patients was 16·9 per cent., against 13·2 in the previous year. Forty major and 365 minor operations were performed, against 31 and 337 in 1884. The total expenditure was Rs. 2,720, of which Rs. 1,342 represent the cost of establishment. The cost of Europe medicines was Rs. 439, against Rs. 406, in 1884. The expenditure on bazar medicines was Rs. 65, on diet Rs. 362, and on miscellaneous items Rs. 143; Rs. 369 were spent towards buildings. Government paid Rs. 40, viz. Rs. 9 for forms and registers and Rs. 31 for diet of police cases. Municipality paid Rs. 1,567, and subscriptions from Europeans and natives were Rs. 772 and Rs. 341 respectively.

**Darjeeling district.**

The Civil Surgeon reports that the general health of the district during the year under report was on the average good. There were no epidemics. Only 30 deaths from cholera are reported to have occurred throughout the district, and no deaths from small-pox. There were four dispensaries at work at the end of the year, against five in 1884. The one at Nuxulbari, in the Terai, having proved a useless institution, was closed on the 31st March 1885 under the orders of Government conveyed in its letter No. 737, dated 10th March 1885. Of the dispensaries working during the year, one was a first-class, being entirely supported by Government; one under class II, being a municipal institution, one under IIIA, and one under IIIB, supported by municipal and local funds. All the dispensaries were in charge of civil hospital assistants. The dispensaries at Darjeeling, Kurseong, and Silligoree treated both in and outdoor patients throughout the year; Kalimpong dispensary only outdoor patients. The total number of patients treated was 341 in and 10,435 out, against 313 and 9,903 in 1884; the daily averages being 14 and 46, against 18 and 42 respectively. These figures are reported to be accurate. There are no special dispensary committees or private managers. All the dispensaries seem to be fairly well appreciated by the people.

*Darjeeling.*—A class IIIB dispensary supported entirely by the local municipality. There is no special dispensary committee. It is managed by a sub-committee of the municipal commissioners, to whom the affairs of the dispensary are assigned. It was visited once by the Commissioner of the Division. The Civil Surgeon visited it almost daily. A civil hospital assistant was in charge, who received Rs. 65 per mensem, his grade pay, including the hill allowance of Rs. 10 from the municipality, and Rs. 25 monthly from Government for subordinate charge of civil station and police hospital, besides other allowances for extra charges. The total number of patients treated was 184 in and 5,290 out, against 186 and 5,382; the daily averages being 8 and 18 against 13 and 19 in 1884. The number of deaths during the year was 16, against 36 in the preceding year. The decrease in the number of deaths was mainly due to the class of cases treated on the whole being less severe than in 1884. Two major and 153 minor operations were performed. No deaths resulted from operation. The total expenditure was Rs. 2,620, of which Rs. 1,440 represent the cost of establishment, Rs. 274 were paid for English medicines obtained from Government stores, and Rs. 106 for bazar medicines. Dieting articles cost Rs. 405. The expenditure on miscellaneous items was Rs. 395. Government paid Rs. 8 for forms and

registers, municipality paid Rs. 1,261, subscriptions from Europeans was Rs. 1,251 and from natives Rs. 100.

*Kurseong* —A municipal dispensary in class II entirely supported by the municipality. There is no committee. The Assistant Commissioner in charge of the subdivision visits the dispensary very frequently, as does also the Civil Medical Officer, Dr. Haydon. It was visited twice by the Deputy Commissioner. The Civil Surgeon inspected the dispensary once during the year, and made the regular report upon it. A civil hospital assistant was in charge, who received his grade pay of Rs. 25 and hill allowance of Rs. 10 per mensem from the municipality, and Rs. 20 from Government on account of special allowance for attending on Government servants and for subsidiary jail. There were treated 44 in and 1,001 out-patients, against 47 and 1,069 in 1884. The daily averages were 2·56 and 8·25, against 2·19 and 8·10 respectively. The number of deaths was 5, against 13 in 1884. Nine major and thirty minor operations were performed. The total expenditure was Rs. 1,004, whereof Rs. 574 were expended on establishment. The cost of English medicines obtained from Government stores was Rs. 66 ; bazar medicines cost Rs. 20. The expenditure on diet was Rs. 70, on miscellaneous items Rs. 39, and on buildings or repairs Rs. 235. Government paid Rs. 41, viz. Rs. 5 for forms and registers and Rs. 36 for diet of police cases. Municipality paid Rs. 963, against Rs. 836 in 1884.

*Kalimpong.*— It is a class I dispensary entirely supported by Government. It is situated at a police outpost in the hill tracts. There is no committee. The Deputy Commissioner and Joint-Magistrate visited the dispensary twice. It was not visited by the Civil Surgeon owing to his being unable to leave the station. A civil hospital assistant was in charge, who received Rs. 55, viz grade pay for subdivision Rs. 20, hill allowance of Rs. 10, and dispensary allowance Rs. 10 per mensem from Government, also Rs. 25 for registering traffic. No in-patients. There were treated 2,990 out-patients, with a daily average of 8, against 2,625 and 7 in 1884. There were no surgical operations. The total expenditure was Rs. 500, of which Rs. 384 represent the cost of establishment, Rs. 16 of bazar medicines, Rs 15 of miscellaneous items, and Rs. 29 of buildings or repairs. Europe medicines obtained from Government stores cost Rs. 56.

*Silligoree.*—It is a class IIIA dispensary. It was formerly supported out of the "Estates Improvement Fund," but it is now kept up by the "One-anna Cess Fund." There is no committee of management. It was visited twice by the Deputy Commissioner, three times by the Assistant Commissioner, twice by the Civil Surgeon, and twice by the Civil Medical Officer, Kurseong. A civil hospital assistant was in charge, who received Rs. 25 for the subdivision and Rs. 10 for subsidiary jail from Government, and Rs. 10 for the dispensary from local funds. There were treated 113 in and 1,154 out-patients, against 80 and 809 in 1884. The daily averages were 3 and 11, against 3 and 6 respectively. Nine major and 30 minor operations were performed. The total expenditure was Rs. 948, whereof Government contributed Rs. 8 as cost of forms and registers. Establishment cost Rs. 490, Europe medicines cost Rs. 87. The expenditure on diet was Rs. 215, on bazar medicines Rs. 41, and on miscellaneous items Rs. 115. The income during the year was Rs. 940, received from local or other funds. At the end of the year, there was a cash balance of Rs. 25.

**Julpigoree district.**

The general health of the district during the year under review would compare unfavourably with previous years when we take into consideration the fact that without any general epidemic of cholera the mortality was 15,116, against 11,391 in 1884 and 10,818 in 1883. The increase of mortality is not attributed to an unhealthy year, but to a greater efficiency in registration, more attention being given to the subject. There were 265 deaths registered from cholera, against 205 in 1884 and 2,430 in 1883. There were at the end of the year four dispensaries in the district, the same as in the previous year. Two belonged to class IIIA and two to class IIIB. All the institutions were under the charge of civil hospital assistants. The dispensaries at Julpigoree, Titalyah, and Alipore treated both indoor and outdoor patients, and the one at Boda outdoor patients only. The number of patients treated was 349 in and 12,025 out, against 345 and 11,325 in the previous year ; the daily averages being 12 and 87, against 12 and 81 respectively. These figures, says the Civil Surgeon, may be accepted as correct. The Civil Surgeon reports that at Julpigoree there seems to be a fair amount of local interest evinced in the welfare of the dispensary by the Deputy Commissioner and the well-to-do natives of the station. The tea-planters also have the interest of the dispensary at heart. The managing bodies of Boda and Titalya dispensaries seem to take no interest in their respective charges. It appears, however, from the large number of attendance that the people are beginning to appreciate the value and benefit of western treatment.

*Julpigoree.*—A class IIIB dispensary governed by the Julpigoree municipality. Four meetings were held. The dispensary was visited twice by the Inspector-General of Civil Hospitals, Bengal, once by the Divisional Commissioner and the Deputy Commissioner. The Civil Surgeon visited it daily. A civil hospital assistant was in charge, who was paid Rs 55 from the municipality and Rs. 10 by the Government for attendance on the Normal School. There were treated 263 in and 5,654 out-patients, against 282 and 5,889. The daily averages were 8 and 34, against 9 and 33 respectively. The prevalent disease amongst the outdoor patients was fever, which was active in June and July. There were 51 deaths against 51 in 1884. The patients who died in hospital were for the most part picked up in a moribund condition ; others were admitted in an advanced state of disease. Twenty major operations were performed during the year. Minor

operations numbered 151. The total expenditure was Rs. 1,732, of which Rs. 1,037 represent the cost of establishment and Rs. 223 of Europe medicines, which were obtained from Government stores and by private purchase on indents checked by the Civil Surgeon. The cost of bazar medicines was Rs. 41, and of diet Rs. 278. The expenditure on buildings was Rs. 53, and on miscelleneous items Rs. 100. The income consisted of Rs. 709 paid by the municipality, and Rs. 224 and Rs. 804 realised as subscriptions from Europeans and natives respectively. Government gave Rs. 33, namely Rs. 5 for forms and registers and Rs. 28 for diet of police cases.

*Boda.*—A class IIIA dispensary under the management of a committee, which held seven meetings. The Civil Surgeon visited it once. A civil hospital assistant was in charge. There were treated 2,040 out-patients, with a daily average of 18, against 1,864 and 18 in 1884. No in-patients. Seventy-nine minor operations were performed; no major operations The total expenditure was Rs. 786, of which Rs. 508 were expended on es ablishment, Rs. 101 on Europe medicines, and Rs. 12 on bazar medicines. The expenditure on buildings was Rs. 134, and on miscellaneous items Rs. 31. The income from local or other funds was Rs. 134, and from subscriptions Rs. 610. Government contributed Rs. 3 in forms and registers.

*Titalyah.*—A class IIIA dispensary entirely supported by the Chaklajat estate of Cooch Behar and governed by a committee. It was visited once by the Deputy Commissioner and once by the District Superintendent of Police. The Civil Surgeon paid one visit. A civil hospital assistant was in charge, who received Rs. 25 per mensem from the Cooch Behar State. There were treated 54 in and 3,477 out-patients, against 47 and 3,006. The daily averages were 2·85 and 25, against 1·88 and 22 respectively. There were 10 deaths, or a rate of 18·5 per cent., against 7, or 14·89 per cent. in the previous year. There were 105 minor operations performed; no major operation. The total expenditure was Rs. 776, of which Rs. 504 represent the cost of establishment and Rs. 106 that of diet. The amount expended on bazar medicines was Rs. 60, and on miscellaneous items Rs. 33. The cost of Europe medicines obtained from Government stores was Rs. 73. Government contributed Rs 3 in forms and registers The amount of local subscriptions was Rs. 773.

*Alipore Buxa.*—The report was submitted by Surgeon-Major Wright, the Military Surgeon of Buxa, Bhootan, who was Superintendent of the dispensary and conducted the civil duties of the station. The dispensary is a class IIIB institution. A civil hospital assistant was in charge. There were treated 32 in and 854 out-patients, against 16 and 566 in 1884. The daily averages were 1·10 and 9·09, against ·60 and 5 respectively. Thirty minor operations were performed; no major operations. The institution was inspected thrice by the Civil Surgeon. The total expenditure was Rs. 558, of which Rs. 312 were expended on establishment, Rs 145 on Europe medicines, and Rs. 7 on bazar medicines. The cost of diet was Rs. 30. The expenditure on buildings was Rs. 21, and on miscellaneous items Rs. 26. Invested during the year Rs. 17. Government contributed Rs. 240 as pay of the civil hospital as sistant, Rs. 3 as cost of registers and forms, and Rs. 4 for diet of police cases. At the end of the year there was a cash balance of Rs. 30. The dispensary had an invested capital of Rs. 494 on the 31st December 1885.

## ORISSA DIVISION.

**Cuttack district.**

The Civil Surgeon says that the general health of the district during the year has been bad owing to the increase of cholera and fevers, especially in the latter half of the year. There has been greater sickness and mortality. The cyclonic gale which occurred on 22nd September 1885 was very destructive in the thanas of Aul, Pattamoondee, Kendrapara, Jajeporo, and Dhurmsallah. The loss of life among men and cattle and destruction of houses were great. Houses and trees that fell caused loss of life and many injuries. All food-supply in these parts was destroyed, and the drinking-water not only rendered brackish for the time, but contaminated by the bodies of the drowned, by fallen trees and other sources of impurity. The country has since been suffering from fever and dysentery, and cholera has been unusually prevalent in some parts. The heavy rain which accompanied the cyclone, and the subsequent overflow of rivers, damaged stored paddy, rice, and other eatables. This exposure and subsequent hardship have told on the health of the people in the increase of cholera and fever. In the thanas of Kendraparah, Aul, and Patamoondi, where the flood-wave occurred, fever and dysentery have appeared with considerable severity. To each of these localities a special hospital assistant was deputed, and medicines distributed through the police. The Deputy Sanitary Commissioner also visited the localities and afforded assistance. There were eight dispensaries in the district and in Tributary Estates. Of these, two were in class I, two in class II, one in class IIIA, and three in class IIIB. Two Assistant Surgeons and six civil hospital assistants were in charge. There were treated 883 in and 37,001 out-patients, against 1,034 and 40,430 in 1884; the daily averages being 57 and 302, against 66 and 324 respectively.

*Cuttack General Hospital.*—A class IIIB institution supported by the Unno-Chutter Fund and managed by a committee, which met twice during the year. A first-grade Assistant Surgeon was in charge, whose entire salary was paid by Government. The hospital was

visited daily by the Civil Surgeon, and oftener when necessary, and by the district officials on two occasions. His Honour the Lieutenant-Governor of Bengal paid a visit on the 20th November 1885. There were treated 637 in and 4,635 out-patients, against 666 and 5,261 in 1884; the daily averages being 45 and 25, against 50 and 29 respectively. The number of deaths in the hospital was 113, against 106 in 1884. Most of the cases of cholera were admitted from among pilgrims brought to hospital by the police. Sixty-six major and 228 minor operations were performed. Two deaths resulted after operation. The total expenditure was Rs. 8,436, of which Rs. 3,570 were the cost of establishment, Rs. 477 of English and Rs. 191 of country medicines. The expenditure on diet was Rs. 1,420, and on miscellaneous items Rs. 2,778. Government contributed Rs. 2,412, namely Rs. 2,400 as salaries and Rs. 12 as cost of forms and registers. Rs. 5,860 were obtained from Unno-Chutter Fund. Municipality paid nothing. The interest on investments was Rs. 42. There was a cash balance of Rs. 125 at the end of the year.

*Cuttack Branch Dispensary.*—A class IIIB outdoor institution managed by the municipal board, who discuss any question relating to it at their monthly meetings. Visited by the Civil Surgeon daily. The Chairman, Vice-Chairman, and the municipal commissioners are said to have frequently visited the institution. A civil hospital assistant was in charge. There were treated 11,749 out-patients, against 10,809 in 1884; the daily averages being 138 and 143 respectively. Thirty-eight major and 557 minor operations were performed. No deaths resulted after operation. The total expenditure was Rs. 1,180, whereof Rs. 635 were the cost of establishment, Rs. 219 of Europe medicines, and Rs. 106 of country medicines. The expenditure on buildings was Rs. 30, and on miscellaneous items Rs. 191. Government supplied forms and registers the value of which is eight annas. Municipality paid Rs. 1,180.

*Jajpore.*—A municipal dispensary in class II in charge of the civil hospital assistant of the subdivision. The Civil Surgeon inspected it three times during the year. The sub-divisional officer paid several visits. There were ten meetings of the committee during 1885. There were treated 35 in and 1,714 out-patients, against 46 and 2,685 in 1884; the daily averages being 1 and 31, against 1 and 32 respectively. The number of deaths was three among in-patients. Six major and 108 minor operations were performed. The total expenditure was Rs. 516, whereof Rs. 316 were the cost of establishment, Rs. 75 of Europe medicines, and Rs. 19 of bazar medicines. The cost of diet was Rs. 30. The expenditure on buildings was Rs. 28, and on miscellaneous items Rs. 48. Government paid Rs. 6 as cost of forms and registers. Rs. 30 were obtained from local funds. Municipality paid Rs. 480

*Kendraparah.*—A municipal dispensary in class II managed by the local municipality. Visited twice by the Civil Surgeon and several times by the subdivisional officer. Nine meetings were held by the municipal commissioners. The civil hospital assistant of the subdivision was in charge. There were treated 12 in and 2,500 out-patients, against 18 and 2,642 in 1884; the daily averages being ·39 and 26, against ·4 and 28 respectively. No deaths occurred among in-patients. Thirteen major and 117 minor operations were performed. No deaths followed any operation. The total expenditure was Rs. 882, of which Rs. 412 represent the cost of establishment, Rs. 170 of Europe medicines, and Rs. 24 of country medicines. The cost of diet was Rs. 8 The expenditure on buildings and repairs was Rs. 190, and on miscellaneous items Rs. 78. Government paid Rs. 5 as cost of forms and registers, and Rs 3 for diet of police cases. Municipality paid Rs. 635. Subscriptions from natives were Rs. 239.

*Dhurmsalah.*—A class IIIB dispensary under the management of a committee consisting of the same members as the Cuttack General Hospital committee, with the addition of the founder of the institution. The Civil Surgeon inspected it twice during the year. A civil hospital assistant was in charge. There were treated 114 in and 3,364 out-patients, against 144 and 4,052 in 1884; the daily averages being 4 and 32, against 5 and 37 respectively. Among in-patients 18 deaths occurred, against 20 in the previous year. Four hundred and fifty-six minor operations were performed; no major operation. The total expenditure was Rs. 1,344, whereof Rs. 792 represent the cost of establishment, Rs. 162 of Europe medicines, and Rs. 68 of country medicines. The cost of diet was Rs. 169. The expenditure on buildings was Rs. 101, and on miscellaneous items Rs. 52. Government paid Rs. 305, namely Rs. 300 as salaries and Rs. 5 in forms and registers. Subscriptions from natives were Rs. 1,250. There was a cash balance of Rs. 234 at the end of the year.

*Dhenkanal.*—A class IIIA institution entirely maintained by the Tributary Estate of Dhenkanal. The manager of the estate is said to look into all matters of importance affecting the dispensary under the orders of the Superintendent of the Tributary Mehals. There is no dispensary committee, as no resident members are available for the purpose. Beyond a few officials, there is no person of influence or education in the place. The Superintendent of the Tributary Mehals once visited the institution, and the Civil Surgeon twice. An Assistant Surgeon was in charge. There were treated 61 in and 7,503 out-patients, against 141 and 7,359 in 1884; the daily averages being 4 and 30, against 7 and 30 respectively. There were three deaths among the in-patients. Seven major and 163 minor operations were performed. No deaths resulted after operation. The total expenditure was Rs. 3.050, of which Rs. 2,428 represent the cost of establishment, Rs. 287 of Europe medicines, and Rs. 19 of bazar medicines. The cost of diet was Rs. 202. The expenditure on miscellaneous items was Rs. 114. Government paid Rs 9 as cost of forms and register. Rs. 3,041 were obtained from Dhenkanal estate.

*Ungul.*—A dispensary in class I entirely supported by Government. It is situated in the Government estate of Ungul. It is under the direct management of the tehsildar, subject to the Superintendent of Tributary Mehals. No committee can be formed, as resident members for the purpose are not available. It is situated about 60 miles west of Cuttack, on the Sumbulpore road, and is not easily accessible: hence the Civil Surgeon could not inspect it. The Superintendent of Tributary Mehals visited it once during the year. A civil hospital assistant was in charge. There were treated 24 in and 4,844 out-patients, against 19 and 5,371 in 1884; the daily averages being 1 and 12, against 1 and 16 respectively. One death occurred among in-patients. Eight major and 36 minor operations were performed. No deaths resulted after operation. The total expenditure was Rs 778, of which Rs. 504 was the cost of establishment, Rs. 134 of Europe medicines, and Rs. 48 of country medicines. The expenditure on diet was Rs. 44, on buildings Rs. 10, and on miscellaneous items Rs. 38.

*Bisipara.*—A dispensary in class I entirely supported by Government. It is situated in the Government Khond Mehal estate. It is about 125 miles from Cuttack, on the confines of the Madras presidency on the south and the Central Provinces on the west. Owing to its remoteness and inaccessibility by ordinary means, the Civil Surgeon has not been able to visit the place. A civil hospital assistant was in charge. The place is said to be malarious. There were treated 692 out-patients, against 2,251 in 1884; the daily averages being 4 and 6 respectively. The decrease in the number of out-patients is accounted for by the absence of the hospital assistant on sick leave. Four minor operations were performed; no major operation. The total expenditure was Rs. 638, of which Rs. 467 were the cost of establishment, Rs. 134 of Europe medicines, and Rs. 9 of bazar medicines The expenditure on buildings was Rs 18, and on miscellaneous items Rs. 10.

**Balasore district.**

The Civil Surgeon says the public health of the town and the district has been better than in the previous year. The total mortality was considerably less than that of the previous year. There were three charitable dispensaries in the district, all in class IIIB. In two both indoor and outdoor patients were treated, and in one only outdoor. There were treated 386 in and 6,774 out-patients, against 384 and 7,068 in 1884; the daily averages being 12 and 45, against 11 and 45 respectively. Three hospital assistants were in charge.

*Balasore Pilgrim Hospital.*—A class IIIB dispensary under the management of the local municipality. His Honour the Lieutenant-Governor paid a visit. The Commissioner of the Division visited it twice, and the Civil Surgeon daily. A civil hospital assistant was in charge, who received his grade pay from the municipality. There were treated 228 in and 1,654 out-patients, against 246 and 2,019 in 1884; the daily averages being 8 and 8, against 7 and 10 respectively. The death rate among in-patients was 22·36 per cent., against 17·88 in 1884 Ten major and 54 minor operations were performed. No deaths resulted after operation. The total expenditure was Rs. 5,949, whereof Rs 540 represent the cost of establishment, Rs. 135 of Europe medicines, and Rs. 20 of bazar medicines. The cost of diet was Rs 357. The expenditure on buildings was Rs. 1,412, and on miscellaneous items Rs. 940. Government paid Rs. 5 as cost of forms and registers. Municipality contributed Rs. 329. Rs. 966 were obtained from local funds, and Rs 207 as interest on investments. Subscriptions from Europeans and natives were Rs. 133 and Rs. 84 respectively. Rs. 1,648 were obtained by withdrawal of deposits. There was a cash balance of Rs. 129 and an invested capital of Rs. 3,436 at the end of the year.

*Bhuddruck.*—A class IIIB dispensary under the management of a committee, which met eight times during the year. Visited twice by the Civil Surgeon. A civil hospital assistant was in charge. There were treated 158 in and 2,389 out-patients, against 138 and 2,543 in 1884; the daily averages being 4 and 15, against the same numbers in the previous year. There were 27 deaths among in-patients. Twelve major and 98 minor operations were performed. The total expenditure was Rs. 1,554, whereof Rs. 917 represent the cost of establishment and Rs. 14 of country medicines. Europe medicines have not been purchased during the year, but the amount of Rs. 159 was paid in 1885 for medicines purchased in the previous year. The cost of diet was Rs. 736. The expenditure on miscellaneous items was Rs. 48. Government paid Rs. 726, namely Rs. 720 as salaries and Rs. 6 for forms and registers. Rs. 217 were obtained from local funds, Rs. 310 as interest on investments, and Rs. 230 by withdrawal of deposits. Subscriptions from Europeans and natives amounted to Rs. 16 and Rs. 208 respectively. There was a cash balance of Rs. 923 and an invested capital of Rs. 5,400 at the end of the year.

*Shamanund Dey's dispensary.*—A class IIIB dispensary managed by a committee, which held one meeting during the year. The Secretary, who is the son of the founder of the institution, attends to its wants. Visited frequently by the Civil Surgeon. A civil hospital assistant was in charge. There were treated 2,731 out-patients, against 2,506 in 1884; the daily averages being 22 and 20 respectively. No in-patients. One hundred and twenty-six minor operations were performed; no major operation. The total expenditure was Rs. 1,698, of which Rs. 474 represent the cost of establishment, Rs. 108 of Europe medicines, and Rs. 18 of bazar medicines. The expenditure on miscellaneous items was Rs. 1,098, viz. Rs. 18 as actual miscellaneous expenditure of the institution and Rs. 1,080 as the amount paid to zemindar as rent of the endowed estate. Government supplied forms and registers, the value of which was Rs. 3-9. Rs. 24 were obtained as interest on investments and Rs. 2,043 from local funds. The municipality paid Rs. 200. There was a cash balance of Rs. 635 at end of the year. The hospital has a capital of Rs. 6,500 invested in Government securities.

Pooree district.

The Civil Surgeon says that the public health of the district has been bad. Cholera and bowel-complaints were more prevalent and fatal than in 1884. There were three dispensaries in the district—one in class I, one in class II, and the third, in class IIIB, all of which received both indoor and outdoor patients. There were treated 719 in and 10,956 out-patients, against 692 and 12,433 in 1884; the daily averages being 22 and 66, against 21 and 69 respectively. The Civil Surgeon says that the means taken to verify the statistics was by personal inspection of the figures of the registers and returns, which are regarded to be reliable. All the dispensaries were in charge of civil hospital assistants. The managing bodies of the Pooree and Piplee dispensaries are said to take considerable interest in the working of the institutions. At Khoorda the committee met very irregularly owing to the members of it having been away in the interior on duty from time to time, and in consequence it has not been possible to get together a quorum as often as is required. As a rule it is the poorer classes who appreciate the relief afforded by these charities, but among the pilgrim sufferers the Civil Surgeon has noticed that patients of a class superior to the ordinary class of the local patients have applied for relief.

*Pooree.*—A class II dispensary managed by the local municipality, which held 12 meetings during the year. Visited once by the Commissioner of the Division and three times by the District Magistrate. The Civil Surgeon visited it daily, and during periods of much sickness twice, and occasionally three times, in the 24 hours. His Honour the Lieutenant-Governor visited it once on the occasion of his late visit to Pooree. There were treated 487 in and 3,104 out-patients, against 465 and 4,035 in 1884; the daily averages being 16 and 25, against 15 and 28 respectively. There were 202 deaths among in-patients, against 152 in 1884. Nineteen major and 149 minor operations were performed. One death resulted after operation. The total expenditure was Rs. 2,547, of which Rs. 1,176 were the cost of establishment, Rs. 237 of Europe medicines, instruments, and appliances, and Rs. 98 of bazar medicines. The cost of diet was Rs. 555. The expenditure on buildings was Rs. 121, and on miscellaneous items Rs. 360. Government paid Rs. 125, namely Rs. 4 as cost of forms and registers and Rs. 121 as special allowance in the shape of repairs to buildings. Municipality paid Rs. 2,422.

*Piplee.*—A class IIIB dispensary under the management of the Pooree Lodging-house Committee, which met 12 times during the year. Visited four times each by the District Magistrate and the Civil Surgeon. There were treated 116 in and 1,900 out-patients, against 138 and 1,749 in 1884; the daily averages being 2 and 20, against 3 and 18 respectively. There were 29 deaths among in-patients, against 37 in 1884. One major and 120 minor operations were performed. The total expenditure was Rs. 1,265, of which Rs. 828 were the cost of establishment, Rs. 155 of Europe medicines and Rs. 34 of bazar medicines. The cost of diet was Rs. 95. The expenditure on buildings was Rs 106, and on miscellaneous items Rs. 47. Government paid Rs. 303, namely Rs. 300 as salaries and Rs. 3 as cost of forms and registers. Rs. 962 were obtained from local funds.

*Khoordah.*—A class I dispensary entirely supported by Government. It is under the management of a local committee, which met four times during the year. Visited twice by the District Magistrate and four times by the Civil Medical Officer. A civil hospital assistant was in charge. There were treated 116 in and 5,952 out-patients, against 89 and 6,649 in 1884; the daily averages being 3 and 21, against 2 and 22 respectively. There were eight deaths among in-patients, or a rate of 6·89 per cent., against 8 or 8·98 in 1884. Four major and 203 minor operations were performed. No deaths resulted after operation. The total expenditure was Rs. 609, of which Rs. 323 represent the cost of establishment, Rs. 66 of Europe medicines, and Rs. 54 of bazar medicines. The expenditure on diet was Rs. 106, and on miscellaneous items Rs. 60.

## DACCA DIVISION.

Dacca district.

With regard to the public health of the district, the Civil Surgeon says that the year 1885 must be regarded on the whole a healthier one generally than the preceding year. There were nine dispensaries at the end of the year, of which two belonged to class II, five to class IIIA, and two to class IIIB. Excepting the Mitford Hospital at Dacca, which was under the charge of an apothecary, and the dispensary at Maluchi, which was under that of an Assistant Surgeon, all the dispensaries were in charge of civil hospital assistants. The Mitford Hospital and the dispensaries at Joydebpore, Moonshigunge, Naraingunge, and Maluchi receive both indoor and outdoor patients; the rest outdoor patients only. There were treated 2,274 in and 40,505 out-patients, against 2,266 and 41,387 in 1884. The daily averages were 108 and 241, against 106 and 262 respectively. Two of these dispensaries are managed by municipalities, and the rest (seven) by private committees. Regarding the interest taken in these institutions by the governing bodies, the Civil Surgeon says it is in most cases purely nominal. The exceptions were at Moonshigunge and Maluchi. At these the committees are interested and energetic. Joydebpore and Baliati are really private dispensaries managed by the individual who supplies the funds. Bhagyakul is of the same nature, but the donors of the fund take no real interest in it, but leave the management entirely in the hands of the civil hospital assistant.

*Mitford Hospital.*—A municipal hospital in class II. The Dacca municipality control its affairs at the monthly meetings. It was visited once by the Commissioner of the Division and once by the Inspector-General of Civil Hospitals. The Civil Surgeon, who is responsible

for its general management and checks all bills and supplies, visited the hospital daily. First-grade Apothecary G. H. Campbell continued in charge. He was assisted in his work by the teachers of the medical school, two civil hospital assistants permanently attached to the hospital, and by the supernumerary Assistant Surgeons and civil hospital assistants who were attached to it. There were treated 2,053 in and 17,163 out-patients, against 1,971 and 17,787 in 1884. The daily averages were 99 and 109, against 95 and 115 respectively. There are altogether 104 beds for male patients and 24 beds in a separate ward for female patients. The number of deaths among in-patients was 279, or a rate of 13·58 per cent. of the total treated, against 279 and 14·15 in the previous year. The number of major operations performed was 192, against 161 in 1884. Of these 37 were performed by the Superintendent and 157 by the medical subordinates. Only 16 deaths resulted from these operations, or 8 per cent., against 7 in the previous year. Minor operations numbered 2,355. The total income of the hospital during the year, including Government contribution for registers and forms, was Rs. 24,800, of which the municipality paid Rs. 9,821. The total expenditure was Rs. 24,800, whereof Rs. 8,670 represent the cost of establishment. The cost of Europe medicines was Rs. 1,778, and of bazar medicines Rs. 84. The expenditure on diet was Rs. 5,342, on miscellaneous items Rs. 1,544, on buildings or repairs Rs. 282, and Rs. 7,100 were invested during the year. There was an invested capital of Rs. 1,76,900 at the end of the year.

*Naraingunge.*—This is a class II dispensary entirely supported by the municipality. Its affairs are considered at the ordinary monthly meetings of the municipal commissioners. Visited once by the Magistrate, once by the Commissioner, and twice by the Civil Surgeon. A civil hospital Assistant was in charge. There were treated 69 in and 4,472 out-patients, against 90 and 4,386 in 1884. The daily averages were 2·29 and 20·83, against 2·83 and 22 respectively. The number of deaths among in-patients was 16, or a rate of 23·18 per cent. Nine major and 317 minor operations were performed. The total expenditure was Rs. 1,003, of which Rs. 747 represent the cost of establishment. The cost of Europe medicines was Rs. 97, and of bazar medicines Rs. 56. The expenditure on diet was Rs. 62, on miscellaneous items Rs. 38, and on buildings or repairs Rs. 3. Government contributed 13 annas for forms and registers. The Naraingunge municipality paid Rs. 1,002.

*Moonsheegunge.*—This is a class IIIA subdivisional dispensary under the management of a committee, which met four times during the year. It was visited once by the Magistrate, three times by the subdivisional officer, and twice by the Civil Surgeon. The civil hospital assistant in charge of the subdivision was in charge, and received Rs. 20 monthly from the dispensary funds in addition to Rs. 25 for subdivision and Rs. 10 for lock-up from Government. There were treated 18 in and 2,996 out-patients, against 3 and 2,812 in 1884. The daily averages were ·35 and 15, against ·16 and 13 respectively. There were two deaths among in-patients, or a death-rate of 11·1 per cent. There were 9 major and 346 minor operations performed. The total expenditure was Rs. 408, of which Rs. 288 represent the cost of establishment, Rs. 66 of Europe medicines, and Rs. 16 of bazar medicines. The amount expended on buildings or repairs was Rs. 6, on miscellaneous items Rs. 21. Rs. 11 were invested during the year. The cost of forms obtained from Government was Rs. 2-8-1, Rs. 43 were obtained from local funds, Rs. 11 as interest on investments, Rs. 113 from deposits withdrawn, and Rs. 207 as subscriptions from natives. The dispensary had an invested capital of Rs. 238 at the end of the year.

*Manickgunge.*—A class IIIA subdivisional dispensary under the management of a committee, which met once during the year. Visited four times by the Magistrate of the district and twice by the Civil Surgeon. A civil hospital assistant was in charge, who was paid Rs. 10 per mensem from the dispensary fund. The number of out-patients was 2,184, against Rs. 2,254 in 1884; the daily average was 19, against 21. No in-patients. Malarious fevers were the prevailing diseases. One hundred and seventy-one minor operations were performed; no major operation. The total expenditure was Rs. 265, of which Rs. 205 were the cost of establishment, Rs. 20 of Europe medicines, and Rs. 11 of bazar medicines. The expenditure on buildings was Rs. 9, and on miscellaneous items Rs. 8. Rs. 12 were invested during the year. Government contributed forms and registers, the cost of which was 9 annas and 6 pie. Rs. 12 were obtained from interest on investments, and Rs. 293 subscriptions from natives. There was a cash balance of Rs. 40 and an invested capital of Rs. 329 at the end of the year.

*Maluchi.*—A class IIIA dispensary supported by an estate and managed by a committee, which met 12 times during the year. It was visited once by the Magistrate and once by the subdivisional officer of Manickgunge. The Civil Surgeon inspected it twice. An Assistant-Surgeon was in charge, who received Rs. 150 per mensem from the dispensary funds, being promoted to the second grade. There were treated 93 in and 2,581 out-patients, against 164 and 2,917 in 1884. The daily averages were 5 and 13, against 6 and 14 respectively. The decrease in the number of in-patients is owing to the establishment being reduced by the reduction in the number of beds for in-patients from 12 to 8. The diminution in the number of out-patients is attributable to improved public health. The number of deaths among in-patients was seven. There were 11 major and 67 minor operations performed. The total expenditure was Rs. 2,896, whereof Rs. 1,828 was the cost of establishment, Rs. 188 of Europe medicines, and Rs. 19 of bazar medicines. Diet cost Rs. 218. The expenditure on miscellaneous items was Rs. 44, and on building or repairs Rs. 12. Rs. 587 were invested

during the year. The cost of forms received from Government was 14 annas. There was a cash balance of Rs. 141, and an invested capital of Rs. 587 at the end of the year.

*Joydebpore.*—This is a class IIIA dispensary entirely supported by Kumar Rajendra Narain Roy Chowdhuri, of Bhawal. There was only one meeting of the committee, but both the Kumar and his manager take considerable personal interest in its affairs. It was inspected twice by the Civil Surgeon. A civil hospital assistant was in charge, who received Rs. 60 per mensem from the dispensary funds. There were treated 40 in and 2,597 out-patients, against 38 and 2,806 in 1884. The daily averages were 1·42 and 13·97 against 1·19 and 15 respectively. There were three deaths among indoor patients. Malarious fevers, skin diseases, and rheumatism were the prevailing diseases. Six major and 187 minor operations were performed. The total expenditure was Rs. 1,162, of which Rs. 944 was the cost of establishment, Rs. 65 of Europe medicines, and Rs. 15 of bazar medicines. The expenditure on diet was Rs. 85, and on miscellaneous items Rs. 53. Government paid Rs. 2 as cost of registers and forms.

*Bhagyakul.*—A class IIIA dispensary. A nominal committee existed, which did not meet for several years, but towards the close of the year a new committee was formed, which held one meeting. The affairs of the dispensary therefore continued practically, as before, in the hands of the civil hospital assistant. It was inspected twice by the Civil Surgeon. There were treated 3,210 out-patients, with a daily average of 14, against 2,959 and 14 in 1884. No in-patients. Seven major and 207 minor operations were performed. The total expenditure was Rs. 672, whereof Rs. 504 represent the cost of establishment, Rs. 93 of Europe medicines, and Rs. 19 of bazar medicines. The expenditure on miscellaneous items was Rs. 41, and on buildings or repairs Rs. 15. Government contributed forms and registers at a cost of annas 6, and Rs. 680 were obtained as subscriptions from natives. There was a cash balance of Rs. 8 at the end of the year.

*Joinshar.*—It is a class IIIB institution managed by a committee, which never met during 1885. It was visited twice by the Civil Surgeon. A civil hospital assistant was in charge, who received Rs. 25 per mensem—half from Government and half from the dispensary funds. There were no in-patients; 1,658 out-patients were treated, with a daily average of 10, against 2,137 and 19 in 1884. Six major and 319 minor operations were performed. The total expenditure was Rs. 502, whereof Rs. 336 represent the cost of establishment, Rs. 44 of Europe medicines, and Rs. 17 of bazar medicines. The expenditure on miscellaneous items, inclusive of cost of forms, was Rs. 45, and on buildings Rs. 60. Government contributed Rs. 151, namely Rs. 150 as salaries and Re. 1 for forms and registers. The dispensary had an income of Rs. 277 from native subscriptions, and Rs. 74 were obtained from land rent.

*Boliati.*—This is also a class IIIB institution under the management of a committee which never meets. It is actually managed by the Secretary, who pays all the expenses except the half pay of the medical subordinate, which is paid by Government. It was inspected once by the Civil Surgeon. Besides the civil hospital assistant, who gets Rs. 27-8 monthly, there is a compounder on Rs. 8, a dresser on Rs. 3, and a coolie on Rs. 3. There was one in-patient and 3,644 out-patients, with the daily averages of ·01 and 23·18, against 3,329 out-patients, with a daily average of 24 in 1884. There were no in-patients treated during 1884. Nearly 30 per cent. of the patients were suffering from goitre, which is endemic in this part of the district. There were no major, but 143 minor operations were performed. The total expenditure was Rs. 605, of which Rs. 528 represent the cost of establishment. The cost of Europe medicines was Rs. 39, and of bazar medicines Rs. 15, and the expenditure on miscellaneous items was Rs. 23. Government contributed Rs. 152, namely Rs. 150 as half pay of the hospital assistant and Rs. 2 as cost of forms and registers. The income from native subscriptions was Rs. 480. There was a cash balance of Rs. 198 at the end of the year.

Furreedpore district.

The general health of the district during the year under report, says the Assistant Surgeon in civil medical charge of Furreedpore, was on the whole much better than during the previous year. The total number of registered deaths was 25,484, or a rate of 15·61 per 1,000 of population, against 31,145 and 19·0 in 1884. Fever and cholera were the prevalent diseases in the district during the year. There were four dispensaries at the close of the year, against three of the preceding year; the dispensary at Lonesingh having been opened on the 25th February 1885 (Bengal Government letter No. 575, dated 25th February 1885). Of these four dispensaries, two belonged to class II, one to class IIIB, and one to class IIIA. The third, or the dispensary at Goalundo, was under the superintendence of a civil medical officer of its own, who submitted a separate report. The dispensaries at Furreedpore and Goalundo were in charge of civil hospital assistants, at Madaripore under a third-grade Assistant Surgeon, and that at Lonesingh under a native doctor. Of these three received both indoor and outdoor patients, and the one at Lonesingh received outdoor patients only. There were treated 491 in and 12,960 out-patients, against 619 and 9,956 in 1884. The daily averages were 19 and 59, against 22 and 48 respectively. The civil medical officer of Goalundo says that he sees no reason to question the accuracy of the figures. The managing bodies of the Furreedpore and Madaripore dispensaries appear to have taken interest in their institutions. The founder and the sole manager of the Lonesingh dispensary took interest for the welfare of the institution during the first year of its existence or rather revival. From the facts as elicited by the figures, says the

Assistant Surgeon in civil medical charge that he cannot say that the dispensaries are much appreciated by the people for whom they are intended.

*Furreedpore.*—This is a municipal dispensary, and is in class II. It was visited once by the District Magistrate and daily by the Civil Surgeon and the Assistant Surgeon in civil medical charge, and from time to time by the municipal commissioners. A civil hospital assistant was in charge, who was paid Rs. 30 per month by the municipality. There were treated 218 in and 5,292 out-patients, against 231 and 5,124 in 1884. The daily averages were 10 and 22, against 10 and 20 respectively. There were 15 deaths among in-patients, or 6·8 per cent., against 18 and 7·7 in the previous year. Twenty-one major and 113 minor operations were performed. One death resulted after operation. The total expenditure was Rs. 1,663, of which Rs. 616 represent the cost of establishment, Rs. 138 of Europe medicines, and Rs. 88 of bazar medicines. The expenditure on diet was Rs. 361. The cost of buildings was Rs. 326, and on miscellaneous items Rs. 134. Government contributed Rs. 182 for diet of police cases. Municipality paid Rs. 1,192, against Rs. 1,058 in 1884. Subscriptions from Europeans were Rs. 150, and from natives Rs. 139.

*Madaripore.*—It is a municipal dispensary in class II. Visited once by the Commissioner of the Division, twice by the District Magistrate, and three times by the subdivisional officer. The Civil Surgeon and the Assistant Surgeon in civil medical charge paid two visits during the year. A third-grade Assistant Surgeon was in charge, who received his grade pay, Rs. 100, from Government for the subdivision, Rs. 20 for executive charge of the subsidiary jail, and Rs. 20 from the municipality for the dispensary. There were treated 91 in and 2,795 out-patients, against 111 and 3,197 in 1884. The daily averages were 2 and 7, against 2 and 8 respectively. There was one death among in-patients, or a rate of 1·09, against 5 and 4·5 in the previous year. Two major and 130 minor operations were performed. No deaths resulted after operation. The total expenditure was Rs. 593, whereof Rs. 348 represent the cost of establishment. The expenditure on Europe medicines was Rs. 63, and on bazar medicines Rs 42. The cost of diet was Rs. 18, and on miscellaneous items Rs. 35. Rs. 87 were expended on buildings. Government contributed Rs. 17 for diet of police cases. Municipality paid Rs. 480, against Rs. 332 in 1884. Subscriptions from natives were Rs. 96.

*Goalundo.*—A class IIIB dispensary under the management of a committee, which met three times during the year. It was visited once by the District Magistrate and several times by the subdivisional officer and the Civil Medical Officer, who was the superintendent of the dispensary. A civil hospital assistant was in charge, who received his grade pay, Rs. 25, from the dispensary funds, Rs. 30 from the labour transport funds, and Rs. 10 from Government for the lock-up. There were treated 182 in and 2,020 out-patients, against 277 and 1,635 in 1884; the daily averages being 7 and 21, against 9 and 19 respectively. It is observable that while there was a very considerable falling off in the number of in-patients, this was the result almost entirely of the comparatively small number of cholera cases amongst emigrants. There were 37 deaths among in-patients. The Civil Medical Officer says that no statistical information is available, and he is therefore unable to give any opinion; but so far as he is personally aware, he should say that there was an improvement upon the previous year's public health so far as cholera was concerned. There appears, however, to have been more malarious fever, which probably resulted from the effects of the inundation, which was unusually high and far-reaching. Malarious fever was the prevalent disease. Four major and 101 minor operations were performed. One death resulted after operation. The total expenditure was Rs. 1,415, whereof Rs. 773 was the cost of establishment. No Europe medicines were purchased during the year: hence no charge was made under that head. The cost of bazar medicines was Rs. 43. Dieting articles cost Rs. 247. The expenditure on buildings was Rs. 74, and on miscellaneous items Rs. 148. Government paid Rs. 47, namely Rs. 40 for diet of police cases and Rs. 7 for forms and registers. Municipality paid Rs. 221, against Rs. 260 in 1884. Rs. 12 were obtained from local funds, Rs. 16 as interest on investments, and Rs. 50 were obtained by withdrawal of deposits. Subscriptions from Europeans and natives were Rs. 428 and Rs. 457 respectively. Rs. 130 were invested during the year. The dispensary had an invested capital of Rs. 434 and a cash balance of Rs. 76 at the end of the year.

*Lonesingh.*—This is a dispensary in class IIIA. It was sanctioned in Bengal Government No. 575, dated 25th February 1885. It is under the management of its proprietor. There is no dispensary committee. No visits were paid by any of the civil officers, nor was it inspected by the Civil Surgeon or the Assistant Surgeon in civil medical charge of the district. A native doctor was in charge. There were treated 2,853 out-patients, with a daily average of seven. No in-door patients. Four major and 138 minor operations were performed. No deaths resulted after operation. The total expenditure was Rs. 360, whereof Rs. 234 represent the cost of establishment, Rs. 44 of Europe medicines, and Rs. 5 of bazar medicines. The expenditure on buildings was Rs. 66, and on miscellaneous items Rs. 11.

Backergunge district.

The public health of the district during the year under report was better than in 1884, and on the whole the year may be considered to have been a fairly healthy one; the total death-rate for the district being 24·16 per 1,000, against 27·78. No epidemic appeared in any part of the district. Endemic cholera prevailed, but never assumed an epidemic form. The total number of dispensaries working in the Backergunge district at

the end of the year was four, namely Burrisal, Perozepore, Bhola, and Patuakhally. One was in class II, one in class IIIA, and two in class IIIB. Three received both indoor and outdoor patients; Patuakhally dispensary received outdoor patients only. Three were managed by private committees, and one by the municipality. There were treated 331 in and 17,653 out-patients, against 358 and 15,673 in 1884; the daily averages being 13 and 185, against 15 and 74 respectively. The dispensary at Burrisal was in charge of an Assistant Surgeon; the other three under that of civil hospital assistants. The interest taken by the managing bodies, the Civil Surgeon says, is more lively, and on the whole the municipal commissioners and members of the committee generally take more interest. The dispensaries are said to be appreciated by the mass of the people.

*Burrisal.*—It is a municipal dispensary in class II. Visited twice by the Commissioner five times by the District Magistrate, and almost daily by the Civil Surgeon. A second-grade Assistant Surgeon was in charge, whose salary of Rs. 150 per mensem was paid by the municipality. There were treated 253 in and 7,791 out-patients, against 302 and 6,659 in 1884. The daily averages were 9 and 38, against 13 and 26 respectively. There were 26 deaths, or a rate of 10·2 per cent., against 24 and 7·9 in the preceding year. This high death-rate is due to many patients being brought to the dispensary in a moribund condition, and several wounded persons were also admitted to hospital, out of which three died of blood-poisoning. Thirty-six major and 296 minor operations were performed. The total expenditure was Rs. 3,884, of which Rs. 2,146 was the cost of establishment, Rs. 38 of Europe medicines, and Rs. 123 of bazar medicines. The cost of dieting articles was Rs. 346. The expenditure on buildings or repairs was Rs. 1,065, and on miscellaneous items Rs. 166. Government contributed Rs. 10 for forms and registers. The municipality paid Rs. 1,330. The income from local or other sources was Rs. 113. from interest Rs. 1,014, and subscriptions from Europeans Rs. 225 and natives Rs. 1,192. There was an invested capital of Rs. 4,307 at the end of the year.

*Perozepore.*—This is a class IIIB institution managed by a committee, which met four times during the year. Visited once by the Commissioner of the Division, twice by the Magistrate, and very frequently by the subdivisional officer. The Civil Surgeon visited it four times. A civil hospital assistant was in charge. There were treated 30 in and 3,398 out-patients, against 22 and 2,823 in 1884. The daily averages were 1 and 15, against the same numbers in the previous year. One hundred and one minor operations were performed; no major operation. The total expenditure was Rs 403, whereof Rs. 240 was the cost of establishment. Bazar medicines were obtained at a cost of Rs. 41. The cost of Europe medicines was Rs. 63. Miscellaneous items cost Rs. 11, and repairs and buildings Rs. 48. Government paid Rs. 3 for forms and registers. Municipality paid Rs. 120. Native subscriptions amounted to Rs. 198, and Rs. 85 were obtained from local or other funds There was a cash balance of Rs. 2 at the end of the year.

*Bhola.*—It is also a class IIIB dispensary governed by a committee, presided over by the subdivisional officer. There were four meetings during the year. It was visited by the Commissioner, the District Magistrate, and frequently by the subdivisional officer. The Civil Surgeon made three inspections. The civil hospital assistant of the subdivision was in charge, who received Rs. 45 in all, namely Rs 25 for the charge of the subdivision, Rs. 10 for executive charge of the subsidiary jail, and Rs. 10 for the dispensary. There were treated 48 in and 4,727 out-patients, against 34 and 5,435 in 1884; the daily averages being 1 and 20, against 1 and 23 respectively. There was one death among in-patients. Six major and 146 minor operations were performed. The total expenditure was Rs. 602, whereof Rs. 308 represent the cost of establishment, Rs. 140 of Europe medicines, and Rs. 14 of bazar medicines. Diet cost Re. 1. Rs. 25 represent the cost on miscellaneous items. Rs. 30 were expended on buildings and repairs, and Rs. 84 were invested during the year. Government paid Rs. 120 as salaries and Rs. 2 for forms and registers. Rs. 60 were obtained from local or other funds. Interest on investments amounted to Rs. 104, and subscriptions from natives Rs. 246. There was a cash balance of Rs. 24 and an invested capital of Rs. 2,800 at the end of the year.

*Patuakhally.*—This is a dispensary in class IIIA. It is under the management of a committee presided over by the subdivisional officer. Eleven meetings were held during the year. It was visited once by the Commissioner of the Division and by the Magistrate of the district, and three times by the Civil Surgeon The civil hospital assistant of the subdivision was in charge, who received Rs. 10 per mensem from the dispensary fund. There were treated 1,767 out-patients, with a daily average of 111 against 756 and nine in 1884. Forty-one minor operations were performed; no major operation. The total expenditure was Rs. 1,277, whereof Rs. 267 represent the cost of establishment. Europe medicines were obtained at a cost of Rs. 29. Bazar medicines cost Rs. 23. The expenditure on buildings was Rs. 851, and on miscellaneous items Rs. 107. Government paid Rs. 2 for forms and registers, and Rs. 828 were obtained from local or other funds. Subscriptions from natives amounted to Rs. 345. There was a cash balance of Rs. 79 at the end of the year.

*Mymensingh district.*

The public health of the district in 1885 on the whole compared favourably with that of the previous year. The Civil Surgeon says, there was much less cholera, and, he believes, not more fever, though the mortuary returns show an increase under the latter. The increase, however, Dr. Clarke believes, was due to better registration. There were 13 dispensaries at work at the end of the year. Of the 13 dispensaries, five were in class II and eight in class IIIA. Five were managed by municipalities, two by private persons, and the rest (six) by private committees. With the exception of Jamalpore, the Civil Surgeon

says the managing bodies have shown considerable interest in their dispensaries, which are appreciated by the people. The dispensaries at Mymensingh, Sherepore, Tangail, Hybutnugger (Kishoregunge), Netrokona, and Jamalpore treat indoor and outdoor patients; the rest are outdoor institutions. Three dispensaries, viz. Mymensingh, Tangail, and Hybutnugger (Kishoregunge), were in charge of Assistant Surgeons. Jamurki was in charge of a private native doctor, and all the others were in charge of civil hospital assistants. The total number of patients treated was 623 in and 32,413 out, against 485 and 33,059 in 1884; the daily averages being 20·74 and 230·15, against 20·9 and 281·6 respectively. The Civil Surgeon visited all the dispensaries except Jamurki and Jhawail: Mymensingh frequently, Ramgopalpore and Nitrokona three times, Sherepore, Hybutnugger, Jamalpore, and Ambari twice, Mucktagacha five times; the rest only once during the year.

*Mymensingh.*—It is a municipal dispensary in class II managed by the local municipality. Visited by the district officer and the Civil Surgeon daily. An Assistant Surgeon was in charge, who received Rs. 120 monthly from the municipality. There were treated 295 in and 4,139 out-patients, against 227 and 4,390 in 1884; the daily averages being 8 and 29, against 9 and 37 respectively. Fifty deaths among in-patients, or a rate of 16·94 per cent., against 35 and 15·4 in the previous year. Eight of these died from injuries received during the fire in bazar in March. The prevailing diseases were malarious fever, rheumatic and syphilitic affections, ulcers, gonorrhœa, and goitre. Twenty-four major and 279 minor operations were performed. Two deaths resulted after operation. The total expenditure was Rs. 5,719, of which Rs. 2,018 were the cost of establishment. The expenditure on Europe medicines was Rs. 198, on bazar medicines Rs. 43, on diet Rs. 282, and on buildings Rs. 974. The amount spent on miscellaneous items was Rs. 204. Government contributed Rs. 40, namely Rs. 5 as cost of forms and registers and Rs 35 for diet of police cases. Municipality paid Rs. 1,699, and the amounts received as subscriptions from Europeans and natives were Rs. 187 and Rs. 1,038 respectively, and Rs. 755 were received as interest on investments. Rs. 2,000 were obtained by sale of securities. The total invested capital of the dispensary at the end of the year was Rs. 15,104.

*Sherepore.*—It is a class II municipal dispensary under the management of municipal commissioners, who held no meetings during the year. No visits were paid by civil officers of the Division or district. The Civil Surgeon inspected it twice. A civil hospital assistant was in charge. There were treated 30 in and 3,886 out-patients, against 2,747 out-patients in 1884. The daily averages were ·64 and 22, against 35 (out-patients) respectively. Seven major and 66 minor operations were performed. No deaths resulted after operation. The total expenditure was Rs. 693, of which Rs. 516 was the cost of establishment. Country medicines cost Rs. 27. The expenditure on buildings was Rs. 22, on diet Rs. 13, and on miscellaneous items Rs. 115. Government paid Rs. 4 as cost of forms and registers. Municipality paid Rs. 238, against Rs. 455 in 1884. The income from native subscriptions was Rs. 126. Rs. 325 were received by withdrawal of deposits. Sherepore continues to be gradually improving in its sanitary conditions.

*Ramgopalpore.*—A class IIIA dispensary under the management of a committee, who held no meetings during the year. Visited three times by the Civil Surgeon. It was not visited by any of the civil officers. The dispensary was in a temporary hut near the founder's house, as reported in 1884. Afterwards it was removed to the gate building of Baboo Kasikishore Rai Chowdry, the founder and supporter of the dispensary. It now occupies two rooms, one smaller and the other a little more spacious. The smaller one is used for keeping medicines, and the larger one for official purposes, operations, and waiting-room for the patients. It has a verandah facing to the east. The walls are white-washed, and new pannels are added to the doors; therefore the rooms are well protected. Consequently this is the most suitable place for the dispensary until the proposed new dispensary building is being constructed. A civil hospital assistant was in charge, who was paid Rs. 30 per mensem. There was a minor establishment, consisting of a compounder on Rs. 10 and a sweeper on Rs. 5 a month. There were treated 2,408 out-patients, with a daily average of 16, against 2,640 and 20 in 1884. The civil hospital assistant accounted for the diminution in number by the better state of health of his part of the district during the year. The prevailing diseases were malarious fever and goitre. Two major—both dislocations—and 182 minor operations were performed. The total expenditure was Rs. 996, whereof Rs. 594 represent the cost of establishment and Rs. 21 of bazar medicines. The expenditure on miscellaneous items was Rs. 46. English medicines to the value of Rs. 316 were obtained from private druggists. Government paid Rs. 4-8 for forms and registers. Rs. 972 were obtained by withdrawal of deposits, and Rs. 19 were derived as interest on investments. The dispensary had an invested capital of Rs. 518 at the end of the year.

*Tangail.*—A class IIIA dispensary under the management of a local committee, which met six times during the year. Visited twice by the Commissioner of the Division, once by the District Magistrate, and three times by the subdivisional officer. The Civil Surgeon inspected it once. An Assistant Surgeon was in charge, who received Rs. 120 per mensem. There were treated 149 in and 3,443 out-patients, against 164 and 3,192 in 1884; the daily averages being 6 and 26, against 6 and 22 respectively. There were 11 deaths among in-patients, against 17 in the previous year. The prevailing diseases were malarious fever, bowel-complaints, and goitre. Five major and 97 minor operations were

performed. No deaths resulted after operation. The total expenditure was Rs. 2,408, of which Rs. 1,871 represent the cost of establishment, Rs. 177 of Europe and Rs. 26 of bazar medicines. The cost of diet was Rs. 192. The expenditure on buildings was Rs. 63, and on miscellaneous items Rs. 80. Government paid Rs. 4-12 for forms and registers, Rs. 2 were obtained from local funds. The expenses of the institution were met from subscriptions from natives, which amounted to Rs. 2,302. There was a cash balance of Rs. 56 at the end of the year.

*Jamurki.*—A class IIIA dispensary managed by the agent of the supporter, Nawab Ashanullah of Dacca. Visited once by the subdivisional officer. The Civil Surgeon paid no visits during the year. A private native doctor was in charge. Three thousand and eighty-six outdoor patients were treated, against 2,985 in 1884, with a daily average of 15, against 14 in the previous year. Goitre, malarious fever, and bowel-complaints were the prevailing diseases. One major and 203 minor operations were performed. The total expenditure was Rs. 1,057, whereof Rs. 803 represent the cost of establishment, Rs. 120 of Europe medicines, and Rs. 11 of bazar medicines. The expenditure on buildings was Rs. 78, and on miscellaneous items Rs. 45. Government paid Rs. 3 as cost of forms and registers.

*Jhawail.*—This is also a class IIIA dispensary under the management of the representative of Raja Jotendra Narain Rai, of Putia, Rajshahye. No visits were paid by the Civil Surgeon during the year. The dispensary building is under construction. A civil hospital assistant was in charge, who received Rs. 30 a month. There was no outbreak of any epidemic diseases during the year. There were treated 2,022 out-patients, against 1,642 in 1884, with a daily average of 25, against 21. No in-patients. The prevailing diseases were malarious fever, bronchitis, rheumatism, and goitre. One hundred and eighteen minor operations were performed; no major operations. The total expenditure was Rs. 792, of which Rs. 531 were spent on establishment, Rs. 181 on Europe medicines, and Rs. 15 on bazar medicines. The expenditure on miscellaneous items was Rs. 36. Government contributed Rs. 4 as cost of forms and registers, Rs. 180 were obtained by withdrawal of deposits, and Rs. 30 as interest on investments. Rs. 30 were invested during the year. The income from native subscriptions was Rs. 578. The dispensary had an invested capital of Rs. 581 at the end of the year.

*Kerotia.*—It is a class IIIA dispensary supported by Mahomed Ali Khan and managed by a committee, which met seven times during the year. Visited once by the Civil Surgeon. No visits from civil officers. A civil hospital assistant was in charge, who received Rs. 50 a month. Besides the hospital assistant, there were a compounder on Rs. 8, a dresser on Rs. 4, and a servant on Rs. 5. Three thousand five hundred and eighty-one outdoor patients were treated, with a daily average of 17, against 4,342 and 23 in 1884 Twelve major and 138 minor operations were performed. No deaths resulted after operation. The total expenditure was Rs. 1,237, of which Rs. 814 were spent on establishment, Rs. 361 on Europe medicines, Rs. 11 on bazar medicines, Rs. 10 on buildings, and Rs. 41 on miscellaneous items. Government paid Rs. 3-8 as cost of forms and registers

*Hybutnugger or Kishoregunge.*—This is a municipal dispensary in class II. It was visited once by the Commissioner of the Division and twice by the Civil Surgeon. An Assistant Surgeon was in charge from January to the end of October, who received Rs. 140 per mensem. A civil hospital assistant was in temporary charge during the months of November and December, who received his grade pay, Rs. 35 a month, for the subdivision, Rs. 10 from the dispensary fund, and Rs. 10 for the executive charge of the subsidiary jail. There were treated 97 in and 2,100 out-patients, against 66 and 1,658 in 1884; the daily averages being 3 and 17, against 3 and 15 respectively. There were seven deaths among in-patients. The prevailing diseases were malarious fever, rheumatic affections, skin diseases, and ophthalmia. Six major and 123 minor operations were performed. No deaths resulted after operation. The total expenditure was Rs. 741. of which Rs. 453 represent the cost of establishment, Rs. 125 of European medicines, and Rs. 19 of bazar medicines. The expenditure on diet was Rs. 57, on buildings Rs. 46, and on miscellaneous items Rs. 25. Government paid Rs. 5 as cost of forms and registers. Municipality paid Rs. 212. Rs. 470 were obtained from native subscriptions, and Rs. 16 as interest on investments. There were several epidemics of cholera during the year, due, according to the statement of the hospital assistant, to the bad water used by the people for drinking purposes.

*Netrokona.*—A class IIIA dispensary supported by Sreemutty Bissessuri Debya Chowdhurani, of Gouripore, and managed by a committee, which met eleven times during the year. It was visited three times by the Civil Surgeon. The civil hospital assistant of the subdivision was in charge, who received his grade pay, Rs. 25, from Government, Rs. 10 from the municipality for the dispensary, and Rs. 10 for executive charge of the subsidiary jail. There were treated 13 in and 1,922 out-patients, against 18 and 2,131 in 1884; the daily averages being ·54 and 14, against 1 and 16 respectively. There was only one death among in-patients The falling off in the number of cases treated is accounted for by the civil hospital assistant by the fact that the year was healthier than in 1884. The prevailing diseases were malarious fever, cholera, and rheumatic affections. Four major and 118 minor operations were performed. The total expenditure was Rs. 482, whereof Rs. 314 represent the cost of establishment, Rs. 98 of Europe medicines, and Rs 11 of bazar medicines. In-patients dieted at their own expense. The expenditure on buildings was

Rs. 8, and on miscellaneous items Rs. 39. Government contributed forms and registers the cost of which was Rs. 4-12.

*Jamalpore.*—A class II institution under the local municipality, which met six times during the year. It was visited twice by the Civil Surgeon. The civil hospital assistant of the subdivision was in charge, who received his grade pay from Government and Rs. 10 for the dispensary from the municipality. There were 39 in and 808 out-patients, against 10 and 750 in 1884; the daily averages being 1 and 6, against ·28 and 7 respectively. There were six deaths among in-patients, against one in the previous year. Forty-four minor operations were performed. No major operations. The total expenditure was Rs. 420, whereof Rs. 210 were spent on establishment, Rs. 124 on Europe medicines, and Rs. 3 on bazar medicines. The expenditure on diet was Rs 13, on buildings Rs. 8, and on miscellaneous items Rs. 62. Government paid Rs. 8, namely Rs. 3 for diet of police cases and Rs. 5 for forms and registers. Municipality paid Rs. 21, against Rs. 75 in 1884. Subscriptions from natives were Rs. 391.

*Muktagacha.*—A class IIIA dispensary supported by an endowment of Rs. 12,000 from Raja Surja Kant Acharjee and managed by a committee, which met only once during the year. It was visited once by the District Magistrate and five times by the Civil Surgeon. A civil hospital assistant was in charge, who received Rs. 30 a month. One thousand seven hundred and fifty-three out-patients were treated, with a daily average of 18, against 1,991 and 19 in 1884. One hundred and twenty-seven minor operations were performed; no major operations. The total expenditure was Rs. 719, of which Rs. 444 represent the cost of establishment, Rs. 130 of Europe medicines, and Rs. 16 of country medicines. Rs. 26 were spent on buildings, and Rs 103 on miscellaneous items. Government paid Rs. 5 as cost of forms and registers. Rs. 556 were obtained as interest on investments, and Rs. 72 by withdrawal of deposits. The dispensary had an invested capital of Rs. 12,403 at the end of the year.

*Basitpore.*—A municipal dispensary in class II. Visited once by the Civil Surgeon. A civil hospital assistant was in charge, who received Rs. 25 a month. There were treated 1,835 out-patients, against 1,695 in 1884, with a daily average of 8·65, against 7·34. Minor operations numbered 95; no major operation. The total expenditure was Rs. 649, whereof Rs. 363 were spent on establishment, Rs. 174 on Europe medicines, and Rs. 18 on bazar medicines. The expenditure on buildings was Rs. 55, and on miscellaneous items Rs. 39. Government contributed forms and registers, the cost of which was Rs. 4. Municipality paid Rs. 567, against Rs. 289 in 1884. Rs. 18 were obtained by withdrawal of deposits. The income from native subscriptions amounted to Rs. 60.

*Ambaria.*—It is a class IIIA dispensary supported by Baboo Hem Chunder Chowdhuri, of Ambaria. It was visited only once by the Civil Surgeon. A civil hospital assistant was in charge, who received Rs. 40 a month. One thousand four hundred and thirty out-patients were treated, with a daily average of 11, against 1,276 and 9 in 1884. No in-patients. Twenty-one minor operations were performed; no major operations. The total expenditure was Rs. 933, of which Rs. 672 represent the cost of establishment, Rs. 213 of Europe medicines, and Rs. 9 of bazar medicines. The expenditure on miscellaneous items was Rs. 39. Government paid Rs. 3 as cost of forms and registers. The income from local subscriptions was Rs. 861.

## CHITTAGONG DIVISION.

Chittagong district.

The Civil Surgeon says that the public health of the district, as compared with past three years, was, according to registration returns, bad. Cholera was very severe both in town and district. There is one dispensary in the sudder station, and one in the Cox Bazar subdivision unclassed, but progressing. There is a small separate hospital in the town for contagious diseases.

*Chittagong dispensary.*—A municipal dispensary in class II. The municipal commissioners, represented by the Civil Surgeon, managed the institution. No special meetings were held, its business being transacted at the periodical municipal meetings. Visited three times by the District Magistrate, who recorded no remarks. The Civil Surgeon visited it daily. A third-grade Assistant Surgeon was in charge, who received Rs. 120 a month from the municipal fund. There were treated 368 in and 6,736 out-patients, against 395 and 6,789 in 1884; the daily averages being 13 and 30, against 15 and 34 respectively. There were 28 deaths, or a rate of 7·6 per cent., among in-patients, against 46 and 11·6 in the previous year. The Civil Surgeon says that cholera was much prevalent, but it would be impossible to ascribe it to any particular cause beyond the usual one of insanitary condition. Sixty-seven major and 277 minor operations were performed. One death resulted after operation. The result, according to the annual returns, the Civil Surgeon says, was most creditable to the Assistant Surgeon. Forty-seven sailors were admitted, and Rs. 1,259 realised as fees from the shipping for them. The figures for the past four years are given below:—

| | | | | | | |
|---|---|---|---|---|---|---|
| In 1885 | admitted | 47, | realised | Rs. | 1,259 | for diet and treatment. |
| „ 1884 | „ | 72 | „ | „ | 1,609 | ditto. |
| „ 1883 | „ | 57 | „ | „ | 1,214 | ditto. |
| „ 1882 | „ | 37 | „ | „ | 724-8 | ditto. |

The Civil Surgeon says "I can only undertake to say that the dispensary is very useful, and that not only amongst natives, but amongst sailors also." The total expenditure was Rs. 4,590, of which Rs. 2,653 represent the cost of establishment, Rs. 350 of Europe medicines, and Rs. 49 of country medicines. European medicines were obtained from private druggists on indents checked by the Civil Surgeon. The expenditure on diet was Rs 919, on buildings Rs. 122, and on miscellaneous items Rs. 497. The total income of the dispensary was Rs. 4,590, which consisted of Rs. 158 received from Government, viz. Rs. 4 for forms and registers and Rs. 154 for diet of police cases, of Rs 2,506 paid by municipality, of Rs. 1,323 received from local or other funds, and of Rs. 603 received as subscriptions from Europeans and natives.

The Civil Surgeon appended the annual report and return of the Assistant Surgeon in charge of the Cox Bazar subdivision as to the dispensary there.

The dispensary it is said is of private character, and is supported by private subscriptions, and by a monthly grant of Rs. 30 from the local municipality. The Assistant Surgeon says "the relation of the dispensary attendance to the local health of the subdivision cannot be fairly stated, as most of the people here have yet a strong aversion towards English medicine, and I believe that only a comparatively small portion of the population when sick come to the dispensary for relief. This aversion, however, appears to be rapidly decreasing, and I venture to hope that within not a very remote period the people here will appreciate English medicine as heartily as those of any other more advanced portion of Bengal. The largest number of cases treated during the year was for fevers."

Noakholly district.

The Assistant Surgeon in civil medical charge of the district says that the general health of the district has not been so good as that of 1882 and 1883, though comparatively better than in 1884. There were four dispensaries working at the end of the year. Of the four dispensaries, one was in class II, one in class IIIA, and two in class IIIB. One of the dispensaries gave relief both to in and outdoor patients, the other three to out-patients only. All were in charge of civil hospital assistants. There were treated 103 in and 5,643 out-patients, against 125 and 5,800 in 1884; the daily averages being 3·99 and 37·66, against 4·9 and 43 respectively. The Assistant Surgeon says that the figures shown in the returns are reliable, and that the managing bodies have taken interest and care in promoting the welfare of the institutions under their respective charges. Exertions of the Hurrishpore dispensary committee have been especially commendable in this direction. As regards the popularity of the dispensaries, if it be measured in proportion to the number of attendance thereto, the Assistant Surgeon says that they are appreciated by the people. The circumstance to which the diminished attendance is attributable is the presence of private practitioners in several places practising English medicines. The people who are capable of paying prefer calling these men in ordinary cases instead of coming to a charity. In Noakholly a new charitable dispensary has been opened by the Bhuluah estate; it is in charge of a person who had studied, it appears, the Assistant Surgeon says, up to the junior standard in the English class of the Calcutta Medical College. Although the estate has added one more useful institution for the medical relief of the poor, but unfortunately for the Noakholly dispensary the estate has withdrawn its monthly subscription of Rs. 50, which it has been contributing since its foundation.

*Noakholly.*—A municipal dispensary in class II. Visited daily by the Assistant Surgeon, and oftener when necessary. Municipal commissioners inspected it frequently. Twice visited by the Judge, and thrice by the Magistrate. A first-class civil hospital assistant was in charge, who received his grade pay from the municipality. There were treated 103 in and 2,479 out-patients, against 125 and 2,578 in 1884; the daily averages being 3 and 12, against 4 and 14 respectively. There were 9 deaths among in-patients, against 7 in the preceding year. In relation to the health of the place attendance has not been large enough Seven major and 141 minor operations were performed. No deaths resulted after operation. The total expenditure was Rs. 1,389, whereof Rs. 980 represent the cost of establishment, Rs. 59 of Europe medicines which were obtained from private dealers, and Rs. 34 of bazar medicines. The cost of diet was Rs. 164. The expenditure on buildings was Rs. 75, and on miscellaneous items Rs. 77. Government paid Rs. 26, viz. Rs. 4 as cost of forms and registers and Rs. 22 for diet of police cases. Municipality contributed Rs. 952 Subscriptions from Europeans and natives were Rs. 87 and Rs. 164 respectively, and Rs. 160 were received as interest on investments. The dispensary had an invested capital of Rs. 4,000 at the end of the year.

*Dulal Bazar.*—A class IIIA dispensary managed by the supporter. The dispensary had its meetings held 12 times during the year. Visited once by the Magistrate and twice by the Assistant Surgeon. A third-grade civil hospital assistant was in charge. There were treated 1,201 out-patients, against 1,280 in 1,884; the daily averages being six and seven respectively. Eighty-seven minor operations were performed; no major operation. The total expenditure was Rs. 951, of which Rs. 396 was the cost of establishment, Rs. 55 of Europe medicines, which were obtained from private dealers. The cost of bazar medicines was nominal, viz. 7 annas and 3 pies. The expenditure on miscellaneous items was Rs. 500. Government paid Rs. 3-10-6 as cost of forms and registers. Subscriptions from natives were Rs. 461.

*Fenny.*—A class IIIB dispensary governed by a local committee, which met seven times during the year. Visited twice by the Magistrate and five times by the Assistant Surgeon. The third-class civil hospital assistant of the subdivision was in charge. There were

treated 1,315 out-patients against 1,140 in 1884; the daily averages being 16 and 12 respectively. Four major and sixteen minor operations were performed. No deaths resulted after operation. The total expenditure was Rs. 718, whereof Rs. 312 was the cost of establishment, Rs. 90 of Europe medicines, which were obtained from private dealers. The cost of bazar medicines was Rs. 20. The expenditure on miscellaneous items was Rs. 21, and on buildings Rs. 250. Government paid Rs. 123, viz. Rs. 120 as salaries and Rs. 3 as cost of forms and registers. Subscriptions from Europeans and natives were Rs. 220 and Rs. 130 respectively. Rs. 25 were obtained as interest on investments. Municipality at Noakholly paid nothing. Rs. 200 were withdrawn from deposits; Rs. 25 were invested during the year. The dispensary had an invested capital of Rs. 648 at the end of the year.

*Hurrishpore.*—A class IIIB dispensary managed by a committee, which held meetings five times during the year. The Magistrate and the Assistant Surgeon visited the institution once. A civil hospital assistant was in charge. There were treated 648 out-patients, with a daily average attendance of 3, against 892 and 8 in 1884. The Assistant Surgeon says that the decrease in the total admission and the daily average was due in relation to public health. Distant situation of the dispensary from the villages, and the water-courses, which in some instances the people have to cross over before they can reach the place of relief, render it somewhat inconvenient for the villagers to avail themselves of the dispensary aid so freely as they could have otherwise done, and this is what accounts for the low attendance. The institution is chiefly used by the people living in the station, which is very small, and it is maintained almost wholly by the pleaders of the place. Twenty-three minor operations were performed; no major operations. The total expenditure was Rs. 786, whereof Rs. 363 represent the cost of establishment, Rs. 375 of Europe medicines, and annas 9 and pies 6 of bazar medicines. The expenditure on miscellaneous items was Rs. 33, and on buildings Rs. 15. Government paid Rs. 303, viz. Rs. 300 as salaries and Rs. 3 as cost of forms and registers. Rs. 200 were obtained from local funds. Subscriptions from natives were Rs. 240. There was a cash balance of Rs. 47 at the end of the year.

Tipperah district.

The report is submitted by 2nd grade Assistant Surgeon Mutty Lall Mookerjee, who took charge of the civil medical duties of Tipperah on 25th October 1885. He says that the public health of the district during the year under report was not better than in 1884. There was less cholera and small-pox, but the mortality from fever was rather higher than in the previous year. The total mortality of the district for the year exceeds that of the previous year owing to the increase of mortality from fever. The Assistant Surgeon believes this was due to extra rainfall, which kept the country damp much longer than usual, particularly in those parts of the district that abound in jheels, swamps, and jungles. The civil station of Comilla compares favourably with the statistics of previous years, although there was an increase of mortality under the heads of cholera and fever during the year. There were four dispensaries working at the beginning of the year and three at the end of the year. The dispensary at Jaffergunge was closed on the 1st of November 1885—*vide* Officiating Magistrate of Tipperah's letter No. 2335, dated 9th October 1885. Of these, two were municipal institutions and were under class II, and one under class IIIA. Two of these received both in and out-patients. There were treated 165 in and 7,927 out-patients, against 174 and 8,576 in 1884; the daily averages being 11 and 79, against 8 and 77 respectively. The figures, says the Assistant Surgeon, were found correct. Two dispensaries were in charge of civil hospital assistants, and one (Ramchunderpore) was in charge of a native doctor. The Assistant Surgeon also says that the three existing dispensaries are properly looked after by their managing bodies, and are steadily improving in popularity.

*Comilla.*—A class II municipal dispensary in charge of a civil hospital Assistant under the management of the municipal committee, which held fifteen meetings during the year. Visited once by the Commissioner of the Division and the District Judge, and twice by the District Magistrate. The Assistant Surgeon visited the institution daily. There were treated 110 in and 3,622 out-patients, against 107 and 2,720 in 1884; the daily averages being 8 and 37, against 5 and 21 respectively. There were 13 deaths among in-patients, or a rate of 11·81 per cent., against 7 and 6·54 in the previous year. Of the 13 persons died 5 succumbed immediately after their admission being, it is said, in a hopeless condition when brought in. Thirty-eight major and 216 minor operations were performed. One death resulted after operation. The total expenditure was Rs. 3,682, whereof Rs. 765 represent the cost of establishment. The cost of Europe medicines was Rs. 118. The expenditure on bazar medicines was Rs. 32, on diet Rs. 370, on miscellaneous charges Rs. 118, and on buildings Rs. 2,279. Government paid Rs. 99, namely Rs. 5 as cost of forms and registers and Rs. 94 for diet of police cases. Rs. 1,947 were received by sale of securities and Rs. 140 were obtained as interest on investments. Subscriptions from Europeans and natives were Rs. 55 and Rs. 188 respectively.

*Bramenberia.*—A municipal dispensary in class II. The civil hospital assistant of the subdivision was in charge. Visited four times by the subdivisional officer and seven times by the chairman, vice-chairman, and other municipal members. No visits were paid by the Civil Surgeon or by the Assistant Surgeon. There were treated 55 in and 1,368 out-patients, against 67 and 1,150 in 1884; the daily averages being 2 and 9, against 3 and 9 respectively. Two deaths occurred among in-patients. 7 major and 63 minor operations were performed. No deaths resulted after operation. The total expenditure was Rs. 542, of which Rs. 231 was the cost of establishment, Rs. 200 of Europe medicines obtained from private dealers, and Rs. 27 of country medicines. The cost of diet was Rs. 25. The expenditure on buildings

was Rs. 23, and on miscellaneous items Rs. 36. Government paid Rs. 11, viz. Rs. 4 as cost of 7 forms and registers and Rs. 7 for diet of police cases. Subscriptions from natives were Rs. 115. Municipality paid Rs. 416.

*Ramchunderpore.*—A class IIIA dispensary under the management of Nawab Ashanoollah Khan's superintendence at Ramchunderpore. Visited once by the District Magistrate. No visits were paid by the Civil Surgeon or by the Assistant Surgeon. A native doctor was in charge. There were treated 2,937 out-patients, against 2,952 in 1884; the daily average being 31, against 32 respectively. No in-patients. Thirteen major and 259 minor operations were performed. The total expenditure was Rs. 1,027, of which Rs. 672 was the cost of establishment; Rs. 318 of Europe medicines which were obtained from private druggists; and Rs. 27 of bazar medicines. The expenditure on miscellaneous charges was Rs. 10. Government paid Rs. 4 as cost of forms and registers.

## PATNA DIVISION.

Patna district.

The general health of the district during the year 1885 was, it is considered unhealthy as compared with 1884. The Civil Surgeon remarks that cholera was most fatal in the Patna City circle, Manair, and Dinapore. The worst months were August, September, July, May, and April, in the order named. The year was usually hot. The rainfall in 1885 was average both in quantity and distribution. The inundations were unusually heavy during August and September, and flooded large tracts of the district. Five dispensaries worked in the district throughout the year, all of which were under the management of municipalities excepting the one at Dinapore, which was managed by a private committee. Three were in class II and two in class IIIB. All the dispensaries treated both indoor and outdoor patients, and were with the exception of one in charge of Assistant Surgeons. There were treated 2,669 in and 47,590 out-patients in all, against 2,395 and 48,561 in 1884. The daily averages were 149 and 424, against 140 and 460 respectively. All the dispensaries are said to be appreciated by the people for whom they are intended.

*Bankipore dispensary or Temple Medical School Hospital*—Is a class IIIB dispensary under the management of the Patna municipality, and all hospital business was transacted at the municipal meetings. It was visted once each by the Inspector-General of Civil Hospitals, Bengal, and the District Magistrate. The Civil Surgeon paid frequent visits. Second-grade Assistant Surgeon Ram Kali Gupta was in medical charge throughout the year. He was assisted by the other Assistant Surgeons and civil hospital assistant attached to the Temple Medical School in hospital work. The minor establishment cost Rs. 153, per mensem. There were treated 1,099 in and 15,189 out-patients, against 980 and 15,956 in 1884. The daily averages were 71 and 109, against 69 and 115 respectively. The increase in the number of in-patients was due to cholera and dysentery. There were 151 deaths, or a rate of 13·7 per cent., against 98 and 10·0 in 1884. One hundred and twenty-seven major operations were performed with twelve deaths. The number of minor operations was 1,215. The total expenditure was Rs. 7,475, whereof Rs. 3,947 was the cost of establishment, Rs. 286 of bazar medicines, and Rs. 369 of Europe medicines. The outlay on diet was Rs. 2,366, and on miscellaneous items Rs. 507. The total income was Rs. 9,475, whereof Government contributed Rs. 123, namely Rs. 21 for forms and registers and Rs. 102 for diet of police cases. Municipality paid Rs. 7,069, against Rs. 7,676 in 1884. Rs. 80 were received as interest during the year. Subscriptions from Europeans and natives were Rs. 113 and Rs. 90 respectively. There was no cash balance at the end of the year. The dispensary had an invested capital of Rs. 2,000 on the 31st December 1885. The increase in general expenditure was a good deal due to the opening of the new female hospital and the employment of a midwife on Rs. 30 a month. The municipality also gave an extra allowance of Rs. 30 to the Assistant Surgeon during the year.

*Patna City dispensary.*—A class II dispensary under the local municipality. Visited once by the Inspector-General of Civil Hospitals, Bengal. The Civil Surgeon paid seven visits during the year. No visits were paid by any civil officer. Second-grade Assistant Surgeon Ashutosh Law was in charge from 1st January to 17th November, third-grade Assistant Surgeon Lala Hurdyal Singh from 18th November to 18th December, and third-grade Assistant Surgeon Asder Ali Khan held charge for the remaining days of the year. The cost of minor establishment was Rs. 66 per month. There were treated 562 in and 14,961 outdoor patients, against 529 and 14,603 in 1884; the daily averages being 32 and 139, against 33 and 144 respectively. There were 129 deaths, or 22·9 per cent., against 97 and 18·34 in the previous year. The chief causes of mortality were dysentery and cholera. There were 63 major operations performed, with three deaths. Minor operations numbered 1,703. The total expenditure was Rs. 4,835, whereof Rs. 2,699 represent the cost of establishment. The cost of bazar medicines was Rs. 160, the outlay on diet was Rs. 873, on buildings Rs. 844, and on miscellaneous items Rs. 259. The total income was Rs. 4,835. Government contributed Rs. 16 for forms and registers, and the municipality Rs. 3,782. Rs. 820 were obtained as interest on investments, and Rs. 16 from local funds. Subscriptions from natives were Rs. 201. Europe medicines, were obtained at a cost of Rs. 140, but up to date the money has not been paid.

*Barh.*—This is also a class II dispensary under the local municipality. The Civil Surgeon inspected it twice during the year. It was not visited by any official. Third-grade Assistant Surgeon Asder Ali Khan was in charge from 1st January to 2nd September

and from 3rd to 16th December; third-grade Assistant Surgeon Annoda Prosad Dutta from 3rd September to 2nd December and from 17th to 31st December. The cost of minor establishment was Rs. 31 per mensem. There were 344 in and 5,360 out-patients, against 302 and 5,312 in 1884. The daily averages were 13 and 50, against 9 and 57 respectively. The number of deaths was 15, or a rate of 4·36 per cent., against 20 and 6·62 in 1884. Fifty-four major and 536 minor operations were performed. No deaths resulted after operation. The total expenditure was Rs. 2,033, whereof Rs. 1,392 was the cost of establishment, Rs. 140 of Europe medicines. and Rs. 33 of bazar medicines. Dieting of patients cost Rs. 242. The expenditure on buildings was Rs. 127, and on miscellaneous items Rs. 99. Government contributed Rs. 9 for cost of forms and registers. The income from subscriptions was Rs. 299, and the municipality paid Rs. 1,725, against Rs. 1,372 in 1884.

*Behar.*—This is a class II dispensary under the Behar municipality. The Civil Surgeon inspected it twice. Third-grade Assistant Surgeon Amulya Chunder Champati was in charge throughout the year. He gets Rs. 85 per mensem from the municipality and Rs 35 from Government for the subdivision. The minor establishment cost Rs. 39 a month. There were treated 216 in and 5,827 out-patients, against 170 and 6,309 in 1884. The daily averages were 16 and 53, against 13 and 65 respectively. There were 41 deaths, or a percentage of 18·98, against 24. or a percentage of 14·11, in 1884. There were performed 35 major operations with 5 deaths, and 333 minor operations. The total expenditure was Rs. 2,118, whereof Rs. 1,548 was the cost of establishment, Rs. 6 of Europe medicines, and Rs. 59 of bazar medicines. Rs. 341 were spent for diet of patients, and Rs. 6 on buildings. The expenditure on miscellaneous items was Rs. 158. Government contributed Rs. 66, namely Rs. 10 for forms and registers and Rs. 56 for diet of police cases. Municipality paid Rs. 1,754. The income from subscriptions was Rs. 293. Rs. 5 were obtained from local or other funds. No investment.

*Dinapore.*—A class IIIB dispensary managed by a committee, which held three meetings. It was under the superintendence of the Staff Surgeon. The Civil Surgeon of Dinapore and the Cantonment Magistrate visited it frequently. Visited once by the Inspector-General of Civil Hospitals, Bengal; the Deputy Surgeon General, Military Department; the Commanding Officer of the station and the senior medical officer; and twice by the Civil Surgeon of Patna. A first-class civil hospital assistant was in medical charge, who received Rs. 55 from Nizamut fund, Rs. 25 from dispensary fund, and Rs. 10 from Government—in all Rs. 90 a month. The cost of minor establishment was Rs. 31 per mensem. There were treated 448 in and 6,253 out-patients, against 414 and 6,381 in 1884. The daily averages were 13 and 71, against 14 and 77 respectively. There were 40 deaths, or a percentage of 8·92, against 25, or a percentage of 6·03 in 1884. There were performed 50 major operations with one death, and 515 minor operations. The total expenditure was Rs. 1,985, of which Rs. 1,222 was the cost of establishment, Rs. 46 of bazar medicines, and Rs. 438 of Europe medicines. The expenditure on diet was Rs. 94. The amount expended on miscellaneous items was Rs. 124, and on buildings Rs. 61. The total income of the dispensary was Rs. 2,061, of which Government paid Rs. 8-8-1 as cost of forms and registers. Rs. 990 were obtained from local funds, Rs. 83 as interest, and Rs. 855 from Europeans and native subscriptions. The dispensary had a cash balance of Rs. 76 at the end of the year and also a capital of Rs. 2,000 invested in 4 per cent. Government paper.

Gya district.

The report is submitted with the marginal notes of the Magistrate. The general health of the district contrasts, it is said, unfavourably with that of the previous year. The registration in the rural parts of the district, the Civil Surgeon remarks, is so defective that it is impossible to draw correct inference from the figures submitted. The remarks of the Civil Surgeon are probably based on the fact that the town showed an increased number of deaths, while the rural districts less, compared with the previous year; but the following is noted by the Magistrate:—"The death-rate of the town is high, and the place must be pronounced unhealthy. It would be well, however, to show in future reports how much of the mortality occurred among pilgrims and stragglers. The pilgrims are always very numerous, while during the past year there were probably many stragglers, who came into the town only to die, being driven from their homes by the high prices and scarcity which prevailed in parts of the Nowada subdivision. In a large town like Gya there is always a considerable class of mendicants, cripples, lepers, &c., coming from outside, the high rate of mortality amongst whom must help to swell the general death-rate. The registering officer can always obtain information to show whether the particular death reported occurred among the permanent residents of the town or pilgrims or stragglers;" the number of registered deaths being 54,541, against 56,926 in 1884. Cholera was present in the district throughout the year. Although more prevalent in the town of Gya and in the rural parts of the district than in the previous year, it did not assume an epidemic form in either. There were five dispensaries working in the district at the end of the year, of which four were under the control of local municipalities and unions, and one under the management of the agent of the Maharanee of Tikari. One of these was in class II, three in class IIIB, and the fifth in class IIIA. Two of the dispensaries were under the charge of Assistant Surgeons, and three under civil hospital assistants. All the dispensaries received in and out-patients. There were treated 681 in and 14,841 out-patients, against 601 and 14,333 in 1884. The daily averages were 25·66 and 189·04, against 25·8 and 178·7 respectively. The managing bodies are beginning to take some interest in the working of the dispensaries during the year. The subdivisional officers generally take

a more lively interest in these matters. The people, especially of the town, are gradually learning to appreciate the English system of treatment.

*Gya Pilgrim Hospital.*—A class II dispensary under the local municipality. Some of the municipal commissioners evinced their interest in this institution by paying frequent visits. It was inspected once by Dr. Simpson the then Inspector-General of Civil Hospitals, Bengal. The District Magistrate and the Vice-Charman of the Gya municipality paid several visits during the year. The Civil Surgeon paid his daily visits regularly. A second-grade Assistant Surgeon was in charge, who drew Rs. 150 per mensem from the municipality. The cost of minor establishment was Rs. 53-8-0. The Civil Surgeon reports that the services of the paid midwife were dispensed with from the 20th of January. There were treated 447 in and 6,979 out-patients, against 358 and 6,642 in 1884. The daily averages were 16 and 104, against 15 and 91 respectively. The death-rate was 30·87 per cent., against 25·13 in 1884. The majority of the deaths was among patients admitted in a moribund condition. Forty-three major and 751 minor operations were performed during the year. One case of death only occurred. The total expenditure was Rs. 25,413, of which Rs. 3,067 were expended on establishment, Rs. 92 on bazar medicines, Rs. 335 on Europe medicines, Rs. 304 on diet, Rs. 315 on miscellaneous charges, and Rs, 21,300 on buildings and repairs. The total income was Rs. 25,413, of which Rs. 7 were received from Government on account of forms and registers, Rs. 6,615 from local or other funds, Rs. 1,905 from the municipal funds, Rs. 227 as interest, Rs. 9,347 by sale of securities, and Rs. 80 and Rs. 205 as subscriptions from Europeans and natives respectively.

*Tikari.*—This is a class IIIA dispensary entirely supported by the Maharanee of Tikari. There is no committee. The dispensary is managed by the Maharanee's agent. The estate is now under the management of the Court of Wards. Visited four times by the Civil Surgeon. A second-grade Assistant Surgeon was in charge, who received Rs. 150 per month. The subordinate establishment cost Rs. 52-8 monthly. There were treated 67 in and 3,314 out-patients, against 72 and 3,386 in 1884; the daily averages being 2 and 45, against 3 and 44 respectively. There were 7 deaths, or 10·44 per cent, against 4 and 5·55 in the previous year. Seven major and 109 minor operations were performed. No deaths resulted after operation. The total expenditure was Rs. 2,743, of which Rs. 2,354 represent the cost of establishment, Rs. 183 of Europe medicines, and Rs. 41 of bazar medicines. The cost of diet was Rs. 80. Rs. 24 were spent on buildings, and Rs. 61 on miscellaneous items. Government paid Rs. 4 as cost of forms and registers. The dispensary had an invested capital of Rs. 27,000 at the end of the year.

*Nowada.*—It is a class IIIB dispensary. The subdivisional officer takes interest in the management of the institution. Visited twice by the Civil Surgeon. A civil hospital assistant was in charge, who was paid Rs. 10 monthly from the dispensary funds. The minor establishment cost Rs. 16 per mensem. There were treated 71 in and 1,018 out-patients, against 80 and 1,115 in 1884. The daily averages were 3·02 and 9·98, against 3·51 and 11·10 respectively. The death-rate among in-patients was 23·94, against 12·5 per cent. in the previous year. Sixty-one minor operations were performed; no major operation. The total expenditure was Rs. 649, of which Rs. 332 were expended on establishment and Rs. 14 on bazar medicines. English medicines were obtained from private druggists on indent checked by the Civil Surgeon at a cost of Rs. 88. The cost of diet was Rs. 62, and Rs. 30 were spent on miscellaneous items. The outlay towards buildings and repairs was Rs. 24. The total income was Rs. 1,131, of which Government contributed Rs. 4 for forms and registers. Municipality paid nothing during the year. Subscriptions from Europeans and natives amounted to Rs. 53 and Rs. 379 respectively, and Rs. 47 were obtained as interest on investments. Rs. 144 were obtained by withdrawal of deposits. Rs. 99 were invested during the year. At the end of the year there was a cash balance of Rs. 482, and a deposit of Rs. 128 in the Savings Bank, and a capital of Rs. 1,000 invested in Government securities.

*Aurungabad.*—A class IIIB dispensary managed by a local committee, which met only once during the year. Visited once by the District Magistrate and four times by the Civil Surgeon. A civil hospital assistant was in charge, who is paid Rs. 10 a month from the dispensary fund. The monthly cost of the subordinate establishment was Rs. 17. The number of patients treated was 31 in and 1,026 out, against 39 and 958 in 1884. The daily averages were 1·94 and 11·22, against 2·03 and 13·22 respectively. The death-rate for the year was 19·35 per cent., against 20·51 in the previous year. Fifty-two minor operations were performed; no major operation. The total expenditure was Rs. 946, of which Rs. 297 was the cost of establishment and Rs. 15 of bazar medicines. English medicines were purchased from private druggists at a cost of Rs. 102. The cost of diet was Rs. 50. The expenditure on buildings and repairs was Rs. 77, and on miscellaneous items Rs. 39. The total income was Rs. 955, of which Rs. 3 were received from Government as cost of forms and registers and Rs. 7 for diet of police cases, Rs 58 from the local fund, Rs. 4 as interest, Rs. 265 by withdrawal of deposits, and Rs. 354 as subscriptions. Rs. 366 were invested during the year.

*Jehanabad.*—This is also a class IIIB institution under the management of a local committee, which met twice during the year. The Civil Surgeon inspected it three times. A second-class civil hospital assistant was in charge, who received Rs. 35 monthly from Government for the subdivision and Rs. 10 from the dispensary fund for the dispensary

charge. The minor establishment cost Rs. 22 monthly. There were treated 65 in and 2,504 out-patients, against 52 and 2,232 in 1884. The daily averages were 1 and 18, against the same number in the previous year. The death-rate for the year under review was 1·53, against 1·92 in 1884. One major and 89 minor operations were performed. The total expenditure was Rs. 1,360, of which Rs. 401 was the cost of establishment, Rs. 49 of bazar medicines, and Rs. 98 of Europe medicines, which were obtained from private druggists on indents checked by the Civil Surgeon. The cost of diet was Rs. 13. The outlay on buildings and repairs was Rs. 52, and the expenditure on miscellaneous items Rs. 716. The total income of the dispensary was Rs. 1,508. Government contributed Rs. 10, namely Rs. 7 as cost of forms and registers and Rs. 3 for diet of police cases. Rs. 32 were received as interest on invested capital, and Rs. 60 and Rs. 682 were obtained as subscriptions from Europeans and natives respectively. Rs. 345 were obtained by withdrawal of deposits. At the end of the year there was a cash balance of Rs. 148 and a deposit of Rs. 535 in the District Savings Bank.

Shahabad district.

The Civil Surgeon has submitted a full and complete report. The district during the year 1885 was an unhealthy one, the total number of deaths being 50,358, against 32,837 in the previous year. There were seven dispensaries working at the end of the year, of which one was State hospital, and therefore in class I; one in class II, being a municipal institution; one in class IIIA, being a private institution; and the rest in class IIIB, aided and managed by local municipalities. Four were in charge of Assistant Surgeons, and three under that of civil hospital assistants. All the dispensaries treated both in and outdoor patients. There were treated 748 in and 39,791 out-patients, against 713 and 36,911 in 1884. The daily averages were 36 and 392, against 33 and 357 respectively. The Civil Surgeon says that the figures are worthy of confidence. The municipal bodies have not shown any remarkable interest in the dispensaries, though the Civil Surgeon has no doubt they wish them well and think them valuable institutions. The dispensaries are appreciated by the people more and more as years pass, but many have still peculiar prejudices against them which are not easy to overcome. Any delay in the cure of their cases they cannot understand, and they soon lose all patience unless they see an immediate improvement.

*Arrah.*—This is a class IIIB dispensary. It is magaged by the municipality Monthly meetings were held to supervise its affairs. It was visited once by the Inspector-General of Civil Hospitals and the District Magistrate, several times by the Municipal Vice-Chairman, and daily by the Civil Surgeon. An Assistant Surgeon was in charge, who received Rs. 150 per mensem from the municipality. There were treated 230 in and 7,537 out-patients, against 214 and 7,772 in 1884. The daily averages were 13 and 61, against 11 and 60 respectively. The increase in the total number of in-patients was due to malarious fever, which was very prevalent during the latter part of the year. The Civil Surgeon says that the free distribution of fever pills through the police may account for the decrease in the number of outdoor patients. There were 33 deaths, or a rate of 14·34 per cent., against 24, or a rate of 11·21, in the previous year. The yearly death-rate varies according to the number of moribund cases admitted, which are usually numerous. Thirty-five major with two deaths, and 723 minor operations, were performed. The total expenditure was Rs. 3,309, of which Rs. 2,373 was the cost of establishment. English medicines were obtained from private druggists on indents checked by the Civil Surgeon at a cost of Rs. 180. Bazar medicines cost Rs. 84. The expenditure on diet was Rs. 249, Rs. 186 were spent on buildings and repairs, and Rs. 237 on miscellaneous items. Government contributed Rs. 62, viz. Rs. 8 in forms and registers, Rs. 54 for diet of police cases. The total income was Rs. 3,309, of which Rs. 2,825 were received from municipality, Rs. 44 from local funds, Rs. 300 as interest on investments, and Rs. 79 as subscriptions from natives. There was an invested capital of Rs. 7,505 at the end of the year.

*Sasseram.*—A municipal dispensary in class II maintained by municipality and Sasseram endowment fund, which contributed Rs. 1,300 towards the expenditure during the year under report. The affairs of the dispensary were controlled by the municipal committee, which met three times during the year. It was visited once by the District Magistrate, eleven times by the subdivisional officer, and five times by the municipal commissioners. The Civil Surgeon paid two visits. A second-grade Assistant Surgeon was in charge, who received Rs. 55 per month from Government for the subdivision. Rs. 115 from the municipality, and Rs. 20 for executive charge of the subsidiary jail, There were treated 140 in and 7,256 out-patients, against 128 and 6,866 in 1884. The daily averages were 7 and 110, against 7 and 98 respectively. The Civil Surgeon says that the increase in the number of patients was due to the unhealthiness of the year. Malarious fevers were very prevalent during the latter part of the year. There were 21 deaths, or a rate of 15 per cent., against 15, or a rate of 11·71, in the previous year. There were performed 24 major with two deaths, and 478 minor operations. The total expenditure was Rs. 2,809, of which Rs. 1,679 was the cost of establishment, Rs. 202 of Europe medicines, which were obtained from private druggists on indents checked by the Civil Surgeon, and Rs. 21 of bazar medicines. The expenditure on diet was Rs. 184, and on miscellaneous items Rs. 156. The outlay on buildings and repairs was Rs. 567. Government contributed Rs. 10-11-0 for forms and registers. The income from local sources was Rs. 1,304. Municipality paid Rs. 1,494.

*Doomraon.*—A class IIIA dispensary entirely supported and managed by the Maharajah of Doomraon. Visited once by the District Magistrate and twice by the subdivisional

officer of Buxar. The Civil Surgeon inspected it twice during the year. A second-grade Assistant Surgeon was in charge. There were treated 146 in and 8,021 out-patients, against 118 and 6,662 in 1884. The daily averages were 6 and 98, against 4 and 82 respectively. The increase in the number of attendance of patients was due to the malarious fevers, which were very prevalent all over the district. There were 18 deaths, or a rate of 12·3 per cent., against 9, or 7·6 per cent., in 1884. This large increase in the mortality was due to malarious fever and its sequelæ. Forty-one major and 1,000 minor operations were performed. There were three deaths after operation. The total expenditure was Rs. 2,628, of which Rs. 2,179 was the cost of establishment, Rs. 143 of Europe medicines which were purchased from private druggists, and Rs. 39 of bazar medicines. The cost of diet was Rs. 169. The expenditure on miscellaneous items was Rs. 98. Government contributed Rs. 7-9-0 as cost of forms and registers.

*Jugdispore.*—A class IIIB dispensary. This institution is maintained by the municipality and local zemindars, Messrs. Burrows, Thomson, and Mylne, and managed by the municipality. It was visited once by the District Magistrate and the Special Deputy Collector, and twice by the Civil Surgeon during the year. A civil hospital assistant was in charge through the year. He received Rs. 70 per month, part of which was contributed by the municipality and part by Messrs. Burrows, Thomson, and Mylne. There were treated 54 in and 5,213 out-patients against 58 and 4,749 in 1884. The daily averages were the same as in the previous year. There were no deaths among in-patients. Six major and 208 minor operations were performed. No deaths occurred. The total expenditure was Rs. 1,248 of which Rs. 1,020 was the cost of establishment. Europe medicines were obtained from private druggists on indents checked by the Civil Surgeon at a cost of Rs. 141. The cost of bazar medicines was Rs. 27, and of diet Rs. 19. The expenditure on buildings and repairs was Rs. 4, and on miscellaneous items Rs. 37. Government contributed forms and registers, the value of which was Rs. 3. The income from European subscriptions was Rs. 624. Municipality paid Rs. 621.

*Bhuboa.*—This is a class IIIB dispensary. It is mainly supported and managed by the municipal committee, which met three times during the year. It was visited four times by the subdivisional officer and three times by the municipal commissioners. The Civil Surgeon could not pay more than one visit, as the journey to it from the head-quarters is difficult and takes three or four days. The civil hospital assistant of the subdivision was in charge, and received Rs. 10 as an extra allowance for the dispensary work from the municipality. The minor establishment consists of a compounder on Rs. 10, a cook on Rs. 3, a bhistee on Rs. 3, and a sweeper on Rs. 3 per month. There were treated 72 in and 3,618 out-patients, against 80 and 3,146 in 1884. The daily averages were 3 and 34, against 3 and 28 respectively. There were 5 deaths, or a rate of 6·94 per cent., against 3 and 3·75 in the previous year. Two major and 195 minor operations were performed. One death resulted after operation. The total expenditure was Rs. 700, of which Rs. 348 represent the cost of establishment. Europe medicines were obtained from private druggists on indents checked by the Civil Surgeon at a cost of Rs. 140. The cost of bazar medicines was Rs. 46, and of diet Rs. 35. The expenditure on buildings was Rs. 84, and on miscellaneous items Rs. 47. Government paid Rs. 7, namely Rs. 5 for forms and registers and Rs. 2 for diet of police cases. Municipality paid Rs. 201, and the income from native subscriptions was Rs. 492.

*Buxar.*—This is a class IIIB dispensary maintained and managed by the local municipality. It was visited once by the District Magistrate, twice by the subdivisional officer, and five times by the municipal commissioners. The Civil Surgeon inspected it twice during the year. A civil hospital assistant was in charge, who received Rs. 30 per month from the municipality. The minor establishment consisted of a compounder on Rs. 8 per mensem, a cook, bhistee, and sweeper on Rs. 4 each, and a washerman on Re. 1 per month. There were treated 75 in and 4,447 out-patients, against 90 and 4,206 in 1884. The daily averages were 3 and 40, against 3 and 41 in the previous year. The increase in the number of outdoor patients was due to malarious fevers. There were 15 deaths, or a rate of 20 per cent., against 8, or a rate of 8·8 per cent., in the previous year. Five major with one death and 403 minor operations were performed. The total expenditure was Rs. 961, whereof Rs. 612 was the cost of establishment. Europe medicines were obtained from a private druggist at a cost of Rs. 109. The cost of bazar medicines was Rs. 56, and of diet Rs. 30. The expenditure on buildings and repairs was Rs. 87, and on miscellaneous items Rs. 67. Government supplied forms and registers at a cost of Re. 1, and Rs. 2 for diet of police cases. Rs. 7 were obtained from local funds. Municipality paid Rs. 951.

*Dehree.*—This is a State hospital entirely supported by Government, chiefly for the employés of the Irrigation Department in Dehree, and is therefore in class I. The affairs of the dispensary are managed by the officers of the Public Works Department at Dehree. An Assistant Surgeon was in charge, who received his entire pay, Rs. 150 per mensem, from Government. Visited several times by the officers of the Public Works Department at Dehree, and twice by the Civil Surgeon. There is a compounder on Rs. 8, a cook on Rs. 5, and a sweeper on Rs. 4-8 a month. There were treated 31 in and 3,699 out-patients, against 25 and 3,510 in 1884; the daily averages being ·87 and ·21, against ·8 and 20 respectively. The increase in the number of patients was due to malarious fevers. There were 5 deaths, or a rate of 16·1 per cent., as compared with 12 per cent. of the previous year. One major and

225 minor operations were performed. The total expenditure was Rs. 2,269, of which Rs. 2,010 was the cost of establishment. The cost of English medicines was Rs 145, and of bazar medicines Rs. 12. The expenditure on diet was Rs. 49, and on miscellaneous items Rs. 53.

Mozufferpore district.

The Civil Surgeon has submitted a full and complete report. The public health during the year 1885 was not good. Fever and cholera prevailed in nearly every quarter of the district, and they also appeared in every *mohullah* of the native town, but not in an epidemic form. The setting in of the rains, which seems to check the spread of cholera in Lower Bengal, gives an impetus to it here; and it was during the months of the greatest rainfall that the disease was at its height. There were four dispensaries at the end of the year: two were in class II, one in class IIIB, under the control and management of local municipality, and one in class IIIA, managed by a private committee. One was under an Assistant Surgeon, and three under that of civil hospital assistants. In three of them both indoor and outdoor patients were treated, and in one, namely Soorsund, only out-patients. The total number of patients treated was 581 in and 36,725 out-patients, against 668 and 38,326 in 1884. The daily averages were 25 and 211, against 28 and 205 respectively. The Civil Surgeon says that the falling off is at Sitamurhee principally, although if the police reports are to be trusted that was the quarter of the district where cholera and fever caused much sickness and a heavy death-rate. All the dispensaries are fairly treated by the local municipal bodies, and their interests receive due attention.

*Mozufferpore dispensary.*—A class II dispensary under the local municipality. The dispensary matters are discussed at the municipal meetings. It was visited six times by the District Magistrate, once by the Vice-Chairman of the Municipality, and daily by the Civil Surgeon. An Assistant Surgeon was in charge, who received Rs. 170 per month from the municipal funds. There were treated 266 in and 14,192 out-patients, against 274 and 14,072 in 1884; the daily averages being 13 and 78, against 15 and 80 respectively. The death-rate among in-patients was 16·16 per cent., against 14·23 during the year. The death-rate is terribly high, but, as in previous years, many poor creatures were brought in beyond all help, and were provided with shelter and care for a few days, or in some case, hours, which separated them from the inevitable end. There were 71 major and 486 minor operations performed. No deaths resulted after operation. The total expenditure was Rs 3,943, of which Rs. 2,511 represent the cost of establishment, Rs. 221 of Europe medicines, and Rs. 76 of bazar medicines. Dieting articles cost Rs. 543, and Rs 145 were spent on buildings and repairs. The expenditure on miscellaneous charges was Rs. 447. Government contributed Rs. 27, namely Rs. 8 as cost of forms and registers and Rs. 19 for diet of police cases. Rs. 2 were obtained from the local funds, and Rs. 1,264 as interest on investments. Municipality paid Rs. 2,650.

*Hajeepore.*—It is a class II dispensary under the local municipality. It was visited once each by the District Magistrate and the subdivisional officer, and twice by the Civil Surgeon. A civil hospital assistant was in charge. There were treated 142 in and 6,946 out-patients, against 127 and 6,886 in 1884; the daily averages being 4·96 and 41·40, against 5·54 and 40·87 respectively. One thousand four hundred and ninety-one cases of goitre were treated during the year. The rate of mortality was 9·85 per cent., against 7·08 in the previous year. Ten major and 329 minor operations were performed. No death resulted after operation. The total expenditure was Rs. 1,297, of which Rs. 804 was the cost of establishment. Europe medicines were purchased from private druggists at a cost of Rs 172. Bazar medicines cost Rs. 38. The expenditure on diet was Rs. 104, on buildings Rs. 125, and on miscellaneous items Rs. 54. Government contributed Rs. 5 as cost of forms and registers, municipality paid Rs. 825, and the income from European and native subscriptions was Rs. 124 and Rs. 343 respectively.

*Soorsund.*—It is a class IIIA dispensary managed by a local committee, which held no meetings for a considerable time. The subdivisional officer at Sitamurhee is virtually the manager. It was visited once by the District Magistrate and the subdivisional officer. The Civil Surgeon paid no visits during the year owing, on the first occasion, to the country being under water and the road breached in several places, and on the second occasion palkee-bearers were not forthcoming. A civil hospital assistant was in charge, who received his pay of Rs. 35 a month from the dispensary fund. There were no in-patients. Five thousand eight hundred and thirteen out-patients were treated, with a daily average of 49·62, against 5,942 and 51·27 in 1884. No major operation. There were 162 minor operations performed during the year. The total expenditure was Rs. 721, whereof Rs. 505 was the cost of establishment, Rs. 91 were spent on Europe medicines obtained from private druggists, Rs. 54 on bazar medicines, and Rs. 50 on buildings. The expenditure on miscellaneous items was Rs. 21. Government supplied forms and registers, the cost of which was Rs. 5. The income from interest on investments was Rs. 482, and from native subscriptions Rs. 96 The dispensary had a cash balance of Rs. 289 at the end of the year.

*Sitamurhee.*—A dispensary in class IIIB under the local municipality. It was visited three times by the District Magistrate and twice by the Civil Surgeon. A second-class civil hospital assistant is in charge. The minor establishment cost Rs. 28 a month. There were treated 173 in and 9,774 out-patients, against 267 and 11,426 in 1884; the daily averages being 7·21 and 41·64, against 7·29 and 32·62 respectively. Thus there was a falling off in the number of both indoor and outdoor patients; and this is the more remarkable when the heavy death-rate and great sickness reported by the police is taken

into consideration. The death-rate among in-patients was 6·35, against 2·24 in the previous year. There were 3,762 cases of goitre treated during the year. Two hundred and thirty-seven minor operations were performed. No major operation. The total expenditure was Rs. 1,508, of which Rs. 624 represent the cost of establishment. Europe medicines were purchased from private druggists at a cost of Rs. 223. Bazar medicines cost Rs. 53, diet Rs. 217, buildings and repairs Rs. 315, and miscellaneous items Rs. 76. Government paid Rs. 5 as cost of forms and registers, municipality paid Rs. 226, Rs. 90 were obtained as interest on investments, and Rs. 75 and Rs. 1,244 as subscriptions from Europeans and natives respectively. The dispensary had a cash balance of Rs. 466 at the end of the year.

Durbhunga district.

The general health of the district, the Civil Surgeon says, was very unhealthy than in any previous year since 1880, the number of deaths being 47,450, against 28,796 in 1884, 35,575 in 1883, 44,722 in 1882, and 31,158 in 1881. Fever prevailed widely in the district Cholera existed in every month of the year except January. The incidence of the disease was somewhat irregular as regards time, as, instead of being most prevalent during the hot dry months, it was very slight during April and May, and went on increasing in severity during June, July, August, and September in the face of a very heavy rainfall. The highly insanitary conditions offer great facilities for its outbreak and spread. The deaths from small-pox are below the average of previous years, and call for no special remark. The fever mortality has been very great. The deaths from this cause in this district are always large. The total number of dispensaries working in the Durbhunga district at the end of the year was six, against five in 1884, the one at Laheria Serai having been opened in June 1885 (Bengal Government letter No. 191T—M, dated 23rd April 1885). Of these, three were in class II and three in class IIIA. All the dispensaries except Laheria Serai received both in and out-patients. Laheria Serai dispensary, treated out-patients only. Two under private management, one under that of a committee, and three under the local municipalities. The dispensaries at Durbhunga, Madhubani, and Laheria Serai were under Assistant Surgeons; the rest were in charge of civil hospital assistants. There were treated 915 in and 52,556 out-patients, against 811 and 48,264 in 1884; the daily averages being 46 and 322, against 45 and 265 respectively. The long promised dispensary at Buchour, which Maharajah Kumar Rameshur Sing, C.S., has so long talked about, has not yet been established. The Civil Surgeon hopes that it may be established during the year, as it would give relief over an area now almost without medical aid. The Maharajah of Durbhunga with his usual liberality has established a private dispensary at Jhanjarpore during the year, which ought to be of great benefit to the people. No returns are received from this institution, as it is not in any way under Government supervision.

*Durbhunga.*—This is a class IIIA dispensary entirely supported by the Maharajah of Durbhunga. There is no committee. It was visited daily by the Civil Surgeon, occasionally by Colonel Money, Bengal Staff Corps, Manager, Raj Durbhunga, and by other officials. A second-grade Assistant Surgeon was in charge throughout the year on a salary since he passed his grade examination of Rs. 200 per mensem. There were treated 501 in and 18,802 out-patients, against 439 and 17,471 in 1884; the daily averages being 29 and 113, against 31 and 104 respectively. The increase in the number of patients was due to the fact that half the year the Raj hospital had a competitor about three miles removed in the Laheria Serai municipal dispensary. There were 43 deaths, against 51 in the previous year. Seventy-four major and 632 minor operations were performed. Four deaths resulted after operation. The total expenditure was Rs. 8,184, of which Rs. 5,078 were expended on establishment, Rs. 1,592 on Europe medicines, Rs. 169 on bazar medicines, and Rs. 1,026 on diet; Rs. 319 were spent on miscellaneous items. Government contributed Rs. 18, namely Rs. 5 as cost of forms and registers and Rs. 13 for diet of police cases.

*Naraya.*—A class IIIA dispensary supported by Raj Durbhunga. Visited once by the Civil Surgeon. A civil hospital assistant was in charge, who was paid Rs. 50 per mensem. There were treated 52 in and 5,528 out-patients, against 31 and 4,606 in 1884; the daily averages being 3·26 and 22·83. against 1·18 and 21·07 respectively. There were three deaths among in-patients. Forty-two major and 295 minor operations were performed. No death resulted after operation. The total expenditure was Rs. 1,225, of which Rs. 958 were expended on establishment, Rs. 67 on bazar medicines, Rs. 164 on diet, and Rs. 36 on miscellaneous items. Government contributed forms and registers, the cost of which was Rs. 6. Europe medicines were supplied from the main Raj dispensary.

*Tajpore.*—This is a class IIIA dispensary managed by a committee, of which the Joint-Magistrate is the Vice-Chairman. The committee met four times during the year. It was inspected twice by the Civil Surgeon. The civil hospital assistant of the sub-division was in charge. There were treated 153 in and 9,102 out-patients, against 120 and 9,764 in 1884; the daily averages being 2·56 and 53·70, against 2·97 and 64·94 respectively. There was only one death, against two in the previous year. One hundred and seventy-three minor operations were performed; no major operation. The total expenditure was Rs. 899, of which Rs. 425 were expended on establishment, Rs. 241 on Europe medicines, Rs. 55 on bazar medicines, and Rs. 44 on diet. The amount expended on buildings was Rs. 29, and on miscellaneous items Rs. 78. Government contributed Rs. 10, of which Rs. 6 was the cost of registers and forms and Rs. 4 for diet of police cases. The income from local or other funds was Rs. 8, interest on investments Rs. 27, and subscriptions from Europeans and natives were Rs. 165 and Rs. 675 respectively.

*Roserah.*—A municipal dispensary in class II. All expenses are borne by the municipality, which is presided over by the officer in charge of the duties of the Joint-Magistrate of the sudder station. It was visited once by the Civil Surgeon. The dispensary in its present state does a minimum amount of good, and compares unfavourably with the other dispensaries in the district. A civil hospital assistant was in charge. There were treated 20 in and 4,224 out-patients, against 16 and 5,998 in 1884; the daily averages being ·59 and 34·09, against ·48 and 38·76 respectively. There were two deaths among in-patients. No major operation. Fifty-seven minor operations were performed. The total expenditure was Rs. 1,071, whereof Rs. 658 represent the cost of establishment. The cost of Europe medicines was Rs. 211, of bazar medicines Rs. 27. The expenditure on diet was Rs. 2, on buildings Rs. 114, and on miscellaneous items Rs. 59. Government contributed Rs. 6. Rs. 705 were received from Municipal Funds and Rs. 360 as subscriptions from natives.

*Madhubani.*—This is a class II municipal dispensary. Its affairs are discussed at the municipal meetings, which are held once in every month. It was visited once by the Civil Surgeon. A second-grade Assistant Surgeon was in charge on a salary of Rs. 170 per mensem (including Rs. 20 for the charge of the subdivision paid by Government) from 1st January to 15th November, when he went on three months' privilege leave, and a first-grade Assistant Surgeon has been in charge since. There were treated 189 in and 10,953 out-patients, against 205 and 10,425 in 1884; the daily averages being 10 and 38, against 9 and 36 respectively. There were 14 deaths among in-patients, against 9 in the previous year. Seventeen major and 235 minor operations were performed. One death resulted after operation. The total expenditure was Rs. 2,655, of which Rs. 2,115 was expended on establishment, Rs. 172 on Europe medicines, and Rs. 28 on bazar medicines. Diet cost Rs 250. Rs. 64 were spent on buildings, and Rs. 26 on miscellaneous charges. Government contributed Rs. 6 for forms and registers. The income from European and Native subscriptions was Rs. 481 and Rs. 818 respectively, as interest Rs. 80, and from local sources Rs. 8. Municipality paid Rs. 1,235.

*Laheria Serai.*—This is a dispensary in class II supported entirely by the Durbhunga municipality. The dispensary was inspected frequently by the Civil Surgeon. A third-grade Assistant Surgeon was in charge. The building is a rented one, and is not suitable. Endeavours should be made to get another after May 1886, when the present lease ends. There is no accommodation for indoor patients. There were treated 3,947 out-patients, with a daily average of 60. Three major and 123 minor operations were performed. No death resulted after operation. The total expenditure was Rs. 1,321, whereof Rs. 878 represent the cost of establishment. The expenditure on Europe medicines was Rs. 234, on bazar medicines Rs. 28, and on miscellaneous charges Rs. 181. Government paid Rs. 12 as cost of forms and registers. Municipality paid Rs. 1,309.

Sarun district.

The public health of the district was not so good as that in the preceding year owing to the prevalence of epidemic cholera. There were six dispensaries in the district, as in the previous year, three of which were in class II and were under the municipal control and management, three others in class IIIA. and under private management, two were in charge of Assistant Surgeons, and four under civil hospital assistants. The dispensaries at Chupra, Sewan, and Hutwa treated both indoor and outdoor patients; the other three outdoor patients only. The total number of indoor patients was 515, against 495 in the previous year, and of out-patients 64,335, against 65,481. The daily averages of all in-patients was 33 against the same number in 1884, and that of out-patients 446 against 458. A fair amount of interest was evinced by managing bodies in the dispensaries generally, and the institutions are said to be much appreciated by the people.

*Chupra.*—This is a class II dispensary under the control of the municipality. Visited once by the Commissioner of the Division, thrice by the Magistrate, once by the Joint-Magistrate of Sarun, and some times twice a day, by the Civil Surgeon. A second-grade Assistant Surgeon was in charge throughout the year. He was promoted to the second grade on the 2nd February 1885, since when he has drawn his pay at the rate of Rs. 175 per mensem from the municipal funds. There were treated 248 in and 16,708 out-patients, against 234 and 16,255 in 1884; the daily averages being 18 and 181, against 17 and 162 respectively. The percentage of deaths among indoor patients was 11·69, against 11 in 1884. The high rate of mortality is due to moribund cases and cases of injury brought in by the police; also to railway accidents. Fifty-two major with one death, and 516 minor operations, were performed during the year under review. The total expenditure was Rs. 5,887, of which Rs. 2,978 was the cost of establishment and Rs. 142 of bazar medicines. The cost of Europe medicines purchased from private firms was Rs. 728. The cost of diet was Rs. 593. The expenditure on buildings was Rs. 479, and on miscellaneous items Rs. 967. Government contributed forms and registers, the cost of which was Rs. 18-6-10. Municipality paid Rs. 4,306. The income from European and native subscriptions amounted to Rs. 694, from local funds Rs. 161, and Rs. 708 were received as interest on investments. At the end of the year there was an invested capital of Rs. 17,700.

*Sewan.*—A municipal dispensary in class II. Visited once by the Commissioner of the Division and the District Magistrate, three times by the subdivisional officer, and once by the Vice-Chairman of the Municipality. The Civil Surgeon inspected it three times during the year. A first-class civil hospital assistant in charge of the subdivision was in

charge. Minor establishment cost Rs. 27 monthly. There were treated 127 in and 9,904 out-patients, against 126 and 9,560 in 1884; the daily averages being 3 and 53, against 4 and 80 respectively. The deaths amongst in-patients were 7, against 11 in the previous year, and the death-rate was 5·51, against 8·73. No major, but 224 minor operations were performed. The total expenditure was Rs. 655, of which Rs. 444 was the cost of establishment and Rs. 49 of bazar medicines. Europe medicines were purchased from private firms at a cost of Rs. 62 on indents checked by the Civil Surgeon. The cost of diet was Rs. 46. The expenditure on buildings was Rs. 11, and on miscellaneous items Rs. 43. Government contributed Rs. 12 as cost of registers and forms. Municipality paid nothing. The income from subscriptions was Rs. 108 from Europeans and Rs. 665 from natives.

*Hutwa.*—A class IIIA dispensary entirely supported by the Maharaj of Hutwa. No dispensary committee. It was visited once by the District Magistrate, the District Superintendent of Police, the Commissioner of the Division, and the subdivisional officer of Gopalgunge. The Civil Surgeon inspected it three times during the year. There were several changes among the Assistant Surgeons in charge. The cost of subordinate establishment was Rs. 28-8 per month. There were treated 140 in and 12,556 out-patients, against 135 and 12,353 in 1884. The daily averages were 11 and 74, against 11 and 72 respectively. The death-rate among in-patients was 7, against 16 in the previous year. Twelve major and 354 minor operations were performed. One death resulted after operation. The total expenditure was Rs. 4,985, of which Rs. 3,078 was the cost of establishment and Rs. 309 of bazar medicines. English medicines and surgical instruments were obtained on indent checked by the Manager from England at a cost of Rs. 943. The cost of diet was Rs. 384, and Rs. 219 were spent on repairs to the dispensary buildings. The expenditure on miscellaneous items was Rs. 52. Government contributed forms and registers, the cost of which was Rs. 11.

*Gopalgunge.*—A branch dispensary of Hutwa in class IIIA. It is entirely supported by the Maharaj of Hutwa and managed by his manager. No dispensary committee. Visited once by the District Magistrate, once by the subdivisional officer, and three times by the Civil Surgeon. A civil hospital assistant was in charge, who received Rs. 25 for subdivision from Government and Rs. 30 from the Raj for the dispensary. No in-patients. The number of out-patients was 13,163, against 14,384 in 1884, and the daily average was 55, against 56 in the previous year. No major operation, but 85 minor operations were performed. The total expenditure was Rs. 1,266, of which Rs. 522 represent the cost of establishment. Europe medicines were supplied from the Hutwa dispensary at a cost of Rs. 376. Rs. 53 were expended on bazar medicines, Rs. 109 on miscellaneous charges, and Rs. 206 on buildings. Government paid Rs. 11 as cost of forms and registers.

*Bhori.*—This is also a class IIIA dispensary entirely supported by the Maharaj of Hutwa. There is no dispensary committee. It was visited once by the District Magistrate, once by the subdivisional officer of Gopalgunge, and three times by the Civil Surgeon. There were several changes among the civil hospital assistants in charge. No in-patients. There were 6,569 out-patients treated, with a daily average of 33·92, against 7,746 and 37·96 in 1884. No major operations, but 101 minor operations were performed. The total expenditure was Rs. 1,021, of which Rs. 516 was the cost of establishment. Europe medicines were supplied from the Hutwa dispensary, the cost of which was Rs. 336. The expenditure on bazar medicines was Rs. 94, on buildings Rs. 48, and on miscellaneous items Rs. 27. Government contributed forms and registers, the value of which was Rs. 7.

*Revilgunge.*—A class II dispensary under the management of the local municipality. No separate dispensary committee. It was visited once by the District Magistrate and the Deputy Magistrate of Chupra, and frequently by the Vice-Chairman of the Municipality. The Civil Surgeon inspected it twice during the year. A civil hospital assistant was in charge. The subordinate establishment consists of a compounder on Rs. 10 and a chuprasee on Rs. 5. A municipal sweeper attends daily at the dispensary, but receives no extra pay for this duty. No in-patients. The total number of out-patients treated was 5,425, against 5,183 in 1884, and the daily average was 47·18, against 48·99. No major operations, but 342 minor operations were performed. The total expenditure was Rs. 1,457, of which Rs. 805 was the cost of establishment. Rs. 469 were paid for Europe medicines, which were obtained from a private druggist on indent checked by the Civil Surgeon, and Rs. 51 for bazar medicines. The expenditure on diet was Rs. 44. The Civil Surgeon says that although there were no in-patients yet the amount was spent in providing food for some indigent out-patients by order of the Vice-Chairman. The outlay on buildings was Rs. 10, and Rs. 78 were spent on miscellaneous charges. Government contributed forms and registers, the cost of which was Rs. 11. Municipality paid Rs. 1,424. The income from native subscriptions was Rs. 22.

Chumparun district.

The public health of the district has been bad: not only have deaths increased under every heading of the mortuary returns, but cholera has prevailed in an epidemic form. The general increase may be attributed to the progressive improvement in registration, which has continued since 1880; but the sudden rise of the cholera deaths can be attributed to bad health, the total number of registered deaths being 39,305, against 31,643 in 1884. There were four dispensaries in the district, as in the previous year. One was in class II and three in class IIIB. Two were managed by local municipalities and two by local committees. The dispensaries at Motihari, Bettiah, and Bagaha treated both indoor and outdoor patients.

The one at Burhurwa is an outdoor institution. Two were in charge of Assistant Surgeons and two under civil hospital assistants. The total number of patients treated was 480 in and 33,225 out-patients, against 458 and 36,803 in 1884. The daily averages were 23 and 194, against 20 and 213 respectively. The Civil Surgeon says that there is no particular interest shown by the municipality either at Motihari or Bettiah in their respective dispensaries at those places. The only point that aroused any interest in either of these places was as to the liability to meet the increased pay of the medical officers, who had both passed their examination for promotion during the previous year. In both the smaller dispensaries, Bagaha and Burhurwa, although it is very difficult to get up a committee meeting, there are local members of the committee who have interested themselves in dispensary management.

*Motihari.*—A municipal dispensary under class II. No special meetings were held during the year. The dispensary business was transacted at ordinary municipal meetings. It was visited occasionally by the Magistrate and the Joint-Magistrate, and once by the Inspector-General of Civil Hospitals, Bengal. The Civil Surgeon visited the dispensary daily, or more than once a day on special occasions. A second-grade Assistant Surgeon was in charge. There were treated 155 in and 13,053 out-patients, against 144 and 13,690 in 1884; the daily averages being 7 and 59, against 7 and 60 respectively. There were 20 deaths among in-patients, against 24 in 1884. Goitre is the prevailing disease. Thirty major with one death, and 469 minor operations, were performed. The total expenditure was Rs. 3,056, whereof Rs. 2,362 was the cost of establishment, Rs. 213 of Europe medicines, obtained partly from Government stores and partly from private druggists. The outlay on bazar medicines was Rs. 56, on buildings Rs. 88, on diet of patients Rs. 198, and on miscellaneous items Rs. 139. Government contributed Rs. 21, namely Rs. 11 as cost of forms and registers and Rs. 10 for diet of police cases. The income of the dispensary from subscriptions was Rs. 1,203, and from interest Rs. 45. Municipality paid Rs. 1,786, against Rs. 1,435 in 1884. The dispensary had a capital of Rs. 1,000 invested in Government paper at 4½ per cent. at the end of the year.

*Bettiah.*—A class IIIB dispensary managed by the local municipality. It has not been formally vested in that body. Visited three times by the Magistrate and five times by the subdivisional officer. The Civil Surgeon inspected the dispensary three times during the year. A second-grade Assistant Surgeon was in charge. There were treated 245 in and 9,946 out-patients, against 204 and 9,655 in 1884; the daily averages being 12 and 81, against 9 and 82 respectively. There were 25 deaths, or a rate of 10·2 per cent., against 14 and 6·8 in the previous year. The prevailing diseases were malarious fevers, goitre, skin diseases, &c. Twenty-nine major with three deaths, and 469 minor operations, were performed. The total expenditure was Rs. 2,996, of which Rs. 1,867 was the cost of establishment, Rs. 385 of Europe medicines, which were obtained partly from Government stores and partly from private druggists on indents checked by the Civil Surgeon, and Rs. 100 of bazar medicines. Dieting articles cost Rs. 407. The expenditure on buildings was Rs. 23, and on miscellaneous items Rs 214. Government contributed Rs. 12 as cost of forms and registers. The total income of the dispensary was Rs. 2,996, of which Rs. 1,755 were paid by the Municipality and Rs. 1,229 were obtained from local subscriptions.

*Burhurwa.*—A dispensary in class IIIB under the management of a committee, which held no meetings during the year. It was visited several times by three members of the committee. No visits were paid by any of the district officers. The Civil Surgeon inspected it twice during the year. A civil hospital assistant was in charge, who received Rs. 20 a month—half from Government and half from the dispensary fund. There were no in-patients. Five thousand three hundred and twenty-two out-patients were treated, with a daily average of 27, against 6,289 and 30 in 1884. The Civil Surgeon reports that "it was intended to admit in-patients, but the necessary increase to the subscriptions has not yet been obtained." Two hundred and fifty-five minor operations were performed; no major operations. The total expenditure was Rs. 1,452 of which Rs. 342 was the cost of establishment and Rs. 87 of bazar medicines. Europe medicines were obtained partly from the Government stores and partly from private druggists at a cost of Rs. 221. The expenditure on miscellaneous items was Rs. 52. Government contributed Rs. 123, namely Rs. 120 as half pay of the hospital assistant and Rs. 3 as cost of forms and registers. The income of the dispensary from local subscriptions was Rs. 1,167, and from interest Rs. 84. At the end of the year the cash balance was Rs. 7. Rs. 750 were invested during the year. At the end of the year there was an invested capital of Rs. 2,665.

*Bagaha.*—This is also a class IIIB dispensary managed by a committee, which held two meetings during the year. Visited once by the Magistrate and twice by the subdivisional officer. The Civil Surgeon inspected the dispensary twice. A civil hospital assistant was in charge, who received Rs. 30 per mensem, viz. Rs. 15 from Government and Rs. 15 from the dispensary fund. There were treated 80 in and 4,904 out-patients, against 110 and 7,169 in 1884. The daily averages were 3 and 25, against 3 and 40 in the previous year. There were 15 deaths among in-patients, against the same number in 1884. The death-rate was 18·75 against 13·63. The decrease in the number of patients was due to the smaller number of goitre cases treated during 1885. Thirteen major with one death, and 144 minor operations, were performed. The total expenditure was Rs. 1,141, whereof Rs. 593 was the cost of establishment, Rs. 268 of Europe medicines

obtained from Government stores and private druggists, of which Rs. 111 were paid to Government for medicines supplied in 1884; Rs. 48 were spent on bazar medicines. Dieting articles cost Rs. 109. The expenditure on buildings was Rs. 27 and on miscellaneous items Rs. 96. Government contributed Rs. 173, namely Rs. 166 as half pay of the hospital assistant and Rs. 7 as cost of forms and registers. Subscriptions from Europeans and natives were Rs. 424 and Rs. 480 respectively. There was a cash balance of Rs. 101 at the end of the year.

## BHAGULPORE DIVISION.

Monghyr district.

The general health of the district during the year 1885 has been it is said very unhealthy as compared with 1884, judging from the mortuary returns. Cholera was prevalent from June to November and fever prevailed during the months of September, October and November. There were no changes in the number of dispensaries. Three dispensaries worked in the district, as in 1884. One of these was in class II and managed by the local municipality, the other two in class IIIA and under private management. The dispensary at Monghyr was in charge of an Assistant Surgeon; those at Khurruckpore and Jamui under civil hospital assistants. Two of the dispensaries, namely Monghyr and Khurruckpore, treated both indoor and outdoor patients; the one at Jamui only outdoor patients. There were treated 1,077 in and 23,625 out-patients, against 923 and 20,814 in 1884; the daily averages being 53 and 194, against 56 and 162 respectively. The Civil Surgeon found no reason to doubt the correctness of these figures. The Managing bodies of Monghyr and Khurruckpore dispensaries are said to take much interest in them.

*Monghyr.*—A municipal dispensary in class II under the management of the local municipality. The dispensary was visited once by the Commissioner and once by the District Superintendent of Police. The Civil Surgeon visited it daily. A first-grade Assistant Surgeon was in charge. There were treated 892 in and 15,073 out-patients, against 805 and 13,739 in 1884; the daily averages being 44 and 119, against 49 and 104 respectively. There were 113 deaths, or a rate of 12·6 per cent., against 71 and 8·8 in 1884. The mortality, it is stated, was largely increased by the numerous patients brought in by the police in moribund condition. There were 171 major and 1,461 minor operations performed. Two deaths occurred after operation. The total expenditure was Rs. 72,505, whereof Rs. 3,226 was the cost of establishment. Europe medicines were obtained from private druggists on indents checked by the Civil Surgeon at a cost of Rs. 339. The cost of bazar medicines was Rs. 241. Dieting of in-patients cost Rs. 1,635, and miscellaneous items Rs. 607. The outlay on buildings was Rs 90. Rs. 66,364 were invested during the year. Government contributed Rs. 67, namely Rs. 15 for forms and registers and Rs. 52 for diet of police cases; from local or other funds Rs. 68,130. Municipality paid Rs. 580. Subscriptions from Europeans were Rs. 820, and from natives Rs. 45. Rs. 2,863 were obtained as interest on investments. At the end of the year there was a balance of Rs. 71,500.

*Khurruckpore.*—A class IIIA dispensary entirely supported by the Maharajah of Durbhunga and is under the management of the Assistant Manager of the Raj. The dispensary was visited once by the Magistrate of the district and four times by the Civil Surgeon. A civil hospital assistant was in charge. There were treated 185 in and 6,395 out-patients, against 118 and 5,098 in 1884; the daily averages being 8 and 59, against 7 and 45 respectively. There were 19 deaths among in-patients against 9 in 1884. Fifty-three minor operations were performed; no major operation. The total expenditure was Rs. 1,205, of which Rs. 936 was the cost of establishment. The cost of bazar medicines was Rs. 33, and of diet Rs. 196. The cost of Europe medicines, which were supplied by the manager, Raj Durbhunga, was not known. The expenditure on miscellaneous items was Rs. 40. Government contributed Rs. 7 for forms and registers.

*Jamui.*—A class IIIA dispensary managed by a committee presided over by the subdivisional officer, Jamui. The committee met once during the year. Visited once by the Commmissioner and Magistrate and twice by the Civil Surgeon. A civil hospital assistant was in charge. There were treated 2,157 out-patients, with a daily average of 15, against 1,977 and 13 in the previous year. No in-patients. Seventy-one minor operations were performed. No major. The total expenditure was Rs. 483, of which Rs 243 was the cost of establishment. English medicines were obtained from Government at a cost of Rs. 97. Bazar medicines cost Rs. 22. The expenditure on buildings was Rs. 95, and on miscellaneous items Rs. 26. Government contributed as cost of forms and registers annas nine. Rs. 446 were obtained as interest on invested capital. Subscriptions from natives were Rs. 106. At the end of the year there was an invested capital of Rs. 11,100

Bhagulpore district.

The Civil Surgeon says that the public health of the district shows an increase of sickness over that of last year. There has been in all 61,047 deaths as compared with 42,598 in 1884. There were six dispensaries working at the end of the year. Of the six dispensaries, two were in class II, three in class IIIA, and one in class IIIB. Two were managed by municipalities, three by local committees, and one was under private management. The dispensary at Bhagulpore was in charge of an Assistant Surgeon, and the rest were all under civil hospital assistants. Excepting Protabgunge and Soopoole dispensaries, all the institutions treated both indoor and outdoor patients. There were treated 547 in and 15,468 out-patients, against 460 and 14,788 in 1884. The daily averages were 32 and 140, against 24 and 123 respectively. The Civil Surgeon says the figures have been verified

from the monthly returns and from inquiries made at time of inspections from local Magistrates and secretaries to dispensary committees.

*Bhagulpore.*—It is a municipal dispensary in class II, and is under the management of the municipality. The dispensary was visited by the Commissioner, Magistrate, and Joint-Magistrate, and in addition two municipal commissioners were appointed fortnightly in rotation as the official visitors for the institution. The Civil Surgeon visited it daily. An Assistant Surgeon was in charge. There were treated 398 in and 4,680 out-patients, against 328 and 4,743 in 1884 The daily averages were 24 and 48, against 18 and 45 in the previous year. There were 98 deaths, against 71 in 1884. Seventy-one major and 428 minor operations were performed. The total expenditure was Rs. 4,930, of which Rs. 2,298 was the cost of establishment. Europe medicines cost Rs. 597, and Rs. 104 were paid for bazar medicines. The cost of diet was Rs. 1,005. The expenditure on buildings was Rs. 619, and on miscellaneous items Rs. 307. Government supplied forms and registers, the value of which was Rs 7. Municipality paid Rs. 3,936. Subscriptions from Europeans and natives were Rs. 80 and Rs 61 respectively. Rs. 715 were obtained from local or other funds, and Rs. 131 as interest.

*Banka.*—A class IIIB subdivisional dispensary managed by a committee, which met six times during the year. The dispensary was visited by the Commissioner, the Magistrate, the Civil Surgeon, and frequently by the subdivisional officer. The civil hospital assistant of the subdivisional lock-up was in charge of the dispensary. There were treated 77 in and 1,467 out-patients, against 37 and 1,349 in 1884 ; the daily averages being 4 and 12, against 1 and 12 respectively. There were 16 deaths, against 8 in the previous year. Eleven major and 54 minor operations were performed. The total expenditure was Rs. 896, of which Rs. 324 represent the cost of establishment. The cost of Europe medicines was Rs. 138, and of bazar medicines Rs. 19. Diet cost Rs. 128. The expenditure towards buildings and repairs was Rs. 107 and on miscellaneous items Rs. 52. Rs. 128 were invested during the year. Government contributed Rs. 123, namely Rs. 3 in forms and registers and Rs. 120 as salaries. The income was Rs. 28 from interest on investments, Rs 150 from deposits withdrawn, and Rs. 478 subscriptions from natives. There was a cash balance of Rs. 58 and an invested capital of Rs. 721 at the end of the year.

*Colgong.*—A class II dispensary under the management of the municipality. Visited once by the Magistrate, twice by the Civil Surgeon, and 30 times by the municipal commissioners. A civil hospital assistant was in charge. There were treated 2 in and 2,883 out-patients, against 7 and 2,750 in 1883; the daily averages being ·025 and 22, against ·24 and 21 respectively. No major operation. One hundred and fifty-three minor operations were performed. The total expenditure was Rs. 524, whereof Rs. 411 represent the cost of establishment, Rs. 44 of Europe medicines, and Rs. 21 of bazar medicines. The expenditure on buildings and repairs was Rs. 23, and on miscellaneous items Rs. 25. Government contributed Rs. 2 for forms and registers and Rs. 2 for diet of police cases. Municipality paid Rs. 347. Interest on investments amounted to Rs. 13. Subscriptions from Europeans were Rs. 78, and from natives Rs. 82. There was an invested capital of Rs. 349 at the end of the year.

*Muddehpoorah.*—A class IIIA dispensary. It was visited once by the Civil Surgeon. A civil hospital assistant was in charge, who received Rs. 55. The minor establishment cost Rs. 27 a month. There were treated 70 in and 1,452 out-patients, against 88 and 1,896 in 1884; the daily averages being 2 and 21, against 3 and 15 respectively. Twenty major and 122 minor operations were performed. The total expenditure was Rs. 1,109, of which Rs. 928 represent the cost of establishment, Rs. 17 of Europe medicines, and Rs. 18 of bazar medicines. Diet cost Rs. 32. The expenditure on buildings was Rs. 36, and on miscellaneous items Rs. 78. Government contributed Rs. 3 for forms and registers. Rs. 81 were obtained as interest on investments, and Rs. 99 as subscriptions from Europeans and Rs. 878 from natives. There was a cash balance of Rs. 382, and an invested capital of Rs. 3,000 at the end of the year.

*Protabgunge.*—A class IIIA dispensary managed and supported entirely by Rai Dhunput Sing Bahadoor. It was visited by the Deputy Magistrate of Soopoole; also by the Magistrate of the district. A civil hospital assistant was in charge of the institution. There were treated 2,428 out-patients, with a daily average of 17· against 2,325 and 18 in 1884. No in-patients. Twenty-one minor operations were performed; no major operation. The total expenditure was Rs. 580, of which Rs. 432 was the cost of establishment, Rs. 76 of Europe medicines, and Rs. 60 of bazar medicines. The expenditure on buildings or repairs was Rs. 6, and on miscellaneous items Rs. 6. Government contributed Rs. 3 for forms and registers. Rs. 577 were obtained as subscriptions.

*Soopoole.*—A class IIIA dispensary. It is governed by a dispensary committee headed by the subdivisional officer, which held seven meetings during the year. Visited once by the Magistrate, five times by the subdivisional officer, ten times by the members of the dispensary committee, and once by the Civil Surgeon. A civil hospital assistant was in charge. Two thousand five-hundred and fifty-eight out-patients were treated, with a daily average of 17, against 1,725 and 9 in 1884. Sixty-two minor operations were performed; no major operation. The total expenditure was Rs. 591, of which Rs. 299 was the cost of establishment, Rs. 84 of Europe medicines, and Rs. 10 of bazar medicines. The expenditure on miscellaneous items was Rs. 24, and Rs. 174 were invested during the year. Government supplied forms and registers, the cost of which was Rs. 2. Rs. 182 were

obtained from local funds, Rs. 34 as interest on investments Subscriptions from Europeans and natives were Rs. 60 and Rs. 514 respectively. There was a cash balance of Rs. 1,171 and an invested capital of Rs. 1,090 at the end of the year.

**Purneah district.**

With regard to the public health of the district, the Civil Medical Officer says that the year would have proved a fair one if it had not been for the prevalence of cholera. Ordinary endemic fever did not harass the population; bowel-complaints were not excessive; small-pox was trifling; there was some measles and a predisposition to respiratory and rheumatic affections. Three dispensaries worked in the district throughout the year, two of which were in class II and managed by municipalities, and one in class IIIA under a local committee. All the dispensaries were in charge of civil hospital assistants. The dispensary at Purneah treated both indoor and outdoor patients. Kissengunge and Bussuntpore dispensaries treated only outdoor patients. There were treated 157 in and 9,677 out-patients, against 152 and 8,046 in 1884; the daily averages being 6 and 49, against 5 and 41 respectively. The Civil Medical Officer says the figures are reliable. The interest of manging committees and municipal bodies in their institutions is not very great. The poor appreciate the dispensary for surgical relief especially, and they go nowhere else.

*Purneah.*—It is a municipal dispensary in class II. All matters connected with the institution are discussed and disposed of at the ordinary meetings of the municipal commissioners. It was visited once by the Commissioner, five times by the municipal members, and almost every day by the Civil Medical officer. A civil hospital assistant was in charge. There were treated 157 in and 5,713 out-patients, against 152 and 4,537 in 1884; the daily averages being 6 and 31, against 5 and 28 respectively. There were 28 deaths among in-patients. Thirty-four major with one death and 53 minor operations were performed. The total expenditure was Rs. 2,039, of which Rs. 1,085 represent the cost of establishment. Europe medicines were obtained from Government stores at a cost of Rs. 54. The cost of bazar medicines was Rs. 18; dieting of patients cost Rs. 105. The expenditure on buildings and miscellaneous charges was Rs. 724 and Rs. 53 respectively Government paid Rs. 5-8-8, namely Rs. 4-0-11 for forms and registers and Re. 1-7-9 for diet of police cases. Municipality paid Rs. 1,036. Subscriptions from Europeans were Rs. 382, and from natives Rs. 275. Rs. 340 were received as interest on investments. There was an invested capital of Rs. 8,500 at the end of the year.

*Kissengunge.*—It is a class II dispensary under the management of the subdivisional officer Visited twice by the District Magistrate and the Civil Medical Officer. A civil hospital assistant was in charge, who received Rs. 25 from Government for the subdivision, Rs. 10 for executive charge of the subsidiary jail, and an additional allowance of Rs. 10 from the dispensary fund. There were treated 1,096 out-patients, against 1,521 in 1884; the daily average being five, against the same number in the previous year. Two major and 24 minor operations were performed. The total expenditure was Rs. 264, whereof Rs. 204 were expended on establishment. The cost of Europe medicines was Rs. 26, and of bazar medicines Rs. 12. The expenditure on miscellaneous items was Rs. 22. Government supplied forms and registers, the value of which was Rs. 2-8-0. Rs. 65 were obtained from local funds. Subscriptions from natives were Rs. 194. There was a cash balance of Rs. 1,478 at the end of the year.

*Bussuntpore.*—This is a class IIIA dispensary managed by a committee, which met seven times during the year, and which shows that some interest is taken in the management; but none of the members appear to have visited the institution. It was visited once by the District Magistrate and twice by the subdivisional officer. The Civil Medical Officer inspected it twice. A second-grade civil hospital assistant was in charge. There were treated 2,868 out-patients, with a daily average of 11, against 1,988 and 8 in 1884. No in-patients. The total expenditure was Rs. 489, of which Rs. 312 were expended on establishment. The cost of Europe medicines was Rs. 30, and of bazar medicines Rs. 6. The expenditure on buildings was Rs. 37, and on miscellaneous items Rs. 50. Government paid annas 8 for forms and registers. Rs. 26 were obtained as interest on investments. Subscriptions from Europeans and natives were Rs. 36 and Rs. 417 respectively. There was a cash balance of Rs. 47 at the end of the year. Rs. 54 were invested during the year.

**Maldah district.**

The public health of the district has been unfortunately a little worse than what it was in the preceding year, the total mortality of the district from all causes during the year under review being 17,966, against 13,044 of the last year; thus giving a ratio of 25·2 per 1,000 of population, against 18·3 in 1884. Most of the deaths were caused by cholera and fever. There were three charitable dispensaries working at the end of the year, two of which were in class II under municipal management and in charge of civil hospital assistants, and one in class IIIA governed by the Manager under the Court of Wards, and also in charge of a civil hospital assistant. Two of these dispensaries receive both in and outdoor patients, and one only outdoor. There were treated 171 in and 14,207 out-patients, against 144 and 9,134 in 1884; the daily averages being 6 and 105, against 4 and 60 respectively. The Civil Medical Officer says that he can give no definite opinion on the verification of the figures, as he has very recently taken over medical charge of the district. The governing bodies appear to take active interest in the working of the institutions, and the people show fair appreciation of their value.

*Maldah.*—English Bazar Dispensary. This is a municipal dispensary in class II. The committee held three meetings during the year. Visited thrice by the Magistrate of

the district and once by the Divisional Commissioner. The Civil Surgeon paid daily visits. A civil hospital assistant was in charge. There were treated 166 in and 7,669 out-patients, against 144 and 6,469 in 1884. The daily averages were 6 and 49, against 4 and 42 respectively. There were 38 deaths, or a rate of 22·89 per thousand, against 24, or a rate of 16·66, in 1884. Thirty-six major and 288 minor operations were performed. The total expenditure was Rs. 1,585, whereof Rs. 581 was the cost of establishment, Rs. 399 of Europe medicines, Rs. 89 of bazar medicines. The expenditure on diet was Rs. 244, on miscellaneous items Rs. 164. Rs. 108 were invested during the year. Government paid Rs. 24, namely Rs. 13 for forms and registers and Rs. 11 for diet of police cases; municipality paid Rs. 833. Rs. 60 were obtained from local or other funds, and Rs. 109 as interest on investments. Rs. 257 were received from withdrawal of deposits, and subscriptions from Europeans and natives amounted to Rs. 302. There was an invested capital of Rs. 1,492 at the end of the year.

*Maldah Town.*—A municipal dispensary in class II under the management of the municipal commissioners, who held six meetings during the year. The Civil Surgeon paid six visits during the year. A civil hospital assistant was in charge. Four thousand three hundred and three outdoor patients were treated, with a daily average of 36, against 2,665 and 18 in 1884. No in-patients. Five major and 174 minor operations were performed. The minor establishment consisted of a compounder on Rs. 5 and a servant on Rs. 4 a month. The total expenditure was Rs. 839, of which Rs. 468 was the cost of establishment. The cost of Europe medicines was Rs. 201, and of country medicines Rs. 19. The outlay on buildings was Rs. 54, and on miscellaneous items Rs. 25. Rs. 72 were invested during the year. Government contributed Rs. 13 in forms and registers. Municipality paid Rs 655. Interest on investments amounted to Rs. 72, and subscriptions from natives Rs. 99. There was an invested capital of Rs. 1,370 at the end of the year.

*Chanchal.*—A class IIIA dispensary governed by the Manager under the Court of Wards. The Civil Surgeon visited the dispensary twice during the year. A civil hospital assistant was in charge, whose emoluments are entirely derived from the Chanchal estates under the Court of Wards. There were treated 5 in and 2,235 out-patients during the year, with a daily average of ·182 and 19·78 respectively. Eighty-three minor operations were performed; no major. The total expenditure was Rs. 1,569, of which Rs. 846 represent the cost of establishment. Europe medicines cost Rs. 643, and bazar medicines Rs. 22; diet Rs. 10, and miscellaneous items Rs. 48. Government contributed Rs. 15 as cost of forms and registers, and Rs. 1,554 were received from the Chanchal estates.

**Sonthal Pergunnahs district.** The general health of the district was worse than in 1884. Fever and cholera prevailed in the various towns and subdivisions of this district during the year under review. The number of registered deaths was 28,883, against 24,343 in 1884. Five dispensaries worked in the district throughout the year, of which one was in class II and under municipal control, one in class IIIB, and three in class IIIA, and are managed by local committees. All the dispensaries were in charge of civil hospital assistants. With the exception of the dispensary at Jamtara, all the others treated both indoor and outdoor patients. There were treated in all 239 in and 7,140 out-patients, against 226 and 7,411 in 1884. The daily averages were 7 and 50, against 8 and 56 respectively. "These figures," says the Civil Surgeon, "were found correct, and may therefore be accepted." The managing bodies are said to take a fair amount of interest in their affairs, with the exception of Godda and Jamtara, at which places the committee do not seem to take any interest in their respective institutions. The dispensaries are fairly appreciated by the sick-poor of the places where the institutions are located.

*Doomka.*—A class IIIA dispensary. There is no municipality at Doomka. The dispensary is under the management of a committee, which held seven meetings. It was visited once by the Commissioner of the Division, four times by the Deputy Commissioner, and almost daily by the Civil Surgeon. A civil hospital assistant of the second class was in charge throughout the year, who received his entire pay, Rs. 35, from the dispensary fund. The cost of minor establishment is Rs. 23 a month. There were treated 66 in and 2,341 out-patients, against 96 and 2,781 in 1884; the daily averages being 2 and 15, against 3 and 20 respectively. There were 12 deaths, against 19 in the previous year. Twenty-three major with one death and 149 minor operations were performed. The total expenditure was Rs. 1,429 of which Rs. 681 were the cost of establishment, Rs. 132 of Europe medicines obtained from private druggists on indents checked by the Civil Surgeon, and Rs. 13 of country medicines. The cost of diet was Rs. 85. The expenditure on miscellaneous items was Rs. 44. The total income was Rs. 1,449, of which Government paid Rs. 166, namely Re. 1 as cost of forms and registers; Rs. 120 as a special allowance, being the aid of Rs. 10 per mensem formerly paid out of the "Estates Improvement Fund," now abolished; and Rs. 45 for dieting of police cases. Rs. 72 were obtained as interest on investments; Rs. 615 were derived by withdrawal of deposits; and Rs. 474 were invested during the year. Subscriptions from Europeans and natives were Rs. 221 and Rs. 351 respectively. The dispensary had a closing balance of Rs. 20 in hand, and an invested capital of Rs. 1,784 at the end of the year.

*Deoghur.*—It is a municipal dispensary in class II under the management of the local municipality, which held twelve meetings during the year. It was visited once by the Commissioner of the Division, once by the Deputy Commissioner, and three times by the Civil Surgeon. The civil hospital assistant of the subdivision was in charge, and received Rs. 45 from the

dispensary and Rs. 25 from Government. The minor establishment cost Rs. 24 per mensem. There were treated 142 in and 1,883 out-patients, against 91 and 1,955 in 1884. The daily averages were 4 and 10, against 3 and 12 respectively. The public health of the town of Deoghur itself, as well as of the Deoghur thana, the Civil Surgeon says, was worse in 1885 than in 1884. This is fairly reflected in the increase of indoor patients, but the decrease of outdoor patients seems anomalous. But this apparent anomaly may receive an explanation from the temporary absence on leave of the permanent and popular civil hospital assistant when those who were suffering from slighter forms of ailment, and were therefore not absolutely compelled to seek medical relief, kept away from the outdoor relief. There were 74 deaths among in-patients, against 25 in the previous year. This increased mortality was due to the moribund condition of a large number of cholera cases admitted for treatment in hospital in March 1885. Fifteen major and 90 minor operations were performed. Two deaths resulted after operation. The total expenditure was Rs. 1,279, of which Rs. 856 represent the cost of establishment, Rs. 90 of Europe medicines which were obtained from a private druggist, and Rs. 17 of bazar medicines. The cost of diet was Rs. 113. The expenditure on buildings was Rs. 144, and on miscellaneous charges Rs. 59. The total income was Rs. 1,279, of which Government paid Rs. 28, viz. Rs. 2 as cost of registers and forms and Rs. 26 for dieting of police cases. Municipality paid Rs. 155. Rs. 130 were obtained as interest on investments. Subscriptions from Europeans and natives amounted to Rs. 214 and Rs. 696 respectively. The invested capital of Rs. 3,000 was not touched.

*Godda.*—It is a class IIIB dispensary managed by a committee, which held no meetings during the year. The subdivisional officer, however, sees that the institution does not suffer by the apparent want of interest in it of the dispensary committee. It was visited once by the Commissioner, once by the Deputy Commissioner, and twice by the Civil Surgeon. The civil hospital assistant of the subdivision was in charge, and received Rs. 10 monthly from the dispensary funds. The minor establishment consisted of a compounder on Rs. 9, one cook on Rs. 4, and one sweeper on Rs. 4 per mensem. There were treated 25 in and 799 out-patients, against 34 and 887 in 1884. The daily averages were ·59 and 7, against one and 9 respectively. There were four deaths among in-patients, against two in the previous year. Thirty-six minor operations were performed; no major operation. The total expenditure was Rs. 618, of which Rs. 324 was the cost of establishment. Europe medicines were obtained from private druggists at a cost of Rs. 67. The cost of bazar medicines was Rs. 10, and diet of in-patients Rs. 22. The outlay on buildings was Rs. 7, and on miscellaneous items Rs. 52. Government paid Rs. 120-14-10, namely Re. 0-14-10 for forms and registers and Rs. 120 as special allowance. Subscriptions from Europeans and natives amounted to Rs. 17 and Rs 232 respectively. Interest on investment was Rs. 86. Rs. 100 were obtained by withdrawal of deposits, and Rs. 146, were invested during the year There was an invested capital of Rs. 2,367 (deposited in the Savings Bank at Godda) at the end of the year.

*Jumtara.*—A class IIIA dispensary under the management of a local committee, which met once during the year. It was neither visited by the Commissioner of the Division nor by the Deputy Commissioner of the district. The Civil Surgeon inspected it three times. The civil hospital assistant of the subdivision was in charge, and received Rs. 20 monthly from the dispensary fund. No in-patients. One thousand and forty-five out-patients were treated, against 1,057 in 1884. The daily average was 5·75, against 6·22 respectively. Two major and 67 minor operations were performed. The total expenditure was Rs. 372, of which Rs. 282 was the cost of establishment. Europe medicines were obtained from a private druggist at a cost of Rs. 50, and bazar medicines cost Rs. 2 The amount expended on buildings was Rs. 12, and on miscellaneous items Rs. 7. Government supplied forms and registers, the cost of which was seven annas. The chief income of the dispensary was derived, from subscription, which was Rs. 330, against Rs. 282 in 1884. Rs. 19 were obtained as interest on investment. The dispensary had a closing balance of Rs. 34 and an invested capital of Rs. 546 at the end of the year.

*Rajmehal.*—It is a subdivisional dispensary in class IIIA managed by a committee, which held seven meetings. It was neither visited by the Commissioner of the Division nor by the Deputy Commissioner of the district. The Civil Surgeon inspected the dispensary twice during the year. The civil hospital assistant of the subdivision was in charge, and received Rs. 10 per mensem as an extra allowance from the dispensary fund. The minor establishment consisted of a collecting peon on Rs. 3 and a sweeper on Rs. 2 per month. There were treated 6 in and 1,072 out-patients, against 5 and 731 in 1884; the daily averages being ·10 and 10·97, against ·04 and 6·96 respectively. There were four deaths among in-patients. Although there was no indoor department, a few cases of a moribund nature were brought in by the police and treated as house-patients. The high rate of mortality, says the Civil Surgeon, cannot be said to be too high considering the hopeless nature of the cases admitted. Ninety-three minor operations were performed; no major operation. The total expenditure was Rs. 397, of which Rs. 179 was the cost of establishment and Rs. 11 of diet. English medicines were obtained from a private druggist at a cost of Rs. 57. Bazar medicines cost Rs. 9, and Rs. 29 were spent on miscellaneous items. The total income was Rs. 415, of which Government paid Rs. 12, namely Re. 1 for forms and registers and Rs. 11 for dieting of police cases. Subscriptions from Europeons and natives were Rs. 49 and Rs. 236 respectively. Interest on investment was Rs. 12, and withdrawal of

deposits Rs. 98. Rs. 112 were invested during the year. The dispensary had a closing balance of Rs. 18, and an invested capital of Rs. 356 at the end of the year. The existence of this dispensary still continues to be precarious owing to the uncertain nature of its income from local subscriptions, which are largely in arrear, viz. Rs. 317-12, against Rs. 415-14 in 1884.

CHOTA NAGPORE DIVISION.

Manbhoom district.

The Civil Surgeon says that the year under review has been a healthier one than the previous year; there being no epidemic of any consequence, and only a few sporadic cases of cholera in the town. There were three dispensaries in the district, one of which was in class II and two in class IIIA. There were treated 587 in and 8,565 out-patients, against 636 and 9,508 in 1884; the daily averages being 26 and 72, against 24 and 83 respectively. The Civil Surgeon believes that the figures compiled by the civil hospital assistants can be relied on.

*Purulia.*—A class II municipal dispensary. A sub-committee consisting of six members of the municipality exists. A meeting was convened regularly every month, when the accounts were examined and passed. The Civil Surgeon visits the dispensary daily. The Sanitary Commissioner for Bengal visited the dispensary once, and the Deputy Commissioner visits at intervals. A second-grade civil hospital assistant was in charge. There were treated 323 in and 5,270 out-patients, against 369 and 5,938 in 1884; the daily averages being 17 and 43, against 16 and 50 respectively. The most prevailing diseases among out-patients were fever, ophthalmia, and skin affections. There were 40 deaths among in-patients, against 32 in 1884. Twenty-five major and 281 minor operations were performed. Of the former the Civil Surgeon performed 14. The total expenditure was Rs. 2,086, whereof Rs. 1,331 represent the cost of establishment, Rs. 177 of Europe medicines, Rs. 47 of bazar medicines, and Rs. 252 of diet. The expenditure on buildings was Rs. 193, and Rs. 86 on miscellaneous items. Government contributed Rs. 63 namely, Rs. 8 for forms and registers and Rs. 55 for diet of police cases. Municipal funds contributed Rs. 1,360. Europeans subscribed Rs. 158, and natives Rs. 505. There was no cash balance at the end of the year.

*Pandra.*—A class IIIA dispensary. The Civil Surgeon says, the result of the litigation of the Pandra estate not being known, it is difficult to say what the future of the institution will be. It is under the management of a committee, which met six times during the year. Inspected by the Civil Surgeon twice, and once by the Deputy Commissioner of Manbhoom and Sanitary Commissioner for Bengal. The native doctor who was in charge was dismissed, and a civil hospital assistant has been appointed by the Inspector-General of Civil Hospitals, Bengal. There were treated 94 in and 1,942 out-patients, against 111 and 2,023 in 1884; the daily averages being 4 and 18, against 3 and 19 respectively. There were 5 deaths, against 11 in 1884. Seventy-two minor operations were performed; no major. The total expenditure was Rs. 1,045 including the amount invested during the year. Government contributed Rs. 6 for forms and registers. Establishment cost Rs. 738, bazar medicines Rs. 18, Europe medicines Rs. 95, diet Rs. 87, miscellaneous items Rs. 96, and invested during the year Rs. 11. There was an invested capital of Rs. 327 at the end of the year.

*Gobindpore.*—A class IIIA subdivisional dispensary in charge of the civil hospital assistant of the subdivision. It is under the mangement of a committee, which met nine times during the year. The Civil Surgeon inspected it on two occasions. There were treated 170 in and 1,353 out-patients, against 156 and 1,547 in 1884; the daily averages being 4 and 10, against 4 and 12 respectively. There were 25 deaths, against 28 in the previous year. The mortality is attributed to the fact that most of the patients were pilgrims admitted in a moribund condition. Fifty-six minor operations were performed, and two major. The total expenditure was Rs. 797, inclusive of the amount invested during the year. Government contributed Rs. 10, namely Rs. 7 for forms and registers and Rs. 3 for diet of police cases. Subscriptions from Europeans were Rs. 62, and from natives Rs. 565. Rs. 27 were obtained from local or other funds, Rs. 9 as interest on investment, and Rs. 125 from deposits withdrawn. Establishment cost Rs. 377, bazar medicines Rs. 14, Europe medicines Rs. 45, diet Rs. 80, miscellaneous items Rs. 52, buildings or repairs Rs. 25, and invested during the year Rs. 204. At the end of the year there was an invested capital of Rs. 340.

Hazaribagh district.

The Civil Surgeon says that the year under review was a most unhealthy one, and in addition to ordinary sources of mortality the district was visited by a very severe epidemic of cholera. There were three dispensaries in the district: two of these were in class II and one in class IIIB. There were treated 252 in and 6,451 out-patients, against 238 and 5,839 in 1884; the daily averages being 14 and 49, against 15 and 60 respectively. The Civil Surgeon believes the figures of the dispensaries to be correct. All the dispensaries were in charge of civil hospital assistants. Two of them were managed by the municipality, and one by a local committee. The interest taken, the Civil Surgeon says, is but slight.

*Hazaribagh.*—A municipal dispensary in class II. The Deputy Commissioner held five meetings. The Civil Surgeon visited it frequently, and the Inspector-General of Civil Hospitals, Bengal, once during the year. There were treated 238 in and 3,154 out-patients, against 230 and 3,066 in 1884; the daily averages being 14 and 27, against 15 and 36 respectively. Forty

deaths occurred among in-patients. Twenty-three major and 207 minor operations were performed. Only one death occurred. The total expenditure amounted to Rs. 1,824, of which Government contributed Rs. 12 as cost of forms and registers. The cost of establishment was Rs. 684, of Europe medicines Rs. 330, of bazar medicines Rs. 60, and of diet Rs. 422. The expenditure on buildings was Rs. 79, and on miscellaneous items Rs. 249. Municipality paid Rs. 1,053. Subscriptions from Europeans and natives were Rs. 267 and Rs. 453 respectively. Rs. 39 were received from local funds.

*Chatra.*—A municipal dispensary in class II under the management of the municipal commissioners, who held three meetings during the year. Visited by the municipality frequently. There were treated 14 in and 2,117 out-patients, against 8 and 1,836 in 1884; the daily averages being ·467 and 11·09 against ·47 and 12·92 respectively. One hundred and five minor operations were performed; no major operation. The total cost amounted to Rs. 703, of which Government contributed Rs. 9, namely Rs. 4 as cost of forms and registers and Rs. 5 for diet of police cases. The expenditure on establishment was Rs. 605, on Europe medicines Rs. 10, on bazar medicines Rs. 10, on buildings Rs. 4, on diet Rs. 5, and on miscellaneous items Rs. 69. Subscriptions from natives were Rs. 282. Rs. 335 were obtained from municipal funds.

*Burhi.*—A class IIIB dispensary governed by a local committee, which met once during the year. Two visits were paid by the dispensary committee and the Civil Surgeon. One thousand one hundred and eighty out-patients were treated, against 937 in 1884, with a daily average of 11 and 10 respectively. One hundred and twenty-three minor operations were performed; no major operation. The total cost was Rs. 637, of which Government contributed Rs. 183, namely Rs. 180 for salaries and Rs. 3 for forms. The expenditure on establishment was Rs. 396, on Europe medicines Rs. 63, on bazar medicines Rs. 6, on miscellaneous items Rs. 72. Rs. 100 were invested during the year. Subscriptions from Europeans and natives were Rs. 48[illegible]. Rs. 29 were obtained as interest on investments, and Rs. 4 from local funds. At the end of the year there remained a cash balance of Rs. 108 and an invested capital of Rs. 900.

Lohardugga district.

The Civil Surgeon says that, judging by the mortuary returns furnished monthly by the police, the general health of the district was better than in the previous year; but as no reliance can be placed on these figures, it is impossible to draw any useful comparison. Cholera was prevelant in the rainy season in certain parts of the district. There were three dispensaries in the district—one in class II and the other two in class IIIB. Two receive in and out-patients, and one outdoor only. There were treated 191 in and 6,102 out-patients, against 267 and 6,036 in 1884; the daily averages being 12 and 60, against 13 and 59 respectively. The figures of the dispensaries, the Civil Surgeon says, are fairly correct. One of the dispensaries is under the management of the municipality, and the other two are governed by local committees. The Civil Surgeon says that little or no interest is taken in any of them by the governing bodies with the exception of Government officers who are connected with them as *ex-officio* members.

*Ranchi.*—A municipal dispensary in class II. Visited once by the Sanitary Commissioner, daily by the Civil Surgeon, and occasionally by the European civil officers. A civil hospital assistant was in charge. There were treated 97 in and 3,569 out-patients, against 134 and 3,508 in 1884; the daily averages being 6 and 36, against 7 and 35 respectively. The total number of deaths among in-patients was 19 as compared with 33 in 1884. The chief causes of deaths are said to be dysentery among pilgrims admitted in a hopeless condition. Fourteen major with one death and 109 minor operations were performed. The total expenditure was Rs. 1,341, whereof Rs. 731 represent the cost of establishment, Rs. 108 of Europe medicines which were obtained from private druggists, and Rs. 53 of country medicines. The cost of diet was Rs. 164. The expenditure on buildings was Rs. 217, and on miscellaneous items Rs. 68. Government paid Rs. 59, namely Rs. 15 for forms and registers and Rs. 44 for diet of police cases. Subscriptions from Europeans were Rs. 102, and from natives Rs. 178. Municipality paid Rs. 1,002.

*Palamow (Daltongunge).*—A dispensary in class IIIB in charge of the Assistant Surgeon of the subdivision, who received his dispensary allowance from Government. Managed by a local committee, which met twice during the year. Visited frequently by the Assistant Commissioner of the subdivision and by the Deputy Commissioner when on tour. Inspected twice by the Civil Surgeon. There were treated 94 in and 1,477 out-patients, against 133 and 1,453 in 1884; the daily averages being 5 and 11, against 6 and 12 respectively. There were seven deaths among the in-patients, against nine in 1884. Six major and 67 minor operations were performed. No deaths resulted after operation. The total expenditure was Rs. 1,007, of which Rs. 483 was the cost of establishment, Rs. 144 of Europe medicines which were obtained from private sources, and Rs. 40 of bazar medicines. The cost of diet was Rs. 142. The expenditure on buildings was Rs. 94, and on miscellaneous items Rs. 104. Government paid Rs. 252, namely Rs. 9 as cost of forms and registers and Rs. 243 as dispensary allowance to the medical subordinate. Subscriptions from Europeans were Rs. 138, and from natives Rs. 463. Re. 1-10 were obtained as interest on investments. There was a cash balance of Rs. 160 at the end of the year.

*Lohardugga.*—A class IIIB dispensary. This is under the management of a local committee, which met five times during the year. It was visited once by the Deputy Commissioner and twice by the Civil Surgeon. A civil hospital assistant was in charge There were treated 1,056 out-patients, against 1,075 in 1884; the daily averages being 12 and 11 respectively. Thirty-seven minor operations were performed; no major operation. The

total expenditure was Rs. 766, of which Rs. 766 was the cost of establishment and Rs. 6 of bazar medicines. English medicines were purchased from private druggists, the amount of which was not paid during the year. The expenditure on miscellaneous items was Rs. 29. Government paid Rs. 57, namely Rs. 4 as cost of forms and registers and Rs. 53 as salaries. Rs. 3 were obtained as interest on investments, and Rs. 75 were derived by withdrawal of deposits. Subscriptions from Europeans and natives were Rs. 11 and Rs. 628 respectively. Rs 273 were invested during the year. There was a cash balance of Rs. 8 at the end of the year.

Singbhoom district.

The Civil Surgeon says that the health of the district as compared with the previous year was somewhat better, but cholera existed epidemically during the year in several parts of the district, whereas in the previous year its existence was sporadic. There were 338 deaths from cholera, against 112 in the previous year. Excluding deaths from cholera, the mortality from other causes was much lower than in the previous year. The health of the town and the municipality of Chyebassa was not as good as in the previous years. There was only one dispensary in the district, the one located in Chyebassa.

*Chyebassa.*—A municipal dispensary in class II under the management of the municipal committee, which transacts all business connected with it at the ordinary meetings of the municipal committee. Of the municipal commissioners, the Deputy Commissioner alone visited the dispensary occasionally. The Civil Surgeon visited it daily. The jail hospital assistant was in charge. There were treated 1,658 out-patients, against 1,958 in 1884; the daily averages being 18 and 19 respectively. Ophthalmia, which forms the largest number of attendance at the dispensary, was less than in the previous year. Two major and 36 minor operations were performed. The total expenditure was Rs. 522, of which Rs. 207 was the cost of establishment, Rs. 182 of Europe and Rs. 45 of bazar medicines. The cost of diet was Rs. 39, and the expenditure on miscellaneous items was Rs. 49. Government paid Rs. 14, namely Rs. 3 as cost of forms and registers and Rs. 11 as diet of police cases. Subscriptions from Europeans were Rs. 148, and from natives Rs. 119. Municipality paid Rs. 151, and Rs. 80 were obtained from interest on investments.

I have the honour to be,

SIR,

Your most obedient servant,

A. J. COWIE,

*Inspector-General of Civil Hospitals, Bengal.*

# APPENDIX.

# STATISTICAL TABLES.

## Statement No. I.

*Showing the Number of Dispensaries in Bengal during the year* 1885.

| 1 | 2 | 3 | 4 | 5 | 6 | 7 |
|---|---|---|---|---|---|---|
| Population of the Province. | Dispensaries. | Number open on 31st December 1884. | Number opened during the year. | Number closed during the year. | Number open on the last day of the year. | Remarks. |
| 69,536,861 ... ... | Class I ... ... ... ... | 5 | ...... | ...... | 5 | * The transfer of dispensaries from one class to another caused the difference in the total under these classes. There is no column to indicate these in the statement. |
| | ,, II ... ... ... ... | 86 | 4 | | 90 | |

# MUNICIPAL DEPARTMENT.

## MEDICAL.

DARJEELING, THE 29TH OCTOBER 1886.

## RESOLUTION.

READ—

The Report on the Charitable Dispensaries in Bengal for the year 1885.

Read also—

The Report for 1884 and the Resolution recorded on it.

On the 31st December 1884 there were 230 dispensaries under Government supervision. During the year 1885, seven new institutions were established, while four were closed or removed from the Government list. The total number of dispensaries open at the close of the year under review was therefore 233 against 230 of the previous year. Twenty-four Assistant Surgeons were received by transfer from the Imperial list. Eighteen Civil Hospital Assistants were admitted into the service, of whom seven came from the Campbell Medical School, five from Patna, four from Dacca, and two from Cuttack. It was pointed out to the Government of India that the limit of age for the entrance of Assistant Surgeons into the service of Government should be raised from 25 to 28 years. So long as the limit remained at 25 years it pressed hard on many of the best students, especially those who commenced the study of medicine after taking the degree of Bachelor of Arts. Since the close of the year the Government of India has ordered that the limit of age for the entrance of Assistant Surgeons into the service of Government in Bengal should be raised to 28 years.

2. The Lieutenant-Governor notices with pleasure the testimony borne by the Inspector-General of Civil Hospitals to the proficiency exhibited by the students of the Dacca Medical School at the last annual examination. Dr. Cowie is invited to express more fully his views regarding the propriety of increasing the fees paid by the recipients of medical education in this Province. It is presumed that the suggestion that young men who desire to study medicine should contribute more largely towards their education, has reference to students at the Medical College as well as to students at the medical schools. The Lieutenant-Governor would ask for an early expression of the Inspector-General's recommendations upon this point.

3. Returns have been received from 229 out of the 233 dispensaries, and the following table compares the amount of work done in them during 1884 and 1885 :—

| | IN-DOOR. | | | | | | | | | | OUT-DOOR. | | | | | | | | | |
|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|
| | Under 25. | 25 to 50. | 50 to 75. | 75 to 100. | 100 to 250. | 250 to 500. | 500 to 750. | 750 to 1,000. | Upwards of 1,000. | Total. | Under 250. | 250 to 500. | 500 to 750. | 750 to 1,000. | 1,000 to 2,500 | 2,500 to 5,000. | 5,000 to 7,500. | 7,500 to 10,000. | Upwards of 10,000. | Total. |
| 1885 ... ... | 17 | 14 | 20 | 11 | 44 | 19 | 6 | 3 | | 136 | ... | ... | 3 | 6 | 78 | 77 | 33 | 16 | 16 | 229 |
| Percentage ... | 12·5 | 10·29 | 14·71 | 8·09 | 32·35 | 13·97 | 4·41 | 2·21 | 1·47 | .. | ... | ... | 1·31 | 2·62 | 34·06 | 33·62 | 14·41 | 6·99 | 6·99 | .. |
| 1884 ... ... | 16 | 14 | 11 | 16 | 43 | 23 | 5 | 3 | 1 | 132 | 2 | ... | 3 | 11 | 68 | 79 | 36 | 11 | 19 | 229 |
| Percentage ... | 12·12 | 10·61 | 8·33 | 12 12 | 32·58 | 17·42 | 3·79 | 2·27 | ·76 | ... | ·87 | ... | 1·31 | 4·80 | 29·69 | 34·5 | 15·72 | 4·80 | 8·30 | ... |

The total number of dispensaries which received in-door patients was 136 against 132 in the previous year.

4. Of these 229 dispensaries, 50 were visited by the Civil Surgeons daily or frequently, seven more than four times during the year, eleven four times, twenty-one three times, twenty-three twice, fifty-three once, and

fourteen were not inspected at all. The Inspector-General of Civil Hospitals observes :—

"I have been struck with the real interest in sanitation evinced by the medical officers in charge of the institutions I have been able to personally inspect during the year, and I have no reason to question that the same healthful progress obtains generally elsewhere. Some of the institutions were models of cleanliness. Hygienic arrangements were conducted systematically and intelligently. Civil Surgeons encourage their subordinates in this direction as in all other professional matters; and, judging from practical results, I must say their endeavours have met with no mean success."

It is not stated how many institutions were inspected during the year by the Inspector-General himself. This information should be given in future reports.

5. The following table shows the number of patients treated in 1885 and in the previous seven years, and the ratio of mortality among in-patients :—

| | In-patients treated. | Out-patients treated. | Total. | Mortality among in-patients, per cent. |
|---|---|---|---|---|
| 1878 ... ... ... ... ... | 28,473 | 927,783 | 956,256 | 20·01 |
| 1879 ... ... ... ... ... | 24,847 | 865,995 | 890,842 | 17·78 |
| 1880 ... ... ... ... ... | 23,567 | 888,095 | 911,662 | 15·17 |
| 1881 ... ... ... ... ... | 23,444 | 947,534 | 970,978 | 15·8 |
| 1882 ... ... ... ... ... | 23,468 | 934,155 | 957,623 | 15·75 |
| 1883 ... ... ... ... ... | 22,468 | 915,753 | 938,221 | 14·13 |
| 1884 ... ... ... ... ... | 25,077 | 965,555 | 990,632 | 14·75 |
| 1885 ... ... ... ... ... | 25,766 | 960,218 | 985,984 | 15 59 |

The total number of patients attending the dispensaries shows a decrease of 4,648 as compared with the number treated in 1884. The number of in-door patients, however, exceeded by 689 that recorded in the previous year.

6. The total income and expenditure of the dispensaries during the year are shown below :—

| *Income.* | Rs. | A. | P. |
|---|---|---|---|
| Cash balance on 1st January 1885 ... ... | 48,429 | 0 | 3 |
| From Government— | | | |
| As salaries ... ... ... ... | 13,789 | 0 | 5 |
| ,, registers and forms ... ... ... | 1,352 | 14 | 11 |
| ,, European medicines ... ... ... | 536 | 5 | 0 |
| For diet of police cases ... ... ... | 1,745 | 10 | 0 |
| Sale of medicines ... ... ... | ...... | | |
| Special allowances ... ... ... | 1,235 | 2 | 8 |
| Total ... | 18,659 | 1 | 0 |
| From local and other funds ... ... ... | 1,18,685 | 2 | 5 |
| ,, municipal funds ... ... ... | 1,43,574 | 3 | 2 |
| Interest on investments ... ... ... | 30,889 | 14 | 2 |
| Sale of securities or withdrawal of deposits ... | 25,389 | 4 | 11 |
| European subscriptions ... ... ... | 16,872 | 6 | 1 |
| Native ditto ... ... ... | 1,06,184 | 11 | 10 |
| Total Income ... | 5,08,683 | 11 | 10 |
| *Expenditure.* | | | |
| On establishment ... ... ... | 2,12,902 | 10 | 1 |
| ,, bazar medicines ... ... ... | 9,501 | 3 | 4 |
| ,, European medicines, whether from Government store or purchased otherwise ... ... | 43,239 | 4 | 1 |
| ,, diet ... ... ... ... | 39,409 | 7 | 6 |
| ,, miscellaneous charges ... ... ... | 29,016 | 15 | 5 |
| ,, buildings and repairs ... ... ... | 52,505 | 2 | 3 |
| Invested during the year ... ... ... | 85,368 | 4 | 6 |
| Total Expenditure ... | 4,71,942 | 15 | 2 |
| Cash balance on 31st December 1885 ... | 36,740 | 12 | 8 |

The opening balance on 1st January 1885, as shown above, is less by Rs. 3,207 than the closing balance of the previous year, as given in that year's report. The difference is explained to be due to the closure of one dispensary and the removal of another from the Government list.

7. The total receipts from Government amounted to Rs. 18,659 against Rs. 18,651 in 1884. Out of the Rs. 18,659, the sum of Rs. 5,043 was contributed to municipal dispensaries. After deduction, however, of the cost of registers and forms, and of diet in police cases, the Government contribution towards municipal dispensaries amounted to Rs. 2,570 against [illegible] 3,106 in 1884. Of this Rs. 2,449 represents salaries of medical officers in the Utterpara and North Suburban Municipalities, and Rs. 121 the cost of repairs to the Pooree dispensary. The Government contribution towards dispensaries that are not municipal institutions amounted to Rs. 13,616 against Rs. 12,890 in the previous year.

8. The receipts from local sources, exclusive of municipal funds, amounted to Rs. 1,18,685 against Rs. 35,906 in the previous year. Of this, municipal dispensaries received Rs. 91,265 against Rs. 9,340 in 1884. The increase was mainly due to the fact that Rs. 68,000 were received in the Monghyr dispensary as sale proceeds of house property belonging to that institution; almost the whole of this sum was invested. The amount of subscriptions from Europeans was Rs. 16,872, and from Natives Rs. 1,06,185. It is to be regretted that the amount of native subscriptions showed a falling off of nearly Rs. 5,000 compared with the previous year. Of these subscriptions Rs. 40,263 were paid in aid of municipal dispensaries, and Rs. 82,794 in aid of other institutions. The amount received by the sale of securities and withdrawal of deposits was Rs. 25,389 against Rs. 15,769 in 1884. The interest on investments amounted to Rs. 30,890 against Rs. 27,914 in 1884. The amount contributed by municipalities was Rs. 1,43,574 against Rs. 1,16,766 in 1884, showing an increase of Rs. 26,808.

9. The gross expenditure on dispensaries, exclusive of the amounts invested, was Rs. 3,86,574 against Rs. 3,49,712 in 1884, thus showing an increase of Rs. 36,862. Of this increase, Rs. 25,200 was incurred on account of buildings and repairs. The increase of Rs. 8,633 under the head of establishment should have been explained. Medical stores were obtained from the Government Store Department and from private druggists. Of the 229 dispensaries, the accounts of which were received, 180 obtained their supplies from private sources. The cost of diet was Rs. 39,409 against Rs. 38,894 in the previous year. The average cost of each diet varied from 2 annas 7 pies to 6 pies.

ORDER.—Ordered that a copy of the Resolution, with a copy of the Report, be submitted to the Government of India, Home Department, for information.

Ordered also that a copy of the Resolution be forwarded to the Inspector-General of Civil Hospitals, to the Sanitary Commissioner, Bengal, and to all Commissioners of Divisions, for information.

By order of the Lieutenant-Governor of Bengal,

COLMAN MACAULAY,

*Secretary to the Government of Bengal.*

No. 2697.

COPY, with a copy of the Report, submitted to the Government of India, Home Department, for information.

No. 2698.

COPY forwarded to the Inspector-General of Civil Hospitals for information.

No. 2699.

COPY forwarded to the Sanitary Commissioner, Bengal for information.

Circular No. 7.

Copy forwarded to all Commissioners of Divisions for information, and for communication to District Officers and Municipalities in their respective divisions.

By order of the Lieutenant-Governor of Bengal,

E. N. BAKER,

*Under-Secretary to the Govt. of Bengal.*

Darjeeling;
*The 29th October* 1886.

# REPORT

ON THE

# CHARITABLE DISPENSARIES

UNDER THE

# GOVERNMENT OF BENGAL

FOR THE YEAR

1886.

BY

A. J. COWIE, Esq.

Inspector-General of Civil Hospitals, Bengal.

Calcutta:

PRINTED AT THE BENGAL SECRETARIAT PRESS.

1887.

# Report on the Charitable Dispensaries

UNDER THE

# GOVERNMENT OF BENGAL

## FOR THE YEAR 1886.

No. 7333.

FROM THE INSPECTOR-GENERAL OF CIVIL HOSPITALS, BENGAL,

TO THE CHIEF SECRETARY TO THE GOVERNMENT OF BENGAL.

*Dated Calcutta, the 16th September* 1887.

SIR,

I HAVE the honour of submitting, for the information of Government, my Administration Report on the Charitable Dispensaries of Bengal for the year 1886.

2. The number of dispensaries which have been transferred to the management of municipalities during the year 1886 was one.

TABLE NO. 1.

| | | | |
|---|---|---|---|
| Remained open on 31st December 1885 ... | ... | ... | 233 |
| Established during the year* ... | ... | ... | 1 |
| | Total | ... | 234 |
| Abolished or closed during the year ... | .. | .. | ... |
| Remaining on 31st December 1886 ... | ... | ... | 234 |

* Daudnugger.

3. There were 233 dispensaries open on the 31st December 1885. One, a new one, viz., Daudnugger, was opened during the year in the Gya district. The total number open on the 31st December 1886 was 234, no institution having been abolished or closed during the year.

4. During the year the following transfers and recruitments have been made to the service:—

| | | |
|---|---|---|
| Assistant Surgeons received by transfer from the Imperial list ... ... ... ... | | 5 |
| Civil Hospital Assistants admitted into the service ... | | 23, viz.— |
| From the Campbell School ... ... | 6 | |
| „ „ Patna do. ... ... | 6 | |
| „ „ Dacca do. ... ... | 7 | |
| „ „ Cuttack do. ... ... | 4 | |
| Total | 23 | |

5. In my last report I mentioned that it had been suggested to the Government of India that the limit of age for the entrance of Assistant Surgeons into the service of Government should be raised from 25 to 28 years. This suggestion has been approved of by that Government. This ruling was acted upon in the selection of the recruits for the Imperial service, from which list transfers to the Provincial establishment are made.

6. In my last year's report I expressed the opinion that I thought the time had arrived when those who desire to study medicine might be required to contribute more largely towards their education than is the rule at present. I of course referred to Civil Hospital Assistants. The Lieutenant-Governor, in his resolution on that report, invited me to express more fully my views regarding the propriety of increasing the fees paid by the recipients of medical education in this province. I have submitted a full and complete further opinion as called for in my letter No. 6696, dated 31st August 1887.

7. The number of occasions on which Committees assembled in 1886 is shown in the following statement:—

| | | | |
|---|---|---|---|
| Monthly, or more frequently ... | 11 | Three times ... ... | 13 |
| Eleven times ... ... | 3 | Twice ... ... | 13 |
| Ten „ ... ... | 3 | Once ... ... | 9 |
| Nine „ ... ... | 3 | None held ... ... | 17 |
| Eight „ ... ... | 4 | No committee ... ... | 31 |
| Seven „ ... ... | 3 | Under municipalities ... | 108 |
| Six „ ... ... | 3 | | |
| Five „ ... ... | 5 | Total ... | 234 |
| Four „ ... ... | 8 | | |

The number of meetings of committees was slightly less than in the previous year. The Committees of 11 dispensaries acted up to the full sense of their responsibilities. The number was 9 in 1885. The committees of 17 institutions held no meetings in 1886, against 24 in 1885. Thirty-one dispensaries had no committees, while 108 were under municipalities.

### Table No. 2.

*Showing the work of Dispensaries grouped in the order of number treated.*

| | In-door. | | | | | | | | | | Out-door. | | | | | | | | | |

8. The total number of dispensaries which received in-door patients was 131, or a decrease of 5 on that of 1885. The Dacca, Durbhunga, Patna, and Cuttack institutions partake more of the character of General Hospitals, and in them a great deal of good is done; but, I fear, as much cannot be said for the house-practice in many of the mofussil dispensaries. At a head-quarter station, where the dispensary is immediately under the Civil Surgeon, the institution, no doubt, proves of some value for the ordinary purposes of a hospital. Here a fair amount of operations is performed, and when the Medical Officer possesses the aptitude and the needful delicacy of touch, ophthalmic surgery is practised with very credible success, especially when we remember that the operator is not always able to select his cases. In the purely outlying or country dispensaries, however, house-patients are confined more largely to cases which might be classed as hopeless and incurable. This is not to be regarded as avoidable, for these institutions are the only charities provided, where disabled paupers, police cases, and prostrate pilgrims, &c., can be received. It cannot be said that the general public derives much benefit from the house-practice of such dispensaries; still, in the absence of special hospitals, homes, and poor-houses, some good is effected.

9. The following table shows the grades of Medical Officers in charge of Dispensaries:—

### Table No. 3.

*Showing grade of officers in charge of Dispensaries during* 1886.

| | 1886. | | 1885. | |
|---|---|---|---|---|
| Apothecary, first grade ... ... ... | | 1 | | 1 |
| Assistant Surgeon, first grade ... ... ... | 2 | | 1 | |
| Ditto ditto, second grade ... ... | 35 | | 34 | |
| Ditto ditto, third „ ... ... | 18 | | 19 | |
| | | 55 | | 54 |
| Medical graduate of the East India Railway Serivce ... | | 1 | | 1 |
| Civil Hospital Assistants ... ... ... | | 170 | | 168 |
| Native Doctors (private practitioners) in charge of class IIIA institutions ... ... ... | | 7 | | 5 |
| Total ... | | 234 | | 229 |

TABLE No. 4.

*Inspections by Civil Surgeons.*

| | Daily or frequently. | More than four times. | Four times. | Three times. | Twice. | Once. | Not inspected. | Total. |
|---|---|---|---|---|---|---|---|---|
| Inspected by Civil Surgeons, 1886 ... ... | 50 | 2 | 7 | 19 | 90 | 60 | 6 | 234 |
| Ditto ditto, 1885 ... ... | 50 | 7 | 11 | 21 | 73 | 53 | 14 | 229 |

10. In 1886 inspections by Civil Surgeons were fairly done. Six institutions were not inspected, against 14 in 1885. Fifty were visited daily or frequently, 2 more than four times, 7 four times, 19 three times, 90 twice, and 60 once. The inspection reports were carefully prepared and sufficiently searching. The records on the whole have been fairly kept.

11. *Surgical Instruments and Hospital Necessaries.*—During the year several losses and breakages were made good. The dispensary inspection reports furnish the information necessary to this end. Medical Officers at their inspections note any breakages or losses, and, when necessary, bring the same to my notice.

TABLE No. 5.

*Number of Patients treated in* 1886 *and ten previous years, and ratio per cent. of mortality among in-patients.*

| | In-patients treated. | Out-patients treated. | Total. | Mortality among in-patients per cent. |
|---|---|---|---|---|
| 1876 ... ... ... ... | 23,757 | 829,804 | 853,561 | 16·96 |
| 1877 ... ... ... ... | 23,954 | 875,631 | 899,585 | 17·34 |
| 1878 ... ... ... ... | 28,473 | 927,783 | 956,256 | 20·01 |
| 1879 ... ... ... ... | 24,847 | 865,995 | 890,842 | 17·78 |
| 1880 ... ... ... ... | 23,567 | 888,095 | 911,662 | 15·17 |
| 1881 ... ... ... ... | 23,144 | 947,534 | 970,978 | 15·8 |
| 1882 ... ... ... ... | 23,468 | 934,155 | 957,623 | 15·75 |
| 1883 ... ... ... ... | 22,468 | 915,753 | 938,221 | 14·13 |
| 1884 ... ... ... ... | 25,077 | 965,555 | 990,632 | 14·75 |
| 1885 ... ... ... ... | 25,766 | 960,218 | 985,984 | 15·59 |
| 1886 ... ... ... ... | 24,820 | 1,006,457 | 1,031,277 | 14 48 |

12. The total number recorded in 1886 is larger than any in the previous decade. The in-door patients increased by 689 in 1885 over the number recorded in 1884, while this year there was a falling off of house-practice to the number of 946 patients. In paragraph 8 it is stated that the number of dispensaries which received in-door patients had decreased by 5. This would partially account for the decrease, but the real cause of the falling off may be set down, I think, more correctly to local variations, or fluctuations in the admissions, dependent upon the state of the public health, which, I am inclined to think, was on the whole better in 1886.

TABLE No. 6.

*Total medical aid afforded in Bengal.*

| | 1885. | | 1886. | |
|---|---|---|---|---|
| | Number of charitable institutions. | Number of patients treated. | Number of charitable institutions. | Number of patients treated. |
| Calcutta hospitals and dispensaries ... ... | 7* | 263,627 | 7* | 264,461 |
| Provincial hospitals and dispensaries ... ... | 229 | 985,984 | 234 | 1,031,277 |
| Total ... | 236 | 1,249,611 | 241 | 1,295,738 |

13. There was a large increase in the total number of in-door and out-door patients treated at all our public charities in Bengal, amounting to 46,127 patients. The in-door practice in dispensaries fell off by no less a number than 946 patients, while in 1885 it increased by 689 over the cases recorded in 1884. The increase in the out-door attendance amounted to 46,239 over the

* Inclusive of voluntary lock-hospitals.

record for 1885. This increase is spread over the returns from most districts. It has been previously stated that the fluctuations in the attendance of patients at our dispensaries bear no relation to the public health, and indicates no connection with or dependence on it. Scrutiny of the dispensary reports made by Medical Officers and other officials shows that these charities are gaining generally in popularity, and that more satisfactory work is being done in them, and this so far is gratifying.

### Table No. 7.

*Showing proportion of numbers treated to District populations.*

| Division. | District. | Area in square miles. | Population. | Number of dispensaries. 1885. | Number of dispensaries. 1886. | Number of patients treated per cent. of population. 1885. | Number of patients treated per cent. of population. 1886. |

| | Pandra | 8· |

16. The general death-rate among house-patients set down in table 5 is 14·48 per cent., or closely equalling that of 1884; and may be viewed, considering the class of cases usually received as in-door patients, as far from excessive. For this very reason the figures have no meaning for statistical purposes. In many instances of a high death-rate, the reason will be found recorded in the notes on particular institutions. These death-rates, whether large or small, furnish nothing of value which death-rates are supposed to illustrate.

17. *Operative Surgery.*—In statement No. III under column 5 the total number of major and minor operations treated in each dispensary during 1886 is shown. The results of the major or more important surgical operations performed by Superintendents and Medical Subordinates are exhibited separately in detail in statements Nos. IIIA and IIIB. In last year's report I remarked on operations connected with the eye. This year I subjoin a statement giving the chief cataract operations performed in certain dispensaries with the names of the operators, and the results attained:—

| Name of operator. | Name of dispensary. | Number remaining on 31st December 1885. | Number performed during the year. | Number cured. | Percentage. |
|---|---|---|---|---|---|
| Assistant Surgeon Ramkali Gupta | Bankipore ... | 4 | 35 | 25 | 64·1 |
| Ditto Rajmohun Banerjee ... ... | Bankoora ... | 0 | 27 | 20 | 74· |

19. There has again been a falling off in the sale of cinchona febrifuge in the several districts of Bengal by Civil Surgeons. The amount sold in 1886 was 162lbs. 5ozs. 15¾drs. valued at Rs. 2,667-4-1, against 204lbs. 12ozs. and 11drs. valued at Rs. 3,391-0-8, or exhibiting a decrease in the receipts of Rs. 723-12-7.

*Sale of Cinchona Febrifuge to Provincial Charitable Dispensaries which indent through the Office of the Inspector-General of Civil Hospitals, Bengal.*

| Year. | Cinchona alkaloid. Quantity sold. | Cinchona alkaloid. Value. | Crystalline Cinchona Febrifuge. Quantity sold. | Crystalline Cinchona Febrifuge. Value. | Total. Quantity sold. | Total. Value. |
|---|---|---|---|---|---|---|
| | lbs. ozs. dr. | Rs. A. P. | lbs. ozs. dr. | Rs. A. P. | lbs. ozs. dr. | Rs. A. P. |
| 1886 ... | 72 12 0 | 1,203 8 0 | 7 8 0 | 180 8 0 | 80 4 0 | 1,384 0 0 |

| Invested during the year ... ... ... | 29.357 | 13 | 4 |
| Total expenditure | 4,14 932 | 10 | 6 |
| Cash balance on 31st December 1886 ... | 29,925 | 12 | 4 |

21. *Opening balance.*—On 1st January 1886 there remained a cash balance of Rs. 34,012 from the preceding year. This amount is less than the closing balance of 1885 by Rs. 2,728. Six dispensaries showed a total deficit of Rs. 3,557. Of this Rs. 542 represent the balance of the amount lent in favour of Commillah dispensary to the Maharajah of Hill Tipperah. The amount has been shown as investments under "money lent," but it does not appear that sanction of Government was received to such investment, as required under Rule 25 of the Manual of Rules. Rupees 829 of the total difference of Rs. 3,557 have been balanced by an equivalent amount which appears in the return of a dispensary whose working is for the first time shown in the year under report.

22. *Receipts from Government.*—The total receipts from Government amounted to Rs. 20,806 in 1886, against Rs. 18,659 in the previous year, or of the total expenditure 5·4 per cent. and 4·8 per cent. respectively. These amounts are composed as follows:—

| | 1885. Rs. | 1886. Rs. |
|---|---|---|
| Municipal institutions ... ... | 5,043 | 6.783 |
| Other ditto ... ... ... | 13,616 | 14.023 |
| Total ... | 18,659 | 20.806 |

Exclusive of the cost of registers and forms and diet of police cases, contribution which Government continue to give under any circumstances, the total amount contributed by Government to institutions that are now considered to be municipal was Rs. 2,570 in 1885 and Rs. 4,164 in 1886. These figures are composed of the following items:—

| | 1885. Rs. | 1886. Rs. |
|---|---|---|
| As salaries ... ... ... | 2,449 | 4,037 |
| „ special allowances ... ... ... | 121 | 127 |

Of the Rs. 4,037 contributed by Government in the interest of municipal institutions towards salaries, Rs. 2,029 were given to the dispensary at Utterpara and the North Suburban Hospital, under special orders of Government which authorise the payment under this head to be continued; Rs. 1,800 to the Burdwan, Jessore, and Motihari dispensaries, the municipalities of those places having represented their inability to pay the increased salary due of to the Assistant Surgeons; Rs. 131 to the Daudnugger dispensary on account pay of the Civil Hospital Assistant; and Rs. 77 to the Modhubunnee dispensary, the municipality of that place representing their inability to pay the difference of salary due to a first-grade Assistant Surgeon who officiated during the absence on privilege leave of the permanent incumbent of the second grade. The Rs. 127 given as special allowances were spent on repairs to the dispensary at Pooree by the Public Works Department. The Government contribution to dispensaries that are not considered municipal institutions consisted of the following items:—

| | 1885. | 1886. |
|---|---|---|
| | Rs. | Rs. |
| As salaries ... ... ... | 11,340 | 11,515 |
| ,, registers and forms ... ... | 532 | 588 |
| ,, Europe medicines ... ... | 536 | 690 |
| For diet of police cases ... ... | 94 | 64 |
| As special allowances ... ... | 1,114 | 1,166 |
| Total ... | 13,616 | 14,023 |

There was increase in all items save one. The total increase in 1886 is represented by Rs. 407.

23. *Income from local sources.—Local or other funds.*—The income from local or other funds was Rs. 54,823, against Rs. 1,18,685 in 1885. Of these, municipal institutions received Rs. 18,092 in 1886, and Rs. 91,265 in 1885. Compared with 1885 there was a considerable decrease under this head in the municipal institutions, but the large amount of receipts from local sources in 1885 was due to the fact that in that year Monghyr dispensary alone received Rs. 68,000 as sale proceeds of house property belonging to the institution. There was an increase of Rs. 9,311 in other institutions.

24. *Subscriptions.*—Subscriptions from Europeans and natives amounted to Rs. 15,266 and Rs. 1,05,493, respectively. Comparison with the previous year is shown below:—

| | 1885. | | 1886. | |
|---|---|---|---|---|
| | Europeans. | Natives. | Europeans. | Natives. |
| | Rs. | Rs. | Rs. | Rs. |
| Municipal institutions ... | 13.527 | 26,736 | 11,825 | 22,070 |
| Other ditto ... | 3,345 | 79,449 | 3,441 | 83,423 |
| Total ... | 16,872 | 1,06,185 | 15,266 | 1,05,493 |

The total public subscriptions to dispensaries that are not considered municipal institutions amounted to Rs. 86,864 in 1886, against Rs. 82,794 in 1885, showing an increase of Rs. 4,070. In municipal institutions the entire subscriptions amounted to Rs. 33,895 in 1886, and Rs. 40,263 in 1885. There was a fall of Rs. 6,368 as compared with 1885. The fall is a large one, and the decline is expected to occur yearly for reasons given before.

25. *Sale of Securities, &c.*—The amount received by sale of securities and withdrawal of deposits was Rs. 23,542, against Rs 25,389 in 1885. Of these amounts, municipal institutions received Rs. 6,793 and Rs. 18,775 respectively:—

| | Municipal Dispensaries. | | Other Dispensaries. | |
|---|---|---|---|---|
| | 1885. | 1886. | 1885. | 1886. |
| | Rs. | Rs. | Rs. | Rs. |
| Amount received from sale of securities ... | 13,294 | 491 | .... | 493 |
| Deposits withdrawn ... ... | 5,481 | 6,302 | 6,614 | 16,256 |
| Total ... | 18,775 | 6,793 | 6,614 | 16,749 |

It appears that in 1886 Government paper to the value of Rs. 500 was sold in a municipal dispensary. The amount realized from the sale was Rs. 491. The sale was sanctioned by Government to enable the Municipal Commissioners of Cutwa to construct a new building for the charitable dispensary. In 1885 the value of Government paper sold in the interests of municipal institutions was Rs. 11,500. In the same year Rs. 2,000 were received from the sale of municipal debentures in a municipal dispensary.

26. *Interest on Investments.*—The interest received on investments was Rs. 32,423, against Rs. 30,890 in 1885, of which municipal institutions received Rs. 21,758 and 21,533, respectively.

27. *Municipal contributions.*—Municipalities contributed Rs. 1,58,492, against Rs. 1,43,574 in 1885. There was an increase of Rs. 14,918 under this head as compared with 1885.

28. *Expenditure.*—The gross expenditure of the dispensaries in 1886 was Rs. 3,85,575, against Rs. 3,86,574 in 1885, exclusive of the amounts invested. Thus there was a total decrease of Rs. 999 in 1886 as compared with 1885. There was increase in three items of expenditure, and decrease in three. The cost of establishment was Rs. 2,16,046, against Rs. 2,12,903 in 1885, showing an increase of Rs. 3,143. As the increase in the expenditure on establishment in a dispensary occurs according to its own requirements, the total increase under the head of establishment employed in dispensaries would consequently be due to a variety of causes which would often be too numerous to detail. In 1886 the increase was due, in a great measure, to the inclusion in the accounts of the cost of five dispensaries whose working is for the first time shown in the year under report. Bazar medicines cost Rs. 9,358 against Rs. 9,501. Europe medicines showed an increase of Rs. 3,466. Medical stores were obtained from Government Store Department, Royal Botanical Garden, Seebpore, and private druggists. Of the 234 dispensaries whose accounts are given in the statement, 187 elected to obtain medical stores from private sources. The value of medical stores supplied to dispensaries entirely supported by Government was Rs. 674. Medicines to the value of Rs. 16 were supplied free of cost to the Bhuddruck dispensary which receives a grant under this head. The total amount contributed by Government for medicines was therefore Rs. 690. The total amount advised by this office for recovery of the value of Government medical stores by the Accountant-General through the Collectors of the district was Rs. 3,595. The money value prepaid into the District Treasuries by dispensaries for cinchona febrifuge supplied from the Botanical Garden was Rs. 1,384. Deducting these two amounts plus Rs. 690 mentioned above, the balance Rs. 41,036 represents the estimated value of medical stores purchased locally. The cost of diet was Rs. 37,494 against Rs. 39,409, or a decrease of Rs. 1,915. The total daily average number of in-patients was 1,115·949 against 1,165·504. The average cost of each diet varied from 3 annas 2 pie to 5 pie. Miscellaneous charges showed an increase of Rs. 629. The expenditure on buildings and repairs was Rs. 46,326 against Rs. 52,505, or a decrease of Rs. 6,179.

29. *Investments made during the year.*—The amount shown as invested during the year was Rs. 29,357, against Rs. 85,368 in 1885. The amount spent in 1886 by a municipal institution on the purchase of Government securities was Rs. 1,924. The following table shows details:—

| | Municipal dispensaries. | | Other dispensaries. | |
|---|---|---|---|---|
| | 1885. | 1886. | 1885. | 1886. |
| | Rs. | Rs. | Rs. | Rs. |
| Amount expended for purchase of securities .. | 77,564 | 1,924 | ...... | 9,953 |
| „ deposited in Savings Bank ... | 1,074 | 1,737 | 6,730 | 15,743 |
| Total ... | 78,638 | 3,661 | 6,730 | 25,696 |

30. *Closing cash balance.*—The closing cash balance amounted to Rs. 29,925, viz., of municipal institutions Rs. 6,821 and of other dispensaries Rs. 23,104.

31. *Total investments.*—The following statement shows this in detail:—

TABLE No. 12—PART II.

| Nature of investments. | Investments on 1st January 1886. | | | Investments obtained during 1886. | | | Investments sold or withdrawn during 1886. | | | Balance on 31st December 1886. | | | Amended Balance on 31st December 1885. | | |

| Total ... | 6,09,897 | 2,49,988 | 8,59,885 | 3,737 | 26,243 | 29,980 | 6,802 | 16,756 | 23,558 | 6,06,832 | 2,59,475 | 8,66,307 | 6,09,897 | 2,46,888 | 8,56,785 |

32. The balance on 31st December 1885 was Rs. 8,56,138. This should be the balance at the beginning of 1886 on 1st January, but the figure shown in the statement on this date is Rs. 8,59,885. This shows an increase of Rs. 3,747, which is accounted for as follows:—

| | Municipal dispensaries. | Other dispensaries. | Total. |
|---|---|---|---|
| | Rs. | Rs. | Rs. |
| Increase shown on 1st January 1886 in Government securities of ... | ...... | 3,100 | 3,100 |

| Increase shown on 1st January 1886 in money lent ... ... | ...... | ...... | ...... |
| Total ... | ...... | ...... | —100 |
| Difference ... | ...... | ...... | +3,747 |

33. Though Rs. 29,980 were invested during the year, Rs. 23,558 were withdrawn, making the actual addition to the total investments Rs. 6,422. The total capital at the end of the year of all existing dispensaries was Rs. 8,66,307, against Rs. 8,56,785 in 1885. Of these, Rs. 2,59,475 belonged to non-municipal institutions in 1886, and Rs. 2,46,888 in 1885. The value of Government securities showed an increase of Rs. 13,100 in 1886. The amount laid out on loans remained the same in the two years. The deposits in the Savings Bank showed a decrease of Rs. 513 in 1886. The total capital at the end of the year of municipal dispensaries amounted to Rs. 6,06,832, against Rs. 6,09,897 in 1885. The value of municipal debentures, landed property and investments on loans remained the same in the two years. The deposits in the Savings Bank showed a decrease of Rs. 4,565 in 1886. There was, however, an increase of Rs. 1,500 in the value of Government securities in 1886.

34. The following extracts from the Civil Surgeons' annual reports exhibit the working of each dispensary:—

# EXTRACTS FROM REPORTS OF CIVIL SURGEONS, &c.

## BURDWAN DIVISION.

Burdwan district.

The Civil Surgeon says that the returns and reports of the district show that the year under report was an unusually healthy one. The mortality for the past four years was 39,092, or 28·08 in per mille in 1883; 33,198, or 23·85 in 1884; 35,526, or 25·53 in 1885; and 27,126, or 19·48 in 1886. There were six dispensaries at work during the year—the same as in 1885. Three in class II were in charge of municipalities, viz., Burdwan, Cutwa, and Raneegunge; one in class IIIB, viz., Mancoor, was managed by a local committee; and two in class IIIA, viz., Chuckdighee and Mahata, were under private management—the same as in the previous year. The dispensaries are highly appreciated by the people, and the managing bodies devote a fair share of attention to them, and take much interest in their welfare and management. Four dispensaries received both out and in-door patients, viz., Burdwan, Cutwa, Raneegunge, and Chuckdighee. Two afforded out-door relief only—Mahata and Mancoor. The total number of patients treated at all the six dispensaries was 25,928 in 1886, against 25,911 in 1885; the daily average being 234, against 228 in 1885. Two dispensaries were in charge of Assistant Surgeons, viz., Burdwan and Raneegunge, and three were in charge of Civil Hospital Assistants. The dispensary at Chuckdighee is in charge of a medical officer who was a graduate of the Calcutta Medical College. He is not in Government service. The Maharajah of Burdwan supports two large dispensaries, viz., one in Burdwan and the other at Culna, from which no returns are received.

*Burdwan.*—This is a municipal dispensary in class II. The dispensary business is conducted by the Municipal Commissioners every month at the regular meeting. The Magistrate paid one visit. The Civil Surgeon visits it frequently. A second grade Assistant Surgeon was in charge. There were treated 733 in and 9,624 out-patients, against 789 and 8,688 in 1885. The daily averages were 25 and 86, against 26 and 70 respectively. There were 117 deaths, or 15·96 per cent., against 134 and 16·98 in 1885. This shows a slight decrease in the number of deaths during the year. The reason of this, the Civil Surgeon says, is due to increased attention which, year after year, has been paid to the feeding and treatment of in-patients. There were performed 64 major and 700 minor operations, resulting in three deaths. The total expenditure was Rs. 5,599, of which Rs. 730 were paid by Government, viz., Rs 600 as salaries, Rs. 13 as cost of forms and registers, and Rs. 117 for diet of police cases. Establishment cost Rs. 2,597; Europe medicines, including cinchona febrifuge, Rs. 991; dieting articles Rs. 1,404; bazar medicines Rs. 93; buildings Rs. 14, and miscellaneous items Rs 500. Rupees 725 were obtained as interest. Rs. 120 as subscriptions from Europeans, and Rs. 4,023 from municipal funds. At the end of the year the invested capital was Rs 18,000.

*Cutwa.*—This is a municipal dispensary in class II. Visited once by the Sub-divisional Officer. The Civil Surgeon paid only one visit. A third-class Civil Hospital Assistant was in charge during the year. He receives Rs. 10 on account of the dispensary and Rs. 25 for the sub-division as his salary. There were treated 74 in and 3,444 out-patients, with daily averages of 2 and 20. The number in 1885 was 82 and 2,836, and 3 and 16 respectively. The death-rate was 16·2 per cent., against 13·4 in 1885. Two hundred and forty-nine minor operations were performed; no major operations. The total expenditure was Rs. 1,285. Establishment cost Rs. 341; Europe medicines, which were purchased from private druggists, Rs. 159; bazar medicines, Rs. 21; diet, Rs. 67; buildings and repairs, Rs. 624; and miscellaneous items, Rs. 73. Government contributed Rs. 9 as cost of forms and registers; municipality paid Rs. 770, and Rs. 15 were obtained as interest. Rupees 491 were also obtained by sale of securities.

*Chuckdighee.*—A class IIIA dispensary, entirely supported from the legacy, amounting to Rs. 10,000, bequeathed by the late Baboo Sharoda Prosad Rai. Visited once by the District Magistrate. The Civil Surgeon inspected it only once during the year. There were treated 126 in and 4,027 out-patients, against 149 and 4,591 in 1885; the daily averages being 8 and 22, against 6 and 30 respectively. The death-rate was 10·31 per cent., against 12·75 in 1885. The principal diseases were malarious fever and its sequelæ, rheumatic affections, whitlows, bowel-complaints, skin-diseases, and ulcers. Fifteen major and 447 minor operations were performed. No death resulted after operation. The total expenditure was Rs. 2,493. Government supplied forms and registers, which cost Rs. 11. Rupees 2,482 were received from local or other funds. Establishment cost Rs. 1,666; Europe medicines, Rs. 171; bazar medicines, Rs. 59; diet, Rs. 367; miscellaneous items, Rs. 219; and buildings or repairs, Rs. 11.

*Mancoor.*—This is a class IIIB dispensary. Government contributed half the salary of the Civil Hospital Assistant. It is managed by a committee, which met three times during the year. Visited once by the District Magistrate and twice by the Civil Surgeon. There were treated 3,167 out-patients, with a daily average of 24, against 3,647 and 29 in 1885. Eleven major and 256 minor operations were performed, resulting in one death. The total expenditure was Rs. 488, of which Government contributed Rs. 156, viz., Rs. 150 as salaries and Rs. 6 as registers and forms. Establishment cost Rs. 365, and Europe medicines, which were purchased from private druggists, Rs. 10. Cinchona febrifuge to the value of Rs. 33 was obtained from Government. The expenditure on bazar medicines was Rs. 22, and on miscellaneous items Rs 41. Rupees 17 were invested during the year. The total income was Rs. 534,

of which Rs. 17 were obtained as interest and Rs. 316 from native subscribers. There was an invested capital of Rs. 471, and a cash balance of Rs. 46 at the end of the year

*Raneegunge.*—A municipal dispensary in class II. It was visited once by the Magistrate of Burdwan and frequently by the Sub-divisional Officer. The Civil Surgeon inspected it once. An Assistant Surgeon was in charge. There were 220 in and 3,388 out-patients treated, against 235 and 3,449 in 1885. The daily average attendance was 7 and 27, against 7 and 28 respectively. The death-rate was 39·5 per cent., against 37·02 in 1885. The mortality at this dispensary is due, it is said, to the number of admissions of pilgrims in a moribund state, and coolies suffering from cholera and dysentery. Twenty-four major and 301 minor operations were performed. No death resulted after operation. The total expenditure was Rs. 1,477, whereof establishment cost Rs. 1,077, and Europen medicines, which were purchased from private druggists, Rs. 117. Cinchona febrifuge to the value of Rs. 33 was obtained from Government. The cost of bazar medicines was Rs. 28, and of diet Rs. 145. The expenditure on miscellaneous items was Rs. 77. Government paid Rs. 11 as cost of registers and forms. Municipal funds contributed Rs. 1,104. Rupees 216 were received from Europeans as subscriptions, and Rs. 145 from natives.

*Mahata.*—A class IIIA dispensary under private management. No dispensary committee. No visits were paid by any of the civil officers. It was once inspected by the Civil Surgeon. A Civil Hospital Assistant was in charge, who was paid Rs. 30 per mensem. There were treated 1,125 out-patients, against 1,445 in 1885; the daily average being 8·40 against 9·39. No in-patients. Minor operations numbered 40. The total expenditure was Rs. 570, of which Rs. 420 represent the cost of establishment. European medicines, which were purchased from private druggists, cost Rs. 86; bazar medicines, Rs. 16; buildings or repairs, Rs. 10; and miscellaneous items, Rs. 38. Government contributed Rs. 6 as cost of forms and registers.

Bankoora district.

The Assistant Surgeon in charge reports that the general health of the district in 1886 appears to have been far better than that in the preceding year, the total number of recorded deaths being 17,615, or a rate of 16·91 per 1,000 of total population, against 18,943 or 18·18 in 1885 and 19·032 or 18·27 in 1884. There were four dispensaries at work in this district during the year. Two of these, viz., one at Bankoora and another at Bishenpore, were in class II, being under the municipalities of those towns. The institutions at Maliarah and Ajodhya were in class IIIB, and under the management of local committees, Government paying the half pay of the medical subordinates. All the dispensaries were in charge of Civil Hospital Assistants. Two of these institutions, namely, Bankoora and Bishenpore, treated both in and out-door patients; the other two, viz., Maliarah and Ajodhya, only out-door. The number of patients treated was 311 in and 14,796 out-patients, against 349 and 13,755 in 1885; the daily averages being 12 and 120, against 14 and 103 respectively. The Assistant Surgeon states that these figures may be accepted as correct. The Municipal Commissioners of Bankoora took little interest in the welfare of the dispensary this year. It is a matter of much regret that the Chairman of the municipality has not paid a single visit to the dispensary during the year under report, while the Vice-Chairman inspected it only twice. The managing bodies of the other three institutions, it is said, take little or no interest at all, as none of the members of the Dispensary Committees inspected the dispensary and recorded their remarks, which they should do every month.

*Bankoora.*—This is a municipal dispensary in class II, managed by the local municipality. It was visited once by the Commissioner of the division and several times by the District Magistrate, but not in a single visit he has recorded his remarks. Most of the Municipal Commissioners have not visited it at all during the year. Its affairs are conducted at the monthly municipal meeting. The Civil Surgeon visited it daily. A Civil Hospital Assistant was in charge. The number of patients treated was 247 in and 4,908 out, against 294 and 4,394 in 1885. The daily averages were 10 and 53, against 11 and 45 respectively. There were 31 deaths, or 12·55 per cent. of cases treated. There had been a slight decrease in the number of in-patients, whilst the increase in the number of out-patients is mostly due to the prevalence of seasonal fever after the cessation of the rains Ninety-two major and 692 minor operations were performed, with one death. The total expenditure was Rs 1,883, of which Rs. 969 represent the cost of establishment, Rs. 451 of Europe medicines, and Rs. 74 of country medicines. Dieting of in-patients cost Rs. 275; the expenditure on buildings was Rs. 7, and on miscellaneous charges Rs. 107. Government contributed Rs. 35, viz., Rs. 22 as cost of forms and registers and Rs. 13 for diet of police cases. Municipality paid Rs. 1,832. Rupees 16 were obtained from local funds.

*Bishenpore.*—It is a municipal dispensary, and in class II. Visited once by the District Magistrate and twice by the Civil Surgeon. It was not at all visited by the Sub-divisional Officer during the year. The Assistant Surgeon says that it is strange to note again that even this year none of the Municipal Commissioners has ever thought it his duty to inspect the dispensary and record his remarks in the visitor's book. A Civil Hospital Assistant was in charge. The number of patients treated was 64 in and 4,684 out, against 55 and 4,420 in 1885. The daily averages were 1 and 34, against 3 and 30 respectively. There were ten deaths, against two in 1885. Eleven major and 351 minor operations were performed: no death resulted after operation The total expenditure was Rs. 805, of which Rs. 474 were expended on establishment, Rs. 197 on Europe medicines, Rs. 26 on bazar medicines, Rs. 62 on diet, and Rs. 4 on buildings or repairs. The expenditure on

miscellaneous items was Rs. 42. Government paid Rs. 26, viz., Rs. 12 as cost of forms and registers and Rs. 14 for diet of police cases. Municipality paid Rs. 779.

*Maliarah.*—It is a class IIIB dispensary under the management of a local committee, which met only twice during the year. It was not at all visited by any of the civil officers. The Civil Surgeon inspected it twice. A Civil Hospital Assistant was in charge. The number of out-patients treated was 2,356, with a daily average of 14·99, against 1,983 and 5 in 1885 respectively. No in-patients. The increase in the number of patients was mainly due to the seasonal prevalence of fever after the cessation of the rains. Eleven major and 99 minor operations were performed. The total expenditure was Rs. 617, whereof Rs. 276 represent the cost of establishment and Rs. 244 of Europe medicines purchased locally on indent checked by the Civil Surgeon. The expenditure on bazar medicines was Rs. 15 and on miscellaneous charges Rs 30. Government contributed Rs. 130, viz., Rs. 120 as salaries and Rs. 10 as cost of forms and registers. Subscriptions from natives amounted to Rs. 480. A sum of Rs. 52 was obtained as interest on investments. The dispensary had a cash balance of Rs. 359, and an invested capital of Rs. 1,448 at the end of the year.

*Ajodhya.*—It is a class IIIB dispensary, managed by a committee, which met four times during the year. It was not visited by the District Magistrate. The Sub-divisional Officer of Bishenpore visited it once and the Civil Surgeon twice. A Civil Hospital Assistant was in charge. Two thousand eight hundred and forty-eight out-patients were treated, with a daily average of 18·03, against 2,958 and 21·16 in 1885. No in-patients. Four major and 190 minor operations were performed. The total expenditure was Rs. 527. Government contributed Rs. 150, viz., Rs. 140 as half pay of the medical subordinate and Rs 10 as cost of forms and registers. The expenditure on establishment was Rs. 330. The cost of bazar medicines was Rs. 14, and Rs. 122 was expended on Europe medicines purchased locally on indent checked by the Civil Surgeon. The outlay on buildings and repairs was Rs. 4, and on miscellaneous items Rs. 28. The income from native subscriptions was Rs. 360, and Rs. 29 were received as interest on investments. The dispensary had a cash balance of Rs. 185 and an invested capital of Rs. 831 at the end of the year. During the year Rs. 29 were invested.

**Beerbhoom district.**

The general health of the district was fairly satisfactory during the year under report. The total number of recorded deaths was 16,256, against 22,488 in 1885, 20,668 in 1884, 20,634 in 1883, and 27,285 in 1882. This reduction appears to be mainly due to the decrease in the number of deaths from fever, though the number of deaths from cholera was less in the year 1886 than in any of the previous five years, except in 1883. There were two dispensaries at work in the district during the year. One of these (Soory) belonged to class II, being under the local municipality, and the other at Rampore Hât to class IIIB, the half pay of the medical officer of which is paid by Government. Both these dispensaries received in and out-patients. There were treated 188 in and 11,844 out-patients, against 168 and 10,285 in 1885. The daily averages were 6 and 90, against 5 and 81 respectively. The dispensary at Rampore Hât was in charge of an Assistant Surgeon, and that at Soory under a Civil Hospital Assistant. The municipal members at the Sudder station are said to take a great deal of interest in the institution. The managers of the dispensary at Rampore Hât, says the Civil Surgeon, have not shown the same amount of sympathy for the dispensary. They met only once in the course of the whole year to discuss its affairs. The dilapidated condition of the dispensary building and its bankruptcy, as well as all other affairs in connection with the institution, are the least indications that the managing committee do not take any interest whatever, though the dispensary, Dr. Basu believes, is fairly appreciated by the people.

*Soory.*—It is a class II municipal dispensary under the management of the local municipality, who held eight meetings during the year. It was visited ten times by the Municipal Commissioners, and almost daily by the Civil Surgeon. A first-class Civil Hospital Assistant was in charge, who received his grade pay, Rs. 55 per mensem, from the municipal fund. There were treated 92 in and 8,013 out-patients, against 64 and 6,800 in 1885; the daily averages being 3 and 70, against 2 and 62 respectively. There were 10 deaths, or 10·86 per cent, against 17·18 in the previous year. Forty-five major, with four deaths, and 387 minor, operations were performed. The operations consisted of eye operations, amputations, opening of deep abscesses, removal of foreign bodies, labour, &c. The total expenditure amounted to Rs. 1 641. Government contributed Rs. 13, viz., Rs. 11 as cost of forms and registers and Rs. 2 for diet of police cases. Rupees 927 represent the cost of establishment, Rs. 354 of Europe medicines, and Rs. 52 of bazar medicines. Rupees 46 were spent for dieting of patients, Rs. 180 on buildings and repairs, and Rs. 82 on miscellaneous items. The total income of the dispensary was Rs. 1,641. European and native subscriptions amounted to Rs. 176. Rupees 12 were received from local or other funds. The municipality paid Rs. 1,440.

*Rampore Hât.*—It is a class IIIB dispensary, governed by a committee presided over by the Sub-divisional Officer. The committee met only once throughout the whole year. It was visited once by the District Magistrate and twice by the Civil Surgeon. The Railway Assistant Surgeon continued in charge. He is a railway servant, and he receives Rs. 325 per month from the East Indian Railway Company and Rs. 50 for the dispensary, of which the moiety is paid by Government, and the other half is met from the dispensary fund. The Magistrate remarks that "the Rampore Hât dispensary has a wide popularity as regards the treatment of surgical cases, patients resorting to it from a con-

siderable distance. On the whole it is a very useful institution, but the present arrangement is unsatisfactory, and the building is altogether out of repair. "As the Committee cannot raise any funds for repairing it, I have supported the proposal of the East Indian Railway authorities that they should take the building over, repair it, and pay half its value to the Committee, who will be guaranteed all necessary accommodations for general patients." The number of patients treated was 96 in and 3,831 out-door, against 104 and 3,485 in 1885. The daily average attendance was 3 and 19, against 3 and 18 in the previous year. There were six deaths, or 6·25 per cent. Nine major and 267 minor operations were performed: one death resulted after operation. The total expenditure was Rs. 1,235, of which Rs. 833 represent the cost of establishment, Rs. 69 of Europe medicines, and Rs. 65 of bazar medicines. The expenditure on diet was Rs. 45, and on miscellaneous items Rs. 222. Government paid Rs. 307, viz., Rs. 300 as salaries, Rs. 4 as cost of forms and registers, and Rs. 3 for diet of police cases. Rupees 443 were obtained as subscriptions from Europeans and natives, and Rs. 486 from local or other funds.

**Midnapore district.**

The Civil Surgeon, with regard to the public health of the district, says that with the exception of cholera the year was a healthy one. There was, however, a considerably higher mortality under unclassified causes, and a slightly higher under "injuries" and "fevers." The total number of recorded deaths was 53,114, against 51,324 in 1885. The Civil Surgeon says that malarial fevers are leaving that part of the district where there are most dispensaries. There were at the end of the year ten dispensaries working in the district. Of these, six were in class II, being municipal institutions, and four in class IIIB. Of the ten dispensaries, three afforded in-door as well as out-door relief. In the dispensary at Contai, Dr. Tomes says, arrangements were made for treating a few serious cases, and in that at Gurbetta for a few sick pilgrims. Midnapore, Contai, Tumlook, and Ghattal dispensaries were in charge of Assistant Surgeons: the rest were under Civil Hospital Assistants. The total number of patients treated was 463 in and 39,409 out, against 593 and 39,361 in 1885. The daily averages were 24 and 286, against 36 and 282 respectively. The figures, the Civil Surgeon says, may be accepted as correct. The affairs of the dispensaries under municipalities were, as usual, transacted by the Municipal Committees. The local committees of the other institutions met frequently, as in 1885. With regard to the interest taken by managing bodies, the Civil Surgeon reports that "they have really interested themselves in the working of the different institutions, with the exception of the local committee at Gurbetta, the members of which have so persistently neglected their duty that I have asked the Magistrate to take steps for its reconstruction." The dispensaries are appreciated by the people, and there is evidence, as usual, that attendance is influenced as much by the popularity and competence of officers in charge as by variations in public health. Dr. Tomes says that Mr. Cornish, the Magistrate, personally visited nearly every dispensary in the district at least once, and some of them twice during the year, and that this has promoted their good management.

*Midnapore.*—A municipal dispensary in class II. Visited once by the Commissioner of the division and by the District Magistrate, twice by the Municipal Commissioners, and daily by the Civil Surgeon. A second-grade Assistant Surgeon was in charge, who received his grade pay from the municipality. There were 415 in and 9,018 out-patients treated, against 470 and 10,429 in 1885. The daily averages were 20 and 53, against 29 and 65 respectively. Besides the patients noted above, 12 paupers were daily lodged, clothed, and fed, and 25 paupers daily received pice, and twice in the year clothing, as provided for in the terms of the Pearce endowment. The decrease in the number of patients, the Civil Surgeon says, was due partly to the improved health of the town and the neighbourhood, and partly to the absence of the Civil Surgeon for two months. The death-rate among in-patients was 21·92 per cent., against 22 in 1885. There were 91 deaths altogether, of which 33 were from bowel-complaints, 11 from cholera, 8 from leprosy, 11 from fevers, 7 from dropsy, and 6 from debility and old age. There were 63 major operations: 45 of them were performed by the Civil Surgeon, and the remainder by the Assistant Surgeon. The death-rate was 3·17 per cent., against 8·49 in 1885. Two hundred and thirty-five minor operations were recorded. The total expenditure was Rs. 6,519, whereof Rs. 2,642 represent the cost of establishment, Rs. 782 of Europe medicines, and Rs. 120 of bazar medicines. Rupees 1,359 were the cost of diet, Rs. 874 of buildings or repairs, and Rs. 722 were spent on miscellaneous charges. Government contributed Rs. 48, viz., Rs. 14 as cost of forms and registers and Rs. 34 for diet of police cases. The total income was Rs. 6,519, including Government contribution. Rupees 4,866 were obtained from the municipality and Rs. 612 as subscriptions from Europeans and natives, and Rs. 993 as interest on investments. Rupees 20 were invested during the year. The dispensary had an invested capital of Rs. 19,399 at the end of the year.

*Contai.*—A class IIIB dispensary. There is no municipality in the sub-division. The institution is managed by a local committee, which held 11 meetings. Visited once by the Commissioner of the division, twice by the District Magistrate, and five times by the Sub-divisional Officer. The Civil Surgeon inspected it once during the year. An Assistant Surgeon was in charge. There were treated 2,958 out-patients, against 1,861 in 1885. The daily average was 26, against 13 in the previous year. No in-patients. The increase in the number of patients was due to deterioration of health in the locality. Eight major and 171 minor operations were performed. No death resulted after operation.

The total expenditure was Rs. 1,248, of which Rs. 411 represent the cost of establishment, Rs. 128 of Europe medicines, which were obtained from a private vendor, and Rs. 23 of bazar medicines. The expenditure on miscellaneous items was Rs. 44, and on buildings and repairs Rs. 245. Government supplied forms and registers, the cost of which was Rs. 5, and gave a special allowance of Rs. 270 from the local khas mehal funds. Subscriptions from Europeans and natives amounted to Rs. 585. Rupees 62 were obtained as interest on investments, and Rs. 300 by withdrawal of deposits. Rupees 2 were received from local or other funds. Rupees 397 were invested during the year. The financial condition of this dispensary was in a satisfactory state, and the Committee, the Civil Surgeon says, are desirous of opening an in-patient ward.

*Ghattal.*—A sub-divisional dispensary in class II, under the management of the local municipality, which held 16 meetings during the year. Visited once by the District Magistrate. The Civil Surgeon inspected it once during the year. An Assistant Surgeon, in medical charge of sub-division, was in charge. There were treated 12 in and 2,012 out-patients, against 57 and 2,407 in 1885; the daily averages being 2 and 25, against 3 and 26 respectively. The Civil Surgeon says the hospital, which was destroyed by flood in 1885, was not rebuilt until November 1886. The number of out-door patients has been gradually falling since 1884, owing to the improved health of the locality. There were 3 deaths among the in-patients, or 25 per cent., against 7 or 12·28 in the previous year. Ten major and 112 minor operations were performed. No death resulted after operation. The total expenditure was Rs. 1,013, whereof Rs. 431 were expended on establishment, Rs. 190 on Europe medicines, which were obtained from a private firm, and Rs. 11 on country medicines. The expenditure on diet was Re. 1, on buildings and repairs Rs. 325, and on miscellaneous items Rs. 55. The entire cost of the dispensary was borne by the municipality, which paid Rs. 1,008. Government contributed Rs. 5 as cost of forms and registers.

*Tumlook.*—A sub-divisional dispensary in class II, under the management of the local municipality, which held eight meetings during the year. It was visited twice by the District Magistrate, and seven times by the Municipal Commissioners. The Civil Surgeon inspected it once. A second-grade Assistant Surgeon was in charge. There were treated 36 in and 5,535 out-patients, against 64 and 5,882 in 1885. The daily averages were 2 and 25, against 3 and 25 respectively. The decrease in the number of patients was due to the improvement of the local health. There were three deaths among the in-patients, or 8·33 per cent., against 4 or 6·25 in the previous year. Nine major and 424 minor operations were performed: one death resulted after operation. The total expenditure was Rs. 1,167, whereof Rs. 556 represent the cost of establishment, Rs. 177 of Europe, and Rs. 24 of country, medicines. The expenditure on diet was Rs. 47, on buildings and repairs Rs. 192, and on miscellaneous items Rs. 171. Government supplied forms and registers, the cost of which was Rs. 7. Municipality paid Rs. 919, and subscriptions from natives amounted to Rs. 221. Rupees 20 were obtained from local funds.

*Chunderkona.*—A class II dispensary under the management of the local municipality, which held seven meetings during the year. Visited twice by the District Magistrate, once by the Sub-divisional Officer, and frequently by the Municipal Commissioners. The Civil Surgeon inspected it once. A first-class Civil Hospital Assistant was in charge. There were treated 4,810 out-patients, against 5,152 in 1885; the daily average being 25, against the same number in the previous year. The falling off in numbers, the Civil Surgeon says, was due to the improvement of local health. Five major (including two reduction of dislocations) and 118 minor operations are said to have been performed during the year. The total expenditure was Rs. 782. Government paid Rs. 7, the cost of forms and registers. The expenditure on establishment was Rs. 514, on Europe medicines Rs. 169, and on bazar medicines Rs. 25. Rupees 34 were spent on buildings, and Rs. 40 on miscellaneous items. Municipality paid Rs. 775.

*Narajole.*—A class IIIB dispensary, managed by a local committee, which held four meetings during the year. Visited once by the Magistrate. The Civil Surgeon inspected it once. A second-grade Civil Hospital Assistant was in charge, who received Rs. 35 a month—half from the dispensary fund, and the other half from Government. Out-patients numbered 2,831, against 3,176 in 1885; the daily average being 30 against 31. Two major and 147 minor operations were performed. The total expenditure was Rs. 848, of which Rs. 468 represent the cost of establishment. Government contributed Rs. 216, viz., Rs. 210 as salaries and Rs. 6 as value of forms and registers. The expenditure on Europe medicines was Rs. 137, on bazar medicines Rs. 31, on buildings Rs. 30, and on miscellaneous charges Rs 70. Subscriptions from natives amounted to Rs. 480. Rupees 310 were obtained by withdrawal of deposits and Rs. 20 as interest on investments. During the year Rs. 112 were invested. There was a cash balance of Rs. 208 at the end of the year.

*Gurbetta.*—A class IIIB out-door dispensary, managed by a committee, which met nine times during the year. Visited once by the District Magistrate. The Civil Surgeon inspected the institution twice. A Civil Hospital Assistant was in charge, who received Rs. 25 a month—half from Government, and the other half from the dispensary funds. There were treated 1,475 out-patients, against 1,252 in 1885, the daily averages being 11 in the same periods. Ten major and one hundred and fifteen minor operations were performed. No deaths resulted after operation. The total expenditure was Rs. 580, of which Rs. 366 represent the cost of establishment. Government contributed Rs. 155, viz., Rs. 150 as

salaries and Rs. 5 as cost of forms and registers. The cost of Europe medicines was Rs. 119, and of bazar medicines Rs. 8. The expenditure on miscellaneous items was Rs. 43. Subscriptions from Europeans were Rs. 240 and from natives Rs. 75; Rs. 8 were obtained as interest on investments, Rs. 3 from local or other funds, and Rs. 36 by withdrawal of deposits; Rs. 44 were invested during the year. At the end of the year there was a cash balance of Rs. 25.

*Dantoon.*—A class IIIB out-door dispensary, managed by a local committee, which held five meetings during the year. It was visited once by the Joint-Magistrate with a view to raise funds for completion of the building. The Civil Surgeon inspected it once. It was also visited four times by the members of the committee. A Civil Hospital Assistant was in charge. Out-patients numbered 3,975, against 3,064 in 1885; the daily average being 22, against 18. Seventeen major and 152 minor operations are said to have been performed during the year. The Civil Surgeon during his inspection performed three eye operations, and the rest have been performed by the Civil Hospital Assistant. There were no deaths. The total expenditure was Rs. 647, whereof Rs. 312 represent the cost of establishment, Rs. 136 of Europe medicines, and Rs. 36 of bazar medicines. The expenditure on buildings was Re. 1, and on miscellaneous items Rs. 81. Government contributed Rs. 126, namely, Rs. 120 as salaries and Rs. 6 as cost of forms and registers; Rs 424 were realised as subscriptions from natives, Rs. 85 were obtained by withdrawal of deposits, and Re. 1 as interest on investments. Rupees 81 were invested during the year. The dispensary is at present accommodated in a cutcha building by the road side, as a temporary arrangement, until the new building is ready. A special fund has been raised for the cost of this new dispensary. The total cost will exceed Rs. 1,000. Government has given Rs. 500, and the rest is being raised by local subscriptions. The building, which is on a plan drawn up by Dr. Tomes, is near completion. It is a very suitable structure, and on the pilgrim road.

*Ramjibunpore.*—A class II dispensary under the management of the local municipality, which held four meetings during the year. It was visited once by the Magistrate and twelve times by the Municipal Commissioners. The Civil Surgeon inspected it once A Civil Hospital Assistant was in charge. There were treated 3,222 out-patients, with a daily average of 30, against 2,346 and 24 in 1885. Fourteen major and 149 minor operations were performed. Five deaths resulted after operation. The total expenditure was Rs. 608, whereof Rs. 360 represent the cost of establishment, Rs. 163 of Europe medicines, and Rs. 41 of bazar medicines. The expenditure on miscellaneous items was Rs. 44. Government supplied forms and registers, the cost of which was Rs. 5. Municipality paid Rs 603.

*Khirpye.*—This is a class II out-door dispensary under the management of the local municipality, which met twenty times during the year. Visited twice by the District Magistrate, once by the Sub-divisional Officer, and often by the Municipal Commissioners. Once inspected by the Civil Surgeon. A Civil Hospital Assistant was in charge. There were 3,573 out-patients treated, with a daily average of 35, against 3,792 and 41 in 1885. Twenty-nine major and 291 minor operations were performed. The total expenditure was Rs. 562, whereof Rs. 396 represent the cost of establishment, Rs. 101 of Europe medicines, and Rs. 14 of bazar medicines. The expenditure on buildings was Rs. 25, and on miscellaneous charges Rs. 26. Government supplied forms and registers, the cost of which was Rs. 6. Municipality paid Rs. 556.

**Hooghly district.**

The public health of the district during the year 1886 was better than in 1885. The total number of dispensaries in the district at the end of the year was five, or one in excess of the number of the previous year, the Ooterparah dispensary having been transferred from the Howrah sub-district to the Hooghly district (*vide* Bengal Government order No. 2424T—M, dated 3rd November 1886). One of these was in class II, two in class IIIA, and two in class IIIB. Three received both in and out-door patients, the rest only out-door patients. Three were in charge of Assistant Surgeons, and the others were in charge of Civil Hospital Assistants The total number of patients treated was 905 in and 21,298 out, against 1,075 and 21,678 in 1885; the daily averages being 32 and 124, against 38 and 123, respectively. Dr. Joubert says that police cases, however, are treated in the Jehanabad dispensary, and those are included by the medical subordinate in his returns, as he has accommodation for them. He has directed the Civil Hospital Assistant to discontinue making returns of such in-patients, as the dispensary can neither afford to maintain nor provide arrangements for them. The police cases, says the Civil Surgeon, can be sheltered and treated, being accounted for as out-patients. The management of the Jehanabad dispensary was taken up by the local municipality on the 1st July 1886. Interest is taken by the managing bodies in their dispensaries except at Jehanabad.

*Emambarah Hospital.*—This is a class IIIA institution under the management of a committee consisting of the mutwallee, the local agents, and the Civil Surgeon. No regular committee meetings are held, but the Civil Surgeon has the immediate management of the dispensary and consults his colleagues in all important matters. The accounts are checked both in the Civil Surgeon's and the local agents' offices. Visited occasionally by the Magistrate and his subordinates to take the depositions and dying declarations of wounded patients, &c., sent to the hospital by the police for treatment. The Civil Surgeon visited it daily. An Assistant Surgeon was in charge. There were treated 590 in and 8,943 out-door patients, against 770 and 11,035 in 1885. The daily average numbers were 19 and 47, against 24 and

48 respectively. The decrease in the number of patients the Assistant Surgeon ascribes to better state of the local health. There were 153 deaths, against 187 in the previous year. Thirty major and 432 minor operations were performed; three deaths resulted after operation. The total expenditure was Rs. 7,326, whereof Rs. 3,640 represent the cost of establishment. Government paid Rs. 13 as cost of forms and registers. The cost of Europe and bazar medicines was Rs. 1,276 and Rs. 117, respectively, of diet Rs. 828, and miscellaneous items Rs. 1,436. The expenditure on buildings or repairs was Rs. 29. Europe medicines were purchased from private dealers.

*Jehanabad.*—This dispensary is in class IIIB, but its management was taken over by the local municipality in July 1886, which held seven meetings during the year. Visited once by the District Magistrate, and four times by the Sub-divisional Officer. The Civil Surgeon inspected it twice. The total number of patients treated was 11 in and 2,364 out, against 5 and 2,074 in 1885. The daily averages were 0·36 and 11 90, against ·10 and 12·96 in the previous year. The dispensary is now not organised for the reception of in-patients, but the Civil Hospital Assistant returns 11 in-patients treated in 1886. There were two deaths amongst the in-patients. Twelve major and 112 minor operations were performed: no death resulted after operation. The total expenditure was Rs. 429, whereof Government paid Rs. 10, viz., Rs. 4 as cost of forms and registers and Rs. 6 for diet of police cases. Rupees 168 were obtained from municipal funds and Rs. 234 as subscriptions from natives. Establishment cost Rs. 284; Europe medicines which were purchased from private druggists, Rs. 35, and bazar medicines Rs. 22. The expenditure on diet for in-patients (police cases) was Rs. 5, on miscellaneous items Rs. 59, and on buildings or repairs Rs. 24. There was a cash balance of Re. 1 at the end of the year.

*Behary Lall Charitable Dispensary, Boinchee.*—It is a class IIIA dispensary, managed by a committee consisting of the District Collector, the Civil Surgeon, and the Deputy Inspector of Schools, but the current management is in the hands of the managers of the estate of the late zemindar who endowed the charity. No meetings of the committee were held during the year, as the members are non-residents at Boinchee. Visited once by the District Collector and twice by the Civil Surgeon. An Assistant Surgeon was in charge. There were treated 70 in and 2,869 out-door patients, against 51 and 2,743 in 1885, with a daily average of 2 and 19, against 1·56 and 23·44 respectively. Out of 70 in-door patients, 18 died. Seven major and 180 minor operations were performed: no deaths resulted after operation. The total expenditure was Rs. 2,384, of which Rs. 1,682 was the cost of establishment. Government contributed Rs. 6 as cost of forms and registers. Europe medicines, which were purchased from Calcutta, cost Rs. 475; bazar medicines Rs. 32; miscellaneous items Rs. 109; and diet Rs. 86. The cash balance at the end of the year was Rs. 1,519.

*Dwarbasiny.*—A class IIIB dispensary. It is managed by a committee which held twelve meetings during the year. No visits were paid by any of the civil officers in the district. The Civil Surgeon inspected it twice A Civil Hospital Assistant was in charge, who received Rs. 25 a month, half of which is paid by Government. There were treated 3,886 out-patients, against 2,839 in 1885; the daily average number of sick was 22·20, against 19·40 in the previous year. The Civil Hospital Assistant reports that fever was more than usually prevalent in 1886. One hundred and twenty-seven minor operations were performed: no major operations. The total expenditure was Rs. 872, whereof establishment cost Rs. 498, Europe medicines Rs. 150, bazar medicines Rs. 22, buildings and repairs Rs. 76, and miscellaneous items Rs. 30. Government contributed Rs. 153, viz., Rs. 150 as salaries and Rs. 3 as cost of registers and forms. Rupees 13 were obtained as interest on investments; Rs. 226 were withdrawn from invested capital; Rs. 480 were received as subscriptions from natives; Rs. 96 were invested during the year.

*Utterpara.*—It is a municipal dispensary, and is in class II. This dispensary only came under the supervision of the Civil Surgeon of Hooghly at the end of the year. Government contributes the entire salary of a third-grade Assistant Surgeon. It is under the management of the Ooterparah Municipality, which held 17 meetings during the year. No visits were paid by any of the civil officers. It was inspected once by the Civil Surgeon of Hooghly after the transfer of the institution to his supervision. The number of patients treated was 234 in and 3,236 out, against 249 and 2,987 in 1885. The daily averages were 9 and 23, against 12 and 19 respectively. Thirty-seven major and 388 minor operations were performed: no deaths resulted after operation. The total expenditure was Rs. 2,412, of which Rs. 1,690 represent the cost of establishment. The cost of bazar medicines was Rs. 66, and of diet Rs. 425. The outlay on buildings was Rs. 39, and on miscellaneous items Rs. 192. Government paid Rs. 1,135, viz, Rs. 1,129 as salaries and Rs. 6 as cost of registers and forms. The amount of European subscriptions was Rs. 110; Rs. 1,650 were obtained from local funds. There was a cash balance of Rs. 1,236 at the end of the year.

**Serampore sub-division.**

The public health of the sub-division was below the average standard, and worse than it was in the three preceding years. Fevers were more severe and numerous, particularly during the last half of the year. Cholera was unusually severe, and occurred sporadically every month. There were five dispensaries working at the end of the year. Of these, four were in class II managed by municipalities, and one in class IIIB, aided by Government and managed by a committee. All these were in charge of Civil Hospital Assistants. Serampore hospital treated both in and out-door patients; the rest out-door patients only. The

number of patients treated was 447 in and 17,084 out, against 502 and 18,666 in 1885. The daily average numbers were 11·84 and 127·23, against 13·62 and 141·20 respectively. All these institutions receive a fair amount of attention from the governing bodies, though, perhaps, not so much as desirable. The dispensaries no doubt, Dr. Barker says, do much good, and are appreciated by certain classes of people, but they have not been attended so largely as might have been expected in an unhealthy year.

*Serampore.*—It is a municipal dispensary, and is in class II. The Sub-divisional Officer visited it several times, but recorded no remarks. The Civil Surgeon visited it almost daily, and a member of the municipal body visited it five times. A Civil Hospital Assistant was in charge. The number of patients treated was 447 in and 4,472 out, against 502 and 4,757 in 1885. The daily average numbers were 11 and 39, against 13 and 41 respectively. The number of deaths was 108, or 24·16 per cent., against 123, or 24·50 in the preceding year. The mortality in this hospital has always been high, owing to the fact of a large majority of the patients admitted being emaciated pilgrims, travellers, beggars, or north-west coolies in the last stage of disease, suffering chiefly from bowel-complaints, the sequalæ of other maladies, or the result of exposure and starvation. Twenty-five major and 382 minor operations were performed. Two deaths resulted after operation. The total expenditure was Rs. 3,000, whereof Government contributed Rs. 37, viz., Rs. 14 as cost of forms and registers and Rs. 23 for diet of police cases. The cost of establishment was Rs. 1,086, of Europe medicines Rs. 384, and of bazar medicines Rs. 39. Diet cost Rs. 411. The expenditure on buildings and repairs was Rs. 847, and on miscellaneous items Rs. 233. Municipality paid Rs. 1,186; Rs. 599 were obtained by withdrawal of deposits; Rs 46 from local funds; and subscriptions from Europeans were Rs. 940, and from natives Rs. 192.

*Rishra.*—A class II institution under the management of the Serampore Municipality; but recently that body appointed a managing committee for the Serampore and Rishra dispensaries under the new rules, who will in future conduct the business of the institution. The Municipal Commissioners held fourteen meetings, and one of its members visited the dispensary five times. No civil officer visited it. The Civil Surgeon inspected it six times. A Civil Hospital Assistant was in charge. Out-patients numbered 3,479, against 3,217 in 1885, and the daily average was 15, against 16 in the previous year. Three hundred and twenty-three minor operations were performed: no major operations. The total expenditure was Rs. 647, of which Government contributed Rs. 3 as cost of forms and registers. Rupees 504 were spent on establishment, Rs. 105 on English medicines, and Rs. 21 on bazar medicines. The expenditure on miscellaneous items was Rs. 17. Municipality paid Rs. 360, and subscriptions from Europeans and natives were Rs. 260 and Rs. 24 respectively.

*Boidyabati.*—A municipal dispensary in class II. The Municipal Commissioners held 17 meetings during the year. No visits were paid by any of the civil officers. The Civil Surgeon inspected it four times. It was in charge of a Civil Hospital Assistant. The number of out-door patients treated was 3,464, against 5,111 in 1885; the daily average being 28·89, against 39·06. There were no major operations: minor operations numbered 266. The total expenditure was Rs. 1,417, of which Government paid Rs. 3 as cost of registers and forms. The cost of establishment was Rs. 502. Europe medicines cost Rs. 96, and bazar medicines Rs. 29. Rupees 34 were spent on miscellaneous items, and Rs. 756 on buildings or repairs. Subscriptions from Europeans were Rs. 65. Municipality paid Rs. 1,255.

*Bundipore.*—It is a class IIIB dispensary supported by a single individual; aided by Government, and managed by a local committee, who held ten meetings during the year. The Civil Surgeon reports that all expenses to the extent of Rs. 40 per mensem were guaranteed by the founder, Baboo Nil Comal Mittra, but from October last he has ceased to contribute, and desired that the institution be kept up by the District Board after the balance at credit of the dispensary is exhausted. It was visited twice by the Sub-divisional Officer, and eleven times by a member of the committee. The Civil Surgeon inspected it twice. A Civil Hospital Assistant was in charge. There were 3,107 out-patients treated, with a daily average of 24, against 2,815 and 23 in 1885. No in-patients. Minor operations numbered 158; no major operations. The total expenditure amounted to Rs. 782, whereof Government contributed Rs. 102, viz., Rs. 100 as salaries and Rs. 2 as cost of registers and forms. The cost of establishment was Rs. 315. Europe medicines cost Rs. 142, bazar medicines Rs. 39, and Rs. 31 were paid for miscellaneous items. Rupees 255 were invested during the year. Subscriptions from natives amounted to Rs. 440; Rs. 205 were obtained by withdrawal of deposits, and Rs. 35 as interest on investments.

*Bhuddreswar.*—This dispensary is in class II under the management of the local municipality, which held 12 meetings during the year. It was not visited by any civil officer but once by the Vice-Chairman of the Municipality. The Civil Surgeon inspected it three times. A Civil Hospital Assistant was in charge. There were treated 2,562 out-patients, with a daily average of 18·74, against 2,766 and 21·08 in 1885. No in-patients. Eighteen major and 195 minor operations were performed. The total expenditure amounted to Rs. 820, whereof Rs. 477 represent the cost of establishment. Europe medicines cost Rs. 202, and bazar medicines Rs. 43. The expenditure on miscellaneous items was Rs. 38, and on buildings or repairs Rs. 60. Government contributed Rs. 9 as cost of registers and forms. Municipality paid Rs. 811.

**Howrah district.**

The public health of the district during the year under review was, on the whole, good. There were three dispensaries working at the beginning of the year: one at Ulluberia, one at Bally, and the third at Utterpara. From November 1886 the dispensary at Utterpara has been placed under the superintendence of the Civil Surgeon, Hooghly. One was in class II, and the other in class IIIA. The dispensary at Ulluberia was in charge of the Assistant Surgeon of the sub-division, and the other at Bally was in charge of a Civil Hospital Assistant. There were treated 145 in and 7,476 out-patients. The daily averages were 3·88 and 54·58, respectively.

*Ulluberia.*—It is a class IIIA dispensary, managed by a local committee, which held six meetings during the year. It was visited once by the District Magistrate and the Civil Surgeon, and several times by the Sub-divisional Officer and the members of the Dispensary Committee. The Assistant Surgeon of the sub-division was in charge. There were treated 145 in and 4,038 out-patients, against 78 and 2,205 in 1885; the daily averages being 3 and 45, against 2 and 33, respectively. There were 17 deaths among in-patients, or a ratio of 11·72 per cent., against 10 and 12 in the previous year. Twenty-four major, with one death, and 486 minor operations were performed. The total expenditure was Rs. 773, of which Rs. 255 represent the cost of establishment, Rs. 235 of Europe medicines, and Rs. 28 of bazar medicines. The expenditure on diet was Rs. 46, on buildings or repairs Rs. 140, and on miscellaneous items Rs. 69. Government contributed Rs. 21, viz., Rs. 15 for forms and registers and Rs. 6 for diet of police cases. Rupees 3 were obtained from local funds. Subscriptions from Europeans and natives were Rs. 119 and Rs. 439 respectively. There was a cash balance of Rs. 21 at the end of the year.

*Bally.*—This is a municipal dispensary in class II. Visited once by the District Magistrate and several times by the Civil Surgeon. A native doctor was in charge from 1st January to 2nd August 1886, when he was succeeded by a Civil Hospital Assistant of the Government establishment, and was in charge up to the end of the year. There were treated 3,438 out-patients with a daily average of 9, against 1,720 and 4 in 1885. One hundred and fifteen minor operations were performed; no major operation. The total expenditure was Rs. 573, of which Rs. 330 represent the cost of establishment, Rs. 153 of Europe medicines, and Rs. 36 of bazar medicines. The expenditure on miscellaneous charges was Rs. 54. Municipality paid Rs. 573.

**District of 24-Pergunnahs.**

The Civil Surgeon reports that the year was a comparatively healthy one. Deaths from small-pox were very few: those from bowel-complaints and fevers were considerably less than those of 1885, but there was increase in cholera mortality. In November and December cholera prevailed in an epidemic form in certain sub-divisions of the district. There were in all 16 dispensaries working in the district at the end of the year under report. Six were in class II, four in class IIIA, and six in class IIIB. Four were in charge of Assistant Surgeons, and 12 under that of Civil Hospital Assistants. The North Suburban Hospital and the dispensaries at Barisha, Diamond Harbour, Russapugla, Barasat, and Goberdanga treated both in-door and out-door patients; the rest are only out-door institutions. There were treated 879 in and 60,580 out-patients, against 897 and 61,018 in 1885. The daily averages were 40 and 478, against 39 and 489, respectively. The Civil Surgeon says that "no attempt has been made to verify the figures, as it is not possible to do so." The best managed dispensaries are—North Suburban, Bhowanipore, Goberdanga, Khurda, Naihatty, Russapugla, Taki, Harinavi, and Canning Town, and are appreciated by the public.

*North Suburban Hospital.*—This institution belongs to class IIIB, and is managed by a committee composed of Europeans and natives, of which Dr. Waldie, the Honorary Secretary, is said to take more than sufficient interest for its good and efficient management There was one meeting during the year. The Civil Surgeon inspected it three times. A second-grade Assistant Surgeon was in charge. As regards his fitness, the Civil Surgeon says "has superior qualifications. Is a good Surgeon and very popular." His grade pay is Rs. 150 per mensem, of which half is paid by Government and half out of the hospital funds. There were treated 488 in and 4,785 out-patients, against 509 and 4,642 in 1885. The daily averages were 23 and 39, against 21 and 36, respectively. The decrease in the number of in-patients, the medical officer in charge states, was partly due to the general good health of the locality, and partly to the fact that the Burranagar jute factories remained closed during the earlier portion of the year. The local public health was generally good, but towards the close of the year cholera broke out in an epidemic form. There were 38 deaths among in-patients, or a rate of 7·78 per cent., against 29 and 5·69 in the previous year. The higher death-rate is said to be due to a large number of patients being admitted in a moribund state, and also to a greater number of deaths from cholera. Ninety-nine major operations were performed, with two deaths: minor operations numbered 584. The total expenditure was Rs. 4,284, of which Government contributed Rs. 1,045, viz., Rs. 900 as salaries of the medical subordinates, Rs. 138 for diet of police cases, and Rs. 7 as cost of forms and registers. The cost of establishment was Rs. 2,808, of Europe medicines Rs. 116, and of bazar medicines Rs. 155. Dieting articles cost Rs. 899, and Rs. 306 were expended on miscellaneous items. Besides the Government contribution, the income from local sources amounted to Rs. 32; Rs. 700 were obtained as interest on investments. Subscriptions amounted to Rs. 2,050, namely, Rs. 1,740 from Europeans and Rs. 310 from natives. Municipality paid Rs 1,800. There is an invested capital of Rs. 17,500. The dispensary had a cash balance of Rs. 4,627 at the end of the year.

*Barisha.*—This is a class IIIB institution supported entirely by the South Suburban Municipality. It has not yet been formally vested in it. There is no dispensary committee, but its business is taken up at the ordinary municipal meetings. The Civil Surgeon inspected it twice during the year. A Civil Hospital Assistant was in charge. There were treated 91 in and 6,033 out-patients, against 110 and 5,769 in 1885. The daily averages were 2·31 and 45·54, against 2·17 and 44·32 in the previous year. In 1886 there were 7 deaths, or 7·69 per cent., against 7 and 6·36 in 1885. Nineteen major and 510 minor operations were performed. No deaths resulted after operation. The total expenditure was Rs. 1,384, whereof Rs. 988 represent the cost of establishment. The cost of Europe medicines was Rs. 136, and of bazar medicines Rs. 33. Rupees 78 were spent for diet of patients. The expenditure on buildings was Rs. 86, and on miscellaneous items Rs. 63. Government contributed Rs. 6 for forms and registers. Municipality paid Rs. 1,378.

*Bhowanipore.*—A municipal dispensary in class II, managed by the Suburban Municipality. The Civil Surgeon formally inspected the dispensary twice during the year, and frequent informal visits were paid from time to time. The Assistant Surgeon in charge of the dispensary gets his grade pay (Rs. 100 per mensem) from the dispensary fund. There were treated 10,788 out-patients, with a daily average of 84·50, against 11,906 and 96·98 in 1885. No in-patients. On the whole, the local public health was better than the previous year. Only eight cases of cholera were treated at the dispensary. Thirty-two major and 1,052 minor operations were performed. The total expenditure was Rs. 2,183, whereof Government contributed Rs. 2 as cost of forms and registers. The cost of establishment was Rs. 1,548. Rupees 128 were spent on Europe medicines, namely, Rs. 66-8 as cost of cinchona febrifuge purchased from Government and Rs. 61-8 of medicines obtained from private dealers, Rs. 58 on bazar medicines, Rs 389 on buildings, and Rs. 60 on miscellaneous items Municipality paid Rs. 1,916. Interest on investment amounted to Rs. 244; Rs. 21 were obtained from local or other funds. The dispensary had an invested capital of Rs. 5,800 in Government promissory notes at the end of the year.

*Agarpara or Khurdah.*—A class II municipal institution, managed by the South Barrackpore Municipality. There is no special dispensary committee, but the dispensary business is taken up at the general municipal meetings, of which 15 were held during the year. The Civil Surgeon inspected it twice. No other officer paid any visits during the year. A Civil Hospital Assistant was in charge throughout the year, who received Rs. 30 per mensem from the municipality. The Civil Hospital Assistant reports that the members of the dispensary committee take an evident interest in the welfare of the institution. The number of patients treated was 1,712, with a daily average of 18, against 1,895 and 20 in 1885. The general health of the locality is said to have been good, except towards the close of the year, when cholera prevailed to a considerable extent. One major and 106 minor operations were performed. The total expenditure was Rs. 572, of which Rs. 440 represent the cost of establishment, Rs. 89 of Europe medicines, and Rs. 6 of bazar medicines. The expenditure on miscellaneous items was Rs. 37. Government contributed Rs. 3 as cost of forms and registers; municipality paid Rs. 569.

*Nawabgunge.*—This is a class IIIB out-door institution, managed by the North Barrackpore Municipality, but not yet formally vested in it. There is no special dispensary committee. The dispensary business is transacted at the ordinary municipal meetings. The Civil Surgeon inspected it twice during the year. A Civil Hospital Assistant was in charge. There were treated 963 out-patients, against 1,176 in 1885, the daily average being 11·94 and 11, respectively. The municipality takes very little interest in the working of the dispensary. On the occasion of the Civil Surgeon's last inspection (on the 10th October 1886) he discovered two important facts—one is, that the Chairman never visits the dispensary himself; the other, that for months past the dispensary had been left destitute of Europe medicines, even of ordinary febrifuge drugs. One major and 52 minor operations were performed. The total expenditure was Rs. 598, whereof Rs. 437 represent the cost of establishment. The cost of Europe medicines was Rs. 98, and of bazar medicines Rs. 16. The amount expended on miscellaneous items was Rs. 47. The cost of forms and registers obtained from Government was annas 11. Municipality paid Rs. 598.

*Diamond Harbour.*—It is a class IIIA sub-divisional dispensary, managed by a committee composed of seven members, including the Sub-divisional Officer, who is also the Secretary of the committee. The members take very little or no interest in the welfare of the institution. No meetings were held during the year. It was visited once by the Commissioner of the division. The Civil Surgeon inspected it once during the year. A second-grade Assistant Surgeon was in charge, who receives Rs. 20 per mensem from the dispensary funds. There were treated 13 in and 1,402 out-patients, against 23 and 1,614 in 1885. The daily averages were ·42 and 7, against ·71 and 8, respectively. The in-door patients were all police cases, and dieted themselves. The decrease in the number of patients was due to the better local public health than in the previous year. There was no epidemic of any kind, only sporadic cases of cholera were heard. There were two deaths among the in-patients, or 15·38 per cent., against 5 and 21·7 in the previous year. Seventy-six minor operations were performed; no major operation. The total expenditure was Rs 573, whereof Rs. 392 represent the cost of establishment. The cost of Europe medicines was Rs. 87, and of bazar medicines Rs. 22. The expenditure on miscellaneous items was Rs. 18. Government contributed Rs. 4 for forms and registers. Rupees 508 were obtained by withdrawal of

deposits; Rs. 55 were received as interest on investment, and Rs. 3 as subscriptions from natives. Rupees 54 were invested during the year.

*Canning Town.*—A class IIIA dispensary, managed by a private committee, which met regularly once a month during the year. It was visited once by the Commissioner of the division and twice by the District Magistrate. The Civil Surgeon inspected it once. A Civil Hospital Assistant was in charge, whose entire pay was paid from the dispensary fund. There were treated 1,010 out-patients, with a daily average of 9, against 952 and 9 in 1885. Ninety-one minor operations were performed; no major operation. The total expenditure was Rs. 566, of which Rs. 384 was the cost of establishment, Rs. 10 of Europe medicines, and Rs. 14 of bazar medicines; Rs. 40 were spent on miscellaneous items; Government contributed annas 14 and pie 9 as cost of forms and registers. Subscriptions from Europeans and natives amounted to Rs. 520, and interest on investments was Rs. 18. Rupees 118 were invested during the year. The dispensary had a deposit of Rs. 548 in the Post Office Savings Bank, and a cash balance of Rs. 65 at the end of the year.

*Naihati.*—It is a class IIIB institution supported and managed by the local municipality, but it has not yet been formally vested in it. No civil officer visited the dispensary during the year. The Civil Surgeon inspected it twice. A Civil Hospital Assistant was in charge, who received Rs. 50 per mensem from the municipality. There were treated 5,310 out-patients with a daily average of 39, against 4,821 and 33 in 1885. No in-patients. One major and 189 minor operations were performed. No deaths resulted after operation. The total expenditure was Rs. 894, of which Rs. 827 was the cost of establishment, Rs. 33 of Europe medicines, and Rs. 15 of bazar medicines. The expenditure on miscellaneous items was Rs. 19. Government contributed forms and registers, the cost of which was Rs. 4. Besides Government contribution, the total income was Rs. 890, which consisted of Rs. 38 realised as subscriptions from natives and Rs. 852 paid by the municipality.

*Russapugla.*—It is a class IIIA dispensary supported by private endowments and managed by a committee. Four meetings were held in 1886. It was visited four times by the District Magistrate, the Treasury Officer, and the District Engineer. The Civil Surgeon formally inspected the dispensary twice, and paid several informal visits from time to time. An Assistant Surgeon was in charge. There were treated 186 in and 5,979 out-patients, against 167 and 5,683 in 1885. The daily averages were 10 and 45·36, against 9 and 50·92, respectively. There were 32 deaths, or 17·20 per cent. of treated, against 21 and 12·57 in the previous year. Fifty-three major and 373 minor operations were performed. No deaths resulted after operation. The total expenditure was Rs. 13,355, whereof Rs. 3,093 represent the cost of establishment. The cost of Europe medicines (cinchona febrifuge) was Rs. 66, of bazar medicines Rs 48, and of diet Rs. 524. The expenditure on buildings was Rs. 1,321, and on miscellaneous items Rs. 804. Government contributed forms and registers, the cost of which was Rs. 8. The dispensary is entirely supported from interest of endowments of the late Prince Gholam Mahomed. Rupees 139 were obtained from local or other funds, and Rs. 5,600 were received as interest on investment. Rupees 7,499 were invested during the year. The trust fund is under the management of Government. In addition to the endowment fund of Rs. 1,40,000 in Government paper, the building and the compound are the property of the institution. The year closed with a cash balance in hand of Rs. 2,966.

*Harinavi.*—A municipal institution in class II, managed by the Rajpore Municipality. No visits were paid by the civil officers of the division or district. The Civil Surgeon inspected it twice during the year. A Civil Hospital Assistant was in charge, who received his entire pay from the municipality. There were treated 8,266 out-patients, with a daily average of 57, against 7,850 and 50 in 1885. Five major and 431 minor operations were performed. No deaths resulted after operation. The total expenditure was Rs. 848, of which Rs. 537 was the cost of establishment. Rupees 250 were paid for Europe medicines purchased from private druggists during the year. Bazar medicines cost Rs. 22, and Rs 39 were spent on miscellaneous items. Government contributed Rs. 26 for forms and registers. Subscriptions from natives were Rs. 25. Municipality paid Rs. 797.

*Baraset.*—A dispensary in class II, managed by the local municipality. The Municipal Commissioners take up dispensary business at their ordinary meetings. No special dispensary meetings were held. It was visited once by the Commissioner of the division, once by the Deputy Sanitary Commissioner, and once by the Sub-divisional Officer of Baraset. The Civil Surgeon inspected it twice during the year. A Civil Hospital Assistant was in charge. There were treated 89 in and 3,732 out-patients, against 73 and 2,865 in 1885. The daily averages were 3 and 23, against 3 and 19 respectively. There were 9 deaths, or 10·1 per cent., against 10 and 13·7 in the previous year. Forty-five major and 364 minor operations were performed. One death resulted after operation. The total expenditure was Rs. 698, of which Rs. 408 was the cost of establishment and Rs. 54 of bazar medicines. Europe medicines were obtained from Government medical stores, but not paid during the year. The expenditure on diet was Rs. 83, on buildings and repairs Rs. 82, and on miscellaneous items Rs. 66. Government contributed Re. 1-4-0 for forms and registers. Rupees 232 were received as subscriptions from natives, and Rs. 44 as interest on investments. Municipality paid Rs. 421. Rupees 5 were invested during the year. The dispensary had an invested capital of Rs. 1,150.

*Tara Sankar Rai Chowdhari's dispensary at Taki.*—A class IIIB dispensary maintained by the local zemindar and aided by the municipality. It is managed by a committee which held

thirteen meetings during the year. Visited once by the Commissioner of the division and twice by the Magistrate. The Civil Surgeon inspected it once. A Civil Hospital Assistant was in charge. The number of out-patients treated was 1,131, against 1,010 in 1885; the daily averages being 16 and 15, respectively. No in-door patients. Two major and 130 minor operations were performed. The total expenditure was Rs. 782, of which Rs. 553 represent the cost of establishment, Rs. 161 of Europe medicines, and Rs. 9 of bazar medicines. The amount expended on miscellaneous items was Rs. 39, and on buildings Rs. 2. Rupees 18 were invested during the year. Government contributed forms and registers, the cost of which was Rs. 3. The total income was Rs. 824. On the 31st December 1886 the dispensary had a cash balance of Rs. 42 and an invested capital of Rs. 992.

*Basirhat.*—A class IIIB dispensary aided by the local municipality, in which it has not yet been formally vested. Visited once by the Commissioner of the division, once by the District Magistrate, and several times by the Sub-divisional Officer. The Civil Surgeon paid one visit during the year. The sub-divisional Civil Hospital Assistant was in charge. There were treated 1.414 out-patients, with a daily average of 10, against 1,257 and 11 in 1885. No in-patients. The increase in the number of patients is said to be due to a large number of boatmen seeking medical aid at the dispensary during the year. Three major and 87 minor operations were performed. The total expenditure was Rs. 447, of which Rs. 202 was the cost of establishment and Rs. 211 of Europe medicines purchased from private dealers. Rupees 11 were expended on bazar medicines, Rs. 5 on buildings, and Rs. 18 on miscellaneous items. Government contributed Re. 1 for forms and registers. Municipality paid Rs. 446.

*Goberdanga.*—This is a class IIIA dispensary managed by its proprietor, Baboo Girija Prosonno Mookerjee, the local zemindar. There is no committee. Visited once by the Commissioner of the division, once by the District Magistrate, once by the Civil Surgeon, and once by the Deputy Sanitary Commissioner, Metropolitan Circle. A Civil Hospital Assistant was in charge, whose entire pay was paid from the estate of the proprietor. There were treated 12 in and 2,851 out-patients, against 15 and 3,620 in 1885. The daily averages were ·51 and 20, against 1 and 25 respectively. There were no deaths among in-patients. Twenty-three major and 356 minor operations were performed. The total expenditure was Rs. 1,398, of which Rs. 1,014 represents the cost of establishment, Rs. 270 of Europe medicines obtained from the Government medical stores. The cost of bazar medicines was Rs. 13. The expenditure on diet was Rs. 13, and on miscellaneous items Rs. 88. Government supplied forms and registers, the cost of which was Rs. 4.

*Baripore.*—It is a municipal dispensary in class II managed by the local municipality. The Civil Surgeon inspected it twice during the year. A Civil Hospital Assistant was in charge, who received Rs. 25 monthly from the dispensary fund. He also gets Rs. 2 monthly from the municipality as registrar of births and deaths. Four thousand two hundred and ninety out-patients were treated, with a daily average of 38, against 4,667 and 40 in 1885. No in-patients. One major and 221 minor operations were performed. No death resulted after operation. The total expenditure was Rs. 818, of which Rs. 467 represent the cost of establishment, Rs. 188 of Europe medicines obtained from private dealers, and Rs. 17 of bazar medicines. The expenditure on buildings was Rs. 70, and on miscellaneous items Rs. 76. Government contributed Rs. 7 in forms and registers. Municipality paid Rs. 669. Subscriptions from natives were Rs. 142.

*Baduria.*—This is a municipal dispensary in class II managed by the local municipality, which held six special dispensary meetings during the year. Visited once by the Commissioner of the division, twice by the District Magistrate, and once by the Civil Surgeon. A Civil Hospital Assistant was in charge, who received Rs. 25 per mensem from the municipality. There were treated 964 out-patients with a daily average of 10, against 1,291 and 14 in 1885. The local public health was reported to be better than that of the previous year. Cholera broke out in a sporadic form towards the close of the year. Seventy-one minor operations were performed. No major operation. The total expenditure was Rs. 673, whereof Rs. 440 represent the cost of establishment, Rs. 172 of Europe medicines purchased from private druggists, and Re. 1 of bazar medicines. The expenditure on buildings was Rs. 19, and on miscellaneous items Rs. 41. Government contributed forms and registers at a cost of Rs 3. Municipality paid all the expenses.

Khoolna district.

The report has been submitted by Dr. K. D Ghose, Civil Medical Officer. The year under report was a comparatively healthy one. The death-rate was 22·06 per mille of population, against 23·87 in 1885. This improvement was general, applying to all death causes but bowel-complaints. Cholera presented a marked decrease. There were six dispensaries at work at the end of the year, against five in 1885, the dispensary at Chanduria having been opened during 1886 under Government order No. 2269T—M., dated 17th October 1885. Of the six dispensaries, two were in class II, two were in class IIIA, and two were in class IIIB. The dispensaries at Khoolna, Satkhira, and Bagirhat treated both in and out-door patients, and the rest out-door patients only. There were treated 93 in and 7,845 out patients, against 138 and 6,293 in 1885, the daily averages being 3 and 81, against 4 and 61 respectively. The Civil Surgeon says the figures returned are reliable, as he checks them during his inspection visits. The local committees, as a rule, have taken very little interest in the institution under their charge; but when a dispensary is under municipal management, its working has had a fair share of the attention of the Commissioners at their meetings. All the dispensaries, save Chunduria, were in charge of the Civil Hospital Assistant. A native doctor was in charge of Chunduria dispensary.

*Khoolna.*—A class II municipal dispensary. It was visited by the Commissioner of the division twice. The Magistrate visited it several times, and the Civil Surgeon daily. There were treated 18 in and 1,715 out-door patients, against 30 and 2,048 in 1885; the daily average being ·65 and 9·8, against 1 and 11 respectively. There was one death among in-patients Eight major and 82 minor operations were performed. No deaths resulted after operation. The total expenditure was Rs. 994, of which Rs. 264 represent the cost of establishment, Rs. 100 of Europe medical stores, and Rs. 19 of bazar medicines. The expenditure on miscellaneous items was Rs. 13, and on buildings and repairs Rs. 598. Government contributed Rs. 10 as cost of registers and forms. Rupees 144 were received from local or other funds. Municipality paid Rs. 654. Subscriptions from Europeans and natives were Rs. 20 and Rs. 166, respectively.

*Satkhira.*—A class IIIB dispensary, managed by the local municipality. Visited once by the Commissioner of the division, once by the Magistrate of the district, and twice by the Civil Surgeon. There were treated 45 in and 1,744 out-door patients, against 64 and 1,707 in 1885. The daily averages were 2 in and 16 out, against 2 in and 12 in the previous year. There were 7 deaths among the in-door patients, against 13 in 1885. Eighty-two minor operations were performed. There was no major operation. The total expenditure was Rs. 1,153, of which Rs. 650 represent the cost of establishment. The cost of Europe medical stores was Rs. 276, and of bazar medicines Rs. 31. The expenditure on diet was Rs. 48, on miscellaneous charges Rs. 68, and on buildings and repairs Rs. 34. Municipality paid Rs. 1,089, and Rs. 47 were received as interest on investments. Government contributed Rs. 17, viz., Rs. 8 as cost of registers and forms and Rs. 9 for diet of police cases. Rupees 46 were invested during the year.

*Bagirhat.*—This is a class IIIA dispensary, managed by a local committee which met four times during the year. Visited once by the Commissioner of the division, twice by the District Magistrate, and twice by the Civil Surgeon. There were treated 30 in and 883 out-door patients, against 44 and 1,043 in 1885, the daily averages being 1 and 7, the same as in the previous year. There were three deaths among in-door patients. Twenty-six minor operations were performed; no major operations. The total expenditure was Rs. 486, whereof Government contributed Re. 1 for forms and registers. Establishment cost Rs. 404, Europe medicines Rs. 42, and bazar medicines Rs. 14. Rupees 6 represent the cost of miscellaneous charges, and Rs. 8 were expended on buildings and repairs. Rupees 12 were invested during the year.

*Dowlautpore.*—It is a class IIIB dispensary under the management of a local committee. No meetings were held during the year. The District Magistrate visited the dispensary occasionally. The Civil Surgeon paid two visits. A Civil Hospital Assistant was in charge, whose entire pay, viz., Rs. 35, was paid by Government. There were treated 2,115 out-door patients, with a daily average of 20, against 1,431 and 16 in 1885. Three major and 178 minor operations were performed during the year. There was no death after operation. The total expenditure amounted to Rs. 1,273, whereof Government contributed Rs. 421, viz., Rs. 420 as salaries and Re. 1 for forms and registers. The cost of establishment was Rs. 492, of Europe medicines Rs. 105, and of bazar medicines Rs. 10. The expenditure on miscellaneous items was Rs. 118. The income from native subscriptions amounted to Rs. 20. Rupees 52 were received as interest on investments, and Rs. 474 from withdrawal of deposits, and Rs. 416 from local or other funds. Rupees 548 were invested during the year. The dispensary had an invested capital of Rs. 1,565 and a cash balance of Rs. 149 at the end of the year.

*Shamnugger.*—This is a class IIIA dispensary, managed by a local committee which held 12 meetings. No civil officer visited the institution. The Civil Surgeon paid one visit. There were treated 740 out-patients, with a daily average of 14, against 694 and 13 in 1885. Minor operations numbered 41; no major operations. The total expenditure was Rs. 660, of which Rs. 494 represent the cost of establishment, Rs. 90 of Europe medicines, which were obtained from Government Store Department, and Rs. 34 of bazar medicines. The expenditure on miscellaneous items amounted to Rs. 42. Government contributed Rs. 3 as cost of registers and forms. At the end of the year there was a cash balance of Rs. 332.

*Chanduria.*—It is a class II dispensary under the management of the municipality. Visited once by the Civil Surgeon. There were treated 648 out-patients with a daily average of 12. Thirty-two minor operations were performed; no major operations. The total expenditure amounted to Rs. 218, whereof Government contributed Rs. 2 as cost of registers and forms. Establishment cost Rs. 208, and miscellaneous items Rs. 10. Municipality paid Rs. 216.

Nuddea district.

The report of the Civil Surgeon has been forwarded by the Commissioner of the division with his usual remarks on the working of the dispensaries. The general health of the district, says the Civil Surgeon, showed a considerable improvement on that of any of the preceding four years. The death-rate among the general population was 28, against 35 in 1885, 39 in 1884, and 36 in 1883. The total number of deaths from all causes was 47,874, against 57,545 in 1885. There were six dispensaries in the district at the end of the year. Of these, the dispensary at Kooshtea was under the supervision of the Civil Medical Officer of Goalundo, who has submitted a separate report. All the dispensaries in this district are under municipalities and in class II. The dispensary at Krishnagur was under the charge of an Assistant Surgeon; the rest were under that of Civil Hospital Assistants. Those at Krishnagur and Ranaghat received both in-door and

out-door patients; the rest out-door patients only. The total number of patients treated at these dispensaries, including the one at Kooshtea, was 306 in and 13,936 out, against 308 and 12,950 in the previous year. The daily averages were 13 and 122, against 14 and 122 respectively. These figures, says the Civil Surgeon, may be accepted as worthy of confidence. The local municipalities at Krishnagur and Ranaghat are said to take a certain amount of interest in these institutions. The Civil Surgeon remarks that no practical interest was shown in other dispensaries by the Municipal Commissioners.

*Krishnagur.*—This is a municipal dispensary in class II. There is a sub-committee to administer the affairs of the institution. This committee held 11 meetings. Visited twice by the District Judge and three times by District Magistrate and Collector. The Civil Surgeon inspected it almost daily during the year. An Assistant Surgeon was in charge, who received his grade pay from the municipality. There were treated 267 in and 5,850 out-patients, against 256 and 4,680 in 1885; the daily averages being 11 and 50, against 12 and 45 respectively. There were 28 deaths, or a rate of 10·48 per cent., against 36 and 14 in 1885. Thirty-four major and 510 minor operations were performed. One death resulted after operation. The total expenditure was Rs. 2,655, whereof Rs. 1,665 represent the cost of establishment. Europe medicines, which were obtained from private druggists, cost Rs. 351; bazar medicines Rs. 29. Government contributed Rs. 10-8-3 for registers and forms. Rupees 364 were spent for dieting of patients, Rs. 100 on buildings, and Rs. 146 on miscellaneous items. Municipality paid Rs. 2,501, and subscriptions from natives amounted to Rs. 144.

*Ranaghat.*—It is a municipal dispensary in class II under the management of the local municipality. Visited once by the Deputy Sanitary Commissioner, once by the Sub-divisional Officer, and once by the Chairman of the local municipality. The Civil Surgeon inspected it twice during the year. A Civil Hospital Assistant was in charge. There were treated 39 in and 1,767 out-patients, against 51 and 2,008 in 1885. The daily averages were 1·67 and 18, against 2 and 20 respectively. There were 12 deaths among the in-patients, against 8 in the previous year. One hundred and sixty-eight minor operations were performed; no major operations. The total expenditure was Rs. 503, of which Government paid Rs. 4 in forms and registers. Rupees 360 represent the cost of establishment, Rs. 106 of Europe medicines, which were obtained from private dealers, Rs. 5 of bazar medicines, and Rs. 21 were expended on miscellaneous items. The expenditure on diet was Rs. 11. Municipality contributed Rs. 499.

*Santipore.*—This is a municipal dispensary, and is in class II. The sub-committee met twice during the year. It was visited once by the Deputy Magistrate of Ranaghat and once by the Deputy Sanitary Commissioner. The Civil Surgeon inspected it twice. A Civil Hospital Assistant was in charge, who received Rs. 30 per mensem from the municipality. There were treated 1,472 out-patients, with a daily average of 14, against 1,580 and 26 in 1885. No in-patients. Ninety-six minor operations were performed; no major operations. The total expenditure was Rs. 984, of which Government paid Rs. 3 in forms and registers. Rupees 552 represent the cost of establishment; Rs. 11 were spent on Europe medicines, which were obtained from private druggists, Rs. 17 on bazar medicines, Rs. 84 on buildings, and Rs. 20 on miscellaneous items. Municipality paid Rs. 681. Rupees 300 were obtained as interest on investments. Rupees 300 were invested during the year. The dispensary had an invested capital of Rs. 3,679 at the end of the year deposited in the savings bank.

*Ula*—Is under the local municipality, and therefore in class II. Visited once by the Sub-divisional Officer of Ranaghat, and three times by the Civil Surgeon. A Civil Hospital Assistant was in charge. The number of out-patients treated was 1,612, with a daily average of 11, against 1,911 and 12 in 1885. No in-patients. Seventeen major and 132 minor operations were performed. No death resulted after operation. The total expenditure was Rs. 671, of which Rs. 431 represent the cost of establishment. Government contributed Rs. 2 as cost of forms and registers. The price of Europe medicines was Rs. 221. The cost of bazar medicines was Rs. 4, and of miscellaneous items Rs. 15. Municipality paid Rs. 667, and Rs. 2 were obtained from local funds. The invested capital at the end of the year was Rs. 1,652.

*Meherpore.*—It is under the local municipality, and is in class II. No visits were paid by the civil officers. Visited once by the Civil Surgeon. The Civil Hospital Assistant in charge of the sub-division was in charge of the institution, for which he gets Rs. 10 per mensem from the municipality. The number of out-patients treated was 1,996, with a daily average of 16, against 1,871 and 14 in 1885. No in-patients. Four major and 126 minor operations were performed. No death resulted after operation. The total expenditure was Rs. 508. Government contributed Rs. 3 as cost of forms and registers. Europe medicines cost Rs. 187, and bazar medicines Rs. 7. Rupees 276 represent the cost of establishment. The expenditure on buildings was Rs. 10 and on miscellaneous items Rs. 28. Municipality paid Rs. 505.

*Kooshtea.*—This is a municipal dispensary in class II under the management of the Municipal Commissioners, who consider its affairs at their meetings. It was visited twice by the District Magistrate and three times by the Civil Medical Officer of Goalundo. The Civil Hospital Assistant of the sub-division was in charge, and receives Rs. 20 per mensem from the dispensary fund. There were treated 1,239 out-patients, with a daily average of 9·96, against 900 and 9 in 1885. Forty-six minor operations were performed; no major operations. The total expenditure was Rs. 456, of which Rs. 335 represent the cost of establishment,

Rs. 10 of bazar medicines and Rs. 103 of Europe medicines. The expenditure on miscellaneous items was Rs. 7. and on buildings or repairs Re. 1. Government contributed Rs. 2 as cost of forms and registers. Municipality contributed Rs. 454. The dispenary had an invested capital of Rs. 243 at the end of the year.

Jessore district.

The report of the Civil Surgeon has been forwarded with useful remarks of the Magistrate. The year 1886 is reported to have been better than the preceding one. The total number of recorded deaths was 45,402, against 49,955 in 1885, showing a decrease of 4,553. There were seven dispensaries working at the end of the year. Of these, two were under the local municipality, and therefore in class II. and five in class IIIA. Two received both in and out-door patients; the rest only out-door patients. One was in charge of an Assistant Surgeon, and the others were in charge of Civil Hospital Assistants. The total number of patients treated was 394 in and 20,814 out, against 367 and 19,229 in 1885; the daily averages being 10 and 129. against 12 and 132 respectively. The Civil Surgeon says that he has accepted the figures returned by the medical subordinates in charge of the several dispensaries, and which he believes to be correct. The Civil Surgeon also says that, as a rule, great interest is taken by the managing bodies for the improvement of their respective dispensaries.

*Jessore.*—This is a class II dispensary under the local municipality. Visited twice by the Commissioner of the division, three times by the District Magistrate, once by the Chairman of the Municipality, twice by the Vice-Chairman, and daily by the Civil Surgeon. An Assistant Surgeon was in charge, who received Rs. 100 per mensem from the municipality and Rs. 50 from Government. There were treated 370 in and 6,492 out-patients, against 353 and 6,248 in 1885. The daily averages were 10 and 32, against 12 and 33 respectively. There were 17 deaths, against 21 in the previous year. Sixty major and 460 minor operations were performed. One death resulted after operation. The total expenditure was Rs. 2,971, whereof Rs. 2,145 was the cost of establishment. Government contributed Rs 705, viz., Rs. 600 as salaries, Rs. 96 for diet of police cases, and Rs. 9 as cost of forms and registers. The cost of Europe medicines was Rs. 56 and of bazar medicines Rs. 175. The expenditure on diet was Rs. 365, on buildings Rs. 77, and on miscellaneous items Rs. 153. Municipality paid Rs. 1,560. Subscriptions from Europeans were Rs. 34 and from natives Rs. 553. and interest on investments was Rs. 71. Rupees 48 were obtained from local funds. There was an invested capital of Rs. 1,806 at the end of the year.

*Jhenidah.*—It is a sub-divisional dispensary in class IIIA, under the management of a local committee which met eight times during the year. Visited twice by the District Magistrate, twice by the Sub-divisional Officer, and twice by the Civil Surgeon. The sub-divisional Civil Hospital Assistant, who received his grade pay from Government, was in charge of the institution, and received Rs. 10 from the dispensary funds. There were treated 2,494 out-patients, with a daily average of 15·98, against 1,888 and 12 in 1885. No in-patients. The local public health is said to have been fair. Four major and 74 minor operations were performed during the year. No deaths resulted after operation. The total expenditure was Rs. 393, whereof Government contributed Rs. 3 as cost of forms and registers. Rupees 215 represent the cost of establishment; Rs. 14 of bazar medicines. The expenditure on Europe medicines was Rs. 77, on buildings Rs. 54, and on miscellaneous items Rs. 19. Rupees 14 were invested during the year. The dispensary was maintained by subscriptions from Europeans and natives, which amounted to Rs 138 and Rs. 235 respectively. Rupees 14 were received as interest on investments. The dispensary had an invested capital of Rs. 285 and a cash balance of Rs. 11 at the end of the year.

*Magoora.*—A sub-divisional dispensary in class IIIA, under the management of a committee which met 12 times during the year. It was visited once by the Commissioner of the division, twice by the District Magistrate, once by the Assistant Surgeon of the Jessore dispensary when he officiated in medical charge of the district. The Civil Surgeon inspected it once. A Civil Hospital Assistant was in charge. There were treated 24 in and 2 222 out-patients, against 14 and 2,253 in 1885. The daily averages were ·54 and 10, against ·28 and 10 respectively. There were four deaths, against one in the previous year. Fifty-nine minor operations were performed; no major operations. The total expenditure was Rs. 531, whereof Rs. 312 represent the cost of establishment, Rs. 92 of Europe and Rs. 20 of bazar medicines. The cost of diet was Rs. 6. The expenditure on buildings was Rs. 43, and on miscellaneous items Rs. 36. Government contributed Rs. 6 as cost of forms and registers. Rupees 22 were invested during the year. The income from European and native subscriptions was Rs. 32 and Rs. 237 respectively. Rupees 75 were obtained by withdrawal of deposits, and Rs. 22 were received as interest on investments. Rupees 155 represent the receipts from local or other funds. The dispensary had a cash balance of Rs. 6 in hand and an invested capital of Rs. 538 at the end of the year.

*Narail.*—A sub-divisional dispensary in class IIIA, managed by a committee which met eight times during the year. Visited twice by the Commissioner of the division, three times by the District Magistrate, and twice by the Civil Surgeon. A Civil Hospital Assistant was in charge. The number of out-patients treated was 2,669, with a daily average of 19, against 2,512 and 21 in the previous year. No in-patients. One hundred and eleven minor operations were performed; no major operations. The total expenditure was Rs. 800, whereof Rs. 249 represent the cost of establishment, Rs. 107 of Europe medicines, and Rs. 12 of bazar

medicines. The expenditure on buildings was Rs. 56, and on miscellaneous items Rs. 24. Government contributed forms and registers, the cost of which was Rs. 3. Subscriptions from natives were Rs. 263, and Rs. 438 were obtained from local funds. Rupees 352 were invested during the year, and Rs. 2 were received as interest on investments. The dispensary had a cash balance of Rs. 115 and an invested capital of Rs. 352 at the end of the year.

*Sreedhurpore.*—It is a class IIIA dispensary, under the management of a committee which met five times during the year. It was visited once by the District Magistrate and twice by the Civil Surgeon. A Civil Hospital Assistant was in charge, whose entire pay is paid from the dispensary fund. The number of out-patients treated was 2,266, with a daily average of 19, against 1,740 and 18 in 1885. No in-patients. Two major and 56 minor operations were performed. The total expenditure was Rs. 891, whereof Rs. 701 represent the cost of establishment, Rs. 114 of Europe medicines, and Rs. 8 of bazar medicines. The expenditure on buildings was Rs. 17, and on miscellaneous items Rs. 21. Government supplied forms and registers, the cost of which was Rs. 3. Rupees 53 were obtained as interest on investments, and Rs. 30 were invested during the year. Subscriptions from natives were Rs. 590. The dispensary had an invested capital of Rs. 1,424 and a cash balance of Rs. 2 at the end of the year.

*Chandra.*—A class IIIA dispensary, managed by a committee which held only one meeting during the year. No visits were paid by any of the civil officers. It was inspected twice by the Civil Surgeon. A Civil Hospital Assistant was in charge. The total number of out-patients treated was 2,214, with a daily average of 13, against 2,537 and 15 in 1885. No in-patients. Two major and 101 minor operations were performed. The total expenditure was Rs. 1,099, whereof Government contributed Rs. 3-4-3 as cost of forms and registers. Establishment cost Rs. 409, Europe medicines Rs. 124, and bazar medicines Rs. 22. Rupees 500 were expended on buildings, and Rs. 23 on miscellaneous items. Rupees 21 were invested during the year. Rupees 21 were obtained as interest on investments. Rupees 2,328 were received by withdrawal of deposits. Subscriptions from natives were Rs. 480. The dispensary had a cash balance of Rs. 2,648.

*Kotechandpore.*—This is a municipal dispensary in class II, under the management of the local municipality. It was visited twice by the District Magistrate and three times by the Sub-divisional Officer of Jhenidah. The Civil Surgeon inspected it twice during the year. A Civil Hospital Assistant was in charge, who received Rs. 25 per mensem from the municipality. There were treated 2,457 out-patients, with a daily average of 18·88, against 2,051 and 20 in 1885. No in-patients. Fever and cholera broke out in the municipality and in the adjacent villages, and the mortality from these two causes was very high. Seven major, with one death, and 82 minor operations were performed. The total expenditure was Rs. 670, whereof Rs. 448 represent the cost of establishment. Europe medicines were obtained from a private druggist at a cost of Rs. 125. The indent was checked and countersigned by the Civil Surgeon. Bazar medicines cost Rs. 37. The expenditure on building was Rs. 16, and on miscellaneous items Rs. 38. Diet cost Rs. 6, this diet being for weakly out-door patients who have been operated on. Government contributed forms and registers at a cost of Rs. 3. Municipality paid Rs. 667.

Moorshedabad district.

The report of the Civil Surgeon, Dr. Sanders, is full and complete. It was forwarded by the Commissioner of the Presidency Division with useful and interesting remarks on the public health and on the working of the institutions. The Civil Surgeon says the public health was good, as far as can be gathered from the mortuary returns. The total deaths registered were 27,383, against 29,695 in 1885. Cholera was prevalent throughout the year and all over the district, but it never appeared to have been either severe or epidemic. The number of dispensaries was the same as it was in the previous year, viz., five. All the dispensaries were in class II, were in charge of Assistant Surgeons, and treated both in and out-door patients. The total number of in-door patients treated was 1,141, and that of out-door 35,879, against 1,432 and 34,663 in 1885; the daily averages being 56 and 240, against 66 and 237 respectively.

*Berhampore.*—This is a class II dispensary. There was no special meeting of the sub-committee, but the members (Chairman, the Vice-Chairman, and the Municipal Secretary) frequently visited the institution. The Magistrate of the district paid a good many visits, and the Civil Surgeon visited the dispensary almost daily. There were treated 467 in and 8,772 out-door patients, against 537 and 7,764 in 1885; the daily averages being 22 and 55, against 25 and 48 respectively. There were 72 deaths, or a death-rate of 19·07 per cent., against 96 and 17·8 in 1885. Forty-three major operations were performed with two deaths. Minor operations numbered 572. The total expenditure was Rs. 4,005, whereof Rs. 2,375 were expended on establishment, Rs. 456 on Europe medicines obtained from private sources, Rs. 87 on bazar medicines, Rs. 623 on diet, Rs. 142 on miscellaneous items, and Rs. 309 on buildings and repairs. Government contributed Rs. 9 as cost of registers and forms, and Rs. 12 for diet of police cases. Rupees 2,713 represent the interest on investments. Rupees 110 were obtained by withdrawal of deposits. Subscriptions from Europeans and natives were Rs. 204 and Rs. 444 respectively. Municipality paid Rs. 513. Rupees 13 were invested during the year. The dispensary had an invested capital of Rs. 45,159 at the end of the year.

*City Moorshedabad.*—This is a class II dispensary, under the management of the Lalbagh Municipality. It is managed by a committee which met seven times during the year. Visited once by the District Magistrate and frequently by the Civil Surgeon and the

Sub-divisional Officer. There were treated 314 in and 11,667 out-patients, against 373 and 11,006 in 1885; the daily averages being 18 and 66, against 18 and 64 respectively. The number of deaths among in-patients was 33, against 41 in the previous twelve months, the death-rate being 10·50 and 10·99 respectively. There were performed 40 major operations with two deaths. Minor operations numbered 502. The total expenditure was Rs. 3,360, whereof the cost of establishment was Rs. 1,851, of Europe medicines obtained from private sources Rs. 341, and of bazar medicines Rs. 104. Diet cost Rs. 500. The expenditure on miscellaneous items was Rs. 172, and on buildings and repairs Rs. 392. Government contributed Rs. 20, *viz.*, Rs. 12 as cost of registers and forms and Rs. 8 for diet of police cases. Rupees 116 were received as interest on investments, and Rs. 675 as subscriptions from natives. Municipality paid Rs. 2,550. The dispensary had an invested capital of Rs. 3,700 at the end of the year.

*Jungypore.*—This is also a class II dispensary, under the management of the Jungypore Municipality. Visited by the Civil Surgeon once. There were treated 100 in and 4,350 out-patients, against 207 and 4,926 in 1885; the daily averages being 5 and 22, against 11 and 29 respectively. The total number of deaths was 18, against 28 in 1885. Fifteen major operations were performed. There was no death after operation. Minor operations totalled 253. The total expenditure was Rs. 2,111, whereof the cost of establishment was Rs. 1,437. Bazar medicines cost Rs. 46. Rupees 177 were expended on diet, Rs. 71 on miscellaneous items, and Rs. 52 on buildings and repairs. Government contributed Rs. 4 for forms and registers. Rupees 99 represent the interest on investments. Rupees 45 were received as subscriptions from Europeans and Rs. 166 from natives. Municipality paid Rs. 1,797. Rupees 328 were invested during the year. At the end of the year the dispensary had an invested capital of Rs. 1,293.

*Kandi.*—This is a class II dispensary. Visited once by the Civil Surgeon. There were treated 130 in and 6,661 out-door patients, against 175 and 7,448 in 1885; the daily averages being 4 and 58, against 5 and 61 respectively. There were 17 deaths, against 27 in 1885. Twenty major operations were performed. There were no deaths. The total number of minor operations was 238. The total expenditure was Rs. 2,434, whereof the cost of establishment was Rs 2,097. Europe medicines purchased from private sources cost Rs. 129, and bazar medicines Rs. 55. Rupees 100 were expended on diet, Rs. 32 on miscellaneous items, and Rs. 21 on buildings and repairs. Government contributed Rs. 6 as cost of registers and forms. Rupees 79 represent the interest on investments. Rupees 431 were received by withdrawal of deposits. Subscriptions from natives amounted to Rs. 580. Municipality contributed Rs. 1,338. At the end of the year the dispensary had an invested capital of Rs. 1,211.

*Jeagunge.*—This is also a class II dispensary. Visited by the Civil Surgeon five times There were no other official visitors. There were treated 130 in and 4,429 out-patients, against 140 and 3,519 in 1885; the daily averages being 5 395 and 37·25, against 4·59 and 34 01 respectively. The number of deaths was 18, against 20 in 1885. Sixteen major operations were performed with two deaths. Minor operations numbered 239. The total expenditure was Rs. 1,910, whereof the cost of establishment was Rs. 1,418. Europe medicines obtained from private sources cost Rs. 215, and bazar medicines Rs. 37. Rupees 183 were expended on diet, and Rs 57 on miscellaneous items. Government contributed Rs. 12 for diet of police cases. Municipality contributed Rs. 1,561. Subscriptions from natives were Rs. 337.

## RAJSHAHYE DIVISION.

Dinagepore district.

The public health of the district during the year under report was much worse than either of the two preceding years, the total number of recorded deaths being 39,196, against 32,234 and 26,697 in 1885 and 1884, respectively There were five dispensaries in the district as in the previous year: one was in class II, under the management of the local municipality, and four in class IIIA, under private committees. The Sudder dispensary received both in-door and out-door patients; the rest out-door patients only. All the dispensaries were in charge of Civil Hospital Assistants. The total number of patients treated, including in and out-door, was 12,155, against 9,751 in 1885. The daily average was 106, against 87 in the previous year. The increase in the total number of out-door patients, the Civil Medical Officer says, has been much larger than in any of the previous years since 1877. This shows the growing popularity of the dispensaries, though very disadvantageously situated as regards the population of the district. The dispensaries at Dinagepore, Raigunge, and Chooramum are very well looked after. The managing bodies of the other two dispensaries, viz., at Mohadebpore and Baloorghat, take little or no interest in them, but the Secretaries appear to take great interest in their institutions.

*Dinagepore.*—A municipal dispensary in class II. There is no separate committee, but the Municipal Commissioners discuss its affairs at their monthly general meetings. There used to be in former years a separate sub-committee appointed by them, but there has been no sitting of the sub-committee during the year. Visited once by the Commissioner of the division, several times by the District Magistrate, and monthly by the visitors appointed by the Municipal Commissioners. The Civil Medical Officer visited it almost daily. A Civil Hospital Assistant was in charge, whose entire pay was paid by the municipality. The total number of patients treated was 420 in and 4,301 out-door, against 381 and 3,814 in 1885.

The daily averages were 13 and 30, against 11 and 30 respectively. The increase in the number of patients, the Civil Medical Officer says, was principally due to the comparatively increased unhealthiness of the year. There were 82 deaths, against 76 in the previous year. This increase is principally due to cases coming in moribund state which contribute very largely to the death-rate of the dispensary. Three major and 53 minor operations were performed. No deaths resulted after operation. The total expenditure was Rs. 3,709, of which Government contributed Rs. 62, namely, Rs. 17 as cost of forms and registers and Rs. 45 for diet of police cases. The cost of establishment was Rs. 1,119, of bazar medicines Rs. 38, of Europe medicines, which were purchased from private druggists, Rs. 305. Dieting articles cost Rs. 466. Rupees 150 were expended on miscellaneous items, and Rs. 1,631 on buildings or repairs. Municipality paid Rs. 2,973. Rupees 80 were obtained as interest on investments. Subscriptions from Europeans and natives were Rs. 154 and Rs. 440 respectively. The dispensary has an invested capital of Rs. 2,000 invested in Government securities.

*Raigunge*.—It is a class IIIA dispensary, managed by a committee which held 12 meetings during the year. It was visited once by the District Magistrate and the Civil Medical Officer. A second-grade Civil Hospital Assistant was in charge, who received his entire pay from the dispensary fund. There were 2,073 out-patients treated, against 1,497 in 1885, the daily average being 24 against 17. Sixty-six minor operations were performed; no major operations. The total expenditure was Rs. 491, whereof Rs. 408 represent the cost of establishment. Rupees 51 were expended on Europe medicines, and Rs. 3 on bazar medicines. The expenditure on miscellaneous items was Rs. 21. Rupees 8 were invested during the year. Government contributed Rs. 2 as cost of forms and registers. Rupees 8 were obtained as interest on investments, and Rs. 281 were received by withdrawal of deposits. Subscriptions from natives were Rs. 200. The dispensary had an invested capital of Rs. 68 in the Savings Bank at the end of the year.

*Mohadebpore*.—This is a class IIIA institution, under the management of a committee which held four meetings. It was visited once by the District Magistrate and twice by the Civil Medical Officer. A Civil Hospital Assistant was in charge, who received his whole pay from the dispensary fund. There were treated 1,601 out-patients with a daily average of 10, against 979 and 5 in 1885. The increase in the number of patients, the Civil Medical Officer says, was due to the unhealthiness of the locality, and also to the greater attenation paid by the medical subordinate in charge to his dispensary work. Eighteen minor operations were performed; no major operation. The total expenditure was Rs. 1,018, whereof Rs. 347 represent the cost of establishment, Rs. 157 of Europe medicines, which were obtained from private dealers, and Rs. 6 of bazar medicines. The cost of miscellaneous items was Rs 20. Rupees 488 were invested during the year. Government contributed Rs. 2-7-9 in forms and registers. Rupees 8 were received as interest on investments, and Rs. 128 were obtained by withdrawal of deposits. Subscriptions from natives amounted to Rs. 881. The dispensary had a deposit of Rs. 587 in Savings Bank and a cash balance of Rs. 30 at the end of the year.

*Chooramun*.—It is a class IIIA dispensary, supported by an estate under the Court of Wards, and managed by a committee which held 12 meetings during the year. Visited once by the District Magistrate and the Civil Medical Officer. A Civil Hospital Assistant is in charge, who gets his entire pay from the estate. There were treated 2,084 out-door patients, with a daily average of 13, against 2,033 and 13 in 1885. Two major and 183 minor operations were performed. The total expenditure was Rs. 522. Government contributed Rs. 2-7-9 as cost of forms and registers. Rupees 456 represent the cost of establishment. The cost of Europe medicines, which were purchased from private druggists, was Rs. 39. The expenditure on bazar medicines was Rs. 4, and on miscellaneous items Rs. 23. Native subscriptions amounted to Rs. 324. Rupees 15 were received from local or other funds.

*Baloorghat*.—It is a class IIIA institution, under the management of a local committee which held no meetings during the year. Visited once by the District Magistrate and twice by the Civil Medical Officer. A Civil Hospital Assistant was in charge, who received his entire pay from the dispensary fund. There were treated 1,676 out-patients, with a daily average of 13, against 1,047 and 8 in 1885. The increase in the number of patients, Dr. Mukherjee says, was due to the increased unhealthiness, and also to the fact that Baloorghat being a large mart for rice, and there having been a good crop in 1886, many labourers were imported from distant places for husking purposes, and they contributed largely to the increase in the number of patients. Forty-six minor operations were performed; no major operation. The total expenditure was Rs. 798, of which Government contributed Rs. 2-7-9 in forms and registers. The cost of establishment was Rs. 552. Europe medicines obtained from private druggists cost Rs. 104. The expenditure on bazar medicines was Rs. 16, on buildings or repairs Rs. 63, and on miscellaneous items Rs. 38. Rupees 25 were invested during the year. Subscriptions from natives amounted to Rs. 580. Rupees 93 were obtained from local funds, Rs. 26 were derived as interest on investments, and Rs. 50 were received by withdrawal of deposits. The dispensary had a deposit of Rs. 394 in the Government Savings Bank and a cash balance of Rs. 28 at the end of the year.

Rajshahye district.

The year 1886 is said to have been better than 1885. The mortuary statistics gave a mortality of 27·0 per 1,000, against 31·17 in the previous year. There was much less

mortality from cholera, and a small increase in that from fever. At the close of the year there were seven dispensaries in the district. Of these, one was in class II and the other six in class IIIA. One was under an Assistant Surgeon, five under Civil Hospital Assistants in Government service, and the seventh under the charge of a private medical subordinate, who is a Licentiate of the Campbell Medical School. The dispensaries at Beauleah, Nattore, and Bollihar received both in and out door-patients; the rest out-door patients only. The total number of patients treated was 323 in and 21,404 out, against 414 and 19,720 in 1885. The daily averages were 15· and 180, against 17 and 175 respectively. In addition, the Mission Dispensary at Beauleah re-opened in 1884, and a new private dispensary started at Dighaputeah near Nattore, in charge of a Calcutta graduate, attracted considerable patients. The Civil Surgeon says he has no doubt as to the correctness of the figures. Two dispensaries were managed by the Prosonno Nath Rai Fund. One is under a local committee; the remaining four are managed by their supporters. The Prosono Nath Rai Fund Committee take great interest in the Beauleah and Nattore dispensaries. Raja Kristendar Roy of Bollihar takes a close personal interest in the dispensary at Bollihar. Baboo Raj Kumar Sarker gives much attention to the Kurruchmaria dispensary. The Committee of Kassimpore dispensary held a considerable number of meetings and displayed considerable zeal. As regards the others, no active interest is shown in them by their proprietors, but they always give attention to remarks made on the institutions by official visitors and by the Civil Surgeon.

*Bauleah.*—This is a class II municipal dispensary. It is supported by the Prosonno Nath Fund, with a contribution from the local municipality, and managed by a committee which met three times during the year. The dispensary was visited twice by the District Magistrate and once by the Sanitary Commissioner of Bengal. The Civil Surgeon inspected it almost daily. An Assistant Surgeon was in charge, who received Rs 150 per mensem from the Prosonno Nath Rai Fund for the dispensary, and an additional allowance of Rs. 50 for the College from Government. There were treated 226 in and 6 761 out door patients, against 236 and 5,838 in 1885; the daily averages being 11 and 44, against 11 and 39 respectively. The in-door cases are about the same as last year, and require no remarks. There was an increase in out-door cases, &c., notwithstanding that the Presbyterian Mission dispensary was at work close at hand throughout the year. The increase is mostly due to fever cases, skin-diseases, and ulcers. The Civil Surgeon says that for this year there was a great increase in fever in the vicinity, which was especially severe in the last quarter. There were 32 deaths, or 14·15 per cent., against 48 and 20·33 in 1885. Forty-four major and 322 minor operations were performed, with one death. The total expenditure was Rs. 3,009, whereof Rs. 1,994 represent the cost of establishment, Rs. 376 of Europe medicines, which were obtained from private druggists, and Rs. 57 of bazar medicines. The cost of diet was Rs. 260. The amount expended on buildings was Rs. 5, and on miscellaneous items Rs. 317. Government paid Rs. 7 for forms and registers. Subscriptions from Europeans and natives were Rs. 22 and Rs. 7 respectively. Rupees 994 were obtained from local funds. Municipality paid Rs. 1,979.

*Nattore*—Is a class IIIA dispensary, supported by the Prosonno Nath Fund and managed by a committee which held three meetings during the year. Visited twice by the District Magistrate. The Civil Surgeon inspected it four times. A third-class Civil Hospital Assistant was in charge throughout the year, who received Rs. 10 per mensem from Prosonno Nath Rai Fund, Government paying him Rs. 25 monthly for charge of the sub-division, and Rs. 10 for executive charge of the subsidiary jail. There were treated 88 in and 3,266 out-patients, against 157 and 2,972 in 1885. The daily averages were 3 and 21, against 4 and 23 respectively. There were 21 deaths, or 23·86 per cent. treated, against 33 and 21 per cent. in the previous year. Ten major and 178 minor operations were performed. No deaths resulted after operation. The total expenditure was Rs. 1,594, where of Rs. 408 represent the cost of establishment, Rs. 198 of Europe medicines, and Rs. 38 of bazar medicines. The cost of diet was Rs. 87. The expenditure on buildings was Rs. 657, and on miscellaneous items Rs. 206. Government contributed Rs. 7 as cost of forms and registers.

*Pooteah.*—A dispensary in class IIIA, entirely supported by Ranee Monmohiny Debya. There is no committee, nor is any active interest taken in the institution by the officers of the Ranee. Any remarks made by the District Officers or by the Civil Surgeon are attended to. Payments are regularly made. Visited once by the Magistrate and three times by the Civil Surgeon. A Civil Hospital Assistant was in charge, who received Rs. 60 per mensem from the proprietress of the dispensary. The number of out-patients treated was 3,714, with a daily average of 30, against 3,864 and 32 in 1885. Five major and 212 minor operations were performed. The total expenditure was Rs. 1,134, of which Rs. 900 was the cost of establishment, Rs. 196 of Europe medicines, and Rs. 16 of bazar medicines. The amount expended on miscellaneous items was Rs. 22. The cost of forms and registers obtained from Government was Rs. 7.

*Lallpore.*—It is a class IIIA dispensary, entirely supported by Maharanee Shurut Soondary. No committee, but any suggestions made by visitors are attended to. Visited twice by the civil officers of the district. It was inspected once by the Civil Surgeon. A Civil Hospital Assistant was in charge, who received Rs. 60 per mensem from the dispensary funds. The number of out-door patients treated was 3,430, with a daily average of

27, against 2,642 and 20 in 1885. Five major and 110 minor operations were performed. The total expenditure was Rs. 1.104, of which Rs. 885 was the cost of establishment, Rs. 155 of Europe medicines, and Rs. 43 of bazar medicines. Rupees 21 were spent on miscellaneous items. Government contributed Rs. 7 as cost of forms and registers.

*Kurruchmaria.*—A dispensary in class IIIA. entirely supported by Baboo Raj Kumar Sarkar, the local zemindar, who took a deep interest in it. There is no committee. Visited once by the District Magistrate and the Sub-divisional Officer of Nattore. The Civil Surgeon inspected it once A Civil Hospital Assistant was in charge, who was paid Rs. 25 per mensem. There were treated 909 out-patients, with a daily average of 16, against 1,100 and 15 in 1885; no in-patients. Minor operations numbered 34; no major operations. The total expenditure was Rs. 485, of which Rs. 320 represent the cost of establishment Europe medicines cost Rs. 100, and Rs. 35 were spent on bazar medicines. The amount expended on miscellaneous items was Rs. 30. Government contributed Rs. 7 as cost of forms and registers.

*Kassimpore.*—A dispensary in class IIIA, supported and managed by a committee which met three times during the year, and took a good deal of interest in the institution. Visited twice by the civil officers of the district. The Civil Surgeon inspected it once. A Civil Hospital Assistant was in charge, who received Rs. 40 per mensem. There were treated 1,216 out-patients, with a daily average of 19, against 1,036 and 21 in 1885; no in-patients. Fifty-two minor operations were performed; no major operations. The public health in the vicinity was not so good as it was in 1885. The total expenditure was Rs. 752, whereof Rs. 604 was the cost of establishment. Europe medicines cost Rs. 87, and bazar medicines Rs. 14. Rupees 3 were spent on buildings, and Rs. 44 on miscellaneous items. Government contributed Rs. 7 as cost of forms.

*Bollihar.*—A class IIIA dispensary, entirely supported by Raja Kristendar Rai of Bollihar, who takes a lively and continuous interest in it, paying frequent visits. There is no committee. It was visited twice by the civil officers of the district. The Civil Surgeon inspected once during the year. A native doctor was in charge. There were treated 9 in and 2,108 out-patients, against 21 and 2,268 in 1885. The daily averages were ·01 and 20, against 1 and 21 in the previous year. No major operations; minoroperations numbered 90. The total expenditure was Rs. 1,694, of which Rs. 1,038 represent the cost of establishment. Europe medicines were obtained at a cost of Rs. 340. Bazar medicines cost Rs. 36. The expenditure on buildings was Rs. 210, and Rs 47 were spent on miscellaneous items Cost of diet was Rs. 23. Government contributed Rs. 7 as cost of forms and registers.

Rungpore district.

The health of the district during 1886 was worse than that of the previous year. The total number of registered deaths was 67,615, against 53,654 in 1885. The bulk of the deaths were caused by fever and cholera. There were 12 dispensaries at the close of the year. Of these 12 dispensaries, 3 belonged to class IIIB and 9 to class IIIA. Two were under the management of Rungpore Municipality, two under local committees, and the rest under private management. The managing bodies, says the Civil Surgeon, take great interest in the dispensaries at Ulipore, Saptana, Battashim, and Kurigram. Two of these treated both in and out-patients; the others out-door patients only. Eleven dispensaries were in charge of Civil Hospital Assistants, and one at Tushbunder was under a native doctor. The total number of patients treated was 340 in and 57,481 out-patients, against 355 and 59,097 in 1885. The daily averages were 13 and 233, against 12 and 234 respectively.

*Rungpore.*—This is a class IIIB dispensary. The local municipality considers its affairs at the municipal meetings. No civil officers visited the dispensary during the year. The Civil Surgeon visited it daily. A Civil Hospital Assistant was in charge. There were treated 293 in and 7,028 out-patients, against 314 and 7,931 in 1885. The daily averages were 10 and 26, against 9 and 24 respectively. The death-rate was 15·01 per cent. as compared with 15·9 in 1885. Eighteen major and 139 minor operations were performed. One death resulted after operation. The total expenditure was Rs. 2,272, whereof Rs. 1,224 represent the cost of establishment. The expenditure on Europe medicines was Rs. 267, and on bazar medicines Rs. 187. Diet cost Rs. 363. Rupees 36 were spent on buildings, and Rs. 195 on miscellaneous items. Government contributed Rs. 68, *viz.*: Rs. 5 as cost of forms and registers and Rs. 63 for diet of police cases. Municipality paid Rs. 1,265. Interest on investments amounted to Rs. 393. European and native subscriptions were Rs. 130 and Rs. 416 respectively. The dispensary had an invested capital of Rs. 16,300.

*Mahigunge.*—This is a class IIIB dispensary, aided and managed by the Rungpore Municipality. No visits were paid by any of the civil officers. The Civil Surgeon visited it frequently. A Civil Hospital Assistant was in charge. There were treated 6,121 out-patients with a daily average of 26, against 8,084 and 31 in 1885. One hundred and sixty-five minor operations were performed; no major operations. The total expenditure was Rs. 664, whereof Rs. 420 represent the cost of establishment, Rs. 134 of Europe medicines, and Rs. 75 of bazar medicines. The expenditure on miscellaneous items was Rs. 35. Government contributed forms and registers, the cost of which was Rs. 5. Municipality paid Rs. 187, and Rs 472 were obtained as subscriptions from natives.

*Ulipore.*—A class IIIA dispensary under the management of the Agent of Maharani Surnomoyee, who supports it entirely. There was no dispensary committee. It was

visited once by the Inspector-General of Jails, Bengal, and twice by the Civil Surgeon. A Civil Hospital Assistant was in charge, who received Rs. 70 per mensem from the dispensary fund. There were treated 47 in and 6,568 out-patients, against 41 and 5,429 in the previous year. The daily averages were 2 and 49, against 2 and 46 respectively. The increase is due to the greater prevalence of sickness and cholera during the year. The death-rate was 17·02 per cent., against 4·87 in 1885. The marked increase is due to deaths from cholera chiefly. One hundred and fifty minor operations were performed; no major operations. The total expenditure was Rs. 2,153, whereof Rs. 1,199 were expended on establishment, Rs. 547 on Europe medicines, and Rs. 87 on bazar medicines. Dieting articles cost Rs. 157. Rupees 140 were spent on miscellaneous items and Rs. 23 on buildings or repairs. Government paid Rs. 5 on account of forms and registers.

*Kaknia*.—It is a class IIIA out-door dispensary, supported and managed by the local zemindar. No committee. Visited once by the District Magistrate and twice by the Civil Surgeon. A Civil Hospital Assistant was in charge, who received Rs. 40 per mensem from the dispensary fund. There were treated 6,706 out-patients, with a daily average of 12, against 7,080 and 10 in 1885. Two major and 149 minor operations were performed. No death resulted after operation. The total expenditure was Rs. 932, of which Rs. 661 represent the cost of establishment Europe medicines cost Rs. 220 and bazar medicines Rs 29. The expenditure on buildings was Rs. 5, and on miscellaneous charges Rs. 17. The cost of forms and registers supplied by Government was Rs. 4-8. The dispensary is supported by native subscriptions, which amounted to Rs. 927.

*Tushbunder*.—This is a class IIIA out-door dispensary, managed and supported by Rai Romoni Mohun Chowdhury Bahadoor, the local zemindar. No dispensary committee. Visited once by the District Magistrate and twice by the Civil Surgeon. A native doctor was in charge. There were treated 5,675 out-patients, with a daily average of 13, against 6,589 and 19 in 1885. Seventy-three minor operations were performed; no major operations. The total expenditure was Rs. 1,016, of which Rs. 636 represent the cost of establishment. The cost of Europe medicines was Rs. 191 and of bazar medicines Rs. 109. The expenditure on buildings was Rs. 50 and on miscellaneous charges Rs. 30. Government contributed Rs. 4 for forms and registers.

*Battashim*.—It is a class IIIA out-door institution, entirely supported by its proprietor. It was visited once by the District Magistrate and twice by the Civil Surgeon. Second-grade Civil Hospital Assistant Kumode Behary Samanto was in charge from 1st January to 10th May 1886, and third-class Civil Hospital Assistant Jogendro Nath Shaha from 11th May to the end of the year. The grade pay of the medical officer is paid by the supporter of the institution. There were treated 1,692 out-patients, with a daily average of 11, against 1,775 and 11 in 1885. Eighty-four minor operations were performed; no major operations. The total expenditure was Rs. 474, of which Rs. 369 represent cost of establishment, Rs. 51 of Europe medicines, and Rs. 18 of bazar medicines. The expenditure on buildings was Rs. 9 and on miscellaneous charges Rs. 27. Government paid Rs. 4 for forms and registers.

*Kurigram*.—It is a class IIIA out-door institution situated at the head-quarters of the Kurigram sub-division, managed by a local committee. Four meetings were held. It was visited once by the District Magistrate and twice by the Sub-divisional Officer. The Civil Surgeon inspected it twice. A Civil Hospital Assistant was in charge. There were treated 8,374 out-patients, with a daily average of 23, against 7,603 and 20 in 1885. There was no unusual sickness, so the increase of attendance was due, the Civil Surgeon says, to better working of the dispensary. Three major and 61 minor operations were performed. No death resulted after operation. The total expenditure was Rs. 636, of which Rs. 346 represent the cost of establishment. English medicines cost Rs. 107 and bazar medicines Rs. 48. The expenditure on buildings was Rs. 75 and on miscellaneous items Rs. 21. Rupees 39 were invested during the year. Government contributed Rs. 4 for forms and registers. Rupees 180 were obtained by withdrawal of deposits, and Rs. 482 as subscriptions from natives. There was a cash balance of Rs. 88 and an invested capital of Rs. 939 at the end of the year.

*Saptana*.—It is a class IIIA dispensary, supported out of the estate of late Rai Annada Prosad Chowdhery of Kassim Bazar, and is under private management. It was visited once by the Sub-divisional Officer of Kurigram. The Civil Surgeon inspected it twice during the year. A Civil Hospital Assistant was in charge, who was paid Rs. 30 monthly. The total number of out-patients treated was 2,847, with a daily average of 13, against 2,669 and 12 in 1885. Thirty minor operations were performed; no major operations. The total expenditure was Rs. 621, of which Rs. 432 represent the cost of establishment, Rs. 106 of Europe medicines, and Rs. 31 of bazar medicines. Rupees 32 were spent on buildings and Rs. 20 on miscellaneous items. Government paid Rs. 4 for forms and registers.

*Dinhatta*.—It is a class IIIB dispensary, supported from the estate of late Baboo Jogendro Narain Rai Chowdhery, and managed by a committee. No meetings were held. It was visited twice by the Civil Surgeon. A Civil Hospital Assistant was in charge, half of whose pay was paid by Government. There were treated 3,764 out-patients, with a daily average of 21, against 3,174 and 20 in 1885. Minor operations numbered 44; no major operations. The total expenditure was Rs. 635, of which Rs. 492 represent the cost of establishment. Government paid Rs. 214, viz, Rs. 210 as pay of the Civil Hospital

Assistant and Rs. 4 on account of forms and registers. Europe medicines cost Rs. 88, and Rs. 24 were spent on bazar medicines. The expenditure on miscellaneous items was Rs. 15. Rupees 16 were invested during the year. Interest on investments was Rs. 16. Rupees 2 were obtained from local or other funds. There was an invested capital of Rs. 446 and a cash balance of Rs. 288 at the end of the year.

*Gyabanda.*—It is a class IIIA sub-divisional dispensary, managed by a committee which met twice during the year. It was visited once by the District Magistrate and the Civil Surgeon. A Civil Hospital Assistant was in charge, who receives Rs. 10 from the dispensary funds. There were treated 2,308 out-patients, with a daily average of 12, against 2,587 and 12 in 1885. Forty-four minor operations were performed; no major operations. The total expenditure was Rs. 299, whereof Rs. 229 represent the cost of establishment. Bazar medicines cost Rs. 8. Rupees 30 were spent on buildings, Rs. 23 on miscellaneous items. Rupees 9 were invested during the year. Government paid Rs. 4 for forms and registers. Rupees 31 were obtained from local or other funds. Rupees 9 were obtained as interest on investments, Rs. 20 as subscriptions from Europeans, and Rs. 229 from natives. There was a cash balance of Rs. 11 and an invested capital of Rs. 202 at the end of the year.

*Nelphamaree.*—This is a class IIIA dispensary, managed by a committee which held three meetings during the year. It was visited once by the Commissioner of the division and the District Magistrate and twice by the Sub-divisional Officer. The Civil Surgeon inspected it twice. A Civil Hospital Assistant was in charge, who gets Rs. 10 from the dispensary funds. The number of patients treated was 3,525 out-door, with a daily average of 13, against 3,754 and 13 in 1885. Thirty-six minor operations were performed; no major operations. The total expenditure was Rs. 615, whereof Rs. 337 represent the cost of establishment, Rs. 167 of Europe medicines, and Rs. 37 of bazar medicines. The expenditure on buildings was Rs. 3, on miscellaneous items Rs. 45. Rupees 26 were invested during the year. Government contributed Rs. 4 for forms and registers. Rupees 26 were obtained as interest on investments and Rs. 76 from withdrawal of deposits. Rupees 608 were obtained as subscriptions from natives. There was a cash balance of Rs. 141 and an invested capital of Rs. 2,118 at the end of the year.

*Kishoregunge.*—This is a class IIIA dispensary. It is supported and managed by Kumaree Bibi, a wealthy merchant of Kishoregunge, in the Nelphamaree sub-division. No committee. It was visited once by the District Magistrate and twice by the Civil Surgeon. A Civil Hospital Assistant was in charge, who received Rs. 30 per mensem from the supporter of the institution. The number of patients treated was 2,873, and the daily average was 9, against 2,422 and 10 respectively in 1885. Sixty-four minor operations were performed; no major operations. The total expenditure was Rs. 506, whereof Rs. 398 represent the cost of establishment, Rs. 83 of Europe medicines, and Rs. 10 of bazar medicines. The expenditure on miscellaneous items was Rs. 8, and Rs. 7 were invested during the year. Government paid Rs. 4 for forms and registers. Rupees 7 were received as interest on investments. There was a cash balance of Rs. 190 and an invested capital of Rs. 195 at the end of the year.

**Bogra district.** The general health of the district during the year under report was much the same as in the previous year, and considerably worse than in 1883 and 1884. The number of the registered deaths was 19,115 against 20,361 in 1885, 18,341 in 1884, and 15,887 in 1883. There were three dispensaries in the district at the end of the year. Two of these were in class II, and the third in class IIIA. The dispensary at Bogra treated both in-door and out-door patients, and those at Nowkhilla and Sherepore only out-door patients. The Civil Medical Officer says that it is in contemplation to have a ward of four beds for in-patients attached to the Sherepore dispensary as soon as another room can be erected. All the dispensaries were in charge of Civil Hospital Assistants. The total number of patients treated was 117 in and 10,564 out, against 107 and 9,945 in 1885; the daily averages being 3·99 and 89, against 3 and 83, respectively. As regards the accuracy of the figures, the Civil Medical Officer says that of the three dispensaries he has every reason to believe them to be correct. The managing bodies of the Sudder dispensary take little or no interest. Mr. Blaker has repeatedly brought the necessity of their doing so to their notice. The Sherepore dispensary seems to be better managed by the municipality, and the dispensary at Nowkhilla is very well managed, and has a large attendance. The Civil Medical Officer also says that the in-patients in the Bogra dispensary are very badly accommodated, being housed in a couple of dilapidated bamboo and thatch huts which admit both wind and weather; the building formerly occupied was destroyed by earthquake, and no attempt was made by the municipality last year to restore it, or provide a new building, the importance of which was pointed out by all officials in and visiting the station, whereas a municipal office costing nearly Rs. 4,000 was started last year, and is nearly completed. The Magistrate remarks that there has been a very great and unaccountable delay in the re-erection of the dispensary building on the part of the Bogra Municipal Commissioners, but this want is at last about to be remedied, as quite recently the Bogra Municipality has allotted in its budget Rs. 1,000 out of an estimated cost of Rs. 2,000 for the construction of a suitable and handsome new masonry building in place of the old destroyed one. It is expected that the remaining Rs. 1,000 can be obtained by a loan from the funds to the credit of the institution.

*Bogra.*—It is a municipal dispensary in class II, governed by the Municipal Committee, which held 12 meetings during the year. Visited once by the Commissioner of the division, twice by the District Magistrate, and daily by the Civil Medical Officer. A Civil Hospital Assistant was in charge, who receives Rs. 60 per mensem from the municipal funds. There were treated 117 in and 6,544 out-patients, against 107 and 6,571 in 1885, the daily averages being 3 and 47 against 3 and 44 respectively. There were 26 deaths, or a rate of 22·22 per cent., against 28 and 26·16 in the previous year. The Civil Medical Officer says that it must be remembered that most of the admissions are cases in the last stage of disease, hence the very high death-rate. Twenty major and 145 minor operations were performed; one death resulted after operation. The total expenditure was Rs. 1,359, of which Rs. 1,008 were the cost of establishment. English medicines were obtained from Government stores at a cost of Rs. 84, and Rs. 49 were spent on bazar medicines. Dieting articles cost R 107. The expenditure on buildings was Rs. 39, and on miscellaneous items Rs. 72. Government contributed Rs. 58, namely, Rs. 9 as cost of forms and registers, and Rs. 49 for diet of police cases. Of the total income of Rs. 1,359, municipality paid Rs. 685, Rs. 133 were derived as interest on investments; subscriptions from Europeans and Natives were Rs. 51 and Rs. 421 respectively. Rupees 10 were obtained from local funds. The dispensary had an invested capital of Rs. 3,000 at the end of the year.

*Nowkhilla.*—A class IIIA dispensary, wholly supported by late Raja Promatha Nath Roy, Rai Bahadoor, of Dighapatia, and managed by a local committee, which met nine times during the year. Visited twice by the District Magistrate and by the Civil Surgeon. A Civil Hospital Assistant was in charge, who was paid Rs 50 per mensem from the late Raja's estate. There were treated 2,378 out-patients, with a daily average of 31 against 2,113 and 30 in 1885. Two major and 98 minor operations were performed; no death resulted after operation. The total expenditure was Rs. 930, whereof Rs. 780 represent the cost of establishment. The cost of English medicines, which were obtained from a private firm, was Rs. 98, and Rs. 21 were spent on bazar medicines. The amount expended on miscellaneous items was Rs. 31. Government supplied forms and registers, the cost of which was Rs. 3.

*Sherepore.*—A class II municipal institution, managed by the Municipal Committee, which held 14 meetings during the year. It was visited once by the District Magistrate and three times by the Civil Surgeon. A Civil Hospital Assistant was in charge, who received Rs. 35 per mensem from the municipality. There were treated 1,642 out-patients, with a daily average of 10 against 1,261 and 8 in 1885. Thirty-four minor operations were performed; no major operation. The total expenditure was Rs. 761, of which Rs. 497 represent the cost of establishment, Rs. 148 of Europe medicines obtained from Government stores, and Rs. 6 of bazar medicines. Rupees 21 were spent on buildings and Rs. 33 on miscellaneous items. Rupees 56 were invested during the year. Government supplied forms and registers, the cost of which was Rs. 2. Of the total income of Rs. 761, municipality paid Rs. 544; interest on investments was Rs. 57; subscriptions from Natives were Rs. 44; Rs. 114 were obtained by withdrawal of deposits. The dispensary had an invested capital of Rs. 1,316 at the end of the year.

**Pubna District.**

The general health of the district during the year under review was worse than in the previous year. The death-rate was 31·73 per mille against 29·15 in 1885. The increase in mortality was chiefly due to cholera and fever. Cholera prevailed in an epidemic form from March to May 1886. There were two dispensaries in the district at the end of the year. Both of these were in class II, and received in-door and out-door patients. The dispensary at Serajgunge was under the charge of an Assistant Surgeon, and the other at Pubna under that of a Civil Hospital Assistant. The total number of patients treated was 593 in and 12,098 out-door, against 504 and 11,993 in 1885. The daily averages were 19 and 96 against 17 and 106 respectively. The figures, says the Civil Surgeon, were tested in his inspections and are correct. The Municipal Committee of both Pubna and Serajgunge seem to take an interest in the welfare of the institutions. Both select members as monthly visitors, who regularly visit the dispensary, and the public seem to appreciate the arrangements made for their benefit. At Serajgunge, European residents, both officials and non-officials, take an interest in the dispensary.

*Pubna.*—It is a municipal dispensary in class II, under the management of the local Municipal Committee, which held 12 meetings during the year. Visited four times by the District Magistrate, five times by the Chairman of the municipality, and occasionally by the Municipal Commissioners. The Civil Surgeon visited it daily. A Civil Hospital Assistant was in charge, who was paid Rs. 55 per mensem by the municipality. There were treated 207 in and 2,874 out door patients, against 186 and 3,154 in 1885. The daily averages were 6 and 25 against 6 and 28 respectively. The death-rate was 10·14 per cent., against 12·49 in 1885. Eighteen major and 208 minor operations were performed. No death resulted after operation. The total expenditure was Rs. 1,449, of which Government contributed Rs. 36, namely, Rs 11 for forms and registers, and Rs. 25 for diet of police cases. Rupees 956 represent the cost of establishment, Rs. 76 of English medicines, and Rs. 63 of bazar medicines. Dieting articles cost Rs. 137. The expenditure on buildings was Rs. 115, and on miscellaneous items Rs. 102. Rupees 1,363 were paid by the municipality, and Rs. 50 were obtained as subscriptions from Natives.

*Serajgunge.*—A municipal dispensary in class II, under the management of the Municipal Committee, which held 12 meetings during the year. It was visited twice by the District

Magistrate, and many times by the sub-divisional officer. The Civil Surgeon inspected it once. A second grade Assistant Surgeon was in charge, who received Rs. 100 from Government for the sub-division, and Rs. 70, including dispensary allowance of Rs. 20, from the municipality. There were treated 386 in and 9,224 out-door patients, against 318 and 8,839 in 1885; the daily averages were 12 and 70 against 11 and 78 respectively. The increase in the number of patients was due probably to the fever which prevailed severely during the year. The death-rate among in-patients was 12·69 per cent. against 16·9 in the previous year. Thirty-two major and 337 minor operations were performed; two deaths resulted after operation. The total expenditure was Rs. 2,556, of which Rs. 1,392 represent the cost of establishment. The cost of Europe medicines was Rs. 346. The expenditure on bazar medicines was Rs. 57, on diet Rs. 372, and on miscellaneous items Rs. 100; Rs. 289 were spent towards buildings. Government paid Rs. 49, viz., Rs. 11 for forms and registers, and Rs 38 for diet of police cases. Rupees 63 were obtained from local funds; municipality paid Rs. 1,488, and subscriptions from Europeans and Natives were Rs. 637 and Rs. 319 respectively.

Darjeeling District.

The Civil Surgeon says the general health of the district during the year under report was on the whole fairly good. There was no outbreak of epidemic disease reported. Cholera made its appearance in several quarters of the district, but did not spread to any formidable extent, although the number of deaths reported were greatly in excess of those returned during the previous year. There were 231 deaths from cholera against 30 in the preceding year. The disease principally prevailed in the lower ranges of the hills above the Terai. There were four dispensaries at work at the end of the year. Of the four dispensaries, one was in class I entirely supported by Government, one in class II under municipality, one in class IIIA, and one under IIIB. All the dispensaries were in charge of Civil Hospital Assistants. The dispensaries at Darjeeling, Kurseong and Silligoree treat both in and out-door patients, while the dispensary at Kalimpong affords out-door relief only. The total number of patients treated was 408 in and 11,434 out, against 341 and 10,435 in 1885; the daily averages being 20 and 47 against 14 and 46 respectively. The Civil Surgeon says he has no reason for questioning the accuracy of the figures of Darjeeling, Kurseong and Silligoree dispensaries, while he regards with grave doubt the figures of Kalimpong Dispensary. The dispensaries under municipal management have their interest fairly looked after and protected.

*Darjeeling.*—A class IIIB dispensary, managed by a sub-committee of the local municipality. Visited frequently by the Civil Surgeon. There were treated 200 in and 4,646 out-door patients, against 184 and 5,290 in 1885; the daily averages being 13 and 16 against 8 and 18 respectively. There were 44 deaths against 16 in the previous year. The death-rate was 22· against 8·69 in the past twelve months. This high death-rate is chiefly accounted for by the fact that many patients were admitted in the last stage of starvation and disease. Seven major and 102 minor operations were performed. No deaths resulted after operation. The total expenditure was Rs. 2,672, whereof Rs. 1,440 represent the cost of establishment, Rs. 255 of Europe medicines, and Rs. 104 of bazar medicines. The cost of diet was Rs. 473. The expenditure on miscellaneous items was Rs. 400. Government contributed Rs. 8 for forms and registers. Subscriptions from Europeans and Natives were Rs. 872 and Rs. 180 respectively. Municipality paid Rs. 1,612.

*Kurseong.*—A municipal dispensary in class II. The business of the institution is transacted at the ordinary municipal meetings. Visited frequently by Drs. Smith and Haydon, and also by the sub-divisional officer. The Civil Surgeon visited it once. There were treated 46 in and 1,022 out-door patients, against 44 and 1,001 in 1885; the daily averages being 2 and 7 against 2 and 8 respectively. The number of deaths was 7 against 5 in the previous year. Five major and 29 minor operations were performed. The total expenditure was Rs. 892, whereof the cost of establishment was Rs. 696, and of Europe medicines Rs. 34. Bazar medicines cost Rs. 36. Rupees 35 were expended on diet, and Rs. 48 on miscellaneous items. The outlay on building and repairs was Rs. 43. Government contributed Rs. 6 as cost of registers and forms. Subscriptions from Europeans amounted to Rs. 115. Municipality paid Rs. 771.

*Kalimpong.*—A class I dispensary, entirely supported by Government. The governing body is represented by the Deputy Commissioner. Visited twice by the Deputy Commissioner. The Civil Surgeon, it is said, was accidently prevented from visiting the dispensary during the year. There were treated 4,414 out-door patients with a daily average of 12, against 2,990 and 8 in the previous year. No operations were performed. Rupees 486 was the total expenditure of the year. Establishment cost Rs. 384; Europe and bazar medicines Rs. 44 and Rs. 19 respectively. Europe medicines were obtained from Government stores. Rupees 14 represent the cost of miscellaneous items, and Rs. 25 the outlay on building and repairs.

*Silligoree.*—It is a class IIIA dispensary. Visited once by the Commissioner of the division and twice by the Deputy Commissioner. The Civil Medical Officer of Kurseong paid three visits and the Civil Surgeon paid one. There were treated 162 in and 1,352 out-door patients, against 113 and 1,154 in 1885; the daily averages being 4 and 11, against 3 and 11 respectively. There were 24 deaths against the same number in 1885. Five major and 27 minor operations were performed. There were no deaths after operation. The total expenditure was Rs. 1,107, whereof Government contributed Rs. 3 as cost of registers and forms. Establishment cost Rs. 555, Europe medicines Rs. 60, and bazar medicines Rs. 13.

The expenditure on diet was Rs. 235, on miscellaneous items Rs. 138, and on building and repairs Rs. 106. Rupees 1,104 were received from local or other funds. At the end of the year the dispensary had a cash balance of Rs. 25.

Julpaigori District.

The general health of the district, the Civil Medical Officer says, compares unfavourably with that of the previous year, the mortality being greater owing to an epidemic outbreak of cholera immediately after the breaking up of the rains. There were 20,541 deaths, against 15,116 in the previous year. The increased mortality is, it is said, due not so much to an increased insalubrity of the district as to improvement in the registration of deaths. Cholera caused 1,330 deaths, against 265 in the preceding year. There were four dispensaries at work at the end of the year, of which two belonged to class IIIA, and two to class IIIB. All the institutions were under the charge of Civil Hospital Assistants. Three dispensaries, viz., Julpaigori, Titalyah and Alipore, afforded both in and out-door relief; while the dispensary at Boda treats out-door patients only. There were treated 286 in and 10,969 out-door patients, against 349 and 12,025 in 1885; the daily averages being 11 and 73 against 12 and 87 respectively. The decrease in the number of patients is said to be due to the diminished attendance of out-patients in the Julpaigori Charitable Dispensary. The register of out-door patients of Julpaigori is daily checked by the Civil Medical Officer, while the other registers were found approximately correct at the inspection visits. The Civil Medical Officer has no doubt that the dispensaries in the district are appreciated and do a deal of good.

*Julpaigori.*—A class IIIB dispensary, under the control of the Municipal Commissioners. Two meetings were held. Visited once by the Commissioner of the division and the Sanitary Commissioner. The Magistrate visited the dispensary frequently, but made only one official record. It was visited by the Deputy Magistrate thrice and by the Civil Surgeon daily. There were treated 215 in and 4,169 out-door patients, against 263 and 5,654 in 1885; the daily averages being 8 and 16 against 8 and 34 respectively. There were 41 deaths against 51 in 1885. Eighteen major and 161 minor operations were performed. There were two deaths after operation. The total expenditure amounted to Rs. 1,627, whereof Rs. 768 represent the cost of establishment, Rs. 180 of Europe medicines, and Rs. 24 of bazar medicines. Diet cost Rs. 251. The expenditure on miscellaneous items was Rs. 204, and on building repairs Rs. 200. Government contributed Rs. 15, viz., Rs. 2 as cost of registers and forms and Rs. 13 for diet of police cases. Subscriptions from Europeans and Natives were Rs. 222 and Rs. 618 respectively. Municipality paid Rs. 734.

*Boda.*—A class IIIA dispensary, managed by a committee which held five meetings. The Civil Surgeon visited the dispensary once. There were treated 2,551 out-door patients, with a daily average of 23, against 2,040 and 18 in 1885. Ninety-four minor operations were performed. The total expenditure was Rs. 818, whereof the cost of establishment was Rs. 540. Europe medicines obtained from a private firm cost Rs. 130, and bazar medicines Rs. 6. The expenditure on miscellaneous items was Rs. 46. The outlay on building and repairs was Rs. 96. Government contributed Rs. 2 for forms and registers. The income from local or other funds amounted to Rs. 176. Subscriptions from Natives were Rs. 659. At the end of th year there was a cash balance of Rs. 28.

*Titalyah.*—A class IIIA dispensary, supported by the Cooch Behar estate. There is supposed to be a dispensary committee. No meetings were held during the year. Visited by the Civil Surgeon twice. There were treated 46 in and 3,569 out-door patients, against 54 and 3,477 in 1885; the daily averages being 1·9 and 25·1 against 2·85 and 25 respectively. There were 10 deaths against 10 in 1885. One hundred and thirty-three minor operations were performed. No major operations. The total expenditure was Rs. 740, of which the cost of establishment was Rs. 544, and of Europe medicines Rs. 63. Bazar medicines cost Rs. 46. The expenditure on diet was Rs. 57, and on miscellaneous items Rs. 30. Government contributed Rs. 2 as cost of registers and forms.

*Alipore, Buxa.*—It is a class IIIB dispensary, managed by a Committee which met six times during the year. Visited several times by the sub-divisional officer and once a month by one of the committee members. The Civil Surgeon, Buxa, paid two visits. There were treated 25 in and 680 out-patients, against 32 and 854 in 1885, the daily averages being ·96 and 8·12 against 1·10 and 9·09 respectively. There were no deaths among in-patients. Twenty minor operations were performed. The total expenditure was Rs. 1,239, whereof Rs. 376 represent the cost of establishment. The cost of Europe medicines was Rs. 7, and of bazar medicines Rs. 6. Rupees 53 were expended on diet. Miscellaneous items cost Rs. 39. The outlay on buildings and repairs was Rs. 16. Rupees 742 were invested during the year. Government contributed Rs. 287 as salaries of Civil Hospital Assistant, Rs. 4 as cost of registers and forms, and Rs. 7 for diet of police cases. Rupees 33 represent the interest on investments. Subscriptions from Europeans and Natives were Rs. 142 and Rs. 701 respectively. Rupees 37 were obtained by withdrawal of deposits. At the end of the year the dispensary had a cash balance of Rs. 2 and an invested capital of Rs. 1,199.

## ORISSA DIVISION.

Cuttack District.

The Civil Surgeon says that the general health of the district during the year has been good as compared with previous years. The number of registered deaths was 35,176, against 41,617 in 1885. The mortality from cholera has been less, and that from small-pox has been

much less than in the previous year. Fevers of ordinary intermittent type prevailed during the wet and cold seasons, but none of an epidemic nature occurred. There were eight dispensaries in the district and in tributary estates Of these, two were in class I, two in class II, one in class IIIA, and three in class IIIB. Two Assistant Surgeons and six Civil Hospital Assistants were in charge. There were treated 888 in and 40.702 out-patients, against 883 and 37,001 in 1885, the daily averages being 55 and 314 against 57 and 302 respectively.

*Cuttack General Hospital.*—A class IIIB institution, supported by the Unnochuttra Fund and managed by a committee, which met twice during the year. It was visited once by the Inspector-General of Civil Hospitals and once by the Sanitary Commissioner, Bengal. The members of the committee and other residents pay frequent visits. The hospital was visited daily by the Civil Surgeon. A first grade Assistant Surgeon was in charge, whose entire pay was paid by Government. There were treated 594 in and 4,358 out-patients, against 637 and 4,635 in 1885, the daily averages being 42 and 21 against 45 and 25 respectively. The number of deaths in hospital was 81, against 113 in the previous year. There was no epidemic of either cholera or small-pox in the town. Sixty-one major and 263 minor operations were performed. Four deaths resulted after operation. The total expenditure was Rs. 8.962, of which Rs. 3,612 were the cost of establishment, Rs. 1,540 of English and Rs. 122 of bazar medicines. The expenditure on diet was Rs. 1,366, and on miscellaneous Rs. 2,322. Government contributed Rs. 2,412, namely, Rs. 2,400 as salaries and Rs. 12 as cost of forms and registers. Municipality paid nothing. Rupees 6,214 were derived from local or other funds, and Rs. 493 by withdrawal of deposits. The interest on investments was Rs. 51. There was a cash balance of Rs. 334, and an invested capital of Rs. 1,000 at the end of the year.

*Cuttack Branch Dispensary.*—A class IIIB out-door institution, managed by the Municipal Board, who discuss any question relating to it at their monthly meetings, of which there were 12 during the year. It was visited once by the Inspector-General of Civil Hospitals, Bengal, and daily by the Civil Surgeon. Several visits were paid by the Chairman and Vice-Chairman of the municipality. A Civil Hospital Assistant was in charge. There were treated 12,207 out-patients, against 11,749 in 1885; the daily averages being 142 against 138 in the previous year. The increase in the number of patients, the Civil Surgeon says, was due chiefly to intermittent fever being more prevalent during cold season owing to unusual heavy fall of rain at that time of the year. There was no epidemic of cholera or small-pox in the town during the year. Forty-eight major and 542 minor operations were performed. No deaths resulted after operation. The total expenditure was Rs. 1,266, whereof Rs. 654 were the cost of establishment, Rs. 404 of Europe medicines, and Rs. 95 of bazar medicines. The expenditure on buildings was Rs. 9 and on miscellaneous items Rs 104. Government supplied forms and registers, the cost of which was 4 annas and 7 pies. Municipality paid Rs. 1,266.

*Jajpore.*—A municipal dispensary in class II, in charge of the Civil Hospital Assistant of the sub-division. Six meetings were held by the Committee during the year. Visited once by the District Magistrate, and several times by the sub-divisional officer. The Civil Surgeon inspected it three times. There were treated 42 in and 3,322 out-patients, against 35 and 1,714 in 1885; the daily averages being 2 and 34 against 1 and 31 respectively. There were eight deaths among in-patients, against three in the previous year. Eight major and 111 minor operations were performed. The total expenditure was Rs. 392, whereof Rs. 288 were the cost of establishment, Rs. 15 of Europe medicines, and Rs. 12 of country medicines. The cost of diet was Rs. 27. The expenditure on buildings was Rs. 11, and on miscellaneous items Rs. 39. Government supplied forms and registers, the value of which was Rs. 4. Rupees 30 were obtained from local funds. Subscriptions from Natives amounted to Rs. 15. Municipality paid Rs. 343.

*Kendraparah*—A municipal dispensary in class II, managed by the local municipality. Visited three times by Civil Surgeon, and frequently by the sub-divisional officer. Nine meetings were held by the committee during the year. The Civil Hospital Assistant of the sub-division was in charge. There were treated 25 in and 2,422 out-patients, against 12 and 2,500 in 1885; the daily averages being ·62 and 28 against ·39 and 26 respectively. There were six deaths among in-patients. Nineteen major and 106 minor operations were performed. No deaths resulted after operation. The total expenditure was Rs. 1,534, of which Rs. 337 represent the cost of establishment, Rs. 121 of Europe medicines, and Rs. 27 of country medicines The cost of diet was Rs. 24. The expenditure on buildings was Rs. 925, and on miscellaneous items Rs 100. Government paid Rs. 3 as value of forms and registers. Municipality paid Rs. 1,249. Subscriptions from Natives were Rs. 282.

*Dhurmsalah.*—A class IIIB dispensary, under the management of a committee consisting of the same members as the Cuttack General Hospital Committee, with the addition of the founder of the institution. The district and sub-divisional officers visited the dispensary. The Civil Surgeon inspected it three times. A Civil Hospital Assistant was in charge, who received Rs. 25 from Government and Rs. 25 from the dispensary funds There were treated 141 in and 3,457 out-patients, against 114 and 3,364 in 1885; the daily averages being 4·76 and 34·54 against 4 and 32 respectively. Among in-patients 31 deaths occurred, against 18 in the previous year. Four hundred and seventy-two minor operations were performed. No major operation. The total expenditure was Rs. 1,032, whereof Rs. 726 represent the cost of establishment, and Rs. 56 of country medicines. The cost of diet was Rs 176.

The expenditure on buildings was Rs. 39, and on miscellaneous items Rs. 55. Government paid Rs. 279, namely, Rs. 275 as salaries and Rs. 4 in forms and registers. Subscriptions from Natives were Rs. 1,082. There was a cash balance of Rs. 543 at the end of the year.

*Dhenkanal.*—A class IIIA institution, entirely maintained by the Native State of Dhenkanal. It is governed by the manager of the estate under the orders of the Superintendent, Tributary Mehals. Frequent visits were paid by the civil officer of the station. It was visited once by the Superintendent, Tributary Mehals, and twice by the Civil Surgeon. An Assistant Surgeon was in charge. There were treated 82 in and 7,961 out-patients, against 61 and 7,503 in 1885; the daily averages being 5 and 34 against 4 and 30 respectively. There was only one death among in-patients One hundred and fifty-five minor operations were performed. No major operation. The total expenditure was Rs. 3,774, of which Rs. 2,598 represent the cost of establishment, Rs. 818 of Europe medicines, and Rs. 17 of bazar medicines. The cost of diet was Rs. 243. The expenditure on miscellaneous items was Rs. 98. Government contributed forms and registers, the value of which was Rs. 4. Rupees 3,770 were obtained from Dhenkanal estate.

*Ungul.*—A dispensary in class I, entirely supported by Government. It is situated in the Government estate of Ungul. It is under the direct management of the tehsildar, subject to the orders of the Superintendent, Tributary Mehals. No committee can be formed, as resident members for the purpose are not available. It was visited once by the Assistant Superintendent, Tributary Mehals. Its distance from Cuttack and absence of rapid means of communication prevents the Civil Surgeon from inspecting it. A journey there and back would involve an absence of eight or ten days from the sudder station. Hence Dr Stewart is exempted from visiting it. A Civil Hospital Assistant was in charge. There were treated 4 in and 5,340 out-patients, against 24 and 4,844 in 1885; the daily average being ·3 and 14 against 1 and 12 respectively. No deaths occurred among in-patients Three major and 40 minor operations were performed. No deaths resulted after operation. The total expenditure was Rs 942, of which Rs. 502 was the cost of establishment, Rs. 367 of Europe medicines, and Rs. 27 of bazar medicines. The expenditure on buildings and repairs was Rs. 10, and on miscellaneous items Rs. 36

*Bisparah.*—A dispensary in class I, entirely supported by Government. It is situated in the Government khas mehal estate. It is 125 miles south-west of Cuttack, on the confines of the Madras Presidency on the south and the Central Provinces on the west. Owing to its remoteness and inaccessibility by ordinary means, the Civil Surgeon has not been able to visit the place. A Civil Hospital Assistant was in charge. The place is said to be malarious. There were treated 1,635 out-patients, against 692 in 1885; the daily average was 4·47 against 4 in the previous year. The prevailing diseases were intermittent and remittent fever of a severe type, accompanied by splenic and hepatic derangement. Dysentery, diarrhœa, rheumatism, and skin affections were also prevalent. Twenty-three minor operations were performed. No major operation. The total expenditure was Rs. 507, of which Rs. 467 was the cost of establishment, and Rs. 30 of Europe medicines. The expenditure on buildings was Re. 1, and on miscellaneous items Rs. 9.

**Balasore District.**

The Civil Surgeon says the general health of the town and the district has been worse than in the previous year. The recorded mortality has been higher than in 1885. There were three dispensaries in the district, all in class IIIB. In two both in door and out-door patients were treated, and in one only out-door. There were treated 421 in and 9,968 out-patients, against 386 and 6,774 in 1885; the daily averages being 11 and 62 against 12 and 45 respectively. All the dispensaries were in charge of Civil Hospital Assistants.

*Balasore Pilgrim Hospital.*—A class IIIB dispensary, under the management of the local municipality. No visits were paid by any of the civil officers. The Civil Surgeon visited it daily. A Civil Hospital Assistant was in charge, who received his grade pay from the municipality. There were treated 276 in and 2,077 out-patients, against 228 and 1,654 in 1885; the daily averages being 8· and 9· against 8 and 8 respectively. The death-rate among in-patients was 20·28 per cent. against 22 36 in 1885. Five major and 58 minor operations were performed. Two deaths resulted after operation. The total expenditure was Rs. 2,586, whereof Rs. 540 represent the cost of establishment, Rs. 269 of Europe medicines, and Rs. 18 of bazar medicines. The cost of diet was Rs. 277. The expenditure on buildings was Rs. 508, and on miscellaneous items Rs. 151. Government contributed Rs. 4 as cost of forms and registers. Municipality paid Rs. 300. Rupees 1,015 were obtained from local funds, and Rs. 130 as interest on investments. Rupees 1,161 were obtained by withdrawal of deposits. Subscriptions from Europeans and Natives were Rs. 78 and Rs. 92 respectively. Rupees 823 were invested during the year. There was a cash balance of Rs. 323, and an invested capital of Rs. 3,098 at the end of the year.

*Bhuddruck.*—A class IIIB dispensary, under the management of a local committee, which met eight times during the year. Visited three times by the Civil Surgeon. A Civil Hospital Assistant was in charge. There were treated 145 in and 2,835 out-patients, against 158 and 2,389 in 1885; the daily averages being 3 and 15 against 4 and 15 respectively. There were 26 deaths among in-patients : many of them were admitted in a moribund condition. Eight major and 97 minor operations were performed. No death resulted after operation. The total expenditure was Rs. 2,343, whereof Rs. 959 represent the cost of establishment, Rs. 64 of bazar medicines, and Rs. 16 of Europe medicines. The cost of diet

was Rs. 191. The expenditure on buildings was Rs. 58 and on miscellaneous items Rs. 54. Government paid Rs. 729, namely, Rs. 709 as salaries, Rs. 4 for forms and registers, and Rs. 16 for Europe medicines. Rupees 39 were obtained from local funds, Rs. 263 as interest on investments, and Rs. 334 by withdrawal of deposits. Rupees 1,001 were invested during the year. Subscriptions from Europeans and Natives amounted to Rs. 20 and Rs. 172 respectively. There was a cash balance of Rs. 138 and an invested capital of Rs. 6,067 at the end of the year.

*Raja Shamanund Dey's Dispensary.*—A class IIIB dispensary, managed by a committee which held only one meeting during the year. This dispensary is carefully looked after by the son of the founder. No visits were paid by civil officers. Visited frequently by the Civil Surgeon. A Civil Hospital Assistant was in charge, who was paid from the dispensary funds. There were treated 5,056 out-patients against 2,731 in 1885; the daily averages being 37 and 22 respectively. No in-patients. Two hundred and eight minor operations were performed; no major operations. The total expenditure was Rs. 973, of which Rs. 502 represent the cost of establishment, Rs. 190 of Europe medicines, and Rs. 26 of bazar medicines. The expenditure on miscellaneous items was Rs. 255. Government supplied forms and registers, the value of which was Rs. 4. Rupees 48 were obtained as interest on investments and Rs. 414 from local funds. The municipality paid Rs. 200. There was a cash balance of Rs. 325 at the end of the year. The dispensary has an invested capital of Rs. 6,500 in Government securities.

Pooree District.

The Civil Surgeon says there has been no marked improvement in the public health of the district in 1886. Cholera, small-pox, and bowel-complaints have been less prevalent and fatal in the year under report, while a larger number of deaths has been returned under the heads "fevers" and "all other causes." There were three dispensaries at work at the end of the year—one in class I, one in class, II, and one in class IIIB. They received both in and out-door patients. There were treated 703 in and 9,935 out-patients, against 719 and 10,956 in 1885; the daily averages being 17 and 58 against 22 and 66 respectively. The Civil Surgeon says the figures appear to be reliable. All the dispensaries were in charge of Civil Hospital Assistants. The managing bodies generally take interest in the welfare of the dispensaries, though some of the non-official members of these bodies do not appear to take any great interest. The poorer classes of the resident population are said to appreciate the services rendered by these charitable institutions; but the well-to-do classes, as a rule, do not do so. The Civil Surgeon says one temporary dispensary was opened about the middle of June 1886 at Banpore for out-door patients.

*Pooree.*—This is a class II dispensary, managed by the local municipality. Commissioners met 22 times to transact business. Visited once by the District Magistrate and daily or oftener by the Civil Surgeon. There were treated 480 in and 2,946 out-patients, against 487 and 3,104 in 1885; the daily averages being 13 and 22 against 16 and 25 respectively. There were 173 deaths among in-door patients against 202 in 1885. Eight major and 129 minor operations were performed. One death resulted after operation. The total expenditure was Rs. 2,457, of which 1,201 was the cost of establishment; Rs. 345 of Europe medicines, the quality of which was superior, in 1886, having been obtained from the firm of a reliable Calcutta chemist; Rs. 77 were expended on bazar medicines, and Rs. 499 on diet. The cost of buildings and repairs amounted to Rs. 168, and of miscellaneous items Rs. 167. Government contributed Rs. 134, viz., Rs. 7 as registers and forms, and Rs. 127 as special allowance in the shape of repairs to buildings. Municipality paid Rs. 2,323.

*Piplee.*—A class IIIB institution. It was managed by the Pooree Lodging-house Committee, which met 12 times during the year. Visited twice by the Magistrate of the district and four times by the Civil Surgeon. There were treated 123 in and 1,883 out-door patients, against 116 and 1,900 in 1885; the daily averages being 2 and 17 against 2 and 20; respectively. There were 30 deaths against 29 in the preceding year. There were performed two major and 107 minor operations during the year The total expenditure amounted to Rs. 1,392, of which Rs. 918 represent the cost of establishment, Rs. 189 of Europe medicines, and Rs. 35 of bazar medicines. The cost of diet was Rs. 89, of miscellaneous items Rs. 50, and of building and repairs Rs. 111. Government contributed Rs. 341, viz., Rs. 336 as salaries and Rs. 5 as cost of forms and registers. Rupees. 1,051 were obtained from local funds.

*Khordah.*—A class I dispensary, entirely supported by Government. It is under the management of a local committee, which met three times during the year. Visited once by the Commissioner of the division and the District Magistrate. The Civil Surgeon inspected it twice. There were treated 100 in and 5,106 out-door patients, against 116 and 5,952 in 1885; the daily averages being 2 and 18 against 3 and 21 respectively. There were 6 deaths against 8 in 1885. Three major and 90 minor operations were performed during the year. The total expenditure was Rs. 609, of which Rs. 324 represent the cost of establishment, Rs. 100 of Europe medicines, and Rs. 39 of bazar medicines. The sum expended on diet was Rs. 84, and on miscellaneous items Rs. 62.

## DACCA DIVISION.

Dacca District.

With regard to the public health of the district, the Civil Surgeon says that, according to mortuary registration, the district was more unhealthy than in last year. There were ten dispensaries at the close of the year against nine of the preceding year; the dispensary at Shollaghur having been opened on the 12th January 1886 (Bengal Government letter No. 2807,

dated 14th December 1885). Of these ten dispensaries, two belonged to class II, six to class IIIA, and two to class IIIB. Excepting the Mitford Hospital at Dacca, which was under the charge of an apothecary, and the dispensary at Maluchi, which was under that of an Assistant Surgeon, all the other dispensaries were in charge of Civil Hospital Assistants. The Mitford hospital and the dispensaries at Joydebpore, Boliati, Naraingunge and Maluchi receive both in-door and out-door patients; the rest out-door patients only. There were treated 2,440 in and 43,142 out-patients, against 2,274 and 40,505 in 1885; the daily averages were 117 and 258 against 108 and 241 respectively. Two of these dispensaries were managed by municipalities. The Municipal Commissioners take little or no interest in them and never visit them. The rest (eight) are managed by private committees. Regarding the interest taken in these institutions by the governing bodies, the Civil Surgeon says that the Municipal Commissioners take little or no interest in them, while the committees of the dispensaries are useless, except at Maluchi and Moonshigunge, where the committees are most energetic and regular. Some improvement has been observed during the year under report in respect of all the other dispensaries, except Boliati.

*Mitford Hospital.*—A municipal hospital in class II. The Dacca Municipality control its affairs at their regular monthly meetings, but practically they are left entirely in the hands of the Superintendent. It was visited once by the Hon'ble the Lieutenant-Governor of Bengal. None of the Municipal Commissioners visited the hospital officially during the year. The Civil Surgeon, who is responsible for its general management, visited the hospital daily. First grade Apothecary James Kelly had been in charge since 20th February 1886, relieving first grade Apothecary G. H. Campbell. The greater part of the work of treating the sick is done by the teachers of the medical school, who gave clinical instruction daily in their several wards, assisted by the subordinate staff. There were treated 2,224 in and 18,874 out-patients, against 2,053 and 17,163 in 1885; the daily averages were 108 and 111 against 99 and 109, respectively. There are altogether 114 beds for male patients and 28 beds in a separate ward for female patients. The number of deaths among in-patients was 276, or a death-rate of 12·41 per cent. of the total treated, against 279 and 13·58 in the previous year. The great majority of deaths occur in old and moribund patients. The number of major operations performed was 217 against 192 in 1885. Only 10 deaths resulted from these operations, or 4 per cent., against 16 and 8 in the previous year. Minor operations numbered 2,301. The total income of the hospital during the year, including Government contribution for registers and forms, was Rs. 17,159, of which the municipality paid Rs. 9,392. The total expenditure was Rs. 17,159, whereof Rs. 8,337 represent the cost of establishment. The cost of Europe medicines was Rs. 1,237, and of bazar medicines Rs. 86. The expenditure on diet was Rs. 5,794, on miscellaneous items Rs. 1,362, and on buildings or repairs Rs. 343. There was an invested capital of Rs. 1,76,900 at the end of the year.

*Naraingunge.*—This is a class II dispensary, entirely supported by the municipality. Its affairs are considered at the ordinary municipal meetings. It was visited twice by the Civil Surgeon. A Civil Hospital Assistant was in charge. There were treated 91 in and 4,069 out-patients, against 69 and 4,472 in 1885; the daily averages were 2 and 18 against 2·29 and 20·83 respectively. The number of deaths among in-patients was 27, or a rate of 29·67 per cent., against 16 and 23·18 in the previous year. Sixteen major and 296 minor operations were performed. No deaths resulted after operation. The total expenditure was Rs. 939, of which Rs. 612 represent the cost of establishment. The cost of Europe medicines was Rs. 122, and of bazar medicines Rs. 54. The expenditure on diet was Rs. 54, and on miscellaneous items Rs. 97. Government contributed Rs. 10, namely, Rs. 3 for forms and registers and Rs. 7 for diet of police cases. The Naraingunge Municipality paid Rs. 929.

*Moonshegunge.*—This is a class IIIA sub-divisional dispensary, under the management of a committee which met four times during the year. It was visited once by the Commissioner of the division, twice by the District Magistrate, and once by the sub-divisional officer. The Civil Surgeon inspected it twice. The Civil Hospital Assistant in charge of the sub-division was in charge of the dispensary, and received Rs. 10 per mensem from the dispensary funds. There were treated 3,389 out-patients against 2,996 in 1885; the daily average was 24·95 against 15 in the previous year. No in-patients. Four major and 390 minor operations were performed. No death resulted after operation. The total expenditure was Rs. 571, of which Rs. 298 represent the cost of establishment, Rs. 14 of Europe medicines, and Rs. 15 of bazar medicines. The amount expended on buildings or repairs was Rs. 80, and on miscellaneous items Rs. 34. Rupees 130 were invested during the year. The cost of forms and registers obtained from Government was Rs. 3. Rupees 20 were obtained as interest on investments, and Rs. 264 from deposits withdrawn. Rupees 284 were received as subscriptions from Natives. The dispensary had an invested capital of Rs. 103 at the end of the year.

*Manickgunge.*—A class IIIA sub-divisional dispensary, under the management of a committee which met three times during the year. Visited once by the Commissioner of the division and twice by the Civil Surgeon. A Civil Hospital Assistant was in charge, who was paid Rs. 10 monthly from the dispensary fund. The number of out-patients treated was 1,557 against 2,184 in 1885; the daily average was 12 against 19. No in-patients. The Civil Surgeon says that no one apparently takes any interest in the management or welfare of the institution, the result being a steadily decreasing yearly attendance. One hundred and sixty-three minor operations were performed. No major operation. The total

expenditure was Rs. 449, of which Rs. 307 was the cost of establishment, Rs. 71 of Europe medicines, and Rs. 27 of country medicines The expenditure on buildings or repairs was Rs. 10 and on miscellaneous items Rs. 27. Rupees 7 were invested during the year. Government contributed forms and registers, the cost of which was Rs. 3. Rupees 7 were obtained as interest on investments and Rs. 231 as subscriptions from Natives. Rupees 200 were received by withdrawal of deposits. The dispensary had a cash balance of Rs. 32 and an invested capital of Rs. 136 at the end of the year.

*Maluchi.*—A class IIIA dispensary, supported by an estate and managed by a very energetic committee, which, the Civil Surgeon says, actually does meet every month. It was visited twice by the sub-divisional officer of Manickgunge. The Civil Surgeon inspected it only once during the year. An Assistant Surgeon was in charge, who received Rs. 150 per mensem from the dispensary funds. There were treated 95 in and 2,577 out-patients, against 93 and 2,581 in 1885. The daily averages were 5 and 15 against 5 and 13 respectively. The number of deaths among in-patients was 6. There were six major and 103 minor operations performed. One death resulted after operation. The total expenditure was Rs. 2,821, whereof Rs. 2,076 was the cost of establishment, Rs. 234 of Europe medicines, and Rs. 46 of bazar medicines. Diet cost Rs. 260. The expenditure on miscellaneous items was Rs. 50, and on buildings or repairs Rs. 64. Rupees 111 were invested during the year. The cost of forms and registers received from Government was Rs. 13. Rupees 4 were received as interest on investments, and Rs. 587 were obtained by withdrawal of deposits. Rupees 2,100 were derived from local or other funds. There was a cash balance of Rs. 25 and an invested capital of Rs. 111 at the end of the year.

*Joydebpore.*—This is a class IIIA dispensary, entirely supported by Rajah Rajendra Narain Rai Chowdhuri of Joydebpore. There were no meetings of the committee, but the Rajah and his manager took considerable personal interest in its affairs and visited it constantly. Visited once by the Commissioner of the division and twice by the Civil Surgeon. A Civil Hospital Assistant was in charge, who received Rs. 60 per mensem. There were treated 29 in and 2,495 out-patients, against 40 and 2,597 in 1885; the daily averages were ·65 and 13·18 against 1·42 and 13·97 respectively. There were four deaths among in-door patients. Malarious fever of remittent type, rheumatic and syphilitic affections, respiratory and skin diseases were the prevailing diseases. The decrease in the number of patients was due to the railway which was under construction being completed. Nine major and 233 minor operations were performed. No death resulted after operation. The total expenditure was Rs. 1,248, of which Rs. 957 was the cost of establishment, Rs. 156 of Europe medicines, and Rs. 14 of country medicines. The expenditure on diet was Rs. 37, and on miscellaneous items Rs. 84. Government paid Rs. 11 as cost of forms and registers.

*Bhagyakul.*—A class IIIA dispensary, under the management of a committee which met twice during the year. The Secretary is the sole subscriber of the institution, and he looked into and performed its management very satisfactorily, but no regular meeting was held. It was inspected twice by the Civil Surgeon. No visits were paid by the civil officers of the district. A Civil Hospital Assistant was in charge. There were treated 3,030 out-patients, with a daily average of 15, against 3,210 and 14 in 1885. No in-patients. One hundred and ninety-seven minor operations were performed. No major operation. The total expenditure was Rs. 877, whereof Rs. 504 represent the cost of establishment, Rs. 243 of Europe medicines, and Rs. 14 of country medicines. The expenditure on buildings or repairs was Rs. 20, and on miscellaneous items Rs. 96. Government contributed Rs. 3 as cost of forms and registers, and Rs. 867 were obtained as subscriptions from Natives

*Joinshar.*—A class IIIB institution, managed by a committee which met twice during the year. It was visited once by the Civil Surgeon. A Civil Hospital Assistant was in charge, who received Rs. 25 per mensem half from Government and half from the dispensary fund. There were no in-patients. One thousand four hundred and eighty-two out-patients were treated, with a daily average of 11, against 1,658 and 10 in 1885. Six major and 245 minor operations were performed. No death resulted after operation. The total expenditure was Rs. 535, whereof Rs. 381 represent the cost of establishment, Rs. 87 of Europe medicines, and Rs. 19 of bazar medicines. The expenditure on miscellaneous items, inclusive of cost of forms and registers, was Rs. 38, and on buildings Rs. 60. Government contributed Rs. 150, namely, Rs 147 as salaries and Rs. 3 for forms and registers. The dispensary had an income of Rs. 311 from Native subscriptions, and Rs. 74 were obtained from land rent.

*Boliati.*—This is also a class III B institution, under the management of a committee which never meets. It is actually managed by the Secretary, who pays all the expenses, except the half-pay of the medical subordinate, which is paid by Government. Visited by the Commissioner of the division and twice by the Civil Surgeon. There was one in-patient and 3,363 out-patients, against 1 and 3,644 in 1885; the daily averages were ·054 and 21·43 against ·01 and 23·18 respectively. As in previous years, goitre, which is endemic in this part of the district, is the principal disease treated. Skin-diseases, ulcers, inflammation of ear, and fevers are most prevalent. There were no major, but 120 minor operations were performed. The total expenditure was Rs. 673, of which Rs. 552 represent the cost of establishment. The cost of Europe medicines was Rs. 70 and of bazar medicines Rs. 17. The expenditure on miscellaneous items was Rs. 34. Government contributed Rs. 155, namely, Rs. 150 as half-pay of the Hospital Assistant and Rs. 5 as cost of forms

and registers. The income from Native subscriptions was Rs. 480. There was a cash blance of Rs. 160 at the end of the year.

*Shollaghur or Rai Doorga Pershad Ghose Bahadoor Dispensary.*—A class IIIA dispensary. It was sanctioned in Bengal Government letter No. 2807, dated 14th December 1885, and was opened on the 12th January 1886. It is supported by Baboo Chandra Madhab Ghose, a Judge of the High Court. It is situated in a room leading from a verandah of his private house for reception of out-patients only. Its affairs are managed entirely by the proprietor's agent. There is no committee. Visited once by the Civil Surgeon. A Civil Hospital Assistant was in charge. There were treated 2,306 out-patients, with a daily average of 14. Two major and 168 minor operations were performed. No death resulted after operation. The total expenditure was Rs. 703, whereof Rs. 470 represent the cost of establishment, Rs. 168 of Europe medicines, and Rs. 7 of bazar medicines. The expenditure on miscellaneous items was Rs. 58. Government paid Rs. 3 as cost of forms and registers.

Furreedpore District.

The Assistant Surgeon in civil medical charge says the year 1886 was generally unhealthy. The total number of registered deaths was 29,394, or a rate of 18·01 per mille, against 25,484 and 15·61 in 1885. Cholera was more prevalent, and to this can be attributed the higher death-rate of the district for the year. There were four dispensaries at work at the end of the year, of which two belonged to class II, one to IIIA, and one to IIIB. The dispensary at Goalundo was under the superintendence of a civil medical officer of its own, who submitted a separate report. The dispensaries at Furreedpore and Goalundo were under Civil Hospital Assistants. Lonesing was under a Native Doctor, and Madaripore under a third grade Assistant Surgeon. Three dispensaries received both in and out-door patients, and that at Lonesing out-door patients only. There were treated 444 in and 12,469 out-patients, against 491 and 12,960 ; the daily averages being 18 and 72 against 19 and 59 respectively. The Assistant Surgeon at Furreedpore reports the figures are pretty reliable, and the civil medical officer says that he has no reason to doubt the accuracy of the returns. The managing bodies of the Furreedpore and Madaripore dispensaries take a sufficient interest in their institutions. The founders of the Lonesing dispensary take always a lively interest in their institution. The Assistant Surgeon thinks that the dispensaries are appreciated by the people.

*Furreedpore.*—A class II institution, under the management of the local municipality, who discuss in their general and special meetings matters affecting the dispensary. Visited three times by the Commissioner of the division and the Magistrate of the district, and daily by the Assistant Surgeon in civil medical charge. A Civil Hospital Assistant was in charge, who receives Rs. 30 per month from the municipality. There were treated 231 in and 4,813 out-patients, against 218 and 5,292 in 1885 ; the daily averages being 10 and 18 against 10 and 22 respectively. The total number of deaths was 15, the same as in 1885, the death-rate being 6·49 against 6·88. Ten major and 98 minor operations were performed during the year. The total expenditure was Rs. 1,530, of which Rs. 583 was the cost of establishment, Rs. 107 of Europe medicines, and Rs. 76 of bazar medicines ; Rs. 331 represent the cost of diet, and the expenditure on miscellaneous charges was Rs. 113 and on buildings or repairs Rs. 320. Government contributed Rs. 215, viz., Rs. 11 as cost of registers and forms, and Rs. 204 for diet of police cases Rupees 1,210 were received from municipal funds, and Rs. 8 as subscriptions from Natives and Rs. 97 from Europeans.

*Madaripore.*—This is a municipal dispensary in class II. Visited once by the Commissioner of the division, twice by the District Magistrate, and often by the sub-divisional officer. The Assistant Surgeon in civil medical charge paid two visits. A third grade Assistant Surgeon was in charge, who receives his grade pay, viz., Rs. 100, from Government for the sub-division, Rs. 20 for the subsidiary jail, and Rs. 20 from the municipality for the dispensary. There were treated 85 in and 3,065 out-patients, against 91 and 2,795 in 1885 ; the daily averages being 3 and 10 against 2 and 7 respectively. There were 5 deaths against 1 in the previous year Seven major and 195 minor operations were performed. No death resulted after operation. The total expenditure was Rs. 1,481, of which Rs. 348 represent the cost of establishment, Rs. 506 of Europe medical stores and Rs. 29 of bazar medicines. The expenditure on diet was Rs. 2, on miscellaneous items Rs. 45, and on buildings or repairs Rs. 551. Government contributed Rs. 8 as cost of registers and forms. Rupees 705 were received from local or other funds, Rs. 672 from municipal funds, and Rs. 96 as subscriptions from Natives.

*Goalundo.*—It is a class IIIB institution, under the management of a committee which met twice during the year. Visited once by the Commissioner of the division and several times by the sub-divisional officer and the civil medical officer, who was the Superintendent of the institution. A Civil Hospital Assistant was in charge, whose emoluments amounted to Rs. 65. There were treated 128 in and 2,231 out-patients, against 182 and 2,020 in 1885 ; the daily averages were 5 in and 22 out, against 7 and 21 in the previous twelve months. There were 32 deaths among in-patients against 27 in 1885. Four major and 115 minor operations were performed. There was one death. The total expenditure was Rs. 1,447, of which Rs. 780 represent the cost of establishment, Rs 338 of Europe medical stores, and Rs. 47 of bazar medicines. The expenditure on diet was Rs. 137 and on miscellaneous charges Rs. 44. Rupees 75 were expended on buildings and repairs, and Rs. 26 invested during the year. Government paid Rs. 3 as cost of registers and forms, and Rs. 3 for diet of police cases. Municipality paid Rs. 400. Rupees 26 were received as interest on investments, Rs. 150 from withdrawal of deposits, and Rs. 357

and Rs. 476 were received as subscriptions from Europeans and Natives respectively. The dispensary had an invested capital of Rs. 310 and a cash balance of Rs. 44 at the end of the year.

*Lonesingh.*—This dispensary is in class IIIA, and is managed by its proprietor. There is no dispensary committee. Visited once by the District Magistrate and twice by the Assistant Surgeon in medical charge. There were treated 2,360 out-patients, against 2,853 in 1885; the daily average being 10 against 7. One hundred and sixty-three minor operations were performed. The total expenditure was Rs. 719, of which Rs. 246 represent the cost of establishment. Europe medicines cost Rs. 41 and bazar medicines Rs. 16. The cost of miscellaneous items was Rs. 16, and the expenditure on buildings and repairs was Rs. 400. Government contributed Rs. 3 as cost of registers and forms.

Backergunge District.

The general health of the district during the year under report was worse than that in 1885. The total number of registered deaths during the year under review was 50,775, against 46,016 in the previous year; the rate per thousand being 26·66 against 24·16 in 1885. The increased mortality was due to prevalence of malarious fever throughout the district during the last quarter of the year. The Assistant Surgeon in civil medical charge reports that the fever broke out after heavy floods during the rains. The total number of dispensaries working in the Backergunge district at the end of the year was four, namely, Burrisal, Perozepore, Bhola, and Patuakhally. Two were in class II, one in class IIIA, and the other in class IIIB. The dispensary at Perozepore was vested in the local municipality under Government order No. 956T—M, dated 18th June 1886. Three received both in-door and out-door patients. Patuakhally dispensary received out-door patients only. Two were managed by the municipality, and the other two by private committees. There were treated 340 in and 16,064 out-patients, against 331 and 17,653 in 1885; the daily averages being 14·988 and 80·27 against 13 and 185 respectively. The dispensary at Burrisal was in charge of an Assistant Surgeon; the other three under that of Civil Hospital Assistants. The managing bodies, says the Assistant Surgeon in charge, take interest in the welfare of the institutions under their charge.

*Burrisal.*—It is a municipal dispensary in class II. It was visited twice by the Commissioner of the division, five times by the District Magistrate, frequently by the Municipal Commissioners, and almost daily by the Civil Surgeon. A second grade Assistant Surgeon was in charge, whose salary of Rs. 150 a month was paid by the municipality. There were treated 233 in and 7,487 out-patients, against 253 and 7,791 in 1885; the daily averages were 10 and 40·99 against 9 and 38 respectively. There were 19 deaths, or a rate of 8·19 per cent., against 26 or 10·2 in the preceding year. The greatest number of deaths is in badly wounded cases, which are very common here. Forty-two major, with one death, and 304 minor operations were performed. The total expenditure was Rs. 5,248, of which Rs. 2,364 was the cost of establishment, Rs. 400 of Europe medicines, and Rs. 110 of bazar medicines. The cost of dieting articles was Rs. 377. The expenditure on buildings or repairs was Rs. 1,859, and on miscellaneous items Rs. 138. Government contributed Rs. 13 for forms and registers. Municipality paid Rs. 3,840. The income from local or other funds was Rs. 65. Subscriptions from Europeans and Natives were Rs. 197 and Rs. 1,133 respectively. There was an invested capital of Rs. 4,307 at the end of the year.

*Perozepore.*—This dispensary is in class II, and was vested in the local municipality under Bengal Government order No. 956T—M, dated 18th June 1886. All matters connected with it are discussed in municipal meetings. Visited three times by the Civil Surgeon, and very frequently by the sub-divisional officer. The Civil Hospital Assistant of the sub-division was in charge. There were treated 67 in and 3,432 out-patients, against 30 and 3,398 in 1885; the daily averages were 2·678 and 14 against 1 and 15 in the previous year. There were four deaths among in-patients; all from injuries. One hundred and eleven minor operations were performed; no major operation. The total expenditure was Rs. 384, whereof Rs. 240 represent the cost of establishment and Rs. 25 of bazar medicines. In-door patients dieted themselves. The cost of Europe medicines was Rs. 53, of miscellaneous items Rs. 32, and of buildings or repairs Rs. 34. Government paid Rs. 4 for forms and registers. Municipality paid Rs. 208. Native subscriptions amounted to Rs. 115, and Rs. 55 were obtained from local or other funds.

*Bhola.*—This is a class IIIB dispensary, governed by a committee, presided over by the sub-divisional officer. There were two meetings during the year. It was visited by the Commissioner of the division, the District Magistrate, and very frequently by the sub-divisional officer. The Civil Surgeon inspected it once. The Civil Hospital Assistant of the sub-division was in charge, who received Rs. 45 in all—namely, Rs. 25 for the sub-division, Rs. 10 for executive charge of the subsidiary jail, and Rs. 10 for the dispensary. There were treated 40 in and 2,773 out-patients, against 48 and 4,727 in 1885; the daily averages being 1·92 and 14 against 1 and 20 respectively. There were two deaths among in-patients. One hundred and twenty-one minor operations were performed; no major operation. The total expenditure was Rs. 479, whereof Rs. 312 represent the cost of establishment, Rs. 49 of Europe medicines, and Rs. 10 of bazar medicines. The expenditure on buildings was Rs. 20 and on miscellaneous items Rs. 21. Rupees 67 were invested during the year. Government paid Rs. 127, viz., Rs. 120 as salaries and Rs. 7 for forms and registers. Rupees 60 were obtained from local funds. Interest on investments amounted to Rs. 105, and subscriptions from Natives Rs. 225. There was a cash balance of Rs. 63 and an invested capital of Rs. 2,866 at the end of the year.

*Patuakhally.*—This is a dispensary in class IIIA. It is under the management of a committee, presided over by the sub-divisional officer. Ten meetings were held during the year. It was visited several times by the sub-divisional officer. The Civil Surgeon inspected it only once. The Civil Hospital Assistant of the sub-division was in charge, who received Rs. 10 per mensem from the dispensary fund. There were treated 2,372 out-patients, with a daily average of 11, against 1,767 and 111 in 1885. Fifty-six minor operations were performed; no major operation. The total expenditure was Rs. 489, whereof Rs. 299 represent the cost of establishment. Europe medicines were obtained from private druggists at a cost of Rs. 118. Bazar medicines cost Rs. 18. The expenditure on miscellaneous items was Rs. 54. Government paid Rs. 2 for forms and registers, and Rs. 176 were obtained from local funds. Subscriptions from Natives amounted to Rs. 311. There was a cash balance of Rs. 79 at the end of the year.

Mymensingh district.

The public health of the district in 1886, the Civil Surgeon believes, remained much the same as in previous years, with the exception of a somewhat increased mortality from cholera during the year under notice. This increase, however, Dr. Crawford attributes, was due to better registration. There were 13 dispensaries at work at the end of the year. Of the 13 dispensaries, five were in class II and eight in class IIIA. Five were managed by municipalities, three by the agents of the supporter, and the rest (five) by private committees. The Civil Surgeon does not think that much interest is taken in the dispensaries by their committees, as a rule, with the exception of Tangail and Netrokona. Interest is rather shown, the Civil Surgeon thinks, in the separate visits paid by members of the dispensary or municipal committees to see how the ordinary work is going on. The private managers, Dr. Crawford thinks at least in the case of Jamurki and Ambaria—are more inclined to take interest in the working of their dispensaries than committees. Private dispensaries are also much more liberally kept up than municipal institutions. The dispensaries at Mymensingh, Sherepore, Tangail, Hybutnugger (Kishoregunge), Netrokona and Jamalpore treat in-door and out-door patients; the rest are out-door institutions. Three dispensaries, viz., Mymensingh, Tangail, and Hybutnugger (Kishoregunge), were in charge of Assistant Surgeons. Jamurki was in charge of a private Native Doctor, and all the others were in charge of Civil Hospital Assistants. The total number of patients treated was 540 in and 33,070 out, against 623 and 32,413 in 1885; the daily averages being 19·79 and 243·07 against 20·74 and 230·15 respectively. The Civil Surgeon visited all the dispensaries—Mymensingh frequently; Sherepore, Ramgopalpore, Jamalpore, and Mucktagacha twice; the rest only once during the year.

*Mymensingh.*—It is a municipal dispensary in class II, managed by the local municipality, which held 12 meetings during the year. Visited once by the Commissioner of the division and by the District Magistrate. The Civil Surgeon visited the dispensary daily. Seven visits were paid by various Municipal Commissioners. An Assistant Surgeon was in charge, who received Rs. 120 monthly from the municipality. There were treated 221 in and 4,546 out-patients, against 295 and 4,139 in 1885; the daily averages being 9 and 38 against 8 and 29 respectively. Forty-eight deaths occurred among in-patients, or a death-rate of 21·71 per cent., against 50 and 16·94 in the previous year. The smaller number of in-patients treated during the year, the Civil Surgeon says, was due in part to the accommodation being deficient as compared with what it was before the earthquake of 14th July 1885. Since that date there has been no proper in-patient dispensary. The prevailing diseases were malarious fever, skin affections, injuries, rheumatic and syphilitic affections, ulcer, aphthalmia, dysentery, respiratory affections, enlarged spleen, and diarrhœa. Forty-seven major and 301 minor operations were performed. Three deaths resulted after operation. The total expenditure was Rs. 7,063, of which Rs. 1,848 was the cost of establishment. The expenditure on Europe medicines was Rs. 380, on bazar medicines Rs. 53, on diet Rs. 380, and on buildings Rs. 4,243. The amount spent on miscellaneous items was Rs. 142. Government contributed Rs. 46, namely, Rs. 9 as cost of forms and registers, and Rs. 37 for diet of police cases. Municipality paid Rs. 5,952, and the amount received as subscriptions from Europeans and Natives were Rs. 198 and Rs. 351 respectively, and Rs. 516 were received as interest on investments. Rupees 17 were invested during the year. The dispensary had an invested capital of Rs. 15,122 at the end of the year.

*Sherepore.*—It is a class II municipal dispensary, under the management of the Municipal Commissioners, who held nine meetings during the year. No visits were paid by civil officers of the division or district, except the District Superintendent of Police, who paid one. The Civil Surgeon inspected it twice. A Civil Hospital Assistant was in charge, who received his grade pay, Rs. 25 per mensem, from the municipality. There were treated 36 in and 3,192 out-patients, against 30 and 3,886 in 1885; the daily averages were ·63 and 19·07 against ·64 and 22 respectively. There were six deaths among in-patients. Eleven major and 76 minor operations were performed. No death resulted after operation. The total expenditure was Rs. 980, of which Rs. 494 was the cost of establishment; country medicines cost Rs. 12, and Europe medicines Rs. 380. The expenditure on diet was Rs. 21, on buildings Rs. 3, and on miscellaneous items Rs. 70. Government paid Rs. 4 as cost of forms and registers; municipality paid Rs. 976.

*Ramgopalpore.*—A class IIIA dispensary, under the management of a committee which held three meetings during the year. It was visited once by the District Magistrate. The Civil Surgeon inspected it twice. A Civil Hospital Assistant was in charge, who was paid Rs. 30 per mensem from the dispensary fund. There was a minor establishment consisting of a Compounder on Rs. 8 and a servant on Rs. 5 a month. There were treated 2,758 out-

patients, with a daily average of 16, against 2,408 and 16 in 1885. No in-patients. The prevailing diseases were malarious fever, goitre, ulcer, and skin affections. One major and 108 minor operations were performed. No death resulted after operation. The total expenditure was Rs. 957, whereof Rs. 587 represent the cost of establishment, and Rs. 22 of bazar medicines. The expenditure on miscellaneous items was Rs. 92. The cost of Europe medicines was Rs. 233. Government contributed Rs. 3 as cost of forms and registers. Rupees 514 were obtained by withdrawal of deposits, and Rs. 24 were derived as interest on investments. Subscriptions from Natives amounted to Rs. 500. Rupees 23 were invested during the year. The dispensary had a cash balance of Rs. 83 at the end of the year.

*Tangail.*—A class IIIA dispensary, under the management of a local committee, which met twice during the year. Visited once by the Commissioner of the division, once by the District Magistrate, once by the Civil Surgeon, and four times by the sub-divisional officer. The latter also paid many unrecorded casual visits. Other members of the dispensary committee paid ten visits. An Assistant Surgeon was in charge, who received Rs. 120 per mensem from the dispensary funds. During his absence on sick leave, during the first seven months of the year, a second grade Civil Hospital Assistant of the sub-division acted for him, drawing Rs. 30 from the dispensary funds. There were treated 133 in and 3,231 out-patients, against 149 and 3,443 in 1885; the daily averages being 5 and 23 against 6 and 26 respectively. There were 13 deaths among in-patients against 11 in the previous year. The prevailing diseases were malarious fevers and bowel-complaints. Six major and 205 minor operations were performed. No deaths resulted after operation. The total expenditure was Rs. 2,646, of which Rs. 1,963 represent the cost of establishment, Rs. 280 of Europe and Rs. 33 of bazar medicines. The cost of diet was Rs. 219. The expenditure on buildings was Rs. 20, and on miscellaneous items Rs 131. Government paid Rs. 4 for forms and registers. The expenses of the institution were met from subscriptions from Natives, which amounted to Rs. 2,698. There was a cash balance of Rs. 112 at the end of the year.

*Jamurki.*—A class IIIA dispensary, managed by the agent of the supporter, Nawab Ashanullah of Dacca. It was visited once by the Commissioner of the division and by the Civil Surgeon of the district. A private Native Doctor was in charge. Two thousand nine-hundred and ninety-five out-door patients were treated against 3,086 in 1885, with a daily average of 15, against the same number in the previous year. Goitre, malarious fever, skin diseases, and bowel-complaints were the prevailing diseases. Five major and 164 minor operations were performed. The total expenditure was Rs. 1,269, whereof Rs. 811 represent the cost of establishment, Rs. 97 of Europe medicines, and Rs. 9 of bazar medicines. The expenditure on buildings was Rs. 300, and on miscellaneous items Rs. 52. Government contributed forms and registers, the cost of which was Rs. 4.

*Jhawail.*—This is also a class IIIA dispensary, maintained by Maharani Sharat Sundari Debia, of Putia in Rajshahye, and managed by the agent for her local estates, there being no dispensary committee. The Civil Surgeon inspected it only once during the year. A Civil Hospital Assistant was in charge, who received Rs. 30 a month. There were treated 2,012 out-patients, against 2,022 in 1885, with a daily average of 21 against 25. No in-patients. The prevailing diseases were malarious fever, goitre, skin diseases, and bowel-complaints. One-hundred and forty-five minor operations were performed. No major operations. The total expenditure was Rs. 833, of which Rs. 540 were spent on establishment, Rs. 193 on Europe medicines, and Rs. 14 on bazar medicines. The expenditure on miscellaneous items was Rs. 63. Government contributed Rs. 3 as cost of forms and registers. Rupees 232 were obtained by withdrawal of deposits, and Rs. 23 as interest on investments. Rupees 23 were invested during the year. The income from Native subscriptions was Rs. 575. The dispensary had an invested capital of Rs. 372 at the end of the year.

*Kerotia.*—It is a class IIIA dispensary, supported by Mahomed Ali Khan, zemindar of Kerotia, and managed by a committee which held seven meetings during the year. The Civil Surgeon visited it once. No visits from civil officers. A Civil Hospital Assistant was in charge, who received Rs. 50 a month. Three thousand four hundred and eighty-nine out-door patients were treated, with a daily average of 19, against 3,581 and 17 in 1885. Ten major and 151 minor operations were performed. No death resulted after operation. The total expenditure was Rs. 1,519, of which Rs. 828 represent the cost of establishment, Rs. 241 on Europe medicines, Rs. 27 on bazar medicines, Rs. 383 on buildings and repairs, and Rs. 40 on miscellaneous items. Government paid Rs. 3 as cost of forms and registers.

*Hybutnugger or Kishoregunge.*—This is a municipal dispensary in class II, managed by a committee which held 11 meetings during the year. Visited twice by the District Magistrate, and once by the sub-divisional officer. The Civil Surgeon inspected it only once. It was in charge of a Civil Hospital Assistant for the first four months of the year, and for the last eight months it was under a third grade Assistant Surgeon, Guru Nath Sen. The latter officer was paid Rs. 20 per mensem from the dispensary funds (as well as Rs. 100 for the charge of the sub-division, and Rs. 20 for executive charge of the subsidiary jail). There were treated 102 in and 2,031 out-patients, against 97 and 2,100 in 1885; the daily averages being 2·81 and 14; against 3 and 17 respectively. There were six deaths among in-patients. The prevailing diseases were malarious fever, abscess, ophthalmia, skin affections, and bowel-complaints. Five major and 129 minor operations were performed. No death resulted after operation. The total expenditure was Rs. 862, of which Rs. 510 represent the cost of establishment, Rs. 30 on bazar medicines, Rs. 61 on diet, Rs. 194 on buildings, and Rs. 59 on miscellaneous items. Europe medicines were obtained from private druggists, but were not paid for up to the

end of the year. Rupees 8 were invested during the year. Government paid Rs. 9, namely, Rs. 5 for forms and registers, and Rs 4 for diet of police cases. Municipality paid Rs. 565. Rupees eight were obtained as interest on investments, and Rs. 280 were received as Native subscriptions. The dispensary had an invested capital of Rs. 445 at the end of the year.

*Netrokona.*—A class IIIA dispensary, supported by Sreemutty Bissessuri Debya Chowdhurani of Gouripore, and managed by a committee which met 11 times during the year. It was visited once by the District Magistrate, the sub-divisional officer, and the Civil Surgeon. The Civil Hospital Assistant of the sub-division was in charge, who received his grade pay, Rs. 25, from Government, Rs. 10 from the dispensary fund, and Rs. 10 for executive charge of the subsidiary jail. There were treated 11 in and 1,769 out-patients, against 13 and 1.922 in 1885; the daily averages being ·48 and 13 against 54 and 14 respectively. There was only one death among in-patients. This dispensary does not profess to find accommodation for in-patients, but being the head-quarters of the sub-division, police cases are sometimes brought and left in the dispensary verandah for treatment. Ten of the 11 in-patients come under this head. The prevailing diseases were malarious fever, skin diseases, and respiratory affections. Five major and 135 minor operations were performed. No death resulted after operation. The total expenditure was Rs. 691, whereof Rs. 276 represent the cost of establishment, Rs. 162 of Europe medicines, and Rs. 13 of bazar medicines. In-patients dieted at their own expense. The expenditure on buildings was Rs. 40, and on miscellaneous items Rs. 44. Government contributed forms and registers, the cost of which was Rs. 5. Rupees 156 were invested during the year.

*Jamalpore.*—A class II institution under the local municipality. There is no separate dispensary committee. Its matters were discussed at six municipal meetings. Visited once by the Commissioner of the division and twice by the District Magistrate. The Civil Surgeon inspected it twice. The sub-divisional officer never visited it. The Civil Hospital Assistant of the sub-division was in charge. There were 37 in and 866 out-patients, against 39 and 808 in 1885; the daily averages being 1 and 7 against 1 and 6 respectively. There were two deaths among in-patients, against six in the previous year. The prevailing diseases were malarious fever, skin diseases, and dysentery. Thirty minor operations were performed. No major operations. The total expenditure was Rs. 533, whereof Rs. 203 were spent on establishment, Rs. 111 on Europe medicines, and Rs. 8 on country medicines. The expenditure on diet was Rs. 20, on buildings Rs. 135, and on miscellaneous items Rs. 56. Government paid Rs. 12, namely, Rs. 3 for forms and registers and Rs. 9 for diet of police cases. Municipality paid Rs. 221. Subscriptions from Natives were Rs 300.

*Muktagacha.*—A class IIIA dispensary, supported by an endowment of Rs. 12,000 from Raja Surja Kant Acharjee Chowdry Bahadoor of Muktagacha, and managed by a committee which met twice during the year. It was visited three times by the Magistrate of the district, twice by the Civil Surgeon, and three times by the Secretary to the dispensary committee. A Civil Hospital Assistant was in charge, who received Rs. 30 per mensem from the dispensary funds Two thousand one hundred and eighteen out-patients were treated, with a daily average of 20, against 1,753 and 18 in 1885. No in-patients. One hundred and fifty-seven minor operations were performed. No major operations. The total expenditure was Rs. 1,104, of which Rs. 444 represent the cost of establishment, Rs. 146 of Europe medicines, and Rs. 22 of bazar medicines. Rupee 1 was spent on buildings or repairs, and Rs 37 on miscellaneous items. Government paid Rs. 3 as cost of forms and registers. Rupees 555 were obtained as interest on investments, and Rs. 543 were derived by withdrawal of deposits. Rupees 455 were invested during the year. The dispensary had an invested capital of Rs. 12,314 at the end of the year.

*Bazitpore.*—A municipal dispensary in class II. Visited once by the Civil Surgeon and twice by the Chairman of the municipality. No civil officer of the district visited it. A Civil Hospital Assistant was in charge, who received Rs. 25 a month from the dispensary funds. There were treated 1,534 out-patients, against 1,835 in 1885, with a daily average of 8·06 against 8·65. The falling off is ascribed to the fact that the town was practically isolated by floods at the end of the year. The prevailing diseases were skin affections, malarious fevers, ulcer, and venereal diseases. Four major and 153 minor operations were performed. No death resulted after operation. The total expenditure was Rs. 505, whereof Rs. 372 represent the cost of establishment, Rs. 60 of Europe medicines, and Rs. 6 of bazar medicines. The expenditure on buildings was Rs. 39 and on miscellaneous items Rs. 28. Government contributed forms and registers, the cost of which was Rs. 3. Municipality paid Rs. 484, against Rs. 567 in the previous year. The income from Native subscriptions was Rs. 18.

*Ambaria.*—It is a class IIIA dispensary, supported by Baboo Hem Chunder Chowdhry, zemindar of Ambaria. There is no dispensary committee. It was visited once by the District Magistrate, and once by the Civil Surgeon. A Civil Hospital Assistant was in charge, who received Rs. 40 a month. Two thousand five hundred and nine out-patients were treated, with a daily average of 26, against 1,430 and 11 in 1885. No in-patients. Forty-eight minor operations were performed. No major operations. The total expenditure was Rs. 978, of which Rs. 677 represent the cost of establishment, Rs. 260 of Europe medicines, and Rs. 14 of bazar medicines. The expenditure on miscellaneous items was Rs. 27. Government paid Rs. 3 as cost of forms and registers. The income from local subscriptions was Rs. 975.

## CHITTAGONG DIVISION.

Chittagong District.

The Civil Surgeon says the public health of the district has been fair. There was no cholera or other epidemic. There is one dispensary in the sudder station and one in Cox's Bazar sub-division. The latter dispensary was placed in class IIIB in 1887 under the orders of Government. Its working is not therefore shown in the report of 1886. The Civil Surgeon has, however, submitted a separate report of the dispensary.

*Chittagong.*—A municipal dispensary in class II, managed by the Municipal Committee. The District Judge and the Magistrate visited the dispensary several times. The Civil Surgeon visited it almost daily. A third grade Assistant Surgeon was in charge, who received Rs. 120 from the municipal fund. There were treated 301 in and 6,645 out-door patients, against 368 and 6,736 in 1885; the daily averages being 11 in and 29 out against 13 and 30 respectively. There were 18 deaths, or a rate of 5·98 per cent., against 28 and 7·6 in the previous year. The Civil Surgeon says the malarious character of the climate accounts for most of the diseases. There were performed 33 major and 339 minor operations. There was one death after operation. The Civil Surgeon says "the dispensary is utilised pretty freely by the shipping, and is of undoubted use and advantage in this respect." The total expenditure was Rs. 3,774, of which the cost of establishment was Rs. 2,510, of Europe medicines Rs. 255, and of bazar medicines Rs. 29. The expenditure on diet was Rs. 645, on miscellaneous items Rs. 189, and on building and repairs Rs. 146. Government paid Rs. 116 for diet of police cases. Rupees 681 were received from local or other funds. Municipality paid Rs. 2,332. Subscriptions from Europeans and Natives were Rs. 375 and Rs. 270 respectively.

As regards the Cox's Bazar Dispensary, the Civil Surgeon writes as follows:—"Practically this dispensary is now for the first time formed. A new house is to be built and room made for in-patients. The sub-divisional officer, who takes a great deal of interest in the getting up of the institution, is confident that he will be able (with the assistance given by Government) to provide sufficient funds for a ward for six or eight patients." The Assistant Surgeon in charge of the sub-division remarks as follows:—"The relation of dispensary attendance to local health cannot be fairly stated, as most of the people here are *Mughs*, and they have no liking for European medicines."

Noakholly District.

The Assistant Surgeon in civil medical charge says that the public health of the district in the year under report bears a favourable comparison with that of 1884 and 1885, the total deaths being less than that of the two previous years. There were four dispensaries at work at the end of the year, of which one was in class II, one in class IIIA, and two in class IIIB. The dispensary at Noakholly only treats both in and out-door patients. All the dispensaries were in charge of Civil Hospital Assistants. There were treated 96 in and 6,060 out-patients, with a daily average of 3·96 and 39·74, against 103, 5,643, 3·99, and 37·66 respectively in 1885. The figures, says the Assistant Surgeon, can be relied on. The managing bodies are said to have taken due interest in the welfare of the institutions under their respective charges. The Assistant Surgeon thinks the dispensaries have been fairly appreciated by the people. Besides the four dispensaries, there is another dispensary under an officer who had studied up to the junior courses in the Calcutta Medical College. The dispensary affords relief to out-door cases only, and is managed by the Bhuluah estate. It is not under Government supervision.

*Noakholly.*—A municipal dispensary in class II. Visited once by the Commissioner of the division and twice by the Magistrate. It was occasionally visited by the Judge. The Chairman and the members of the municipality visited the dispensary several times. The Assistant Surgeon visited it daily and oftener when occasion required. There were treated 96 in and 2,391 out-patients, against 103 and 2,479 in 1885, the daily averages being 3 and 11 against 3 and 12 respectively. There were 5 deaths against 9 in the previous year. Nine major and 136 minor operations were performed. There was no death after operation. The total expenditure was Rs. 1,381, of which Rs. 853 represent the cost of establishment, Rs. 112 of Europe medicines, Rs. 30 of bazar medicines. The expenditure on diet was Rs. 153, on miscellaneous items Rs. 86, and on building and repairs Rs. 147. Government contributed Rs. 3 as cost of registers and forms and Rs. 4 for diet of police cases. Subscriptions from Europeans and Natives amounted to Rs. 120 and Rs. 124 respectively. Rupees 5 were received from local or other funds. Municipality paid Rs. 885, and Rs. 240 were received as interest on investments. The dispensary had an invested capital of Rs. 4,000 at the end of the year.

*Dulalbazar.*—A class IIIA dispensary, maintained by a private zemindar. Eleven meetings were held during the year. Visited once by the Magistrate and twice by the Assistant Surgeon. There were treated 1,366 out-door patients, with a daily average of 9, against 1,201 and 6 respectively in 1885. One major and 146 minor operations were performed. The total expenditure was Rs. 458, whereof establishment cost Rs. 396, Europe medicines Rs. 57, and bazar medicines Re. 1. The expenditure on miscellaneous items was Rs. 4. Government contributed Rs 3 as cost of registers and forms.

*Fenny.*—A class IIIB dispensary, managed by a local committee, which held two meetings during the year. Visited once by the Commissioner of the division and once by the Magistrate. The Civil Hospital Assistant of the sub-division was in charge of the dispensary, for which he receives Rs. 10 per month from Government. There were treated 1,232 out-door patients, with a daily average of 13, against 1,315 and 16 in 1885. Six

major and 20 minor operations were performed during the year. There was no death after operation. The total expenditure amounted to Rs. 614, whereof Government contributed Rs. 123, viz., Rs. 120 as salaries and Rs. 3 as cost of registers and forms. Establishment cost Rs 312, Europe medicines Rs. 17, and bazar medicines Rs. 26. The expenditure on miscellaneous items was Rs. 32, and on buildings and repairs Rs. 162. Rupees 65 were invested during the year. Rupees 24 were received as interest on investments, and Rs. 185 by withdrawal of deposits. Receipts from Europeans and Natives as subscriptions amounted to Rs. 200 and Rs. 84 respectively. The dispensary had an invested capital of Rs. 528 at the end of the year and a cash balance of Rs. 4.

*Hurrishpore.*—It is a class IIIB institution. It is governed by a local committee which held three meetings. The dispensary was not visited by any civil officer. The Assistant Surgeon visited it twice. There were treated 1,071 out-door patients against 648 in 1885, the daily average being 5 against 3. Minor operations numbered 22. No major operation. The total expenditure amounted to Rs. 508, of which Rs. 382 represent the cost of establishment, Rs. 39 of Europe medicines, and Re. 1 of bazar medicines. Rupees 72 were expended on miscellaneous items and Rs. 14 on buildings and repairs. Government contributed Rs. 322 as salaries and Rs. 3 as cost of registers and forms. Subscriptions from Natives amounted to Rs. 240. The dispensary had a cash balance of Rs. 104 at the end of the year.

**Tipperah District.**

The Assistant Surgeon in civil medical charge says the public health of the district was not very good. Cholera was rather severe both in the town and district. The rainfall was somewhat unusual during the year. Three dispensaries were at work at the end of the year, of which two were in class II, giving relief both to in and out-door patients, and one in class IIIA, treating out-door patients only. Two dispensaries were in charge of Civil Hospital Assistants, and one was under a Native Doctor. There were treated 215 in and 10,424 out-door patients, against 165 and 7,927 in 1885; the daily averages being 10 and 85 against 11 and 79 respectively. All the dispensaries are properly looked after by their respective managing bodies, and are, it is said, gradually growing in popularity.

*Commilla.*—A class II dispensary, under the management of the municipality, which met 13 times during the year. Visited once by the Commissioner of the division and several times by the District Magistrate. The Municipal Vice-Chairman paid one visit, and the Assistant Surgeon in medical charge of the civil station visited it daily. There were treated 157 in and 5,644 out-door patients, against 110 and 3,622 in 1885; the daily averages being 8 and 44 against 8 and 37 respectively. There were 16 deaths, or 10·19 per cent., against 13 and 11·81 in the previous year. There were performed 60 major and 286 minor operations. There was only one death after operation. The total expenditure amounted to Rs. 2,481, whereof establishment cost Rs. 756, Europe medicines Rs. 174, and bazar medicines 29. Diet cost Rs. 367, and the expenditure on miscellaneous charges and on buildings and repairs was Rs. 111 and Rs. 1,044 respectively. Government contributed Rs. 103, viz., Rs. 12 as cost of registers and forms and Rs. 91 for diet of police cases. Rupees 57 were received from local or other funds. Rupees 109 and Rs. 219 were received as subscriptions from Europeans and Natives respectively. Municipality paid Rs. 1,933.

*Brahmunberiah.*—A municipal dispensary in class II. It was visited twice by the District Magistrate and ten times by the Municipal Commissioners. The Assistant Surgeon paid one visit. There were treated 58 in and 1,623 out-door patients, against 55 and 1,368 in 1885; the daily averages being 1 and 9 against 2 and 9 respectively. There were four deaths among the in-patients. Thirteen major and 112 minor operations were performed. There were no deaths after operation. The total expenditure was Rs. 626, whereof Rs. 252 represent the cost of establishment, Rs. 188 of Europe medicines, and Rs. 42 of bazar medicines. Diet cost Rs. 16. The expenditure on miscellaneous items was Rs. 101, and on building and repairs Rs. 26. Government contributed Rs. 4 as cost of registers and forms. Rupees 11 were received from local or other funds. Subscriptions from Natives were Rs. 71. Municipality paid Rs. 540.

*Ramchunderpore.*—A class IIIA dispensary, under the management of Nawab's agent and his naib at Ramchunderpore. There was no visit of the civil officers. The Assistant Surgeon visited it once. A Native Doctor was in charge. There were treated 3,157 out-door patients, against 2,937 in 1885; the daily average being 31·28 against 31·93. Fourteen major and 261 minor operations were performed. The total expenditure amounted to Rs. 584, of which Rs. 514 represent the cost of establishment, Rs. 18 of Europe medicines, and Rs. 42 of bazar medicines. The expenditure on miscellaneous items was Rs. 10. Government paid Rs. 6 as cost of registers and forms.

## PATNA DIVISION.

**Patna District.**

The Civil Surgeon, with regard to the general health, says that, judging by the death returns of the various registering circles in the district, there were less deaths in 1886 than there have been since 1884 in the Patna district, and the death-rate was lower. The unhealthiest months were August, October, November and September. Five dispensaries were at work at the end of the year. Three were in class II, one in class IIIB, and one in class IIIA. All the dispensaries treated both in-door and out-door patients. Excepting one dispensary, all were under Assistant Surgeons. The total number of patients treated was 2,411 in and 45,272 out-door patients, against 2,669 and 47,590 in 1885; the daily averages being

134 and 406 against 149 and 424 respectively. The Civil Surgeon remarks that the dispensaries appear to be well appreciated by the people generally.

*Bankipore Dispensary or Temple Medical School Hospital.*—It is a class IIIB dispensary, under the management of the Patna Municipality. The dispensary was once visited by the Inspector-General of Civil Hospitals and the District Magistrate. The Civil Surgeon visited the institution very frequently. Second grade Assistant Surgeon Ramkali Gupta was in charge of the dispensary. There were other Assistant Surgeons in charge of medical wards of the hospital and for the treatment of out-patients. There were treated 1,021 in and 14,227 out-patients, against 1,099 and 15,189 in 1885; the daily averages being 71 and 111 against 71 and 109 respectively. There were 149 deaths, or 14·5 per cent, against 151 and 13·7 in 1885. There were performed 103 major operations, with eight deaths. Minor operations numbered 1,321. The total expenditure was Rs. 8,400, of which the cost of establishment was Rs. 4,319. Bazar medicines cost Rs. 281, and Europe medicines obtained from private sources Rs. 576. The expenditure on diet amounted to Rs. 2,286 and on miscellaneous items Rs. 938. Government contributed Rs. 102 for diet of police cases. Interest on investments amounted to Rs. 80, and subscriptions from Europeans were Rs. 78 and from Natives Rs. 42. Municipality contributed Rs. 8,098. At the end of the year the dispensary had an invested capital of Rs. 2,000. The new female hospital, which was open throughout the year, is worked as a part of the dispensary and is supported by the municipality. It practically acts as a female ward to the dispensary. During the year the teacher of midwifery gave lectures to a class of women upon midwifery. As there were only two or three cases of confinement treated in the hospital, these women could not get proper practical instruction.

*Patna City Dispensary.*—This is a class II dispensary, managed and supported by the Patna Municipality. Visited once by the Civil Surgeon and the District Magistrate. There were treated 412 in and 14,064 out-patients, against 562 and 14,961 in 1885; the daily averages being 25 and 136 against 32 and 139 respectively. There were 78 deaths, or 18·9 per cent., against 129 and 22·9 in 1885. Fifty-six major operations were performed, with one death. Minor operations totalled 1,712. The total expenditure was Rs. 3,291, of which the cost of establishment was Rs. 1,822; bazar medicines cost Rs. 117 and Europe medicines Rs. 533. The expenditure on diet was Rs. 625 and on miscellaneous items Rs 194. Rupees 6 were received from local and other funds and Rs. 820 as interest on investments. Municipality paid Rs. 2,465. The dispensary had an invested capital of Rs. 20,500 at the end of the year.

*Barh.*—A class II municipal dispensary. The business of the dispensary is regulated at the general meetings of the municipality. The dispensary was not visited by the Civil Surgeon, as he was away on three months' leave, and not in good health. His *locum tenens* could not also visit it, as he was acting in charge of the civil station in addition to his own duties as Principal Assistant to the Opium Agent, Patna. There were treated 302 in and 4,383 out-patients, against 344 and 5,360 in 1885; the daily averages being 10 and 41 against 13 and 50 respectively. There were 13 deaths, or a rate of 4·2 per cent., against 15 and 4·36 in 1885. There were performed 48 major operations. No death occurred. The number of minor operations was 446. The total expenditure was Rs 1,802, whereof the cost of establishment was Rs. 1,392; bazar medicines cost Rs. 28 and Europe medicines obtained from private sources Rs. 116. The expenditure on diet was Rs. 140, on miscellaneous charges Rs. 106, and on building and repairs Rs. 20. Government contributed Rs. 23 for diet of police cases. Subscriptions from Natives amounted to Rs. 103. Municipality paid Rs. 1,676.

*Behar.*—This is also a class II municipal dispensary. It was not visited by the Civil Surgeon for the same reason as given in respect of Barh Dispensary. There were treated 224 in and 6,426 out-patients, against 216 and 5,827 in 1885; the daily averages being 14 and 47 against 16 and 53 respectively. There were 29 deaths, or a rate of 12·94 per cent., against 41 and 18·98 in 1885. There were performed 37 major operations, with one death. Minor operations numbered 316. The total expenditure was Rs. 2,264, whereof the cost of establishment was Rs. 1,488. Bazar medicines cost Rs. 65 and Europe medicines Rs. 171. The expenditure on diet was Rs. 383, on miscellaneous items Rs. 97, and on buildings Rs. 60. Government contributed Rs. 123 for diet of police cases. The amount of subscriptions from Natives was Rs. 383. Muncipality paid Rs. 1,758.

*Dinapore.*—A class IIIA dispensary, managed by a special committee which held one meeting only. The dispensary was visited repeatedly by the Civil Surgeon of Dinapore and the Cantonment Magistrate, and once by the District Magistrate It was not visited by the Civil Surgeon, Patna. A first class Civil Hospital Assistant was in charge. There were treated 452 in and 6,172 out-patients, against 448 and 6,253 in 1885; the daily averages being 12 and 69 against 13 and 71 respectively. There were 35 deaths, or a death-rate of 7·7 per cent., against 40 and 8·92 in 1885. There were performed 77 major operations, with one death. The number of minor operations was 482. The total expenditure was Rs. 1,034, whereof the cost of establishment was Rs. 627. The expenditure on miscellaneous items was Rs. 135 and on diet Rs. 70. The cost of bazar medicines was Rs. 55 and of Europe medicines Rs. 17. The outlay on building and repairs was Rs. 130. The income from local or other funds was Rs. 240. Rupees 80 represent the interest on investments. Subscriptions from Europeans and Natives were Rs. 384 and Rs. 633 respectively. At the end of the year the dispensary had an invested capital of Rs. 2,000.

Gya District.

The general health of the district compares favourably with that of the previous year. The Civil Surgeon remarks that the registration of deaths in the rural parts of the district is so defective that it is impossible to draw correct inferences from the figures submitted. The total number of registered deaths was 54,500 against 54,541 in 1885. There were working six dispensaries at the end of the year against five in the previous year, the dispensary at Daudnugger having been opened on the 1st June 1886 under orders of Government. Of the six dispensaries, two belonged to class II, and four to class IIIA. Five dispensaries treated both in and out-door patients. Daudnugger Dispensary afforded outdoor relief only. There were treated 725 in and 17,615 out-patients, against, 681 and 14,841 in 1885; the daily averages being 30·57 and 214·27 against 25·66 and 189·04 respectively. Two dispensaries were under the charge of Assistant Surgeons, and the rest under that of Civil Hospital Assistants. The managing bodies, it is said, do not take much interest in the welfare of the dispensaries.

*Gya Pilgrim Hospital.*—This is a class II municipal dispensary. Visited by the Commissioner of the division and the district Magistrate. Some of the Municipal Commissioners visited the institution. The Civil Surgeon paid daily visits. A second grade Assistant Surgeon was in charge. There were treated 465 in and 8,312 out-patients, against 447 and 6,979 in 1885; the daily averages being 19 and 108 against 16 and 104 respectively. The Civil Surgeon remarks that the hospital is now a very popular institution, and hopes that the in-patients will rapidly increase owing to the better accommodation provided in the new building, which was opened by the Commissioner on the 15th of December. There were 156 deaths, or a rate of 33·54 against 138 or 30·87. The high death-rate was due to the number of moribund cases that were sent to the hospital from the streets and dharmasalas. Fifty-three major and 671 minor operations were performed. Four deaths resulted after operation. The total expenditure was Rs. 16,675, whereof Rs. 3,495 represent the cost of establishment, Rs. 451 of Europe medicines obtained from private sources, and Rs. 100 of bazar medicines. Rupees 408 were expended on diet, Rs. 711 on miscellaneous items, and Rs. 11,510 on building and repairs. Government contributed Rs. 13 as cost of registers and forms. Rupees 4,105 were received from local or other funds. Subscriptions from Europeans and Natives were Rs. 51 and Rs. 202 respectively. Municipality paid Rs. 12,304.

*Tikari.*—It is a class IIIA dispensary, managed by the Court of Wards. No committee. No visits were paid by the civil officers. The Civil Surgeon paid two visits. A second grade Assistant Surgeon was in charge. There were treated 75 in and 3,394 out-patients, against 67 and 3,314 in 1885; the daily averages being 3 and 38 against 2 and 45 respectively. There were 8 deaths against 7 in 1885. Eight major and 151 minor operations were performed. There was no death. The total expenditure was Rs. 2,957, whereof Rs. 2,285 were expended on establishment, Rs. 151 on Europe medicines obtained from private sources, Rs 40 on bazar medicines, Rs. 129 on diet, Rs. 151 on miscellaneous items, and Rs. 201 on building and repairs. Government contributed Rs. 8 as cost of forms and registers. At the end of the year the dispensary had an invested capital of Rs. 27,000.

*Nowada.*—A class IIIA dispensary, managed by a committee which held five meetings. The Civil Surgeon paid three visits. There were treated 69 in and 1,320 out-patients, against 71 and 1,018 in 1885; the daily averages being 2·60 and 10·82 against 3·02 and 9·98 respectively. There were 4 deaths against 17 in the previous year. Seventy-four minor operations were performed; no major operation. The total expenditure was Rs. 895, whereof the cost of establishment was Rs. 312. Europe medicines cost Rs. 81 and bazar medicines Rs. 11. Rupees 49 were expended on diet, Rs. 39 on miscellaneous items, and Rs. 15 on building and repairs. Government contributed Rs. 4 as cost of forms and registers. Rupees 7 were received from local or other funds, Rs. 65 as interest on investments, Rs. 435 by withdrawal of deposits, and Rs. 385 as subscriptions from Natives. Rupees 388 were invested during the year. At the end of the year there remained an invested capital of Rs. 1,082.

*Aurungabad.*—This is a class IIIA dispensary, managed by a committee. There was no meeting during the year. Visited once by the Commissioner of the division and the District Magistrate. The Civil Surgeon visited the dispensary thrice. There were treated 52 in and 964 out-patients, against 31 and 1,026 in 1885; the daily averages were 2·85 and 11·72 against 1·94 and 11·22 respectively. There were 14 deaths, or a rate of 26·92 per cent., against 6 and 19·35 in the previous year. This high death-rate was due, it is said, to the number of moribund patients that were admitted into the dispensary. Forty-two minor operations were performed; no major. The total expenditure was Rs. 934, whereof Rs. 324 represent the cost of establishment, Rs. 118 of Europe medicines, and Rs. 15 of bazar medicines. The cost of diet was Rs. 49. Rupees 53 were expended on miscellaneous items. Government contributed Rs. 4 as cost of registers and forms. Rupees 265 were received from local or other funds. Rupees 17 represent the interest on investments. Rupees 275 were obtained by withdrawal of deposits. Subscriptions from Natives amounted to Rs. 431. Rupees 375 were invested during the year. The dispensary had at the end of the year a cash balance of Rs. 66 and an invested capital of Rs. 201.

*Jehanabad.*—This is also a class IIIA dispensary, managed by a committee which met three times during the year. The District Magistrate visited the dispensary once, and the sub-divisional officer eight times. Some of the members of the committee paid occasional visits. The manager of the Tikari estates paid one visit. The Civil Surgeon visited the

institution twice. There were treated 64 in and 1,908 out-patients, against 65 and 2,504 in 1885; the daily averages being 2 and 16 against 1 and 18 respectively. There were 11 deaths, or a rate of 17·18 per cent., against 1 and 1·53 in 1885. This was due to bad cases of chronic dysentery and diarrhœa, which resulted in fatal dropsy or anæmia. Three major and 67 minor operations were performed. The total expenditure amounted to Rs. 1,291, whereof Rs. 414 was the cost of establishment, Rs. 170 of Europe medicines which were obtained from private sources, and Rs. 39 of bazar medicines. The expenditure on diet was Rs. 30, on miscellaneous items Rs. 48, and on building and repairs Rs. 100. Government contributed Rs. 7 as cost of registers and forms, and Rs. 4 for diet of police cases. The income as interest on investments was Rs. 54, and by withdrawal of deposits Rs. 377. Native subscriptions amounted to Rs. 646, and European Rs. 55. Rupees 490 were invested during the year. At the end of the year there was an invested capital of Rs. 648.

*Daudnugger.*—This is a class II dispensary, managed by the Daudnugger Municipality. Visited once by the Commissioner of the division. The sub-divisional Deputy Magistrate paid several visits. The Civil Surgeon visited the institution once. The Chairman of the municipality also visited it. There were treated 1,717 out-door patients, with a daily average of 29. Sixty-six minor operations were performed. The total expenditure was Rs. 718, whereof Government contributed Rs. 131 towards the salary of the Hospital Assistant, and Rs. 11 as cost of registers and forms. Municipality paid Rs. 576. Establishment cost Rs. 253, Europe medicines Rs. 381, bazar medicines Rs. 2, and miscellaneous items Rs. 82.

Shahabad District.

The Civil Surgeon, with regard to the public health, says that the year under review was a notoriously unhealthy one, the total mortality of the district far exceeding that of the previous year, which was anything but healthy. The number of recorded deaths was 71,086, against 50,358 in 1885. The increase in the number of deaths is attributed to the prevalence and fatality of malarial fevers. The Civil Surgeon remarks that the extremely heavy rainfall of the past year was no doubt the chief cause of the great increase of malarious fevers. There were seven dispensaries working at the end of the year. All of them treat both in-door and out-door patients. One was a State hospital in class I, one in class II, one in class IIIA, and four in class IIIB. Of the seven dispensaries, four were in charge of Assistant Surgeons and three of Civil Hospital Assistants. The total number of patients treated was 879 in and 45,996 out, against 748 and 39,791 in 1885; the daily averages being 38 and 442 against 36 and 392 respectively. The Civil Surgeon says that the figures are worthy of confidence.

*Arrah.*—This is a class IIIB dispensary, managed by the municipality. The municipal committee usually meet once a month. Visited twice by the Commissioner of the division, once by the Sanitary Commissioner of Bengal, twice by the Magistrate, and four times by the Municipal Commissioners. The Civil Surgeon visited it daily. A second grade Assistant Surgeon was in charge. There were treated 235 in and 7,429 out-patients, against 230 and 7,537 in 1885; the daily averages being 13 and 53 against 13 and 61 respectively. The figures of out-door attendance show decrease This certainly does not correspond with the public health, but the Civil Surgeon reports that the decrease is due to the opening of a private out-door dispensary in the heart of the town by a Native Doctor formerly in railway employ. There were 28 deaths, or 11·9 per cent., against 33 and 14·34. There were performed 52 major operations, with two deaths. Minor operations numbered 832. The total expenditure was Rs. 3,061, whereof the cost of establishment was Rs. 2,269. Bazar medicines cost Rs. 102, and Europe medicines obtained from private sources Rs. 169. The expenditure on diet was Rs. 302, and on miscellaneous items Rs. 133. The outlay on building and repairs was Rs. 86. Government contributed Rs. 27, viz., Rs. 6 as cost of registers and forms, and Rs. 21 for diet of police cases. Rupees 146 was received as interest on investments. Subscriptions from Natives amounted to Rs. 306. Municipality paid Rs. 2,582. There was an invested capital of Rs. 7,505 at the end of the year.

*Sasseram.*—A municipal dispensary in class II, supported by the municipality, but also helped by the Sasseram Endowment Fund. Visited once by the Commissioner of the division and the District Magistrate. The sub-divisional officer visited it twice, and the Municipal Commissioners 14 times. The Civil Surgeon paid two visits. A second grade Assistant Surgeon was in charge. There were treated 142 in and 8,522 out-patients, against 140 and 7,256 in 1885; the daily averages being 7 and 138 against 7 and 110. There were 10 deaths, or 7·04 per cent., as against 21 and 15 in the previous year. There were performed 19 major operations. No death resulted after operation. The number of minor operations was 363. The total expenditure was Rs. 2,212, whereof the cost of establishment was Rs. 1,680. Bazar medicines cost Rs. 26 and Europe medicines, obtained from private sources, Rs. 135. The expenditure on diet was Rs. 148, on miscellaneous items Rs. 65, and on building and repairs Rs. 158. Government contributed Rs. 6 as cost of registers and forms. The income from local or other funds was Rs. 1,303. Municipality paid Rs. 903.

*Doomraon.*—This is a class IIIA dispensary, entirely supported and managed by the Maharajah of Doomraon. Visited once by the District Magistrate and the sub-divisional officer. The Civil Surgeon paid two visits. A second grade Assistant Surgeon was in charge. There were treated 191 in and 9,877 out-patients, against 146 and 8,021 in 1885;

the daily averages being 6 and 118 against 6 and 98 respectively. There were 26 deaths, or a rate of 13·61, against 18 and 12·3 in the previous year. There were four deaths from cholera and nine deaths from bowel-complaints, while in 1885 there was no death from the former and only one death from the latter. There were performed 37 major operations, with one death; minor operations totalled 1,239. The total expenditure was Rs. 2,600, whereof the cost of establishment was Rs. 2,243. Bazar medicines cost Rs. 40 and Europe medicines, purchased from private sources, cost Rs. 119. The cost of diet was Rs. 138. The expenditure on miscellaneous items was Rs. 60. Government contributed Rs. 5 as cost of registers and forms.

*Jugdishpore.*—It is a class IIIB dispensary, supported by the municipality and local zemindars, Messrs. Burrows, Thomson and Mylne. The institution is managed by the municipality. The Municipal Chairman visited it once. The Civil Surgeon paid two visits. A first class Civil Hospital Assistant was in charge. There were treated 69 in and 6,967 out-patients, against 54 and 5,213 in 1885; the daily averages being 1 and 32 against 1 and 25 respectively. There was one death among in-door patients. In 1885 no death occurred. There were performed four major operations. There was no death. Minor operations numbered 146. The total expenditure was Rs. 1,282, whereof the cost of establishment was Rs. 1,020. Bazar medicines cost Rs. 24 and Europe medical stores, obtained from private sources, Rs. 141. The expenditure on diet was Rs. 20, on miscellaneous items Rs. 38, and on building and repairs Rs. 39. Government contributed Rs. 6 as cost of registers and forms. Subscriptions from Europeans amounted to Rs. 655. Municipality paid Rs. 621.

*Bhuboa.*—This is a class IIIB dispensary, managed by the municipal committee. Visited twice by the District Magistrate, four times by the sub-divisional officer, and twice by the Municipal Commissioners. The Civil Surgeon visited it once. A third class Civil Hospital Assistant was in charge. There were treated 111 in and 4,513 out-patients, against 72 and 3,618 in 1885; the daily averages being 4 and 32 against 3 and 34 respectively. There were 10 deaths against 5 in 1885. There were performed 193 minor operations. No major. The total expenditure was Rs. 743, whereof the cost of establishment was Rs. 348, bazar medicines cost Rs. 26, and Europe medicines Rs. 146. The expenditure on diet was Rs. 53, on miscellaneous items Rs. 41, and on building and repairs Rs. 129. Government contributed Rs. 7, viz., Rs. 5 as cost of registers and forms, and Rs. 2 for diet of police cases. Rupees 230 were received as subscriptions from natives. Municipality paid Rs. 506.

*Buxar.*—It is a class IIB dispensary, maintained and managed by the municipality. Visited once by the Commissioner of the division, the District Magistrate, the sub-divisional officer and thrice by the Municipal Commissioners. The Civil Surgeon paid two visits. A third class Civil Hospital Assistant was in charge. There were treated 102 in and 4,565 out-patients, against 75 and 4,447 in 1885; the daily averages being the same as in the previous year. There were 18 deaths, or 17·64 per cent., against 15 and 20 in the year 1885. There were performed 3 major and 392 minor operations. No death resulted after operation. The total expenditure was Rs. 1,004, whereof the cost of establishment was Rs. 612. Bazar medicines cost Rs. 74 and Europe medicines, obtained from private sources, Rs. 111. The expenditure on diet was Rs. 32, on miscellaneous items Rs. 39, and on building and repairs Rs. 136. Government contributed Rs. 13, viz., Rs. 5 as cost of registers and forms, and Rs. 8 for diet of police cases. Municipality paid Rs. 991.

*Dehree.*—This is a class I dispensary, entirely supported by Government chiefly for the employés of the Irrigation Department. The affairs are managed and regulated by the officers of the Public Works Department. Visited several times by the Executive Engineer at Dehree. The Civil Surgeon paid two visits. A second grade Assistant Surgeon was in charge. There were treated 29 in and 4,293 out-patients, against 31 and 3,699 in 1885; the daily averages being 1·17 and 26·92 against ·87 and 21·54 respectively. There were five deaths, the same as in 1885. There were performed three major and 185 minor operations. No death resulted after operation. The total expenditure was Rs. 2,278, whereof the cost of establishment was Rs. 2,010. Bazar medicines cost Rs. 16, and Europe medicines, obtained from Government stores, Rs. 134. The expenditure on diet was Rs. 57 and on miscellaneous items Rs. 61.

Mozufferpore District.

The public health of the district, the Civil Surgeon says, was good as compared with that of the previous year. There was no epidemic of any kind during the year, though there was rather a severe visitation of cholera towards its close. The Sonepore Fair seems to have been the cause of its spread. Floods were unusually high during the year, and were late in drying up, and this extra water-logging of the soil may have assisted as a predisposing cause. Still cholera, it is said, never became actually epidemic. There were four dispensaries at work at the end of the year. Two were in class II, one was in class IIIB, and one in class IIIA. One was under an Assistant Surgeon, and three were under Civil Hospital Assistants. Three dispensaries treated both in and out-door patients, while one only out-patients. The total number of patients treated were 599 in and 36,625 out, against 581 and 36,725 in 1885; the daily averages being 31 and 200 against 25 and 211 respectively. The Civil Surgeon does not think that any great interest is shown by the managing bodies to these dispensaries. Ample funds are in most cases noted for the support or repairs of the hospitals, though there is no longer any active personal interest shown.

*Mozufferpore.*—It is a municipal dispensary under class II. The dispensary matters are taken up at the ordinary meetings of the Commissioners. Visited by the Magistrate

four times. The Civil Surgeon paid almost daily visits. A second grade Assistant Surgeon was in charge. There were treated 299 in and 14,544 out-patients, against 266 and 14,192 in 1885; the daily averages being 16 and 78 against 13 and 78 respectively. The death-rate among in-patients was 13·71 against 16·16 in the previous year. Goitre is most distressingly prevalent here, and it seems accepted as part of the people's daily life. Eighty-one major operations were performed, with no deaths. Minor operations numbered 515. The total expenditure was Rs. 4,044, of which Rs. 2,555 represent the cost of establishment, Rs. 150 of Europe medical stores, and Rs. 76 of bazar medicines. The cost of diet was Rs 522; Rs. 516 were expended on miscellaneous items, and Rs. 225 on buildings or repairs. Government contributed Rs. 17 as cost of registers and forms, and Rs. 55 for diet of police cases. Municipality paid Rs. 2,708, and Rs. 1,264 were received as interest on investments.

*Hajeepore.*—This is also a class II municipal dispensary. Dispensary business is discussed at the meetings of the Commissioners. Visited twice by the District Magistrate and three times by the Civil Surgeon. A Civil Hospital Assistant was in charge. One hundred and four in and 6,069 out-door patients were treated, against 142 and 6,946 in 1885; the daily averages being 5 and 30 against 4 and 41 respectively. The number of deaths was 12 against 14 in the previous year. Seven major and 169 minor operations were performed. No death resulted after operation. The total expenditure was Rs. 1,238, of which Rs 804 represent the cost of establishment, Rs. 227 of Europe medicines, and Rs 38 of bazar medicines. Dieting articles cost Rs. 95; the expenditure on buildings and repairs was Rs. 33, and on miscellaneous items Rs. 41. Government contributed Rs. 6 as cost of registers and forms. Municipal contribution amounted to Rs. 819, and subscriptions from Europeans and Natives were Rs. 112 and Rs. 301 respectively.

*Soorsund.*—It is a class IIIA dispensary. There is no governing body. The sub-divisional officer of Sitamarhi is the *ex-officio* manager, and he visited once the dispensary. The Civil Surgeon paid three visits. A Civil Hospital Assistant was in charge. There were treated 5,894 out-patients against 5,813 in 1885, the daily average being 47 against 49. There were no major operations; minor operations numbered 173. The total expenditure was Rs. 758, of which Rs. 511 represent the cost of establishment, Rs. 101 of Europe medical stores, and Rs. 54 of bazar medicines. The expenditure on miscellaneous items was Rs. 22, and on building and repairs was Rs. 70. Government contributed Rs. 6 as cost of registers and forms. The income from local or other funds was Rs. 9; Rs. 468 were received as interest on investments, and Rs. 192 as subscriptions from Natives. The dispensary had a cash balance of Rs. 206 at the end of the year

*Sitamarhee.*—It is in class IIIB under the local municipality. Visited once by the Magistrate and frequently by the sub-divisional officer. The Civil Surgeon paid four visits. A second grade Civil Hospital Assistant was in charge. There were treated 196 in and 10,118 out-patients against 173 and 9,774 in 1885. The daily averages were 9 in and 43 out, against 7 and 41 in the previous year. There were 8 deaths against 11 in the previous twelve months. Five major and 251 minor operations were performed. No deaths resulted after operation. The total expenditure was Rs. 1,342. Establishment cost Rs. 653, Europe medical stores, Rs. 182, and bazar medicines, Rs. 23. Dieting articles cost Rs. 226; the expenditure on miscellaneous items was Rs. 59, and on building and repairs Rs. 199; Government supplied forms and registers, the cost of which was Rs. 8; subscriptions received from Europeans amounted to Rs. 30, and that from Natives Rs. 947; Rs. 90 were received as interest on investments. The dispensary had a cash balance of Rs. 199 at the end of the year.

**Durbhunga District.**

Dr. Gilligan, who was in charge of the district for the whole year, except for three months, when he was on leave, reports that the year under review was a healthy one. The total number of recorded deaths was 34,916 against 47,450 in 1885. The total number of dispensaries working in the district at the end of the year was six, the same as in 1885. Three were in class II and three in class IIIA. All the dispensaries, except Laheria Serai, received both in and out-patients. Laheria Serai dispensary treated out-patients only. Two dispensaries were under private management, one under that of a committee, and three under the local municipality. The dispensaries at Durbhunga, Madhubani and Laheria Serai were under Assistant Surgeons; the rest were in charge of Civil Hospital Assistants. There were treated 1,022 in and 55,916 out-patients, against 915 and 52,556 in 1885; the daily averages being 48 and 338 against 46 and 322 respectively. The long promised dispensary at Bucchour, which Rajah Rameshwar Singh has so long talked about, has not yet been built. During the year Dr. Gilligan visited the place and selected a site, and both the Magistrate and the Civil Surgeon have taken every opportunity to forward the work. The Civil Surgeon thinks that he may mention here that the year has been made specially remarkable by reason of the founding and endowment by the Hon'ble the Maharajah of Durbhunga of a large female hospital and dispensary in connection with the Countess of Dufferin's National Association for providing medical aid and tuition to the women of India by female doctors. Beds will be provided for 20 in-patients, and all the accessaries of a first class institution are included. Their Excellencies the Viceroy and Countess of Dufferin honoured Durbhunga by their presence, and Her Excellency was pleased to lay the foundation stone on the 31st March 1886 in the presence of a large number of visitors and supporters of the fund. The "Dufferin Female Hospital" at Durbhunga is the first of its kind in Bengal, and will undoubtedly draw to its doors a class of patients not before touched by existing medical institutions. As the completion of this hospital must necessarily take time, the Countess of Dufferin was pleased to suggest

that the services of a lady medical practitioner which happened to be available might be engaged at once, and work begun on the basis of out-door relief only. The Hon'ble the Maharajah was good enough to agree to this, and accordingly Miss Ramshottom joined here on the 23rd September 1886. A temporary female dispensary in a separate building could not be provided on account of there being no building available. The best arrangement that circumstances permitted was that that portion of the Raj hospital verandah and adjoining the female ward should be enclosed and made into an out-door dispensary, and that the female ward also should be placed under her charge. So far this seems to have answered requirements. Dr. Gilligan says that perhaps he may be able to effect greater isolation for females coming to the hospital hereafter. All the cases treated by Miss Ramshottom at the Raj hospital are included in that hospital's returns.

*Durbhunga.*—This is a class IIIA dispensary, entirely supported by the Maharajah of Durbhunga. There is no committee. It was visited daily by Civil Surgeon, occasionally by the manager of the Raj Durbhunga, and by other officials. A second grade Assistant Surgeon was in charge throughout the year. There were treated 520 in and 20,351 out-patients, against 501 and 18,802 in 1885; the daily averages being 30 and 128 against 29 and 113 respectively. Over 20,000 patients have been treated during the year under report. There were 39 deaths against 43 in the previous year. Fifty-two major and 619 minor operations were performed. Two deaths resulted after operation. The total expenditure was Rs. 7,927 of which Rs. 5,416 were expended on establishment; Rs. 930 on Europe medicines; Rs. 176 on bazar medicines, and Rs. 989 on diet. Rupees 416 were spent on miscellaneous items. Government contributed Rs. 43, namely, Rs. 12 as cost of registers and forms, and Rs. 31 for diet of police cases.

*Naraya.*—A class IIIA dispensary, supported by Raj Durbhunga. Visited twice by the Civil Surgeon, and many times by the sub-manager of Naraya. A Civil Hospital Assistant was in charge who was paid Rs. 50 per mensem. There were treated 69 in and 4,460 out-patients, against 52 and 5,528 in 1885; the daily averages being 5 and 23 against 3 and 22, respectively. There were six deaths among in-patients against three in the previous year. Thirty-one major and 197 minor operations were performed. No death resulted after operation. The total expenditure was Rs. 1,431, of which Rs. 955 were expended on establishment, Rs. 144 on Europe medicines, Rs. 80 on bazar medicines, Rs. 207 on diet, and Rs. 45 on miscellaneous items. Government contributed forms and registers, the cost of which was Rs. 10.

*Tajpore.*—This is a class IIIA dispensary, managed by a committee of which the Joint-Magistrate is the Vice-Chairman. The committee met six times during the year. It was inspected twice by the Civil Surgeon. The Civil Hospital Assistant of the sub-division was in charge. There were treated 202 in and 8,091 out-patients, against 153 and 9,102 in 1885; the daily averages being 3 and 43 against 2 and 53 respectively. There were seven deaths among in-patients against one in the previous year. One hundred and thirty-nine minor operations were performed; no major operations. The total expenditure was Rs. 988, of which Rs. 513 were spent on establishment, Rs. 172 on Europe medicines, Rs. 68 on bazar medicines, and Rs. 52 on diet. The amount expended on buildings was Rs. 61, and on miscellaneous items Rs. 93. Rupees 29 were invested during the year. Government contributed Rs. 10, of which Rs. 9 was the cost of forms and registers, and Re. 1 for diet of police cases. The income from local or other funds was Rs. 56. Interest on investments amounted to Rs. 29. Rupees 80 were derived by withdrawal of deposits. Subscriptions from Europeans and Natives were Rs. 179 and Rs. 702 respectively. The dispensary has an invested capital of Rs. 722, and a cash balance of Rs. 105 at the end of the year.

*Roserah.*—A municipal dispensary in class II, entirely supported and managed by the municipality. It was visited once by the Civil Surgeon. A second grade Civil Hospital Assistant was in charge. There were treated 13 in and 4,414 out-patients, against 20 and 4,224 in 1885; the daily averages being ·95 and 37·15 against ·59 and 34·09 respectively. There were two deaths among in-patients, against the same number in the previous year. Three major and 60 minor operations were performed. No deaths resulted after operation. The total expenditure was Rs. 734, whereof Rs. 650 represent the cost of establishment. The cost of bazar medicines was Rs. 25. No amount was expended for the purchase of Europe medicines during the year. The cost of diet was Rs. 10. The expenditure on buildings was Rs. 14, and on miscellaneous items Rs. 35. Government contributed Rs. 9 as cost of forms and registers. Rupees 365 were received from municipal funds, and Rs. 360 as subscriptions from Natives.

*Madhubani.*—This is a class II municipal dispensary. Its affairs are discussed at the municipal meetings, which are held once in every month. It was visited twice by the Civil Surgeon. A second grade Assistant Surgeon was in charge on a salary of Rs. 170 per mensem (including Rs. 25 for the charge of the sub-division, paid by Government). There were treated 218 in and 10,816 out-patients, against 189 and 10,953 in 1885; the daily averages being 9 and 40 against 10 and 38 respectively. There were six deaths among in-patients against 14 in the previous year. Twelve major, with one death, and 317 minor operations were performed. The total expenditure was Rs. 2,784, of which Rs. 2,277 were expended on establishment, Rs. 184 on Europe medicines, and Rs. 32 on bazar medicines. Diet cost Rs. 198. Rupees 55 were spent on buildings, and Rs. 38 on miscellaneous charges. Government contributed Rs. 586, namely, Rs. 10 as cost of forms and registers, and Rs. 576 as salaries. The income from European and Native subscriptions was Rs. 135 and Rs. 1,009 respectively. Rupees 80 were obtained as interest on investments, and Rs. 3 from local funds. Municipality paid Rs. 1,471.

*Laheria Serai*.—This is a dispensary in class II, supported and managed by the Durbhunga Municipality. It was inspected frequently by the Civil Surgeon. A third grade Assistant Surgeon was in charge. The dispensary building is a rented one, and is conveniently situated, but is incommodious and ill-suited to the purpose. At present Dr. Gilligan sees no means of remedying this defect. There is no accommodation for in-patients; but this does not much matter, as the Raj hospital is only three miles off and such cases can go there. There were treated 7,754 out-patients against 3,947 in 1885; the daily averages being 65 against 60 in the previous year. Twenty-five major and 324 minor operations were performed; no deaths resulted after operation. The total expenditure was Rs. 1,684, whereof Rs. 1,438 represent the cost of establishment. The expenditure on Europe medicines was Rs. 24, on bazar medicines Rs. 43, and on miscellaneous items Rs. 178. Government contributed Rs. 7 as cost of forms and registers. Municipality paid Rs. 1,677.

Sarun District.

The Civil Surgeon reports that the general health of the town and district was comparatively better than that of the previous year. There was a notable decrease in deaths under each head of disease, with the exception of fever, as compared with the mortality from the same causes in 1885. The total reported deaths was 44,620 against 49,382 in the preceding year. There were six dispensaries in the district, as in the previous year, three of which were in class II, and were under the management of the local municipality; three others in class IIIA, and under private management. Two were in charge of Assistant Surgeons and four under Civil Hospital Assistants. The dispensaries at Chupra, Sewan and Hutwa treated both in-door and out-door patients; the other three out-door patients only. The total number of in-door patients was 527 against 515 in the previous year, and of out-patients 64,953 against 64,335; the daily average of in-patients was 35 against 33 in 1885, and that of out-patients 471 against 446. A fair amount of interest was evinced by managing bodies in the dispensaries generally, and the institutions are much appreciated by the people.

*Chupra*.—This is a class II dispensary, under the control of the municipality. Visited four times by the District Magistrate, and nine times by the Vice-Chairman of the municipality. It was also visited daily, and sometimes twice a day by the Civil Surgeon. A second grade Assistant Surgeon was in charge throughout the year. There were treated 237 in and 17,940 out-patients, against 248 and 16,708 in 1885; the daily averages being 17 and 200 against 18 and 181 respectively. The percentage of deaths among in-door patients was 13·5 against 11·69 in 1885. The high rate of mortality is due to moribund cases, and cases of injuries brought in by the police; also to railway accidents. Sixty-four major, with seven deaths, and 662 minor operations were performed during the year under review. The total expenditure was Rs. 9,049, of which Rs. 3,132 was the cost of establishment and Rs. 173 of bazar medicines. The cost of Europe medicines purchased from private firms was Rs. 1,122. The cost of diet was Rs. 615. The expenditure on buildings was Rs. 665, and on miscellaneous items Rs. 3,342. Government supplied forms and registers, the cost of which was Rs. 24. Municipality paid Rs. 3,600. The income from European and Native subscriptions amounted to Rs. 558, from local funds Rs. 4,177, and Rs. 690 were received as interest on investments. At the end of the year there was an invested capital of Rs. 17,700.

*Sewan*.—A municipal dispensary in class II. Visited once by the District Magistrate, and frequently the sub-divisional officer of Sewan. The Civil Surgeon inspected it three times during the year. A first class Civil Hospital Assistant in charge of the sub-division was in charge of the dispensary. There were treated 170 in and 8,865 out-patients, against 127 and 9,904 in 1885; the daily averages being 4 and 55 against 3 and 53 respectively. The deaths amongst in-patients were 4, against 7 in the previous year, the death-rate being 2·35, against 5·51 in 1885. No major, but 117 minor operations were performed. The total expenditure was Rs. 913, of which Rs. 535 was the cost of establishment, and Rs. 52 of bazar medicines. Europe medicines were purchased from private firms at a cost of Rs. 155 on indents checked by the Civil Surgeon. The cost of diet was Rs. 36. The expenditure on buildings was Rs. 85, and on miscellaneous items Rs. 50. Government contributed Rs. 13 as cost of forms and registers. Municipality paid Rs. 162. The income as European subscriptions was Rs. 120 and as Native Rs. 486. Rupees 2 were received from local funds.

*Hutwa*.—A class IIIA dispensary, entirely supported by the Maharajah of Hutwa. No dispensary committee. It was visited once by the District Magistrate, twice by the Civil Surgeon, and once by the Deputy Magistrate. There were several changes among the Assistant Surgeons in charge. There were treated 120 in and 13,061 out-patients, against 140 and 12,556 in 1885. The daily averages were 12 and 80 against 11 and 74 respectively. The death-rate among in-patients was 6 against 7 in the previous year. Six major and 372 minor operations were performed. No death resulted after operation. The total expenditure was Rs. 7,043, of which Rs. 3,562 was the cost of establishment, and Rs. 190 of bazar medicines. English medicines and surgical instruments were obtained from England at a cost of Rs. 2,115. The Civil Surgeon says that the large extra expenditure was due to the purchase of an unusually handsome supply of medicines. The Maharajah and his manager like to have the dispensary well stocked with medicines, so that the Raj household, as well as some Europeans in the neighbourhood, may be supplied with medicines, in case of necessity, free of cost. The cost of diet was Rs. 480. Rupees 252 were spent on repairs to the dispensary buildings. The expenditure on miscellaneous items was Rs. 444. Government contributed forms and registers, the cost of which was Rs. 13.

*Gopalgunge.*—A branch dispensary of Hutwa in class IIIA. It is entirely supported by the Maharajah of Hutwa, and managed by his manager. No dispensary committee. Visited thrice by the District Magistrate, four times by the sub-divisional officer, and twice by the Sub-Deputy Magistrate. The Civil Surgeon inspected it twice during the year. A Civil Hospital Assistant was in charge, who received Rs. 25 per mensem from Government for the sub-division, and Rs. 30 from the Raj for the dispensary. No in-patients. The number of out-patients was 12,613 against 13,163 in 1885, and the daily average was 48 against 55 in the previous year. No major operation, but 94 minor operations were performed. The total expenditure was Rs. 1,049, of which Rs. 516 represent the cost of establishment. Europe medicines were supplied from the Hutwa Dispensary at a cost of Rs. 376. Rupees 13 were expended on bazar medicines, and Rs. 144 on miscellaneous items. Government paid Rs. 12 as cost of forms and registers.

*Bhori.*—This is also a class IIIA dispensary, entirely supported by the Maharajah of Hutwa. There is no dispensary committee, but the Maharajah and his manager take all the matters into their own hands. It was visited twice by the District Magistrate. The Civil Surgeon inspected it twice during the year. A Civil Hospital Assistant was in charge, who received Rs. 30 per month from the Raj. There were 6,585 out-patients treated, with a daily average of 37·86, against 6,569 and 33·92 in 1885. No in-patients. Ninety-one minor operations were performed; no major operations. The total expenditure was Rs. 973, of which Rs. 516 was the cost of establishment. Europe medicines were supplied from the Hutwa Dispensary, the cost of which was Rs. 305. The expenditure on bazar medicines was Rs. 92, on buildings Rs. 30, and on miscellaneous items Rs. 30. Government contributed forms and registers, the value of which was Rs. 10.

*Revilgunge.*—A class II dispensary, managed by the local municipality. No separate dispensary committee. It was visited once by the District Magistrate, once by the Assistant Magistrate, and frequently by the Vice-Chairman of the municipality. The Civil Surgeon inspected it twice. A Civil Hospital Assistant was in charge. No in-patients. The total number of out-patients treated was 5,889 against 5,425 in 1885, and the daily average was 47·72 against 47·18. No major operations, but 382 minor operations were performed. The total expenditure was Rs. 1,447, of which Rs. 779 represent the cost of establishment. Rupees 425 were paid for Europe medicines, which were purchased from a private firm, on indent checked by the Civil Surgeon, and Rs. 52 for bazar medicines. The expenditure on diet was Rs. 47. The Civil Surgeon says that, although there were no in-patients, yet the amount was spent in providing food for some indigent out-patients by order of the Vice-Chairman. The outlay on buildings was Rs. 111, and on miscellaneous charges Rs. 33. Government contributed forms and registers, the cost of which was Rs. 10. Municipality paid Rs. 1,222. The income from Native subscriptions was Rs. 215.

**Chumparun District.**

The year under report was healthier than the previous year. The total deaths recorded was 35,620 against 39,305 in 1885. There were four dispensaries at work at the end of the year. One was in class II and three in class IIIB. Three dispensaries, viz., Motihari, Bettiah and Bogaha, treated both in-door and out-door patients. The dispensary at Burharwa afforded out-door relief only. Two were in charge of Assistant Surgeons, and two under Civil Hospital Assistants. The total number of patients treated was 506 in and 37,312 out, against 480 and 33,225 in 1885. The daily averages were 21 and 234 against 23 and 194 respectively. The Civil Surgeon says the attendance has been verified by comparing the tickets of the patients present with the register. No great interest is shown by the municipalities of either Motihari or Bettiah in their respective dispensaries, except as regards the question of expenditure. The difficulty of getting up committee meetings at Bagaha and Barharwa dispensaries still exists.

*Motihari.*—A class II municipal dispensary. The dispensary business was transacted at the ordinary meetings. The Magistrate visited the dispensary once or twice, but recorded no remarks. The Sanitary Commissioner visited the institution once. The Civil Surgeon paid daily visits. A second grade Assistant Surgeon was in charge. There were treated 130 in and 15,179 out-door patients against 155 and 13,053 in 1885, the daily averages being 6 and 66 against 7 and 59 respectively. There were 18 deaths against 20 in 1885. Thirty-two major and 547 minor operations were performed. One death resulted after operation. The total expenditure was Rs. 2,834, of which Rs. 2,222 represent the cost of establishment and Rs. 216 of Europe medicines, the greater part of which was obtained from Government stores depôt. Rupees 54 were expended on bazar medicines, Rs. 186 on diet, Rs. 92 on miscellaneous items, and Rs. 64 on buildings and repairs. Government contributed Rs. 635, viz., Rs. 600 as salaries, Rs. 9 as cost of registers and forms, and Rs. 26 for diet of police cases. Rupees 45 were received as interest on investments. Subscriptions from Europeans and Natives were Rs. 477 and Rs. 621 respectively. Municipality paid Rs. 1,056. There was an invested capital of Rs. 1,000 at the end of the year.

*Bettiah.*—A class IIIB dispensary, governed by the local municipality. The Commissioner of the division paid one visit, and the sub-divisional officer visited it several times. The Civil Surgeon paid two visits. A second grade Assistant Surgeon was in charge. There were treated 276 in and 12,341 out-door patients, against 245 and 9,946 in 1885; the daily averages being 11 and 102 against 12 and 81 respectively. There were 16 deaths against 25 in the previous year, the death rate being 5·7 against 10·2 respectively. Thirty-nine major operations were performed, with two deaths. Minor operations totalled 716. The total expenditure was Rs. 2,934, whereof the cost of establishment was Rs. 1,860. Europe

medicines cost Rs. 418, the greater portion of which was obtained from Government stores depôt. Bazar medicines cost Rs. 101 and diet Rs. 307. Rupees 247 were expended on miscellaneous items, and the outlay on building and repairs was Re. 1. Government contributed Rs. 12 as cost of registers and forms. Subscriptions from Europeans were Rs. 125 and from Natives Rs. 1,144. Municipality paid Rs. 1,653.

*Barharwa.*—This is a class IIIB dispensary managed by a committee. There was no committee meetings, but the dispensary was visited by all the members of the committee. Visited once by the Sub-Deputy Opium Agent and the Assistant Sub-Deputy Opium Agent. The Civil Surgeon inspected the institution twice. There were treated 5,427 out-patients with a daily average of 29 against 532 and 27 in 1885. Two hundred and thirty-eight minor operations were performed. No major operations. The total expenditure was Rs. 1,525, whereof Government contributed Rs. 118, viz., Rs. 115 as half-pay of the Civil Hospital Assistant, and Rs. 3 as cost of registers and forms. Establishment cost Rs. 336. The cost of bazar medicines was Rs. 85 and of Europe medicines Rs. 137. The expenditure on miscellaneous charges was Rs. 67. The outlay on building and repairs was Rs. 336. The income as interest on investments was Rs. 100. Rupees 643 were obtained by withdrawal of deposits, and the total subscriptions from Europeans and Natives amounted to Rs. 779. Rupees 564 were invested during the year. The dispensary had a cash balance of Rs. 122, and an invested capital of Rs. 2,585 at the end of the year.

*Bagaha.*—It is a class IIIB dispensary, governed by a committee which met once during the year. Visited twice by the sub-divisional officer and the District Superintendent of Police. The Civil Surgeon paid two visits. There were treated 100 in and 4,365 out-door patients, against 80 and 4,904 in 1885; the daily averages being 3 and 35 against 3 and 25 respectively. There were 13 deaths among in-patients against 15 in the previous twelve months. Nineteen major operations were performed, with two deaths. Minor operations numbered 155. The total expenditure was Rs. 973, whereof the cost of establishment was Rs 602. Europe medicines cost Rs. 54. The cost of bazar medicines is represented by Rs. 87. Rupees 131 were expended on diet and Rs. 99 on miscellaneous items. Government contributed Rs. 183, viz., Rs. 180 as half-pay of the Civil Hospital Assistant and Rs. 3 as cost of registers and forms. Subscriptions from Europeans and Natives were Rs. 310 and Rs. 480 respectively. At the end of the year the dispensary had a cash balance of Rs. 101.

## BHAGULPORE DIVISION.

**Monghyr District.**

The Civil Surgeon says that, judging from the mortuary returns of the district, &c., the year 1886 has been healthier than the previous year. There were four dispensaries at work at the end of the year. Of these, one was in class II and three in class IIIA. The dispensaries at Monghyr and Begooserai were in charge of Assistant Surgeons, and the rest under Civil Hospital Assistants. Two dispensaries, viz., Monghyr and Khorruckpore, treat both in and out-door patients, and the other two afford out-door relief only. There were treated 973 in and 24,886 out-door patients, against 1,077 and 23,625 in 1885; the daily averages being 54 and 206 against 53 and 194 respectively. The Civil Surgeon feels satisfied that the numbers of patients are correct, and writes that there is no doubt about the appreciation of the dispensaries by the people.

*Monghyr.*—A municipal dispensary in class II. It was visited frequently by the Magistrate of the district and by the Municipal Commissioners. The Civil Surgeon paid daily visits. A first grade Assistant Surgeon was in charge. There were treated 854 in and 14,290 out-door patients, against 892 and 15,073 in 1885; the daily averages being 45 and 113 against 44 and 119 respectively. There were 71 deaths, or 8·3 per cent., against 113 and 126 in the previous year There were performed 161 major and 1,405 minor operations. There were four deaths after operation. The total expenditure was Rs. 6,481, whereof Rs. 3,365 represent the cost of establishment, Rs. 582 of Europe medicines. which were obtained from private druggists on indents checked by the Civil Surgeon, and Rs. 276 of bazar medicines. The cost of diet was Rs. 1,668. The expenditure on miscellaneous items was Rs. 590. Government contributed Rs. 63, viz., Rs. 20 as cost of registers and forms, and Rs. 43 for diet of police cases. The income from local or other funds was Rs. 488; Rs. 2,862 were received as interest on investments. Municipality paid Rs. 2,280. Subscriptions from Europeans and Natives were Rs. 760 and Rs. 28 respectively. The dispensary had an invested capital of Rs. 71,500 at the end of the year.

*Khorruckpore.*—A class IIIA dispensary, managed by the assistant manager of the Raj Durbhunga. Visited twice by the Civil Surgeon. There were treated 119 in and 5,592 out-door patients, against 185 and 6,395 in 1885; the daily averages being 8 and 50 against 8 and 59 respectively. There were 18 deaths against 19 in the previous year. Fifty-six minor operations were performed; no major operations. The total expenditure was Rs. 1,203, whereof the cost of establishment was Rs. 936, of bazar medicines. Rs. 21, and of diet Rs. 204. The expenditure on miscellaneous items was Rs. 42. Government contributed Rs. 7 as cost of forms and registers.

*Jamooee.*—A class IIIA dispensary, managed by a committee which held six meetings during the year. Visited by the Civil Surgeon twice. There were treated 1,560 out-patients, with a daily average of 12, against 2,157 and 15 in 1885. Sixty minor operations were performed; no major. The total expenditure was Rs. 460. Establishment cost Rs. 262, Europe medicines Rs. 47, bazar medicines Rs. 31. The expenditure on miscellaneous

items was Rs. 85, and on building and repairs Rs. 35. Government supplied forms and registers, the cost of which was Rs. 3. Rupees 456 were received as interest on investment, Rs. 15 from local or other funds, and Rs. 65 from Natives as subscriptions.

*Begooserai.*—This is a class IIIA dispensary, governed by a managing committee, which met four times during the year. It was visited once by the Civil Surgeon. There were treated 3,444 out-door patients with a daily average of 28. Ten major and 134 minor operations were performed. There was no death after operation. The total expenditure was Rs. 1,563, of which the cost of establishment was Rs. 1,287. Europe medicines cost Rs. 177, and bazar medicines Rs. 24. The expenditure on miscellaneous items was Rs. 49, and on building and repairs Rs. 26. Government contributed Rs. 8 as cost of registers and forms. Rupees 59 represent the receipts from local or other funds and Rs. 124 as interest on investments. Subscriptions from Europeans and Natives were Rs. 309 and Rs. 778 respectively. The dispensary had an invested capital of Rs. 3,100, and a cash balance of Rs. 544 at the end of the year.

**Bhagulpore District.**

The Civil Surgeon says that from the mortuary returns it appears that the general health of the district was good, and compares very favourably with the previous year. The total number of deaths registered was 52,344 against 61,047 in 1885. There were seven dispensaries working at the end of the year against six in the previous year, the dispensary at Berari having been placed under the supervision of the Civil Surgeon in April. Of the seven dispensaries, two were in class II, four were in class IIIA, and one in class IIIB. The dispensary at Bhagulpore was in charge of an Assistant Surgeon, the one at Berari under a passed Native Doctor, and the rest were under Civil Hospital Assistants. The dispensaries at Pertabgunge and Berari treat out-door patients only, and the rest afford both in and out-door relief. The dispensary at Soopole does not treat regularly in-door patients. There were treated 434 in and 19,060 out-patients, against 547 and 15,468 in 1885; the daily averages being 19 and 163 against 32 and 140 respectively. The figures, the Civil Surgeon says, may be accepted as fairly showing the amount of work done. Some of the Municipal Commissioners and the members of the committees take interest in their respective dispensaries.

*Bhagulpore.*—It is a municipal dispensary in class II. Visited 17 times by the Municipal Commissioners and daily by the Civil Surgeon. A second grade Assistant Surgeon was in charge. There were treated 305 in and 4,909 out-door patients, against 398 and 4,680 in 1885; the daily averages being 13 and 50 against 24 and 48 respectively. There were 70 deaths against 98 in 1885. Ninety-four major and 606 minor operations were performed. There was one death after operation. The total expenditure was Rs. 3,975, whereof the cost of establishment was Rs. 2,081. The cost of Europe medicines was Rs. 44. Bazar medicines cost Rs. 88. Rupees 573 were expended on diet, Rs. 318 on miscellaneous items, and Rs. 829 on building and repairs. Government contributed Rs. 10 as cost of registers and forms, and Rs. 6 for diet of police cases. Rupees 1,275 were received from local or other funds. Rupees 83 represent the interest on investments. Subscriptions from Europeans and Natives were Rs. 188 and Rs. 248 respectively. Rupees 2,165 were paid by the municipality. Rupees 42 were invested during the year.

*Banka.*—A class IIIB dispensary, managed by a local committee which held three meetings during the year. Visited once by the Magistrate, once by a member of the committee, and frequently by the sub-divisional officer and Secretary of the committee. The Civil Surgeon paid two visits: There were treated 51 in and 1,579 out-patients against 77 and 1,467 in 1885; the daily averages being 3 and 14 against 4 and 12 respectively. There were 9 deaths against 16 in the previous year. Five major and 71 minor operations were performed. There was no death after operations. The total expenditure was Rs. 855, whereof the cost of establishment was Rs. 324. Europe medicines obtained from private sources cost Rs. 173 and bazar medicines Rs. 13. The expenditure on diet was Rs. 85, on miscellaneous items Rs. 35, and on building and repairs Rs. 25. Government contributed Rs. 120 towards the salary of the Hospital Assistant, Rs. 4 for forms and registers, and Re. 1 for diet of police cases. Rupees 30 represent the interest on investments. Rupees 174 were obtained by withdrawal of deposits, and Rs. 494 as subscriptions from Natives. Rupees 200 were invested during the year. There remained at the end of the year a cash balance of Rs. 26 and an invested capital of Rs. 747.

*Colgong.*—A class II municipal dispensary. It was visited once by the Magistrate and 24 times by the Municipal Commissioners. The Civil Surgeon paid one visit. There were treated 20 in and 2,838 out-patients, against 2 and 2,883 in 1885; the daily averages being ·71 and 23 against ·025 and 22 respectively. There were eight deaths. One hundred and nineteen minor operations were performed; no major. The total expenditure was Rs. 621, whereof the cost of establishment was Rs. 461. The cost of Europe medicines was Rs. 72, and of bazar medicines Rs. 18. Diet cost Rs. 15. The expenditure on miscellaneous items was Rs. 7, and on building and repairs Rs. 48. Government contributed Rs. 3 as cost of forms and registers; Rs. 2 were received as interest on investments. Subscriptions from Europeans and Natives were Rs. 72 and Rs. 55 respectively. Municipality paid Rs. 489. At end of the year there remained an invested capital of Rs. 349.

*Muddehpoorah.*—It is a class IIIA dispensary, managed by a committee which met three times. Visited once by the Commissioner of the division and the Magistrate of the district. The dispensary was twice visited by the Civil Surgeon. There were treated 58 in and 2,006 out-patients, against 70 and 1,452 in 1885; the daily averages being 1 and 20 against

2 and 21 respectively. There were 7 deaths. Nineteen major and 73 minor operations were performed. No deaths resulted after operation. The total expenditure was Rs. 868, of which Rs. 521 represent the cost of establishment, Rs. 144 of Europe medicines obtained from private firms, and Rs. 25 of bazar medicines. Diet cost Rs. 70. The expenditure on miscellaneous items was Rs. 66, and on building and repairs Rs. 43. Government contributed Rs. 3 as cost of registers and forms. Rupees 224 represent the interest on investments. Subscriptions from Europeans and Natives were Rs. 59 and Rs. 635 respectively. At the end of the year there was a cash balance of Rs. 435 and an invested capital of Rs. 3,000.

*Protabgunge.*—A class IIIA dispensary, supported entirely by Rai Dhunput Singh Bahadoor. Visited once by the Commissioner of the division, and the sub-divisional officer of Soopole. The Civil Surgeon paid two visits. There were treated 1,718 out-patients with a daily average of 11 against 2,428 and 17 in 1885. Twenty-one minor operations were performed. The total expenditure was Rs 566, of which Rs. 432 represent the cost of establishment. Rupees 70 were expended on Europe medicines, Rs. 59 on bazar medicines, and Rs. 5 on miscellaneous items. Government contributed Rs. 3 as cost of registers and forms.

*Soopole.*—A class IIIA dispensary, under the management of a local committee which met ten times during the year. Visited once by the Commissioner of the division and the District Magistrate, six times by the sub-divisional officer and by the members of the committee. The Civil Surgeon visited the institution twice. There were treated 2,283 out-patients, with a daily average of 20·99, against 2,558 and 17·48 in 1885. Seven major and 50 minor operations were performed. There was no death after operation. The total expenditure was Rs. 766, whereof the cost of establishment was Rs. 299. Europe medicines obtained from private sources cost Rs. 131, and bazar medicines Rs. 5. The expenditure on miscellaneous items was Rs. 27, and on building and repairs Rs. 3. Rupees 300 were invested during the year. Government contributed Rs. 3 as cost of registers and forms. Rupees 304 were obtained from local or other funds. Rupees 40 represent the interest on investments. Subscriptions from Europeans were Rs. 60, and from Natives Rs. 614. The dispensary had a cash balance of Rs. 1,427 and an invested capital of Rs. 1,390 on 31st December 1886.

*Berari.*—This is also a class IIIA dispensary, supported and managed by Hurry Mohun Thakur. The dispensary was started in 1882, but not placed under the supervision of the Civil Surgeon until April last. Visited twice by the Civil Surgeon. There were treated 3,727 out-patients with a daily average of 22. Sixty-three minor operations were performed. The total expenditure was Rs 989, whereof the cost of establishment was Rs. 660. Europe medicines obtained from private firms cost Rs. 231. Bazar medicines cost Rs. 25. The outlay on building and repairs was Rs. 47, and on miscellaneous items Rs. 26. Government contributed 11 annas and 8 pie for forms and registers.

Purneah District.

The civil medical officer says the year 1886 would have been one of "comparative health" but for the presence of cholera, which contributed to make it the reverse. There was a greater pre-disposition to dysentery and diarrhœa owing to the dampness of the soil and atmosphere from heavy rain and floods, and the prevalence of easterly winds. Three dispensaries were at work at the end of the year, whereof two belonged to class II and one to class IIIA. All the dispensaries were in charge of Civil Hospital Assistants. The dispensary at Purneah treats both in-door and out-door patients, and those at Kissengunge and Bussuntpore out-door patients only. There were treated 191 in and 6,407 out-patients, against 157 and 9,677 in 1885; the daily averages being 7 and 36 against 6 and 49 respectively. With regard to these figures, the civil medical officer says that there were no inaccuracies found. The interest of Municipal Commissioners and managing committees is not very great. The poor and helpless appreciate the relief they get at the dispensaries.

*Purneah.*—It is a class II dispensary. Visited once by the District Magistrate. Two Municipal Commissioners visited it conjointly once. The civil medical officer paid daily visits. There were treated 191 in and 3,441 out-patients, against 157 and 5,713 in 1885; the daily averages being 7 and 19 against 6 and 31 respectively. The total number of deaths was 34 against 28 in the previous year. Twenty-one major operations were performed. There was one death after operation; minor operations numbered 66. The total expenditure was Rs. 1,457, whereof Government contributed Rs. 9 as cost of forms and registers, and Rs. 13 for diet of police cases. Establishment cost Rs. 999. The cost of Europe medicines, which were obtained from Government stores, was Rs. 74, and of bazar medicines Rs. 35. Dieting articles cost Rs. 129. The expenditure on miscellaneous items was Rs. 49, and on building and repairs Rs. 171. Rupees 340 represent the interest on investments. Subscriptions from Europeans were Rs. 275, and from Natives Rs. 265. Municipal contribution amounted to Rs. 555. The dispensary had an invested capital of Rs. 8,500 at the end of the year.

*Kissengunge.*—It is a class II dispensary. Visited twice by the District Magistrate. The civil medical officer paid two visits. There were treated 1,108 out-patients, with a daily average of 7, against 1,096 and 5 in 1885. Eight major and 27 minor operations were performed. The total expenditure was Rs. 240, whereof the cost of establishment was Rs. 204. Europe medicines obtained from Government depôt cost Rs. 15. Bazar medicines cost Rs. 4. The expenditure on miscellaneous items was Rs. 17. Government contributed Rs. 3 as cost of registers and forms. Rupees 37 were received from local or other funds. Subscriptions from Natives were Rs. 221. At the end of the year the dispensary had a cash balance of Rs. 21.

*Bussuntpore.*—This is a class IIIA dispensary, managed by a committee which held three meetings during the year. Visited once by the Magistrate and the sub-divisional officer. The civil medical officer paid two visits. There were treated 1,858 out-patients, with a daily average of 9, against 2,868 and 11 in 1885. Minor operations totalled 20. The total expenditure was Rs. 598, of which Rs. 289 represent the cost of establishment, Rs. 162 of Europe medicines, and Rs. 4 of bazar medicines. The expenditure on miscellaneous items was Rs. 57, and on building and repairs Rs. 56. Government contributed Rs. 3 as cost of registers and forms. Rupees 150 were received by withdrawal of deposits. Subscriptions from Europeans were Rs. 39, and from Natives Rs. 369. Rupees 30 were received as interest on investments. Rupees 30 were invested during the year. At the end of the year there was a cash balance of Rs. 41, and an invested capital of Rs. 706.

Maldah District.

The Assistant Surgeon in civil medical charge says that the public health of the district during the year under report was on the whole healthier than in the preceding year, the total number of deaths being 11,021 against 17,966 in 1885, giving a death-rate of 15·4 per mille of population against 25·2 in the same periods. There were three dispensaries at work at the end of the year, two of which were in class II, and one in class IIIA. The dispensaries were in charge of Civil Hospital Assistants. Of the three dispensaries, one, viz., English Bazar Dispensary, receives both in-door and out-door patients, while the rest treat out-door patients only. There were treated 185 in and 16,391 out-door patients, against 171 and 14,207 in 1885; the daily averages being 7 and 111 against 6 and 105 respectively. The Assistant Surgeon says that in his inspection of dispensaries he found pretty good number of attendances, which afforded him good ground to believe the accuracy of the figures entered into the registers. The municipal authorities take lively interest in the welfare of their respective institutions, and the manager of the Chanchal estate takes great interest in the Chanchal Dispensary.

*Maldah.—English Bazar Dispensary.*—This is a municipal dispensary in class II. Visited once by the District Magistrate. The Assistant Surgeon visited it daily. There were treated 185 in and 8,688 out-door patients, against 166 and 7,669 in 1885; the daily averages being 7 and 54 against 6 and 49, respectively. There were 25 deaths, or a rate of 13 5 per cent. against 38 and 22·8 in the previous 12 months. Sixty-one major and 460 minor operations were performed. There was one death after operation. The total expenditure was Rs. 2,762, of which the cost of establishment was Rs. 651, Europe medicines Rs. 239, and bazar medicines Rs. 82. The expenditure on diet was Rs. 177, on miscellaneous items Rs. 59, and on building and repairs Rs. 1,523. Rupees 31 were invested during the year. Government contributed Rs. 22, viz., Rs. 10 as cost of registers and forms and Rs. 12 for diet of police cases. Rupees 45 were received from local or other funds, and Rs. 31 as interest on investments. Rupees 1,523 were obtained by withdrawal of deposits, and Rs. 331 as subscriptions from Natives. Municipality paid Rs. 810.

*Maldah Town.*—A municipal dispensary in class II. Visited once by the District Magistrate and thrice by the Assistant Surgeon. There were treated 4,563 out-door, with a daily average of 34, against 4,303 and 36 in 1885. Six major and 130 minor operations were performed. The total expenditure was Rs. 594, whereof the cost of the establishment was Rs. 469, Europe medicines Rs. 16, and bazar medicines Rs. 16. The expenditure on miscellaneous items was Rs. 44, and on building and repairs Rs. 49. Government contributed Rs. 13 for forms and registers. Municipality paid Rs 467. Subscriptions from Natives were Rs. 114. The dispensary had an invested capital of Rs. 1,370 at the end of the year.

*Chanchal.*—A class IIIA dispensary, under the management of the Chanchal estate. It was visited once by the District Magistrate and thrice by the Assistant Surgeon. There were treated 3,140 out-patients, with a daily average of 21·99 against 2,235 and 19 78 in 1885. There were no in-patients treated. One hundred and fifty minor operations were performed; no major operation. The total expenditure was Rs. 1,039, whereof Rs 852 represent the cost of establishment, Rs. 88 of Europe medicines, and Rs. 24 of bazar medicines. Rupees 75 were expended on miscellaneous items.

Sonthal Pergunnahs District

The Civil Surgeon reports that there has been considerable improvement in the public health during the year, the mortality as compared with that of the previous year having decreased. The number of registered deaths was 21,408 against 28,883 in 1885. Five dispensaries worked in the district throughout the year, of which one was in class II, and under municipal control, two in class IIIB, and the rest in class IIIA, and are managed by local committees. All the dispensaries were in charge of Civil Hospital Assistants. With the exception of the dispensaries at Jamtara and Rajmehal, all the others treated both in-door and out-door patients. There were treated 157 in and 7,454 out-patients, against 239 and 7,140 in 1885. The daily averages were 5 and 52, against 7 and 50 respectively. "These figures," says the Civil Surgeon, "may be accepted as reliable." The managing bodies are said to take a fair amount of interest in their working, with the exception of Godda. Dr. Lyons says that the Sonthalis are a most superstitious people, and do not resort to the dispensaries as freely as the sick poor of other castes, who apparently appreciate the benefits of these institutions. The Deputy Commissioner remarks that there are numerous dispensaries maintained by missionaries to which Sonthals resort.

*Doomka.*—It is a class IIIB dispensary. There is no municipality at Doomka. The dispensary is under the management of a local committee, which held two meetings during the year. It was visited once by the Deputy Commissioner, and almost daily by the Civil Surgeon. A Civil Hospital Assistant was in charge, who received his entire pay, Rs. 35,

from the dispensary funds. There were treated 13 in and 1,875 out-patients, against 66 and 2 341 in 1885; the daily averages being ·32 and 13 against 2 and 15 respectively. There were four deaths among in-patients, against 12 in the previous year. Four major and 84 minor operations were performed. No death resulted after operation The total expenditure was Rs. 10,851 of which Rs. 663 was the cost of establishment, Re. 1 of Europe medicines, and Rs. 17 of bazar medicines. The cost of diet was Rs. 11. The expenditure on buildings was Rs. 2,859, and on miscellaneous items Rs. 38. The total income was Rs. 10,880, of which Government paid Rs 127, namely, Rs. 4 as cost of forms and registers; Rs. 120 as a special allowance, being the aid of Rs. 10 per mensem formerly paid out of the Estates Improvement Fund, now abolished; and Rs. 3 for diet of police cases. Rupees 207 were obtained as interest on investments. Rs. 3,066 were derived by withdrawal of deposits. Subscriptions from Europeans and Natives were Rs. 219 and Rs. 216 respectively. Rupees 7,025 were obtained from local funds. Rupees 7,262 were invested during the year. The dispensary had a closing balance of Rs. 28 in hand, and an invested capital of Rs. 5,980 at the end of the year.

*Deoghur.*—It is a municipal dispensary in class II, under the management of the local municipality, which held 12 meetings during the year. It was visited once by the Commissioner of the division and twice by the Civil Surgeon. The Civil Hospital Assistant of the sub division was in charge, and received Rs. 45 per mensem from the dispensary and Rs. 25 from Government. The minor establishment cost Rs. 24 per mensem. There were treated 113 in and 2,095 out-patients, against 142 and 1,883 in 1885; the daily averages were 3 and 12 against 4 and 10 respectively. There were 41 deaths among in-patients, against 74 in the previous year. This mortality was due to the moribund condition of a large number of cholera and dysentery cases admitted for treatment in hospital. Twelve major and 103 minor operations were performed. No deaths resulted after operation. The total expenditure was Rs. 1,254, of which Rs. 879 represent the cost of establishment, Rs 119 of Europe medicines, which were obtained from a private druggist, and Rs. 17 of bazar medicines. The cost of diet was Rs. 62. The expenditure on buildings was Rs. 101 and on miscellaneous items Rs. 76. The total income was Rs. 1,254, of which Government paid Rs 25, viz., Rs. 2 as cost of forms and registers, and Rs. 23 for dieting of police cases. Municipality paid Rs. 182. Rupees 108 were obtained as interest on investments. Subscriptions from Europeans and Natives amounted to Rs. 100 and Rs. 839 respectively. The dispensary had an invested capital of Rs. 3,000 at the end of the year.

*Godda.*—It is a class IIIB dispensary, managed by a local committee which held only one meeting during the year. It was visited twice by the Deputy Commissioner and once by the Civil Surgeon. The Civil Hospital Assistant of the sub-division was in charge, and received Rs. 10 monthly from the dispensary fund. There were treated 81 in and 908 out-patients, against 25 and 799 in 1885. The daily averages were 1·51 and 7·89, against 59 and 7 respectively. There were six deaths among in-patients against four in the previous year. One major and 43 minor operations were performed. The total expenditure was Rs. 2,593, of which Rs. 324 was the cost of establishment. Europe medicines were obtained from private druggists at a cost of Rs. 57. The cost of bazar medicines was Rs. 14, and diet of in-patients Rs. 51. The outlay on buildings was Rs. 8, and on miscellaneous charges Rs. 73. Government paid Rs. 130, namely, Rs. 2 for forms and registers, Rs. 8 for dieting of police cases, and Rs. 120 as special allowance. Rupees 104 were obtained as interest on investments. and Rs. 1 987 were derived by withdrawal of deposits. Subscriptions from Europeans and Natives amounted to Rs. 14 and Rs. 352 respectively. Rupees 2,069 were invested during the year.

*Jamtara.*—A class IIIA dispensary under the management of a local committee, which held one meeting during the year. The Civil Surgeon says that the committee do not take much interest in its working. It was visited once by the sub-divisional officer and twice by the Civil Surgeon. The Civil Hospital Assistant of the sub-division was in charge, and received Rs. 20 monthly from the dispensary funds. No in-patients. One thousand four hundred and forty-three out-patients were treated, against 1,045 in 1885; the daily average was 9·04 against 5·75 respectively. One major and 76 minor operations were performed. The total expenditure was Rs. 366, of which Rs. 281 was the cost of establishment. English medicines were obtained from a private druggist at a cost of Rs. 44, and bazar medicines cost Re. 1. The amount expended on buildings was Rs. 14 and on miscellaneous items Rs. 6. Rupees 20 were invested during the year. Government supplied forms and registers, the cost of which was Rs. 2. The chief income of the dispensary was derived from subscriptions, which were Rs. 311, against Rs. 330 in 1885. Rupees 20 were obtained as interest on investments.

*Rajmehal.*—It is a sub-divisional dispensary in class IIIA, managed by a committee which held seven meetings during the year. It was visited once by the Deputy Commissioner, and four or five times by the sub-divisional officer, but he omitted to make any remarks in the visitor's book. The Civil Surgeon inspected it twice. The Civil Hospital Assistant of the sub-division was in charge, and received Rs. 10 per mensem as an extra allowance from the dispensary funds. One thousand one hundred and thirty-three out-patients were treated, against 1,072 in 1885, with a daily average of 10 40 against 10·97. No in-patients. The prevailing diseases were malarious fevers, ophthalmia, skin diseases, rheumatic affections and ulcers. The Civil Surgeon says that, with the exception of fevers, which bear some relation to the state of the local public health, it is not quite possible to speak of the other named diseases, as they

do not find place in the district returns of the vital statistics. Ninety-three minor operations were performed. No major operations. The total expenditure was Rs. 248, of which Rs. 184 was the cost of establishment, and Rs. 9 of bazar medicines. The expenditure on miscellaneous items was Rs. 21. The total income of the dispensary was Rs. 284, of which Government paid Rs. 2-4-7 as cost of forms and registers. Rupees 20 were obtained by withdrawal of deposits and Rs. 13 as interest on investments. Subscriptions from Europeans and Natives were Rs. 22 and Rs. 209 respectively. Rupees 34 were invested during the year. The dispensary had a closing balance of Rs. 36, and an invested capital of Rs. 371 at the end of the year.

## CHOTA NAGPORE DIVISION.

**Manbhoom District.**

The Civil Surgeon says that the year under review has been healthier than the year previous, there being no epidemic of any consequence. The fever mortality, however, was greater than that of the previous year. Deaths from bowel-complaints and cholera were very few. There were three dispensaries in the district, one of which was in class II, and two in class IIIA. There were treated 504 in and 11,624 out-patients, against 587 and 8,565 in 1885; the daily averages being 20 and 86 against 26 and 72 respectively. The Civil Surgeon believes that the figures compiled by the Civil Hospital Assistants can be relied on.

*Purulia.*—A class II municipal dispensary. A sub-committee consisting of six members of the municipality exists. A meeting was convened regularly every month, when the accounts were examined and passed. The Civil Surgeon visits the dispensary daily. The Commissioner of the division visited it once, and the Deputy Commissioner visited the dispensary at intervals. A second grade Civil Hospital Assistant was in charge. There were treated 287 in and 7,784 out-patients, against 323 and 5,270 in 1885; the daily averages being 12 and 58 against 17 and 43 respectively. The most prevailing diseases among out-patients were fever, ophthalmia and skin diseases. There were 28 deaths among in-patients against 40 in 1885. Thirty-six major and 318 minor operations were performed. Of the former, the Civil Surgeon performed 19. Two deaths resulted after operation. The total expenditure was Rs. 1,839, whereof Rs. 1,332 represent the cost of establishment, Rs. 217 of Europe medicines, Rs. 42 of bazar medicines, and Rs. 170 of diet. The expenditure on miscellaneous items was Rs. 78. Government contributed Rs. 106, namely, Rs. 8 for forms and registers, and Rs. 98 for diet of police cases. Municipality paid Rs. 1,341. Subscriptions from Europeans and Natives were Rs. 149 and Rs. 243 respectively.

*Pandra.*—A class IIIA dispensary. The Civil Surgeon says, as the litigation of the Pandra estate is not yet over, it is difficult to say what the future of this dispensary will be, whether it will be closed or continued. At present all the expenses are paid by the Receiver appointed by the Civil Court. It is under the management of a committee, which met nine times during the year. The Civil Surgeon inspected it four times. A Civil Hospital Assistant was in charge. There were treated 100 in and 1,999 out-patients, against 94 and 1,942 in 1885; the daily averages being 4 and 14 against 4 and 18 respectively. There were three deaths among in-patients against five in 1885. One hundred and one minor operations were performed; no major operation. The total expenditure was Rs. 1,001. Government contributed Rs. 6 for forms and registers. Establishment cost Rs. 726, bazar medicines Rs. 22, Europe medicines Rs. 122, diet Rs. 69, and miscellaneous items Rs. 50. Rupees 12 were invested during the year. There was an invested capital of Rs. 339 at the end of the year.

*Gobindpore.*—A class IIIA sub-divisional dispensary, in charge of the Civil Hospital Assistant of the sub-division. It is under the management of a committee, which met eight times during the year. The Civil Surgeon inspected it four times. There were treated 117 in and 1,841 out-patients, against 170 and 1,353 in 1885; the daily averages being 3 and 13 against 4 and 10 respectively. There were 30 deaths against 25 in the previous year. The mortality is attributed to the fact that travellers are picked up by the police and brought to the dispensary in a moribund state. Two major and 54 minor operations were performed; no death resulted after operation. The total expenditure was Rs. 1,018, inclusive of the amount invested during the year. Government contributed Rs. 6 as cost of forms and registers. Subscriptions from Europeans were Rs. 52, and from Natives Rs. 502. Rupees 19 were obtained as interest on investments, Rs. 20 from local or other funds, and Rs. 420 from deposits withdrawn. Establishment cost Rs. 348, bazar medicines Rs. 14, Europe medicines Rs. 137, diet Rs. 57, miscellaneous charges Rs. 60, buildings or repairs Rs. 26, and invested during the year Rs. 376. At the end of the year there was an invested capital of Rs. 296.

**Hazaribagh District.**

The Civil Surgeon reports that the public health of the district during the year under review compared very favourably with that of the preceding year. Hazaribagh town and surroundings were exceptionally healthy during the year. There were three dispensaries in the district: two of these were in class II and one in class IIIB. There were treated 163 in and 8,244 out-patients, against 252 and 6,451 in 1885; the daily averages being 11 and 82 against 14 and 49 respectively. The increase in the number of out-patients and the daily average, the Civil Surgeon says, was chiefly due to the increased numbers treated at the Hazaribagh Dispensary. The Civil Surgeon believes the figures of the dispensaries to be correct. All the dispensaries were in charge of Civil Hospital Assistants. One of them was managed by the local municipality. The Chattra Dispensary, Dr. Moorhead says, though made over by Government in 1881 to the municipality, and report last year as

under municipal management, continued under a local committee, and the third at Burhee was managed by a local committee. The Hazaribagh Dispensary, the Civil Surgeon believes, is much appreciated by the people. The Chattra Dispensary is growing in popularity. The Burhee Dispensary is evidently not appreciated by the people.

*Hazaribagh.*—A municipal dispensary in class II. It was visited once by the Commissioner of the division, twice by the Deputy Commissioner, once by the Vice-Chairman of the municipality, and frequently by the Civil Surgeon. There were treated 161 in and 4,731 out-patients, against 238 and 3,154 in 1885; the daily averages being 11 and 57 against 14 and 27 respectively. The increase in the number of out-patients, the Civil Surgeon believes, was due to the greater popularity of the institution, and not to an increase of sickness. Twenty-eight deaths occurred among in-patients. Twenty major and 292 minor operations were performed; two deaths resulted after operation. The total expenditure amounted to Rs. 1,295, of which Government contributed Rs. 7 as cost of forms and registers. The cost of establishment was Rs. 633, of Europe medicines Rs. 107, of bazar medicines Rs. 42, and of diet Rs. 299. The expenditure on buildings was Rs. 23, and on miscellaneous items Rs. 141. Municipality paid Rs. 765. Subscriptions from Europeans and Natives were Rs. 242 and Rs. 272 respectively. Rupees 9 were received from local funds.

*Chattra.*—A municipal dispensary in class II, though made over by Government in 1881 to the municipality and reported in 1885 as under municipal management, continued under a local committee. The members of the committee were all, or nearly all, Municipal Commissioners, so that the institution was practically, though not formally, under municipal control. It was not visited by any of the civil officers, except the Munsif. The Civil Surgeon inspected it three times. A Civil Hospital Assistant was in charge. There were treated 2 in and 2,512 out-patients, against 14 and 2,117 in 1885; the daily averages being ·03 and 14 against ·467 and 11·09 respectively. No deaths occurred among in-patients. One major and 99 minor operations were performed. The total expenditure was Rs. 902, of which Rs. 537 represent the cost of establishment Government paid Rs. 2 as cost of forms and registers. The cost of Europe medicines was Rs. 282, of bazar medicines Rs. 7, and of miscellaneous items Rs. 76. Subscriptions from Europeans and Natives were Rs. 50 and Rs. 248 respectively. Municipality paid Rs. 602.

*Burhi.*—A class IIIB dispensary, governed by a local committee which met five times during the year It was not visited by any of the civil officers. The Civil Surgeon inspected it twice. A Civil Hospital Assistant was in charge. One thousand and one out-patients were treated against 1,180 in 1885, with a daily average of 10 and 11 respectively. Forty-two minor operations were performed; no major operation. The total expenditure was Rs. 1,112, of which Government contributed Rs. 170, namely, Re. 1 as cost of forms and registers and Rs. 169 as salaries. The expenditure on establishment was Rs. 433, on Europe medicines Rs. 337, on bazar medicines Rs. 9, on buildings or repairs Rs. 100, and on miscellaneous items Rs. 38. Rupees 195 were invested during the year. Subscriptions from Europeans and Natives were Rs. 44 and Rs. 423 respectively. Rupees 35 were obtained as interest on investments, and Rs. 398 were derived by withdrawal of deposits. At the end of the year there remained a cash balance of Rs. 37, and an invested capital of Rs. 754.

**Lohardugga District.** The Civil Surgeon says that, judging by the mortuary returns furnished monthly by the police, the general health of the district appears not to have been so good as in the previous year, but as registration is defective, it is impossible to draw any useful comparison. Cholera prevailed in certain parts of the district during the rainy season. There were three dispensaries in the district—one in class II and the other two in class IIIB. Two receive in and out-patients, and one out-door only. There were treated 244 in and 6,614 out-patients, against 191 and 6,102 in 1885; the daily averages being 10 and 67 against 12 and 60 respectively. The figures of the dispensaries, Dr. Swaine says, are fairly correct. One of the dispensaries is under the management of the municipality, and the other two are governed by local committees. The Civil Surgeon says that little or no interest is taken in any of them by the governing bodies, with the exception of Government officers, who are connected with them as *ex-officio* members.

*Ranchi.*—A municipal dispensary in class II. Visited daily by the Civil Surgeon, and occasionally by the European civil officers. A Civil Hospital Assistant was in charge, who received his entire pay from the municipality. There were treated 161 in and 3,971 out-patients, against 97 and 3,569 in 1885; the daily average being 7 and 37 against 6 and 36 respectively. The total number of deaths among in-patients was 29 as compared with 19 in the previous year. The chief causes are said to be dysentery among pilgrims admitted in a hopeless condition. Fifteen major, with four deaths, and 106 minor operations were performed. The total expenditure was Rs. 1,377, whereof Rs. 740 represent the cost of establishment, Rs. 175 of Europe medicines, which were obtained from private druggists, and Rs. 61 of bazar medicines. The cost of diet was Rs. 212. The expenditure on buildings was Rs. 96, and on miscellaneous items Rs. 93. Government paid Rs. 73, namely, Rs. 10 for forms and registers, and Rs. 63 for diet of police cases. Subscriptions from Europeans were Rs. 24, and from Natives Rs 240. Municipality paid Rs. 1,040.

*Palamow (Daltongunge).*—A dispensary in class IIIB, in charge of the Assistant Surgeon of the sub-division, who received his dispensary allowance from Government. It is managed by a local committee, which met three times during the year. Visited frequently by the Assistant Commissioner of the sub-division, Commissioner of the Chota Nagpore, and by the Deputy Commissioner of Lohardugga when on tour. It was inspected once by the Civil Surgeon.

There were treated 83 in and 1,250 out-patients, against 94 and 1,477 in 1885; the daily averages being 2 and 12 against 5 and 11 respectively. There were 13 deaths among the in-patients against 7 in the previous year. Eight major and 65 minor operations were performed. One death resulted after operation. The total expenditure was Rs. 949, of which Rs. 509 was the cost of establishment, Rs. 163 of Europe medicines, which were obtained from private sources, and Rs. 27 of bazar medicines. The cost of diet was Rs. 49. The expenditure on buildings was Rs. 129, and on miscellaneous items Rs. 72. Government paid Rs. 245, namely, Rs. 5 as cost of forms and registers, and Rs. 240 as dispensary allowance to the Assistant Surgeon. Subscriptions from Europeans were Rs. 82, and from Natives Rs. 684. Rupees 5 were obtained as interest on investments. There was a cash balance of Rs. 227 at the end of the year.

*Lohardugga.*—A class IIIB dispensary, under the management of a local committee which met once during the year. It was visited once by the Deputy Commissioner and twice by the Civil Surgeon. A Civil Hospital Assistant was in charge. There were treated 1,393 out-patients against 1,056 in 1885; the daily averages being 17 and 12 respectively. The principal diseases were malarious fever, ulcers, skin diseases, rheumatic affections and ophthalmia. Forty-nine minor operations were performed; no major operation. The total expenditure was Rs. 856, of which Rs. 560 was the cost of establishment, and Rs. 6 of bazar medicines. The cost of Europe medicines, which were purchased from private druggists, was Rs. 68. The expenditure on buildings or repairs was Rs. 10, and on miscellaneous items Rs. 19. Government paid Rs. 308, namely, Rs. 3 for forms and registers, Rs 186 as salaries, and Rs. 119 as special allowance. Rupees 7 were obtained as interest on investments, and Rs. 72 were derived by withdrawal of deposits. Subscriptions from Europeans and Natives were Rs. 11 and Rs. 489 respectively. Rupees 4 were received from local or other funds. Rupees 193 were invested during the year. There was a cash balance of Rs. 44, and an invested capital of Rs. 338 at the end of the year.

**Singbhoom District.**

The Civil Surgeon says that the health of the district in 1886, as compared with the previous year, and as shown by the mortuary returns, was better, inasmuch as the year was completely free from all epidemics. The total deaths were somewhat higher than in the preceding year, being 8,137 against 8,054 in 1885. This slight increase was due more probably to fluctuations in registrations of deaths than to actual increase of mortality. The health of the town of Chyebassa was also completely free from small-pox. Other diseases also prevailed less, and the mortality from them was lower than in the previous year. Fevers caused 86 deaths against 96 in 1885. There was only one dispensary in the district—the one located in Chyebassa.

*Chyebassa.*—A municipal dispensary in class II under the management of the Municipal Committee, which transacts all business connected with it at the ordinary meetings of the Municipal Committee. It was visited once by the Commissioner of the division, twice by the Deputy Commissioner, and daily by the Civil Surgeon. The Jail Civil Hospital Assistant was in charge. There were treated 2,188 out-patients against 1,658 in 1885; the daily average being 25 and 18 respectively. Ophthalmia, which forms the largest number of attendance at the dispensary, was more than in the previous year. Eight major and 37 minor operations were performed. No death resulted after operation. The total expenditure was Rs. 2,568, of which Rs. 204 represent the cost of establishment, Rs. 199 of Europe medicines, and Rs. 29 of bazar medicines. The cost of diet was Rs. 44. The expenditure on buildings was Rs. 60, and on miscellaneous charges was Rs. 108. Rupees 1,924 were invested during the year. Government paid Rs. 4 as cost of forms and registers. Subscriptions from Europeans and Natives were Rs. 154 and Rs. 125 respectively. Rupees 80 were obtained as interest on investments and Rs. 2,092 by withdrawal of deposits. Municipality paid Rs. 113.

I have the honour to be,

SIR,

Your most obedient servant,

A. J. COWIE,

*Inspector-General of Civil Hospitals, Bengal.*

APPENDIX.

# STATISTICAL TABLES.

## Statement No. 1.

*Showing the number of Dispensaries in Bengal during the year* 1886.

| 1 | | 3 | 4 | 5 | 6 | |
|---|---|---|---|---|---|---|
| Population of the Province. | Dispensaries. | Number open on 31st December 1885. | Number opened during the year. | Number closed during the year. | Number open on the last day of the year. | Remarks |
| 69,536,861 ... ... | Class I ... ... ... ... | 5 | ...... | ...... | 5 | * The transfer of dispensaries from one class to another caused the difference in the total under these classes. There is no column to indicate these in the statement. |
| | ,, II ... ... ... ... | 90 | 1 | ...... | 92* | |
| | ,, IIIA ... ... ... ... | 81 | ...... | ...... | 84* | |

# RESOLUTION.

MEDICAL.

*Dated Darjeeling, the* 1st *November* 1887.

READ—

The Report on the Charitable Dispensaries in Bengal for the year 1886.

Read also—

The Report for 1885 and the Resolution recorded thereon.

There does not appear to be any feature of particular importance in the administration of charitable dispensaries in Bengal during the year 1886. Perhaps the principal question which has presented itself for the consideration of Government has been in connection with the method of recruitment of Assistant Surgeons for the Provincial establishment. Hitherto this has been done by transfer from the Imperial list, but the Lieutenant-Governor understands that the officers in the large supernumerary list which resulted from the old system under which, previous to 1883, Government undertook to provide for all passed candidates have now been absorbed; and the time has apparently arrived when recruitment should, as in case of Civil Hospital Assistants, be made locally from licentiates of the Medical Schools. Another question of considerable importance was alluded to in last year's Resolution, on perusal of Dr. Cowie's expression of opinion that the time had come when those desirous of studying medicine should be required to contribute more largely towards their education than is the rule at present. The Inspector-General of Civil Hospitals was invited to express more fully, and at an early date, his views regarding the propriety of increasing the fees paid by the recipients of Medical education in this province; but as the report was not submitted by him until the end of August, and as there is a considerable diversity of opinion among the officers consulted, it is impossible to refer further to the matter at present.

2. On the 31st December 1885 there were 233 dispensaries under Government supervision, and another was opened at Daudnugger, in the district of Gya, during the year under review. It is reported that only one dispensary has been transferred to municipal management, and that no institution has been abolished throughout 1886.

3. The following table compares the work done in dispensaries during the last two years:—

| | In-door. | | | | | | | | | | Out-door. | | | | | | | | | | |
|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|
| | Under 25. | 25 to 50. | 50 to 75. | 75 to 100. | 100 to 250. | 250 to 500. | 500 to 750. | 750 to 1,000. | Upwards of 1,000. | Total. | Under 250. | 250 to 500. | 500 to 750. | 750 to 1,000. | 1,000 to 2,500. | 2,500 to 5,000. | 5,000 to 7,500. | 7,500 to 10,000. | Upwards of 10,000. | Total. |
| 1886 ... ... | 14 | 16 | 12 | 12 | 49 | 21 | 4 | 1 | 2 | 131 | ... | ... | 3 | 7 | 76 | 85 | 30 | 17 | 16 | 234 |
| Percentage... | 10·69 | 12·21 | 9·16 | 9·16 | 37·40 | 16·03 | 3·05 | ·76 | 1·53 | ... | ... | ... | 1·28 | 2·99 | 32·48 | 36·32 | 12·82 | 7·27 | 6·84 | ... |
| 1885 ... ... | 17 | 14 | 20 | 11 | 44 | 19 | 6 | 3 | 2 | 136 | ... | ... | 3 | 6 | 78 | 77 | 33 | 16 | 16 | 229 |
| Percentage... | 12·5 | 10·29 | 14·71 | 8·09 | 32·35 | 13·97 | 4·41 | 2·21 | 1·47 | ... | ... | ... | 1·31 | 2·62 | 34·06 | 33·62 | 14·41 | 6·99 | 6·99 | ... |

The total number of dispensaries which received in-door patients was 131 against 136 in the previous year, and there was a falling off in house-practice to the extent of 946 patients, while the ratio of mortality was 14·48 against 15·59 in 1885. The number of out-patients treated is, on the other hand, larger than that recorded in any year during the previous. decade There was also a large increase of 46,127 patients apparent in the returns of most districts in the total number of in-door and out-door cases treated at all the public charities in Bengal; but the figures continue to show that these institutions are not, as a rule, resorted to by the people as largely as might be wished; that the proportion of the population having recourse to them is still exceedingly low, and that the attendance at all but a few hospitals bears no relation to the presence or absence of epidemic disease in the different districts of the province. It is, however, gratifying to learn that in Dr. Cowie's opinion these charities are gaining in popularity, that there are apparently signs that the valuē of European medical science is being appreciated, and that more satisfactory work is being on the whole done.

4. Fair attention seems to have been paid to inspection by Civil Surgeons, and it is said that the reports submitted were carefully prepared and sufficiently searching. Six dispensaries were not inspected at all. This is an improvement on last year's return, but the Lieutenant-Governor trusts that in future all dispensaries in the province may be inspected. Supervision of the work done should in no case be limited to a perusal of the returns submitted by Civil Hospital Assistants, and regular inspection, a part of the duty of Civil Surgeons, which is clearly defined by the rules, ought invariably to be insisted upon. It is observed that, in spite of the remark made incidentally in paragraph 4 of last year's Resolution, the Inspector-General has again omitted to state how many institutions were inspected by himself during the year.

5. The total income and expenditure of the dispensaries during the year are shown below:—

*Income.*

| | Rs. | A. | P. |
|---|---|---|---|

*Expenditure.*

| | Rs. | A. | P. |
|---|---|---|---|
| On establishment ... ... ... | 2,16,045 | 14 | 5 |
| ,, bazar medicines ... ... | 9,357 | 12 | 11 |
| ,, European medicines, whether from Government store or purchased otherwise ... ... | 46,705 | 1 | 1 |
| ,, diet ... ... .. ... | 37,493 | 11 | 10 |
| ,, miscellaneous charges ... ... ... | 29,646 | 7 | 7 |
| ,, buildings and repairs ... ... ... | 46,325 | 13 | 4 |
| Invested during the year ... ... ... | 29,357 | 13 | 4 |
| Total expenditure | 4,14,932 | 10 | 6 |
| Cash balance on 31st December 1886 ... | 29,925 | 12 | 4 |

The opening balance on 1st January 1886, as shown above, is less by Rs. 2,728 than the closing balance of 1885 as given in that year's report. The explanation is somewhat confused, but the gist of it appears to be that an actual deficit was shown by six dispensaries.

6. The total receipts from Government amounted to Rs. 20,806 against Rs. 18,659 in the preceding year, Rs. 6,783 of the amount having been contributed to municipal dispensaries. After deduction, however, of the cost of registers and forms and diet of police cases, the contribution which Government makes to institutions that are now considered to be municipal is Rs. 4,164 in 1886 against Rs. 2,570 in 1885. The Government contribution towards the remaining dispensaries was Rs. 14,023, or Rs. 407 more than in the previous year.

7. The receipts from local sources amounted to Rs. 54,823 against Rs. 1,18,685 in 1885, the large decrease being due to the fact that last year the Monghyr dispensary alone received Rs. 68,000 as sale proceeds of house property belonging to that institution. Subscriptions to municipal institutions show a very large falling off, while those towards other institutions rose considerably, although not to the same extent. The amount received by the sale of

securities and withdrawal of deposits was Rs. 23,542 against Rs. 25,389 in 1885, the interest on the investments reached the sum of Rs. 32,423 against Rs. 30,890, and municipalities contributed Rs. 1,58,492 against Rs. 1,43,574 in the preceding year.

8. The gross expenditure on dispensaries, exclusive of the amounts invested, was Rs. 3,85,575, showing a total decrease of Rs. 999, there being a rise under three heads and a falling off under the remaining three. Rupees 29,357 were invested during the year under review.

ORDER—Ordered that a copy of the Resolution, with a copy of the Report, be submitted to the Government of India, Home Department, for information.

Ordered also that a copy of the Resolution be forwarded to the Inspector-General of Civil Hospitals, to the Sanitary Commissioner, Bengal, and to all Commissioners of Divisions, for information.

By order of the Lieutenant-Governor of Bengal,

J. WARE EDGAR,

*Offg. Chief Secy. to the Govt. of Bengal.*

# NOTES ON THE ANNUAL STATEMENTS

OF THE

# CHARITABLE DISPENSARIES

UNDER THE

## GOVERNMENT OF BENGAL

FOR THE YEAR

## 1887.

BY

A. HILSON, Esq., M.D.,

Offg. Inspector-General of Civil Hospitals, Bengal.

Calcutta:

PRINTED AT THE BENGAL SECRETARIAT PRESS.

1888.

# *Notes on the Annual Statements of the Charitable Dispensaries of Bengal for the year 1887.*

*Dated Calcutta, the* 11*th September* 1888.

## STATEMENT I.

THE total number of dispensaries in Bengal has increased by nine during the year, there having been 234 at the beginning and 243 at the close of it.

The dispensaries in class I, which comprises those which are supported solely by Government, have diminished by one, viz. that at Khoorda, which was made over to the charge of the District Board, and placed in class II. There were 92 dispensaries in class II at the beginning of the year, and 115 at the end of it, the difference, 23, being thus accounted for—

| | | |
|---|---|---|
| Transfer from class I | ... ... ... ... | 1 |
| " " " IIIA | ... ... ... ... | 10 |
| " " " IIIB | ... ... ... ... | 5 |
| New dispensaries of this class | ... ... ... ... | 7 |
| | Total ... | 23 |

The latter were opened at the following places :—

One at Shahebgunge in the Sonthal Pergunnahs.
" Thakurgan in the Dinagepore district.
" Halishahar in the 24-Pergunnahs.
" North Dum Dum in ditto.
" Dup Chanchia in the Bogra district.
" Buriganga in ditto ditto.
" Jaypur in ditto ditto.

In class IIIA, comprising dispensaries maintained by private individuals or associations, the number diminished by the transfer of ten to class II; while the opening of a new institution in this class was counterbalanced by the removal of another at Chandra in the Jessore district from Government supervision.

In class IIIB, consisting of institutions supported partly by private subscriptions or endowments and partly by Government or local funds, a decrease of three occurred by the transfer of five dispensaries to class II and the opening of two at Nayabashan and Cox's Bazar in the Midnapore and Chittagong districts respectively.

Five of the new dispensaries in class II having been opened late in the year, have furnished no returns of work done, and consequently the annual returns herewith submitted deal with 238 institutions only and not with 243, which is the total number shown in statement I.

## STATEMENT II.

2. The attendance of in-door patients has varied little in point of numbers from that of the preceding years; but an increase is observable among the out-patients, which may be accounted for by the opening of new dispensaries and by great unhealthiness in a few localities. The figures are as follows :—

| | | 1886. | 1887. |
|---|---|---|---|
| Total number of out-patients | ... | 1,006,457 | 1,055,465 |
| Ditto of in-patients | ... | 24,820 | 24,474 |
| Daily attendance of out-patients | ... | 7,233 | 7,582 |
| " average of in-door patients | ... | 1,115 | 1,105 |

A

The principal places where the out-door attendance showed an increase are—

| | Increase. | |
|---|---|---|
| Bettiah, Chumparun district | 7,545 | The Civil Surgeon is unable to give any explanation of this increase. |
| Contai, Midnapore do. ... | 6,103 | Attributed to the increased popularity of the dispensary. |
| Durbhunga, Durbhunga district. | 4,554 | Attributed to the increased popularity of the dispensary. |
| Monghyr, Monghyr district | 4,075 | Attributed to increased popularity of dispensary and greater sickness in the district. |
| Commilla, Tipperah do. ... | 3,177 | Attributed to an increase of fever cases. |
| Madhubani, Durbhanga district. | 2,382 | Attributed to the increased popularity of the dispensary. |
| Khurruckpore, Monghyr district. | 2,340 | Attributed to greater sickness in the district. |
| Chanchal, Maldah district ... | 2,291 | Not explained. |

In certain dispensaries there has been a marked decrease in the attendance, which is attributed to the healthiness of the particular districts in which they are situated, viz:—

| | Decrease of out-patients. |
|---|---|
| Sasseram in the Arrah district ... ... ... | 2,120 |
| Serajgunge „ Pubna „ ... ... ... | 2,120 |
| Patna „ Patna „ ... ... ... | 1,991 |
| Bally „ Howrah „ ... ... ... | 1,672 |
| Russapugla „ 24-Pergunnahs district ... ... | 1,410 |

3. The death-rate among the in-door patients throughout the whole province was 14·48 per cent. in 1886 and 12·71 in 1887, the fall in the latter year not corresponding with the increased mortality among the general population which stood at 21·99 per 1,000 in 1886 and rose to 23·46 in 1887.

The greatest rise in the death-rate of the in-door patients took place at Balasore, where a large number of pilgrims came under treatment in a moribund condition.

## Statement III.

4. Several changes having been introduced into this form since the issue of the last report, it is impossible in many cases to compare the prevalence of certain diseases with that of 1886. Some of the more common diseases which show an increase during the year are—

| | Patients treated in— 1886. | 1887. |
|---|---|---|
| Cholera ... ... ... ... | 5,277 | 6,300 |
| Rheumatic affections ... ... ... | 44,758 | 46,251 |
| Liver „ ... ... ... | 6,108 | 6,913 |
| Worms ... ... ... | 39,839 | 47,775 |
| Spleen diseases ... ... ... | 37,502 | 44,420 |
| Skin diseases ... ... ... | 80,478 | 95,478 |
| Ulcers ... ... ... | 54,236 | 58,062 |

A decrease is observable in the following:—

| | Patients treated in— 1886. | 1887. |
|---|---|---|
| Small-pox ... ... ... ... | 37 | 29 |
| Leprosy ... ... ... ... | 2,200 | 2,154 |
| Goitre ... ... ... ... | 71,650 | 61,594 |
| Dysentery ... ... ... ... | 28,165 | 27,936 |
| Diarrhœa ... ... ... ... | 28,538 | 27,003 |

## STATEMENTS IIIA AND IIIB.

*Surgical operations.*

| | 1886. | 1887. |
|---|---|---|
| Major ... ... ... ... | 3,454 | 4,139 |
| Minor ... ... ... ... | 52,620 | 54,189 |

5. It will thus be seen that there has been a fair increase during the year in the number of the more important operations. Still the amount of operative surgery compares very unfavourably with that of other parts of India. An analysis of the major operations gives the following results :—

*Statement showing the Dispensaries in which* 50 *major operations and upwards were performed during* 1887, *with the names of the operators.*

| NAME OF DISPENSARY. | Name of Operator. | Larger amputation. | Lithotomy. | Litholopaxy. | Ovariotomy. | Hernia strangulated and operated on. | Extraction of lens for cataract. | Other major operations. | Total. | GRAND TOTAL. |
|---|---|---|---|---|---|---|---|---|---|---|

6. The following medical officers having distinguished themselves by the amount of surgical work performed at their dispensaries during the year, I have much pleasure in bringing their names prominently to notice :—

Surgeon-Major Macrae.
Ditto Tomes.
Ditto Cobb.
Surgeon Polden.
Ditto Peck.
Dr. R. MacLeod.
Assistant Surgeon Raj Mohan Banerjee.
Ditto Upendra Nath Sen.
Ditto Ram Kali Gupta.

Assistant Surgeon Aughore Nath Basu.
Ditto Nobin Chunder Dutt.
Ditto Nemye Churn Chatterjee.
Ditto Gopal Chunder Chatterjee.
Hospital Assistant Sheik Akbar Ali.
Ditto Kumar Ali.

STATEMENT IV.

7. The proportion of men, women and children attending the dispensaries shows few variations of any consequence, and the same remark is applicable to the different classes of the patients as indicated by their religion.

8. The system which has hitherto prevailed, of calculating the ratio per cent. of daily attendance in this statement, having been found to be erroneous, has been changed so as to assimilate it to that in force in the Punjab, Bombay and other provinces. No comparison therefore can be made in the ratios of attendance with those of previous years.

STATEMENT V.

9. The following table, which shows the income and expenditure during the past two years, gives a fair idea of the financial position :—

| | 1886. Rs. | A. | P. | | 1887. Rs. | A. | P. |
|---|---|---|---|---|---|---|---|

| Cash balance on 31st December 1886 ... ... | 29,925 | 12 | 4 | ...... | 33,756 | 7 | 1 |

10. The cash balance on 1st January 1887 does not correspond with that of 31st December 1886, the difference, Rs. 4,172, being thus explained—

| | Rs. |
|---|---|
| 1. Removal of Chandra Dispensary from Government supervision, and consequent withdrawal of its cash balance ... ... ... ... | 2,648 |
| Deficit in the accounts of 1886 in two dispensaries discovered in 1887 ... ... ... | 1,551 |
| | 4,199 |
| The Cox's Bazar Dispensary having been placed on the Government list in 1887, opened with a cash balance of ... ... ... | 27 |
| Total ... | 4,172 |

It would be better if these transactions could be shown in the body of the statement, but there is no column for them.

11. *Income.*—The different items of the Government contributions are much the same as in the previous year, and amount to 5·3 per cent. of total income, exclusive of cash balance, against 5· in 1886. There has been a falling off in the sums received from local and municipal funds, a total of Rs. 2,13,314-13-7 having been paid in 1886 as compared with Rs. 2,06,666-7-1 in 1887.

The amount derived from the withdrawal of deposits is smaller by Rs. 3,351. European subscriptions have slightly decreased, while the native have increased by Rs. 4,970.

12. *Expenditure.*—The different charges incurred show little variation except under two heads, viz.—

1. Building and repairs, cost of which decreased by Rs. 10,234
2. Investments, which are smaller than in 1886 by Rs. 7,330.

Government contributions in support of the dispensaries amounted to Rs. 21,549, which is 5·7 per cent. of the total, the figures in 1886 being Rs. 20,806 or 5·4 per cent.

STATEMENT V—PART II.

13. The invested capital at the beginning of the year was Rs. 8,66,818-14-1, and at the end of it Rs. 8,68,661-7-8, so that the increase is trifling.

14. *General remarks.*—The inspection of the branch dispensaries by Civil Surgeons was fairly well performed, 8 having been visited 4 times, 28 three times, 94 twice, and 50 once, while only 5 were not visited.

The Inspector-General of Civil Hospitals is stated to have visited 12 dispensaries* during the year; but it is believed that others of which no record has been kept were also inspected.

15. The delay which has occurred in the submission of these statements is due partly to change in the forms already alluded to, and partly to the difficulty of getting correct returns from the dispensaries. An endeavour will be made to submit them more punctually next year.
